[Innovation, Growth, Leadership]

A company's ability to stand the test of time is built on several elements that work successfully together to attain a common goal. At Whirlpool Corporation, our recipe for winning includes smart innovation, strategic growth and industry leadership. We succeed because we always keep sight of our purpose and our passion: Improving lives every day through world-class products and services.

IMPROVING LIVES
CREATING VALUE

Whirlpool brand White Ice Kitchen Collection

Jeff M. Fettig
Chairman of the Board and
Chief Executive Officer

2012 was a year of outstanding performance at Whirlpool Corporation. At the end of 2011, we made the commitment to focus on those things we control to capitalize on our long-term growth opportunities. We said we would realize cost-based pricing actions, reduce our fixed-cost structure, deliver ongoing cost-productivity programs and accelerate product innovation to the marketplace. We achieved those goals. Our clear focus on these actions, along with strong execution throughout our business, yielded excellent results in 2012. These outcomes enabled us to strengthen our robust foundation and have allowed us to invest in our business for future success.

CHAIRMAN'S MESSAGE

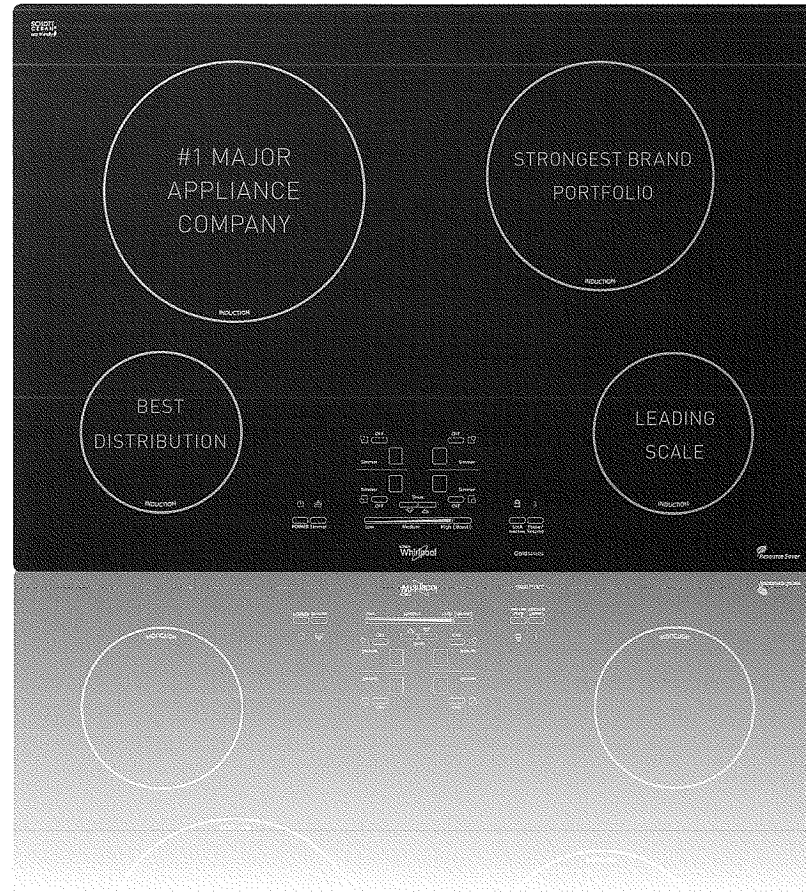

WHIRLPOOL CORPORATION

2012 RESULTS

Our consistent and disciplined execution of the actions we laid out resulted in four straight quarters of year-over-year ongoing business operations margin improvement in 2012.

- Revenues were up approximately 3 percent — excluding the impact of foreign currency and BEFIEX tax credits — as our strong price and mix continued throughout the year.
- Our underlying cash flow generation from ongoing business operations improved by more than \$550 million.
- \$155 million was returned to our shareholders during the year through dividends.

These results underscore the success we can achieve when we focus on the key drivers we control. As in prior years, 2012 brought external challenges. We faced negative demand in North America, Europe and Asia. In addition, raw material costs were more than \$300 million higher; inflation climbed to double digits in emerging markets; and we had severe currency devaluation in our key markets of Brazil and India. The 68,000 people of Whirlpool Corporation responded with great execution and a dedication to deliver on our performance commitments. For our people, it is about our core value of Integrity — doing what we say we will do. It's that simple.

