On behalf of every one of the nearly 55,000 people who collectively make up the DIRECTV team, it's my privilege to introduce this year's annual report. I'm pleased to share with you our accomplishments over this past year and more importantly, our progress against the goals and plans we established to deliver outstanding shareholder returns in 2012 and beyond.

Last year, I set out three priorities I believe are critical to our success over the long term: deliver on our 2012 operating and financial plans, enhance the customers' entertainment and service experience building enthusiastic loyalty for life, and focus on developing our talent and teamwork.

I'm pleased to report that DIRECTV's achievements over this past year are entirely consistent with these goals and I could not be more proud of our management team and employees, who through an amazing ability to adapt and execute in an extremely challenging market environment, delivered another year of impressive results.

Tremendous consumer demand for DIRECTV's diversified portfolio of businesses across the Americas fueled the largest annual net subscriber gain in our history. We acquired nearly 3.8 million new customers and furthered our lead as the world's largest and most popular provider of pay-TV video services. We capped 2012 with more than 35 million customers in the U.S. and Latin America, bringing DIRECTV to nearly \$30 billion in annual revenues.

Our commitment to profitably grow our businesses while keeping a sharp eye on achieving operational excellence through disciplined expense management and productivity improvements was clearly a highlight in 2012 as operating profit before depreciation and amortization grew 8 percent to finish the year at \$7.5 billion.

Finally, by leveraging these outstanding results with the continuation of our share repurchase program, earnings per share increased by 32 percent to \$4.58. These achievements were also reflected in a 17 percent gain in our stock price for the year, out-pacing both the S&P 500 Index and the NASDAQ.

Both our U.S. and Latin American businesses contributed significantly to these strong full-year results. In the U.S., revenue growth of more than 6 percent was primarily driven by our ability to grow our average revenue per user and attain high-quality customers in a challenging U.S. operating environment. In fact, we exceeded expectations and finished the year with more than 20 million customers, achieving a major milestone.

“Tremendous consumer demand for DIRECTV’s diversified portfolio of businesses across the Americas fueled the largest annual net subscriber gain in our history.”

Thanks to our sharper focus on cost management, as well as our more disciplined customer acquisition strategy, DIRECTV U.S. effectively adapted to a world with higher programming costs. This is particularly evident when looking at operating profit before depreciation and amortization growth of nearly 7 percent, as margins expanded modestly year over year. As I see it, these accomplishments are a strong signal we’re on the right track with our long-term strategy of striking a more optimal balance between growth and profitability.

In many ways, DIRECTV Latin America had one of its best years ever in 2012. Our competitive advantages and operating strengths continued to drive subscriber growth to all-time highs as we expanded our share of the growing pay-TV household market throughout the region. With more than 2.4 million net additions, full-year revenues accelerated 23 percent to more than \$6.2 billion. As a better indicator of our achievement, factoring out the impact of foreign exchange rate fluctuations, revenues grew 36 percent last year.

DIRECTV Latin America also delivered on its full-year operating profit before depreciation and amortization margin target of 30 percent. This is particularly impressive considering the record gross additions and the increased expenses associated with digesting a nearly 80 percent increase—or 4.5 million new customers—in our base over the last two years.

In short, our achievements across the enterprise reflect the early payback from successfully executing our strategy to maintain sustainable revenue and profit growth over the long term. Coming off one of the best and largest transitional years in our history, we have a great deal of momentum and we’re poised to take full advantage of the opportunities ahead.

DIRECTV U.S.: WINNING CUSTOMER LOYALTY FOR LIFE

We enter 2013 well positioned to build on our successful track record and deliver on our vision to provide the best video experience in the world whenever and wherever our customers want it.

The operating environment for our U.S. business in 2013 is expected to be similar to 2012, with continued modest macroeconomic growth, high levels of competitive intensity, and rising programming costs. This backdrop poses some considerable challenges; however, it also presents a world of opportunity for DIRECTV because consumers remain passionate about our brand and they’re watching video more than ever before.

To achieve our vision and continue generating first quartile revenue and operating profit before depreciation and amortization growth in 2013 and beyond, we must maintain the many things that make the DIRECTV brand synonymous with the highest quality television experience. We must further our innovative excellence to advance the entertainment experience, provide world-class customer service commensurate with the exceptional reputation of our brand, and deliver on our operating and financial goals to create long-term value for our shareholders.

ADVANCING THE ENTERTAINMENT EXPERIENCE

It is critical we continue to extend our brand leadership as the premium pay-TV provider in the marketplace by providing the best and most compelling video experience both inside and outside of the home.

Delivering this superior entertainment experience begins with leveraging our greater scale to offer our customers **unique and differentiated content**, including our popular NFL SUNDAY TICKET package and

critically acclaimed original series content, such as *Damages*, on our AUDIENCE Network.

We're developing next-generation sound and picture quality, as well as taking the features and functionality of consumers' TV viewing and time shifting capabilities to a new level with the DIRECTV Genie, our industry-leading, high-definition whole-home DVR service. The DIRECTV Genie has up to three times more high-definition recording capacity than cable and allows our customers to record five different high-definition programs simultaneously without any conflicts.

We're also making significant progress with our DIRECTV Everywhere initiative, with On Demand streaming content from 37 different networks and 78 channels now available for live in-home streaming. DIRECTV customers also have the ability to stream live content from our AUDIENCE Network outside of their homes. In 2013, we plan to expand our DIRECTV Everywhere capabilities even further and continue to improve our world-class user interface across all devices, with a particular emphasis on search, discovery and social networking.

And with the future in mind, we're investing in new satellites, related broadcast infrastructure, and foundational technology development to ensure our service and product innovations remain at the forefront of the industry for years to come.

“Our goal is to make the customer service experience a hallmark of the DIRECTV brand, drive higher loyalty levels and meaningfully differentiate DIRECTV from our competitors over the next several years.”

TRANSFORMING THE CUSTOMER SERVICE EXPERIENCE

There is nothing more important than delighting our greatest asset and earning the enthusiastic loyalty of our more than 20 million customers. Our goal is to make the customer service experience a hallmark of the DIRECTV brand, drive higher loyalty levels and meaningfully differentiate DIRECTV from our competitors over the next several years.

With this in mind, we instituted an incentive plan for DIRECTV U.S. employees with performance goals structured around delivering an unparalleled customer service experience. To measure our progress, we've challenged the collective efforts of the DIRECTV team to raise our Net Promoter Score by at least 20 points, improve productivity by eliminating 20 million service calls, reduce customer escalations and unnecessary truck rolls by 20 percent, and drive a 10 basis point improvement in churn—all in the next three years.

By directly connecting with our customers to understand what matters most to them, we have identified three improvement opportunities that will help us define our world-class customer service experience going forward.

First, we're simplifying our policies to make it easier for our customers to do business with us. For example, last year we eliminated the programming rebate redemption process. This new instant rebate not only improved the customer experience, but has reduced complexity for our front-line care workforce; as a result, we're seeing a reduction in call volumes related to billing inquiries at our call centers. Looking ahead at 2013, we plan to simplify our policies even further with a new, easier to understand billing statement; and make it easier and more intuitive for customers to manage their account and understand features of the DIRECTV service on our directv.com website.

Second, we're establishing policies and procedures to reaffirm our appreciation for our best customers by recognizing and rewarding their loyalty with upgrade offers as well as launching a new program which includes a “New Every Two” upgrade promise to receive our latest product features and functionality. These policies are expected to both increase customer satisfaction and drive financial returns.

And finally, we're establishing a discipline to get it right the first time—every time—throughout all of our service interactions. This includes greater effectiveness in resolving problems as well as enhancing our focus on leveraging the service experience to drive better awareness, education and engagement for our products and services.

Although we have only scratched the surface, the bottom-line is, we're striving for excellence in delivering a customer experience that creates passionate and loyal customers for life.

DELIVERING ON OUR OPERATING AND FINANCIAL GOALS

DIRECTV has always drawn on a world-class capability to flawlessly execute our financial and operating plans. The next three years will be no different.

One of the keys to a healthy core business—especially as our industry matures and programmers seek even higher rates for their content—is maintaining momentum in top-line sales to deliver strong profit margins. That means positioning ourselves to grow our average revenue per user through smart pricing and being disciplined in the way we manage discounts and promotions. We must also continue to drive top-line growth through ancillary and non-residential revenue opportunities including DIRECTV CINEMA, the commercial property market, and addressable and local advertising.

We're also continuing to enhance our focus on achieving operational excellence through disciplined expense management while still making strategic investments that will deliver future benefits, and drive efficiencies that help preserve a sustainable lean cost structure. In particular, we're looking to capture productivity improvements to keep our Subscriber Services, Broadcast Operations, and General & Administrative expenses growing slower than revenues. Identifying efficiencies will also improve call center performance; field operations such as installations and repairs; retention and customer satisfaction.

Finally, rising programming costs remain our greatest challenge and are clearly the most significant issue facing our industry today. We continue to believe that all of us in this industry, both on the content side and distribution

side, need to spend a lot more time focusing on the consumer—particularly in this weak economy. Expecting the customer to bear the brunt of programming increases is just not sustainable and all of us at DIRECTV are committed to continuing to stand up and put our customers first. As we demonstrated in 2012, we will remain disciplined in every negotiation and focus on securing fair terms that reflect the value of the programming, as well as the size, scale and quality of the DIRECTV customer base. We will continue to seek more flexibility in packaging and pursue additional digital rights for new value-added services. And, if we are unable to obtain fair terms and conditions, we won't shy away from making some tough decisions regarding the programming we carry on the DIRECTV platform.

With these winning strategies in place, our U.S. business is well positioned to continue delivering mid-single-digit revenue and operating profit before depreciation and amortization growth over each of the next three years.

DIRECTV LATIN AMERICA: THE BEST IS YET TO COME

Turning now to our Latin American business, the overall macroeconomic forecast is generally more favorable than in the U.S. Household formation continues to grow, along with disposable income per household, as the region-wide migration of millions of people into the middle class continues. In parallel with these macro-trends, across the region pay-TV continues to gain acceptance as a common consumer "must-have."

In this environment, DIRECTV enjoys some distinct advantages. Start with a continental footprint that allows us to negotiate with certain programmers on a region-wide basis, enabling us to take full advantage of scale, obtain volume discounts, and offer exclusive and unique content that many of our competitors negotiating country-by-country simply cannot match. Add the advantages of our relationship with DIRECTV U.S., our low cost-per-home-passed satellite technology, and our ability to deliver premium brands and attractive products at price points for every market segment, both high-end and low-end. Complete the package with

“...five-year vision... double our subscriber base from 8 to 16 million, double revenues from \$5 to \$10 billion, maintain strong OPBDA margins of about 30 percent, and deliver significant cash flow in 2016.”

a team of talented, experienced executives adept at seizing opportunities and managing risk, plus more than a decade of superior customer service compared to our cable and Telco competitors, and it's clear that DIRECTV has a lot to offer consumers on every level.

We see a bright future for our Latin American business and remain committed to the strategies we outlined at our Investor Day in March of last year: We expect to profitably increase market share across the region by strengthening our penetration of advanced services for premium customers, leveraging scale to further penetrate and profitably serve the middle market, building a world-class infrastructure to enhance productivity and effectively manage costs, and selectively expanding our fixed wireless broadband service.

STRENGTHENING OUR SHARE OF PREMIUM CUSTOMERS

We believe our competitive advantages and operating strengths will continue to drive market share gains throughout the region. The DIRECTV and SKY brands are positioned as the leader in video entertainment, offering the best quality content, picture, sound, technology, and customer service available. We will build on our industry-leading service performance by leveraging our U.S. technology road map to reinforce and maintain product leadership in the higher-end households across the markets we serve, with a particular emphasis on HD and DVR excellence.

These advantages are particularly evident when looking at our increasing take rates of advanced products. For example, HD sales increased more than 57 percent compared to last year and we now have more than 2 million HD customers across the region. And, we're aiming to expand

our advanced product offering even further as part of our larger effort to build an even stronger allegiance to our brands through successful targeted marketing and upgrade strategies. In addition, we will continue to evolve our platform to meet our customers' desire to view quality content where and when they want it most.

PROFITABLY EXPANDING MIDDLE MARKET PENETRATION

Just as we've seen in the U.S., we are seeing a balanced growth pattern emerge in Latin America as new consumers "age" into adulthood and young pay-TV households expand across the region. And in every case, we're looking to leverage our scale to profitably serve the region's growing middle class.

We're well aware that a one-size-fits-all approach won't cut it. We must continue to tailor our offers and products to provide our service to value-focused customers that have the need and the desire for affordable access to our brands and services. That means serving these middle market customers through targeted marketing and distribution strategies, as well as introducing lower-cost basic HD and DVR boxes at entry-level prices to expand our value proposition and strengthen our competitive position while maintaining strong financial returns.

BUILDING A WORLD-CLASS INFRASTRUCTURE TO ENHANCE PRODUCTIVITY AND EFFECTIVELY MANAGE COSTS

As a rapidly evolving region, the challenge in Latin America is managing growth. For DIRECTV Latin America, now is the time to build the framework to support growth that will endure for the long term.

“Content, technology and service are the pillars around which we’ve built our best-in-class video service that we deliver to our customers; and increasing the value of DIRECTV is the commitment that we are making to our shareholders.”

In terms of technology, 2013 will be a big year for infrastructure investment across the region. We are building a world-class infrastructure to effectively manage the business, ensure consistent service levels and greatly improve our operational performance, particularly in areas such as our call centers and IT systems.

We are opening new call centers outside of greater São Paulo with the focus of delivering superior customer service across diverse market segments in our subscriber base. We’re working to provide our frontline employees more segmentation information so they can better assess each customer for upgrade offers—just as we do in the U.S. And, we’re investing in new satellites and related broadcast infrastructure to increase our capacity for HD channels and strengthen our competitive edge, as well as reduce risk by providing in-orbit backup capacity.

We are confident that these efforts will deliver future benefits, drive efficiency, improve productivity, and preserve our cost structure across the various countries and regions where we offer service under the DIRECTV and SKY brands.

SELECTIVELY EXPANDING FIXED WIRELESS BROADBAND SERVICE

We are hard at work on other strategic initiatives to support our business, such as taking advantage of the market opportunity for broadband growth in Latin America. As part of that effort, we were opportunistic in 2012 in acquiring low-cost spectrum.

In Brazil, we now own spectrum covering approximately 16 million households, representing more than 30 percent of Brazil’s GDP. While we launched 4G fixed wireless broadband service in Brasilia last year, we consciously delayed the launch into additional markets to fully test

a software update we expect will enable us to deliver a more reliable product consistent with our reputation for quality.

In 2013, we’re looking to expand our technologically robust fixed wireless service to several new cities with low broadband penetration. In every case, we remain committed to making sure the decision to deploy and build out a network has a long-term positive cash flow contribution to the business on a stand-alone basis.

By successfully executing on these strategic priorities—even with the recent devaluation in Venezuela—we are on track to fulfill the five-year vision we outlined at our Latin America Investor Day: double our subscriber base from 8 to 16 million, double revenues from \$5 to \$10 billion, maintain strong OPBDA margins of about 30 percent, and deliver significant cash flow in 2016.

CORPORATE SOCIAL RESPONSIBILITY: FULFILLING OUR RESPONSIBILITY TO ALL OUR STAKEHOLDERS

Our social responsibility strategy promotes the behaviors that reflect our commitment to our company’s values: leadership, innovation, decisiveness, agility, teamwork and integrity. These principles enhance our premium brands across the Americas, help us recruit by engaging top talent, follow economically sustainable business practices, and enrich the communities where we do business. One of the things I love best about DIRECTV is that through our value proposition, we’re able to fulfill our responsibility to all of our stakeholders—shareholders, customers, employees, and the communities we serve.

SUSTAINABLY MANAGING OUR BUSINESS

As a sustainability leader in our industry, we’re working hard to ensure our planet is healthy for future generations. In 2012, we recycled hundreds of

tons more waste to improve our landfill diversion rate by nearly 10 percent in a single year through better waste management. We refurbished more than eight million receivers for reuse and recycled nearly ten million pounds of electronic waste.

To respond to climate change, we calculated our carbon footprint and then reported to the Carbon Disclosure Project for the first time, scoring 91 out of 100, which was the highest score by a first-time CDP respondent in 2012.

We are also fully committed to designing our products to be as energy efficient as possible. In 2012, DIRECTV was recognized as the industry leader in energy-efficient product design, receiving the prestigious “Star of Energy Efficiency Award” from the Alliance to Save Energy. And for the third year running, we were the only pay-TV service to be recognized with the ENERGY STAR award for “Excellence in Energy-Efficient Product Design.” As an ENERGY STAR partner, DIRECTV has delivered more than 40 million ENERGY STAR qualified receivers to customers’ homes since 2009. In fact, the ENERGY STAR qualified receivers we deployed in 2012 will combine to save over 900 million kilowatt-hours of electricity every year.

GIVING BACK TO THE COMMUNITY

The DIRECTV team is proud to be making a difference in the lives of students across the Americas. The future is only as bright as our

“...our team consistently executes with a discipline and focus that enables us to take advantage of our opportunities, manage risks and achieve targeted results.”

next-generation workforce, so we are focusing our efforts on improving K-12 education. We’re proud of the “virtual field trip” we sponsored to the Martin Luther King, Jr. National Memorial in Washington, D.C. in the 8,000 U.S. schools receiving our service, and of expanding Escuela+ into our sixth Latin American country, now surpassing 650 participating schools that use innovative audiovisual resources to enrich school curriculum.

Within U.S. education, we’ve sharpened our focus on improving STEM education—initiatives focused on Science, Technology, Engineering, and Math. This matches DIRECTV’s strengths with our talent needs in the U.S., as well as for our future workforce. As a start in 2012, our Facebook fans helped us direct more than \$150,000 in funding for classroom projects via DonorsChoose.org, and much more is planned for 2013.

Our employees devoted more than 25,000 hours of community service across the Americas in 2012. In keeping with our focus on education, DIRECTV volunteers built a playground in Atlanta, gave extreme school makeovers to more than a dozen schools across the U.S., and completed 17 transformative projects in nine countries in Latin America through our “Piedra Papel Tijera” (Rock Paper Scissors) volunteer program.

CAPITAL ALLOCATION PHILOSOPHY

Content, technology and service are the pillars around which we’ve built our best-in-class video service that we deliver to our customers; and increasing the value of DIRECTV is the commitment that we are making to our shareholders. As you know, we’ve been clear about our desire to continuously explore opportunities to create more value by further strengthening our business position in both the U.S. and Latin America. If opportunities do not arise that meet our rigorous strategic and financial hurdles, we will continue our capital allocation strategy with share repurchases—because we believe our stock remains significantly undervalued—and this strategy, coupled with our strong balance sheet and operating performance, provides us the flexibility to be selective and opportunistic in considering strategic opportunities as they arise.

“...focus on developing the talent we have among our employees, drawing on their diversity and spirit of inclusion to foster higher levels of innovation, engagement, collaboration, and cross-functional teamwork.”

Furthermore, our track record of generating the industry's highest return on invested capital—23 percent in 2012—demonstrates we are adept at effectively allocating capital to ensure value creation for our shareholders.

LEADING OUR WAY INTO THE FUTURE

As we focus on the future, I can say with conviction I have complete confidence in the strategies we've put in place and the progress we'll make in the U.S. and Latin America. We've worked hard as a team to think about the future in a strategic and sustainable way. We've developed a strong, comprehensive strategy and set goals to build a DIRECTV dedicated to winning the hearts of our customers—driving excellence in the DIRECTV experience, one customer at a time.

Our employees' passion and commitment to these goals are integral to the success of this ambitious vision. Nothing gives me greater confidence than knowing our team consistently executes with a discipline and focus that enables us to take advantage of our opportunities, manage risks and achieve targeted results.

It is essential we maintain this level of quality in our people and continue to advance a performance-oriented culture focused on building lifelong customer relationships while maintaining financial strength and a cost structure that enables sustainable, profitable growth. With this in mind, we will continue our focus on developing the talent we have among our employees, drawing on their diversity and spirit of inclusion to foster higher levels of innovation, engagement, collaboration, and cross-

functional teamwork. In an enterprise like DIRECTV, where the magic of technology—from the satellites in geosynchronous orbit right down to the set-top box—commands our attention, we must all keep in mind, no matter how state-of-the-art, no matter how sophisticated, it's still our people who make DIRECTV what it is.

Our success is also greatly bolstered by the guidance and leadership of our Board of Directors, the support of our shareholders, the synergies of our business partners, and of course, the allegiance of our loyal DIRECTV customers. We've set the standard to which our competition aspires. With these strengths, there is no doubt in my mind that together we will raise that standard to new heights and show once again, DIRECTV delivers by driving industry-leading top-line and bottom-line growth and will continue generating significant shareholder value for years to come.

CAUTIONARY STATEMENT FOR PURPOSE OF THE "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This Annual Report on Form 10-K may contain certain statements that we believe are, or may be considered to be, "forward-looking statements" within the meaning of various provisions of the Securities Act of 1933 and of the Securities Exchange Act of 1934. These forward-looking statements generally can be identified by use of statements that include phrases such as we "believe," "expect," "estimate," "anticipate," "intend," "plan," "foresee," "project" or other similar references to future periods. Examples of forward-looking statements include, but are not limited to, statements we make related to our business strategy and regarding our outlook for 2013 financial results, liquidity and capital resources.

Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent

uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We caution you therefore against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. Important factors that could cause actual results to differ materially from those in the forward-looking statements include economic, business, competitive, national or global political, market and regulatory conditions and other risks, each of which is described in more detail in Item 1A-Risk Factors of this Annual Report.

Any forward-looking statement made by us in this Annual Report on Form 10-K speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may occur and it is not possible for us to predict them all. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

DIRECTV

PART I

ITEM 1. BUSINESS

DIRECTV, which we also refer to as the company, we, or us, is a leading provider of digital television entertainment in the United States and Latin America. We operate two direct-to-home, or DTH, business units: DIRECTV U.S. and DIRECTV Latin America, which are differentiated by their geographic location and are engaged in acquiring, promoting, selling and distributing digital entertainment programming primarily via satellite to residential and commercial subscribers. In addition, we own and operate three regional sports networks, or RSNs, and own a 42% interest in Game Show Network, LLC, or GSN, a television network dedicated to game-related programming and Internet interactive game playing. We account for our investment in GSN using the equity method of accounting.

- **DIRECTV U.S.** DIRECTV Holdings LLC and its subsidiaries, or DIRECTV U.S., is the largest provider of DTH digital television services and the second largest provider in the multi-channel video programming distribution, or MVPD, industry in the United States. As of December 31, 2012, DIRECTV U.S. had approximately 20.1 million subscribers.
- **DIRECTV Latin America.** DIRECTV Latin America Holdings, Inc. and its subsidiaries, or DIRECTV Latin America, is a leading provider of DTH digital television services throughout Latin America. DIRECTV Latin America is comprised of: PanAmericana, which provides services in Argentina, Chile, Colombia, Ecuador, Puerto Rico, Venezuela and certain other countries in the region, and Sky Brasil Servicos Ltda., or Sky Brasil, which is a 93% owned subsidiary. DIRECTV Latin America also includes our 41% equity method investment in Innova, S. de R.L. de C.V., or Sky Mexico. As of December 31, 2012, PanAmericana had approximately 5.3 million subscribers, Sky Brasil had approximately 5.0 million subscribers and Sky Mexico had approximately 5.2 million subscribers.
- **DIRECTV Sports Networks.** DIRECTV Sports Networks LLC and its subsidiaries, or DSN, is comprised primarily of three regional sports television networks based in Seattle, Washington, Denver, Colorado and Pittsburgh, Pennsylvania, each of which operates under the brand name ROOT SPORTS®. The operating results of DSN are reported as part of the “Sports Networks, Eliminations and Other” reporting segment.

Our vision is to make DIRECTV the best video experience anytime and anywhere for customers in both the United States and Latin America. Our primary strategy for achieving this vision is to combine unique and compelling content along with technological innovation and industry-leading customer service to make DIRECTV the clear choice among consumers throughout the Americas. We believe that our employees’ commitment to excellence is integral to the success of this strategy and to the future of our company. We intend to advance a service-oriented culture focused on building lifelong customer relationships while maintaining financial strength and a cost structure that enables profitable growth in the markets we serve.

The DIRECTV team is committed to our company values: leadership, innovation, decisiveness, agility, teamwork and integrity. We believe sustaining a high level of employee engagement and developing the talent we have among our people cultivates an environment of loyalty and can be directly correlated with increased customer satisfaction, productivity and profitability. Therefore, we have intensified our leadership development programs, and placed an even greater emphasis on diversity and an inclusive workplace culture to foster higher levels of innovation, engagement, cross-functional teamwork and collaboration. We also believe it is important to promote the behaviors that reflect our company values within the communities that we serve through volunteer service projects, employee-driven corporate citizenship programs and meaningful educational initiatives that impact and enrich students’ curriculum. In addition, we are supporting sustainable business practices company-wide, to help ensure that our planet is healthy for future generations.

We believe that the successful execution of our stated operating strategies will create significant shareholder value over the long term by delivering sustainable, profitable growth through brand leadership, innovative excellence, world-class customer service, increased productivity and disciplined expense management, while also returning excess cash to shareholders. DIRECTV’s common stock trades on the NASDAQ® Global Select Market, or NASDAQ, under the ticker “DTV”. DIRECTV was incorporated in Delaware in 2009.

DIRECTV U.S.

Through DIRECTV U.S., we provide approximately 20.1 million subscribers with access to hundreds of channels of digital-quality video entertainment and audio programming that we transmit directly to subscribers’ homes or businesses via high-powered geosynchronous satellites. We also provide video-on-demand, or

DIRECTV

VOD, by “pushing” top-rated movies onto customers’ digital video recorders, or DVRs, for instant viewing, as well as via broadband to our subscribers who have connected their set-top receiver to their broadband service.

We believe we provide one of the most extensive collections of programming available in the MVPD industry, including over 185 national high-definition, or HD, television channels and five dedicated 3D channels. In addition, we offer VOD service, named DIRECTV CINEMA®, which provides a selection of over 10,000 movie and television programs to our broadband-connected subscribers. As of December 31, 2012, we provided local channel coverage to markets covering over 99% of U.S. television households, 98% in HD.

We also provide premium professional and collegiate sports programming such as the NFL SUNDAY TICKET® package, which allows subscribers to view the largest selection of NFL games available each Sunday during the regular season. Under our contract with the NFL, we have exclusive rights to provide this service through the 2014 season, including rights to provide related broadband, HD, VOD, interactive and mobile services.

To subscribe to the DIRECTV® service, subscribers sign up for our service directly through us or our national retailers, independent satellite television retailers or dealers, or regional telephone companies, which we refer to as telcos. We or one of our home service providers or dealers install the receiving equipment. The receiving equipment, which we refer to as a DIRECTV® System, consists of a small receiving satellite dish antenna, one or more digital set-top receivers, which are typically leased to the subscriber, and remote controls. After acquiring and installing a DIRECTV System, subscribers activate the DIRECTV service by contacting us and subscribing to one of our programming packages that are tailored to appeal to specific segments of existing and potential customers.

Key Strengths

- **Large Subscriber Base.** We are the largest provider of DTH digital television services and the second largest MVPD provider in the United States, in each case based on the number of subscribers. We believe that our large subscriber base provides us with the opportunity to obtain programming on favorable terms and secure unique and exclusive programming. We also believe that our large subscriber base contributes to achieving other economies of scale in areas such as DIRECTV System equipment purchasing, customer service, installation and repair service, broadcast operations and general and administrative services.

- **Leading Brand Name.** We commissioned a study in 2012 which indicated that 96% of consumers in the United States recognized the DIRECTV brand name. We believe the strength of our brand name is an important factor in our ability to attract new subscribers and retain existing subscribers. In addition, we believe our recognized brand name enhances our ability to secure strategic alliances with programmers, distributors and other technology and service providers.
- **Substantial Channel Capacity and Programming Content.** As a result of our significant channel capacity, we believe we are able to deliver to our subscribers one of the widest selections of local and national programming available today in the United States, including exclusive programming such as the NFL SUNDAY TICKET package, critically acclaimed original series content such as Damages and Call Me Fitz, international programming, premium channels, regional sports networks and one of the most extensive national HD offerings currently available in the industry. In addition, we believe that we offer one of the most comprehensive collections of sports programming content available both inside and outside of the home, highlighted by the NFL SUNDAY TICKET MAX package.
- **High-Quality Digital Picture and Sound, Including HD and 3D Programming.** Our video and audio programming is 100% digitally delivered, providing subscribers with digital-quality video and sound. We believe this compares favorably with cable providers, as DIRECTV’s picture quality has consistently been rated higher than cable in J.D. Power and Associates annual survey. In addition, we believe we currently offer one of the nation’s most comprehensive selections of HD channels, including a large collection of 1080p HD movies. Also, we currently offer 3D programming on five dedicated channels.
- **Sales and Marketing.** We sell DIRECTV through a number of distribution channels, including direct sales, online, telcos, national sales providers, local sales providers and consumer electronics retailers. We believe this variety of distribution alternatives coupled with sophisticated marketing programs has enabled us to continue to grow our subscriber base in an increasingly competitive and mature business.
- **Technology.** We devote considerable resources to improving our set-top receivers, including the middleware for our receivers, as well as developing new services. For example in 2012, we introduced the DIRECTV Genie™,

DIRECTV

a premium high-definition whole-home DVR service with a terabyte hard drive that allows consumers to record five different high-definition programs simultaneously while viewing and controlling content from one DVR to four different locations in the house at the same time with the appropriate equipment. We also enhanced the search and discovery functionality on our high-definition user interface, or HD UI, with a new opt-in feature which recommends personalized programming that is available to watch instantly. In addition, we continue to evolve our platform to meet our subscribers' desire to view quality content where they want it most. For example, in 2012 we expanded the access to our live streaming content offerings on certain devices both inside and outside of the home and increased the programming available for subscribers to watch provided they are connected to the Internet.

- **Strong Customer Satisfaction.** We have attained top rankings in customer satisfaction studies for our industry. For example, we have scored higher than the largest national cable providers in customer satisfaction for twelve consecutive years in the American Customer Satisfaction Index™. We believe that providing high-quality customer service is an important element in minimizing subscriber disconnection, or churn, and attracting new subscribers.
- **Valuable Orbital Slots and Satellite-Based Technology.** We believe our regulatory authorization to use desirable orbital slots and broadcast spectrum helps sustain our position as one of the leading companies in the MVPD industry. Our satellite-based service provides us with many advantages over ground-based cable television services. We have the ability to distribute hundreds of channels to millions of recipients nationwide with minimal incremental infrastructure cost per additional subscriber. In addition, we have comprehensive coverage to areas with low population density in the United States and the ability to quickly introduce new services to a large number of subscribers.

We hold licenses in three orbital slots (99° west longitude, or WL, 101° WL, and 103° WL) in the Ka-Band spectrum. The satellites that have been launched into these orbital slots have substantially increased our channel capacity, allowing us to provide one of the most extensive HD channel offerings currently available across the United States. In addition, we hold licenses to broadcast our services from 46 of 96 Ku-band DBS frequencies spread over three orbital slots (101° WL, 110° WL and 119° WL). The FCC is currently considering licensing additional DBS slots for

satellites that are sometimes referred to as “tweeners” which would provide CONUS coverage. See “Government Regulation—FCC Regulation Under the Communications Act and Related Acts” and “Risk Factors—The ability to maintain FCC licenses and other regulatory approvals is critical to our business” for more information related to these types of slots and satellites.

- **Strong Balance Sheet.** We believe our cash position and borrowing capacity combined with our current and expected future cash generation capability provides us with significant financial flexibility to improve stockholder value. As of December 31, 2012, we have repurchased approximately \$25.7 billion of our common stock over the last seven years, retiring approximately 60% of our then-outstanding shares, and have announced a new \$4 billion share repurchase program.

Business Strategy

Our vision is to provide customers with the best video experience in the United States both inside and outside of the home by offering subscribers unique, differentiated and compelling programming through leadership in content, technology and customer service. Due to the rising cost of programming as well as higher costs to acquire new subscribers in an increasingly mature and competitive industry, it is even more important to distinguish and elevate the DIRECTV experience with a focus on delighting our new and existing customers. To fulfill our goals in a profitable and sustainable way we developed a strategy to (1) transform the customer service experience, (2) advance the entertainment experience both inside and outside of the home and (3) strike a balance between growth and profitability.

- **Transform the Customer Service Experience.** The greatest opportunity we have to create value is to delight and earn the enthusiastic loyalty of our approximately 20.1 million subscribers in the United States. We have implemented systems to measure and monitor our customer feedback regularly to continuously improve customer satisfaction. One way we do so is by measuring our Net Promoter Score, or NPS, which is a standard metric that surveys our customers' willingness to recommend DIRECTV to a friend or family member by sorting them into promoters, neutrals and detractors. Our goal is to make the customer experience a hallmark of the DIRECTV brand, drive higher loyalty levels and meaningfully differentiate DIRECTV from competitors. Our strategy involves (1) identifying improvement opportunities, (2) increasing our investment in existing

DIRECTV

customers, (3) simplifying the sales process and (4) strengthening our bundled offers and capabilities.

- *Identify Improvement Opportunities.* We believe developing a system for discovering improvement opportunities in products, policies and procedures is strategically important. In 2012, we built a learning lab where we have a dedicated team focused on surfacing and resolving issues that cause negative experiences and testing ideas that could create more satisfaction for our customers through all service interactions including the initial installation as well as any subsequent communications, service or upgrade transactions. We are testing and refining solutions for customers that heighten the focus on resolving problems the first time they contact us, minimizing hand-offs, valuing the customer's time and providing in-home education on our products and services. In 2013, we will continue to empower our front line employees to go above and beyond our customers' expectations at every single point of interaction as well as identify new ways to improve customers' satisfaction while simultaneously improving productivity by reducing service calls.
- *Increase Our Investment in Existing Customers.* Investing in our valuable customers is strategically important. For this reason, in 2013, we expect to launch a transparent upgrade program, which will provide additional value to our existing customers, including the ability to receive upgrades to our latest product features and functionality every two years. We also believe it is critical to re-affirm our appreciation for our most tenured loyalists and plan on continuing to recognize and reward these subscribers through segmented retention offers. Transitioning our investment away from providing new customers with the best deals to thoughtful economic investments in our existing subscriber base is expected to yield even higher levels of customer satisfaction and financial returns.
- *Simplify the Sales Process.* Making a great first impression is important, as it sets the tone for the relationship interactions that follow. Therefore, we have decided to streamline the sales and on-boarding process through the elimination of the programming rebate redemption process. By simplifying the sales process with this new instant rebate, we have not only improved the customer experience, we have also reduced the complexity for our front-line sales and service workforce.

