Please refer to section in Part II of this Offering Statement entitled "Plan of Distribution" for more detailed information on the Company's Plan of Offering.

ITEM 5. Unregistered Securities Issued or Sold Within One Year

- (a) Upon its foundation and organization, the Company issued 100% of its Class A Membership Units to Fundrise Manager 906 H Street NE, LLC. Fundrise 906 H Street NE, LLC has received a total of \$700,000 from Class B members in exchange for 14 Class B Membership Units, which represented 99% of the Company. Fundrise Manager 906 H Street NE LLC contributed \$7,070.71 in capital in exchange for the 1 Class A Membership Unit, which represents 1% of the Company. Subsequent to closing, the Class A Membership Unit was subject to a forward split at a ratio of 140 for 1, resulting in 140 Class A Membership Units issued and outstanding.
- (b) The Company sold unregistered securities within one year prior to the filing of this Form 1-A. Specifically, the Company sold 14 units at \$50,000 of its Class B Membership Units in a private offering that was exempt from registration pursuant to the exemption provided by Rule 506 under the Securities Act of 1933. To date, the Company has received a total of \$700,000, with each unit sold for \$50,000, except for two Class B Membership Units which were split into increments that sold for \$25,000. The following are the purchasers of the Class B Membership Units of the Company: Herbert Miller, Benjamin Miller, and Daniel Miller who each hold more than 10% of the Company, and other investors who each hold less than 10% of the Company. Subsequent to

closing, the Class B Membership Units were subject to a forward split at a ratio of 740 for 1, resulting in 10,360 Class B Membership Units issued and outstanding.

Prior to the offering of the Class C Membership Units, in order to simplify the ownership structure of the Company, Management chose to split the units of the Class A Member and Class B Members so that each unit would be valued at \$100 per unit, which price the Company is also selling the Class C units. As a result of this forward split, the Class A Member was issued 140 Class A units at an increase per unit of \$4.88. As a result of this forward split, the Class B Members were issued 10,360 Class B units at an increase per unit of \$4.88. Combined, the dilutive book value effect to the Class C Members is \$28.93 per unit. In addition, as described in section 6.4 of the Operating Agreement, the Class A Member shall never be diluted below one percent (1%), which has a dilutive effect on the Class B and Class C units.

- (c) The sales by Fundrise 906 H Street NE, LLC described above were made without registration under the Securities Act of 1933 in reliance on the exemption provided by Rule 506 of Regulation D promulgated thereunder. A Form D was filed with regard to this offering on June 1, 2012.

PART II
OFFERING CIRCULAR

Fundrise 906 H Street NE, LLC

7400 Beaufont Springs Drive, Suite 300, North Chesterfield, VA 23225
(202) 584-0550

Dated: February XX, 2013

3,500 Class C Membership Units

This Offering Circular relates to the offering (the "Offering") of up to 3,500 Class C Membership Units (the "Units") in Fundrise 906 H Street NE, LLC (the "Company," "we" or "us"). Each Unit will represent the right to 0.0071% of the percentage interest and 0.00505% of the distributions of Cash Flow of the Company. The 0.0071% percentage interest is the percentage of ownership each membership unit represents as a percentage of the total issued units (1 of 14,000 units; 140 Class A Units plus 10,360 Class B Units plus 3,500 Class C Membership Units equals 14,000 total units). The percentage interest of each unit does not vary daily, monthly or annually unless the Company raises additional equity capital, which would thereby dilute each unit's percentage interest. The Offering will commence promptly after the date of this Offering Circular and will close upon the earlier of (1) the sale of 3,500 Units, (2) one year from the date this Offering begins, or (3) a date prior to one year from the date this Offering begins that is so determined by the Manager (the "Offering Period"). See the section entitled "Distributions" for a discussion of the term "Cash Flow."

The Class C Membership Units have no redemption, right to sell, assign, or transfer. Investors will have no rights to contribute to, direct or vote on the management of the Company's affairs, including whether or not the Company should dissolve. The Class C Membership Units receives Financial Rights, which are rights to share in distributions from the Company. Class C Membership Units receive the right to inspect the Company's books and records. The Class C Membership Units receive no rights precedent to interest held by Class A and Class B Members. The Class C Membership Units do not receive special rights in the event of bankruptcy. If the Company is dissolved, the Manager shall wind up its affairs as described in Section 7 of the Operating Agreement.

Fundrise Manager 906 H Street NE, LLC (the "Manager") is the Managing Member of the Company and currently owns 140 Class A Membership Units. There currently are 10,360 Class B Membership Units and no Class C Membership Units outstanding. If all 3,500 Units are purchased, they would represent 25.00% of all issued and outstanding membership interests, with the aggregate right to 17.68% of any distributed Cash Flows. The percentage interest is based on a calculation of one membership unit divided by the total number of outstanding membership units (1 unit / 14,000 units), of which 3,500 units would be offered to the local public or 25% of all issued membership units (3,500 units / 14,000 units).

There are four primary sources of anticipated cash flow distributions: (1) net income from rent payments, both from potential fixed rent and from percentage rent, which percentage rent is calculated as a share of the tenants sales and/or profits; (2) distributions from a refinance based on a lending institution providing additional capital proceeds as a result of collateralizing a future rental income stream and the value of the building; (3) distributions from a refinance based on a lending institution providing additional capital proceeds as a result of collateralizing a future rental income stream and the value of the building; and (4) proceeds from a sale or liquidation of part of or all of the assets of the company. The Company may make distributions in excess of free-cash-flow-to-firm from a refinance or a sale/liquidation of Company assets.

This Offering is being conducted on a "best-efforts" basis, which means the co-managers of our Manager, Benjamin S. Miller and Daniel S. Miller, will use their commercially reasonable best efforts in an attempt to sell the Units. Messrs. Miller will not receive any commission or any other remuneration for these sales. In offering the Units on our behalf, Messrs. Miller will rely on the safe harbor from broker-dealer registration set out in Rule 3a4-1 under the Securities Exchange Act of 1934.

The information in this preliminary Offering Circular is not complete and may be changed. We and the selling members may not sell these securities until the Offering Circular filed with the Securities and Exchange Commission is qualified. This preliminary Offering Circular is not an offer to sell these securities, and we are not soliciting offers to buy these securities in any jurisdiction where the offer or sale is not permitted.

Date of this Preliminary Offering Circular: February 22, 2013

The Units will be offered for sale at a fixed price of \$100.00 per Unit. If all of the Units are purchased, the gross proceeds to us will be \$350,000. However, since the Offering is being conducted on a “best-efforts” basis, there is no minimum number of Units that must be sold, meaning we will retain any proceeds from the sale of the Units sold in this Offering. Accordingly, all funds raised in the Offering will become immediately available to us and may be used as they are accepted. Investors will not be entitled to a refund and could lose their entire investment.

Our Units are not listed on any national securities exchange or on the over-the counter inter-dealer quotation system. There is no market for our Units, and under the terms of the Company’s Second Amended and Restated Operating Agreement, dated July 18, 2012 and attached as Exhibit 3 (the “Operating Agreement”), the Units generally may not be sold, transferred assigned, pledged or disposed of, in whole or in part, without the prior written consent of the Manager.

These are speculative securities. Investment in the Units involves significant risk. You should purchase these securities only if you can afford a complete loss of your investment. See the “Risk Factors” section on page 5 of this Offering Circular for a discussion of the following and other risks:

- Since its inception through December 31, 2012, the Manager has recorded a net loss and has had no revenue;
- The Company has no operating history, and the Manager has a lack of experience in developing projects similar to the Property;
- The Company has not established any minimum offering amount, and there is no assurance that the Company will raise sufficient funds to carry out its business objectives;
- The Property is planned to be the Company’s principal asset, and factors outside of the Company’s control could significantly decrease the value of that asset;
- The determination of the offering price and other terms of the Offering have been arbitrarily determined and may not reflect the value of your investment;
- Your investment is highly illiquid and the Company does not intend to provide any liquidity options;
- If the Company was to become subject to the Investment Company Act of 1940 (the “1940 Act”) it could have a material adverse effect on the Company, and it is probable that the Company would be terminated and liquidated; and
- The interest of the Manager, the principals and its other affiliates may conflict with your interests.

OFFERING CIRCULAR SUMMARY

This summary highlights information contained elsewhere in this Offering Circular. This summary is not complete and does not contain all of the information that you should consider before investing in the Units.

You should carefully read the entire Offering Circular, especially concerning the risks associated with the investment in the Units discussed under the “Risk Factors” section.

Unless we state otherwise, the terms “we,” “us,” “our,” “Company,” “management,” or similar terms collectively refer to Fundrise 906 H Street NE, LLC, a Virginia limited liability company.

Some of the statements in this Offering Circular are forward-looking statements. See the section entitled “Special Note Regarding Forward-Looking Statements.”

Our Business

General

Fundrise 906 H Street NE, LLC is a development stage company that was formed on April 20, 2012, as a Virginia limited liability company. Our executive offices are located at 7400 Beaufont Springs Drive, Suite 300, North Chesterfield, VA 23225. The sole purpose of the Company is to acquire, own, hold, renovate, redevelop, construct, lease, manage, operate, mortgage, sell and otherwise dispose of fee simple real estate located at 906-908 H Street NE in Washington DC (the “Property”). We have a limited operating history and have generated limited revenue.

Our Manager, Fundrise Manager 906 H Street NE, LLC, a Virginia limited liability company, owns all of our Class A Membership Units, giving it sole voting and management rights. Therefore, our Manager has control over the management of the Company and the management and development of the Property. Our Manager is owned and controlled by Benjamin S. Miller and Daniel S. Miller who, together, control all of the Manager’s voting and management rights.

The Property

The Property is located at 906-908 H Street NE, Washington DC, in the H Street corridor’s burgeoning entertainment zone, consists of a two-story approximately 6,510 square-foot masonry building, including a 2,230 square foot basement, on one lot totaling approximately 3,010 square feet. The Property is currently vacant.

The Company was party to an agreement to purchase the Property for \$1,375,000 and closed on the purchase of the Property on June 5, 2012. In the event that the proceeds received in this Offering are insufficient to renovate or redevelop the Property, the Manager, Benjamin S. Miller, Daniel S. Miller and/or one or more of their affiliates may loan the Company funds necessary to consummate the transaction on commercially reasonable terms. Proceeds of this Offering may be used in whole or in part to repay any such loans to the Company, with interest.

The Business Plan

Following its acquisition of the Property, the Company plans to renovate or redevelop the Property. In connection with the renovation or redevelopment of the Property, the Company may employ community-based design, or “crowdsourcing,” by allowing residents of the community in which the Property sits to provide input on the ultimate design and use of the Property. Management also intends to engage in direct conversations with restaurateurs and retailers from around the city.