REVENUE
\$ IN BILLIONS

ONGOING BUSINESS OPERATIONS
DILUTED EARNINGS PER SHARE*

*Non-GAAP measure; see page 29 for reconciliation.

During the year, we successfully implemented cost-based price increases and drove a favorable mix of products in the marketplace. The restructuring actions we announced in 2011 remain on track to deliver \$400 million in total program fixed-cost savings by the end of 2013. Our legacy legal liabilities are now largely behind us, and our strong underlying cash generation resulted in a \$1.2 billion cash balance at the end of the year. The cash generation, combined with promising trends in U.S. housing and growth opportunities in emerging markets, created positive momentum going into 2013.

INNOVATION, GROWTH AND LEADERSHIP

The company continued to be recognized for its product leadership in 2012, receiving top ratings from leading consumer product evaluation groups. We will accelerate our actions in 2013, with higher investments in product development, technology and marketing in every region and for every product category. These investments begin with innovation that meets consumers' needs, and then focuses everything we do to produce iconic, winning brands and products that consumers want in their homes.

We know that we can best compete by focusing on introducing new and innovative products, building strong brands, continuing to expand globally, increasing our margins and improving our cost structure. Our growth opportunities include expansion into emerging markets in Latin America, the Middle East and Asia. In Latin America, for example, our business outside the Brazilian market is producing record sales and operating profit. To capitalize

on this growth, we accelerated the launch of *Whirlpool* brand kitchen collections in 2012, and we will introduce a strong cadence of new products throughout our Latin America Region in 2013.

We are also continuing investments in higher-margin, faster-growing adjacent businesses, such as water filtration and small appliances. In 2012, we introduced new countertop appliances and accessories in Latin America, Europe and the United States, with additional launches targeted for 2013. At the same time, we maintained investments in our core appliance business to push the innovation that is fundamental to our growth. For example, in 2012 we introduced the *Whirlpool* brand Ice Collection, appliance suites with advanced innovation and design elements that were created based on the ways consumers intuitively use their appliances and expect them to fit in easily with their busy lifestyles.

These investments will position us well to succeed on a level competitive playing field that rewards investments in innovation, employees and manufacturing. As we begin 2013, we have appropriately set the bar for the future by promoting a fair trade environment in the United States, with the U.S. government voting to impose trade remedies on imports of unlawfully traded washers from South Korea and Mexico. This decision is a great victory for the U.S. appliance industry, and it is an important stride toward enforcing laws that enable a balanced competitive marketplace for manufacturers, their employees and consumers.

PRIORITIES FOR SUSTAINABLE SUCCESS

We will continue to deliver the highest levels of performance execution and build on the momentum of 2012. Our 2013 operating priorities of **Winning Products | Winning Performance | Winning People** will be crucial to our success and will support the achievement of our long-term growth strategy through:

- Appliance ownership growth in new and emerging markets
- Increased investments in our consumer-relevant product innovations
- Growth in our higher-margin adjacent businesses
- Continued cost- and capacity-reduction initiatives
- Advancing our global product leadership

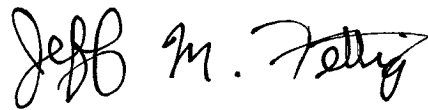

Our ability to move our business forward with focus, consistency, discipline and speed will strengthen our industry leadership this year and in the years to come. We are encouraged by positive global trends that will allow us to gain better traction from our actions. We see structural demand growth returning in the U.S., our largest market, driven by improving housing starts, a modest return in discretionary spending and accelerated appliance replacement, based on typical usage cycles. Growth opportunities in emerging markets are also expanding, with low appliance penetration levels in key regions and strong underlying fundamentals. Our target

of 8 percent operating margins by 2014 is well within our reach, as we further improve the mix of innovative new products, broaden our higher-margin adjacent businesses, continue executing our cost- and capacity-reduction programs and maintain cost productivity.

In 2013, we will continue to make progress on our roadmap for growth with great brands that bring leading consumer-relevant innovation into consumers' homes through outstanding products. This map is a proven course for our sustained success, framing the positive performance we expect and creating long-term value for our shareholders.

At Whirlpool, we have only seen the beginning of our return to value-creating results. We believe that the best is yet to come as we work together, evolving into a leading global branded consumer-products company.