We have plans to launch a new simplified bill as well as make it easier and more intuitive for customers to manage their account and understand features of the DIRECTV service on directv.com. We expect these solutions to reduce customer call volumes to our call centers.

- *Strengthen Our Bundled Offers and Capabilities.* Bundled video, telephone and broadband services continue to grow in popularity as consumers look for ways to reduce costs in a challenging economy. To better serve the segment of consumers who are attracted to the convenience and value of bundle offerings, we have agreements in place with most of the major telco companies nationwide to offer digital subscriber line, or DSL, and fiber bundles which include the DIRECTV service. In 2012, we completed the implementation of an integrated broadband ordering tool that enables us to offer DSL and fiber bundles through a more seamless process. We believe it is important that we continue to work closely with broadband providers to further streamline the bundle process, offer broadband services with higher speeds and improve joint marketing efforts so that a greater percentage of our customers can enjoy the benefits of a bundle.
- *Advance the Entertainment Experience Both Inside and Outside of the Home.* We believe it is critical that we continue to extend our brand leadership as the premium pay-TV provider in the marketplace by providing the best and most compelling video experience both inside and outside of the home. To fulfill our goals, we have developed a robust product roadmap to advance the entertainment experience across multiple platforms by (1) enhancing our Whole-Home DVR and time-shifting capabilities, (2) expanding DIRECTV Everywhere capabilities and (3) delivering a seamless best-in-class user interface that unifies search and discovery across multiple screens.
 - *Enhance Whole-Home DVR and Time-Shifting Capabilities.* We believe that consumers are looking for more features and functionality in their TV viewing, particularly in terms of place and time shifting. For this reason, in 2012 we introduced the DIRECTV Genie, a premium HD whole-home DVR service with a terabyte hard drive that allows consumers to record five different high-definition programs simultaneously without any conflicts. This advanced set-top receiver includes sophisticated, intuitive search and discovery functionality with

DIRECTV

an opt-in feature that will recommend personalized programming available to watch instantly. The DIRECTV Genie is RVU capable and allows multiple screens within the home to connect to one central set-top receiver which enables the television viewer to watch live or recorded programs on every TV in the home without the need for an additional DVR receiver at every location. In 2013, we expect to introduce the next generation of this advanced receiver with faster processing power, new interactive features and greater functionality at a reduced cost. In addition, we plan on expanding our time and place shifting capabilities with new services as well as extending our pay-per-view and VOD movie offerings.

- *Connect Customer HD-DVRs to the Internet.* Connecting our customers' receivers to broadband service is strategically important because it greatly enhances the video experience while facilitating access of DIRECTV™ programming services on mobile devices. For example, a connected receiver provides our customers with the ability to (1) access over 10,000 additional movies and shows including the ability to search and watch web-based videos on YouTube®, (2) stream live authorized DIRECTV programming on their iPad®, iPhone® and Android phone anywhere both inside and outside of their home, (3) engage interactive "TV Apps" that provide real-time information such as favorite sports teams, local traffic or weather reports as well as a connection that enables customers to interact with friends on their Twitter® or Facebook® account via their television or portable devices and (4) use the Pandora® audio service. In the future, we expect to expand the recent programming selection available through broadband connected receivers, with a focus on quality, as well as provide access to more applications and features.
- *Expand DIRECTV Everywhere capabilities.* Enhancing the accessibility of subscription TV content on any device inside and outside of the home is strategically important because it augments our customers' video experiences while meeting their desire to view quality content when and where they want it most. DIRECTV Everywhere offers our customers video streaming capabilities of authorized cable and broadcast network content, as well as the ability to search and record all of their favorite shows whenever they are connected to the Internet. Today, customers with premium subscriptions have the ability to

stream content through directv.com as well as through offerings such as HBO GO®, MAX GO®, Showtime Anytime®, Starz Play® and Encore Play™. In addition, subscribers can access pay-per-view and VOD programming through their laptop, tablet, smartphone or computer. During 2013, we expect to expand the video streaming capabilities of live and recorded content offerings across multiple screens and applications. We also expect to introduce the ability to stream content stored on our customers HD-DVR to mobile devices inside and outside of the home.

- *Deliver a Seamless Best-in-Class User Interface that Unifies Search and Discovery Across Multiple Screens.* Providing our customers with a consistent user experience as they access their subscription television content on any device inside or outside of the home is strategically important. Therefore in 2012, we expanded the availability of our new HD UI to the majority of our customers leasing HD products as well as developed applications with a similar look and feel for mobile devices and tablets. This new HD UI is significantly faster than our previous UI and is displayed in a crisp, easy-to-read HD format using more graphical poster art, providing our customers with a friendly and fun way to navigate through hundreds of channels. In addition, the HD UI incorporates our industry-leading Smart Search capabilities. In 2013, we plan to continue to unify the way our subscribers navigate content across three distinct platforms of the DIRECTV Entertainment Experience—large screen, dual screen and portable screen—to drive deeper engagement with the customer. We expect to launch faster channel navigation, interactive TV applications with HD clarity, as well as improved discovery and enhanced personalization with social and editorial curation. In addition, we plan to introduce Voice Search, which will enable subscribers to use natural language voice interaction to navigate the DIRECTV experience. We are also developing applications for mobile devices and tablets to increase the features and functionalities available to our customers both inside and outside of the home.
- *Strike a Balance Between Growth and Profitability.* Maintaining a strong financial foundation is vital to achieving our plans for profitable growth. To fulfill our strategic objectives, we believe we must balance top line sales and bottom line profitability. Our strategy involves (1) growing revenue streams,

DIRECTV

- (2) the optimization of acquisition and retention spending and
- (3) enhancing productivity and cost containment.

- *Grow Revenue Streams.* Due to the rising cost of programming in the maturing pay television marketplace, driving top line sales has become increasingly critical to maintaining strong profit margins. In order to achieve this objective we must grow revenues through (1) responsible pricing and (2) maximizing ancillary and non-residential revenue opportunities.
 - *Responsible Pricing.* We believe our ability to generate the industry's highest average revenue per unit, or ARPU, demonstrates the value our best-in-class video experience delivers to our customers. It is imperative that we maintain appropriate price increases on our differentiated service offerings, while simultaneously expanding the value proposition by advancing the customer service and entertainment experiences. It is also critical that we remain disciplined in the management of subscriber credits and promotions. For example, in 2012 we introduced an Advanced Receiver Service fee on our customers' bills eliminating "Free HD for Life" as well as a lower cost programming "Entertainment" package to better fit the needs of our more value conscious consumers. These actions have reduced customer credits and are expected to increase ARPU over the coming years.
 - *Maximize Ancillary and Non-Residential Revenues.* We believe we have an opportunity to drive top line growth through ancillary and non-residential revenue opportunities, including DIRECTV CINEMA, addressable and local advertising and the commercial property market. In 2013, we expect to continue generating incremental VOD revenues by "pushing" top-rated movies, including many available on the same day of the DVD release, onto customers DVRs for instant viewing and by expanding the video library of our enhanced movie service called DIRECTV CINEMA. We are also looking to significantly increase our advertising revenues over the coming years with a new technology that provides us the capability to insert ads into individual DVRs enabling advertisers to target customers in local regions and eventually in the individual home. In addition, we believe commercial properties represent another incremental revenue

opportunity for DIRECTV. For example, although historically we have competed effectively in the higher-end hotel market, we expect that in the coming years, hotels will be upgrading their television service from standard-definition to HD which will present us with opportunities for growth. In the future, we will introduce new features, applications and package enhancements that will provide an integrated residential television experience for our hotel customers to offer to their patrons. We also currently have low market share in the private businesses and smaller bars and restaurants segments and we intend to grow our share in these markets by developing an integrated bundling solution, as well as from improved management, targeting, billing, pricing and packaging.

- *Optimize Acquisition and Retention Spending.* Although we continue to invest in new subscribers with a disciplined focus on driving value through quality, attaining strong financial returns on new subscribers has been increasingly difficult in this maturing industry where programmers are seeking even higher rates for their content. Therefore, in 2012 we transitioned to a new customer acquisition strategy that reduced our promotional discounts for new customers and shifted our investment towards increasing our upgrade efforts for tenured and high-value existing subscribers, which yield stronger returns. Our revised upgrade policy is expected to improve customer satisfaction, reduce churn and increase profitability by driving greater penetration of advanced services such as DIRECTV Genie and the Connected Home.
- *Enhance Productivity and Manage Costs.* Improving our productivity is a critical element of our goal to maintain strong margins particularly given rising programming costs and the competitive nature of our industry. In particular, we plan to focus our efforts on (1) effectively managing our programming costs and (2) capturing enterprise-wide productivity improvements.
 - *Effectively Manage Programming Cost Growth.* Programming costs are DIRECTV's largest expense and as a result, we must manage these costs as effectively as possible particularly considering that we expect programming costs to grow faster than ARPU primarily due to higher sports costs (including the NFL SUNDAY TICKET) and higher retransmission fees for the carriage of local

DIRECTV

channels. In addition, due to competitive pressures, there is a risk that we will be unable to pass such increases through to our subscribers. Therefore, we must minimize the cost increases by leveraging our size, growth and attractive subscriber demographics to attain competitive terms and conditions. We must also work to closely align a channel's value with the costs we pay and obtain rights for value-added video services, such as mobile and streaming rights, in every negotiation. Another way we expect to reduce the rate of cost growth is by packaging channels to better align the programming that our customers want to watch with what they are willing to pay for and by securing greater flexibility regarding tiering and packaging of content and/or channels. In addition, we may discontinue carrying less popular channels if we are unable to negotiate fair terms and conditions.

- *Capture Enterprise-Wide Productivity Improvements.* Our objective is to deliver the best video experience at the lowest possible cost. Our goal is to manage our costs and make strategic investments that will deliver future benefits, preserve a sustainable cost structure and drive efficiency. In particular, we are looking to capture productivity improvements which will not only reduce costs, but also improve call center performance, field operations such as installations and repairs, retention and customer satisfaction. Our strategy also includes improving the reliability of our set-top receivers and increasing the effectiveness of our customers' self-care options to reduce call volumes and truck rolls. We will strive to get it "right the first time" especially during the critical first 90 days of a customer's lifecycle with improved work order accuracy and installation. We are utilizing technology to optimize our technicians' installation and service routes to help our front-line be more effective and efficient. We are also investing in technology called Active Decisioning, which increases the information available to our agents and helps them effectively and profitably close deals faster.

Infrastructure

Satellites. We currently have a fleet of twelve geosynchronous satellites, including eleven owned satellites and one leased satellite. We have seven Ku-Band

satellites at the following orbital locations: 101° WL (three), 110° WL (one), 119° WL (one), 95° WL (one-leased) and one spare satellite that is currently being leased by a third party and is operating at 56° EL. We also have five Ka-Band satellites at our 99° WL (two) and 103° WL (three) orbital locations.

We have entered into contracts for the construction and launch of two new satellites: D14, which we expect to launch in the first quarter of 2014, and D15, which we expect to launch in the fourth quarter of 2014. D14 and D15 are expected to provide additional HD, replacement and backup capacity.

Satellite Risk Management. We may purchase in-orbit and launch insurance to mitigate the potential financial impact of in-orbit and satellite launch failures unless the premium costs are considered to be uneconomical relative to the risk of satellite failure. The insurance generally covers the unamortized book value of covered satellites. We do not insure against lost revenues in the event of a total or partial loss of the capacity of a satellite. We generally rely on in-orbit spare satellites and excess transponder capacity at key orbital slots to mitigate the impact a satellite failure could have on our ability to provide service. However, programming continuity cannot be assured in all instances or in the event of multiple satellite losses. Launch insurance typically covers the time frame from ignition of the launch vehicle through separation of the satellite from the launch vehicle. In the past, we have launched satellites without insurance. As of December 31, 2012, the net book value of DIRECTV U.S.' in-orbit satellites was \$1,344 million, all of which was uninsured.

Digital Broadcast Centers. To gather programming content, ensure its digital quality, and transmit content to our satellites, we have two digital broadcast centers, located in Castle Rock, Colorado and Los Angeles, California and six uplink facilities. These broadcast centers and uplink facilities provide our national and local standard-definition and HD programming to our customers. We receive programming at the broadcast centers and uplink facilities from content providers via satellite, fiber optic cable and/or special tape. Most satellite-delivered programming is then digitized, encoded and transmitted to our satellites. We designed each broadcast center and uplink facility with redundant systems to minimize service interruptions.

Installation Network. The DIRECTV Home Service Provider, or HSP, network performs customer installation, upgrade, and service call work for us. From 2008 to 2010, we completed several transactions that brought a significant portion of this HSP network activity in-house. We now directly employ over 4,000

DIRECTV

technicians. We also utilize an additional 10,000 technicians from four major outsourced companies who have assigned territories and a number of smaller subcontractors around the United States. The combined workforce completed approximately 91% of all in-home visits in 2012. We set quality standards for all installation, upgrade, and service work, perform quality control procedures against those standards, manage network inventory levels, and monitor overall network performance for nearly all of the installation and service network.

Customer Service Centers. As of December 31, 2012, we utilized 50 customer service centers employing over 18,000 customer service representatives. Most of these customer service centers are operated by Convergys Customer Management Group, Inc., Alorica, Inc., Sitel Operating Corporation, N.E.W. Customer Service Companies, Inc., VXI Global Solutions, Inc. and Teleperformance. We currently own and operate six customer service centers located in: Boise, Idaho; Tulsa, Oklahoma; Huntsville, Alabama; Missoula, Montana; Huntington, West Virginia; and Denver, Colorado that employ approximately 4,000 customer service representatives. Potential and existing subscribers can call a single telephone number 24 hours a day, seven days a week, to request assistance for hardware, programming, installation, technical and other support. We continue to increase the functionality of telephone-based and web-based self-care features in order to better manage customer service costs and improve service levels.

Competition

We face substantial competition in the MVPD industry and from emerging digital media distribution providers. Our competition includes companies that offer video, audio, interactive programming, telephony, data and other entertainment services, such as cable television, other DTH companies, telcos, wireless companies and companies that are developing new technologies, including online video distributors, or OVDs. Many of our competitors have access to substantially greater financial and marketing resources. We believe our brand, the quality and variety of video, audio and interactive programming, quality of picture, access to service, availability of HD and DVR services, customer service and price are the key elements for attaining and retaining subscribers. Our approximately 20.1 million subscribers represent approximately 20% of MVPD subscribers at December 31, 2012.

- **Cable Television.** We encounter substantial competition in the MVPD industry from cable television companies. According to the National Cable & Telecommunications Association, 131.2 million U.S. housing units

are passed by cable, representing 99% of total U.S. homes. Most cable television operators have a large, established customer base, and some have significant investments in companies that provide programming content. Approximately 100 million households subscribe to an MVPD service and approximately 57% of MVPD subscribers receive their programming from a cable operator. In addition, most cable providers have completed network upgrades that allow for enhanced service offerings such as digital cable, HD channels, broadband Internet access and telephony services. Cable companies bundle these services, offering discounts and providing one bill to the consumer. In addition, Verizon Wireless has entered into a joint marketing agreement with Comcast, Time Warner Cable, Cox and BrightHouse Networks to sell their products and services in storefronts and over the Internet. These promotions are widely available across the United States.

- **Telephone Companies.** Several telcos have upgraded a significant portion of their infrastructure by replacing their older, copper wire telephone lines with high-speed fiber optic lines. These fiber lines provide the telcos with significantly greater capacity enabling them to offer new and enhanced services, such as broadband Internet access at much greater speeds and digital-quality video. For example, Verizon announced that at the end of 2012, it had the capability to serve approximately 17.6 million homes with fiber optic lines with the goal of having the capability to serve 18 million homes. In addition, as of year-end 2012, AT&T had deployed fiber optic lines with the capability to serve approximately 30 million homes. In November 2012, AT&T announced plans to extend their fiber optic line capability to serve 33 million homes by year end 2015. As of year-end 2012, Verizon had approximately 4.7 million video subscribers and AT&T had approximately 4.5 million video subscribers, representing approximately 9% of MVPD subscribers. Similar to the cable companies, the telcos expect to offer their customers multiple services at a discount on one bill.
- **Other Direct Broadcast Satellite and Direct-To-Home Satellite System Operators.** We also compete with DISH Network Corporation, or DISH, which had approximately 14 million subscribers at the end of 2012, representing approximately 14% of MVPD subscribers. On April 26, 2011, DISH Network acquired certain assets of Blockbuster. Currently, DISH uses Blockbuster® and the Blockbuster@Home™ service to offer video content through multiple distribution channels such as mail and through streaming

DIRECTV

services via the Internet. On September 27, 2012, DISH launched a high-speed satellite Internet service called dishNET™. In addition to marketing and selling dishNET services on a stand-alone basis, they bundle dishNET services with their DISH branded pay-TV service to offer customers a single bill, payment and customer service option, which includes a bundle discount. In addition, on December 11, 2012 the FCC granted DISH full terrestrial use of its AWS-4 spectrum and established build-out requirements. Other domestic and foreign satellite operators also have proposed to offer DTH satellite service to U.S. customers using U.S.-licensed satellite frequencies or foreign-licensed frequencies that have the ability of covering the United States.

- *Video via the Internet.* With the large increase in the number of consumers with broadband service, a significant amount of video content has become available on the Internet for users to download and view on their personal computers, televisions and other devices. For example, Apple offers thousands of television shows and movies for rental, some in high-definition, on the online iTunes® Store and with their iCloud® service, all of a user's content could be shared wirelessly across Apple devices. In addition, Hulu® is an online video distributor which provides free movies and TV shows from 430 content providers including FOX, NBC Universal, ABC, Lionsgate, MGM, Univision, National Geographic, Paramount, A&E Television Networks, Sony Pictures and Warner Bros. This content can be accessed on demand through its website and those of its partners: AOL, IMDb, MSN, Yahoo! and TV Guide. Hulu also provides a monthly streaming subscription service to more than 3 million paying Hulu Plus subscribers that offers current and past season shows from ABC, Comedy Central, The CW, FOX, NBC, MTV and Univision. In addition, Netflix and Amazon through Amazon Prime® offer Subscription Video on Demand (SVOD) services for a flat monthly fee. For example, Netflix has a library of thousands of movies and TV shows available for streaming to its over 33 million subscribers in the U.S., Canada, Latin America and the United Kingdom. Verizon has announced plans to offer an SVOD service through a partnership with Redbox and expects to launch Redbox Instant™ in 2013. Additionally, several companies, such as Vudu, Google through Google Play and Amazon through Amazon Instant Video sell or rent movies or other shows via Internet download or streaming media. There are also several similar initiatives by companies such as Intel, Microsoft and Sony to make it easier to view Internet-based video on television and personal computer

screens. Many television models, Blu-Ray Disc® players and gaming consoles like Nintendo's Wii®, Sony's PS3® and Microsoft's Xbox® can be directly connected to the Internet and have the capacity to stream video to a television.

- *Mobile Video.* Many companies are beginning to offer mobile video applications due to consumers' increasing desire to view content outside of the home. For example, AT&T offers AT&T mobile TV™ which provides users the ability to watch full-length TV shows from ABC, CBS, Disney, ESPN, Fox, MTV and other programmers on their cell phones. AT&T also introduced the AT&T U-verse Mobile application providing iPhone customers the ability to download and watch authorized content from their DVRs on the go. Verizon Wireless offers Viewdini® which aggregates content from several providers into one location. In addition, Verizon offers FiOS Flex View which provides FiOS customers access to download and stream OnDemand and rented VOD titles for viewing inside and outside of the home. Comcast introduced the XFINITY™ TV Application which also allows customers to download and stream OnDemand video content to laptops, tablets and mobile devices. Other cable and satellite distributors are also focused on distributing their content to their customers' mobile devices. For example, Time Warner Cable, Cablevision and Cox allow streaming of live linear TV inside the home via iPad applications. Other mobile applications and services are also becoming available.
- *Small and Rural Telephone Companies and Google Fiber.* Other telephone companies are also finding ways to deliver video programming services over their wireline facilities or in a bundle with other MVPD providers. For example, DISH Network has agreements with Embarq, Windstream, TDS, Frontier, and ViaSat to bundle their individual DSL or satellite broadband (in the case of ViaSat), and telephony services with DISH Network's video service. Google has also deployed its own fiber network in Kansas City and offers the highest broadband speeds in the country. Google has announced that it plans to expand its fiber service to more cities during 2013.
- *Local Broadcasters.* Most areas of the United States can receive traditional terrestrial television broadcasts of numerous broadcast channels, with more stations available in larger markets. These include full-power broadcasters transmitting digital signals as well as low-power broadcasters transmitting in analog. Broadcasters provide local, network and syndicated programming. Viewers can receive this programming free of charge using off-air antennas,

DIRECTV

although broadcast signals typically cannot reach the entire local market to which the broadcaster is assigned. Full-power broadcasters transmitting in digital can offer both programming in high-definition and multiple programming services per channel.

DIRECTV LATIN AMERICA

DIRECTV Latin America is a leading provider of DTH digital television services throughout Latin America. DIRECTV Latin America provides a wide selection of local and international digital-quality video entertainment and audio programming under the DIRECTV and SKY brands to approximately 5.3 million subscribers in PanAmericana and approximately 5.0 million subscribers in Brazil. Our affiliate, Sky Mexico, has approximately 5.2 million subscribers. Including Sky Mexico, DIRECTV and SKY provide service to more than 15.5 million subscribers throughout the region.

We own 100% of PanAmericana, which provides services in Argentina, Chile, Colombia, Ecuador, Puerto Rico, Venezuela and certain other countries in the region, 93% of Sky Brasil, which operates in Brazil, and 41% of Sky Mexico, which operates in Mexico, certain countries in Central America and the Dominican Republic. Globo Comunicações e Participações S.A., or Globo, owns the other 7% of Sky Brasil and Grupo Televisa, S.A., or Televisa, owns the other 59% of Sky Mexico. The results of PanAmericana and Sky Brasil are consolidated in our results, and we account for our interest in Sky Mexico under the equity method of accounting.

We believe we provide one of the most extensive collections of programming available in the Latin America pay television market, including HD sports video content and the most innovative interactive technology across the region. In addition, we have the unique ability to sell superior offerings of our differentiated products and services on a continent-wide basis at a lower cost compared to our competition. As of December 31, 2012, we provided service to 24% of pay television households in PanAmericana, 31% of pay television households in Brazil and 37% of pay television households in Mexico.

To subscribe to the DIRECTV or SKY service, customers sign up for our video service directly through us or our regional retailers, or independent satellite television retailers or dealers. We tailor our offers and products to profitably and effectively provide our service to various customer segments across the region that have the need and desire for our brand and service. We offer post-paid products

and services to customers who meet our standard requirements. For these customers, dealers or one of our home service providers install the receiving equipment. The receiving equipment consists of a small receiving satellite dish antenna, one or more digital set-top receivers, which are typically leased to the subscriber, and remote controls. In addition, we offer prepaid service for customers that desire payment and commitment flexibility. These customers may purchase a standard-definition receiver and antenna at a regional retailer and pre-pay their DIRECTV service typically through one or more means, such as the purchase of a rechargeable card that they can acquire at a retailer or local kiosk. The video service will automatically disconnect once the credit on the card runs out.

Key Strengths

- **Large Subscriber Base and Pan-Regional Scale of Service.** On a regional basis, we are a leading provider of pay television services in Latin America. We believe that our large subscriber base, scale and relationship with DIRECTV U.S. provides us with the opportunity to obtain programming on favorable terms and secure unique content and features. We also believe that our large subscriber base contributes to achieving economies of scale in areas such as equipment and technology purchasing, customer service and broadcast operations.
- **Leading Brands.** DIRECTV and SKY brands in Latin America are positioned as the leader in digital video entertainment, offering the best quality content, technology and customer service available. We believe the strength of our brands is an important factor in our ability to attract and retain subscribers. In addition, we believe our recognized brand name enhances our ability to secure strategic alliances with programmers and distributors.
- **Relationship with DIRECTV U.S.** We believe that our ability to leverage the advanced technologies and best practices developed and followed by DIRECTV U.S. enables us to take advantage of its economies of scale, intellectual property and financial flexibility. Our platforms have set-top receiver specifications and middleware technologies that are aligned with DIRECTV U.S., which allows for the launch of new technologies, innovative features and services in advance of our competitors in the region and at a lower cost.

DIRECTV

- **High-Quality Digital Picture and Sound.** Our video and audio programming is 100% digitally delivered, providing subscribers with digital-quality video and audio, as well as interactive features and functionality. We believe this compares favorably with many cable providers in Latin America, which typically continue to broadcast to a large percentage of their subscribers in analog format.
- **Unique and Differentiated Content.** As a result of our leading brands and leveraging our greater scale, we believe we are able to offer unique and compelling content to subscribers. For example, in PanAmericana we delivered extensive coverage of the 2012 London Olympics by offering multiple live and simulcast feeds, all of which were in HD. We also offered live broadcasts of most of the events that included a Latin American athlete. In addition, we were the only provider of television services where subscribers could see all of the UEFA 2012 Euro Cup games. Similarly, Sky Brasil, PanAmericana and Sky Mexico have licensed exclusive and non-exclusive rights through the 2015 season to the Spanish soccer league, which in most countries is the second most popular soccer league behind the local country leagues.
- **Sales and Marketing.** We sell DIRECTV and SKY through a number of distribution channels, including direct sales, online, regional sales providers and local sales providers. We believe this variety of distribution alternatives coupled with segmented marketing programs, have enabled us to continue to grow our subscriber base and benefit from favorable market conditions by extending our leadership with advanced products as well as by continuing to penetrate the middle market segment with tailored package offerings.
- **Strong Customer Satisfaction.** We have attained top rankings in customer satisfaction studies for the pay television industry across the region. For example in 2012, the Brazilian equivalent to J.D. Power, Consumidor Moderno, awarded SKY “Best of the Best” in the Customer Service Category as well as Company of the Year. SKY won these accolades by both the popular vote and technical criteria. For the second consecutive year, DIRECTV was recognized in Chile with the “Calidad del Servicio ProCalidad 2012” award in the pay-TV category. DIRECTV Chile also received the “2012 Consumer Loyalty NPS” (Net Promoter Score) award. In addition, our regional call center operation in Colombia received two first place awards for “Best Social Responsibility” and “Best HR

Administration.” We believe that providing high-quality customer service is an important element in minimizing churn and attracting new subscribers. In addition, our ability to implement best practices in customer service from across the region, and from DIRECTV U.S., allows us to adapt quickly and efficiently to changes that we face.

Business Strategy

Our vision is to provide customers across Latin America with the best video experience by leveraging DIRECTV Latin America’s key strengths while continuing to distinguish our service from our competitors by offering subscribers unique, differentiated and compelling programming through leadership in content, technology, customer service and targeted marketing strategies. Our strategy involves (1) profitably expanding our leadership position across all demographic segments, (2) enhancing productivity and effectively managing costs and (3) leveraging DIRECTV Latin America’s brands and customer base to introduce complementary services.

- **Profitably Expand Leadership Position Across All Demographic Segments.** To achieve our goals, we believe we have to profitably expand our leadership position in several key areas including (1) strengthening our leadership position in the higher end markets with a particular focus on DVR and HD excellence, (2) leveraging scale to profitably serve the middle market segment while expanding penetration as well as (3) establishing Colombia as the third major country in PanAmericana.
 - **Increase DVR Penetration.** We believe that consumers at the higher end of the market are looking for more features and functionality in their TV viewing, particularly in terms of place and time shifting. Therefore in 2012, we obtained high-quality DVRs that are more functional and less costly than those of our competitors to distinguish our service from the competition. In most countries in which we operate, our competitors either do not offer DVRs or make them available on terms that have significantly limited their penetration. In 2013, we plan to expand our time and place shifting capabilities in Latin America with new products and services by continuing to leverage the product roadmap at DIRECTV U.S. For example, we plan on reinforcing our product leadership at the higher end of the market in PanAmericana by

DIRECTV

introducing an advanced whole-home DVR. As of December 31, 2012, approximately 28% of our subscribers had advanced products.

- **Strengthen Our Position in HD.** Although we expect that the HD content offerings will be more limited in Latin America than in the United States for the next several years and the uptake of HD services in Latin America will be slower than in the United States, we believe that continuing to expand our HD offerings provides us with a significant competitive advantage across market segments that are expected to experience continued growth. As of December 31, 2012, Sky Brasil offered its customers 47 HD channels and PanAmericana offered its customers on average 17 HD channels. We believe that we currently have a leading HD channel offering in Brazil and are looking to establish leadership in PanAmericana by increasing the capacity of our current satellite servicing the region by completing the migration of our business in Puerto Rico to the U.S. satellite platform and upgrading our broadcast ground facilities during 2013. We also expect to extend our advantage with the anticipated launch of our new leased satellites starting in 2014.
- **Profitably Increase Penetration in Middle Market Segment.** Based on generally low pay television penetration rates and favorable economic and demographic trends in the region, we believe the rapidly growing middle market continues to represent a significant opportunity for growth. In 2012, we continued to tailor our offers and products to profitably and effectively provide our service to value-focused customers who had the need and desire for affordable access to our brands and service. Typically, these offers and products are similar to our traditional ones except they allow customers access to significantly fewer channels and limit the number of set-top receivers customers may have in their homes. Our SKY service in Brazil offers these products and services to customers who meet our standard requirements on a traditional post-paid basis. In PanAmericana, we offer our DIRECTV service on a pre-paid basis to the middle market segment. Pre-paid subscribers purchase a set-top receiver and antenna at a regional retailer and pre-pay their DIRECTV service through various means, such as purchasing a rechargeable card that they can acquire at a retailer or local kiosk. The video service automatically disconnects once the credit on the card runs out. Looking ahead at 2013 and

beyond, we plan on continuing to serve the value-focused customers in Brazil and PanAmericana through targeted marketing and distribution strategies, as well as leveraging our relationship with DIRECTV U.S. to obtain lower cost set-top receivers.

- **Establish Colombia as the Third Major Country in PanAmericana.** In terms of total households, Colombia is the largest country in which we operate in PanAmericana. Due to continuous improvements in the business operating environment, favorable economic trends and relatively low pay television penetration rates in the marketplace, we believe Colombia presents a significant growth opportunity. In 2012, we established a goal to make Colombia our third largest market. To fulfill our objective we introduced tailored offers to profitably provide our service to higher-end markets as well as value-focused customers. We also expanded our dealer network and acquired programming rights for the Colombia soccer league. We plan on continuing to profitably expand our position in Colombia during 2013 through targeted marketing and distribution strategies that increase awareness and association with Colombian sports.
- **Enhance Productivity and Manage Costs.** Improving productivity and identifying efficiencies are critical to our goal to maintain strong margins particularly given the rapid growth of our subscriber base and regional scale of our operations. In particular, we plan to focus our efforts on productivity initiatives aimed at improving overall customer service levels. For example, we expect to utilize technology to implement process improvements in our call centers and other areas, such as upgrading our billing systems and informational technology systems. During 2012, we began investing in new customer relationship management systems and plan to continue centralizing our network management structure in 2013 to ensure superior service levels across customer segments while simultaneously improving productivity. We will also continue leveraging cost containment best practices from DIRECTV U.S. We expect initiatives like these to enhance operations across the various countries and regions where we offer service under the DIRECTV and SKY brands.
- **Leverage Brand and Customer Base to Introduce Complementary Services.** To expand our leadership in particular markets we are testing potential growth opportunities that could optimize the profitability of our

DIRECTV

subscriber base, minimize churn and extend the value of our brand. Our strategy involves (1) offering a fixed wireless broadband service and (2) extending our presence by establishing an over-the-top, or OTT, distribution platform.

- *Offer Fixed Wireless Broadband.* Connecting our customers to a broadband service is strategically important because we expect it will minimize churn and attract new subscribers. We are focused on selectively pursuing opportunities to acquire spectrum and expand a technologically robust and profitable fixed wireless broadband service in areas where our existing subscriber base has a weak competitive wireline offering or access to broadband is limited. We currently provide fixed wireless service in Mendoza, Argentina and Brasilia, Brazil. The fixed wireless service offered benefits to our core business through increased pay-TV sales, improved customer satisfaction from bundled subscribers as well as lowered monthly churn. We plan to expand our fixed wireless service to several cities in Brazil.
- *Establish OTT Distribution Platform.* Extending our premium video experience to our customers who desire content that can be accessed on demand is important as the penetration of pay television households with Internet access increases across the region. Given the strength of our brands, the scale of our subscriber base and our strong relationships with programmers and distributors, we began to complement our traditional video subscription service by establishing a premium OTT distribution platform in the region. Since late 2011, we have offered SKY Online, which enables customers to download and stream OnDemand video content to laptops, tablets and mobile devices. SKY Online also offers an option for Subscription Video on Demand service (SVOD) for a flat monthly fee.

Infrastructure

We currently provide services in PanAmericana and Brazil from leased transponders on two geosynchronous satellites. Sky Mexico provides its services from leased transponders on a separate satellite. In addition, we lease a backup satellite that serves Sky Brasil and Sky Mexico.

We have entered into a contract for the lease of two additional satellites for PanAmericana: ISDLA-1, which we expect to be launched in the fourth quarter of

2014 and ISDLA-2, which we expect to be launched in the fourth quarter of 2015. ISDLA-1 will become the primary satellite for PanAmericana with a substantial increase in channel capacity from the current satellite, and ISDLA-2 is expected to serve as an in-orbit spare for ISDLA-1.

Our principal digital broadcast centers are located in the United States and Brazil. We also have several smaller satellite uplink facilities in the region.

We typically have customer service centers in each of the countries where we operate. In addition, we operate two pan-regional centers located in Colombia that provide primary and backup customer service support to most of the PanAmericana region.

Competition

The pay television and other emerging broadband video and data markets in Latin America are highly competitive. In each of our markets, we compete primarily with other providers of pay television, which distribute their programming by satellite, cable, terrestrial microwave systems, traditional over-the-air broadcasting or the Internet. In addition, in certain markets we face significant competition from illegal and informal sector pay television operations. We compete primarily on the basis of programming selection, price, technology and service.