We believe that a fully leased and renovated Property offers an opportunity for current Cash Flow over the mid-term, while providing for long-term appreciation of the Property as H Street NE neighborhood continues its growth. Management expects to lease the property for approximately \$180,000 triple-net a year at stabilization, which if achieved will offer Class C investors a projected annual yield of approximately 7.0% at stabilization. Total cost of

the project is projected to be approximately \$2,570,000, or acquisition costs of approximately \$1,570,000 plus development costs of approximately \$1,000,000. The Company has estimated the project costs based on vacant buildings in similar condition that Management has previously acquired and developed in the District of Columbia, such as the property located 1351 H Street NE, Washington, DC 20002. The projected annual yield of approximately 7.0% at stabilization is calculated as total net rent divided by total cost, or \$180,000 / \$2,570,000, which equals approximately 7.0%. In addition, Management expects long-term appreciation in the overall local real estate market due to the imminent completion of the first trolley line in Washington, DC and more than 1,000 residential units under construction or in planned unit development. The Company expects to sell or refinance the Property within 3 to 5 years.

The Operating Agreement also provides for drag-along rights, which allows the Manager to sell all the interests in the Company including the individual interests of the Class C members. The transfer of any Unit in violation of the Operating Agreement will be deemed invalid, null and void, and of no force or effect. Any person</p>

to whom Units are attempted to be transferred in violation of the Operating Agreement will not be entitled to receive distributions from the Company or have any other rights in or with respect to the membership rights.

We may also offer or sell Units in other states in reliance on exemptions from registration requirements of the laws of those states. However, we will not make any general solicitation or advertisement of this Offering in any jurisdiction that this Offering is not registered. This Offering is being conducted on a "best-efforts" basis, which means the co-managers of our Manager, Benjamin S. Miller and Daniel S. Miller, will attempt to sell the shares to prospective Investors without the use of an underwriter. We will not pay any commission or other remuneration to Messrs. Miller for these efforts. Messrs. Miller intend to utilize the Fundrise platform as part of their efforts in offering and selling the Units; however, Fundrise will not receive any commission or other remuneration for providing this service.

RISK FACTORS

An investment in the Company carries risks, a number of which are set out below including those related to the Company, those related to the Offering, and those related to taxes. In addition to those risks, businesses are often subject to risks not foreseen or fully appreciated by management. In reviewing this Offering Circular, potential Investors should keep in mind other possible risks that could be important.

This is a speculative investment, and the value of your investment in the Company may decrease significantly or entirely. You should not make an investment in the Company if you are unable to bear the loss of your entire investment. You should only consider an investment in the Company after considering the following risks and consulting with your investment, legal, and tax advisors.

RISKS RELATED TO THE COMPANY'S BUSINESS

Manager's net loss and lack of revenue.

Since its inception through December 31, 2012, our Manager has recorded a net loss and has had no revenue. Such losses have been due to expenses related to start-up costs incurred as the Manager grew its business and established the Company. There can be no assurance that the Manager will generate significant revenues or be profitable in the future. If the Manager is not profitable, it may need to curtail or cease operations, or seek additional revenue through the sale of its Class A Membership Interests.

The Company may require additional capital and may be unable to obtain such capital on favorable terms or at all.

In the future, we may need to raise additional capital through the issuance of additional membership interests or securities convertible into membership interests. If we issue additional membership interests or convertible securities, our then-existing Interest Holders may face substantial dilution. In addition to diluting our then-existing Interest Holders, we may be obligated to pay a substantial amount of regular income to future investors, which would reduce our cash available for working capital and renovation or redevelopment of the Property. Equity interests in the subsidiaries of the Company planned to hold title to the Property may also be publicly or privately offered. Such offerings would have the effect of indirectly diluting members of the Company. Currently, we do not have any arrangements for any financing for the sale of membership interests or any other method of financing, and we can provide no assurances to Investors that we will be able to obtain any financing when required on favorable terms or at all. The only cash immediately available to us is the cash in our bank account. Assuming that this Offering is fully subscribed and all 3,500 Units are sold, there will be an immediate increase in net tangible book value of approximately \$3,000.00 (43.17%) to the Class A member (or approximately \$4.88 per Class A Membership Unit), an immediate increase in net tangible book value of approximately \$48,251.00 (7.01%) to the Class B members (or approximately \$4.88 per Class B Membership Unit), and an immediate decrease in net tangible book value of approximately \$101,251.00 (33.75%) to new Investors purchasing Units in the Offering (or approximately \$28.93 per Class C Membership Unit).

The Company has not established any minimum offering amount, and there is no assurance that the Company will raise sufficient funds to carry out its business objectives.

The Company has not established any minimum offering amount that must be raised to carry out the business objectives contemplated in the offering document. There is no assurance that the Company will raise sufficient funds to carry out its business objectives, including payment of offering expenses, provision for tenant allowance, establishment of debt service reserves, provision for other construction cost contingencies and other working capital needs.

The Company has no operating history, and the Manager has a lack of experience in developing projects similar to the Property.

The Company was recently organized and has no history of operations. The Company therefore should be considered a development stage company, and its operations will be subject to all of the risks inherent in the establishment of a new business enterprise, including, but not limited to, hurdles or barriers to the implementation of its business plans. Further, because there is no history of operations there is also no operating history from which to evaluate the Manager's ability to manage the Company's operations and achieve its goals or the likely performance of the Company. Prospective Investors should also consider that the Manager, the principals and its other affiliates have not previously developed a project similar to the Property, although the principals and other affiliates of the Manager have experience in acquiring, renovating, redeveloping, repositioning, operating and selling various real estate properties. No assurances can be given that the Company can operate profitably.

The Property is planned to be the Company's principal asset, and factors outside of the Company's control could significantly decrease the value of that asset.

The Property is planned to be the Company's principal asset. The prospects of the Company depend upon the Property maintaining its rental and resale value or increasing in such value. The typical risks relating to an investment in real estate will apply to the Property and its value. These include, but are not limited to:

- changes in the general economic climate and market conditions, those applicable to Washington, DC, or those applicable to the H Street NE Corridor;
- changes in the occupancy or rental rates of the Property or, for a property that requires new leasing activity, a failure to lease the Property in accordance with the projected leasing schedule;
- complications involving the renovation or redevelopment of the Property;
- limited availability of mortgage funds or fluctuations in interest rates which may render the sale and refinancing of the Property difficult;
- unanticipated increases in real estate taxes and other operating expenses;
- environmental considerations;
- zoning laws and other governmental rules and policies; and
- uninsured losses including possible acts of terrorism or natural disasters.

Any one or more of the preceding factors could materially adversely affect the value of the Property. If the value of the Property were to decrease significantly, the Company may not be able to repay mortgages on the Property or obtain new financing to repay outstanding loans on favorable terms, if at all. Additionally, if the value of the Property were to decrease and the Company were to choose to sell the Property, liquidate and distribute its remaining assets after paying liabilities, you might not recover the amount of your investment, if you were to receive any funds at all.

The Property is currently vacant and we may not be able to find a tenant.

The Property is currently vacant. The Company may not be able to find a tenant willing to rent the Property on commercially reasonable terms or at all. If the Company is unable to secure a tenant for the Property, the Company may have no Cash Flow, may require additional capital to maintain the Property, and may be forced to find a tenant. If the Company cannot find a suitable tenant, in a reasonable amount of time or at all, it may not receive any revenues at all and it may be forced to use its existing assets to cover the costs for property operating costs, debt service, insurance, and real estate taxes.

If the Company is able to lease the Property, the Company's revenues, if any, will likely be derived from one tenant, and the loss of that tenant could leave the Company without revenues if a suitable replacement is not found.

All of the Company's projected revenues will likely be derived from one tenant, which the Company anticipates will fund all property operating costs, insurance and real estate taxes. If such tenant were to elect not to extend any lease or were to otherwise abandon the lease and no suitable replacement could be found, the Company would have no Cash Flow, could require additional capital to maintain the Property, and could be forced to find a replacement tenant. If the Company were unable to find a suitable replacement tenant, in a reasonable amount of time or at all, its revenues could decrease or it could not receive any revenues at all and it could be forced to cover the costs for property operating costs, insurance and real estate taxes.

The ability of any new business to continue as a going concern is uncertain, and a default by a tenant could result in the Property becoming vacant and difficult to re-lease.

The Property may be leased to a tenant operating a new business, and it is uncertain that such business will have the ability to continue as a going concern. In the event that a tenant defaults on a lease, the Property may become vacant, and we may be unable either to re-lease the Property for the rent due under the lease or to re-lease the Property without incurring additional expenditures relating to the Property. In addition, we could experience delays in enforcing our rights against, and collecting rents and other expenses due from the tenant. Finally, we may have to incur substantial expenditures in connection with any re-leasing, as the Property is expected to be specifically suited to a tenant. Any delay or substantial expenditures we experience in re-leasing the Property, or any difficulty in re-leasing the Property at acceptable rates, may reduce the cash available to make distributions to our stockholders.

If the Company decides to renovate or redevelop the Property, it may be unsuccessful.

The Company plans to renovate or redevelop the Property. The Company may be unsuccessful in its renovation or redevelopment efforts due to a variety of factors, including mismanagement, the poor selection of third-party contractors, an inability to raise the necessary capital to complete the renovation or redevelopment, changes in zoning laws and increases in construction costs. If the renovation or redevelopment effort is delayed, suffers significant cost increases, does not prove as valuable as projected or cannot be completed, the Company may become unprofitable or be forced to dispose of the Property for a price that is less than the Company's then outstanding liabilities.

The Company's investment is speculative.

Investing in real estate such as the Property involves an inherent exposure to fluctuations in the real estate market, including the availability of financing, increases in mortgage rates and borrowing rates and general economic conditions, and there is no assurance that the Company's investment strategy will be successful. The Property may not be easy to liquidate, and the Company may not be able to sell the Property at market value or at all if the Company determines that it is an appropriate time to sell the Property.

The Company has no operating history, and the Manager has a lack of experience in developing projects similar to the Property.

The Company was recently organized and has no history of operations. The Company therefore should be considered a development stage company, and its operations will be subject to all of the risks inherent in the establishment of a new business enterprise, including, but not limited to, hurdles or barriers to the implementation of its business plans. Further, because there is no history of operations there is also no operating history from which to evaluate the Manager's ability to manage the Company's operations and achieve its goals or the likely performance of the Company. Prospective Investors should also consider that the Manager, the principals and its other affiliates have not previously developed a project similar to the Property, although the principals and other affiliates of the Manager have experience in acquiring, renovating, redeveloping, repositioning, operating and selling various real estate properties. No assurances can be given that the Company can operate profitably.

The Company will face competition.

The Company will face competition from other persons leasing and developing land and property in the Washington, DC area, particularly within the H Street neighborhood where the Property is located and in surrounding areas. A lower number of competitors makes us vulnerable to competitors that act irrationally or are able to operate at zero or negative margins, have longer operating histories, more market experience or contacts, or greater financial resources than the Company. The Company may not be able to compete effectively.

The Company may face competition from the Manager.

The Company may also face competition from properties owned or controlled by affiliates of the Manager. Currently, affiliates of the Manager own property located at 1351 H Street NE, 1337 H Street NE, and at 1207 H Street NE, which is currently leased to AutoZone. If AutoZone were to vacate, it could result in affiliates of the Manager directly competing with the Property. Affiliates of the Manager may also acquire or lease other property in the same neighborhood as the Property.

The Company may be subject to the risks of leverage.