Sincerely,

Jeff M. Fettig

Chairman of the Board and Chief Executive Officer

[Innovation, Growth, Leadership]

Quality. Ease. Integrity. It begins with a deep entrepreneurial spirit and a clear sense of purpose — to create high-quality products that fit perfectly within the home. This vision unifies us and challenges us to be agile, smart and to always improve. We are inspired by an acute understanding of what our consumers want and how they use appliances in their daily lives. And we invest time, resources and discipline to infuse that awareness into everything we design.

[Innovation, Growth, Leadership]

Sophisticated. Not complicated. At Whirlpool Corporation, we advance technology to the point of simplicity, creating innovation that's forward-thinking for what we choose to put in it — and what we don't. At Whirlpool, making the best appliances through constant innovation is a given. Like you, we never stop seeking smarter ways to help run a home. Great design that fits seamlessly into life ... and is truly a pleasure to live with.

INNOVATION
IS IN THE DETAILS

Appliances from Whirlpool Corporation do things the way you do them. Your intuition for how to get things done is something we value so much, we've put it into our appliances — making guesswork a thing of the past. Every machine is designed to help you manage your home precisely the way you want — easier, faster and smarter.

Products like the *Whirlpool* brand *Duet* Steam front-load laundry pair use technology to sense and adapt to the needs of each load washed. By adapting to each situation, intuitive sensors make key refinements — precisely adjusting detergent and water levels for the best clean possible — getting great results while using less water and energy. Every detail is attended to.

[Innovation, Growth, Leadership]

At Whirlpool Corporation, we are extending our portfolio of leading brands across all markets and appliance categories, reaching consumers with new and exciting products in nearly every part of the world. We have experienced tremendous growth as more consumers in emerging markets – like Latin America, China, India and the Middle East – are able to purchase appliances. Through our nimble regional manufacturing and supply chain organizations, along with our restructuring actions, we are ready to meet their needs with products that fit their lifestyles.

GLOBAL STRATEGY

REGIONAL EXECUTION

Brastemp brand *Active!* washer

Inspired by the people who use our products, we anticipate needs and create modern solutions that fit their unique lifestyles. In Brazil, the *Brastemp* brand *Active!* washers offer a Smart & Fast system that washes clothes quickly while providing the leading design and quality our consumers expect. Similarly, the *Whirlpool* brand *ACE* Wash Station meets the needs of consumers in India who have smaller living areas, taking less space and allowing easy movement from location to location within the home. Our deeply embedded consumer-centric innovation capability continuously produces results through strong brands to improve consumers' lives.

Best New Product

[Innovation, Growth, Leadership]

We are never satisfied with the status quo, always looking ahead to find solutions for our consumers beyond core appliances. In 2012, we extended our accessories business into Latin America, launching new lines through our *Consul* and *Brastemp* brands. Simple, easy-to-use products that work seamlessly with our major appliances. That is product leadership — innovation that provides lasting value for consumers and shareholders.

Consul brand *Conserva Facil*
vacuum packaging line

Expansion into adjacent businesses is a rapidly growing, value-creating part of our global strategy. From our original expand-the-core product segment, the high-quality *KitchenAid* Stand Mixer, to today's blenders, food processors, cookware, textiles, water purifying products and garage organization, our branded consumer product businesses now represent approximately 22 percent of our annual revenues. In the kitchen, laundry room and outside the home, we provide compelling consumer product solutions.

[Innovation, Growth, Leadership]

In 2012, we launched new cooking products in North America from our new Cleveland, Tenn., manufacturing facility. This state-of-the-art production facility and distribution center is the largest premium cooking plant in the world. We anticipate earning LEED (Leadership in Energy and Environmental Design) Gold certification in recognition of the facility's energy efficient and technologically advanced manufacturing processes. The *Maytag* brand 30-inch electric double wall oven — manufactured in the Cleveland facility — offers Power Preheat and *EvenAir* true convection. It is built to cook everything from dinner for two to large family feasts. Quality, innovation, performance. That's leadership.

Maytag brand 30-inch electric double wall oven

At Whirlpool Corporation, we set the standard for the industry. From a strong foundation of timeless, classic design and unmatched craftsmanship, we strive to be better, stronger and faster. Today's excellence is the basis for tomorrow's even better solutions. This mindset infuses everything we do. From concept to manufacturing to efficiently providing products to consumers, we push ourselves to deliver an unmatched pipeline of new products. In 2013, we are increasing our investments in new innovation and marketing because we believe that the best way to grow, expand margins and win in the marketplace is through product innovation. This is central to our growth, and it's the cornerstone for maintaining our consumers' trust.