In most of the markets in which we operate, cable television is our principal competitor. Cable operators typically offer analog services for lower monthly fees and with lower upfront installation and connection fees than we offer. In addition, the cable operators with which we compete are in various stages of upgrading their networks in order to provide broadband and telephony services, and in some markets the major cable operators are competing with us based principally on their offer of a "triple play" bundle of video, broadband and telephony services. In most cases, they discount the value of their programming services in order to sell broadband and telephony services.

In addition to competition from cable services, we face increasing competition from other providers of DTH services. Telefonica, the Spanish telephone company, provides DTH services in Brazil, Chile, Colombia, Peru and Venezuela. Telmex provides DTH service in Chile and Peru, and in 2009 it launched services in Brazil through its affiliate, Embratel, which has since been rebranded as Claro TV. Oi, the second fixed line incumbent in Brazil (in addition to Telefonica), launched a DTH service in 2009. Also, in Mexico a joint venture of EchoStar Corp. and MVS

DIRECTV

Comunicaciones launched a DTH service in 2009, with substantial commercial support and cooperation from Telmex, which, due to regulatory restrictions, is not currently permitted to provide its own video services in Mexico. These competitors have significant resources and have proven their ability to grow their businesses rapidly. They typically focus on offering lower-cost, limited services packages in support of their telephony and broadband offerings, which can increase our churn and put pressure on our margins. Also, the existence of multiple DTH operators in a single market dilutes our ability to market our DTH service as an alternative to cable, traditionally our principal competition.

In a number of markets, existing wireline telephony operators have announced their intention to upgrade their infrastructure in order to provide new and enhanced services, including IPTV video programming. However, to date only a very small number of such upgrades and build outs have been actively pursued on other than a test basis.

ACQUISITIONS, STRATEGIC ALLIANCES AND DIVESTITURES

We review our competitive position on an ongoing basis and, from time to time, consider various acquisitions, strategic alliances and divestitures, including potential wireless broadband investments or alliances, in order to continue to compete effectively, improve our financial results, grow our business and allocate our resources efficiently. We also consider periodically making equity investments in companies with which we can jointly provide services to our subscribers.

For a further discussion of our mergers and acquisitions, see Note 4 of the Notes to the Consolidated Financial Statements in Item 8, Part II of this Annual Report, which we incorporate herein by reference.

GOVERNMENT REGULATION

We are subject to government regulation in the United States, primarily by the FCC, and similar regulatory agencies in Latin America, and by other federal, state and local authorities. We are also subject to the rules and procedures of the International Telecommunications Union, a specialized agency of the United Nations, which coordinates global telecommunications networks and services.

The following is a summary of relevant regulatory issues and is not intended to describe all present and proposed government regulation and legislation affecting our business.

FCC Regulation Under the Communications Act and Related Acts. The Communications Act and other related acts give the FCC broad authority to regulate the operations of DIRECTV U.S.

FCC regulations govern, among other issues:

- the licensing of DBS and DTH satellites, earth stations and ancillary authorizations;
- the assignment of frequencies and orbital slots, the relocation of satellites to different orbital locations, the extension of licenses for existing satellites, and the replacement of an existing satellite with a new satellite;
- terms and conditions of assignments and authorizations, including required timetables for construction and operation of satellites; and
- avoidance of interference by and to DBS/DTH operations with operations of other entities that make use of the radio spectrum.

All of our satellites and earth stations are licensed by the FCC. The FCC generally issues DTH space station licenses for a fifteen-year term and DBS space station and earth station licenses for a ten-year term, which is less than the useful life of a healthy direct broadcast satellite. Upon expiration of the initial license term, the FCC has the option to extend a satellite operator's license, authorize operation for a period of time on special temporary authority, or decline to extend the license.

Currently, we have several applications pending before the FCC, including applications to launch and operate future satellites. In general, the FCC's approval of these applications is required for us to continue to expand our range of service offerings while increasing the robustness of our satellite fleet. We may not obtain these approvals in a timely fashion or at all.

As a DBS/DTH licensee and operator we are also subject to a variety of Communications Act requirements, FCC regulations and copyright laws that could materially affect our business. They include the following:

- ***Local-into-Local Service and Limitation on Retransmission of Distant Broadcast Television Signals.*** The Satellite Home Viewer Act ("SHVA," which in this Annual Report includes its progeny legislation, the Satellite Home Viewer Improvement Act of 1999; the Satellite Home Viewer Extension and Reauthorization Act of 2004; and the Satellite Television

DIRECTV

Extension and Localism Act of 2010) allows DIRECTV U.S. to retransmit the signals of local broadcast television stations in the stations' local markets without obtaining authorization from the holders of copyrights in the individual programs carried by those stations. Another portion of SHVA also permits satellite retransmission of distant network stations (*e.g.*, those that originate outside of a satellite subscriber's local television market) only to "unserved households." A subscriber qualifies as an "unserved household" if he or she cannot receive, over the air, a signal of sufficient intensity from a local station affiliated with the same network, or falls into a few other very limited exceptions. SHVA also prohibits DIRECTV U.S. from signing up a new subscriber to distant signals if that subscriber lives in a local market where DIRECTV U.S. makes available the same-network local signal. The FCC has required DIRECTV U.S. to delete certain programming, including sports programming, from the signals of certain distant stations. In addition, the FCC's continuing interpretation, implementation and enforcement of other provisions of SHVA and judicial decisions could hamper the ability of DIRECTV U.S. to retransmit local and distant network and superstation signals, reduce the number of our existing or future subscribers that can qualify to receive these signals, impose compliance costs on us, or subject us to fines, monetary damages or injunctions. The distant signal provisions are set to expire in 2014. Congress may decline to renew those provisions, which could severely restrict our ability to retransmit distant signals.

- **Must Carry Requirement.** SHVA imposes a must carry obligation on DIRECTV U.S. This requires satellite carriers that choose to take advantage of the statutory copyright license in a local market to carry upon request the signals of all qualifying television broadcast stations within that local market, subject to limited exceptions. The FCC has adopted further detailed rules covering our carriage of both commercial and non-commercial broadcast television stations. These rules generally require us to carry all of the local broadcast stations properly requesting carriage in markets in which we retransmit the signals of local broadcast stations. The projected number of markets in which we can deliver local broadcast programming will continue to be constrained because of the must carry requirement and may be reduced depending on the FCC's interpretation of its rules and judicial decisions. For example, the FCC issued an order requiring mandatory carriage of high-definition digital signals in an increasing number of markets

each year, requiring so-called "HD carry-one, carry-all" in all local markets served by 2013. We may not be able to comply with these rules, or may be required to use capacity that could otherwise be used for additional local or national programming.

- **Retransmission Consent.** For those local television broadcast stations that do not elect must carry, SHVA also requires DIRECTV U.S. to obtain consent prior to retransmitting their signals to viewers. Television broadcast stations may withhold this consent (subject to a requirement to negotiate in good faith), and other provisions of copyright and communications law prevent DIRECTV from providing duplicate out-of-market programming in many instances. Thus, where consent is withheld, DIRECTV U.S. subscribers may lose access to popular programming.
- **Public Interest Requirement.** The FCC has imposed certain public interest obligations on DBS operators, including a requirement that such providers set aside four percent of channel capacity exclusively for noncommercial programming of an educational or informational nature, for which we must charge programmers below-market rates and may not impose additional charges on subscribers. FCC rules also require DIRECTV U.S. to comply with a number of political broadcasting requirements and limits on the commercialization of children's programming. We believe that DIRECTV U.S. is in compliance with all of these requirements, but some require our interpretations, which we believe are reasonable and consistent with industry practice. However, the FCC may not agree.
- **Emergency Alert System.** The Emergency Alert System, or EAS, requires participants to interrupt programming during nationally declared emergencies and to pass through emergency information. The FCC has adopted rules that require satellite carriers to comply with this requirement. It may also mandate that satellite carriers interrupt programming for local emergencies and weather events. Any such requirement would be very difficult to implement, would require costly changes to our DBS/DTH system, and, depending on how it is implemented, could inconvenience or confuse our viewers. The FCC is also considering whether to require that EAS alerts be provided in multiple languages or via text messages, which could also prove difficult and costly.
- **Spectrum Allocation and License Assignment Rules.** We depend upon the FCC's allocation of DBS/DTH frequencies and assignment of DBS/DTH

DIRECTV

licenses. DBS frequencies and available DBS orbital locations capable of supporting our business have become increasingly scarce. While we continue to explore new sources of DBS/DTH capacity, there can be no assurance that we will obtain further capacity.

In 2007, the FCC adopted new service and licensing rules for broadcasting satellite services in the 17.3-17.8 GHz and 24.75-25.25 GHz bands, or 17/24 GHz BSS. This spectrum, also known as the "reverse band" (in that transmissions from these satellites to consumers would occur in spectrum currently used for uplinking programming to traditional DBS satellites), could provide a new source of additional DTH capacity. DIRECTV currently holds authorizations for satellites in this band at two orbital locations. However, foreign operators who may have international priority have recently brought into use conflicting ITU network filings at the two orbital locations at which we are licensed. Depending upon the ultimate disposition of those filings, our use of one or both of these licenses may be limited or precluded entirely.

- ***Rules Governing Co-Existence With Other Satellite and Terrestrial Services and Service Providers in the MVPD Industry.*** The FCC has adopted rules to allow non-geostationary orbit fixed satellite services to operate on a co-primary basis in the same frequency band as the one used by direct broadcast satellite and Ku-Band-based fixed satellite services. In the same proceeding, the FCC concluded that multi-channel video and data distribution services, or MVDDS, can share spectrum with DBS operators on a non-interference basis, and adopted rules and a method for assigning licenses in that service. While the FCC has established service and technical rules to protect DBS operations from harmful interference, these rules may not be sufficient to prevent such interference, and such services may have a material adverse impact on our operations. In addition, one MVDDS operator has received a conditional waiver of the applicable rules so that it could operate its system in Albuquerque, New Mexico at substantially higher power levels, which may have a material adverse impact on our operations in that market.

In 2006, the FCC released a notice of proposed rulemaking regarding the possible operation of "tweener" or "short spaced" satellites that would operate in the same DBS uplink and downlink frequency bands as DIRECTV U.S., from orbital positions located in between those now

assigned to the DBS service. Under rules that the FCC is considering, a provider could operate a satellite in between two orbital locations where we have already positioned DIRECTV U.S. satellites without completing coordination of its operations and without demonstrating that such operations would not "affect" the DIRECTV service. We have opposed this proposal, and believe that tweener satellites as proposed by applicants would cause interference to current and planned operations and impose a significant constraint on the further growth of our DIRECTV U.S. service. We cannot predict what if any action the FCC may take or the effect of such a proceeding on our business.

The FCC has also adopted rules that require satellite operators to take certain measures to mitigate the dangers of collision and orbital debris. Among other things, these rules impose certain requirements for satellite design and end-of-life disposal maneuvers, which apply to eight of our in-orbit satellites and may in the future be applied to others. We believe that we are in compliance with all of these requirements, but the requirements could result in a slight reduction in the operational life of each new satellite.

- ***Geographic Service Rules.*** The FCC requires DBS and 17/24 GHz BSS licensees to comply with certain geographic service obligations intended to foster the provision of DTH service to subscribers residing in Alaska and Hawaii. We believe that we are in compliance with these rules. The FCC has not acted on petitions filed several years ago by the State of Hawaii and an Alaska satellite television dealer claiming a violation of those rules. We cannot be sure that the FCC will not require us to make potentially cumbersome and costly changes to our business.
- ***FCC Conditions Imposed In Connection With the Liberty Media and News Corporation Transactions.*** In approving Liberty Media's 2008 acquisition of News Corporation's equity investment in us, the FCC imposed a number of regulatory conditions on us, some of which affected our business. In granting authority for subsequent transactions in 2009 and 2010, the FCC conditioned its approval on continued compliance with those conditions. Accordingly, the FCC has imposed on us program carriage conditions intended to prevent discrimination against all forms of unaffiliated programming; and conditions intended to ensure non-discriminatory access to programming affiliated with DIRECTV. In

DIRECTV

particular, we may be required to submit to “baseball style” arbitration if we cannot arrive at terms for carriage of our regional sports network programming with an MVPD.

- **Potential Regulation of Set-Top Receivers.** Cable operators are subject to a wide variety of regulation of their set-top receivers, including a prohibition on “integrated” security and non-security functions. The FCC has exempted DTH satellite operators from such rules, but has been urged to eliminate that exemption. Were it to do so, DIRECTV U.S. may be required to redesign its set-top receivers and, conceivably, replace existing receivers. The D.C. Circuit recently vacated FCC rules that limited cable and satellite operators’ ability to encode programming to restrict copying and to use selectable output control, which could give DIRECTV U.S. additional flexibility. The FCC has adopted accessibility requirements, such as the pass-through or rendering of closed captioning and video description, and is considering additional requirements which could require the redesign of DIRECTV’s set-top receivers. The FCC is also considering an alternate regime under which all MVPDs, including DIRECTV U.S., would be required to offer “All Vid interfaces” instead of their existing set-top receiver arrangements. Such interfaces would be designed according to government specifications to deliver the DIRECTV U.S. programming stream and related data for manipulation by third-party electronic equipment. DIRECTV U.S. believes such a requirement would significantly hinder its ability to offer new and innovative services, and could complicate its customer service efforts.

International Telecommunications Union Rules. We are required by international rules to coordinate the use of the frequencies on our satellites with other satellite operators who may interfere with us or who may suffer interference from our operations.

Export Control Regulation. The delivery of satellite-related technical information for use by foreign manufacturing companies and of satellites and related technical information for the purpose of launch by foreign launch services providers are subject to strict export control and prior approval requirements.

Other Legal and Regulatory Requirements. DBS/DTH providers are subject to other federal and state regulatory requirements, such as telemarketing and advertising rules, and subscriber privacy rules similar to those governing other

MVPDs. We have agreed with the Federal Trade Commission, or FTC, to (1) review and monitor compliance with telemarketing laws by any companies we authorize to do telemarketing and by independent retailers, (2) investigate and respond to complaints about alleged improper telemarketing and (3) terminate our relationship with marketers or retailers found in violation. Similarly, we have agreed with certain state attorneys general to comply with advertising disclosure requirements and monitor compliance by independent retailers.

We are also subject to state and federal rules and laws regarding information security. Most of these rules and laws apply to customer information that could be used to commit identity theft. Substantially all of the U.S. states and the District of Columbia have enacted security breach notification laws. These laws generally require that a business give notice to its customers whose financial account information has been disclosed because of a security breach.

In addition, aspects of DBS/DTH service remain regulated at the state and local level. For example, the FCC has promulgated rules prohibiting restrictions by local government agencies and private organizations on the placement of DBS receiving antennas. Local governments and homeowners associations, however, may continue to regulate the placement of such antennas if necessary to accomplish a clearly defined public safety objective or to preserve a recognized historic district, and may also apply to the FCC for a waiver if there are other local concerns of a special or unusual nature. In addition, a number of state and local governments have attempted to impose consumer protection, customer service and other types of regulation on DBS operators. Also, while Congress has prohibited local taxation of DBS service, state taxation is permissible, and many states have imposed such taxes, and additional states have attempted to do so recently. Incident to conducting a consumer directed business, we occasionally receive inquiries or complaints from authorities such as state attorneys general and state consumer protection offices or the FTC. These matters are generally resolved in the ordinary course of business, and DIRECTV recently agreed to implement a restitution program for consumers who send eligible complaints related to consumer protection practices.

In Latin America, DIRECTV Latin America and its subsidiaries are subject to laws and regulations in each country in which we operate that govern many of the same aspects of our operations as in the United States, such as landing rights for satellites; spectrum, earth station and other licenses; must carry and other requirements with respect to the channels we carry; and regulations governing telemarketing and customer service. Regulatory regimes in Latin America are

DIRECTV

generally less developed than in the United States, and the application of existing laws and regulations to DBS/DTH providers is at times uncertain. In addition, there are certain areas where regulations in Latin America are stricter than in the United States, such as regarding labor and consumer protection laws. Foreign exchange laws in some countries can have a material impact on our ability to repatriate funds to the United States. Also, several countries such as Venezuela, Argentina and Brazil have passed or proposed laws imposing certain “national” content requirements, advertising limitations and other requirements on the content we distribute. Such laws can have an adverse impact on the business of our subsidiaries.

INTELLECTUAL PROPERTY

All DIRECTV companies maintain active programs for identifying and protecting our important intellectual property. We believe that our growing portfolio of pending and issued patents are important assets. We presently hold over 2,000 issued patents worldwide relating to our past and present businesses, including over 500 patents developed by, or otherwise relating to, the businesses of DIRECTV U.S. We hold a worldwide portfolio of over 900 trademarks related to the DIRECTV brand, the Cyclone Design and DIRECTV products and services. In particular, DIRECTV U.S. holds trademark registrations relating to its business, including registrations of the primary “DIRECTV” and the DIRECTV Cyclone Design trademarks. In many instances, these trademarks are licensed royalty-free to third parties for use in support of the DIRECTV U.S. business. We actively protect our important patents, trademarks and other intellectual property rights against unauthorized or improper use by third parties.

ENVIRONMENTAL REGULATION

We are subject to requirements of federal, state, local and foreign environmental laws and regulations. These include laws regulating air emissions, water discharge, employee safety, and universal and hazardous waste management activities. We have an environmental management function designed to track, facilitate and support our compliance with these requirements and attempt to maintain compliance with all such requirements. We have made and will continue to make, as necessary, capital and other expenditures to comply with environmental requirements. We do not, however, expect capital or other expenditures for environmental compliance to be material in 2013. In addition, we periodically review environmental stewardship concepts (such as green initiatives and energy

conservation strategies) and implement these whenever feasible. We have been selected by the Environmental Protection Agency as a 2010, 2011 and 2012 Energy Star award winner for excellence in energy efficient product design and recognized for our “leadership in advancing technology” to reduce energy while continuing to deliver our service. Environmental requirements are complex, change frequently and have become increasingly more stringent over time. Accordingly, we cannot provide assurance that these requirements will not change or become more stringent in the future in a manner that could have a material adverse effect on our business.

We are also subject to environmental laws requiring the investigation and cleanup of environmental contamination at facilities we formerly owned or operated or currently own or operate or to which we sent hazardous wastes, including specified universal wastes, for treatment, service, disposal or recycling. We are aware of contamination at one of our former sites. We are in the process of complying with the requirements stipulated by the government agency overseeing the site cleanup and have allocated the funds to achieve the decontamination goals.

SEGMENT REPORTING DATA

Operating segment and principal geographic area data for 2012, 2011 and 2010 are summarized in Note 20 of the Notes to the Consolidated Financial Statements in Item 8, Part II of this Annual Report.

EMPLOYEES

As of December 31, 2012, DIRECTV U.S. had approximately 15,000 full-time and 500 part-time employees, DIRECTV Latin America had approximately 12,000 full-time and 2,000 part-time employees and Sports Networks and Other had approximately 200 full-time employees.

ACCESS TO COMPANY REPORTS

Our website address is www.directv.com. Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished, if any, pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available free of charge through our website as soon as reasonably practicable after they are electronically filed with, or furnished to, the SEC. We are not incorporating by reference in this Annual Report on Form 10-K any information on our website.

DIRECTV

DIRECTV, DIRECTV Cinema and the DIRECTV Cyclone Design are trademarks of The DIRECTV Group, Inc. and/or its related entities. Other trademarks, service marks and trade names appearing in this Annual Report are the property of their respective holders.

ITEM 1A. RISK FACTORS

You should carefully consider the following risk factors. The risks described below are not the only ones facing our company. Additional risks not presently known to us or that we currently deem immaterial may also impair our business, financial conditions or results of operations.

Our business, financial condition or results of operations could be materially and adversely affected by the following:

We compete with other MVPDs, some of whom have greater resources than we do and levels of competition are increasing.

We compete in the MVPD industry against cable television, telcos and wireless companies and other land-based and satellite-based system operators with service offerings including video, audio and interactive programming, broadband and other entertainment services and telephony service. Some of these competitors have greater financial, marketing and other resources than we do.

Some cable television operators have large, established customer bases and many cable operators have significant investments in, and access to, programming. Cable television operators have advantages relative to our U.S. operations, including or as a result of:

- being the incumbent MVPD operator with an established subscriber base in the territories in which DIRECTV U.S. competes;
- access or telephone service on upgraded cable systems;
- having legacy arrangements for exclusivity in certain multiple dwelling units and planned communities.

In addition, certain cable companies and telcos in the U.S. and Latin America are capable of offering bundled video, broadband and telecommunications services. In some cases, it appears that the video component of such bundled offerings is

significantly underpriced and, in effect, subsidized by the rates charged for broadband and telephony services. In Latin America, this practice of cross-subsidization is sometimes incentivized by higher taxes on pay TV services than on telecommunication and broadband services. These pricing practices can influence customers' willingness to subscribe to our service at rates we consider appropriate.

Mergers, joint ventures and alliances among wireless or private cable television operators, telcos, broadband service providers and others may result in an increase in the number of providers capable of offering such bundled services. For example, last year the FCC approved a commercial arrangement under which four of the nation's largest cable operators and Verizon Wireless would act as agents selling one another's services and engage in ongoing development of ways to integrate their wireless and wireline services.

We have been unable to secure certain international programming, due to exclusive arrangements of programming providers with certain competitors, which has constrained our ability to compete for subscribers who wish to obtain such programming. And as discussed below, certain cable-affiliated programmers have withheld their programming from us in certain markets, which has further constrained our ability to compete for subscribers in those markets.

In the United States, various telcos and broadband service providers have deployed fiber optic lines directly to customers' homes or neighborhoods to deliver video services, which compete with the DIRECTV service. It is uncertain whether we will be able to increase our satellite capacity, offer a significant level of new services in existing markets in which we compete or expand to additional markets as may be necessary to compete effectively. Some of these various telcos and broadband service providers also sell the DIRECTV service as part of a bundle with their voice and data services. A new broadly-deployed network with the capability of providing video, voice and data services could present a significant competitive challenge and, in the case of the telcos currently selling the DIRECTV service, could result in such companies focusing less effort and resources selling the DIRECTV service or declining to sell it at all. We may be unable to develop other distribution methods to make up for lost sales through the telcos.

As a result of these and other factors, we may not be able to continue to expand our subscriber base or compete effectively against cable television or other MVPD operators in the future.

DIRECTV

Emerging digital media competition could materially adversely affect us.

Our business is focused on video, and we face emerging competition from other providers of digital media, some of which have greater financial, marketing and other resources than we do. In particular, programming offered over the Internet has become more prevalent as the speed and quality of broadband networks have improved. Online video distributors and providers such as Hulu, Roku, Netflix, Apple, Amazon, Blockbuster and Google, as well as gaming consoles such as Microsoft's Xbox, Sony's PS3 and Nintendo's Wii, are aggressively working to become alternative providers of video services. Such services and the growing availability of online content, coupled with an expanding market for connected devices and Internet-connected televisions, as well as wireless and other emerging mobile technologies that provide for the distribution and viewing of video programming, pose a competitive challenge to traditional MVPDs, as a number of consumers may decide to drop or reduce their traditional MVPD subscription package. Some of these services charge a nominal fee or no fee for access to their content, which could adversely affect our business.

Significant changes in consumer behavior with regard to how they obtain video entertainment and information in response to this emerging digital media competition could materially adversely affect our revenues and earnings or otherwise disrupt our business.

We depend on others to produce programming and programming costs are increasing.

Almost all of our programming is provided by unaffiliated third parties. Typically our programming agreements are multiple-year agreements and contain annual price increases. Upon renewal of expiring contracts, programming suppliers have historically increased the rates they charge us for programming. Often these increases are greater than the rate of inflation. We expect this practice to continue and the negotiations over such increases to become more difficult and disruptive. Programming expenses will continue to be our largest single expense item in the foreseeable future. Our industry has continued to experience an increase in the cost of programming, especially sports programming. Continued increases in programming costs, including retransmission costs for broadcast programming, will cause us to increase the rates that we charge our subscribers, which could in turn, especially in a difficult economic environment, cause subscribers to terminate their subscriptions or potential new subscribers to refrain from subscribing to our service.

Furthermore, due to the economy and other factors, we may be unable to pass programming cost increases on to our subscribers. Alternatively, to attempt to mitigate the effect of price increases, we may refuse to carry certain channels, which could adversely affect subscriber growth or result in higher churn.

In addition, a limited number of cable-affiliated programmers have in the past denied us access to their programming. As discussed below, the FCC's prohibition on most exclusive distribution arrangements involving cable operators and cable-affiliated programmers expired last year, replaced by a case-by-case complaint procedure in which the burden rests with the complainant. Our ability to compete successfully will depend on our ability to continue to obtain desirable programming and deliver it to our subscribers at competitive prices. We may not be able to renew these agreements on favorable terms, or at all, or these agreements may be canceled prior to expiration of their original terms. If we are unable to renew any of these agreements or the other parties cancel the agreements, we may not be able to obtain substitute programming, or what we obtain may not be comparable in quality or cost to our existing programming.

If we are unable to obtain rights to programming or to pass additional costs on, the potential loss of subscribers and the need to absorb some or all of the additional costs could have a material adverse effect on our earnings or cash flow.

Increased subscriber churn or subscriber upgrade and retention costs could materially adversely affect our financial performance.

Subscriber service cancellations, or churn, have a significant financial impact on the results of operations of any subscription television provider, as does the cost of upgrading and retaining subscribers. Any increase in our upgrade and retention costs for our existing subscribers or increased programming costs may adversely affect our financial performance or cause us to increase our subscription rates, which could increase churn. Churn may also increase due to factors beyond our control, including churn by subscribers who are unable to pay their monthly subscription fees, a slowing economy, significant signal theft, consumer fraud, a maturing subscriber base and competitive offers. Any of the risks described in this Annual Report that could potentially have a material adverse impact on our costs or service quality or that could result in higher prices for our subscribers could cause an increase in churn and consequently have a material adverse effect on our earnings and financial performance.

DIRECTV

Our subscriber acquisition costs could materially increase.

We incur costs for subscribers acquired by us and through third parties. These costs are known as subscriber acquisition costs and include the cost of set-top receivers and other equipment, commissions we pay to third parties, and the cost of installation, advertising, marketing and customer call center expenses associated with the acquisition of new subscribers. Our subscriber acquisition costs may materially increase if we offer more costly advanced equipment or services, including connecting our receivers to the customers' broadband service, continue or expand current sales promotion activities or introduce more aggressive promotions. Any material increase in subscriber acquisition costs from current levels would negatively impact our earnings and could materially adversely affect our financial performance.

Results are impacted by the effect of, and changes in, economic conditions and weakening economic conditions may reduce subscriber spending and our rate of growth of subscriber additions and may increase subscriber churn.

Our business may be affected by factors that are beyond our control, such as downturns in economic activity, or in the MVPD industry. Factors such as interest rates and the health of the housing market may impact our business. A substantial portion of our revenues comes from residential customers whose spending patterns may be affected by prevailing economic conditions. Our market share in multiple dwelling units such as apartment buildings is lower than that of many of our competitors. If unemployment and foreclosures of single family residences increase, our earnings and financial performance could be negatively affected more than those of our competitors. In addition, if our customers seek alternative means to obtain video entertainment, they may choose to purchase fewer services from us or may discontinue receiving our services. Due to the economic and competitive environment, we may need to spend more, or we may provide greater discounts or credits, to acquire and retain customers who in turn spend less on our services. If our ARPU decreases or does not increase commensurate with increases in programming or other costs, our margins could become compressed and the long-term value of a customer would then decrease. The weak economy may affect our net subscriber additions and reduce subscriber spending and, if these economic conditions continue or deteriorate, subscriber growth could decline and churn could increase which would have a material adverse effect on our earnings and financial performance.

DIRECTV Latin America is subject to various additional risks associated with doing business internationally, which include political instability, economic instability and foreign currency exchange rate volatility.

All of DIRECTV Latin America's operating companies are located outside the continental United States. DIRECTV Latin America operates and has subscribers located throughout Latin America and the Caribbean, which makes it vulnerable to risks of conducting business in foreign markets, including:

- difficulties and costs associated with complying with a wide variety of complex laws, treaties and regulations;
- unexpected changes in political or regulatory environments;
- earnings and cash flows that may be subject to tax withholding requirements or the imposition of tariffs, exchange controls or other restrictions;
- restrictions on, or difficulties and costs associated with, the repatriation of cash from foreign countries to the United States;
- political and economic instability;
- import and export restrictions and other trade barriers;
- difficulties in maintaining overseas subsidiaries and international operations;
- difficulties in obtaining approval for significant transactions;
- government imposition of limitations on foreign ownership;
- government takeover or nationalization of business; and
- government mandated price controls.

In the past, the countries that constitute some of DIRECTV Latin America's largest markets, including Brazil, Argentina, Colombia and Venezuela have experienced economic crises, characterized by exchange rate instability, currency devaluation, high inflation, high interest rates, economic contraction, a reduction or cessation of international capital flows, a reduction of liquidity in the banking sector and high unemployment. These economic conditions have often been related to political instability. If these economic conditions recur, they could substantially reduce the purchasing power of the population in our markets, including the middle-markets which we are targeting, and materially adversely affect our business. Also, foreign currency exchange controls are currently in effect in Venezuela and

DIRECTV

Argentina, and have adversely affected our ability to repatriate cash balances from those countries.

Because DIRECTV Latin America offers premium pay television programming, its business may be particularly vulnerable to economic downturns. DIRECTV Latin America has in the past experienced, and may in the future experience, decreases or instability in consumer demand for its programming and increases in subscriber credit problems. DIRECTV Latin America's inability to adjust its business and operations to address these issues could materially adversely affect its revenues and ability to sustain profitable operations.

Our ability to keep pace with technological developments is uncertain.

In our industry, changes occur rapidly as new technologies are developed, which could render our services and products obsolete. We may not be able to keep pace with technological developments. If new technologies on which we focus our investments fail to achieve acceptance in the marketplace or our technology does not work and requires significant cost to replace or fix, we could suffer a material adverse effect on our future competitive position, which could cause a reduction in our revenues and earnings. Further, after incurring substantial costs, one or more of the technologies under development by us or any of our strategic partners could become obsolete prior to its introduction.

Technological innovation depends, to a significant extent, on the work of technically skilled employees. Competition for the services of these employees has been vigorous. We may not be able to continue to attract and retain such employees.

To access technologies and provide products that are necessary for us to remain competitive, we may make future acquisitions and investments and may enter into strategic partnerships with other companies. Such investments may require a commitment of significant capital and human and other resources. The value of such acquisitions, investments and partnerships and the technology accessed may be highly speculative. Arrangements with third parties can lead to contractual and other disputes and dependence on others for the development and delivery of necessary technology that we may not be able to control or influence. Such relationships may commit us to technologies that are rendered obsolete by other developments or preclude the pursuit of other technologies which may prove to be superior.

Our business relies on intellectual property, some of which is owned by third parties, and we may inadvertently infringe patents and proprietary rights of others.

Many entities, including some of our competitors, have or may obtain patents and other intellectual property rights that cover or affect products or services related to those that we currently offer or may offer. If a court determines that one or more of our services or the products used to transmit or receive our services infringes on intellectual property owned by others, we and the applicable manufacturers or vendors may be required to cease developing or marketing those services and products, to obtain licenses from the owners of the intellectual property or to redesign those services and products in such a way as to avoid infringing the intellectual property rights. If a third party holds intellectual property rights, it may not allow us or the applicable manufacturers to use its intellectual property at any price, which could materially adversely affect our competitive position.

We may not be aware of all intellectual property rights that our services or the products used to transmit or receive our services may potentially infringe. U.S. patent applications are generally confidential until the Patent and Trademark Office issues a patent. Therefore, we cannot evaluate the extent to which our services or the products used to transmit or receive our services may infringe claims contained in pending patent applications. Further, without lengthy litigation, it is often not possible to determine definitively whether a claim of infringement is valid.

We cannot estimate the extent to which we may be required in the future to obtain intellectual property licenses or the availability and cost of any such licenses. Those costs, and their impact on our earnings, could be material. Damages in patent infringement cases may also include treble damages. If we are required to pay royalties to third parties, these increased costs could materially adversely affect our operating results. We are currently being sued in patent infringement actions related to use of technologies in our DTH business. There can be no assurance that the courts will conclude that our services or the products used to transmit or receive our services do not infringe on the rights of third parties, that we or the manufacturers would be able to obtain licenses from these persons on commercially reasonable terms or, if we were unable to obtain such licenses, that we or the manufacturers would be able to redesign our services or the products used to transmit or receive our services to avoid infringement. The final disposition of these claims is not expected to have a material adverse effect on our consolidated

DIRECTV

financial position, but could possibly be material to our consolidated results of operations for any one period. Further, no assurance can be given that any adverse outcome would not be material to our consolidated financial position. See "Legal Proceedings-Intellectual Property Litigation" in Part I, Item 3 which is incorporated by reference herein.

We rely on key personnel.

We believe that our future success will depend to a significant extent upon the performance of certain of our key executives. The loss of certain of our key executives could have a material adverse effect on our business, financial condition and results of operations.

Construction or launch delays on satellites could materially adversely affect our revenues and earnings.

A key component of our business strategy is our ability to expand our offering of new programming and services, including HD programming. In order to accomplish this goal, we need to construct and launch new satellites. The construction and launch of satellites are often subject to delays, including construction delays, unavailability of launch opportunities due to competition for launch slots, weather, general delays when a launch provider experiences a launch failure, and delays in obtaining regulatory approvals. A significant delay in the delivery of any satellite would materially adversely affect the use of the satellite and thus could materially adversely affect our anticipated revenues and earnings. If satellite construction schedules are not met, there can be no assurance that a launch opportunity will be available at the time a satellite is ready to be launched. Certain delays in satellite construction could also jeopardize a satellite authorization that is conditioned on timely construction and launch of the satellite.

Satellites are subject to significant launch and operational risks.

Satellites are subject to significant operational risks relating to launch and while in orbit. These risks include launch failure, incorrect orbital placement or improper operation. Launch failures result in significant delays in the deployment of satellites because of the need both to construct replacement satellites, which can take up to 36 months, and to obtain other launch opportunities. Any significant delays or failures in successfully launching and deploying our satellites could materially adversely affect our ability to generate revenues. While we have

traditionally purchased insurance covering the launch and, in limited cases, operation of our satellites, such policies typically cover the loss of the satellite itself or a portion thereof, and not the business interruption or other associated direct and indirect costs.