The Company has obtained a mortgage on all of the Property and is required to not exceed certain debt service coverage ratios and loan to value amounts. If its operations of the Property deviate in any material adverse respect from those projected, the Company may not have sufficient Cash Flow to service the required indebtedness as to a particular property. If the Company cannot do so, regardless of the cause, the Company will face a risk of forfeiture or foreclosure of its interest in the Property.

The Manager's liability will be limited.

Pursuant to the Operating Agreement, the Manager, the principals and its other affiliates will not be liable to the Company or any members for any damages, losses, liabilities or expenses (including reasonable legal fees, expenses and related charges and cost of investigation) unless one of those parties is guilty of gross misconduct, fraud or criminal activity. Thus, members will have limited recourse against those parties. The Operating Agreement also provides that the Company will indemnify, hold harmless and waive any claim against the Manager, the principals and its other affiliates, for any and all losses, damages, liability claims, causes of action, omissions, demands and expenses or any other act or failure to act arising from or out of the performance of their duties to the Company under the Operating Agreement or as a result of any action which the Manager is requested to take or refrained from taking by the Company unless such loss has arisen as a result of their gross misconduct, fraud, or criminal activity.

The Company may not be able to provide adequate insurance for the Property.

If the insurance market changes, or the Company needs to make claims on its insurance or for other factors affecting insurance rates, it may not be able to renew or find new insurance on acceptable terms, if at all. Failure to carry appropriate insurance could significantly increase the Company's liability in the event of torts or other actionable events occurring on the Property that affect tenants or third-parties thereon or could force the Company to cease leasing the Property.

The Company may never make distributions.

Payment of distributions and the amounts thereof will depend upon returns received by the Company on its investments. The Company may not operate profitably or be able to declare and pay any distributions to the Interest Holders, and you may not earn a positive return on your investment or receive a return of any or all of your investment.

You may be liable in certain circumstances for the repayment of distributions.

You are not personally liable for any debts or losses of the Company beyond the amount of your capital contributions and profits attributable thereto (if any) if the Company is otherwise unable to meet its obligations. However, you may be required to repay to the Company cash or in-kind distributions (including distributions on

partial or complete redemption of Units and distributions deemed a return of capital) received by you to the extent of overpayments and to the extent such distribution made the Company insolvent at the time of the payment or the distribution.

The Company is not required to provide disclosure pursuant to the Securities Exchange Act of 1934.

The Company is not required to provide disclosure pursuant to the Exchange Act. As such, the Company is not required to file quarterly or annual reports. In addition, the Company is not required to prepare proxy or information statements; our common stock will not be subject to the protection of the going private regulations; the Company will be subject to only limited portions of the tender offer rules; our officers, directors, and more than ten percent (10%) shareholders (“insiders”) are not required to file beneficial ownership reports about their holdings in our Company; insiders will not be subject to the short-swing profit recovery provisions of the Exchange Act; and more than five percent (5%) shareholders of classes of our equity securities will not be required to report information about their ownership positions in the securities.

Investors in this Offering will have no voting rights in the Company, managerial, contractual or other ability to influence the Company, or control over the Property.

Investors in Class C Membership Units will have no voting rights with respect to the Company, and will have no managerial, contractual or other ability to influence the Company’s activities or operations of the Property. The Class C Membership Units’ lack of voting rights gives all control under the Operating Agreement to the Manager. The Manager’s operation of the Company could materially and adversely affect the value of the Company and the returns realized by investors.

The Company does not maintain key man life insurance for the principals of the Manager.

The Company depends on the continued contributions of the principals of our Manager, Benjamin S. Miller and Daniel S. Miller, who handle all of the managerial responsibilities of the Company. We do not carry key person life insurance on either of their lives and the loss of services of either of these individuals could disrupt our operations and interfere with our ability to successfully develop the Property or compete with others.

RISKS RELATED TO THE OFFERING

There is a dilutive book value effect on the Class C Membership Units

Prior to the offering of the Class C Membership Units, in order to simplify the ownership structure of the Company, Management chose to split the units of the Class A Member and Class B Members so that each unit would be valued at \$100 per unit, which price the Company is also selling the Class C units. As a result of this forward split, the Class A Member was issued 140 Class A units at an increase per unit of \$4.88. As a result of this forward split, the Class B Members were issued 10,360 Class B units at an increase per unit of \$4.88. Combined, the dilutive book value effect to the Class C Members is \$28.93 per unit. In addition, as described in section 6.4 of the Operating Agreement, the Class A Member shall never be diluted below one percent (1%), which has a dilutive effect on the Class B and Class C units.

The determination of the offering price and other terms of the Offering have been arbitrarily determined and may not reflect the value of your investment.

The offering price has been arbitrarily determined by the Manager and may not bear any relationship to assets acquired or to be acquired or the book value of the Company or any other established criteria or quantifiable indicia for valuing a business. Neither the Company nor the Manager represents that the Units have or will have a market value equal to their offering price or that the Units could be resold (if at all) at their original offering price.

Your investment is highly illiquid and the Company does not intend to offer any liquidity options.

There is no public market for the Units, the Company does not expect such a market to develop in the future, and the Company does not intend to offer any additional liquidity options to investors. Additionally, the Operating

Agreement and Subscription Agreement contain restrictions on the transferability of the Units without the written consent of the Company and requires an opinion of counsel satisfactory to the Company that the transfer will not create adverse tax consequences and would not violate federal or state securities laws. Consequently, your ability to control the timing of the liquidation of your investment in the Company will be restricted and you may not be able to liquidate your investment. You should be prepared to hold your Units indefinitely.

The Company may exercise its right of repurchase with regard to the Units.

The Operating Agreement allows for the Company to exercise a right of repurchase, in its sole discretion, with regard to the Units at any time. If the Company exercises this right, then you will no longer be Members of the Company. While the Company will be entitled to exercise this right of repurchase, it has not made any determination to exercise this right of repurchase as of the date hereof, and does not intend to exercise the right of repurchase for so long as the Company remains a going concern.

The Company may exercise its right of repurchase as a result of an Investor's personal conduct or litigation.

The Operating Agreement allows for the Company to exercise a right to repurchase all of the Units held by an Investor in the event that such Investor fails to conform its personal conduct to common and accepted standards of good citizenship, conducts itself in a way that reflects poorly upon the Company, or brings any suit, legal action or proceeding against the Company. If the Company exercises this right with regard to the Units held by you, then you will no longer be a Member of the Company.

Risks Related to the Investment Company Act of 1940.

The Company intends to avoid becoming subject to the Investment Company Act of 1940, as amended (the "1940 Act"). However, under certain conditions, changing circumstances or changes in the law, it may become subject to the 1940 Act in the future. Becoming subject to the 1940 Act could have a material adverse effect on the Company. It is also probable that the Company would be terminated and liquidated due to the cost of registration under the 1940 Act.

RISKS RELATED TO CERTAIN CONFLICTS OF INTEREST

There are conflicts of interest between the Company, the Manager and their affiliates.

Benjamin S. Miller and Daniel S. Miller are principals in the Manager which provides asset management and other services to and will receive fees from the Company at prevailing market rates. Prevailing market rates are determined by Management based on industry standards and expectations of what Management would be able to negotiate with a third party on an arm's length basis. All of the agreements and arrangements between such parties, including those relating to compensation, are not the result of arm's length negotiations. Some of the conflicts inherent in the Company's transactions with the Manager and its affiliates, and the limitations on such parties adopted to address these conflicts are described below. The Company, Manager and their affiliates will try to balance the Company's interest with their own. However, to the extent that such parties take actions that are more favorable to other entities than the Company, these actions could have a negative impact on the Company's financial performance and, consequently, on distributions to Interest Holders and the value of the Securities.

The interest of the Manager, the principals and its other affiliates may conflict with your interests.

The Operating Agreement provides the Manager with broad powers and authority which could result in one or more conflicts of interest between your interests and those of the Manager, the principals and its other affiliates. This risk is increased by the Manager being controlled by Daniel S. Miller and Benjamin S. Miller, brothers who anticipate participating directly or indirectly in the Offering and may own a substantial percentage of the Class C Membership Units upon completion of the Offering. Potential conflicts of interest include, but are not limited to, the following:

- the Manager, the principals and/or its other affiliates may acquire and operate other real estate projects for their own respective accounts, whether or not competitive with the Property;

- the Manager, the principals and its other affiliates will not be required to disgorge any profits or fees or other compensation they may receive from any other business they own separate from the Company, and you will not be entitled to receive or share in any of the profits, return, fees or compensation from any other business owned and operated by the Manager, the principals and its other affiliates for their own benefit;
- the Company may pay the Manager a development fee that includes reimbursement for the wages of the Manager's employees (other than the principals of the Manager) at a multiple of three times such employee's wages;
- the Company may engage the Manager or affiliates of the manager to perform services at prevailing market rates. Prevailing market rates are determined by Management based on industry standards and expectations of what Management would be able to negotiate with a third party on an arm's length basis;
- the Manager, the principals and its other affiliates are not required to devote all of their time and efforts to the affairs of the Company; and
- the Company, the Manager, and the prospective Investors have not been represented by separate counsel in connection with the formation of the Company, the drafting of the Operating Agreement or the Subscription Agreement, or this Offering.

Certain affiliates of the Company may, from time to time, provide the Company with loans to pay third-party costs of the Property and some or all of the proceeds of this Offering or distributions could be used to repay such loans with interest.

The Company was party to an agreement to purchase the Property and closed on the purchase of the Property on June 5, 2012. In the event that the proceeds received in this Offering are insufficient to renovate or redevelop the Property, the Manager, Benjamin S. Miller, Daniel S. Miller and/or one or more of their affiliates may loan the Company funds necessary to consummate the transaction on commercially reasonable terms. Proceeds of this Offering may be used in whole or in part to repay any such loans, with interest.

RISKS RELATED TO TAXES

There are various federal income tax risks associated with an investment in the Units. Some, but not all, of the various risks associated with the federal income tax aspects of the Offering of which prospective Investors should be aware are set forth below. The effect of certain tax consequences on an Interest Holder will depend, in part, on other items in the Investor's tax return. No attempt is made herein to discuss or evaluate the state or local tax effects on any prospective Investor. Each prospective Investor is urged to consult the prospective Investor's own tax advisor concerning the effects of federal, state and local income tax laws on an investment in the Units and on the prospective Investor's individual tax situation.

There are risks related to the Status of the Company for Federal income tax.

The Company has been organized as a limited liability company under the laws of the Commonwealth of Virginia. The Company does not intend to apply for a ruling from the Internal Revenue Service (the "IRS") that it will be treated as a partnership for federal income tax purposes, but the Company intends to file its tax returns as a partnership for federal income tax purposes.