68,000
employees

OUR PEOPLE ARE THE FOUNDATION OF OUR SUCCESS.

[Innovation, Growth, Leadership]

The best possible performance requires the best possible talent. In every corner of the company, our 68,000 employees are empowered to be both bold and innovative in a performance-driven environment that rewards results. We bring our different experiences and backgrounds together to unlock new, relevant consumer solutions. Our leadership and diversity are recognized by others. For example, the company has attained a perfect score of 100 from the Human Rights Campaign's U.S. Corporate Equality Index for nine consecutive years. Together, we create the strongest and most innovative brands around the world. We have deep-seated ethical standards — our values of Integrity, Respect, Diversity and Inclusion, Teamwork and the Spirit of Winning are the core of who we are and how we work. That's Whirlpool.

QUALITY, EXCELLENCE, STRENGTH
OUR PEOPLE

At Whirlpool Corporation, we believe that innovation comes from anyone and anywhere within our company. Every room is a draft room. Every person an inventor. And every mind holds the next big idea that will change our company and transform the lives of our consumers.

Manufacturing employee
in Brazil

Every day we strive to craft solutions that minimize the effect on the environment while transforming the lives of our customers and communities. Because of our commitment to water efficiency, we know that water is valuable — a person's water intake is one of the most important factors for health, preventing disease and protecting the body against aging. Therefore, it is important to ensure its quality and purity. We designed the *Brastemp* brand's Water Purifier with a filtration system that ensures 100 percent pure water, free of chlorine and fluorine while retaining minerals essential for health. The purifier also helps reduce the number of plastic bottles in landfills — that's healthier for you and the environment.

Brastemp brand *Ativa!*
Water Purifier

[Innovation, Growth, Leadership]

Sustainable products. Sustainable homes. Sustainable communities. We know how to translate those values and needs into products, services and community impact. Delivered effortlessly to fit within everyday life. This commitment runs deep. That is why we continue to develop innovative products that minimize environmental impact; run our factories efficiently; and volunteer in our communities. It is at the heart of what we do and our investment in the future.

THE SMALLEST THINGS
MAKE THE BIGGEST DIFFERENCE

[Innovation, Growth, Leadership]

We were focused on sustainability long before it became the norm. Constant improvement is not an option ... it's our imperative. From reducing our water and energy use, cutting our emissions and waste, and crafting highly efficient products, our perspective is holistic. We are helping to develop new standards that look at an appliance across its entire life cycle — from manufacturing to home use to end of life. We also have set vigorous goals for today and the future. We are on track to significantly exceed our 2012 greenhouse gas reduction goal, and we are targeting zero manufacturing landfill waste by 2022. Driving value beyond the expected, we will continue to push to do more with less while leading responsibly.

INNOVATIVE SOLUTIONS
THAT IS OUR RESPONSIBILITY

The *Bauknecht* brand six-litre dishwasher sets new standards in performance and efficiency, combining perfect cleaning results with low resource consumption. It earned the 2012 Kitchen Innovation of the Year Award in Europe.

The new office complex in Benton Harbor, Mich., is LEED Platinum Certified, delivering a positive, eco-friendly work environment.

People matter. It is for this reason that we maintain strong connections to the communities where our employees live and work. We hold a fundamental belief that there is more we can accomplish by further focusing our talent and resources to help meet community needs. Through our signature charities, volunteerism and Whirlpool Foundation strategic initiatives, we are finding new, creative ways to make lasting community investments.

[Innovation, Growth, Leadership]

Whirlpool Corporation drives economic growth by investing in people who design, engineer and assemble our products, and these same people help build up our communities. We have built a culture of responsibility that is good for our business, the environment and society overall. Our culture of doing the right things, quietly working behind the scenes to strengthen the economic and social fabric of the communities in which we operate, has enabled our consumers to trust us and team up with us. By joining together with others, we nurture positive, sustaining and thriving communities. This allows us to focus our investments back into the very communities that drive our success, creating a culture of collective impact.