In-orbit risks include malfunctions, commonly referred to as anomalies, and collisions with meteoroids, other spacecraft or other space debris. Anomalies occur as a result of satellite manufacturing errors, problems with the power systems or control systems of the satellites and general failures resulting from operating satellites in the harsh space environment. We work closely with our satellite manufacturers to determine and eliminate the potential causes of anomalies in new satellites and provide for redundancies of critical components as well as having backup satellite capacity. However, we cannot assure that we will not experience anomalies in the future, nor can we assure you that our backup satellite capacity will be sufficient.

Any single anomaly or series of anomalies could materially adversely affect our operations and revenues and our relationships with our subscribers, as well as our ability to attract new subscribers for our services. Anomalies may also reduce the expected useful life of a satellite, creating additional expenses due to the need to provide replacement or backup satellites and potentially reducing revenues if service is interrupted. Finally, the occurrence of anomalies may materially adversely affect our ability to insure our satellites at commercially reasonable premiums, if at all.

Our ability to earn revenue also depends on the usefulness of our satellites. Each satellite has a limited useful life. A number of factors affect the useful life of a satellite, including, among other things:

- the design;
- the quality of its construction;
- the durability of its component parts;
- the insertion of the satellite into orbit;
- any required movement, temporary or permanent, of the satellite;
- the ability to continue to maintain proper orbit and control over the satellite's functions; and
- the remaining on-board fuel following orbit insertion.

DIRECTV

Generally, the minimum design life of the satellites in our fleet is between 12 and 16 years. The actual useful lives of the satellites may be shorter or longer, in some cases significantly. Our operating results could be adversely affected if the useful life of any of our satellites were significantly shorter than 12 years from the date of launch.

In the event of a failure or loss of any of DIRECTV U.S.' satellites, DIRECTV U.S. may relocate another satellite and use it as a replacement for the failed or lost satellite. In the event of a complete satellite failure, DIRECTV U.S.' services provided via that satellite could be unavailable for several days or longer while backup in-orbit satellites are repositioned and services are moved. DIRECTV U.S. is not insured for any resultant lost revenues. The use of backup satellite capacity for DIRECTV U.S. programming may require DIRECTV U.S. to discontinue some programming services due to potentially reduced capacity on the backup satellite. Relocation of a DIRECTV U.S. satellite may not require prior FCC approval if, among other things, the replacement satellite would operate within the authorized or coordinated parameters of the failed or lost satellite. If that is not the case, prior FCC approval would be required. Such FCC approval may not be obtained. DIRECTV U.S. believes we have in-orbit satellite capacity to expeditiously recover transmission of most of our programming in the event one of our in-orbit satellites fails. However, programming continuity cannot be assured in the event of multiple satellite losses.

DIRECTV Latin America provides its services in PanAmericana and Brazil using leased transponders on two satellites. Sky Mexico provides its services from leased transponders on a separate satellite. Backup satellite capacity is available to serve Sky Brasil and Sky Mexico. In the event of a failure of a satellite used to provide services to Sky Brasil or Sky Mexico, we believe DIRECTV Latin America has sufficient in orbit back-up capacity to recover transmission of most of its programming distributed in those markets. However, in PanAmericana, DIRECTV Latin America has no designated back up satellite capacity for the region and, therefore, programming continuity cannot be assured in the event of a satellite loss.

In addition, DIRECTV Latin America is dependent on third parties for the orbital slots in which its leased satellites are located. If those third parties fail to adequately protect their rights to continued use of and other rights related to those orbital slots, or fail to take appropriate steps to manage potential conflicts with rights holders for adjacent orbital slots, then DIRECTV Latin America could lose rights to operate from those locations or may otherwise be required to modify or

limit its operations from those locations which could materially adversely affect DIRECTV Latin America's transmission capacity and its ability to compete in regions served from those orbital slots.

The loss of a satellite that is not insured could materially adversely affect our earnings.

Any launch vehicle failure, or loss or destruction of any of our satellites, even if insured, could have a material adverse effect on our financial condition and results of operations, our ability to comply with FCC regulatory obligations and our ability to fund the construction or acquisition of replacement satellites in a timely fashion, or at all. At December 31, 2012, the net book value of in-orbit satellites was \$1,664 million, none of which was insured.

DIRECTV U.S. depends on the Communications Act for access to cable-affiliated programming and changes impacting that access could materially adversely affect us.

DIRECTV U.S. purchases a substantial percentage of programming from programmers that are affiliated with cable system operators, including key RSNs. Currently, under certain provisions of the Communications Act governing access to programming, cable-affiliated programmers generally must sell and deliver their programming services to all MVPDs on non-discriminatory terms and conditions.

Any change in the Communications Act or the FCC's rules that would permit programmers that are affiliated with cable system operators to refuse to provide such programming or to impose discriminatory terms or conditions could materially adversely affect our ability to acquire programming on a cost-effective basis, or at all. Most recently, the Communications Act prohibitions on certain cable industry exclusive contracting practices with cable-affiliated programmers expired in October 2012. Under the remaining rules, DIRECTV may bring complaints on a case-by-case basis alleging that a particular instance of exclusivity constitutes a prohibited "unfair practice" that has the purpose or effect of significantly hindering or preventing DIRECTV from providing programming to consumers. The FCC is currently considering whether to adopt additional safeguards, such as rebuttable presumptions in favor of complainants, but we cannot predict what if any action the FCC will take. Regardless of the outcome of those considerations, the weakening of the program access rules may increase the ability of cable-affiliated programmers to deny DIRECTV access to their programming.

DIRECTV

In addition, certain cable providers have in the past denied us and other MVPDs access to a limited number of channels created by programmers with which the cable providers are affiliated. In other cases, such programmers have denied MVPDs high-definition feeds of such programming. The cable providers have asserted that they are not required by the Communications Act to provide such programming (or resolution) due to the manner in which that programming is distributed. The FCC adopted rules to close this loophole. However, they require an evidentiary showing by an MVPD seeking access to such programming and cable operators have vigorously contested such showings proffered by other complainants. If we were not able to make the required evidentiary showing, we could be precluded from obtaining such programming, which in turn could materially adversely affect our ability to compete in regions serviced by those cable providers.

DIRECTV U.S. itself is subject to similar restrictions with respect to certain programmers affiliated with us. The FCC imposed a number of conditions on its approval of Liberty Media's acquisition of News Corporation's interest in DIRECTV which continue to apply. Those conditions require DIRECTV U.S. to offer national and regional programming services it controls to all MVPDs on non-exclusive and non-discriminatory terms and conditions, and prohibits DIRECTV U.S. from entering into exclusive arrangements with affiliated programmers or unduly influencing such programmers in their dealings with other MVPDs.

We are subject to significant regulatory oversight and changes in applicable regulatory requirements could adversely affect our business. You should review the regulatory disclosures under the caption "Item 1—Business—Government Regulation—FCC Regulation Under the Communications Act and Related Acts" which is incorporated here by reference.

Changes to and implementation of statutory copyright license requirements may negatively affect our ability to deliver local and distant broadcast stations, as well as other aspects of our business.

We carry the signals of local and distant broadcast stations pursuant to statutory copyright licenses contained in SHVA, and our carriage of these stations is governed by the FCC and Copyright Office implementing regulations. Any changes to such laws or regulations could limit our ability to deliver local or distant broadcast signals. More generally, we have limited capacity, and the projected

number of markets in which we can deliver local broadcast programming will continue to be constrained because of the statutory "carry-one, carry-all" requirement and may be reduced depending on the FCC's interpretation of its rules, as well as judicial decisions. We may not be able to comply with these must carry rules, or compliance may mean that we are not able to use capacity otherwise for new or additional local or national programming services. In addition, the FCC has issued an increasing obligation for carriage of local digital broadcast transmissions in HD format. We may be unable to comply with this requirement in markets where we currently carry such signals without ceasing HD local service entirely in some markets, and would be precluded from launching additional markets currently planned.

The FCC has adopted rules requiring us to negotiate in good faith with broadcast stations seeking carriage outside of the mandatory carriage regime described elsewhere. The rules for "retransmission consent" negotiations require us to negotiate in good faith with programming providers. Failure to comply with these rules could subject us to administrative sanctions and other penalties. Moreover, the FCC is considering changes to these and other rules related to retransmission consent, which could make negotiations more difficult, increase fees charged for carriage, or result in the increased withholding of broadcast signals.

Satellite programming signals have been stolen and may be stolen, which could result in lost revenues and would cause us to incur incremental operating costs that do not result in subscriber acquisition.

The delivery of subscription programming requires the use of conditional access technology to limit access to programming to only those who are authorized to view it. The conditional access system uses encryption technology to protect the transmitted signal from unauthorized access. It is illegal to create, sell or otherwise distribute software or devices to circumvent that conditional access technology. However, theft of cable and satellite programming has been widely reported, and the access cards used in our conditional access system have been, and could be compromised in the future.

We have undertaken various initiatives with respect to our conditional access system to further enhance the security of the DIRECTV signal. We provide our subscribers with advanced access cards that we believe significantly enhance the security of our signal. We believe these access cards have not been compromised. However, we cannot guarantee that these advanced access cards will prevent future

DIRECTV

theft of our satellite programming signals. There can be no assurance that we will succeed in developing the technology we need to effectively restrict or eliminate signal theft. If our current access cards are compromised, our revenue and our ability to contract for programming could be materially adversely affected. In addition, our operating costs could increase if we attempt to implement additional measures to combat signal theft.

In addition, particularly in Latin America, we also face other forms of signal theft, including illegal retransmission of our signal through unauthorized cable head-ends and internet key sharing schemes. If we are not able to contain and combat these and other forms of signal theft, such schemes could limit our growth and materially adversely affect our ability to generate revenue.

The ability to maintain FCC licenses and other regulatory approvals is critical to our business.

If we do not obtain all requisite U.S. regulatory approvals for the construction, launch and operation of any of our existing or future satellites, for the use of frequencies at the orbital locations planned for these satellites or for the provision of service, or the licenses obtained impose operational restrictions on us, our ability to generate revenue and profits could be materially adversely affected. In addition, under certain circumstances, existing licenses are subject to revocation or modification and upon expiration, extension or renewal may not be granted. If existing licenses are not extended or renewed, or are revoked or materially modified, our ability to generate revenue could be materially adversely affected.

Other U.S. regulatory risks include:

- the relocation of satellites to different orbital locations if the FCC determines that relocation is in the public interest;
- the denial by the FCC of an application to replace an existing satellite with a new satellite, or to operate a satellite beyond the term of its current authorization, or to operate an earth station to communicate with such satellite; and
- the authorization by the United States or foreign governments of the use of frequencies by third party satellite or terrestrial facilities that have the potential to interfere with communication to or from our satellites, which could interfere with our contractual obligations or services to subscribers or other business operations.

All of our FCC satellite authorizations are subject to conditions imposed by the FCC in addition to the FCC's general authority to modify, cancel or revoke those authorizations. Use of FCC licenses and other authorizations are often subject to conditions, including technical requirements and implementation deadlines. Failure to comply with such requirements, or comply in a timely manner, could lead to the loss of authorizations and could have a material adverse effect on our ability to generate revenue. For example, loss of an authorization could potentially reduce the amount of programming and other services available to our subscribers. The materiality of such a loss of authorization would vary based upon, among other things, the orbital location at which the frequencies may be used.

Moreover, some of our authorizations and future applications may be subject to petitions and oppositions, and there can be no assurance that our authorizations will not be canceled, revoked or modified or that our applications will not be denied. The outcomes of any legislative or regulatory proceedings or their effect on our business cannot be predicted. You should review "Item 1. Business—Government Regulation—FCC Regulation Under the Communications Act and Related Acts," which is incorporated here by reference.

DIRECTV U.S. has significant debt.

The carrying value of DIRECTV U.S.' debt, which is guaranteed by DIRECTV, totaled \$17,528 million as of December 31, 2012. If we do not have sufficient income or other sources of cash, it could affect our ability to service debt and pay other obligations.

We may not be able to obtain or retain certain foreign regulatory approvals.

There can be no assurance that any current regulatory approvals held by us are, or will remain, sufficient in the view of foreign regulatory authorities, or that any additional necessary approvals will be granted on a timely basis or at all, in all jurisdictions in which we operate, or that applicable restrictions in those jurisdictions will not be unduly burdensome. The failure to obtain and maintain the authorizations necessary to operate satellites or provide satellite service internationally could have a material adverse effect on our ability to generate revenue and our overall competitive position.

DIRECTV

We have an indemnity obligation to Liberty Media, which is not limited in amount, that could be triggered if parts of the Liberty Transaction or Liberty's 2008 Transaction with News Corporation are treated as a taxable transaction.

On November 19, 2009, The DIRECTV Group, Inc., or DIRECTV Group, and Liberty Media Corporation, which we refer to as Liberty Media, obtained stockholder approval of and closed a series of related transactions which we refer to collectively as the Liberty Transaction. The Liberty Transaction included the split-off of certain of the assets of the Liberty Entertainment group into Liberty Entertainment, Inc., or LEI, which was then split-off from Liberty. Following the split-off, DIRECTV Group and LEI merged with subsidiaries of DIRECTV. As a result of the Liberty Transaction, DIRECTV Group, which is comprised of the DIRECTV U.S. and DIRECTV Latin America businesses, and LEI, which held Liberty's 57% interest in DIRECTV Group, a 100% interest in three regional sports television networks and a 65% interest in GSN, became wholly owned subsidiaries of DIRECTV.

Despite obtaining a private letter ruling from the Internal Revenue Service and an opinion of legal counsel to the effect that parts of the Liberty Transaction qualified as a tax-free distribution for U.S. federal income tax purposes, the continuing validity of such ruling and opinion is subject to the accuracy of factual representations and certain assumptions. Any inaccuracy in such representations could invalidate the ruling, and failure to comply with any undertakings made in connection with such tax opinion could alter the conclusions reached in such opinion. Even if parts of the Liberty Transaction otherwise qualify for tax-free treatment, it would result in a significant U.S. federal income tax liability to Liberty Media if one or more persons acquire a 50% or greater interest in the DIRECTV common stock as part of a plan or series of related transactions that includes the Liberty Transaction. The process for determining whether an acquisition is part of a plan under these rules is complex, inherently factual and subject to interpretation of the facts and circumstances of a particular case. Liberty Media or DIRECTV might inadvertently cause or permit a prohibited change in the ownership of DIRECTV to occur, thereby triggering a tax liability to Liberty Media.

In addition, Liberty Media entered into a tax matters agreement with News Corporation in connection with its 2008 transaction with News Corporation, pursuant to which Liberty Media agreed, among other things, to indemnify News Corporation and certain related persons for taxes resulting from actions taken by

Liberty Media or its affiliates that cause such transaction (or related restructuring transactions) not to qualify as tax-free transactions. Liberty Media's indemnification obligations to News Corporation and certain related persons are not limited in amount.

Under a Tax Sharing Agreement between Liberty Media and DIRECTV, in certain circumstances DIRECTV is obligated to indemnify Liberty Media and certain related persons for any losses and taxes resulting from the failure of the Liberty Transaction to be tax-free transactions and from any losses resulting from Liberty Media's indemnity obligations to News Corporation under the tax matters agreement between News Corporation and Liberty Media. If DIRECTV is required to indemnify Liberty Media or certain related persons under the circumstances set forth in the Tax Sharing Agreement, we may be subject to substantial liabilities not limited in amount. In such a circumstance, we may be required to make payments or dividends to satisfy such liabilities that could either breach covenants in our credit facilities and bond indentures or require additional or accelerated payments, which could materially adversely affect our financial position and short term operating results.

We may be required to forgo certain transactions in order to avoid the risk of incurring significant tax-related liabilities.

We might be required to forgo certain transactions that might have otherwise been advantageous in order to preserve the tax-free treatment of the Liberty Transaction. In particular, we might be required to forgo certain transactions, including asset dispositions or other strategic transactions for some period of time following the Liberty Transaction so as not to trigger any liability under the tax indemnification obligations.

We rely on network and information systems and other technology, and a disruption or failure of such networks, systems or technology as a result of, misappropriation of data or other malfeasance, as well as outages, natural disasters, accidental releases of information or similar events, may disrupt our business.

Because network and information systems and other technologies are critical to our operating activities, network or information system shutdowns caused by events such as computer hacking on our network or our DIRECTV.com website, dissemination of computer viruses, worms and other destructive or disruptive

DIRECTV

software, and other malicious activity including industrial espionage and malicious social engineering, as well as power outages, natural disasters such as earthquakes, terrorist attacks and similar events, pose significant risks. Due to the fast-moving pace of technological advancements, it may be difficult to detect, contain and remediate every such event. Such an event could have an adverse impact on our operations, including service disruption, degradation of service, excessive call volume to call centers and damage to our broadcast centers, other properties, equipment and data. Such an event also could result in large expenditures necessary to repair or replace such networks or information systems or to protect them from similar events in the future. Third parties may also experience errors or disruptions that could adversely impact our business operations and over which we have limited control. Significant incidents could result in a disruption of our operations, customer dissatisfaction, or a loss of customers or revenues. The amount and scope of insurance we maintain against losses resulting from these events may not be sufficient to cover our losses or otherwise adequately compensate us for any disruptions to our business that may result. Furthermore, our operating activities could be subject to risks caused by misappropriation, misuse, leakage, falsification and accidental release or loss of information maintained in our information technology systems and networks, including customer, personnel and vendor data. We could be exposed to significant costs if such risks were to materialize, and such events could damage our reputation and credibility and have a negative impact on our revenues. We also could be required to expend significant capital and other resources to remedy any such security breach. As a result of the increasing awareness concerning the importance of safeguarding personal information, the potential misuse of such information and legislation that has been adopted or is being considered regarding the protection, privacy and security of personal information, the liability associated with information-related risks is increasing, particularly for businesses like ours that handle a large amount of personal customer data. The occurrence of any such network or information systems related events or security breaches could have a material adverse effect on our business and results of operations.

We face risks arising from the outcome of various legal proceedings.

We are involved in various legal proceedings, including those arising in the ordinary course of business, such as consumer class actions and those described under the caption "Legal Proceedings" in Part I, Item 3 incorporated by reference herein. Such matters include investigations and legal actions by the FTC and state

attorneys general where regulators may seek monetary damages and may also seek to require or prohibit certain actions by us with regard to our current or potential customers. While we do not believe that any of these proceedings alone or in the aggregate will have a material effect on our consolidated financial position, an adverse outcome in one or more of these matters or the imposition of conditions by regulators on the conduct of our business could be material to our consolidated results of operations and cash flows for any one period. Further, no assurance can be given that any adverse outcome would not be material to our consolidated financial position.

Our strategic initiatives may not be successfully implemented, may not elicit the expected customer response in the market and may result in competitive reactions.

The Company has identified a number of strategic initiatives that it intends to pursue which are discussed in more detail in the "Business Strategy" section beginning in Part I, Item 1 of this Annual Report. The successful implementation of those strategic initiatives requires an investment of time, talent and money and is dependent upon a number of factors some of which are not within our control. Those factors include the ability to execute such initiatives in the market, the response of existing and potential new customers, and the reaction of competitors. If we fail to properly execute or deliver products or services that do not address customers' expectations, it may have an adverse effect on our ability to retain and attract customers and may increase our costs and reduce our revenues. Similarly, competitive reaction to our initiatives or advancements in technology or competitive products or services could impair our ability to execute or could limit the effectiveness of those strategic initiatives. There can be no assurance that we will successfully implement these strategic initiatives or that, if successfully pursued, they will have the desired result on our business or results of operations.

We may face other risks described from time to time in periodic reports filed by us with the SEC.

From time to time, we may disclose other relevant risks in other periodic reports that we file with the SEC. We urge you to consider the above risk factors and any other risks disclosed in such periodic reports carefully in evaluating the forward-looking statements contained in this Annual Report. The forward-looking statements included in this Annual Report are made only as of the date of this

DIRECTV

Annual Report and we undertake no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

As of December 31, 2012, we had approximately 216 owned and leased locations operating in the United States and Latin America. The major locations of the DIRECTV U.S. segment include eight administrative offices, two broadcast centers and six call centers. The major locations of the DIRECTV Latin America segment include 11 administrative offices, four broadcast centers and eight call centers. We consider our properties adequate for our present needs.

ITEM 3. LEGAL PROCEEDINGS

(a) Material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which we became or were a party during the year ended December 31, 2012 or subsequent thereto, but before the filing of the report, are summarized below:

Pegasus Development Corporation and Personalized Media Communications L.L.C. In December, 2000, Pegasus Development Corporation, or Pegasus, and Personalized Media Communications L.L.C., or PMC, filed suit in the United States District Court for the District of Delaware against DIRECTV, Inc., Hughes Electronics Corporation, Thomson Consumer Electronics, Inc., and Philips Electronics North America Corporation. The suit alleged infringement of certain claims of seven United States patents and sought an injunction and a monetary award including damages for infringement, interest, costs, and attorney's fees. In May, 2003, the suit was stayed pending reexamination by the United States Patent and Trademark Office of certain claims of the asserted patents. The stay was lifted in November, 2011, and trial is presently scheduled for November, 2013. The suit now involves claims of four of the seven patents originally asserted, all of which have expired, and the validity and infringement of which are disputed by DIRECTV.

Other Intellectual Property Litigation. We are a defendant in several unrelated lawsuits claiming infringement of various patents relating to various

aspects of our businesses. In certain of these cases other industry participants are also defendants, and also in certain of these cases we expect that any potential liability would be the responsibility of our equipment vendors pursuant to applicable contractual indemnification provisions. To the extent that the allegations in these lawsuits can be analyzed by us at this stage of their proceedings, we believe the claims are without merit and intend to defend the actions vigorously. We have determined the likelihood of a material liability in such matters is remote or have made appropriate accruals and the final disposition of these claims is not expected to have a material effect on our consolidated financial position. However, if an adverse ruling is made in a lawsuit involving key intellectual property, such ruling could possibly be material to our consolidated results of operations of any one period. No assurance can be given that any adverse outcome would not be material to our consolidated financial position.

Early Cancellation Fees. In 2008, a number of plaintiffs filed putative class action lawsuits in state and federal courts challenging the early cancellation fees we assess our customers when they do not fulfill their programming commitments. Several of these lawsuits are pending, some in California state court purporting to represent statewide classes, and some in federal courts purporting to represent nationwide classes. The lawsuits seek both monetary and injunctive relief. While the theories of liability vary, the lawsuits generally challenge these fees under state consumer protection laws as both unfair and inadequately disclosed to customers. Our motions to compel arbitration have been granted in all of the federal cases, except as to claims seeking injunctive relief under California statutes. The denial of our motion as to those claims is currently on appeal. We believe that our early cancellation fees are adequately disclosed, and represent reasonable estimates of the costs we incur when customers cancel service before fulfilling their programming commitments.

From time to time, we receive investigative inquiries or subpoenas from state and federal authorities with respect to alleged violations of state and federal statutes. These inquiries may lead to legal proceedings in some cases. DIRECTV U.S. has received a request for information from the FTC on issues similar to those resolved in 2011 with a multistate group of state attorneys general. We are cooperating with the FTC by providing information about our sales and marketing practices and customer complaints.

ECAD. Sky Brasil, along with other video distributors in Brazil, is disputing charges assessed by Escritorio Central de Arrecadação, or ECAD, the organization

DIRECTV

responsible for collecting performance rights fees under Brazilian law. Sky Brasil has been withholding payments to ECAD since 2004, and has accrued amounts we and Sky Brasil believe are adequate to satisfy amounts owed to ECAD. In order to continue its opposition to ECAD's claims, Sky Brasil has provided letters of credit in the amount of approximately \$103 million. Sky Brasil's dispute with ECAD is currently pending in the Superior Justice Tribunal, and there are other claims by the Brazilian pay television association, known as ABTA, against ECAD before the Brazilian antitrust board, or CADE, which may affect ECAD or the rights fees it is attempting to collect.

Waste Disposal Inquiry. On August 20, 2012, DIRECTV U.S. received from the State of California subpoenas and interrogatories related to our generation, handling, recordkeeping, transportation and disposal of hazardous waste, including universal waste, in the State of California, and the training of employees regarding the same. The investigation is jointly conducted by the Office of the Attorney General and the District Attorney for Alameda County and appears to be part of a

broader effort to investigate waste handling and disposal processes of a number of industries. We are diligently reviewing our policies and procedures applicable to all facilities and cooperating with the investigation. As this inquiry is in its early stages, we are currently unable to reasonably estimate the outcome of this matter.

Other. We are subject to other legal proceedings and claims that arise in the ordinary course of our business. The amount of ultimate liability with respect to such actions is not expected to materially affect our financial position, results of operations or liquidity.

(b) No previously reported legal proceedings were terminated during the fourth quarter ended December 31, 2012.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

DIRECTV

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Common Stock Price

Our common stock is publicly traded on the NASDAQ Global Select Market under the symbol "DTV." The following table sets forth for the quarters indicated the high and low sales prices for our common stock, as reported on the NASDAQ Global Select Market.

<u>2012</u>	<u>High</u>	<u>Low</u>
Fourth Quarter	\$54.08	\$48.00
Third Quarter	55.17	46.59
Second Quarter	50.35	42.87
First Quarter	49.99	41.92
<u>2011</u>	<u>High</u>	<u>Low</u>
Fourth Quarter	\$48.60	\$39.82
Third Quarter	53.40	40.22
Second Quarter	51.23	45.52
First Quarter	47.40	40.20

As of the close of business on February 13, 2013, there were 46,169 holders of record of our common stock.

Dividend Rights and Other Stockholder Matters

Holder of our common stock are entitled to such dividends and other distributions in cash, stock or property as may be declared by our Board of Directors in its sole discretion, subject to the preferential and other dividend rights of any outstanding series of our preferred stock. There were no shares of our preferred stock outstanding at December 31, 2012.

No dividends on our common stock have been declared by our Board of Directors for more than five years. We have no current plans to pay any dividends on our common stock. We currently expect to use our future earnings, if any, for the development of our businesses or other corporate purposes, which may include share repurchases.

Information regarding compensation plans under which our equity securities may be issued is included in Item 12 through incorporation by reference to our Proxy Statement for the Annual Meeting of Stockholders scheduled to be held on May 2, 2013.

Share Repurchase Programs

Since 2006 our Board of Directors has approved multiple authorizations for the repurchase of our common stock. In February 2013, our Board of Directors terminated the remaining \$857 million available under the 2012 authorization and authorized up to an additional \$4 billion for repurchases of our common stock. The authorizations allow us to repurchase our common stock from time to time through open market purchases and negotiated transactions or otherwise. The timing, nature and amount of such transactions will depend on a variety of factors, including market conditions and the program may be suspended, discontinued or accelerated at any time. The sources of funds for the purchases are our existing cash on hand, cash from operations and potential additional borrowings. Purchases are made on the open market, through block trades and other negotiated transactions. Repurchased shares are retired but remain authorized for registration and issuance in the future.

A summary of the repurchase activity for the three months ended December 31, 2012 is as follows:

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Dollar Value that May Yet Be Purchased Under the Plans or Programs</u>
	(Amounts in Millions, Except Per Share Amounts)			
October 1 - 31, 2012 . . .	8	\$51.45	8	\$2,579
November 1 - 30, 2012 . .	5	49.61	5	2,315
December 1 - 31, 2012 . .	<u>12</u>	49.49	<u>12</u>	1,719
Total	<u>25</u>	50.12	<u>25</u>	1,719

For additional information regarding our share repurchases see Note 15 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

DIRECTV

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY STATEMENT FOR PURPOSE OF THE "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This Annual Report on Form 10-K may contain certain statements that we believe are, or may be considered to be, "forward-looking statements" within the meaning of various provisions of the Securities Act of 1933 and of the Securities Exchange Act of 1934. These forward-looking statements generally can be identified by use of statements that include phrases such as we "believe," "expect," "estimate," "anticipate," "intend," "plan," "foresee," "project" or other similar references to future periods. Examples of forward-looking statements include, but are not limited to, statements we make related to our business strategy and regarding our outlook for 2013 financial results, liquidity and capital resources.

Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We caution you therefore against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. Important factors that could cause actual results to differ materially from those in the forward-looking statements include economic, business, competitive, national or global political, market and regulatory conditions and other risks, each of which is described in more detail in Item 1A—Risk Factors of this Annual Report.

Any forward looking statement made by us in this Annual Report on Form 10-K speaks only as of the date on which it is made. Factors or events that

could cause our actual results to differ may occur and it is not possible for us to predict them all. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

CONTENTS

The following is a discussion of our results of operations and financial condition. This discussion should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this Annual Report. Information in this section is organized as follows:

- Summary Results of Operations and Financial Condition
- Significant Events Affecting the Comparability of the Results of Operations
- Key Terminology
- Executive Overview and Outlook
- Results of Operations
- Liquidity and Capital Resources
- Contractual Obligations
- Off-Balance Sheet Arrangements
- Contingencies
- Certain Relationships and Related-Party Transactions
- Critical Accounting Estimates
- Accounting Changes

Net cash provided by operating activities	\$ 5,634	\$ 5,185	\$ 5,206
Less: Cash paid for property and equipment	(2,960)	(2,924)	(2,303)
Less: Cash paid for satellites	(389)	(246)	(113)
Free cash flow	<u>\$ 2,285</u>	<u>\$ 2,015</u>	<u>\$ 2,790</u>

(1) Operating profit before depreciation and amortization, which is a financial measure that is not determined in accordance with accounting principles generally accepted in the United States of America, or GAAP, can be calculated by adding amounts under the caption "Depreciation and amortization expense" to "Operating profit." This measure should be used in conjunction with GAAP financial measures and is not presented as an alternative measure of operating results, as determined in accordance with GAAP. Our management and our Board of Directors use operating profit before depreciation and amortization to evaluate the operating performance of our company and our business segments and to allocate resources and capital to business segments. This metric is also used as a measure of performance for incentive compensation purposes and to measure income generated from operations that could be used to fund capital expenditures, service debt or pay taxes. Depreciation and amortization expense primarily represents an allocation to current expense of the cost of historical capital expenditures and for acquired intangible assets resulting from prior business acquisitions. To compensate for the exclusion of depreciation and amortization expense from operating profit, our management and our Board of Directors separately measure and budget for capital expenditures and business acquisitions.

DIRECTV

SUMMARY RESULTS OF OPERATIONS AND FINANCIAL CONDITION—(continued)

We believe this measure is useful to investors, along with GAAP measures (such as revenues, operating profit and net income), to compare our operating performance to other communications, entertainment and media service providers. We believe that investors use current and projected operating profit before depreciation and amortization and similar measures to estimate our current or prospective enterprise value and make investment decisions. This metric provides investors with a means to compare operating results exclusive of depreciation and amortization expense. Our management believes this is useful given the significant variation in depreciation and amortization expense that can result from the timing of capital expenditures, the capitalization of intangible assets, potential variations in expected useful lives when compared to other companies and periodic changes to estimated useful lives.

Operating profit before depreciation and amortization margin is calculated by dividing Operating profit before depreciation and amortization by Revenues.

- (2) Free cash flow, which is a financial measure that is not determined in accordance with GAAP, can be calculated by deducting amounts under the captions “Cash paid for property and equipment” and “Cash paid for satellites” from “Net cash provided by operating activities” from the Consolidated Statements of Cash Flows. This financial measure should be used in conjunction with other GAAP financial measures and is not presented as an alternative measure of cash flows from operating activities, as determined in accordance with GAAP. Our management and our Board of Directors use free cash flow to evaluate the cash generated by our current subscriber base, net of capital expenditures, for the purpose of allocating resources to activities such as adding new subscribers, retaining and upgrading existing subscribers, for additional capital expenditures and other capital investments or transactions and as a measure of performance for incentive compensation purposes. We believe this measure is useful to investors, along with other GAAP measures (such as cash flows from operating and investing activities), to compare our operating performance to other communications, entertainment and media companies. We believe that investors also use current and projected free cash flow to determine the ability of revenues from our current and projected subscriber base to fund required and discretionary spending and to help determine our financial value.

DIRECTV

SIGNIFICANT EVENTS AFFECTING THE COMPARABILITY OF THE RESULTS OF OPERATIONS

Change in Accounting Estimate

Depreciable Lives of Leased Set-Top Receivers

We currently lease most set-top receivers provided to new and existing subscribers and therefore capitalize the cost of those set-top receivers. We depreciate capitalized set-top receivers over the estimated useful life of the equipment. As a result of the completion of an extensive evaluation of the estimated useful life of the set-top receivers, including consideration of historical write-offs, improved efficiencies in our refurbishment program, improved set-top receiver failure rates over time and management's judgment of the risk of technological obsolescence, we determined that the estimated useful life of HD set-top receivers used in our DIRECTV U.S. business has increased to four years, from three years, as previously estimated. We will continue to depreciate standard-definition set-top receivers at DIRECTV U.S. over a three-year estimated useful life. We are accounting for this change in the useful life of the HD set-top receivers at DIRECTV U.S. as a change in an accounting estimate beginning July 1, 2011.

This change had the effect of reducing depreciation and amortization expense and increasing both net income attributable to DIRECTV and earnings per share in our consolidated results of operations as follows:

	Years Ended December 31,	
	2012	2011
	(Dollars in Millions, Except Per Share Amounts)	
Depreciation and amortization expense	\$(176)	\$(141)
Net income attributable to DIRECTV	109	86
Basic earnings attributable to DIRECTV common stockholders per common share	\$0.17	\$0.12
Diluted earnings attributable to DIRECTV common stockholders per common share	\$0.17	\$0.11

Divestitures

In December 2012, we sold an 18% interest in GSN to our equity partner for \$234 million, reducing our ownership interest from 60% to 42%. We recognized a pre-tax gain of \$111 million (\$68 million after tax) on the sale in "Other, net" in the Consolidated Statements of Operations. For additional information regarding the GSN sale, refer to Note 8 of the Notes to the Consolidated Financial Statements in Item 8, Part II of this Annual Report.

In April 2011, we sold an equity method investment for \$55 million in cash. We recognized a pre-tax gain of \$37 million (\$23 million after tax) on the sale in "Other, net" in the Consolidated Statements of Operations.

In March 2011, we sold a 5% ownership interest in GSN to our equity partner for \$60 million in cash, reducing our ownership interest to 60%. We recognized a pre-tax gain of \$25 million (\$16 million after tax) on the sale in "Other, net" in the Consolidated Statements of Operations.