Because the partnership will be doing business in the District of Columbia, it may have to file a tax return in and be subject to the payment of income tax in the District of Columbia pursuant to the DC unincorporated business franchise tax. Prospective Investors should recognize that many of the advantages and economic benefits of an investment in the Units depend upon the classification of the Company as a partnership (rather than as an association taxable as a corporation) for federal income tax purposes. A change in this classification would require the applicable Company to pay a corporate level tax on its income which would reduce cash available to fund distributions to Interest Holders or for internally funding growth of the Company, prevent the flow-through of tax benefits, if any, for use on Interest Holders' personal tax returns, and could require that distributions be treated as dividends, which together could materially reduce the yield from an investment in the Company. In addition, such a

change in the Company's tax status during the life of the Company could be treated by the IRS as a taxable event, in which event the Interest Holders could have tax liability without receiving a cash distribution from the Company to enable them to pay such tax liability. The continued treatment of each Company as a partnership is dependent on present law and regulations, which are subject to change, and on the Company's ability to continue to satisfy a variety of criteria.

Interest Holders may have possible Federal income tax liability in excess of cash distributions.

The Manager believes that there is a reasonable basis to assume that the Company will be treated as a partnership for federal income tax purposes and will not be subject to federal income tax. Each Interest Holder will be taxed on the Interest Holder's allocable share of the Company's taxable income, regardless of whether the Company distributes cash to Interest Holders. An Interest Holder's allocable share of the Company's cash distribution is subject to federal income taxation only to the extent the amount of such distribution exceeds the Interest Holder's tax basis in the Interest Holder's interest at the time of the distribution. Additionally, distributions, which exceed the amount for which an Interest Holder is considered "at-risk" with respect to the activity, could cause a recapture of previous losses, if any. There is a risk that an Interest Holder may not have sufficient basis or amounts "at-risk" to prevent allocated amounts from being taxable. Prospective Investors should be aware that although the Company will use reasonable efforts to make distributions in an amount necessary to pay income tax at the highest effective individual income tax rate on Company's income, the federal income tax on an Interest Holder's allocable share of the Company's taxable income may exceed distributions to such Interest Holder.

Deductibility of employee's salaries and other fees may be challenged.

To be deductible, payments for services must be ordinary and necessary expenses of a trade or business, reasonable in amount, and for services performed during the taxable year in which paid or accrued (or for past, but not future, years' services). The IRS has stated publicly that the deduction of fees and syndication costs will receive close scrutiny when returns are audited. If the informational tax return filed annually for federal income tax purposes by a Company is audited, no assurance can be given as to what extent the deductions claimed for these fees will be allowed. Any disallowance by the IRS which is not successfully rebutted will have the effect of increasing the taxable income of an Interest Holder by decreasing the allowable deduction attributed to each Interest Holder for the year in question.

Tax auditing procedures will be under control of the manager.

Any audit of items of income, gain, loss or credits of a Company will be administered at the partnership level. The decisions made by the Manager with respect to such matters will be made in good faith, but may have an adverse effect upon the tax liabilities of the Interest Holders.

Changes in Federal income tax laws and policies may adversely affect Interest Holders.

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences described in this Offering Circular will not be changed in a manner which adversely affects the Units of Interest Holders.

Risks related to tax shelter - imposition of accuracy-related penalty on underpayments (Code Section 6662).

An Interest Holder who is an individual could be subject to the Internal Revenue Code Section 6662 understatement penalty, if the Interest Holder's federal income tax liability is understated by the greater of \$5,000 or ten percent (10%) of the tax shown on the return. In the case of a corporation (other than an S corporation or a personal holding company), there is a substantial understatement of income tax for any taxable year if the amount of the understatement for the taxable year exceeds the lesser of (i) ten percent (10%) of the tax required to be shown on the return for the taxable year (or, if greater, \$50,000), or (ii) \$50,000,000. If applicable, the penalty is equal to twenty percent (25%) of the understatement.

The exceptions to the understatement penalty apply different standards based on whether the item giving rise to the tax understatement resulted from a "tax shelter." The term "tax shelter" is defined to include a partnership if a

significant purpose of such partnership is the avoidance or evasion of federal income tax. The Manager believes that there is a reasonable basis to assume that the Company should not be classified as a tax shelter for purposes of the understatement penalty. If a tax shelter does exist, the understatement penalty will not be reduced even with adequate disclosure on the Interest Holder's tax return.

Risks related to disclosure of "reportable transactions" and related penalties.

Pursuant to the regulations under Code section 6011, taxpayers are required to disclose with their tax return certain information for each "reportable transaction" in which the taxpayer participates. The disclosure is on Form 8886 Reportable Transaction Disclosure Statement filed with the taxpayer's income tax return for each year which the taxpayer participates in a reportable transaction, with a copy to the Office of Tax Shelter Analysis ("OTSA") in Washington, D.C. for the first taxable year for which the transaction is disclosed.

Reportable transactions fall into six categories: listed transactions (transactions that IRS has determined to be a tax avoidance transaction and identified by published guidance), confidential transactions, transactions with contractual protection, loss transactions, transactions with significant book-tax differences, and transactions involving a brief asset holding period.

Pursuant to Code Section 6111, each material advisor is required with respect to any reportable transaction to make a return of (i) information identifying and describing the transaction; (ii) information describing any potential tax benefits expected to result from the transaction; and (iii) other information as the Secretary may prescribe. A "material advisor" is defined as any person who (i) provides material aid, assistance or advice with respect to organizing, managing, promoting, selling, implementing, insuring or carrying out any reportable transaction; and (ii) directly or indirectly derives gross income in excess of \$250,000 (\$50,000 in cases involving a reportable transaction of which all of the tax benefits are provided to natural persons) or another amount as prescribed by the Internal Revenue Service.

A material advisor with respect to any reportable transaction is also required to maintain a list identifying each person with respect to whom the advisor acted as a material advisor with respect to the transaction.

Code Section 6662A - Imposition of Accuracy-Related Penalty on Understatements with Respect to Reportable Transactions, provides that a 20-percent accuracy-related penalty may be imposed on any reportable transaction understatement. In addition, a higher 30-percent penalty applies to a reportable transaction understatement if a taxpayer does not adequately disclose, in accordance with regulations prescribed under Code Section 6011, the relevant facts affecting the tax treatment of the item giving rise to the reportable transaction understatement.

Code Section 6707A - Penalty For Failure To Include Reportable Transaction Information With Return, imposes a penalty of \$10,000 on natural persons who fail to include on any return or statement any information with respect to a reportable transaction that is required under Code section 6011. All other taxpayers are subject to a \$50,000 penalty for the same type of violation. For failures with respect to listed transactions, the penalty is increased to \$100,000 for natural persons and \$200,000 for all other taxpayers.

These penalties are effectively automatic and apply even if there is no understatement of income.

IN VIEW OF THE FOREGOING, IT IS ABSOLUTELY NECESSARY THAT EACH AND EVERY PROSPECTIVE INVESTOR CONSULT WITH THE PROSPECTIVE INVESTOR'S OWN ATTORNEYS, ACCOUNTANTS AND OTHER PROFESSIONAL ADVISORS AS TO THE LEGAL, TAX, ACCOUNTING AND OTHER CONSEQUENCES OF AN INVESTMENT IN THE UNITS.

PURSUANT TO INTERNAL REVENUE SERVICE CIRCULAR NO. 230, BE ADVISED THAT ANY FEDERAL TAX ADVICE IN THIS COMMUNICATION, INCLUDING ANY ATTACHMENTS OR ENCLOSURES, WAS NOT INTENDED OR WRITTEN TO BE USED, AND IT CANNOT BE USED BY ANY PERSON OR ENTITY TAXPAYER, FOR THE PURPOSE OF AVOIDING ANY INTERNAL REVENUE CODE PENALTIES THAT MAY BE IMPOSED ON SUCH PERSON OR ENTITY. SUCH ADVICE WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTION(S) OR MATTER(S) ADDRESSED BY THE WRITTEN ADVICE. EACH PERSON OR

ENTITY SHOULD SEEK ADVICE BASED ON THE ITS PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

DESCRIPTION OF THE COMPANY’S BUSINESS

Overview

The Company is a limited liability company formed in the Commonwealth of Virginia. The primary purpose of the Company is to acquire, own, hold, renovate, redevelop, construct, lease, manage, operate, mortgage, sell and otherwise dispose of the Property, which consist of real estate located at 906-908 H Street NE in Washington, DC. The Property is an approximately 3,010 lot consisting of a 6,510 square-foot two-story masonry building.

The Company was party to an agreement to purchase the Property for \$1,375,000 and closed on the purchase of the Property on June 5, 2012. In the event that the proceeds received in this Offering are insufficient to renovate or redevelop the Property, the Manager, Benjamin S. Miller, Daniel S. Miller and/or one or more of their affiliates may loan the Company funds necessary to consummate the transaction on commercially reasonable terms. Proceeds of this Offering may be used in whole or in part to repay any such loans, with interest.

Due to its prime location in the H Street corridor’s burgeoning entertainment zone, the Property offers renovation or redevelopment opportunities over the short-to-mid term. Although the Property is currently vacant, the Company believes the Property can be renovated or redeveloped into a 6,508 square foot restaurant. The Property is lot numbered Eight Hundred (800) in Square Nine Hundred and Thirty-Three (933).

Key Property Strengths

- Property is well-suited for a restaurant or entertainment venue
- Trolley line on H Street is under-construction and scheduled to open in 2013

Key Financial Highlights

- Projected 7.0% annual yield at stabilization, plus potential underlying real estate appreciation
- Growing local real estate market of H Street NE

Upon acquiring the Property, WestMill began working with an experienced architect and design team to create a prime retail space. The Property is well-positioned for renovation, with an adaptable façade and a deeper-than-usual lot, which can be turned into outdoor patio space.

The size and shape of the building make it suitable for a restaurant space. We estimate that it will take nine months to design, permit, and build-out the space, and that approximately \$1,000,000 in building improvements (both hard and soft costs) will be necessary for renovation construction and leasing. The breakdown of the development costs is as follows:

Hard Costs:	
Design	\$30,000
Permitting & Expediting	8,500
Environmental	15,000
Utility Upgrades	95,000
Exterior / Façade Work	45,000
Structural Repairs	35,000
MEP Work	220,000
Interior Improvements	185,000
Total Hard Costs:	\$633,500
Soft Costs:	
Development Fee	\$123,734
Leasing Fee	60,000
Architect’s Fee	25,000
Interest & Carry Cost	111,419
Real Estate Taxes	21,035
Insurance	25,000
Total Soft Costs:	<u>\$366,189</u>
Total Development Costs:	\$999,688

The Company plans to market the Property for lease using an online platform, called Popularise.com, which seeks input from the local community on the potential uses and tenants for the Property. Once the Property secures a lease, an affiliate of the Manager will lead a renovation of the building, including a new façade, gutting the structure, and build-out (such as sprinklers, electrical, plumbing, roofing, and carpentry).