73rd Senior PGA Championship, Presented by *KitchenAid*

Whirlpool Corporation has teamed up with nonprofit organizations and foundations in our headquarters community of Benton Harbor, Mich., to develop a common strategy for community improvement. The Harbor Shores development — which includes a Jack Nicklaus Signature golf course — is one of many local community projects resulting from that work. The golf course operates as a nonprofit, with all profits being reinvested in the Benton Harbor community. In May, the PGA® of America joined with Whirlpool Corporation's *KitchenAid* brand to bring the top senior professional golfers, international media and golf fans to Southwest Michigan for the 73rd Senior PGA Championship, hosted at The Golf Club at Harbor Shores. In conjunction with the Senior PGA Championship, the PGA® of America pledged \$300,000 to the Boys & Girls Club® of Benton Harbor.

73rd Senior PGA Championship,
presented by *KitchenAid*

FINANCIAL SUMMARY

The following is a summary of Whirlpool Corporation's financial condition and results of operations for 2012, 2011 and 2010. For a more complete understanding of our financial condition and results, this summary should be read together with Whirlpool Corporation's Consolidated Financial Statements and related notes, and "Management's Discussion and Analysis." This information appears in the Financial Supplement to the Company's Proxy Statement and in the Financial Supplement to the 2012 Annual Report on Form 10-K filed with the Securities and Exchange Commission, both of which are also available on the company's website at www.WhirlpoolCorp.com.

FORWARD-LOOKING PERSPECTIVE

We currently estimate earnings per diluted share and industry demand for 2013 to be within the following ranges:

	2013 Outlook
Estimated GAAP diluted earnings per share, for the year ending December 31, 2013	\$9.80–\$10.30
Including:	
BEFLEX credits	\$(0.81)
Restructuring expense	\$1.75
U.S. Energy Tax Credits ⁽¹⁾	\$(1.50)
Estimated ongoing business operations diluted earnings per share	\$9.25–\$9.75
Industry demand	
North America	2%–3%
Latin America	3%–5%
EMEA	0%–0%
Asia	3%–5%

(1) 2013 Outlook includes the expected impact of the U.S. Energy Tax Credits earned in 2012 and 2013. The benefit earned for both years will be recognized in 2013.

For the full-year 2013, we expect to generate free cash flow between \$600 million and \$650 million, including restructuring cash outlays of up to \$245 million, capital spending of \$600 million to \$650 million and U.S. pension contributions of up to \$140 million.

The table below reconciles projected 2013 cash provided by operations determined in accordance with GAAP to free cash flow, a non-GAAP measure. Management believes that free cash flow provides stockholders with a relevant measure of liquidity and a useful basis for assessing Whirlpool's ability to fund its activities and obligations. There are limitations to using non-GAAP financial measures, including the difficulty associated with comparing companies that use similarly named non-GAAP measures whose calculations may differ from our calculations. We define free cash flow as cash provided by continuing operations after capital expenditures and proceeds from the sale of assets/businesses.

	2013 Outlook
<i>(Billions of dollars)</i>	
Cash provided by operating activities	\$1.2–\$1.3
Capital expenditures and proceeds from sale of assets/businesses	(0.6)–(0.65)
Free cash flow	\$0.6–\$0.65

The projections above are based on many estimates and are inherently subject to change based on future decisions made by management and the Board of Directors of Whirlpool, and significant economic, competitive and other uncertainties and contingencies.

ONGOING BUSINESS OPERATIONS DILUTED EARNINGS PER SHARE

The reconciliation provided below reconciles the non-GAAP financial measure, ongoing business operations diluted earnings per share, with the most directly comparable GAAP financial measure, reported diluted earnings per share, for the twelve months ended December 31, 2012 and December 31, 2011. For more information, see document titled "GAAP Reconciliations" at investors.WhirlpoolCorp.com/annuals.cfm.

	Twelve Months Ended December 31,	
	2012	2011
Reported diluted earnings per share	\$ 5.06	\$ 4.99
Restructuring expense	2.15	1.13
Brazilian tax credits (BEFLEX)	(0.47)	(3.41)
Brazilian collection dispute & antitrust resolutions	0.32	4.85
Investment and intangible impairment	0.12	—
Benefit plan curtailment gain	(0.38)	(0.28)
Contract and patent resolutions	0.17	—
Supplier quality recovery	—	(0.49)
Energy Tax Credits (\$366 million)	—	(4.68)
Supplier-related quality issue	—	(0.06)
Tax rate adjustment	0.08	—
Ongoing business operations diluted earnings per share	\$ 7.05	\$ 2.05

ONGOING BUSINESS OPERATIONS CASH FLOW

The reconciliation provided below reconciles the non-GAAP financial measure, ongoing business operations cash flow, with the most directly comparable GAAP financial measure, cash provided by operating activities, for the twelve months ended December 31, 2012 and December 31, 2011. For more information, see document titled "GAAP Reconciliations" at investors.WhirlpoolCorp.com/annuals.cfm.