Malone Transaction

In April 2010, we entered into an agreement with Dr. John C. Malone and his family, or the Malones, under which they exchanged 21.8 million shares of high-vote DIRECTV Class B common stock, which were all of the outstanding DIRECTV Class B shares, for 26.5 million shares of DIRECTV Class A common stock, resulting in the reduction of the Malone's voting interest in DIRECTV from approximately 24% to approximately 3% on June 16, 2010. We refer to this transaction as the Malone Transaction.

We accounted for the exchange of DIRECTV Class B common stock into DIRECTV Class A common stock pursuant to accounting standards for induced conversions, whereby the \$160 million in incremental DIRECTV Class A common stock issued to the former DIRECTV Class B stockholders has been deducted from earnings attributable to DIRECTV Class A stockholders for purposes of calculating earnings per share in the Consolidated Statements of Operations. As a result of the Malone Transaction, diluted earnings per DIRECTV Class A common stock in the Consolidated Statements of Operations was reduced by \$0.18 for the year ended December 31, 2010. For additional information, refer to Note 16 of the Notes to the Consolidated Financial Statements in Item 8, Part II of this Annual Report.

DIRECTV

Acquisition

Globo Transaction

In connection with our acquisition of Sky Brasil in 2006, Globo was granted the right, until January 2014, to require us to purchase all or a portion (but not less than half) of its 25.9% interest in Sky Brasil. Upon the exercise of this right in the fourth quarter of 2010, we paid \$605 million in cash, which was the fair value of the 19% interest purchased, and recorded a reduction to “Redeemable noncontrolling interest” in the Consolidated Balance Sheets. We and our subsidiaries now own approximately 93% of Sky Brasil and Globo retains the right to sell its remaining 7% interest to us at fair value until January 2014 as discussed in Note 21 of the Notes to the Consolidated Financial Statements in Item 8, Part II of this Annual Report.

Financing Transactions

2012 Financing Transactions

In the first quarter of 2012, DIRECTV U.S. borrowed and repaid \$400 million under its \$2.0 billion revolving credit facility, which was terminated on September 28, 2012, and replaced with a three and one-half year, \$1.0 billion revolving credit facility and a five year, \$1.5 billion revolving credit facility. In November 2012, DIRECTV U.S. established a commercial paper program backed by its revolving credit facilities, which provides for the issuance of short-term commercial paper in the United States up to a maximum aggregate principal of \$2.5 billion. For the year ended December 31, 2012, borrowings under the commercial paper program, net of repayments, were \$358 million.

In 2012, DIRECTV U.S. issued \$5.2 billion of senior notes resulting in \$5,190 million of proceeds, net of discount. Also in 2012, DIRECTV U.S. redeemed its then outstanding \$1,500 million of 7.625% senior notes, resulting in a pre-tax charge of \$64 million (\$40 million after tax) for the premiums paid and for the write-off of deferred debt issuance and other transaction costs. The charge was recorded in “Other, net” in our Consolidated Statements of Operations.

2011 Financing Transactions

In 2011, DIRECTV U.S. issued \$4.0 billion of senior notes resulting in \$3,990 million of proceeds, net of discount. Also in 2011, DIRECTV U.S. purchased and redeemed its then outstanding \$1,002 million of 6.375% senior

notes, resulting in a pre-tax charge of \$25 million (\$16 million after tax) primarily for the premiums paid. The charge was recorded in “Other, net” in our Consolidated Statements of Operations.

2010 Financing Transactions

In 2010, DIRECTV U.S. issued \$6.0 billion of senior notes resulting in \$5,978 million of proceeds, net of discount. Also in 2010, DIRECTV U.S. repaid the \$2,205 million of remaining principal on the Term Loans of its senior secured credit facility, resulting in a pre-tax charge of \$16 million (\$10 million after tax) for the write-off of deferred debt issuance and other transaction costs. The charge was recorded in “Other, net” in our Consolidated Statements of Operations.

Collar Loan. As part of the Liberty Transaction in November 2009, we assumed a credit facility and related equity collars, which we refer to as the Collar Loan. During the first quarter of 2010, we paid \$1,537 million to repay the remaining principal balance and accrued interest on the credit facility, and to settle the equity collars. As a result, we recorded a gain of \$67 million in “Liberty transaction and related gain” in the Consolidated Statements of Operations in the first quarter of 2010 related to the Collar Loan.

Venezuela Devaluation and Foreign Currency Exchange Controls

In January 2010, the Venezuelan government announced the creation of a dual exchange rate system, including an exchange rate of 4.3 bolivars per U.S. dollar for most of the activities of our Venezuelan operations compared to an exchange rate of 2.15 Venezuelan bolivars prior to the announcement. As a result of this devaluation, we recorded a \$6 million charge to net income in the year ended December 31, 2010 related to the adjustment of net bolivar denominated monetary assets to the new official exchange rate.

Companies operating in Venezuela are required to obtain Venezuelan government approval to exchange bolivars into U.S. dollars at the official exchange rate and we have not been able to consistently exchange Venezuelan bolivars into U.S. dollars at the official rate. Until the closing of the parallel market in May, 2010, we relied on a parallel exchange process to settle U.S. dollar obligations and to repatriate accumulated cash balances. The rates implied by transactions in the parallel market, were significantly higher than the official rate (6 to 7 bolivars per U.S. dollar). As a result, we recorded a \$22 million charge in 2010 in “General and administrative expenses” in the Consolidated Statements of Operations in

DIRECTV

connection with the exchange of accumulated Venezuelan cash balances to U.S. dollars using the parallel exchange process.

In February 2013, the Venezuelan government announced a devaluation of the bolivar, which will result in a pre-tax charge in “General and administrative expenses” in the Consolidated Statements of Operations of approximately \$160 million in the first quarter of 2013. See “Liquidity and Capital Resources” below for additional information regarding the Venezuelan devaluation and foreign currency exchange controls.

Share Repurchase Program

Since 2006 our Board of Directors has approved multiple authorizations for the repurchase of our common stock. As of December 31, 2012, we had approximately \$1,719 million remaining under the authorization given by the Board of Directors in 2012. In February 2013, our Board of Directors terminated the remaining \$857 million available under the 2012 authorization and authorized up to an additional \$4 billion for repurchases of our common stock. The following table sets forth information regarding shares repurchased and retired for the years ended December 31:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
	(Amounts in Millions, Except Per Share Amounts)		
Total cost of repurchased and retired shares	\$5,148	\$5,455	\$5,179
Average price per share	\$48.24	\$45.78	\$38.20
Number of shares repurchased and retired	107	119	136

KEY TERMINOLOGY

Revenues. We earn revenues mostly from monthly fees we charge subscribers for subscriptions to basic and premium channel programming, advanced receiver fees (which include HD, DVR and multi-room viewing), pay-per-view programming, and seasonal live sporting events. We also earn revenues from monthly fees we charge subscribers for multiple leased set-top receivers, monthly fees that we charge subscribers with multiple non-leased set-top receivers (which we refer to as mirroring fees), hardware revenues from subscribers who lease or purchase set-top receivers from us, warranty service fees and advertising services. Revenues are reported net of customer credits and discounted promotions.

Broadcast Programming and Other. These costs primarily include license fees for subscription service programming, pay-per-view programming, live sports and other events. Other costs include continuing service fees paid to third parties for active subscribers and warranty service costs.

Subscriber Service Expenses. Subscriber service expenses include the costs of customer call centers, billing, remittance processing and service calls.

Broadcast Operations Expenses. These expenses include broadcast center operating costs, signal transmission expenses (including costs of collecting signals for our local channel offerings), and costs of monitoring, maintaining and insuring our satellites. Also included are engineering expenses associated with deterring theft of our signal.

Subscriber Acquisition Costs. These costs include the cost of set-top receivers and other equipment, commissions we pay to national retailers, independent satellite television retailers, dealers and telcos, and the cost of installation, advertising, marketing and customer call center expenses associated with the acquisition of new subscribers. Set-top receivers leased to new subscribers are capitalized in “Property and equipment, net” in the Consolidated Balance Sheets and depreciated over their useful lives. In certain countries in Latin America, where our customer agreements provide for the lease of the entire DIRECTV or SKY System, we also capitalize the costs of the other customer premises equipment and related installation costs. The amount of set-top receivers capitalized each period for subscriber acquisitions is included in “Cash paid for property and equipment” in the Consolidated Statements of Cash Flows.

Upgrade and Retention Costs. Upgrade and retention costs are associated with upgrade efforts for existing subscribers that we believe will result in higher average monthly revenue per subscriber, or ARPU, and lower churn. Our upgrade efforts include subscriber equipment upgrade programs for DVR, HD and HD DVR receivers and local channels, our multiple set-top receiver offers and similar initiatives. Retention costs also include the costs of installing and providing hardware under our movers program for subscribers relocating to a new residence. Set-top receivers leased to existing subscribers under upgrade and retention programs are capitalized in “Property and equipment, net” in the Consolidated Balance Sheets and depreciated over their useful lives. The amount of set-top receivers capitalized each period for upgrade and retention programs is included in

DIRECTV

“Cash paid for property and equipment” in the Consolidated Statements of Cash Flows.

General and Administrative Expenses. General and administrative expenses include departmental costs for legal, administrative services, finance, marketing and information technology. These costs also include expenses for bad debt and other operating expenses, such as legal settlements, and gains or losses from the sale or disposal of fixed assets.

Average Monthly Revenue Per Subscriber. We calculate ARPU by dividing average monthly revenues for the period (total revenues during the period divided by the number of months in the period) by average subscribers for the period. We calculate average subscribers for the period by adding the number of subscribers as of the beginning of the period and for each quarter end in the current year or period and dividing by the sum of the number of quarters in the period plus one.

Average Monthly Subscriber Churn. Average monthly subscriber churn represents the number of subscribers whose service is disconnected, expressed as a percentage of the average total number of subscribers. We calculate average monthly subscriber churn by dividing the average monthly number of disconnected subscribers for the period (total subscribers disconnected, net of reconnects, during the period divided by the number of months in the period) by average subscribers for the period.

Subscriber Count. The total number of subscribers represents the total number of subscribers actively subscribing to our service, including subscribers who have suspended their account for a particular season of the year because they are temporarily away from their primary residence and subscribers who are in the process of relocating and commercial equivalent viewing units.

SAC. We calculate SAC, which represents total subscriber acquisition costs stated on a per subscriber basis, by dividing total subscriber acquisition costs for the period by the number of gross new subscribers acquired during the period. We calculate total subscriber acquisition costs for the period by adding together “Subscriber acquisition costs” expensed during the period and the amount of cash paid for equipment leased to new subscribers during the period.

EXECUTIVE OVERVIEW AND OUTLOOK

The United States and other countries in which we operate are continuing to undergo a period of economic uncertainty. As discussed in “Competition” in Item 1, in addition to cable and satellite system operators, we are experiencing increasing competition from telcos and other emerging digital media distribution providers. Please refer to “Risk Factors” in Item 1A for a further discussion of risks that may affect forecasted results of our business generally.

DIRECTV U.S. DIRECTV U.S. faces key challenges related to weak macroeconomic conditions that continue to put pressure on the U.S. consumer, the rapid advance of technology that provides consumers with more options both in and out of the home and a maturing industry that is increasingly competitive. In addition, programming content providers are continuing to seek increased rates for their content. We are pursuing strategic priorities for the DIRECTV U.S. business that we believe will result in consistent revenue and operating profit before depreciation and amortization growth over the next three years.

Our revenue growth at DIRECTV U.S. has been generated by increases in the total number of subscribers and ARPU growth. In 2013, we expect revenue to increase in the mid-single digit percentage range driven primarily by ARPU growth, which is expected to be generated mainly by price increases, higher penetration of advanced services, less discounting and continued revenue growth in DIRECTV Cinema, commercial and advertising sales.

In 2013, we expect operating profit before depreciation and amortization to grow in the mid-single digit percentage range. We intend to manage the impact to our margins from higher programming costs by attaining productivity improvements from recent capital projects and by closely managing other costs across the organization.

We expect capital expenditures in 2013 to increase to approximately \$2 billion at DIRECTV U.S. primarily due to increased capital expenditures related to key initiatives that are expected to enhance our DIRECTV Everywhere experience and to drive greater customer satisfaction and loyalty, the construction of new satellites, as well as the build out of our new El Segundo campus.

DIRECTV Latin America. In Latin America, pay TV penetration and relatively favorable macroeconomic and demographic trends continue to provide a substantial opportunity for growth. In particular, we will continue to strengthen our brand leadership position in the higher-end markets with a focus on our superior

DIRECTV

HD and DVR products. In addition, we plan to further penetrate the rapidly growing middle market by continuing to offer attractive lower priced post-paid packages and pre-paid services.

In 2013, we expect net subscriber additions of approximately two million. Prior to the Venezuelan currency devaluation in February 2013, we expected growth in revenues and operating profit before depreciation and amortization to be slightly below 20%. However, as a result of the currency devaluation in Venezuela, we now expect revenues to grow in the mid-teen percentage range and for operating profit before depreciation and amortization to be flat as compared to 2012. The flat operating profit before depreciation and amortization reflects the effect of the Venezuelan pre-tax devaluation charge of approximately \$160 million (\$150 million after tax), the reduced exchange rate in 2013 and the fact that operating profit before depreciation and amortization margins are higher in Venezuela than in the rest of the region. We expect capital expenditures to increase to \$2 billion, which includes capital expenditures for subscriber growth, investments in upgrading DIRECTV Latin America's infrastructure, including satellites and related broadcast facilities, as well as strategic initiatives such as wireless broadband.

DIRECTV Consolidated. Excluding one-time items such as the Venezuela devaluation charge which is estimated to reduce earning per common share by \$0.27 in the first quarter of 2013, we anticipate earnings per common share to grow to \$5 per share or greater in 2013 resulting from higher operating profit coupled with a continued anticipated decline in weighted average common shares outstanding resulting from our share repurchase program, partially offset by increased interest and income tax expenses.

At the consolidated DIRECTV level, we anticipate free cash flow, or cash provided by operating activities less capital expenditures, to decrease modestly compared to 2012 due primarily to the impact of the Venezuela devaluation, as well as higher cash paid for taxes and interest. We believe that cash paid for taxes will be higher in 2013 as compared to 2012, as a result of an increase in earnings before taxes coupled with an increase in our cash tax rate to the mid-to-high 30% range primarily due to an expected tax payment in 2013 upon the close of a tax audit, the reversal of depreciation benefits associated with prior year economic stimulus programs and absence of a state tax credit carryforward that we had in 2012.

RESULTS OF OPERATIONS

Year Ended December 31, 2012 Compared with the Year Ended December 31, 2011

DIRECTV U.S. Results of Operations

The following table provides operating results and a summary of key subscriber data for the DIRECTV U.S. segment:

	2012	2011	Change	
			\$	%
	(Dollars in Millions, Except Per Subscriber Amounts)			
Revenues	\$23,235	\$21,872	\$1,363	6.2%
Operating costs and expenses

Broadcast programming and other	10,743	9,799	944	9.6%
Subscriber service expenses	1,464	1,435	29	2.0%
Broadcast operations expenses	306	300	6	2.0%
Selling, general and administrative expenses, exclusive of depreciation and amortization expense				
Subscriber acquisition costs	2,673	2,794	(121)	(4.3)%
Upgrade and retention costs	1,253	1,209	44	3.6%
General and administrative expenses	1,142	1,046	96	9.2%
Depreciation and amortization expense	1,501	1,587	(86)	(5.4)%
Total operating costs and expenses	19,082	18,170	912	5.0%
Operating profit	\$ 4,153	\$ 3,702	\$ 451	12.2%
Operating profit margin	17.9%	16.9%	—	—
Other data:				
Operating profit before depreciation and amortization	\$ 5,654	\$ 5,289	\$ 365	6.9%
Operating profit before depreciation and amortization margin	24.3%	24.2%	—	—
Total number of subscribers (in thousands)	20,084	19,885	199	1.0%
ARPU	\$ 96.98	\$ 93.27	\$ 3.71	4.0%
Average monthly subscriber churn %	1.53%	1.56%	—	(1.9)%
Gross subscriber additions (in thousands)	3,874	4,316	(442)	(10.2)%
Subscriber disconnections (in thousands)	3,675	3,654	21	0.6%
Net subscriber additions (in thousands)	199	662	(463)	(69.9)%
Average subscriber acquisition costs—per subscriber (SAC)	\$ 859	\$ 813	\$ 46	5.7%
Capital expenditures:				
Property and equipment	\$ 541	\$ 567	\$ (26)	(4.6)%
Subscriber leased equipment—subscriber acquisitions	656	713	(57)	(8.0)%
Subscriber leased equipment—upgrade and retention	291	315	(24)	(7.6)%
Satellites	253	141	112	79.4%
Total capital expenditures	\$ 1,741	\$ 1,736	\$ 5	0.3%
Depreciation expense—subscriber leased equipment	\$ 815	\$ 903	\$ (88)	(9.7)%

DIRECTV

Subscribers. In 2012, net subscriber additions decreased due to lower gross subscriber additions primarily resulting from an increased focus on attaining higher-quality subscribers and stricter credit policies, as well as lower gross additions from our telco sales channel. Average monthly churn decreased in 2012 primarily due to a greater number of subscribers on contract commitments and auto-bill pay.

Revenues. Our revenues increased as a result of higher ARPU and the larger subscriber base. The increase in ARPU resulted primarily from price increases on programming packages and set-top receiver lease fees, as well as higher advanced receiver service fees and higher commercial revenues, partially offset by increased promotional offers to new and existing subscribers.

Operating profit before depreciation and amortization. Operating profit before depreciation and amortization was higher in 2012 as compared to 2011 as higher revenues and lower subscriber acquisition costs were partially offset by higher broadcasting programming costs, increased general and administrative costs and higher upgrade and retention costs.

Operating profit before depreciation and amortization margin increased in 2012 as compared to 2011 as the revenue growth, lower subscriber acquisition costs and efficiencies in subscriber service costs were partially offset by higher relative growth in broadcast programming and other costs.

Broadcast programming and other costs increased primarily due to annual program supplier rate increases and the larger number of subscribers.

Subscriber acquisition costs decreased primarily due to lower gross subscriber additions. SAC per subscriber, which includes the cost of capitalized set top receivers, increased primarily due to an increase in subscriber demand for advanced products and higher marketing costs per subscriber added.

Upgrade and retention costs increased in 2012 due to our increased focus on upgrading and retaining high-quality subscribers.

General and administrative expenses increased in 2012 primarily due to a benefit from a property tax adjustment recorded in 2011, as well as equipment impairment charges recorded in 2012, primarily related to equipment financing provided to a dealer that has entered into bankruptcy proceedings, as well as higher rent and labor expenses in 2012.

Operating profit. Operating profit and operating profit margin increased in 2012 as compared to 2011. The increase in operating profit was primarily due to the increase in operating profit before depreciation and amortization expense and lower depreciation and amortization expense in 2012 resulting from the change in HD set-top receiver estimated depreciable life from three to four years, as well as the completion of the amortization of a contract rights intangible asset. The increase in operating profit margin was primarily due to the decrease in depreciation and amortization expense.

DIRECTV

DIRECTV Latin America Results of Operations

The following table provides operating results and a summary of key subscriber data for the consolidated DIRECTV Latin America operations:

	2012	2011	Change	
			\$	%
	(Dollars in Millions, Except Per Subscriber Amounts)			
Revenues	\$ 6,244	\$5,096	\$1,148	22.5%
Operating profit before depreciation and amortization	1,862	1,663	199	12.0%
Operating profit before depreciation and amortization margin	29.8%	32.6%	—	—
Operating profit	\$ 955	\$ 916	\$ 39	4.3%
Operating profit margin	15.3%	18.0%	—	—
Other data:				
ARPU	\$ 57.25	\$62.64	\$ (5.39)	(8.6)%
Average monthly total subscriber churn %	1.81%	1.78%	—	1.7%
Average monthly post paid subscriber churn %	1.50%	1.42%	—	5.6%
Total number of subscribers (in thousands) (1)	10,328	7,871	2,457	31.2%
Gross subscriber additions (in thousands) (1) (2)	4,417	3,510	907	25.8%
Net subscriber additions (in thousands) (1) (2)	2,439	2,063	376	18.2%
Capital expenditures:				
Property and equipment	\$ 214	\$ 93	\$ 121	130.1%
Subscriber leased equipment—subscriber acquisitions	837	834	3	0.4%
Subscriber leased equipment—upgrade and retention	419	397	22	5.5%
Satellites	128	104	24	23.1%
Total capital expenditures	<u>\$ 1,598</u>	<u>\$1,428</u>	<u>\$ 170</u>	11.9%

(1) DIRECTV Latin America subscriber data exclude subscribers of the Sky Mexico platform.

(2) Excludes 18,000 subscribers acquired in a 2012 transaction in Brazil.

Subscribers. The increase in gross subscriber additions was primarily due to higher demand for our middle market products, primarily in Brazil, Argentina, Colombia and Venezuela. Net subscriber additions increased in 2012 due to the higher gross subscriber additions, partially offset by slightly higher average monthly total subscriber churn, resulting from an increase in average monthly post paid subscriber churn compared to 2011, primarily in Brazil related to penetration of the middle market.

Revenues. Revenues increased in 2012, primarily due to strong subscriber growth, partially offset by a decrease in ARPU. The decrease in ARPU was primarily due to unfavorable exchange rates in Brazil and Argentina, as well as the effect of increased penetration in the middle market, partially offset by price increases on programming packages and higher penetration of advanced products.

Operating profit before depreciation and amortization. Operating profit before depreciation and amortization increased in 2012 as compared to 2011, primarily due to the higher revenues, partially offset by higher broadcast programming costs related to the larger subscriber base. In PanAmericana, broadcast programming costs included higher costs associated with certain soccer events and the Olympics. Also in PanAmericana, subscriber service and general and administrative expenses increased as a result of inflationary pressures on labor, subscriber acquisition costs increased due to the higher number of gross subscriber additions and upgrade and retention costs increased due to costs associated with the replacement of first generation set-top receivers.

Operating profit before depreciation and amortization margin decreased in 2012 as compared to 2011, as the revenue growth was more than offset by higher relative growth in subscriber service expenses associated with serving the middle market in Brazil as well as the incremental costs in PanAmericana, as discussed above.

DIRECTV

Operating profit. Operating profit increased in 2012 as compared to 2011, primarily due to higher operating profit before depreciation and amortization, discussed above, partially offset by higher depreciation and amortization expense resulting from an increase in basic and advanced product receivers capitalized due to the higher gross subscriber additions attained in 2012.

Operating profit margin decreased in 2012 as compared to 2011 due to the lower operating profit before depreciation and amortization margin and higher depreciation and amortization expense.

DIRECTV Other Income, Income Taxes and Net Income Attributable to Noncontrolling Interest

Interest income. Interest income was \$59 million in 2012 and \$34 million in 2011.

Interest expense. The increase in interest expense to \$842 million in 2012 from \$763 million in 2011 was due to an increase in the average debt balances compared to 2011, partially offset by a decrease in weighted average interest rates. We capitalized interest costs of \$24 million in 2012 and \$13 million in 2011.

Other, net. The significant components of "Other, net" were as follows:

	<u>2012</u>	<u>2011</u>	<u>Change</u>
	(Dollars in Millions)		
Equity in earnings of unconsolidated subsidiaries	\$131	\$109	\$ 22
Net foreign currency transaction loss	(34)	(50)	16
Fair value adjustment loss on non-employee stock options	(4)	(4)	—
Loss on early extinguishment of debt	(64)	(25)	(39)
Net gain from sale of investments	122	63	59
Other	(11)	(9)	(2)
Total	<u>\$140</u>	<u>\$ 84</u>	<u>\$ 56</u>

Income tax expense. We recognized income tax expense of \$1,465 million in 2012 and \$1,348 million in 2011. The effective tax rate for 2012 was 33.0% compared to 33.8% for 2011. The lower effective tax rate was primarily attributable to a benefit recorded for the recognition of uncertain tax benefits due to the expiration of the statute of limitations in federal and foreign tax jurisdictions.

Net income attributable to noncontrolling interest. Net income attributable to noncontrolling interest was \$28 million in 2012 and \$27 million in 2011.

Earnings Per Share

Earnings per share and weighted shares outstanding were as follows for the years ended December 31:

	<u>2012</u>	<u>2011</u>
	(Shares in Millions)	
Basic earnings attributable to DIRECTV common stockholders per common share	\$4.62	\$3.49
Diluted earnings attributable to DIRECTV common stockholders per common share	\$4.58	\$3.47
Weighted average number of common shares outstanding (in millions):		
Basic	638	747
Diluted	644	752

The increases in basic and diluted earnings per share were due a reduction in weighted average shares outstanding resulting from our share repurchase program and higher net income attributable to DIRECTV.

DIRECTV

Year Ended December 31, 2011 Compared with the Year Ended December 31, 2010

DIRECTV U.S. Results of Operations

The following table provides operating results and a summary of key subscriber data for the DIRECTV U.S. segment:

			Change	
	2011	2010	\$	%
(Dollars in Millions, Except Per Subscriber Amounts)				
Revenues	\$21,872	\$20,268	\$1,604	7.9%

Gross subscriber additions (in thousands)	4,316	4,124	192	4.7%
Subscriber disconnections (in thousands)	3,654	3,461	193	5.6%
Net subscriber additions (in thousands)	662	663	(1)	(0.2)%
Average subscriber acquisition costs—per subscriber (SAC)	\$ 813	\$ 796	\$ 17	2.1%
Capital expenditures:				
Property and equipment	\$ 567	\$ 477	\$ 90	18.9%
Subscriber leased equipment—subscriber acquisitions	713	651	62	9.5%
Subscriber leased equipment—upgrade and retention	315	316	(1)	(0.3)%
Satellites	141	113	28	24.8%
Total capital expenditures	<u>\$ 1,736</u>	<u>\$ 1,557</u>	<u>\$ 179</u>	<u>11.5%</u>
Depreciation expense—subscriber leased equipment	\$ 903	\$ 1,145	\$ (242)	(21.1)%

Subscribers. In 2011, net subscriber additions were relatively unchanged as higher gross additions mainly resulting from improved customer offers were offset by an increase in the monthly churn rate, which resulted primarily from a more competitive environment.

Revenues. Our revenues increased as a result of higher ARPU and the larger subscriber base. The increase in ARPU resulted primarily from price increases on programming packages, higher set-top receiver lease fees, higher advanced service fees, higher premium channel buy rates and an increase in NFL SUNDAY TICKET revenues, partially offset by higher promotional offers to new and existing subscribers.

Operating profit before depreciation and amortization. Operating profit before depreciation and amortization was higher in 2011 as compared to 2010 as increased revenues were partially offset by higher broadcasting programming costs, increased subscriber acquisition costs and higher upgrade and retention costs. Operating profit before depreciation and amortization margin decreased in 2011 as compared to 2010 as the revenue growth was more than offset by higher relative growth in broadcast programming and other costs.

Broadcast programming and other costs increased primarily due to annual program supplier rate increases, higher costs resulting from our new NFL SUNDAY TICKET contract, which went into effect with the 2011 season and the larger number of subscribers. Subscriber service expenses increased in 2011 compared to 2010 primarily due to service quality improvement initiatives and the higher number of subscribers.

Subscriber acquisition costs and SAC per subscriber, which includes the cost of capitalized set top receivers, increased primarily due to higher subscriber demand for advanced products, as well as higher gross additions and increased dealer commissions, partially offset by lower marketing costs.

Upgrade and retention costs increased in 2011 due to a higher installation costs associated with higher advanced equipment upgrades.

General and administrative expenses increased in 2011 primarily due to increased labor and benefit costs related to higher incentive compensation and increased headcount, as well as higher bad debt expense associated with higher revenue, partially offset by a decrease in property tax expenses.

DIRECTV

Operating profit. Operating profit and operating profit margin increased in 2011 as compared to 2010 due to lower depreciation and amortization expense in 2011 resulting from the change in HD set-top receiver estimated depreciable life from three to four years, lower depreciation expense associated with a reduction in capitalized set-top receivers over the last several years and the completion of the amortization of a subscriber-related intangible asset, partially offset by lower operating profit before depreciation and amortization margin.

DIRECTV Latin America Results of Operations

The following table provides operating results and a summary of key subscriber data for the consolidated DIRECTV Latin America operations:

	2011	2010	Change	
			\$	%
(Dollars in Millions, Except Per Subscriber Amounts)				
Revenues	\$5,096	\$3,597	\$1,499	41.7%
Operating profit before depreciation and amortization	1,663	1,164	499	42.9%
Operating profit before depreciation and amortization margin	32.6%	32.4%	—	—
Operating profit	\$ 916	\$ 623	\$ 293	47.0%

Total capital expenditures	<u>\$1,428</u>	<u>\$ 857</u>	<u>\$ 571</u>	66.6%

(1) DIRECTV Latin America subscriber data exclude subscribers of the Sky Mexico platform.

Subscribers. The increase in gross subscriber additions was primarily due to higher demand for our middle market products, primarily in Brazil, as well as increased gross subscriber additions in Argentina. Net subscriber additions increased

DIRECTV

in 2011 due to the higher gross subscriber additions and lower post paid churn in Venezuela and Brazil compared to 2010.

Revenues. Revenues increased due to strong subscriber and ARPU growth across the region, particularly in Brazil. ARPU increased primarily due to price increases and higher penetration of advanced products across the region, as well as favorable exchange rates in Brazil.

Operating profit before depreciation and amortization. Operating profit before depreciation and amortization increased in 2011 as compared to 2010, primarily due to the increased gross profit generated from the higher revenues, partially offset by higher subscriber acquisition costs due to the higher number of gross subscriber additions, higher general and administrative costs as well as higher upgrade and retention costs resulting from the increased demand for advanced products.

Operating profit. Operating profit increased in 2011 as compared to 2010, primarily due to higher operating profit before depreciation and amortization, discussed above, partially offset by higher depreciation and amortization expense resulting from an increase in basic and advanced product receivers capitalized due to the higher gross subscriber additions attained over the last year.

DIRECTV Other Income, Income Taxes and Net Income Attributable to Noncontrolling Interest

Interest income. Interest income was \$34 million in 2011 and \$39 million in 2010.

Interest expense. The increase in interest expense to \$763 million in 2011 from \$557 million in 2010 was due to an increase in the average debt balances compared to 2010, partially offset by a decrease in weighted average interest rates. We capitalized interest costs of \$13 million in 2011 and \$6 million in 2010.

Liberty transaction and related gain. In 2010, we recorded a \$67 million net gain from the settlement of the equity collars and debt assumed as part of the Liberty Transaction.

Other, net. The significant components of "Other, net" were as follows:

	<u>2011</u>	<u>2010</u>	<u>Change</u>
	(Dollars in Millions)		
Equity in earnings of unconsolidated subsidiaries	\$109	\$ 90	\$ 19
Net foreign currency transaction gain (loss)	(50)	11	(61)
Fair value adjustment loss on non-employee stock options	(4)	(11)	7
Loss on early extinguishment of debt	(25)	(16)	(9)
Net gain from sale of investments	63	6	57
Other	(9)	(11)	2
Total	<u>\$ 84</u>	<u>\$ 69</u>	<u>\$ 15</u>

Income tax expense. We recognized income tax expense to \$1,348 million in 2011 and \$1,202 million in 2010. The effective tax rate for 2011 was 33.8% compared to 34.2% for 2010. The lower effective tax rate was primarily attributable to a benefit recorded for previously unrecognized foreign tax credits and a benefit recorded for domestic production activities deduction in 2011.

Net income attributable to noncontrolling interest. Net income attributable to noncontrolling interest decreased to \$27 million in 2011 as compared to \$114 million in 2010. This decrease was primarily a result of the Globo Transaction in the fourth quarter of 2010 which increased our ownership percentage in Sky Brasil and a net tax benefit attributable to the noncontrolling interest resulting from the release of a deferred income tax asset valuation allowance in 2010.

DIRECTV

Earnings Per Share

Class A common stock earnings per share and weighted shares outstanding were as follows for the years ended December 31:

	2011	2010
	(Shares in Millions)	
Basic earnings attributable to DIRECTV Class A common stockholders per common share	\$3.49	\$2.31
Diluted earnings attributable to DIRECTV Class A common stockholders per common share	\$3.47	\$2.30
Weighted average number of Class A common shares outstanding (in millions):		
Basic	747	870
Diluted	752	876

The increases in basic and diluted earnings per share for common stock were due to higher net income attributable to DIRECTV, a reduction in weighted average shares outstanding resulting from our share repurchase program, and the \$0.19 reduction to basic and \$0.18 reduction to diluted earnings per common share resulting from the Malone Transaction in 2010.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are our cash, cash equivalents and the cash flow that we generate from our operations. We expect that net cash provided by operating activities will grow and believe that our existing cash balances and cash provided by operations will be sufficient to fund our existing business plan. On September 28, 2012, DIRECTV U.S.' \$2.0 billion revolving credit facility was terminated and replaced with a \$1.0 billion revolving credit facility available until 2016 and \$1.5 billion revolving credit facility available until 2017. As of December 31, 2012, there were no borrowings under the new revolving credit facilities. We may borrow additional funds under these facilities to fund share repurchases or to fund strategic investment opportunities should they arise. On November 27, 2012, DIRECTV U.S. established a commercial paper program backed by its revolving credit facilities, which provides for the issuance of short-term commercial paper in the United States up to a maximum aggregate principal of \$2.5 billion. Aggregate amounts outstanding under the revolving credit facilities and the commercial paper program are limited to \$2.5 billion.

At December 31, 2012, our cash and cash equivalents totaled \$1,902 million compared with \$873 million at December 31, 2011.

As a measure of liquidity, the current ratio (ratio of current assets to current liabilities) was 1.00 at December 31, 2012 and 0.89 at December 31, 2011. Working capital increased by \$515 million to \$13 million at December 31, 2012 from a deficit of \$502 million at December 31, 2011. The increase during the year was primarily due to the increase in cash and cash equivalents, primarily due to an increase in proceeds from the issuance of long-term debt.