The Manager is currently in talks with several of the city's small businesses that are actively seeking space on H Street NE. Newly built-out retail/restaurant space on H Street leases for approximately \$25 to \$45 per square foot (“PSF”) (see comparable rents in table below). Once the lease has been signed and the property has been stabilized, Management also expects appreciation in the H Street NE real estate market. Assuming an annual net lease payment of \$180,000 per year at 6,800 square feet, the Property would lease for \$26.47 per square foot, comparable to net “asking” rents in the H Street neighborhood. If the Property were not leased to a retail or restaurant tenant, the use of the Property could potentially impact the rental rate. The table below lists net “asking” rents in Washington, DC, as of September 18^h, 2012, for currently vacant buildings in similar condition that are on the market and available for rent. Under these assumptions, the annual yield at stabilization is projected to be approximately 7.0%. Total cost of the project is projected to be approximately \$2,570,000, or acquisition costs of approximately \$1,570,000 plus development costs of approximately \$1,000,000. The Company has estimated the project costs based on vacant

buildings in similar condition that Management has previously acquired and developed in the District of Columbia, such as the property located 1351 H Street NE, Washington, DC 20002. The projected annual yield of approximately 7.0% at stabilization is calculated as total net rent divided by total cost, or \$180,000 / \$2,570,000, which equals approximately 7.0%. In addition to the direct income from a lease, Management anticipates the real estate property to appreciate. Historically, real estate has increased in value due to inflation and growth in the local neighborhood. With the public investment of Washington, DC's first trolley line and the construction of new residential housing on H Street, Management is optimistic about the appreciation in the H Street sub-market.

The following comparable net "asking" rents in Washington, DC, as of September 18th, 2012, are for currently vacant buildings in similar condition that are on the market and available for rent:

Location	Rentable SF	Proposed Use	Days on Market	Rent per SF
700 H Street NE	8,455	Retail/Restaurant	15	\$45
1387 H Street NE	3,800	Retail/Restaurant	30	\$45
1012 H Street NE	1,500	Retail/Restaurant	45	\$32

While the H Street corridor is popular with nightlife and other themed drinking establishments, the Manager believes it is underserved for other uses, such as retail or full-service restaurants. The neighborhood is poised to experience a growth in new residents due to the imminent completion of the trolley and more than 1,000 residential units under construction or in planned unit development. As a result, the demand for restaurants and retail should increase.

The Property is currently encumbered by a mortgage whereby a first lien deed of trust secures a variable promissory note (the "Note") to City First Bank of DC, NA ("CFB") in the original principal amount of \$1,635,000, of which approximately \$1,035,000 was drawn down at purchase and the remaining \$600,000 will be used for the redevelopment of the Property. The Note is guaranteed by Benjamin S. Miller and Daniel S. Miller. Interest on the Note shall accrue at the variable rate defined by 1.0% per annum plus the *Wall Street Journal* "Prime Rate" from June 5, 2012 to December 5, 2013, after which the Company must begin to make payments to loan principal at a 25-year amortization rate and 5.25% interest rate. The entire outstanding Note is due and payable on December 5, 2023, with no option for extension. Beginning with the period commencing December 5, 2013, the Property shall support at all times a Debt Service Coverage Ratio ("DSCR") for the Property of not less than 1.20:1.00. The DSCR is calculated on December 31st of each and every calendar year during the loan period based on a trailing 12-month period evidenced by the Company's year-end tax returns. The DSCR will be calculated as net profit plus depreciation plus interest expense divided by the total debt payments. Net profit will be calculated as the rent payments from the triple-net lease. If at any time the Property is not leased and occupied with a tenant paying rent or does not have an acceptable DSCR, the Company shall have the option to post cash collateral equal to the amount of principal and interest due under the Note for the one year period.

The Company conducted a series of customary environmental tests and studies on the site prior to its acquisition of the Property on June 5, 2012. This assessment has revealed no evidence of recognized environmental conditions in connection with the property; however, the following item of environmental concern was identified which warrants mention:

Based on the age of the building, the friable acoustical ceiling tiles and the non-friable resilient floor finish assemblies, wallboard assemblies, caulking, mastics, and roofing system components may contain asbestos. Since these materials are in good condition and the potential for fiber release is low, no further action is recommended at this time, other than maintaining the materials in good condition under an Asbestos Operations and Maintenance (O&M) Program. In the event that building maintenance, renovation, or demolition activities require the removal or disturbance of the suspect ACM, IVI recommends that they be characterized for asbestos by a material specific reliable method for detecting asbestos. All activities involving ACM should be conducted in accordance with governmental regulations.

An O&M Program is an EPA recommended program to maintain asbestos-containing materials (“ACM”) within buildings in good condition. The O&M Program includes work practices to maintain of ACM in good condition, ensure proper cleanup of asbestos fibers previously released, prevent further release of asbestos fibers, and monitor the condition of ACM. These work practices include training, occupant notification, monitoring ACM, job-site controls for work involving ACM, safe work practices, recordkeeping, and worker protection. Costs of developing and implementing the O&M Program could be approximately \$15,000 or more. The O&M Program would address the preceding item of environmental concern.

The Company expects the prospective development of the Property to have little to no negative impact on the environmental conditions of the Property, and anticipates that any related remediation costs will be included in the cost of developing and implementing the O&M Program described above.

The Company believes that while the Washington, DC retail real estate market has been strong over the last five years, there exists a gap for local operators in emerging markets, mainly due to a lack of traditional financing. The Company believes that these inefficiencies in the market provide opportunities for well-capitalized and creative Investors with an understanding of local real estate.

A fully leased and renovated Property offers an opportunity for current Cash Flow over the mid-term, while providing for long-term appreciation of the Property as H Street continues its emergent growth as one of the most rapidly transforming neighborhoods in Washington, DC.

The Company expects to sell or refinance the Property within three to five years of the date of this Offering.

Market Context

The Property, which is located at 906 H Street NE, Washington, DC 20002, is one of the remaining unrenovated parcels along the entertainment strip on the south side of H Street NE, between 9th and 10th Streets. H Street NE is a half-mile commercial district that is home to over 100 retail shops, a vibrant collection of new restaurants, clubs, coffee houses and diverse dining opportunities catering to DC’s young professionals and long-term residents. H Street NE is a transforming new entertainment district in Washington, DC. In the last 5 years, more than 35 new restaurants have recently opened or are presently under construction.

H Street, NE is also an integral part of the Great Streets Initiative, an economic development project led by the District of Columbia to transform up-and-coming corridors into thriving neighborhood commercial districts. Over \$65 million in new streetlights, curbs and sidewalks, trees and landscaping have been, and will be, invested in the H Street, NE corridor. The fruits of this investment are being realized today with the planning and construction of more than 1,000 residential units, building renovations, and storefront improvements that are breathing energy and excitement into this neighborhood bordered by Capitol Hill, Stanton Park and Downtown.

The H Street corridor will be the first streetcar line in the District’s ambitious 37-mile, \$1.5 billion streetcar network. Despite the political uncertainties surrounding the construction of the entire network, the H Street NE line is already under construction. The District Department of Transportation estimates the line will be completed in 2013.

Once completed, the streetcar line will run from near Union Station, a Metro and commuter train hub, along H Street NE to Benning Road and stop before the Anacostia River. The H Street Corridor will benefit from improved public transportation and the unique attraction of having the only trolley in the city.

Property Background

In 2003, the City of Washington adopted a plan for the revival of the corridor anchored by the Atlas Theater – a 1930s-style movie theater that had stood vacant since the 1968 riots. The refurbished, historic landmark now includes more than 59,000 square feet: four theatres, three dance studios, offices, dressing rooms, lobbies, cafe, and production and rehearsal space. As part of the renovation, the City’s economic development plans embraced the creation of an arts and entertainment zone as a method of social and economic revitalization.

The Manager

Fundrise Manager 906 H Street NE, LLC is the Company's Manager. The Manager is located at 7400 Beaufont Springs Drive, North Chesterfield, VA 23225 and has the telephone number (202) 584-0550. The members and managers of the Manager are Benjamin S. Miller and Daniel S. Miller.

The Manager is a development stage company that was formed on April 11, 2012, as a Virginia limited liability company. The sole purpose of the Manager is to acquire, own, hold, renovate, redevelop, construct, lease, manage, operate, mortgage, sell and otherwise dispose of fee simple real estate located in Washington DC. The principals of the Manager have evaluated a number of potential properties for acquisition in Washington, DC. 1351 H Street NE has been gutted to the masonry and leased to Maketto, a joint retail and restaurant tenant. The building is set to undergo the tenant build-out commencing in February, 2013. 1207 H Street is currently leased to AutoZone and not under construction. 906 H Street NE has been gutted and is currently undergoing renovations to prepare the building for use as an event space during the leasing period. The renovation should be completed by the end of January, 2013. Otherwise, the Manager has a limited operating history and has generated limited revenue.

The Manager's current fee schedule, and amounts accrued or paid pursuant to such fee schedule as of December 31, 2012, is as follows:

- Acquisition and/or Sale of the Property: 1% of the price of the Property - \$13,750
- Development: 5% of total development costs, including the acquisition of the Property, plus reimbursement for hourly staff time at a 3 times multiple of direct hourly wages (note that the principals of the Manager, Benjamin Miller and Daniel Miller, are not eligible for hourly wage reimbursement) - \$60,562
- Leasing of the Property: (A) 3% of base rent of initial term, and (B) 1% of base rent of renewal term - \$0
- Asset Management: 1% of the cash investment in the Property per year - \$3,961
- Financing: 1% of the amount of any refinancing of the Property - \$16,350
- Guaranty Fee (Non-Recourse): 1% of the principal amount of any non-recourse loan - \$16,350
- Guaranty Fee (Recourse): (A) 1% of the principal amount of any recourse loan, and (B) 1% of the full loan amount - \$16,350

WestMill will receive a 1% asset management fee. In addition, WestMill may perform other services outside the scope of the fee schedule set forth above, for which WestMill would receive fees at the prevailing market rate. Pursuant to Section 5.5.3 of the Operating Agreement, the Company may engage WestMill for "other real estate services." Such services may include, but are not limited to, property management or construction management. Currently, the Company intends to outsource such services to an unaffiliated third party. However, in cases where the Manager deems it necessary, Section 5.5.3 of the Operating Agreement allows the Manager to engage an affiliated entity, such as WestMill, to perform real estate services not originally contemplated in the fee schedule. Prevailing market rates are determined by Management based on industry standards and expectations of what Management would be able to negotiate with a third party on an arm's length basis, and no pre-determined cap has been imposed on the amounts of any such fees payable by the Company to WestMill.

The Guaranty Fee (Recourse) and Guaranty Fee (Non-Recourse) are paid to the Manager in order to compensate it for assuming direct economic risk related to the loan. Both the Guaranty Fee (Recourse) and the Guaranty Fee (Non-Recourse) are described in Section 5.5.1 of the Operating Agreement.

The Company believes it is appropriate to pay a Guaranty Fee (Recourse) to the Manager in the event that it acts as

guarantor of a loan obtained by the Company. Real estate lenders often require a payment guaranty from an individual or corporation as part of a loan to a property, i.e., the lender has recourse to the guarantor. A recourse loan makes the loan amount fully or partially guaranteed by the guarantor, and real estate lenders will often refuse to make a loan without a guaranty, especially when the property in question consists of a vacant building or a building under construction.

The Company also believes it is appropriate to pay a Guaranty Fee (Non-Recourse) to the Manager in the event that it acts as a limited guarantor of a loan obtained by the Company. Real estate lenders may require a limited guaranty related to specific risks, for example to ensure the completion of a construction project (i.e., completion guaranty) or for an environmental indemnity. In such instances, the loan is non-recourse except in the case of the specific risk designated. Completion guaranties and environmental guaranties are common in most commercial real estate loans.