<i>(Billions of dollars)</i>	2012	2011
Cash provided by operating activities	\$ 0.7	\$ 0.5
Capital expenditures and proceeds from sale of assets	(0.5)	(0.6)
Free cash flow	\$ 0.2	\$(0.1)
Brazilian collection dispute	0.3	0.3
Antitrust resolutions	0.1	0.0
Restructuring cash	0.2	0.1
Brazilian tax credits	(0.0)	(0.3)
Supplier quality recovery	—	(0.1)
Contract and patent resolutions	0.0	—
Pension contributions	0.2	0.3
Ongoing business operations cash flow	\$ 0.9	\$ 0.3

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by us or on our behalf. Certain statements contained in this annual report, including those within the forward-looking perspective section within the Management's Discussion and Analysis, and other written and oral statements made from time to time by us or on our behalf do not relate strictly to historical or current facts and may contain forward-looking statements that reflect our current views with respect to future events and financial performance. As such, they are considered "forward-looking statements" which provide current expectations or forecasts of future events. Such statements can be identified by the use of terminology such as "may," "could," "will," "should," "possible," "plan," "predict," "forecast," "potential," "anticipate," "estimate," "expect," "project," "intend," "believe," "may impact," "on track," and similar words or expressions. Our forward-looking statements generally relate to our growth strategies, financial results, product development, and sales efforts. These forward-looking statements should be considered with the understanding that such statements involve a variety of risks and uncertainties, known and unknown, and may be affected by inaccurate assumptions. Consequently, no forward-looking statement can be guaranteed and actual results may vary materially.

This document contains forward-looking statements about Whirlpool Corporation and its consolidated subsidiaries ("Whirlpool") that speak only as of this date. Whirlpool disclaims any obligation to update these statements. Forward-looking statements in this document may include, but are not limited to, statements regarding expected earnings per share, cash flow, productivity and material and oil-related prices. Many risks, contingencies and uncertainties could cause actual results to differ materially from Whirlpool's forward-looking statements. Among these factors are: (1) intense competition in the home appliance industry reflecting the impact of both new and established global competitors, including Asian and European manufacturers; (2) Whirlpool's ability to continue its relationship with significant trade customers and the ability of these trade customers to maintain or increase market share; (3) changes in economic conditions which affect demand for our products, including the strength of the building industry and the level of interest rates; (4) inventory and other asset risk; (5) risks related to our international operations, including changes in foreign regulations, regulatory compliance and disruptions arising from natural disasters or terrorist attacks; (6) the uncertain global economy; (7) the ability of Whirlpool to achieve its business plans, productivity improvements, cost control, price increases, leveraging of its global operating platform, and acceleration of the rate of innovation; (8) Whirlpool's ability to maintain its reputation and brand image; (9) fluctuations in the cost of key materials (including steel, oil, plastic, resins, copper and aluminum) and components and the ability of Whirlpool to offset cost increases; (10) litigation, tax, and legal compliance risk and costs, especially costs which may be materially different from the amount we expect to incur or have accrued for; (11) product liability and product recall costs; (12) the effects and costs of governmental investigations or related actions by third parties; (13) Whirlpool's ability to obtain and protect intellectual property rights; (14) the ability of suppliers of critical parts, components and manufacturing equipment to deliver sufficient quantities to Whirlpool in a timely and cost-effective manner; (15) health care cost trends, regulatory changes and variations between results and estimates that could increase

future funding obligations for pension and postretirement benefit plans; (16) information technology system failures and data security breaches; (17) the impact of labor relations; (18) our ability to attract, develop and retain executives and other qualified employees; (19) changes in the legal and regulatory environment including environmental and health and safety regulations; and (20) the ability of Whirlpool to manage foreign currency fluctuations.

We undertake no obligation to update any forward-looking statement, and investors are advised to review disclosures in our filings with the Securities and Exchange Commission. It is not possible to foresee or identify all factors that could cause actual results to differ from expected or historic results. Therefore, investors should not consider the foregoing factors to be an exhaustive statement of all risks, uncertainties, or factors that could potentially cause actual results to differ from forward-looking statements.