Summary Cash Flow Information

	Years Ended December 31,		
	2012	2011	2010
	(Dollars in Millions)		
Net cash provided by operating activities	\$ 5,634	\$ 5,185	\$ 5,206
Net cash used in investing activities	(3,363)	(3,022)	(3,099)
Net cash used in financing activities	(1,242)	(2,792)	(3,210)
Free cash flow:			
Net cash provided by operating activities	\$ 5,634	\$ 5,185	\$ 5,206
Less: Cash paid for property, equipment and satellites	<u>(3,349)</u>	<u>(3,170)</u>	<u>(2,416)</u>
Free cash flow	<u>\$ 2,285</u>	<u>\$ 2,015</u>	<u>\$ 2,790</u>

Cash Flows Provided By Operating Activities

Net cash provided by operating activities increased in 2012 as compared to 2011 due to higher operating profit before depreciation and amortization and an increase in cash generated from working capital related to the timing of customer and vendor receipts at DIRECTV U.S., partially offset by increased cash paid for interest and taxes. Net cash provided by operating activities in 2011 and 2010 was relatively flat as higher operating profit before depreciation and amortization was more than offset by increased cash paid for interest and taxes and a decrease in cash provided by working capital, mostly due to an increase in amounts payable to our programmers, partially offset by an increase in accounts receivable and an increase in prepaid expenses.

Cash paid for income taxes was \$1,406 million in 2012, \$1,042 million in 2011 and \$705 million in 2010. The increase in cash paid for income taxes in

DIRECTV

2012 resulted mainly from increased income before income taxes and a decrease in the bonus depreciation rate from 100% in 2011 to 50% in 2012. The increase in cash paid for income taxes in 2011 resulted mainly from increased income before income taxes as well as the utilization of tax credit carryforwards in 2010. Cash paid for interest was \$781 million in 2012, \$687 million in 2011 and \$460 million in 2010. The increase in cash paid for interest is due to the increase in our average debt outstanding.

Cash Flows Used In Investing Activities

From 2010 to 2012, capital expenditures for subscriber leased set-top receivers at DIRECTV U.S. remained relatively flat as the decrease in gross subscriber additions has been offset by an increase in set-top receivers provided to subscribers under upgrade and retention initiatives.

During 2010, 2011 and 2012, DIRECTV U.S. was in the process of constructing two satellites, D14 and D15, which we expect to place into service in 2014. Additionally, in 2012, we began construction on our new El Segundo campus.

Capital expenditures for subscriber leased set-top receivers at DIRECTV Latin America increased during 2010, 2011 and 2012. Part of our business strategy in Latin America is to increase advanced product and multi-receiver installations; therefore, our capital expenditures in Latin America are expected to continue to increase.

During 2011, DIRECTV Latin America entered into a contract to lease two satellites for PanAmericana, ISDLA 1 and 2, which are expected to be launched in 2014 and 2015. As a part of the lease agreement, we are required to make prepayments prior to the launch and commencement of the lease term. Payments related to the lease agreement totaled \$128 million for 2012 and \$104 million for 2011, and are included in "Cash paid for satellites" in the Consolidated Statements of Cash Flows.

We paid \$16 million in 2012 and \$11 million in 2011 for investments, net of cash acquired, in various companies. Additionally, in 2010, we paid \$617 million for investments in companies, net of cash acquired, primarily for the purchase of an approximate 19% interest in Sky Brasil held by Globo. This transaction is described in Note 4 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report. Our cash spending on investment in companies is

discretionary and we may fund strategic investment opportunities should they arise in the future. In 2011 we received cash of \$116 million related to the sale of investments, as further discussed in Note 8 of the Notes to the Consolidated Financial Statements.

Cash Flows Used in Financing Activities

Under stock repurchase plans approved by our Board of Directors, we completed the repurchase of our common stock as follows: \$5,175 million in 2012, \$5,496 million in 2011, \$5,111 million during 2010. In the first quarter of 2013, we announced a new repurchase program authorization of an additional \$4 billion. We may make purchases under this program in the open market, through negotiated transactions or otherwise. The timing, nature and amount of such transactions will depend on a variety of factors, including market conditions, and the program may be suspended, discontinued or accelerated at any time. The sources of funds for the purchases under the remaining authorization are our existing cash on hand, cash from operations and potential additional borrowings.

During 2012, we had \$5,190 million of net cash proceeds from the issuance of senior notes and \$358 million of net cash proceeds from the issuance of short-term commercial paper. We also repaid \$1,500 million of our long-term debt and borrowed and repaid \$400 million under our revolving credit facility. During 2011, we had \$3,990 million of net cash proceeds from the issuance of senior notes. We also repaid \$1,000 million of our long-term debt during 2011. During 2010, we had \$5,978 million of net cash proceeds from the issuance of senior notes. We also repaid \$2,323 million of our long-term debt, and paid \$1,537 million to settle the debt and related equity collars assumed as part of the Liberty Transaction.

We anticipate additional borrowings in the future in order to achieve a ratio of outstanding long-term debt equal to approximately 2.5 times operating profit before depreciation and amortization of DIRECTV on a consolidated basis. We will continue to evaluate our optimal leverage on an ongoing basis. We may purchase our outstanding senior notes in the future from time to time in open market transactions or otherwise as part of liability management initiatives.

Free Cash Flow

Free cash flow increased in 2012 as compared to 2011 due to the increase in net cash provided by operating activities described above, partially offset by an

DIRECTV

increase in capital expenditures. The increase in capital expenditures resulted primarily from an increase in subscriber leased equipment, satellite and other infrastructure primarily at DIRECTV Latin America.

Debt

At December 31, 2012, we had \$17,528 million in total outstanding borrowings, which consisted of senior notes and commercial paper issued by DIRECTV U.S. Our outstanding borrowings are more fully described in Note 10 of the Notes to the Consolidated Financial Statements in Item 8, Part II of this Annual Report.

Senior Notes. At December 31, 2012, DIRECTV U.S.' senior notes had a carrying value of \$17,170 million and a weighted-average interest rate of 4.60%. Our senior notes payable mature as follows: \$1,000 million in 2014, \$1,200 million in 2015, \$2,250 million in 2016, \$1,250 million in 2017 and \$11,519 million thereafter.

Included in the amounts above are DIRECTV U.S.' £750 million of 4.375% senior notes due in 2029. In connection with the issuance of these senior notes, DIRECTV U.S. entered into cross-currency swaps to effectively convert its fixed-rate British pound sterling denominated debt, including annual interest payments and the payment of principal at maturity, to fixed-rate U.S. dollar denominated debt. These cross-currency swaps are designated and qualify as cash flow hedges. The terms of the cross-currency swap agreements correspond to the related hedged senior notes and the cross-currency swaps have maturities extending through September 2029.

In January 2013, DIRECTV U.S. issued \$750 million of 1.750% senior notes due in 2018 with proceeds, net of original issue discount, of \$743 million.

Commercial Paper. On November 27, 2012, DIRECTV U.S. established a commercial paper program backed by its revolving credit facilities, which provides for the issuance of short-term commercial paper in the United States up to a maximum aggregate principal of \$2.5 billion. As of December 31, 2012, we had \$358 million of short-term commercial paper outstanding, with a weighted average maturity of 90 days, at a weighted average yield of 0.54%, which may be refinanced on a periodic basis as borrowings mature.

Revolving Credit Facilities

On September 28, 2012, DIRECTV U.S.' five year, \$2.0 billion revolving credit facility dated February 7, 2011 was terminated and replaced with a three and one-half year, \$1.0 billion revolving credit facility and a five year, \$1.5 billion revolving credit facility. We pay a commitment fee of 0.15% per year for the unused commitment under the revolving credit facilities. Borrowings currently bear interest at a rate equal to the London Interbank Offer Rate (LIBOR) plus 1.25%. Both the commitment fee and the annual interest rate may increase or decrease under certain conditions due to changes in DIRECTV U.S.' long-term, unsecured debt ratings. Under certain conditions, DIRECTV U.S. may increase the borrowing capacity of the revolving credit facilities by an aggregate amount of up to \$500 million. Aggregate amounts outstanding under the revolving credit facilities and the commercial paper program are limited to \$2.5 billion. As of December 31, 2012, there were no borrowings under the new revolving credit facilities.

Borrowings under the revolving credit facilities are unsecured senior obligations of DIRECTV U.S. and will rank equally in right of payment with all of DIRECTV U.S.' existing and future senior debt and will rank senior in right of payment to all of DIRECTV U.S.' future subordinated debt, if any.

Covenants and Restrictions

The revolving credit facilities require DIRECTV U.S. to maintain at the end of each fiscal quarter a specified ratio of indebtedness to earnings before interest, taxes and depreciation and amortization. The revolving credit facilities also include covenants that restrict DIRECTV U.S.' ability to, among other things, (i) incur additional subsidiary indebtedness, (ii) incur liens, (iii) enter into certain transactions with affiliates, (iv) merge or consolidate with another entity, (v) sell, assign, lease or otherwise dispose of all or substantially all of its assets, and (vi) change its lines of business. Additionally, the senior notes contain restrictive covenants that are similar. Should DIRECTV U.S. fail to comply with these covenants, all or a portion of its borrowings under the senior notes could become immediately payable and its revolving credit facilities could be terminated. At December 31, 2012, management believes DIRECTV U.S. was in compliance with all such covenants. The senior notes and revolving credit facilities also provide that the borrowings may be required to be prepaid if certain change-in-control events, coupled with a ratings decline, occur.

DIRECTV

DIRECTV Guarantors. On November 14, 2011, we entered into a series of Supplemental Indentures whereby DIRECTV agreed to fully guarantee all of the senior notes then outstanding, jointly and severally with substantially all of DIRECTV Holdings LLC's domestic subsidiaries. The Supplemental Indentures provide that DIRECTV unconditionally guarantees that the principal and interest on the respective senior notes will be paid in full when due and that the obligations of the Co-Issuers to the holders of the outstanding senior notes will be performed. All of the senior notes issued since November 14, 2011, the revolving credit facilities and the commercial paper program are also similarly fully guaranteed by DIRECTV.

As a result of the guarantees, holders of the senior notes, the revolving credit debt and the commercial paper have the benefit of DIRECTV's interests in the assets and related earnings of our operations that are not held through DIRECTV Holdings LLC and its subsidiaries. Those operations are primarily our DTH digital television services throughout Latin America which are held by DIRECTV Latin America Holdings, Inc. and its subsidiaries, and our regional sports networks which are held by DIRECTV Sports Networks LLC and its subsidiaries. However, the subsidiaries that own and operate the DIRECTV Latin America business and the regional sports networks have not guaranteed the senior notes, the revolving credit facilities and the commercial paper.

The guarantees are unsecured senior obligations of DIRECTV and rank equally in right of payment with all of DIRECTV's existing and future senior debt and rank senior in right of payment to all of DIRECTV's future subordinated debt, if any. The guarantees are effectively subordinated to all existing and future secured obligations, if any, of DIRECTV to the extent of the value of the assets securing the obligations. DIRECTV will not be subject to the covenants contained in each indenture of the senior notes and our guarantees will terminate and be released on the terms set forth in each of the indentures.

Contingencies

Venezuela Devaluation and Foreign Currency Exchange Controls. Companies operating in Venezuela are required to obtain government approval to exchange Venezuelan bolivars into U.S. dollars at the official exchange rate. Our ability to pay U.S. dollar denominated obligations and repatriate cash generated in Venezuela in excess of local operating requirements is limited, resulting in an increase in the cash balance at our Venezuelan subsidiary. At such time that exchange controls are

eased, accumulated cash balances may ultimately be repatriated at less than their currently reported value. As of December 31, 2012, our Venezuelan subsidiary had Venezuelan bolivar denominated net monetary assets of \$466 million, including cash of \$563 million, based on the official 4.3 bolivars per U.S. dollar exchange rate at that time.

In February 2013, the Venezuelan government announced a devaluation of the bolivar from the official exchange rate of 4.3 bolivars per U.S. dollar to an official rate of 6.3 bolivars per U.S. dollar. As a result of the devaluation, we will record a pre-tax charge in "General and administrative expenses" in the Consolidated Statements of Operations of approximately \$160 million in the first quarter of 2013, related to the remeasurement of the bolivar denominated net monetary assets of our Venezuelan subsidiary as of the date of the devaluation. This devaluation did not impact our results of operations, financial position or cash flows for the year ended December 31, 2012, but may affect the growth of our Venezuelan business. There will also be ongoing impacts to our results of operations, primarily related to the translation of local financial statements at the new exchange rate. In the event of an additional devaluation of the bolivar, we will recognize a charge to earnings based on the amount of bolivar denominated net monetary assets held at the time of such devaluation.

Income taxes. During 2012, the statute of limitations expired in federal and foreign tax jurisdictions resulting in the recognition of uncertain tax benefits. As a result we recorded a benefit of \$168 million in "Income tax expense" in the Consolidated Statements of Operations during the year ended December 31, 2012. During 2010, we entered into an agreement with a former owner to settle certain tax contingencies. As a result of this settlement we recorded a benefit of \$39 million in "Income tax expense" in the Consolidated Statements of Operations during the year ended December 31, 2010. We engage in continuous discussions and negotiations with federal, state, and foreign taxing authorities and reevaluate our uncertain tax positions, and, while it is often difficult to predict the final outcome or the timing of resolution of any particular tax matter or tax position, we believe that it is reasonably possible that our unrecognized tax benefits could decrease by up to approximately \$40 million during the next twelve months.

Globo. As discussed in Note 21 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report, Globo has the right to exchange its remaining Sky Brasil shares for cash or our common shares. If Globo

DIRECTV

exercises this right, we have the option to elect to pay the consideration in cash, shares of our common stock, or a combination of both.

Other. Several factors may affect our ability to fund our operations and commitments that we discuss in “Contractual Obligations”, “Off-Balance Sheet Arrangements” and “Contingencies” below. In addition, our future cash flows may be reduced if we experience, among other things, significantly higher subscriber additions than planned, increased subscriber churn or upgrade and retention costs, higher than planned capital expenditures for satellites and broadcast equipment, or satellite anomalies or signal theft. Additionally, DIRECTV U.S.’ ability to borrow under its revolving credit facility is contingent upon DIRECTV U.S. meeting a financial and other covenants associated with its facility as more fully described above.

CONTRACTUAL OBLIGATIONS

The following table sets forth our contractual obligations as of December 31, 2012, including the future periods in which payments are expected. Additional details regarding these obligations are provided in the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report, as referenced in the table. The contractual obligations below do not include payments that could be made related to our net unrecognized tax benefits liability, which amounted to \$259 million as of December 31, 2012. The timing and amount of any future

payments is not reasonably estimable, as such payments are dependent on the completion and resolution of examinations with tax authorities.

<u>Contractual Obligations</u>	<u>Total</u>	<u>Payments Due By Period</u>			
		<u>Less than 1 year</u>	<u>1-3 years</u>	<u>3-5 years</u>	<u>More than 5 years</u>
		(Dollars in Millions)			
Long-term debt obligations (Note 10) (a)	\$27,895	\$ 796	\$3,723	\$4,780	\$18,596
Purchase obligations (Note 21) (b)	7,079	2,186	3,092	808	993
Operating lease obligations (Note 21) (c)	978	94	174	174	536
Capital lease obligations (Notes 13 and 21) (d) . . .	1,494	100	234	264	896
Total	\$37,446	\$3,176	\$7,223	\$6,026	\$21,021

- (a) Long-term debt obligations include interest calculated based on the rates in effect at December 31, 2012, however, the obligations do not reflect potential prepayments required under indentures.
- (b) Purchase obligations consist primarily of broadcast programming commitments, regional professional team rights agreements, service contract commitments and satellite construction and launch contracts. Broadcast programming commitments include guaranteed minimum contractual commitments that are typically based on a flat fee or a minimum number of required subscribers subscribing to the related programming. Actual payments may exceed the minimum payment requirements if the actual number of subscribers subscribing to the related programming exceeds the minimum amounts. Service contract commitments include minimum commitments for the purchase of services that have been outsourced to third parties, such as billing services, telemetry, tracking and control services and broadcast center services. In most cases, actual payments, which are typically based on volume, usually exceed these minimum amounts.
- (c) Certain of the operating leases contain variable escalation clauses and renewal or purchase options, which we do not consider in the amounts disclosed.

DIRECTV

- (d) Capital lease obligations includes obligations under the contract for the lease of the ISDLA-1 and ISDLA-2 satellites currently under construction for DIRECTV Latin America, which we expect to account for as a capital lease at the time the satellites are placed into service. For further discussion, please refer to Note 21 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

OFF-BALANCE SHEET ARRANGEMENTS

As of December 31, 2012, we were contingently liable under standby letters of credit and bonds in the aggregate amount of \$167 million primarily related to a judicial deposit in Brazil for the ECAD matter discussed in Part I, Item 3 of this Annual Report, and insurance deductibles.

CONTINGENCIES

For a discussion of "Contingencies", see Note 21 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

CERTAIN RELATIONSHIPS AND RELATED-PARTY TRANSACTIONS

For a discussion of "Certain Relationships and Related-Party Transactions," see Note 19 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

CRITICAL ACCOUNTING ESTIMATES

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates, judgments and assumptions that affect amounts reported. Management bases its estimates, judgments and assumptions on historical experience and on various other factors that are believed to be reasonable under the circumstances. Due to the inherent uncertainty involved in making estimates, actual results reported for future periods may be affected by changes in those estimates. The following represents what we believe are the critical accounting policies that may involve a higher degree of estimation, judgment and complexity. Management has discussed the development and selection of these critical accounting estimates with the Audit Committee of our Board of Directors, and the Audit Committee has reviewed our disclosures relating to them, which are presented below. For a summary of our significant accounting policies, including those discussed below, see

Note 2 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

Income Taxes. We must make certain estimates and judgments in determining provisions for income taxes. These estimates and judgments occur in the calculation of tax credits, tax benefits and deductions, and in the calculation of certain tax assets and liabilities, which arise from differences in the timing of recognition of revenue and expense for tax and financial statement purposes.

We assess the recoverability of deferred tax assets at each reporting date and where applicable, record a valuation allowance to reduce the total deferred tax asset to an amount that will, more-likely-than-not, be realized in the future. Our assessment includes an analysis of whether deferred tax assets will be realized in the ordinary course of operations based on the available positive and negative evidence, including the scheduling of deferred tax liabilities and forecasted income from operating activities. The underlying assumptions we use in forecasting future taxable income require significant judgment. In the event that actual income from operating activities differs from forecasted amounts, or if we change our estimates of forecasted income from operating activities, we could record additional charges or reduce allowances in order to adjust the carrying value of deferred tax assets to their realizable amount. Such adjustments could be material to our consolidated financial statements.

In addition, the recognition of a tax benefit for tax positions involves dealing with uncertainties in the application of complex tax regulations. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns. We provide for taxes for uncertain tax positions where assessments have not been received. We believe such tax reserves are adequate in relation to the potential for additional assessments. Once established, we adjust these amounts only when more information is available or when an event occurs necessitating a change to the reserves. Future events such as changes in the facts or law, judicial decisions regarding the application of existing law or a favorable audit outcome will result in changes to the amounts provided.

Contingent Matters. Determining when, or if, an accrual should be recorded for a contingent matter, including but not limited to legal and tax issues, and the amount of such accrual, if any, requires a significant amount of management judgment and estimation. We develop our judgments and estimates in consultation with outside counsel based on an analysis of potential outcomes. Due to the uncertainty of determining the likelihood of a future event occurring and the

DIRECTV

potential financial statement impact of such an event, it is possible that upon further development or resolution of a contingent matter, we could record a charge in a future period that would be material to our consolidated financial statements.

Depreciable Lives of Leased Set-Top Receivers. We currently lease most set-top receivers provided to new and existing subscribers and therefore capitalize the cost of those set-top receivers. We depreciate set-top receivers at DIRECTV U.S. over a three to four year estimated useful life, which is based on, among other things, management's judgment of the risk of technological obsolescence. Changes in the estimated useful lives of set-top receivers capitalized could result in significant changes to the amounts recorded as depreciation expense. If we extended the depreciable life of the set-top receivers at DIRECTV U.S. by one year, it would result in an approximately \$240 million reduction in annual depreciation expense.

Valuation of Long-Lived Assets. We evaluate the carrying value of long-lived assets to be held and used, other than goodwill and intangible assets with indefinite lives, when events and circumstances warrant such a review. We consider the carrying value of a long-lived asset impaired when the anticipated undiscounted future cash flow from such asset is separately identifiable and is less than its carrying value. In that event, we recognize a loss based on the amount by which the carrying value exceeds the fair value of the long-lived asset. We determine fair value primarily using the estimated future cash flows associated with the asset under review, discounted at a rate commensurate with the risk involved, and other valuation techniques. We determine losses on long-lived assets to be disposed of in a similar manner, except that we reduce the fair value for the cost of disposal. Changes in estimates of future cash flows could result in a write-down of the asset in a future period.

Valuation of Goodwill and Intangible Assets with Indefinite Lives. We evaluate the carrying value of goodwill and intangible assets with indefinite lives annually in the fourth quarter or more frequently when events and circumstances change that would more likely than not result in an impairment loss. We completed our annual impairment testing during the fourth quarter of 2012, and determined that there was no impairment of goodwill or intangible assets with indefinite lives. As of December 31, 2012, the fair value of each reporting unit and our intangible assets with indefinite lives significantly exceed their carrying values. See Note 7 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

The goodwill evaluation requires the estimation of the fair value of reporting units where we record goodwill. We determine fair values primarily using estimated cash flows discounted at a rate commensurate with the risk involved, when appropriate. Estimation of future cash flows requires significant judgment about future operating results, and can vary significantly from one evaluation to the next. Risk adjusted discount rates are not fixed and are subject to change over time. As a result, changes in estimated future cash flows and/or changes in discount rates could result in a write-down of goodwill or intangible assets with indefinite lives in a future period which could be material to our consolidated financial statements.

ACCOUNTING CHANGES

For a discussion of accounting changes see Note 3 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following discussion and the estimated amounts generated from the sensitivity analyses referred to below include forward-looking statements of market risk which assume for analytical purposes that certain adverse market conditions may occur. Actual future market conditions may differ materially from such assumptions and the amounts noted below are the result of analyses used for the purpose of assessing possible risks and the mitigation thereof. Accordingly, you should not consider the forward-looking statements as our projections of future events or losses.

General

Our cash flows and earnings are subject to fluctuations resulting from changes in foreign currency exchange rates, interest rates and changes in the market value of our equity investments. We manage our exposure to these market risks through internally established policies and procedures and, when deemed appropriate, through the use of derivative financial instruments. We enter into derivative instruments only to the extent considered necessary to meet our risk management objectives, and do not enter into derivative contracts for speculative purposes.

DIRECTV

Foreign Currency Risk

Transaction Exposure

We generally conduct our business in U.S. dollars with some business conducted in a variety of foreign currencies and therefore we are exposed to fluctuations in foreign currency exchange rates. Our objective in managing our exposure to foreign currency changes is to reduce earnings and cash flow volatility associated with foreign exchange rate fluctuations. Accordingly, we may enter into foreign exchange contracts to mitigate risks associated with foreign currency denominated assets, liabilities, commitments and anticipated foreign currency transactions. The gains and losses on derivative foreign exchange contracts offset changes in value of the related exposures.

As of December 31, 2012, we had no significant foreign currency exchange contracts outstanding, excluding the cross-currency swaps described in Note 11 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report. The impact of a hypothetical 10% adverse change in exchange rates on our net monetary assets would be a loss of \$146 million, net of taxes, at December 31, 2012, a portion of which could be recorded in "Foreign currency translation adjustments" in our Consolidated Statements of Comprehensive Income.

Economic Exposure

We are exposed to the market risks associated with fluctuations in foreign exchange rates as they relate to our foreign currency denominated debt obligations. Cross-currency swaps are used to effectively convert fixed rate foreign currency denominated debt to fixed rate U.S. dollar denominated debt, hedging the risk that the cash flows related to annual interest payments and the payment of principal at maturity may be adversely affected by fluctuations in currency exchange rates. The

gains and losses on the cross-currency swaps offset changes in the U.S. dollar equivalent value of the related exposures. As of December 31, 2012, the fair value of our cross-currency swaps on our £750 million principal amount of 4.375% senior notes due in 2029 was a liability of \$17 million, which is recorded in "Other liabilities and deferred credits" in our Consolidated Balance Sheets. For additional information, refer to Note 11 of the Notes to the Consolidated Financial Statements in Part II, Item 8 of this Annual Report.

Counterparty Credit Risk

We manage the credit risks associated with our derivative financial instruments through diversification and the evaluation and monitoring of the creditworthiness of the counterparties. Although we may be exposed to losses in the event of nonperformance by the counterparties, we do not expect such losses, if any, to be significant. We have agreements with certain counterparties that include collateral provisions. These provisions require a party with an aggregate unrealized loss position in excess of certain thresholds to post cash collateral for the amount in excess of the threshold. The threshold levels in our collateral agreements are based on our and the counterparties' credit ratings. As of December 31, 2012 neither we nor any of the counterparties were required to post collateral under the terms of the agreements.

Interest Rate Risk

From time to time, we may be subject to fluctuating interest rates for variable rate borrowings, which may adversely impact our consolidated results of operations and cash flows. We had outstanding debt of \$17,528 million at December 31, 2012, which consisted principally of DIRECTV U.S.' fixed rate borrowings.

DIRECTV

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of DIRECTV
El Segundo, California

We have audited the accompanying consolidated balance sheets of DIRECTV and subsidiaries (“the Company”) as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, changes in stockholders’ equity (deficit) and redeemable noncontrolling interest, and cash flows for each of the three years in the period ended December 31, 2012. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of DIRECTV and subsidiaries at December 31, 2012 and 2011, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2012, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 20, 2013 expressed an unqualified opinion on the Company’s internal control over financial reporting.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Description of Business

DIRECTV, which we sometimes refer to as the company, we, or us, is a leading provider of digital television entertainment in the United States and Latin America. We operate two direct-to-home, or DTH, business units: DIRECTV U.S. and DIRECTV Latin America, which are differentiated by their geographic locations and are engaged in acquiring, promoting, selling and distributing digital entertainment programming primarily via satellite to residential and commercial subscribers. In addition, we own and operate three regional sports networks and own a 42% interest in Game Show Network LLC, or GSN, a television network dedicated to game-related programming and Internet interactive game playing. We account for our investment in GSN using the equity method of accounting.

- **DIRECTV U.S.** DIRECTV Holdings LLC and its subsidiaries, which we refer to as DIRECTV U.S., is the largest provider of DTH digital television services and the second largest provider in the multi-channel video programming distribution industry in the United States.
- **DIRECTV Latin America.** DIRECTV Latin America Holdings Inc. and its subsidiaries, or DIRECTV Latin America, is a leading provider of DTH digital television services throughout Latin America. DIRECTV Latin America is comprised of: PanAmericana, which provides services in Argentina, Chile, Colombia, Ecuador, Puerto Rico, Venezuela and certain other countries in the region, and Sky Brasil Servicos Ltda., which we refer to as Sky Brasil, which is a 93% owned subsidiary. DIRECTV Latin America also includes our 41% equity method investment in Innova, S. de R.L. de C.V., or Sky Mexico, which we include in the PanAmericana segment.
- **DIRECTV Sports Networks.** DIRECTV Sports Networks LLC and its subsidiaries, or DSN, is comprised primarily of three regional sports networks based in Seattle, Washington, Denver, Colorado and Pittsburgh, Pennsylvania, each of which operates under the brand name ROOT SPORTS®. The operating results of DSN are reported as part of the "Sports Networks, Eliminations and Other" reporting segment.

During the first quarter of 2012, we revised our reportable segments. As further discussed in Note 20, our DIRECTV Latin America business unit, which was previously reported as a single segment, is now being reported as two segments,

Sky Brasil and PanAmericana. We have restated certain prior period amounts to conform to the current year presentation of reporting segments.

Note 2: Basis of Presentation and Summary of Significant Accounting Policies

Principles of Consolidation

We present our accompanying financial statements on a consolidated basis and include our accounts and those of our domestic and foreign subsidiaries that we control through equity ownership or for which we are deemed to be the primary beneficiary, after elimination of intercompany accounts and transactions.

Use of Estimates in the Preparation of the Consolidated Financial Statements

We prepare our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, which requires us to make estimates and assumptions that affect amounts reported herein. We base our estimates and assumptions on historical experience and on various other factors that we believe to be reasonable under the circumstances. Due to the inherent uncertainty involved in making estimates, our actual results reported in future periods may be affected by changes in those estimates.

Revenue Recognition

We enter into multiple-deliverable revenue arrangements with our subscribers under which we provide DIRECTV receiving equipment, services and programming during their contract period, of up to two years. We allocate consideration to each deliverable in the arrangement based on its relative selling price. We determine the selling price of the DIRECTV receiving equipment using our best estimate. We determine the selling price for services based on prices charged by third parties. We determine the selling price of the programming using our standard programming rates. The DIRECTV receiving equipment, services and programming are each considered separate units of accounting.

We recognize subscription and pay-per-view revenues when programming is broadcast to subscribers. We recognize subscriber fees for multiple set-top receivers and warranty services as revenue, as earned. We recognize advertising revenues when

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

the related services are performed. We defer programming payments received from subscribers in advance of the broadcast as “Unearned subscriber revenues and deferred credits” in the Consolidated Balance Sheets until earned. We recognize revenues to be received under contractual commitments on a straight line basis over the minimum contractual period. We report revenues net of customer credits and discounted promotions.

Broadcast Programming and Other

We recognize the costs of television programming distribution rights when we distribute the related programming. We recognize the costs of television programming rights to distribute live sporting events for a season or tournament to expense using the straight-line method over the course of the season or tournament.

We defer advance payments in the form of cash and equity instruments from programming content providers for carriage of their signal and recognize them as a reduction of “Broadcast programming and other” in the Consolidated Statements of Operations on a straight-line basis over the related contract term. We record equity instruments at fair value based on quoted market prices or values determined by management.

Subscriber Acquisition Costs

Subscriber acquisition costs consist of costs we incur to acquire new subscribers. We include the cost of set-top receivers and other equipment, commissions we pay to national retailers, independent satellite television retailers, dealers and regional telephone companies, which we refer to as telcos, and the cost of installation, advertising, marketing and customer call center expenses associated with the acquisition of new subscribers in subscriber acquisition costs. We expense these costs as incurred, or when subscribers activate the DIRECTV® service, as appropriate, except for the cost of set-top receivers leased to new subscribers, which we capitalize in “Property and equipment, net” in the Consolidated Balance Sheets and depreciate over their estimated useful lives. In certain countries in Latin America, where our customer agreements provide for the lease of the entire DIRECTV or SKY System, we also capitalize the costs of the other customer premises equipment and related installation costs in “Property and equipment, net”

in the Consolidated Balance Sheets. Although paid in advance, the retailer or dealer earns substantially all commissions paid for customer acquisitions over 12 months from the date of subscriber activation. Should the subscriber cancel our service during such 12 month service period, we are reimbursed for the unearned portion of the commission by the retailer or dealer and record a decrease to subscriber acquisition costs. We include the amount of our set-top receivers capitalized each period for subscriber acquisition activities in the Consolidated Statements of Cash Flows under the caption “Cash paid for property and equipment.” See Note 6 for additional information.

Upgrade and Retention Costs

Upgrade and retention costs consist primarily of costs we incur for upgrade efforts for existing subscribers. We include the costs of subscriber equipment upgrade programs for digital video recorder, or DVR, high-definition, or HD, and HD DVR receivers and local channels, our multiple set-top receiver offers and other similar initiatives. Retention costs also include the costs of installing and providing hardware under our movers program for subscribers relocating to a new residence. We expense these costs as incurred, except for the cost of set-top receivers leased to existing subscribers, which we capitalize in “Property and equipment, net” in the Consolidated Balance Sheets. We include the amount of our set-top receivers capitalized each period for upgrade and retention activities in the Consolidated Statements of Cash Flows under the caption “Cash paid for property and equipment.” See Note 6 for additional information.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on deposit and highly liquid investments we purchase with original maturities of three months or less.

Inventories

We state inventories at the lower of average cost or market. Inventories consist of finished goods for DIRECTV System equipment and DIRECTV System access cards.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Property and Equipment, Satellites and Depreciation

We carry property and equipment, and satellites, at cost, net of accumulated depreciation. The amounts we capitalize for satellites currently being constructed and those that have been successfully launched include the costs of construction, launch, launch insurance, incentive obligations and capitalized interest. We generally compute depreciation using the straight-line method over the estimated useful lives of the assets. We amortize leasehold improvements over the lesser of the life of the asset or term of the lease.

Capitalized Software Costs

We capitalize certain software costs incurred, either from internal or external sources, as part of "Property and equipment, net" in the Consolidated Balance Sheets and depreciate these costs on a straight-line basis over the useful life of the software. We recognize planning, training, support and maintenance costs incurred either prior to or following the implementation phase as expense in the Consolidated Statements of Operations in the period in which they occur. We had unamortized capitalized software costs of \$492 million as of December 31, 2012 and \$551 million as of December 31, 2011. We recorded depreciation of these costs of \$292 million in 2012, \$234 million in 2011 and \$218 million in 2010 in "Depreciation and amortization expense" in the Consolidated Statements of Operations.

Goodwill and Intangible Assets

Goodwill and intangible assets with indefinite lives are carried at historical cost and are subject to write-down, as needed, based upon an impairment analysis that we must perform at least annually, or sooner if an event occurs or circumstances change that would more likely than not result in an impairment loss. We perform our annual impairment analysis in the fourth quarter of each year. We use estimates of fair value to determine the amount of impairment, if any, of goodwill and intangibles assets with indefinite lives. The goodwill evaluation requires the estimation of the fair value of reporting units where we record goodwill. We determine fair values primarily using estimated cash flows discounted at a rate

commensurate with the risk involved, when appropriate. If an impairment loss results from the annual impairment test, we would record the loss as a pre-tax charge to operating income.

We amortize other intangible assets using the straight-line method over their estimated useful lives, which range from 5 to 20 years.

Valuation of Long-Lived Assets

We evaluate the carrying value of long-lived assets to be held and used, other than goodwill and intangible assets with indefinite lives, when events and circumstances warrant such a review. We consider the carrying value of a long-lived asset impaired when the anticipated undiscounted future cash flow from such asset is separately identifiable and is less than its carrying value. In that event, we would recognize a loss based on the amount by which the carrying value exceeds the fair value of the long-lived asset. We determine fair value primarily using estimated future cash flows associated with the asset under review, discounted at a rate commensurate with the risk involved, or other valuation techniques. We determine losses on long-lived assets to be disposed of in a similar manner, except that we reduce the fair value for the cost of disposal.