The Manager is an affiliate of WestMill, a value-oriented real estate investment platform specializing in financing, development, leasing, and operations of retail and mixed-use Property in the greater Mid-Atlantic region. Leveraging the long history of its family business, Western Development Corporation—a premier mixed-use, retail development company in Washington, DC—WestMill focuses on acquiring and reinventing properties with untapped development potential. The Company has engaged WestMill for ongoing asset management. WestMill may receive fees at the prevailing market rate.

The Company has no employees and does not plan to hire any employees in the next twelve months.

Management of Property

The Property is currently vacant and the Company currently has no source of revenue. After acquiring the Property, the Company plans to either renovate or redevelop the Property. Following renovation or redevelopment, the Company's sole source of revenue is expected to come from a single tenant occupying the Property.

Management believes the following scenario is most likely for the Property:

Renovation and Lease: The Property could be renovated into a retail or restaurant venue. The size and shape of the building already fit the potential use with an estimated \$1,000,000 of total development improvements necessary to convert the building. Recent comparable net rents are \$25 to \$45 per square foot annually.

The following table provides comparable net "asking" rents in Washington, DC, as of September 18, 2012. The examples in the table are currently vacant buildings in similar condition to the Property that are on the market and available for rent:

Location	Rentable SF	Proposed Use	Days on Market	Rent per SF
700 H Street NE	8,455	Retail/Restaurant	15	\$45
1387 H Street NE	3,800	Retail/Restaurant	30	\$45
1012 H Street NE	1,500	Retail/Restaurant	45	\$32

Sources: Cushman & Wakefield, Coldwell Banker, Loopnet.com

The Property is located at 906-908 H Street, NE, specifically within the District of Columbia's designated neighborhood-serving retail shopping district for the H Street NE corridor. According to the District of Columbia's Office of Zoning:

"The H Street Northeast Neighborhood Commercial Overlay District (HS) was established to provide use (commercial and residential), density, design, and planned unit development requirements for lots fronting on H Street, N.E. from 2nd Street to 15th Street, N.E. The overlay is broken up into geographical sub-districts. The purposes of the HS Overlay are to... encourage the clustering of uses into unique destination districts, specifically a housing district from 2nd Street to 7th Street, a neighborhood-serving retail shopping district from 7th Street to 12th Street, and an arts and entertainment district from 12th Street to

15th Street.” (Source: District of Columbia’s Office of Zoning at <http://dcoz.dc.gov/info/overlay.shtm>)

Within the arts and entertainment district there are a number of small buildings of 1,000 to 5,000 square feet competing for commercial tenants, such as restaurants, bars, retailers, and community services. These buildings provide unique storefronts and may be able to lease at a lower rates per square foot due to existing building conditions and acquisitions prices below replacement costs. On the other hand, many of these buildings are already leased to successful restaurants and bars, offering competition for neighborhood traffic and dining.

The closest major competitor along the H Street NE Corridor is 1348 H Street, NE, a 4,705–square-foot building located on the northern side of H Street, NE between 13th and 14th Street. While this property and others could potentially compete for tenants and financing if the Company redevelops 906-908 H Street, management views these developments as a benefit, bringing new residents, improved streetscape and street vitality, and overall urban renewal to the neighborhood.

Regulation

The Company’s business practices and the Property are regulated by numerous federal, state and local authorities, including but not limited to the following:

U.S. State and Federal Securities Laws

The Class C Membership Units offered hereby are “securities,” as defined in the Securities Act and state securities laws. The Securities Act provides, among other things, that no sale of any securities may be made except pursuant to a registration statement that has been filed with the US Securities and Exchange Commission (the “SEC”), and has become effective, unless such sale (or the security sold) is specifically exempted from registration. State securities laws have analogous provisions.

The Class C Membership Units being offered hereby have not been registered under the Securities Act. Neither the SEC nor any state securities commission or regulatory authority approved, passed upon or endorsed the merits of this Offering. The offering and proposed sale of Class C Membership Units described herein shall be made pursuant to an exemption from registration with the SEC pursuant to Regulation A, and shall only be offered in states in which the registration of the offer and sale of the securities has been declared effective.

Environmental Regulations

Federal, state and local laws and regulations impose environmental controls, disclosure rules and zoning restrictions that directly impact the management, development, use, and/or sale of real estate. Such laws and regulations tend to discourage sales and leasing activities with respect to some properties, and may therefore adversely affect us specifically, and the real estate industry in general. Our failure to uncover and adequately protect against environmental issues in connection with the target purchase of real estate may subject us to liability as buyer of such property or asset. Environmental laws and regulations impose liability on current or previous real property owners or operators for the cost of investigating, cleaning up or removing contamination caused by hazardous or toxic substances at the property. The Company may be held liable for such costs as a subsequent owner of the Property. Liability can be imposed even if the original actions were legal and the Company had no knowledge of, or were not responsible for, the presence of the hazardous or toxic substances. Further, the Company may also be held responsible for the entire payment of the liability if it is subject to joint and several liability and the other responsible parties are unable to pay. The Company may also be liable under common law to third parties for damages and injuries resulting from environmental contamination emanating from the site, including the presence of asbestos containing materials. Insurance for such matters may not be available. Additionally, new or modified environmental regulations could develop in a manner that could adversely affect us.

Certain laws and regulations govern the removal, encapsulation or disturbance of asbestos containing materials (“ACMs”), when those materials are in poor condition or in the event of building renovation or demolition, impose certain worker protection and notification requirements and govern emissions of and exposure to asbestos fibers in the air. These laws may also impose liability for a release of ACMs and may enable third parties to seek recovery against the Company for personal injury associated with ACMs.

Americans with Disabilities Act

Under the Americans with Disabilities Act (the “ADA”), all places of public accommodation are required to meet certain federal requirements related to access and use by disabled persons. The Property must comply with the ADA to the extent that they are considered “public accommodations” as defined by the ADA. The ADA may require removal of structural barriers to access by persons with disabilities in public areas of the Property where such removal is readily achievable. We believe that our Property are or will be in substantial compliance with the ADA and that we will not be required to make substantial capital expenditures to address the requirements of the ADA after completion of the redevelopment. In addition, we will continue to assess our compliance with the ADA and to make alterations to the Property as required.

Other Laws and Regulations

The Company is required to operate the Property in compliance with fire and safety regulations, building codes and other land use regulations, as they may be adopted by governmental agencies and bodies and become applicable to our Property. It is also required to comply with labor laws and laws which prohibit unfair and deceptive business practices with consumers. The Property are also be subject to a variety of local, state and federal statutes, ordinances, rules and regulations concerning fair housing and real estate transactions in general. These laws may result in delays if the Property are re-developed. Additionally, these laws might cause the Company to incur substantial compliance and other costs. The Company may be required to make substantial capital expenditures to comply with those requirements and these expenditures could have a material adverse effect on its ability to pay dividends to shareholders at historical levels or at all. The Company is currently registered as a foreign limited liability company in the District of Columbia. The Company may suffer adverse consequences if such registration was revoked or suspended.

USE OF PROCEEDS

The maximum gross proceeds to the Company from the sale of Units are \$350,000, or such higher amount as may be accepted by the Company. The Company expects net proceeds after offering expenses of approximately \$300,000. Expenses of the Offering are estimated to be approximately \$50,000. Net proceeds generated from this Offering will be used (i) to provide pre-lease build-out and tenant allowance (ii) to create a contingency fund for renovation and interest reserve for the Property, and/or (iii) for working capital.

Management is currently marketing the space and intends to find an acceptable tenant for the Property and execute a lease. After executing a lease, Management expects its responsibilities to be funding initial buildout of the Property, including heating, ventilation, and air conditioning (HVAC), electrical, plumbing, and a new façade. Management has already arranged for the debt financing to fund such building improvements.

After performing the buildout, Management intends to turn over the Property to the tenant to complete the build-out, which will likely include fixtures, equipment, and furniture (FF&E), a kitchen, and other improvements necessary to open. The tenant buildout is expected to take between three to six months to complete.

The Timing and Use of Proceeds are projected to occur as follows:

Milestone Table

All subscription funds that are accepted shall be deposited directly into a segregated bank account owned by the Company at its bank, CFB. Subscription funds placed in the Company's account may only be accepted by the Company in accordance with the Subscription Agreement between the Company and each subscriber of Units (attached as Exhibit 4). The Company may return any funds it receives if it decides that it will not accept an Investor's subscription for Units. Additionally, the Company may reduce the size of a subscription or only partially fulfill a subscription with the unfulfilled portion still held in its bank account if fulfilling the full subscription amount would cause it to make a distribution in excess of \$350,000. If the Offering is over-subscribed, no additional funds over \$350,000 will be accepted. While the Units are not offered on an "all or none" basis, this Offering shall terminate on the date that the maximum amount of \$350,000 is raised, or, if an amount less than \$350,000 is raised, upon the earlier of (1) one year after the effective date of the Offering Circular or (2) a date prior that is so determined by the Manager (the "Offering Period").

As illustrated in the table below, net proceeds of this Offering will be used to establish a development reserve for the Company in anticipation of future development of the Property. The development reserve will consist of monies that are placed in a reserve account at a major bank.

DETERMINATION OF THE OFFERING PRICE

The offering price has been arbitrarily determined by the Manager and may not bear any relationship to assets acquired or to be acquired or the book value of the Company or any other established criteria or quantifiable indicia for valuing a business. Neither the Company nor the Manager represents that the Units have or will have a market value equal to their offering price or could be resold (if at all) at their original offering price.

DILUTION

Our net tangible book value as of December 31, 2012 is approximately \$694,996. Net tangible book value per Unit is determined by dividing our total tangible assets, less total liabilities, by the membership interests outstanding. Dilution in net tangible book value per percentage interest represents the difference between the amount per percentage interest paid by purchasers of the Units in this Offering and the net tangible book value per percentage interest immediately after this Offering.

After giving effect to the sale of 3,500 Units (representing 25.00% of the membership interests outstanding) in this Offering at the offering price of \$100 per Unit, and after deducting the estimated offering expenses payable by us, our as adjusted net tangible book value as of December 31, 2012 would be approximately \$994,996, or \$71.07 per membership interest. This represents an immediate increase in net tangible book value of approximately \$3,000.00 (43.17%) to the Class A member (or approximately \$4.88 per Class A Membership Unit), an immediate increase in net tangible book value of approximately \$48,251.00 (7.01%) to the Class B member (or approximately \$4.88 per Class B Membership Unit), and an immediate decrease in net tangible book value of approximately \$101,251.00 (33.75%) to new Investors purchasing Units in the Offering (or approximately \$28.93 per Class C Membership Unit).

Increase in book value for Class A	\$3,000.00
Increase in book value for Class B	\$48,251.00
Decrease in book value for Class C	\$101,251.00

The Company calculated the decrease in book value to the Class C Members as follows: Offering Price x Number of Class C Membership Units – Post-Offering Book Value per Class C Membership Unit x Number of Class C Membership Units = (\$100 x 3,500) – (\$71.07 x 3,500) = \$101,251.00.