Additional information concerning these and other factors can be found in Whirlpool Corporation's filings with the Securities and Exchange Commission, including the most recent annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

PERFORMANCE GRAPH

The graph below depicts the yearly dollar change in the cumulative total stockholder return on our common stock with the cumulative total return of Standard & Poor's (S&P) Composite 500 Stock Index and the cumulative total return of the S&P 500 Household Durables Index for the years 2007 through 2012.* The graph assumes \$100 was invested on December 31, 2007, in Whirlpool Corporation common stock, the S&P 500 and the S&P Household Durables Index.

*Cumulative total return is measured by dividing (1) the sum of (a) the cumulative amount of the dividends for the measurement period, assuming dividend reinvestment, and (b) the difference between share price at the end and at the beginning of the measurement period by (2) the share price at the beginning of the measurement period.

TOTAL RETURN TO SHAREHOLDERS

Report by Management on the Consolidated Financial Statements

The management of Whirlpool Corporation has prepared the accompanying financial statements. The financial statements have been audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, based upon their audits, expresses the opinion that these financial statements present fairly the consolidated financial position, statements of income and cash flows of Whirlpool and its subsidiaries in accordance with accounting principles generally accepted in the United States. Their audits are conducted in conformity with the auditing standards of the Public Company Accounting Oversight Board (United States).

The financial statements were prepared from the Company's accounting records, books and accounts which, in reasonable detail, accurately and fairly reflect all material transactions. The Company maintains a system of internal controls designed to provide reasonable assurance that the Company's books and records, and the Company's assets are maintained and accounted for, in accordance with management's authorizations. The Company's accounting records, compliance with policies and internal controls are regularly reviewed by an internal audit staff.

The audit committee of the Board of Directors of the Company is composed of five independent directors who, in the opinion of the board, meet the relevant financial experience, literacy, and expertise requirements. The audit committee provides independent and objective oversight of the Company's accounting functions and internal controls and monitors (1) the objectivity of the Company's financial statements, (2) the Company's compliance with legal and regulatory requirements, (3) the independent registered public accounting firm's qualifications and independence, and (4) the performance of the Company's internal audit function and independent registered public accounting firm. In performing these functions, the committee has the responsibility to review and discuss the annual audited financial statements and quarterly financial statements and related reports with management and the independent registered public accounting firm, including the Company's disclosures under "Management's Discussion and Analysis of Financial Condition and Results of Operations," to monitor the adequacy of financial disclosure. The committee also has the responsibility to retain and terminate the Company's independent registered public accounting firm and exercise the committee's sole authority to review and approve all audit engagement fees and terms and pre-approve the nature, extent, and cost of all non-audit services provided by the independent registered public accounting firm.

Management's Report on Internal Control Over Financial Reporting

The management of Whirlpool Corporation is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. Whirlpool's internal control system is designed to provide reasonable assurance to Whirlpool's management and board of directors regarding the reliability of financial reporting and the preparation and fair presentation of published financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

The management of Whirlpool assessed the effectiveness of Whirlpool's internal control over financial reporting as of December 31, 2012. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework*. Based on our assessment and those criteria, management believes that Whirlpool maintained effective internal control over financial reporting as of December 31, 2012.

Whirlpool's independent registered public accounting firm has issued an audit report on its assessment of Whirlpool's internal control over financial reporting. This report appears on page 39.

Report of Independent Registered Public Accounting Firm

The Stockholders and Board of Directors

Whirlpool Corporation

We have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Whirlpool Corporation as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity (not presented separately here) and cash flows for each of the three years in the period ended December 31, 2012, and in our report dated February 19, 2013, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying financial statements (presented on pages 32 through 35) is fairly stated, in all material respects from which it has been derived.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Whirlpool Corporation's internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 19, 2013 expressed an unqualified opinion thereon.

Ernst + Young LLP

Chicago, Illinois
February 19, 2013

Report of Independent Registered Public Accounting Firm

The Stockholders and Board of Directors

Whirlpool Corporation

We have audited Whirlpool Corporation's internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Whirlpool Corporation's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Whirlpool Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Whirlpool Corporation as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2012, and our report dated February 19, 2013 expressed an unqualified opinion thereon.