Foreign Currency

The U.S. dollar is the functional currency for most of our foreign operations. We recognize gains and losses resulting from remeasurement of these operations' foreign currency denominated assets, liabilities and transactions into the U.S. dollar in the Consolidated Statements of Operations.

We also have foreign operations where the local currency is their functional currency. Accordingly, these foreign entities translate assets and liabilities from their local currencies to U.S. dollars using year-end exchange rates while income and expense accounts are translated at the average rates in effect during the year. We record the resulting translation adjustment as part of "Accumulated other comprehensive loss," a separate component of stockholders' deficit in the Consolidated Balance Sheets.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Investments

We maintain investments in equity securities of unaffiliated companies. We carry non-marketable equity securities at cost. We consider marketable equity securities available-for-sale and they are carried at current fair value based on quoted market prices with unrealized gains or losses (excluding other-than-temporary losses), net of taxes, reported as part of "Accumulated other comprehensive loss" in the Consolidated Balance Sheets. We regularly review our investments to determine whether a decline in fair value below the cost basis is "other-than-temporary." We consider, among other factors: the magnitude and duration of the decline; the financial health and business outlook of the investee, including industry and sector performance, changes in technology, and operational and financing cash flow factors; and our intent and ability to hold the investment. If we judge the decline in fair value to be other-than-temporary, we write-down the cost basis of the security to fair value and recognize the amount in the Consolidated Statements of Operations as part of "Other, net" and record it as a reclassification adjustment from "Accumulated other comprehensive loss" in the Consolidated Balance Sheets.

We account for investments in which we own at least 20% of the voting securities or have significant influence under the equity method of accounting. We record equity method investments at cost and adjust for the appropriate share of the net earnings or losses of the investee. We record investee losses up to the amount of the investment plus advances and loans made to the investee, and financial guarantees made on behalf of the investee.

Derivative Financial Instruments

We have designated our cross-currency swaps as cash flow hedges, and accordingly, we record the effective portion of the unrealized gains and losses on the cross-currency swaps in "Accumulated other comprehensive loss" in the Consolidated Balance Sheets and reclassify those amounts to earnings in the same periods during which the hedged debt affects earnings. We record the ineffective portion of the unrealized gains and losses on these cross-currency swaps, if any, immediately in earnings.

Debt Issuance Costs

We defer costs we incur to issue debt and amortize these costs to interest expense using the straight-line method over the term of the respective obligation.

Share-Based Payment

We grant restricted stock units and common stock options to certain employees and shares of stock to our directors as part of their annual compensation for Board services.

We record compensation expense equal to the fair value of stock-based awards at the grant date on a straight-line basis over the requisite service period of up to three years, reduced for estimated forfeitures and adjusted for anticipated payout percentages related to the achievement of performance targets.

Sales Taxes

Sales taxes collected and remitted to state and local authorities are recorded on a net basis.

Income Taxes

We determine deferred tax assets and liabilities based on the difference between the financial statement and tax basis of assets and liabilities, using enacted tax rates in effect for the year in which we expect the differences to reverse. We must make certain estimates and judgments in determining income tax provisions, assessing the likelihood of recovering our deferred tax assets, and evaluating tax positions.

We recognize a benefit in "Income tax expense" in the Consolidated Statements of Operations for uncertain tax positions that are more-likely-than-not to be sustained upon examination, measured at the largest amount that has a greater than 50% likelihood of being realized upon settlement. Unrecognized tax benefits represent tax benefits taken or expected to be taken in income tax returns, for which the benefit has not yet been recognized in "Income tax expense" in the Consolidated Statements of Operations due to the uncertainty of whether such benefits will be ultimately realized. We recognize interest and penalties accrued related to unrecognized tax benefits in "Income tax expense" in the Consolidated

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Statements of Operations. Unrecognized tax benefits are recorded in “Income tax expense” in the Consolidated Statements of Operations at such time that the benefit is effectively settled.

Advertising Costs

We expense advertising costs primarily in “Subscriber acquisition costs” in the Consolidated Statements of Operations as incurred. Advertising costs for print and media related to national advertising campaigns, net of payments received from programming content providers for marketing support, were \$514 million in 2012, \$464 million in 2011 and \$396 million in 2010.

Market Concentrations and Credit Risk

We sell programming services and extend credit, in amounts generally not exceeding \$200 each, to a large number of individual residential subscribers throughout the United States and most of Latin America. As applicable, we maintain allowances for anticipated losses.

Fair Value Measurement

We determine the fair value measurements of assets and liabilities based on the three level valuation hierarchy established for classification of fair value measurements. The valuation hierarchy is based on the transparency of inputs to the valuation of an asset or liability as of the measurement date. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability and may be observable or unobservable. The three level hierarchy of inputs is as follows:

- Level 1: Valuation is based on quoted market prices in active markets for identical assets or liabilities.
- Level 2: Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable, for substantially the full term of the asset or liability.
- Level 3: Valuation is based upon other unobservable inputs that are not corroborated by market data.

The carrying value of cash and cash equivalents, accounts receivable, investments and other assets, accounts payable, short-term borrowings and amounts included in accrued liabilities and other meeting the definition of a financial instrument approximated their fair values at December 31, 2012 and 2011.

Note 3: Change in Accounting Estimate

Depreciable Lives of Leased Set-Top Receivers. We currently lease most set-top receivers provided to new and existing subscribers and therefore capitalize the cost of those set-top receivers. We depreciate capitalized set-top receivers over the estimated useful life of the equipment. As a result of the completion of an extensive evaluation of the estimated useful life of the set-top receivers in the third quarter of 2011, including consideration of historical write-offs, improved efficiencies in our refurbishment program, improved set-top receiver failure rates over time and management’s judgment of the risk of technological obsolescence, we determined that the estimated useful life of HD set-top receivers used in our DIRECTV U.S. business has increased to four years, from three years as previously estimated. We continue to depreciate standard-definition, or SD, set-top receivers at DIRECTV U.S. over a three-year estimated useful life. We accounted for this change in the useful life of the HD set-top receivers at DIRECTV U.S. as a change in an accounting estimate beginning July 1, 2011. This change had the effect of reducing depreciation and amortization expense and increasing both net income attributable to DIRECTV and earnings per share in our consolidated results of operations as follows:

	<u>Years Ended</u> <u>December 31,</u>	
	<u>2012</u>	<u>2011</u>
	(Dollars in Millions, Except Per Share Amounts)	
Depreciation and amortization expense	\$(176)	\$(141)
Net income attributable to DIRECTV	109	86
Basic earnings attributable to DIRECTV common stockholders per common share	\$0.17	\$0.12
Diluted earnings attributable to DIRECTV common stockholders per common share	\$0.17	\$0.11

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Note 4: Acquisition

Globo Transaction

In connection with our acquisition of Sky Brasil in 2006, our partner who holds the remaining 7% interest, Globo Comunicações e Participações S.A., or Globo, was granted the right, until January 2014, to require us to purchase all or a portion (but not less than half) of its 25.9% interest in Sky Brasil. Upon the exercise of this right in the fourth quarter of 2010, we paid \$605 million in cash, which was the fair value of the approximate 19% interest purchased, and recorded a reduction to “Redeemable noncontrolling interest” in the Consolidated Balance Sheets. In addition, we recorded \$79 million of net deferred tax assets related to the acquisition of this interest as an offset to “Common stock and additional paid-in capital” in the Consolidated Balance Sheets. We and our subsidiaries now own 93% of Sky Brasil and Globo owns the remaining 7%.

In accordance with our agreement, Globo will have the right to exchange all (but not less than all) of its remaining equity interest in Sky Brasil until January 2014.

Note 5: Accounts Receivable, Net

The following table sets forth the amounts recorded for “Accounts receivable, net” in our Consolidated Balance Sheets as of December 31:

	<u>2012</u>	<u>2011</u>
	(Dollars in Millions)	
Subscriber	\$1,804	\$1,639
Telco	459	512
Trade and other	<u>514</u>	<u>402</u>
Total	2,777	2,553
Less: Allowance for doubtful accounts	<u>(81)</u>	<u>(79)</u>
Accounts receivable, net	<u>\$2,696</u>	<u>\$2,474</u>

Note 6: Satellites, Net and Property and Equipment, Net

The following table sets forth the amounts recorded for “Satellites, net” and “Property and equipment, net” in our Consolidated Balance Sheets as of December 31:

	Estimated Useful Lives (years)	<u>2012</u>	<u>2011</u>
(Dollars in Millions)			
Satellites	10-16	\$ 3,188	\$ 3,206
Satellites under construction	—	<u>693</u>	<u>302</u>
Total		3,881	3,508
Less: Accumulated depreciation		<u>(1,524)</u>	<u>(1,293)</u>
Satellites, net		<u>\$ 2,357</u>	<u>\$ 2,215</u>
Land and improvements	9-30	\$ 44	\$ 44
Buildings and leasehold improvements	2-40	441	406
Machinery and equipment	2-23	1,988	1,947
Capitalized software	3	2,392	2,198
Subscriber leased set-top equipment	3-7	9,053	8,105
Construction in-progress	—	<u>750</u>	<u>418</u>
Total		14,668	13,118
Less: Accumulated depreciation		<u>(8,630)</u>	<u>(7,895)</u>
Property and equipment, net		<u>\$ 6,038</u>	<u>\$ 5,223</u>

We capitalized interest costs of \$24 million in 2012, \$13 million in 2011 and \$6 million in 2010 as part of the cost of our property and satellites under construction. Depreciation expense, including amortization of property and equipment and satellites held under capital leases, was \$2,342 million in 2012, \$2,213 million in 2011 and \$2,292 million in 2010.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

The following table sets forth property and equipment leased to our subscribers as of December 31:

	2012	2011
	(Dollars in Millions)	
Subscriber leased set-top equipment	\$ 9,053	\$ 8,105
Less: Accumulated depreciation of subscriber leased equipment	(5,040)	(4,618)
Subscriber leased set-top equipment, net	<u>\$ 4,013</u>	<u>\$ 3,487</u>

As discussed above in Note 3, effective July 1, 2011, we began depreciating capitalized HD set-top receivers at DIRECTV U.S. over a four-year estimated useful life. Previously, we depreciated HD set-top receivers at DIRECTV U.S. over a three-year estimated useful life. We continue to depreciate SD set-top receivers at DIRECTV U.S. over a three-year useful life. At DIRECTV Latin America, we depreciate capitalized subscriber leased equipment, which includes the cost of the set-top receiver, installation and the dish. HD set-top-receivers have a three-year estimated useful life and SD set-top receivers have a seven-year estimated useful life. The useful life used to depreciate capitalized set-top receivers is based on, among other things, management's judgment of the risk of technological obsolescence. Changes in the estimated useful lives of set-top receivers capitalized could result in significant changes to the amounts recorded as depreciation expense. We regularly evaluate the estimate useful life of our capitalized set-top receivers.

Note 7: Goodwill and Intangible Assets, Net

The following table sets forth the changes in the carrying amounts of "Goodwill" in the Consolidated Balance Sheets by segment for the years ended December 31, 2012 and 2011:

	DIRECTV U.S.	DIRECTV Latin America Sky Brasil PanAmericana		Sports Networks, Eliminations and Other	Total
	(Dollars in Millions)				
Balance as of January 1, 2011	\$3,176	\$466	\$211	\$295	\$4,148
Foreign currency translation adjustment	—	(52)	—	—	(52)
Acquisition accounting adjustments	<u>1</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>1</u>
Balance as of December 31, 2011	3,177	414	211	295	4,097
Foreign currency translation adjustment	<u>—</u>	<u>(34)</u>	<u>—</u>	<u>—</u>	<u>(34)</u>
Balance as of December 31, 2012	<u>\$3,177</u>	<u>\$380</u>	<u>\$211</u>	<u>\$295</u>	<u>\$4,063</u>

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

The following table sets forth the components for “Intangible assets, net” in the Consolidated Balance Sheets as of:

	Estimated Useful Lives (years)	December 31, 2012			December 31, 2011		
		Gross Amount	Accumulated Amortization	Net Amount	Gross Amount	Accumulated Amortization	Net Amount
(Dollars in Millions)							
Orbital slots	Indefinite	\$ 432	\$ —	\$432	\$ 432	\$ —	\$432
Satellite rights	15	101	19	82	110	12	98
Subscriber related	5-10	383	371	12	402	353	49
Dealer network	15	130	117	13	130	108	22
Trade name and other	5-20	174	46	128	159	37	122
Distribution agreements	6-20	208	43	165	208	22	186
Total intangible assets		<u>\$1,428</u>	<u>\$596</u>	<u>\$832</u>	<u>\$1,441</u>	<u>\$532</u>	<u>\$909</u>

Amortization expense of intangible assets was \$95 million in 2012, \$136 million in 2011 and \$190 million in 2010.

Estimated amortization expense for intangible assets in each of the next five years and thereafter is as follows: \$58 million in 2013, \$50 million in 2014, \$45 million in 2015, \$24 million in 2016, \$24 million in 2017 and \$199 million thereafter.

We performed our annual impairment tests for goodwill and orbital slots in the fourth quarters of 2012, 2011 and 2010. The estimated fair values for each reporting unit and the orbital slots exceeded our carrying values, and accordingly, no impairment losses were recorded during 2012, 2011 or 2010. Additionally, there are no accumulated impairment losses as of December 31, 2012 and 2011.

Satellite Rights

Sky Brasil has an agreement for the right to use a satellite should its existing leased satellite suffer a significant failure and replacement capacity is needed. During the first quarter of 2010, the satellite was launched and successfully placed into its assigned orbit, and we recorded the total obligation for the right to use the satellite of \$116 million in “Intangible assets, net” in the Consolidated Balance Sheets. We made a \$29 million payment during 2010 and we made the remaining

\$87 million payment during 2011. The intangible asset is being amortized on a straight line basis over the 15-year term of the agreement.

Note 8: Investments

Equity Method Investments

Sky Mexico. DIRECTV accounts for the excess of the carrying value for its investment in Sky Mexico over DIRECTV’s share of Sky Mexico’s equity in memo accounts allocated to goodwill and definite lived intangibles attributable to affiliate and advertising relationships. We recognized \$4 million in 2012, \$25 million in 2011 and \$25 million in 2010 of amortization on definite lived intangibles in equity earnings of Sky Mexico related to these assets.

Game Show Network. Due to certain governance arrangements which limit DIRECTV’s ability to control GSN, we account for GSN as an equity method investment. In March 2011, we sold a 5% ownership interest in GSN to our equity partner for \$60 million in cash, reducing our ownership interest to 60%. We recognized a pre-tax gain of \$25 million (\$16 million after tax) on the sale in “Other, net” in the Consolidated Statements of Operations, which represents the difference between the selling price and the carrying amount of the portion of our equity method investment sold.

In December 2012, we sold an 18% interest in GSN for \$234 million to our equity partner, which reduced our ownership interest from 60% to 42%. We recognized a pre-tax gain of \$111 million (\$68 million after tax) on the sale in “Other, net” in the Consolidated Statement of Operations, which represents the difference between the selling price and the carrying amount of the portion of our equity method investment sold. Under the terms of the purchase and sale agreement, our equity partner has the option to pay the \$234 million selling price either in full in April 2013, or in two equal installments of \$117 million each: one in April 2013 and the second in April 2014. All unpaid amounts will accrue interest payable to us at a rate of 10% per year. This sale was considered a non-cash investing activity for purposes of the Consolidated Statements of Cash Flows for the year ended December 31, 2012.

DIRECTV accounts for the excess of the carrying value for its investment in GSN over DIRECTV’s share of GSN’s equity in memo accounts allocated to

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

goodwill and definite lived intangibles attributable to affiliate and advertising relationships. We recognized \$10 million in 2012, \$10 million in 2011 and \$12 million in 2010 of amortization on definite lived intangibles in equity earnings of GSN related to these assets.

Other. In April 2011, we sold an equity method investment for \$55 million in cash. As a result of this sale, we recognized a pre-tax gain of \$37 million (\$23 million after tax) on the sale in "Other, net" in the Consolidated Statements of Operations, which represents the difference between the selling price and the carrying amount of the equity method investment sold.

The following table sets forth the carrying value of our investments which we account for under the equity method of accounting as of December 31:

	2012	2011
	(Dollars in Millions)	
Sky Mexico	\$510	\$ 490
GSN	291	420
Other equity method investments	149	131
Total investments accounted for under the equity method of accounting	<u>\$950</u>	<u>\$1,041</u>

The following table sets forth equity in earnings and losses of our investments accounted for under the equity method of accounting for the years ended December 31:

	2012	2011	2010
	(Dollars in Millions)		
Sky Mexico	\$ 62	\$ 52	\$33
GSN	42	29	33
Other	27	28	24
Total net equity earnings for investments accounted for under the equity method of accounting	<u>\$131</u>	<u>\$109</u>	<u>\$90</u>

We received cash dividends of \$79 million in 2012, \$104 million in 2011 and \$78 million in 2010 from companies that we account for under the equity method.

Undistributed earnings from equity method investments were \$302 million as of December 31, 2012 and \$256 million as of December 31, 2011.

Equity Securities

We had investments in non-marketable equity securities of \$68 million as of December 31, 2012 and \$56 million as of December 31, 2011, which were stated at cost. We also had investments in marketable equity securities of \$11 million as of December 31, 2012 and \$17 million as of December 31, 2011, which were carried at fair market value.

Note 9: Accounts Payable and Accrued Liabilities

The following table sets forth the significant components of "Accounts payable and accrued liabilities" in our Consolidated Balance Sheets as of December 31:

	2012	2011
	(Dollars in Millions)	
Programming costs	\$2,194	\$2,006
Accounts payable	1,208	1,195
Payroll and employee benefits	347	307
Other	869	702
Total accounts payable and accrued liabilities	<u>\$4,618</u>	<u>\$4,210</u>

As of December 31, 2012, there were \$104 million of amounts payable to vendors for property and equipment and \$5 million of amounts payable for satellites in "Accounts payable and accrued liabilities" in the Consolidated Balance Sheets, which is considered a non-cash investing activity for purposes of the Consolidated Statements of Cash Flows for the year ended December 31, 2012. As of December 31, 2011 there were \$68 million of amounts payable to vendors for property and equipment and \$3 million of amounts payable for satellites in "Accounts payable and accrued liabilities" in the Consolidated Balance Sheets, which is considered a non-cash investing activity for purposes of the Consolidated Statements of Cash Flows for the year ended December 31, 2011.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Note 10: Debt

The following table sets forth our outstanding debt as of December 31:

	<u>2012</u>	<u>2011</u>
	(Dollars in Millions)	
Long-term debt		
Senior notes	\$17,170	\$13,464
Short-term borrowings		
Commercial paper	<u>358</u>	<u>—</u>
Total debt	<u>\$17,528</u>	<u>\$13,464</u>

2012 Financing Transactions

In the first quarter of 2012, DIRECTV U.S. borrowed and repaid \$400 million under its \$2 billion revolving credit facility, which was terminated on September 28, 2012, and replaced with a three and one-half year, \$1 billion revolving credit facility and a five year, \$1.5 billion revolving credit facility.

On March 8, 2012, DIRECTV U.S. issued the following senior notes in private placement transactions:

	<u>Principal</u>	<u>Proceeds, net of discount</u>
	(Dollars in Millions)	
2.400% senior notes due in 2017	\$1,250	\$1,249
3.800% senior notes due in 2022	1,500	1,499
5.150% senior notes due in 2042	<u>1,250</u>	<u>1,248</u>
	<u>\$4,000</u>	<u>\$3,996</u>

We incurred \$25 million of debt issuance costs in connection with this transaction.

On May 15, 2012, DIRECTV U.S. redeemed, pursuant to the terms of its indenture, all of its then outstanding \$1,500 million of 7.625% senior notes due in 2016, at a price of 103.813%, plus accrued and unpaid interest, for a total of \$1,614 million. We recorded a pre-tax charge of \$64 million (\$40 million after tax)

during the second quarter of 2012, of which \$57 million resulted from the premium paid for the redemption and \$7 million resulted from the write-off of deferred debt issuance and other transaction costs. The charge was recorded in "Other, net" in our Consolidated Statements of Operations.

On September 11, 2012, DIRECTV U.S. issued, pursuant to a registration statement, £750 million (\$1,208 million) in aggregate principal of 4.375% senior notes due in 2029 resulting in proceeds, net of an original issue discount, of £742 million (\$1,194 million). The U.S. dollar amounts reflect the conversion of the £750 million aggregate principal and the £742 million proceeds, net of discount, to U.S. dollars based on the exchange rate of £1.00/ \$1.61 at September 11, 2012. In connection with the issuance of these senior notes, DIRECTV U.S. entered into cross-currency swaps to effectively convert its fixed-rate British pound sterling denominated debt, including annual interest payments and the payment of principal at maturity, to fixed-rate U.S. dollar denominated debt, as further discussed in Note 11. We incurred \$9 million of debt issuance costs in connection with this transaction.

On November 27, 2012, DIRECTV U.S. established a \$2.5 billion commercial paper program backed by its revolving credit facilities, as discussed in further detail below. For the year ended December 31, 2012, borrowings under the commercial paper program, net of repayments, were \$358 million.

2011 Financing Transactions

On March 10, 2011, DIRECTV U.S. issued the following senior notes:

	<u>Principal</u>	<u>Proceeds, net of discount</u>
	(Dollars in Millions)	
3.500% senior notes due in 2016	\$1,500	\$1,497
5.000% senior notes due in 2021	1,500	1,493
6.375% senior notes due in 2041	<u>1,000</u>	<u>1,000</u>
	<u>\$4,000</u>	<u>\$3,990</u>

We incurred \$24 million of debt issuance costs in connection with this transaction.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

On March 17, 2011, DIRECTV U.S. purchased, pursuant to a tender offer, \$341 million of its then outstanding \$1,002 million of 6.375% senior notes due in 2015 at a price of 103.313%, plus accrued and unpaid interest, for a total of \$358 million. On June 15, 2011, DIRECTV U.S. redeemed, pursuant to the terms of its indenture, the remaining \$659 million of its outstanding 6.375% senior notes due 2015, at a price of 102.125%, plus accrued and unpaid interest, for a total of \$694 million. The redemption of the 6.375% senior notes resulted in a 2011 pre-tax charge of \$25 million, \$16 million after tax, primarily for the premiums paid. The charge was recorded in "Other, net" in our Consolidated Statements of Operations.

2010 Financing Transactions

On March 11, 2010, DIRECTV U.S. issued the following senior notes:

	<u>Principal</u>	<u>Proceeds, net of discount</u>
	(Dollars in Millions)	
3.550% senior notes due in 2015	\$1,200	\$1,199
5.200% senior notes due in 2020	1,300	1,298
6.350% senior notes due in 2040	500	499
	<u>\$3,000</u>	<u>\$2,996</u>

We incurred \$17 million of debt issuance costs in connection with these transactions.

On March 16, 2010, DIRECTV U.S. repaid the \$985 million of remaining principal on Term Loan C of its senior secured credit facility. The repayment of

Term Loan C resulted in a 2010 pre-tax charge of \$9 million (\$6 million after tax), of which \$6 million resulted from the write-off of unamortized discount and \$3 million resulted from the write-off of deferred debt issuance and other transaction costs. The charge was recorded in "Other, net" in our Consolidated Statements of Operations.

On August 17, 2010, pursuant to a registration statement, DIRECTV U.S. issued the following senior notes:

	<u>Principal</u>	<u>Proceeds, net of discount</u>
	(Dollars in Millions)	
3.125% senior notes due in 2016	\$ 750	\$ 750
4.600% senior notes due in 2021	1,000	999
6.000% senior notes due in 2040	1,250	1,233
	<u>\$3,000</u>	<u>\$2,982</u>

We incurred \$19 million of debt issuance costs in connection with these transactions.

On August 20, 2010, DIRECTV U.S. repaid the \$1,220 million of remaining principal on Term Loans A and B of its senior secured credit facility. The repayment of Term Loans A and B resulted in a 2010 pre-tax charge of \$7 million (\$4 million after tax) resulting from the write-off of deferred debt issuance and other transaction costs. The charge was recorded in "Other, net" in our Consolidated Statements of Operations.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Senior Notes

The following table sets forth our outstanding senior notes balance as of December 31:

	Principal amount	Carrying value, net of unamortized original issue discounts or including premiums	
	2012	2012	2011
	(Dollars in Millions)		
4.750% senior notes due in 2014	\$ 1,000	\$ 999	\$ 999
3.550% senior notes due in 2015	1,200	1,200	1,199
3.125% senior notes due in 2016	750	750	750
3.500% senior notes due in 2016	1,500	1,498	1,498
7.625% senior notes due in 2016	—	—	1,500
2.400% senior notes due in 2017	1,250	1,249	—
5.875% senior notes due in 2019	1,000	995	994
5.200% senior notes due in 2020	1,300	1,298	1,298
4.600% senior notes due in 2021	1,000	999	999
5.000% senior notes due in 2021	1,500	1,495	1,494
3.800% senior notes due in 2022	1,500	1,499	—
4.375% senior notes due in 2029 (1)	1,219	1,206	—
6.350% senior notes due in 2040	500	500	499
6.000% senior notes due in 2040	1,250	1,234	1,234
6.375% senior notes due in 2041	1,000	1,000	1,000
5.150% senior notes due in 2042	1,250	1,248	—
Total senior notes	<u>\$17,219</u>	<u>\$17,170</u>	<u>\$13,464</u>

(1) The amounts for the 4.375% senior notes due in 2029 reflect the remeasurement of £750 million aggregate principal and £742 million carrying value to U.S. dollars based on the exchange rate of £1.00/\$1.63 at December 31, 2012.

The fair value of our senior notes was approximately \$18,598 million at December 31, 2012 and \$14,512 million at December 31, 2011. We calculated the

fair values based on quoted market prices of our senior notes, which is a Level 1 input under the accounting guidance for fair value measurements of assets and liabilities.

All of our senior notes were issued by DIRECTV Holdings LLC and DIRECTV Financing Co., Inc., or the Co-Issuers, and have been registered under the Securities Act of 1933, as amended.

Our senior notes payable mature as follows: \$1,000 million in 2014, \$1,200 million in 2015, \$2,250 million in 2016, \$1,250 million in 2017 and \$11,519 million thereafter. The amount of interest accrued related to our outstanding debt was \$246 million at December 31, 2012 and \$201 million at December 31, 2011.

Collar Loan

On November 19, 2009, The DIRECTV Group, Inc., now a wholly owned subsidiary of DIRECTV, and Liberty Media Corporation completed a series of transactions, which we refer to collectively as the Liberty Transaction. As part of the Liberty Transaction, we assumed a credit facility and related equity collars, which we refer to as the Collar Loan. During the first quarter of 2010, we paid \$1,537 million to repay the remaining principal balance and accrued interest on the credit facility, and to settle the equity collars. As a result, we recorded a gain of \$67 million in "Liberty transaction and related gain" in the Consolidated Statements of Operations in the first quarter of 2010 related to the Collar Loan.

Commercial Paper

On November 27, 2012, DIRECTV U.S. established a commercial paper program backed by its revolving credit facilities, which provides for the issuance of short-term commercial paper in the United States up to a maximum aggregate principal of \$2.5 billion. As of December 31, 2012, we had \$358 million of short-term commercial paper outstanding, with a weighted average maturity of 90 days, at a weighted average yield of 0.54%, which may be refinanced on a periodic basis as borrowings mature. Aggregate amounts outstanding under the revolving credit facilities and commercial paper program are limited to \$2.5 billion.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Revolving Credit Facilities

On September 28, 2012, DIRECTV U.S.' five year, \$2.0 billion revolving credit facility dated February 7, 2011 was terminated and replaced with a three and one-half year, \$1.0 billion revolving credit facility and a five year, \$1.5 billion revolving credit facility. We pay a commitment fee of 0.15% per year for the unused commitment under the revolving credit facilities. Borrowings currently bear interest at a rate equal to the London Interbank Offer Rate (LIBOR) plus 1.25%. Both the commitment fee and the annual interest rate may increase or decrease under certain conditions due to changes in DIRECTV U.S.' long-term, unsecured debt ratings. Under certain conditions, DIRECTV U.S. may increase the borrowing capacity of the revolving credit facilities by an aggregate amount of up to \$500 million. Aggregate amounts outstanding under the revolving credit facilities and the commercial paper program are limited to \$2.5 billion. As of December 31, 2012, there were no borrowings under the new revolving credit facilities.

Borrowings under the revolving credit facilities are unsecured senior obligations of DIRECTV U.S. and will rank equally in right of payment with all of DIRECTV U.S.' existing and future senior debt and will rank senior in right of payment to all of DIRECTV U.S.' future subordinated debt, if any.

Covenants and Restrictions

The revolving credit facilities require DIRECTV U.S. to maintain at the end of each fiscal quarter a specified ratio of indebtedness to earnings before interest, taxes and depreciation and amortization. The revolving credit facilities also include covenants that restrict DIRECTV U.S.' ability to, among other things, (i) incur additional subsidiary indebtedness, (ii) incur liens, (iii) enter into certain transactions with affiliates, (iv) merge or consolidate with another entity, (v) sell, assign, lease or otherwise dispose of all or substantially all of its assets, and (vi) change its lines of business. Additionally, the senior notes contain restrictive covenants that are similar. Should DIRECTV U.S. fail to comply with these covenants, all or a portion of its borrowings under the senior notes could become immediately payable and its revolving credit facilities could be terminated. At December 31, 2012, management believes DIRECTV U.S. was in compliance with all such covenants. The senior notes and revolving credit facilities also provide that

the borrowings may be required to be prepaid if certain change-in-control events, coupled with a ratings decline, occur.

DIRECTV Guarantors. On November 14, 2011, we entered into a series of Supplemental Indentures whereby DIRECTV agreed to fully guarantee all of the senior notes then outstanding, jointly and severally with substantially all of DIRECTV Holdings LLC's domestic subsidiaries. The Supplemental Indentures provide that DIRECTV unconditionally guarantees that the principal and interest on the respective senior notes will be paid in full when due and that the obligations of the Co-Issuers to the holders of the outstanding senior notes will be performed. All of the senior notes issued since November 14, 2011, the revolving credit facilities and the commercial paper program are also similarly fully guaranteed by DIRECTV.

As a result of the guarantees, holders of the senior notes, the revolving credit debt and the commercial paper have the benefit of DIRECTV's interests in the assets and related earnings of our operations that are not held through DIRECTV Holdings LLC and its subsidiaries. Those operations are primarily our DTH digital television services throughout Latin America which are held by DIRECTV Latin America Holdings, Inc. and its subsidiaries, and our regional sports networks which are held by DIRECTV Sports Networks LLC and its subsidiaries. However, the subsidiaries that own and operate the DIRECTV Latin America business and the regional sports networks have not guaranteed the senior notes, the revolving credit facilities and the commercial paper.

The guarantees are unsecured senior obligations of DIRECTV and rank equally in right of payment with all of DIRECTV's existing and future senior debt and rank senior in right of payment to all of DIRECTV's future subordinated debt, if any. The guarantees are effectively subordinated to all existing and future secured obligations, if any, of DIRECTV to the extent of the value of the assets securing the obligations. DIRECTV will not be subject to the covenants contained in each indenture of the senior notes and our guarantees will terminate and be released on the terms set forth in each of the indentures.

Restricted Cash

Restricted cash of \$6 million as of December 31, 2012 and \$30 million as of December 31, 2011 was included as part of "Prepaid expenses and other" in our

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Consolidated Balance Sheets. These amounts secure our letter of credit obligations and restrictions on the cash will be removed as the letters of credit expire.

Note 11: Derivative Financial Instruments

Cross-Currency Swaps

In connection with the issuance of the £750 million of 4.375% senior notes due in 2029 discussed in Note 10, DIRECTV U.S. entered into cross-currency swap agreements to manage the related foreign exchange risk by effectively converting all of the fixed-rate British pound sterling denominated debt, including annual interest payments and the payment of principal at maturity, to fixed-rate U.S. dollar denominated debt. These cross-currency swaps are designated and qualify as cash flow hedges. The terms of the cross-currency swap agreements correspond to the related hedged senior notes and the cross-currency swaps have maturities extending through September 2029.

We record unrealized gains on cross-currency swaps at fair value as assets and unrealized losses on cross-currency swaps at fair value as liabilities. As of December 31, 2012, we recorded the fair value of unrealized losses on cross-currency swaps in the amount of \$17 million in "Other liabilities and deferred credits" in the Consolidated Balance Sheets. We calculated the fair value of the cross-currency swap contracts using an income-approach model (discounted cash flow analysis), the use of which is considered a Level 2 valuation technique, using observable inputs, such as foreign currency exchange rates, swap rates, cross-currency basis swap spreads and incorporating counterparty credit risk. These cross-currency swaps have been designated as cash flow hedges, and accordingly, the effective portion of the unrealized gains and losses on the cross-currency swaps is reported in "Accumulated other comprehensive loss" in the Consolidated Balance

Sheets and reclassified to earnings in the same periods during which the hedged debt affects earnings. The ineffective portion of the unrealized gains and losses on these cross-currency swaps, if any, is recorded immediately in earnings. During the year ended December 31, 2012, DIRECTV U.S. reclassified \$11 million (\$7 million after tax) from "Accumulated other comprehensive loss" in the Consolidated Balance Sheets, into "Other, net" in the Consolidated Statements of Operations, to offset \$11 million of remeasurement loss on the British pound sterling denominated debt. We evaluate the effectiveness of our cross-currency swaps on a quarterly basis. We measured no ineffectiveness for the year ended December 31, 2012.

Collateral Arrangements. We have agreements with our cross-currency swap counterparties that include collateral provisions which require a party with an unrealized loss position in excess of certain thresholds to post cash collateral for the amount in excess of the threshold. The threshold levels in our collateral agreements are based on each party's credit ratings. As of December 31, 2012, neither we nor any of our counterparties were required to post collateral under the terms of the cross-currency swap agreements. We do not offset the fair value of collateral, whether the right to reclaim cash collateral (a receivable) or the obligation to return cash collateral (a payable), against the fair value of the derivative instruments.