The above discussion and calculations are based on (i) Class A Membership Units and Class B Membership Units representing 100% of the issued and outstanding membership interests of the Company as of the date of this Offering Circular, and (ii) Class A Membership Units, Class B Membership Units and Class C Membership Units representing 1.00%, 74.00% and 25.00%, respectively, of the issued and outstanding membership interests of the Company following the Offering. We may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to Interest Holders.

CAPITALIZATION

The following table reflects the capitalization of the Company as of the most recent balance sheet date. The table is not adjusted to reflect any subsequent stock splits, stock dividends, recapitalizations or refinancings.

DISTRIBUTIONS

The following is a description of the material terms of the Offering relating to distributions to all members of the Company including Investors as described in the Company’s Operating Agreement. This description is not complete and is qualified in its entirety by reference to the Company’s Operating Agreement which is attached as Exhibit 3 to this Offering Circular. Prospective Investors should consult the Operating Agreement for a complete description of the terms upon which distributions are to be made. In addition, prospective Investors should read the sections entitled “Forward-Looking Statements” and “Risk Factors” for information regarding statements that do not relate strictly to historical or current facts and certain risks inherent in our business.

General

We do not intend to make any cash distributions to Investors until such time as we have made payment of all liabilities, including, without limitation, the replenishment or creation of additional cash reserves. Due to the inherent risk of real estate management and development, we cannot ensure that we will make any cash distributions, and even if we do, we can give no assurances about the amount and timing of such distributions.

The term "Cash Flow," as defined in the Company's Operating Agreement attached as Exhibit 3, means all cash funds derived from operations of the Company (including interest received on reserves), without reduction for any non-cash charges, but less cash funds used to pay current operating expenses, including fees due to the Manager, and to pay or establish reasonable reserves for future expenses, debt payments, capital improvements, and replacements as determined by the Manager; and in connection with the sale, conveyance, assignment or transfer of the Company or any of its assets, or in connection with the dissolution or winding up of the Company, less cash funds used to pay the costs of the transaction in question, including fees due to the Manager, or all final costs, expenses and indebtedness of the Company. Cash Flow shall be increased by the reduction of any reserve previously established.

All Cash Flow will be distributed and applied by the Company in the following order of priority (i) to the payment of all debts and liabilities of the Company then due and payable, excluding all debts and liabilities due to any Interest Holder; then (ii) to the payment, on a *pro-rata* and *pari passu* basis, of any outstanding principal amount of any loan made by any Interest Holder; then (iii) to the Interest Holders, *pro-rata* and *pari passu* in proportion to the aggregate amount of accrued but unpaid Preferred Return then due and payable to such Interest Holders; then (iv) to the Interest Holders on a *pari passu* basis in proportion to their Adjusted Capital Balances, until their remaining Adjusted Capital Balances have been reduced to zero; then (v) finally, and on a *pari passu* basis, (a) seventy percent (70%) of any remaining Cash Flow shall be distributed to the Class B Members and the Class C Members, *pro rata* and *pari passu*, in proportion to their relative percentage interests, without regard to the percentage interest held by the Class A Member, and (b) thirty percent (30%) of any remaining Cash Flow shall be distributed to the Class A Member.

Recoupment of Member Loans

If any member, including an Investor, had provided funds to the Company on behalf of another member pursuant to a capital call by the Manager, then such loan shall bear interest at 15% per annum. We intend to make cash distributions to the lending member(s) from Cash Flow distributable to the non-contributing member(s). Such distributions are to be made only after the payment of the Company's debts and liabilities and each member's Preferred Return.

Recoupment of Investments

After the payment of debts and liabilities, the Preferred Return and principal and interest of member loans, we intend to make cash distributions to all Interest Holders until their total investments shall have been fully repaid. Distributions will be made *pari passu* based on an Interest Holder's percentage interest.

Preferred Return

Investors who make capital contributions to the Company are entitled to a return on investment calculated at the rate of 10%, compounded monthly (the "Preferred Return") on such Capital Contributions commencing to accrue on the date each Capital Contribution is made until such Capital Contribution is repaid or returned in full.

Distribution of Profits

Following the Offering, and subject to possible dilution, Class C members in aggregate will be entitled to a share of all distributions of Cash Flow if any such distributions are available after the payment of debts and liabilities, principal and interest of member loans and adjusted capital balances are distributed.

The Company has issued no options or warrants, but Management received a carried interest in the Company through the Class A Member's 30% share of Cash Flow. Once Investors have received a 10% preferred return and a return of their Capital Contribution, the Class A Member is entitled to 30% of the Cash Flow thereafter.

Distributions of Cash Flow, if any, for each class of the Company's membership interests following this Offering, assuming that all 3,500 Units are sold.

Member	Class of Membership Interest	% of Distribution of Cash Flow Before Offering	% of Distribution of Cash Flow After Offering
Fundrise Manager 906 H Street NE, LLC	A	30	30
Class B investors	B	70	52.32*
Purchasers in this Offering	C	0	17.68*

**Subject to possible dilution*

Dissolution or Liquidation Distribution

If the Company is dissolved or liquidated, the assets of the Company shall be distributed to the Interest Holders using the same method for distributions of Cash Flow.

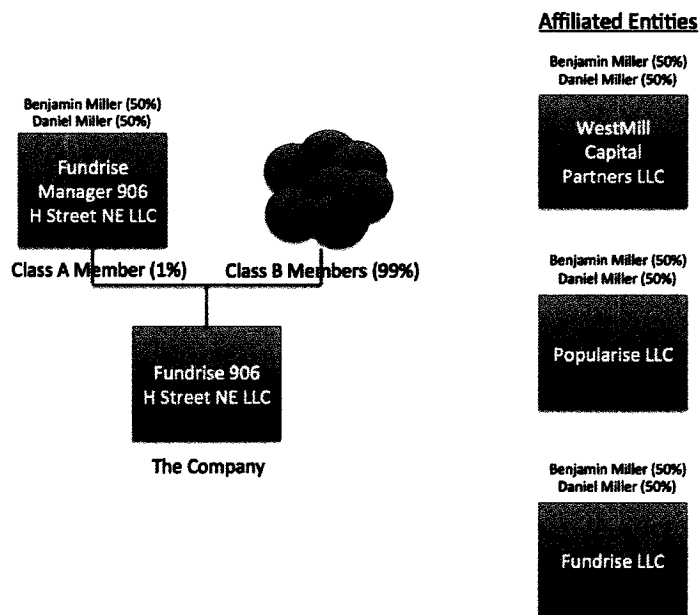

MANAGEMENT'S DISCUSSION AND ANALYSIS FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion and analysis should be read in conjunction with (i) our financial statements and (ii) the section entitled "Description of the Company's Business," included in this Offering Circular. The discussion contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including, but not limited to, those set forth under "Risk Factors" and elsewhere in this Offering Circular.

Overview

The primary purpose of the Company is to acquire, own, hold, develop, construct, lease, manage, operate, mortgage, sell and otherwise dispose of the Property. The Company closed on the purchase of the Property for \$1,375,000 on June 5, 2012, with additional settlement costs of \$137,848.44 and estimated redevelopment costs of \$1,000,000. The beneficial owner of our Class A Membership Units, and Manager of the Company, is the Fundrise Manager 906 H Street NE LLC. Since inception, the Fundrise 906 H Street NE, LLC has raised \$700,000 (the "Initial Capital Contributions") in exchange for the Class B membership units it received. The Company plans to use a portion of the Initial Capital Contributions and will use the available proceeds of a senior secured loan from CFB of \$1,635,000 to redevelop the Property. The loan is personally guaranteed by Benjamin S. Miller and Daniel S. Miller.

Benjamin S. Miller and Daniel S. Miller also co-manage the Fundrise Manager 906 H Street NE LLC, as well as Fundrise LLC, Popularise LLC, and WestMill Capital Partners LLC (see organizational chart below). Through entities that they control, Benjamin and Daniel Miller intend to enter into related party agreements in the future where significant conflicts of interest may exist. The interests of our Manager, Fundrise Manager 906 H Street NE LLC, and its co-managers could result in decisions adverse to the Company's members and their decisions may negatively impact the value of your investment. Our Manager's co-managers may earn income from related party transactions while our Investors may lose their entire investment. See "Risks Related to Certain Conflicts of Interest."

Plan of Operation

We are a startup, development stage Company that has had no revenues. We closed on the purchase of the property on June 5, 2012, and the Property is currently vacant.

The Company has entered into a loan with CFB. The Note expires on December 5, 2023. There are no assurances that CFB will extend the loan or that another lender will provide a new loan. If a loan from CFB is not available, the Company could raise the additional capital in a follow-on offering or borrow the necessary funds from another party, such as from management or the Company's members.

Following its acquisition of the Property, the Company plans to renovate or redevelop the Property. In connection with the renovation or redevelopment of the Property, the Company plans to employ community-based design by allowing residents of the community in which the Property sits to provide input on the ultimate design and use of the Property.

Capital Resources and Liquidity

Since the Company's inception, the Company raised funds by accepting capital contributions from the Class A and Class B members. This money will be utilized for certain start-up costs, ongoing operating capital, and the renovation or redevelopment of the Property.

As of December 31, 2012, we had Total Assets of \$1,860,866 and Total Liabilities of \$1,165,870. Also on this date, we had \$108,966 in Cash. As of the date of this Offering Circular, the current funds available to the Company will not be sufficient to fund the expenses related to this Offering, but, our Class A member will make capital contributions required to fund the offering expenses if no other proceeds are obtained by the Company. However, there is no contract or written agreement in place for such funds with our Class A member or its beneficial owners. Pursuant to the Section titled "Use of Proceeds," if the Company is unable to raise enough funds to cover expenses related to this Offering, it will not be able to establish a development contingency reserve for the Company in anticipation of future development of the Property, pay certain legal fees in connection with the ongoing filings for the Property.

Currently, Fundrise Manager 906 H Street NE, LLC serves as the asset manager of the Property and charges the Company a fee of 1% of invested capital for such services. Over the next 12 months, the Manager may demand

regular reimbursement of certain expenses related to the asset management services, such as for third-party accounting and audits, which might be in excess of \$11,000 annually.

Financings

In the future, we may need to raise additional capital through the issuance of additional membership interest. If we issue additional membership interests, our then-existing members may face substantial dilution. In addition to diluting our then-existing members, we may be obligated to pay a substantial amount of regular income to future investors, which would reduce our cash available for working capital and development of the Property.

Currently, we do not have any arrangements for any financing for the sale of membership interests or any other method of financing, and we can provide no assurances to Investors that we will be able to obtain any financing when required on commercially reasonable terms or at all. The only cash immediately available to us is the cash in our bank account.

Quantitative and Qualitative Disclosures About Market Risk

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business strategies, the primary market risk which we expect to be exposed to in the future is interest rate risk. We may be exposed to interest rate changes primarily as a result of any debt we may incur. We expect that some of our future debt may have variable interest rates. We may use interest rate caps to manage our interest rate risk relating to our variable rate debt. While our Note has a variable interest rate, at property stabilization the Company will fix the interest rate for approximately 108 months thereafter.

Legal Proceedings

We are not currently a party to any legal proceedings.

The Company was organized to acquire, own, hold, renovate, redevelop, construct, lease, manage, operate, mortgage, sell and otherwise dispose of real estate, directly or indirectly, and to engage in any and all lawful businesses not specifically stated in the Operating Agreement. Without the written consent of the Class A member, the Company will not engage in any business other than the ownership, renovation, redevelopment, management and operation of the Property.

Management, Voting and Governance

Except as otherwise provided in the Operating Agreement, all powers of the Company will be exercised by or under

the authority of, and the business and affairs of the Company and implementation of the Company's policies and executive control of the Company's major decisions shall be managed by one (1) manager (who may, but need not, be a member), who shall be selected by the Class A member. Additional Funds

In the event the Company needs additional funds, the Manager will first use its commercially reasonable efforts, for and on behalf of the Company, to borrow such funds in the Company's name from third parties. In the event that all required additional capital is not obtained by the Company, if required by the Manager, then the members shall be required, on a *pro-rata* basis, to make additional capital contributions to the Company (the "Required Amount"). In the event any member fails to fund its proportionate amount of the Required Amount, then the other members may (but shall not be required to) contribute such capital on behalf of the defaulting member (if more than one such other member desires to make such contribution, they shall do so in proportion to their percentages). Such capital shall be deemed a loan from the contributing member(s) to the defaulting member bearing interest at most of fifteen percent (15%) per annum, and the full amount of said loan and accrued interest shall be paid to the contributing member(s) from the available distributions of Cash Flow to the defaulting member (before any distributions are made to the defaulting member).

Preferred Return

Investors who make capital contributions to the Company are entitled to a return on investment calculated at the rate of 10%, compounded monthly (the "Preferred Return") on such Capital Contributions commencing to accrue on the date each Capital Contribution is made until such Capital Contribution is repaid or returned in full.

Distributions of Cash Flow and Liquidation of Assets

All Cash Flow will be distributed and applied by the Company in the following order of priority: (i) to the payment of all debts and liabilities of the Company then due and payable, excluding all debts and liabilities due to any Interest Holder; then (ii) to the payment, on a *pro-rata* and *pari passu* basis, of any outstanding principal amount of any loan made by any Interest Holder; then (iii) to the Interest Holders, *pro-rata* and *pari passu* in proportion to the aggregate amount of accrued but unpaid Preferred Return then due and payable to such Interest Holders; then (iv) to the Interest Holders on a *pari passu* basis in proportion to their Adjusted Capital Balances, until their remaining Adjusted Capital Balances have been reduced to zero; then (v) finally, and on a *pari passu* basis, (a) seventy percent (70%) of any remaining Cash Flow shall be distributed to the Class B Members and the Class C Members, *pro rata* and *pari passu*, in proportion to their relative percentage interests, without regard to the percentage interest held by the Class A Member, and (b) thirty percent (30%) of any remaining Cash Flow shall be distributed to the Class A Member.

Allocation of Profits and Losses

After giving effect to the allocations and/or adjustments required by the Operating Agreement, profits and losses for any fiscal year shall be allocated as follows:

Profits shall be allocated: (i) first, to each Interest Holder which has previously been allocated losses which have not been fully offset by allocations of profits ("Unrecovered Losses") until the cumulative amount of profits allocated to each such Interest Holder is equal to the cumulative amount of losses which have been allocated to such Interest Holder (allocated to the Interest Holders in proportion to their respective Unrecovered Losses); (ii) second, to the Interest Holders proportionate to their percentages.

Losses will be allocated to the Interest Holders (i) first, in accordance with their positive capital account balances, on a *pro-rata* basis, until such accounts are reduced to zero, and (ii) thereafter in accordance with their percentages.

Exculpation and Indemnification of Manager

The Operating Agreement generally provides that no member will have any personal obligation for any debts,

obligations or liabilities of the Company and that no member will be liable, responsible or accountable, in damages or otherwise, in any action brought by or in the right of the Company or brought by or in the right of the members, except if the member engaged in gross misconduct, fraud, or criminal activity. The Company will indemnify each member to the fullest extent permitted by law for any act performed by the member with respect to Company matters, except in the case of action or failure to act by a member which constitutes gross misconduct, fraud, or criminal activity.

Power of Attorney

Each member appoints the Manager as the member's true and lawful attorney-in-fact to execute all documents, including the amendments to the Operating Agreement and all documents required to dissolve and terminate the Company and to cancel its Certificate of Formation.

Restrictions on Transfer

The Operating Agreement restricts the transferability of membership interests, except (a) to an immediate family member (spouse, parent, grandparent, child or grandchild) of a member, or to a trust for the benefit of any such immediate family member, or a beneficiary under any such trust, or (b) with the consent of the Manager or as otherwise permitted under the Operating Agreement, to a person or entity that is not an Interest Holder. The transfer of any membership interests in violation of the Operating Agreement will be deemed invalid, null and void, and of no force or effect. Any person to whom membership interests are attempted to be transferred in violation of the Operating Agreement will not be entitled to vote on matters coming before the members, participate in the management of the Company, act as an agent of the Company, receive distributions from the Company or have any other rights in or with respect to the membership rights. The Operating Agreement also provides for drag-along rights.

Dilution of Members

In the event the Manager elects to admit a person as a new member in the Company, the percentage interest of all of the Class B members and Class C members shall be diluted on a *pro-rata* basis in order to provide percentage interests to the new member; provided that the percentage interest of the Class A member shall never be diluted below one percent (1%). The Manager shall be permitted to solely determine the terms and conditions upon which to admit a person as a new member in the Company.

General Right of Repurchase

The Operating Agreement provides that the Company may elect to repurchase all, but not less than all, of the Units of the Company at any time. In the event that the Company elects to repurchase all of the Units, the purchase price will be determined by an outside, independent appraiser appointed by the Manager. To the Members
Fundrise 906 H Street NE, LLC
Washington, DC

We have reviewed the accompanying balance sheet of Fundrise 906 H Street NE, LLC as of December 31, 2012, and the related statements of revenue and expenses, members' equity, and cash flows for the period of April 20, 2012 (inception) through December 31, 2012. A review includes primarily applying analytical procedures to the management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our review of the financial statements, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

Fundrise 906 H Street NE, LLC
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 1. ORGANIZATION

Fundrise 906 H Street NE, LLC, a Virginia limited liability company (the Company) was formed on April 20, 2012. The sole purpose of the Company is to acquire, own, hold, renovate, redevelop, construct, lease, manage, operate, mortgage, sell and otherwise dispose of fee simple real estate located at 906-908 H Street NE in Washington, DC (the property). The Company plans to renovate or redevelop the property and lease it to a retail tenant. Between the date of formation, April 20, 2012, and the acquisition of the property June 5, 2012, the Company's activity was limited to obtaining capital through an offering memorandum under Regulation D of the Securities Act of 1933.

At December 31, 2012, Fundrise Manager 906 H Street NE, LLC (The Manager), the sole Class A member of the Company contributed \$7071 to acquire 1% of the ownership interest (voting). The Company obtained capital through the sale of Class B Membership units representing 99% of the ownership interests (non-voting) for a total of \$700,000 at \$50,000 per unit.

Allocations of profits and losses, and cash distributions are made in accordance with the Company's Limited Liability Operating Agreement (The Agreement). The Company shall exist in perpetuity unless it is dissolved and terminated in accordance with provisions of the agreement.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of Fundrise 906 H Street NE, LLC were prepared using the accrual basis of accounting. This basis of accounting recognizes revenue when earned and expenses when incurred, which conforms to accounting principles generally accepted in the United States of America.

Fundrise 906 H Street NE, LLC
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Investment in Real Estate

The cost of acquired property including all costs associated with the purchase have been capitalized and allocated to land and building. The property was vacant on June 5, 2012 (date of acquisition). A summary of the purchase price allocated to the components is as follows:

Land	\$ 820,931
Building	<u>620,640</u>
Total	<u>\$1,441,571</u>

Depreciation will be provided for in amounts sufficient to relate the costs of depreciable assets to operations over their estimated service lives when the property is improved and ready for its intended use. Improvements are capitalized, while expenditures for maintenance and repairs will be charged to expense as incurred. No depreciation expense was incurred for the period from June 5, 2012 (date of acquisition) through December 31, 2012.

Impairment of Long-Lived Assets

The Company reviews its real estate for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount to the future net cash flows undiscounted and without interest, expected to be generated by the asset. If such assets are considered to be impaired, the amount of impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Management believes no impairment in the net carrying value of the real estate has occurred for the period presented.

Fundrise 906 H Street NE, LLC
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Deferred Financing Costs

The costs of obtaining the real estate loan have been capitalized. The financing costs are amortized over the term of the loan using a straight-line method. Accounting principles generally accepted in the United States of America require that the effective yield method be used to amortize financing costs; however, the effect of using the straight-line method is not materially different from the results that would have been obtained under the effective yield method. Amortization began July 1, 2012 and is being capitalized to construction in progress. The 2012 amortization amount was \$3016. Annual amortization expense over the next five years through December 31, 2017 is estimated to be \$6,032 per year.

Deferred Syndication Costs

The costs incurred pursuant to raising additional capital through a Regulation A offering under the Securities Act of 1933 have been deferred. Upon completion of the offering all syndication costs will be deducted from the proceeds received.

Income Taxes

The Company has elected to be treated as a pass-through entity for income tax purposes and, as such, is not subject to income taxes. Rather, all items of taxable income, deductions and tax credits are passed through to and reported by its owners on their respective income tax returns. The Company's federal tax status as a pass-through entity is based on its legal status as a limited liability company. Accordingly, the Company is not required to take any positions in order to qualify as a pass-through entity. The Company is required to file tax returns with the Internal Revenue Service and other authorities. Accordingly, these financial statements do not reflect a provision for income taxes and the Company has no other tax positions which must be considered for disclosure.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3. RESTRICTED CASH

The loan will be advanced in accordance with Article II of the loan agreement to be used for the acquisition and renovation of the property. The initial advance of \$1,035,000 was used for the purchase of the property and the balance will be used for the renovation. Per the agreement, the completion date must be within eighteen months from June 5, 2012. The loan is secured by the property and guaranteed by Fundrise Manager 906 H Street NE, LLC and personally by Fundrise Manager's individual members. Interest only is payable during the construction period through December 5, 2013 at the fluctuating rate which is 1% per annum above the wall street journal prime rate. Response: In response to the Staff’s comment, Fundrise has updated its financial statements to be as of the end of its most recent fiscal year, December 31, 2012.

Statement of Revenue and Expenses, page 5

2. *We note your response to comment 2, and that the required statement has not been provided, and we reissue the original comment. Please provide a statement accompanying the income statement that in the opinion of management all adjustments necessary for a fair statement of results from the interim period have been included. For reference, see Part F/S of Form 1-A.*

Response: As Fundrise’s financial statements are now dated as of the end of its most recent fiscal year, and no longer include any interim periods, we believe that the statement regarding

interim periods called for by Part F/S is no longer applicable. As such, Fundrise has not included such statement in its notes to the financial statements.