Note 12: Income Taxes

We base our income tax expense or benefit on reported "Income before income taxes." Deferred income tax assets and liabilities reflect the impact of temporary differences between the amounts of assets and liabilities recognized for financial reporting purposes and such amounts recognized for tax purposes, as measured by applying currently enacted tax laws.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

“Income tax expense” in the Consolidated Statements of Operations consisted of the following for the years ended December 31:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
	(Dollars in Millions)		
Current tax expense:			
U.S. federal	\$ 980	\$ 631	\$ 391
Foreign	309	253	227
State and local	113	107	20
Total	<u>1,402</u>	<u>991</u>	<u>638</u>
Deferred tax expense (benefit):			
U.S. federal	(25)	284	596
Foreign	63	59	(118)
State and local	25	14	86
Total	<u>63</u>	<u>357</u>	<u>564</u>
Total income tax expense	<u>\$1,465</u>	<u>\$1,348</u>	<u>\$1,202</u>

“Income before income taxes” in the Consolidated Statements of Operations included the following components for the years ended December 31:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
	(Dollars in Millions)		
U.S. income	\$3,442	\$3,044	\$2,809
Foreign income	1,000	940	705
Total	<u>\$4,442</u>	<u>\$3,984</u>	<u>\$3,514</u>

Our income tax expense was different than the amount computed using the U.S. federal statutory income tax rate for the reasons set forth in the following table for the years ended December 31:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
	(Dollars in Millions)		
Expected expense at U.S. federal statutory income tax rate	\$1,555	\$1,394	\$1,230
U.S. state and local income tax expense, net of federal benefit	87	75	106
Liberty Transaction charges not recoverable	1	1	4
Change in unrecognized tax benefits	(154)	40	(40)
Noncontrolling interests in partnership earnings and taxes	—	2	(44)
Foreign taxes, net of federal tax benefits	(3)	(82)	9
Change in valuation allowance	3	(40)	(32)
Multistate tax planning	—	—	(20)
Tax credits	(30)	(47)	(7)
Other	6	5	(4)
Total income tax expense	<u>\$1,465</u>	<u>\$1,348</u>	<u>\$1,202</u>

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Temporary differences and carryforwards that gave rise to deferred tax assets and liabilities at December 31 were as follows:

	2012		2011	
	Deferred Tax Assets	Deferred Tax Liabilities	Deferred Tax Assets	Deferred Tax Liabilities
	(Dollars in Millions)			
Accruals and advances	\$ 466	\$ 273	\$ 418	\$ 268
Prepaid expenses	—	32	—	34
State taxes	74	—	73	—
Depreciation, amortization and asset impairment charges	—	1,406	—	1,155
Net operating loss and tax credit carryforwards	626	—	610	—
Programming contract liabilities	46	—	48	—
Unrealized foreign exchange gains or losses	—	79	—	105
Tax basis differences in investments and affiliates	261	824	91	804
Other	—	—	6	5
Subtotal	1,473	2,614	1,246	2,371
Valuation allowance	(432)	—	(466)	—
Total deferred taxes	<u>\$1,041</u>	<u>\$2,614</u>	<u>\$ 780</u>	<u>\$2,371</u>

Included in “Investments and other assets” in the Consolidated Balance Sheets are \$116 million at December 31, 2012 and \$210 million at December 31, 2011 of noncurrent deferred tax assets. Also included in “Accounts payable and accrued liabilities” in the Consolidated Balance Sheets are \$90 million at December 31, 2012 and \$92 million at December 31, 2011 of current deferred tax liabilities.

We assessed the deferred tax assets for the respective periods for recoverability and, where applicable, we recorded a valuation allowance to reduce the total deferred tax assets to an amount that will, more likely than not, be realized in the future.

The valuation allowance balances of \$432 million at December 31, 2012 and \$466 million at December 31, 2011, are primarily attributable to unused foreign operating losses and unused capital losses, both of which are available for carry forward. For the year ended December 31, 2012, the decrease in the valuation allowance was primarily attributable to a reduction in the deferred tax asset on capital loss carryforwards.

Although realization is not assured, we have concluded that it is more likely than not that our unreserved deferred tax assets will be realized in the ordinary course of operations based on available positive and negative evidence, including scheduling of deferred tax liabilities and projected income from operating activities. The underlying assumptions we use in forecasting future taxable income require significant judgment and take into account our recent performance.

As of December 31, 2012, we have \$17 million of federal net operating loss carryforward which expires between 2027 and 2028. The utilization of the federal net operating loss carryforward is subject to an annual limitation under Section 382 of the Internal Revenue Code, however we believe that we will have sufficient taxable income during the limitation period to utilize all of the carryforward. We also have foreign tax credit carryovers of \$133 million which expire between 2020 and 2022, state net operating loss carryforwards of \$30 million which expire between 2029 and 2030, and approximately \$2 billion of foreign net operating losses that are primarily attributable to operations in Brazil with varying expiration dates.

As a result of the currency exchange process in Venezuela since 2010, exclusive of the payment of some intercompany obligations, we have been unable to repatriate excess cash balances. As of December 31, 2012, the cumulative amount of earnings upon which U.S. income taxes have not been provided is approximately \$536 million. Should these earnings be distributed in the form of dividends, the distributions would be subject to U.S. federal income tax at the statutory rate of 35 percent, less foreign tax credits available to offset such distributions. Because the time or manner of repatriation is uncertain, we cannot determine the impact of local taxes, withholding taxes and foreign tax credits associated with the future repatriation of such earnings and therefore cannot quantify the potential tax liability.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

No income tax provision has been made for the portion of undistributed earnings of foreign subsidiaries, excluding Venezuela, deemed permanently reinvested that amounted to approximately \$11 million in 2012. It is not practicable to determine the amount of the unrecognized deferred tax liability related to the investments in these foreign subsidiaries.

A reconciliation of the beginning and ending balances of the total amounts of gross unrecognized tax benefits is as follows:

	Gross Unrecognized Tax Benefits (Dollars in Millions)
Balance as of January 1, 2010	\$ 527
Increases in tax positions for prior years	7
Decreases in tax positions for prior years	(207)
Increases in tax positions for the current year	<u>35</u>
Balance as of December 31, 2010	362
Increases in tax positions for prior years	17
Decreases in tax positions for prior years	(4)
Increases in tax positions for the current year	<u>15</u>
Balance as of December 31, 2011	390
Decreases in tax positions for prior years	(6)
Increases in tax positions for the current year	35
Expiration of the statute of limitations	<u>(141)</u>
Balance as of December 31, 2012	<u>\$ 278</u>

As of December 31, 2012, our unrecognized tax benefits totaled \$278 million, including \$227 million of tax positions the recognition of which would affect the annual effective income tax rate. The decrease in the unrecognized tax benefits is primarily attributable to the expiration of the statute of limitations in federal and foreign tax jurisdictions.

We recorded interest and penalties accrued related to unrecognized tax benefits of \$12 million in 2012, \$16 million in 2011 and \$21 million in 2010 in “Income tax expense” in the Consolidated Statements of Operations. We have accrued, as part of our liability for unrecognized tax benefits, interest and penalties of \$32 million as of December 31, 2012, and \$67 million as of December 31, 2011.

We file numerous consolidated and separate income tax returns in the U.S. federal jurisdiction and in many state and foreign jurisdictions. For U.S. federal tax purposes, the tax years 2010 and 2011 remain open for examination. The California tax years 2001 through 2011 remain open to examination and the income tax returns in the other state and foreign tax jurisdictions in which we have operations are generally subject to examination for a period of three to five years after filing of the respective return.

We engage in continuous discussions and negotiations with federal, state, and foreign taxing authorities and reevaluate our uncertain tax positions, and, while it is often difficult to predict the final outcome or the timing of resolution of any particular tax matter or tax position, we believe that it is reasonably possible that our unrecognized tax benefits could decrease by up to approximately \$40 million during the next twelve months.

Note 13: Capital Lease Obligations

We include the current and noncurrent portions of the present value of the net minimum lease payments under capital leases for satellites and vehicles in “Accounts payable and accrued liabilities” and “Other liabilities and deferred credits” in the Consolidated Balance Sheets. The following table sets forth the present value of the net minimum lease payments under capital leases for satellites

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

and vehicles as of December 31, 2012, along with total minimum lease payments for the each of the years ending December 31:

	<u>Minimum Lease Payments</u> (Dollars in Millions)
2013	\$ 100
2014	96
2015	90
2016	84
2017	79
Thereafter	<u>289</u>
Total minimum lease payments	738
Less: Amount representing interest	<u>(210)</u>
Present value of net minimum lease payments	<u>\$ 528</u>

Excluded from the table above are future payments under the contract for the lease of the ISDLA-1 and ISDLA-2 satellites currently under construction for DIRECTV Latin America, which we expect to account for as a capital lease at the time the satellites are placed into service. See Note 21 for further discussion.

We include assets held under capitalized leases in “Satellites, net” and “Property and Equipment, net” in our Consolidated Balance Sheets. The following table sets forth assets held under capital leases as of December 31:

	<u>2012</u>	<u>2011</u>
	<u>(Dollars in Millions)</u>	
Satellites under capital leases	\$ 509	\$ 527
Less: Accumulated amortization	<u>(190)</u>	<u>(140)</u>
Satellites, net under capital leases	<u>\$ 319</u>	<u>\$ 387</u>
Property and equipment under capital leases	\$ 129	\$ 104
Less: Accumulated amortization	<u>(47)</u>	<u>(38)</u>
Property and equipment, net under capital leases	<u>\$ 82</u>	<u>\$ 66</u>

We paid interest for capital leases of \$47 million in 2012, \$51 million in 2011 and \$55 million in 2010.

Note 14: Pension and Other Postretirement Benefit Plans

Most of our employees are eligible to participate in our funded non-contributory defined benefit pension plan, which provides defined benefits based on either years of service and final average salary, or eligible compensation while employed by us. Additionally, we maintain a funded contributory defined benefit plan for employees who elected to participate prior to 1991, and an unfunded, nonqualified pension plan for certain eligible employees. For participants in the contributory pension plan, we also maintain a postretirement benefit plan for those retirees eligible to participate in health care and life insurance benefits generally until they reach age 65. Participants may become eligible for these health care and life insurance benefits if they retire from our company between the ages of 55 and 65. The health care plan is contributory with participants’ contributions subject to adjustment annually; the life insurance plan is non-contributory.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

The components of the pension benefit obligation and the other postretirement benefit obligation, including amounts recognized in the Consolidated Balance Sheets, are shown below for the years ended December 31:

	Pension Benefits		Other Postretirement Benefits	
	2012	2011	2012	2011
	(Dollars in Millions)			
Change in Net Benefit Obligation				
Net benefit obligation at beginning of year	\$ 583	\$ 521	\$ 23	\$ 21
Service cost	32	25	1	1
Interest cost	30	29	1	1
Plan participants' contributions	1	1	—	—
Actuarial (gain) loss	91	43	(3)	1
Benefits paid	(37)	(36)	(1)	(1)
Settlements	(36)	—	—	—
Net benefit obligation at end of year	<u>664</u>	<u>583</u>	<u>21</u>	<u>23</u>
Change in Plan Assets				
Fair value of plan assets at beginning of year	448	429	—	—
Actual return on plan assets	49	14	—	—
Employer contributions	70	40	1	1
Plan participants' contributions	1	1	—	—
Benefits paid	(37)	(36)	(1)	(1)
Settlements	(36)	—	—	—
Fair value of plan assets at end of year	<u>495</u>	<u>448</u>	<u>—</u>	<u>—</u>
Funded status at end of year	<u>\$(169)</u>	<u>\$(135)</u>	<u>\$(21)</u>	<u>\$(23)</u>
Amounts recognized in the consolidated balance sheets consist of:				
Accounts payable and accrued liabilities	\$ (6)	\$ (6)	\$ (2)	\$ (2)
Other liabilities and deferred credits	(163)	(129)	(19)	(21)
Deferred tax assets	115	94	—	1
Accumulated other comprehensive loss	184	149	—	2
Amounts recognized in the accumulated other comprehensive loss consist of:				
Unamortized net amount resulting from changes in defined benefit plan experience and actuarial assumptions, net of taxes	182	147	—	2
Unamortized amount resulting from changes in defined benefit plan provisions, net of taxes	2	2	—	—
Total	<u>\$ 184</u>	<u>\$ 149</u>	<u>\$ —</u>	<u>\$ 2</u>

We estimate that the following amounts will be amortized from "Accumulated other comprehensive loss" in the Consolidated Balance Sheets into net periodic benefit cost during the year ending December 31, 2013:

	Pension Benefits
	(Dollars in Millions)
Expense resulting from changes in plan experience and actuarial assumptions	\$27
Expense resulting from changes in plan provisions	1

The accumulated benefit obligation for all pension plans was \$583 million at December 31, 2012 and \$531 million as of December 31, 2011.

Information for pension plans with an accumulated benefit obligation in excess of plan assets as of December 31:

	2012	2011
	(Dollars in Millions)	
Accumulated benefit obligation	\$93	\$531
Fair value of plan assets	—	448

Information for pension plans with a projected benefit obligation in excess of plan assets as of December 31:

	2012	2011
	(Dollars in Millions)	
Projected benefit obligation	\$664	\$583
Fair value of plan assets	495	448

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Components of net periodic benefit cost for the years ended December 31:

	Pension Benefits		2010	Other Postretirement Benefits		2010
	2012	2011		2012	2011	
(Dollars in Millions)						
Components of net periodic benefit cost						
Benefits earned during the year	\$ 32	\$ 25	\$ 19	\$ 1	\$ 1	\$ 1
Interest accrued on benefits earned in prior years	30	29	28	1	1	1
Expected return on plan assets	(34)	(34)	(32)	—	—	—
Amortization components						
Amount resulting from changes in plan provisions	1	1	1	—	—	(1)
Net amount resulting from changes in plan experience and actuarial assumptions	19	14	14	—	—	—
Net periodic benefit cost	<u>\$ 48</u>	<u>\$ 35</u>	<u>\$ 30</u>	<u>\$ 2</u>	<u>\$ 2</u>	<u>\$ 1</u>

Assumptions

Weighted-average assumptions used to determine benefit obligations at December 31:

	Pension Benefits		Other Postretirement Benefits	
	2012	2011	2012	2011
Discount rate—Qualified Plans	3.92%	4.99%	3.47%	4.48%
Discount rate—Non-Qualified Plans	3.91%	4.92%	—	—
Rate of compensation increase	4.00%	4.00%	4.00%	4.00%

Weighted-average assumptions used to determine net periodic benefit cost for the years ended December 31:

	Pension Benefits		2010	Other Postretirement Benefits		2010
	2012	2011		2012	2011	
Discount rate—Qualified Plan	4.99%	5.59%	5.64%	4.48%	4.99%	5.21%
Discount rate—Non-Qualified Plans	4.92%	5.54%	5.63%	—	—	—
Expected long-term return on plan assets	7.75%	8.00%	8.25%	—	—	—
Rate of compensation increase	4.00%	4.00%	4.00%	4.00%	4.00%	4.00%

We base our expected long-term return on plan assets assumption on a periodic review and modeling of the plans' asset allocation and liability structure over a long-term horizon. Expectations of returns for each asset class are the most important of the assumptions used in the review and modeling and are based on the forward looking expectations for asset class returns, historical data and economic/financial market theory.

The following table provides assumed health care costs trend rates:

	2012	2011	2010
Health care cost trend rate	8.00%	8.00%	8.00%
Rate to which the cost trend rate is assumed to decline (ultimate trend rate)	5.00%	5.00%	5.00%
Year that trend rate reaches the ultimate trend rate	2017	2017	2017

Plan Assets

Our investment policy includes various guidelines and procedures designed to ensure we invest assets in a manner necessary to meet expected future benefits earned by participants. The investment guidelines consider a broad range of economic conditions. Central to the policy are target allocation ranges by major asset categories. The policy range for plan assets are 20% to 60% equity securities, 30% to 50% debt securities, 0% to 40% alternatives and other types of investments.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

The fair value measurement of plan assets using significant unobservable inputs (Level 3) changed during 2011 and 2012 due to the following:

	Partnerships and Joint Venture Interests	Hedge Funds	Total
	(Dollars in Millions)		
Balance as of January 1, 2011	\$28	\$—	\$28
Realized losses	(1)	—	(1)
Unrealized gains	5	(3)	2
Purchases and sales	(2)	44	42
Balance as of December 31, 2011	30	41	71
Unrealized gains	1	3	4
Balance as of December 31, 2012	<u>\$31</u>	<u>\$44</u>	<u>\$75</u>

Cash Flows

Contributions

We expect to contribute approximately \$15 million to our qualified pension plans and make payments of \$6 million to our nonqualified pension plan participants in 2013.

Estimated Future Benefit Payments

We expect the following benefit payments, which reflect expected future service, as appropriate, to be paid by the plans during the years ending December 31:

	Estimated Future Benefit Payments	
	Pension Benefits	Other Postretirement Benefits
	(Dollars in Millions)	
2013	\$ 41	\$ 2
2014	41	2
2015	42	2
2016	42	2
2017	41	2
2018-2022	218	10

We maintain 401(k) plans for qualified employees. We match a portion of our employee contributions and our match amounted to \$30 million in 2012, \$28 million in 2011 and \$23 million in 2010.

We have disclosed certain amounts associated with estimated future postretirement benefits other than pensions and characterized such amounts as “other postretirement benefit obligation.” Notwithstanding the recording of such amounts and the use of these terms, we do not admit or otherwise acknowledge that such amounts or existing postretirement benefit plans of our company (other than pensions) represent legally enforceable liabilities of us.

Note 15: Stockholders’ Deficit

Capital Stock and Additional Paid-In Capital

Following completion of the Liberty Transaction in November 2009, DIRECTV had two classes of common stock outstanding: Class A common stock, par value \$0.01 per share, and Class B common stock, par value \$0.01 per share. There have been no Class B shares outstanding since the completion of the Malone Transaction on June 16, 2010, as discussed below. The DIRECTV Class A common stock was entitled to one vote per share and traded on the NASDAQ

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

under the ticker “DTV” until it was reclassified as common stock pursuant to the amendment in August 2012. The DIRECTV Class B common stock was entitled to fifteen votes per common share and was not listed on any stock exchange or automated dealer quotation system.

On August 27, 2012, our certificate of incorporation was amended to reclassify all issued and outstanding shares of Class A common stock and Class B common stock into a single class of common stock. Pursuant to this amendment, our certificate of incorporation provides for the following capital stock: common stock, par value \$0.01 per share, 3,950,000,000 shares authorized, and preferred stock, par value \$0.01 per share, 50,000,000 shares authorized. The DIRECTV common stock is entitled to one vote per share and trades on the NASDAQ, under the ticker “DTV”. As of December 31, 2012, there were no outstanding shares of preferred stock.

Malone Transaction

In April 2010, we entered into an agreement with Dr. John C. Malone and his family, or the Malones, under which they exchanged 21.8 million shares of high-vote Class B common stock, which was all of the outstanding Class B shares, for 26.5 million shares of Class A common stock, resulting in the reduction of the Malones’ voting interest in DIRECTV from approximately 24% to approximately 3% on June 16, 2010. The number of Class A shares issued was determined as follows: one share of Class A common stock for each share of Class B common stock held, plus an additional number of Class A shares with a fair value of \$160 million based on the then current market price of the Class A common stock at the time of the agreement on April 6, 2010. See Note 16 for additional information regarding the Malone Transaction.

Share Repurchase Program

Since 2006 our Board of Directors has approved multiple authorizations for the repurchase of our common stock. As of December 31, 2012, we had

approximately \$1,719 million remaining under the authorization given by the Board of Directors in 2012. In February 2013 our Board of Directors terminated the remaining balance available under the 2012 authorization and authorized up to an additional \$4 billion for repurchases of our common stock. The authorizations allow us to repurchase our common stock from time to time through open market purchases and negotiated transactions, or otherwise. The timing, nature and amount of such transactions will depend on a variety of factors, including market conditions, and the program may be suspended, discontinued or accelerated at any time. The sources of funds for the purchases under the remaining authorizations are our existing cash on hand, cash from operations and potential additional borrowings. Purchases are made in the open market, through block trades and other negotiated transactions. Repurchased shares are retired, but remain authorized for registration and issuance in the future.

The following table sets forth information regarding shares repurchased and retired for the years ended December 31:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
	<u>(Amounts in Millions, Except Per Share Amounts)</u>		
Total cost of repurchased and retired shares	\$5,148	\$5,455	\$5,179
Average price per share	\$48.24	\$45.78	\$38.20
Number of shares repurchased and retired	107	119	136

Of the \$5,455 million in repurchases during the year ended December 31, 2011, \$27 million were paid for in January 2012. Amounts repurchased but settled subsequent to the end of such periods are considered non-cash financing activities and are excluded from the Consolidated Statements of Cash Flows.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Other comprehensive loss . .	<u>(33)</u>	<u>(17)</u>	<u>(32)</u>	<u>(4)</u>	<u>(86)</u>
Balance as of					
December 31, 2012 . . .	<u>\$(184)</u>	<u>\$(17)</u>	<u>\$(40)</u>	<u>\$(1)</u>	<u>\$(242)</u>

Note 16: Earnings Per Common Share

We compute basic earnings per common share, or EPS, by dividing net income by the weighted average number of common shares outstanding for the period.

Diluted EPS considers the effect of common equivalent shares, which consist entirely of common stock options and unvested restricted stock units issued to

employees. During the year ended December 31, 2012, we excluded 1.0 million common stock options from the computation of diluted EPS because the inclusion of the potential common shares would have had an antidilutive effect. We did not exclude any common stock options from the computation of diluted EPS during 2011 or 2010.

Malone Transaction

From January 1, 2010 to June 16, 2010, we allocated “Net income attributable to DIRECTV” in the Consolidated Statements of Operations to the Class A and Class B common stockholders based on the weighted average shares outstanding for each class through the close of the Malone Transaction on June 16, 2010. At the close of the transaction, we exchanged 21.8 million shares of Class B common stock, which represented all of the issued and outstanding Class B common stock, for 26.5 million shares of Class A common stock. We accounted for this exchange of DIRECTV Class B common stock into DIRECTV Class A common stock pursuant to accounting standards for induced conversions, whereby the \$160 million in incremental DIRECTV Class A common stock issued to the former DIRECTV Class B stockholders has been deducted from earnings attributable to DIRECTV Class A stockholders for purposes of calculating earnings per share in the Consolidated Statements of Operations. We included the \$160 million in income attributable to Class B common stockholders. This adjustment had the effect of reducing diluted earnings per DIRECTV Class A common share by \$0.18 for the year ended December 31, 2010. After the close of the Malone Transaction we allocate all net income attributable to DIRECTV to the Class A stockholders. For the years ended December 31, 2012, 2011 and 2010, there were no dilutive securities outstanding for the Class B common stock. See Note 15 for additional information regarding the Malone Transaction.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

The reconciliation of the amounts used in the basic and diluted EPS computation was as follows:

	<u>Income</u>	<u>Shares</u>	<u>Per Share Amounts</u>
	(Dollars and Shares in Millions, Except Per Share Amounts)		
Year Ended December 31, 2012:

Basic and diluted EPS			
Net income attributable to DIRECTV Class B common stockholders, including \$160 million exchange inducement value for the Malone Transaction	<u>\$ 184</u>	<u>22</u>	<u>\$ 8.44</u>

Note 17: Share-Based Compensation

Under the DIRECTV 2010 Stock Plan, or the DIRECTV Plan, as approved by DIRECTV stockholders on June 3, 2010, shares, rights or options to acquire up to 20 million shares of common stock plus the number of shares that were authorized but not granted under former plans and shares granted under those plans which, after June 3, 2010, are forfeited, expire or are canceled without the delivery of shares of common stock or otherwise result in the return of such shares to us, were authorized for grant through June 2, 2020, subject to the approval of the Compensation Committee of our Board of Directors. Under the DIRECTV Plan, we issue new shares of our common stock when restricted stock units are distributed and when stock options are exercised.

The following table presents amounts recorded related to share-based compensation:

	For the Years Ended December 31,		
	2012	2011	2010
	(Dollars in Millions)		
Share-based compensation expense recognized	\$109	\$103	\$82
Tax benefits associated with share-based compensation expense	41	40	31
Actual tax benefits realized for the deduction of share-based compensation expense	60	54	60

As of December 31, 2012, there was \$107 million of total unrecognized compensation expense related to unvested restricted stock units and stock options that we expect to recognize as follows: \$66 million in 2013, \$37 million in 2014 and \$4 million in 2015.

Restricted Stock Units

The Compensation Committee has granted restricted stock units under our stock plan to certain of our employees and executives. Annual awards are mostly performance based, generally vest over three years and provide for final payments in shares of our common stock. Final payment can be increased or decreased from the target award amounts based on our performance over a three-year performance period in comparison with pre-established targets. We determine the fair value of restricted stock units based on the closing stock price of our common shares on the date of grant.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Changes in the status of outstanding restricted stock units were as follows:

	Stock Units	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2012	7,595,892	\$31.35
Granted	2,847,076	41.72
Vested and distributed	(3,122,772)	21.78
Forfeited	<u>(247,450)</u>	40.38
Nonvested at December 31, 2012	<u>7,072,746</u>	\$39.50
Vested and expected to vest at December 31, 2012	<u>6,819,177</u>	\$39.26

The weighted-average grant-date fair value of restricted stock units granted during the year ended December 31, 2011 was \$41.14. The weighted-average grant-date fair value of restricted stock units granted during the year ended December 31, 2010 was \$30.83.

The total fair value of restricted stock units vested and distributed was \$139 million during the year ended December 31, 2012, \$125 million during the year ended December 31, 2011 and \$81 million during the year ended December 31, 2010.

Stock Options

The Compensation Committee has also granted stock options to acquire our common stock under our stock plan to certain of our executives. The exercise price of options granted is equal to the per share closing price of the common stock on the date the options were granted. These nonqualified options generally vest over one to three years, expire ten years from date of grant and are subject to earlier termination under certain conditions.

Changes in the status of outstanding options were as follows:

	Shares Under Option	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in millions)
Outstanding at January 1, 2012	3,364,510	\$23.21		
Granted	995,964	48.18		
Exercised	(1,260,629)	30.62		
Forfeited or expired	<u>(4,000)</u>	16.23		
Outstanding at December 31, 2012	<u>3,095,845</u>	\$28.24	4.6	\$68
Vested and expected to vest at December 31, 2012	<u>3,095,845</u>	\$28.24	4.6	\$68
Exercisable at December 31, 2012	<u>2,196,293</u>	\$19.93	2.5	\$66

The total intrinsic value of options exercised was \$26 million during the year ended December 31, 2012, \$24 million during the year ended December 31, 2011 and \$221 million during the year ended December 31, 2010, based on the intrinsic value of individual awards on the date of exercise.

The following table presents the estimated weighted-average grant-date fair value for the stock options granted during the years ended December 31, 2012 and December 31, 2010 under the DIRECTV Plan using the Black-Scholes valuation model along with the weighted-average assumptions used in the fair value calculations. Expected stock volatility is based primarily on the historical volatility of our common stock. The risk-free rate for periods within the contractual life of

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

the option is based on the U.S. Treasury yield curve in effect at the time of grant. The expected option life is based on historical exercise behavior and other factors.

	<u>2012</u>	<u>2010</u>
Estimated grant-date fair value	\$15.83	\$12.36
Expected stock volatility	29.0%	26.9%
Risk-free interest rate	1.08% - 1.41%	3.35%
Expected option life (in years)	7.0	7.0

There were no stock options granted under the DIRECTV Plan during the year ended December 31, 2011.

As part of the Liberty Transaction on November 19, 2009, we assumed 16.7 million stock options and stock appreciation rights, and issued 1.1 million shares of common stock to holders of restricted stock units. The holders of the majority of the equity instruments assumed as a result of the Liberty Transaction did not become DIRECTV employees or directors. Accordingly, we recognize those equity instruments as a liability that is subject to fair value measurement at each reporting date pursuant to accounting rules for non-employee awards. We include that liability within “Other liabilities and deferred credits” in our Consolidated Balance Sheets. Of the 16.7 million equity instruments assumed, 8.8 million were held by persons other than employees or directors. As of December 31, 2012, 0.4 million non-employee awards remained outstanding with a fair value of approximately \$12 million. As of December 31, 2011, there were 0.6 million non-employee awards outstanding with a fair value of approximately \$15 million. We recorded net losses of \$4 million during the year ended December 31, 2012, \$4 million during the year ended December 31, 2011 and \$11 million during the year ended December 31, 2010 to “Other, net” in the Consolidated Statements of Operations for gains and losses recognized for exercised options and the adjustment of the liability to fair value.

The following table presents the estimated weighted-average fair value as of December 31, 2012, 2011 and 2010 for the equity instruments issued to persons other than employees and directors carried as a liability using the Black-Scholes valuation model along with the weighted-average assumptions used in the fair value

calculations. Expected stock volatility is based primarily on the historical volatility of our common stock. The risk-free rates for periods within the contractual lives of the options are based on the U.S. Treasury yield curve in effect at the measurement date. The expected option life is based on the contractual life of the awards.

	<u>December 31, 2012</u>	<u>December 31, 2011</u>	<u>December 31, 2010</u>
Estimated fair value	\$34.59	\$26.63	\$22.52
Expected stock volatility	22.8%	27.5%	26.5%
Range of risk-free interest rates	0.02 - 0.36%	0.06 - 0.83%	0.07 - 2.01%
Range of expected option lives (in years)	0.2 - 4.4	0.5 - 5.4	0.1 - 6.4

The intrinsic value of awards assumed as part of the Liberty Transaction carried as a liability that were exercised was \$3 million during the year ended December 31, 2012, \$8 million during the year ended December 31, 2011 and \$145 million during the year ended December 31, 2010, based on the intrinsic value of individual awards on the date of exercise.

Beginning in 2009, we implemented a net exercise plan pursuant to which we only issue new shares in connection with employee option exercises equal to the intrinsic value of the exercised award on the exercise date reduced by the sum of (i) the amount of statutory employee withholding taxes and (ii) the option exercise price, divided by the current market price of the our common stock. As a result, we no longer receive cash in connection with the exercise of most stock options, but rather issue significantly fewer shares. We do receive cash for the exercise of certain non-employee stock options. We received cash for the settlement of stock options of \$3 million during the year ended December 31, 2012 and \$38 million during the year ended December 31, 2010, and did not receive any cash for the settlement of stock options during the year ended December 31, 2011. In addition, the company is required to pay the employee withholding taxes to taxing authorities, the cash payments for which are reported in “Taxes paid in lieu of shares issued for share-based compensation” in the Consolidated Statements of Cash Flows.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Note 18: Other Income and Expenses

The following table sets forth the components of “Other, net” in our Consolidated Statements of Operations for the years ended December 31:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
	<u>(Dollars in Millions)</u>		
Equity in earnings from unconsolidated affiliates	\$131	\$109	\$ 90
Net foreign currency transaction gain (loss)	(34)	(50)	11
Fair value adjustment loss on non-employee stock awards . .	(4)	(4)	(11)
Loss on early extinguishment of debt	(64)	(25)	(16)
Gain on sale of investments	122	63	6
Other	<u>(11)</u>	<u>(9)</u>	<u>(11)</u>
Total other, net	<u>\$140</u>	<u>\$ 84</u>	<u>\$ 69</u>

See Note 8 regarding equity method investments and net gains and losses recorded on the sale of investments.

Note 19: Related-Party Transactions

In the ordinary course of our operations, we enter into transactions with related parties as discussed below.

Related parties include Globo, which provides programming and advertising to Sky Brasil, and companies in which we hold equity method investments, including Sky Mexico and GSN.

The majority of payments under contractual arrangements with related parties are pursuant to multi-year programming contracts. Payments under these contracts are typically subject to annual rate increases and are based on the number of subscribers receiving the related programming.

Liberty Media, Liberty Global and Discovery Communications

As discussed above in Note 15, on June 16, 2010, we completed the Malone Transaction, which resulted in the reduction of the Malones’ voting interest in

DIRECTV from approximately 24% to approximately 3% and Dr. Malone’s resignation from our Board of Directors.

Prior to the completion of the Malone Transaction, Dr. Malone was Chairman of the Board of Directors of DIRECTV and of Liberty Media. Dr. Malone also had an approximate 35% voting interest in Liberty Media, an approximate 31% voting interest in Discovery Communications, Inc., or Discovery Communications, an approximate 40% voting interest in Liberty Global Inc., or Liberty Global, and serves as Chairman of Liberty Global, and certain of Liberty Media’s management and directors also serve as directors of Discovery Communications or Liberty Global. As a result of this common ownership and management, transactions with Liberty Media, Discovery Communications and Liberty Global and their subsidiaries or equity method investees were considered to be related party transactions through the completion of the Malone Transaction. Our transactions with Liberty Media, Discovery Communications and Liberty Global consisted primarily of purchases of programming created, owned or distributed by Liberty Media and Discovery Communications and its subsidiaries and investees.

The following table sets forth sales and purchase transactions with related parties for the years ended December 31:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
	<u>(Dollars in Millions)</u>		
Sales:			
Liberty Media and affiliates	\$ —	\$ —	\$ 26
Discovery Communications, Liberty Global and affiliates . .	—	—	5
Globo and other	<u>5</u>	<u>6</u>	<u>13</u>
Total	<u>\$ 5</u>	<u>\$ 6</u>	<u>\$ 44</u>
Purchases:			
Liberty Media and affiliates	\$ —	\$ —	\$143
Discovery Communications, Liberty Global and affiliates . .	—	—	128
Globo and other	<u>874</u>	<u>854</u>	<u>622</u>
Total	<u>\$874</u>	<u>\$854</u>	<u>\$893</u>

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

The following table sets forth the amount of accounts receivable from and accounts payable to related parties as of December 31:

	<u>2012</u>	<u>2011</u>
	(Dollars in Millions)	
Accounts receivable	\$26	\$ 1
Accounts payable	90	96

The accounts receivable balance and accounts payable balances as of December 31, 2012 and December 31, 2011 are primarily related to Globo and companies in which we hold equity method investments.

Note 20: Segment Reporting

Our reportable segments, which are differentiated by their products and services as well as geographic location, are DIRECTV U.S., Sky Brasil and PanAmericana, which are engaged in acquiring, promoting, selling and distributing digital entertainment programming primarily via satellite to residential and commercial subscribers, and the Sports Networks, Eliminations and Other segment, which includes our three regional sports networks that provide programming devoted to local professional sports teams and college sporting events and locally produce their own programming. Sports Networks, Eliminations and Other also includes the corporate office, eliminations and other entities.

The following table sets forth selected information for the results of operations for each of our reporting segments:

	<u>External Revenues</u>	<u>Intersegment Revenues</u>	<u>Total Revenues</u>	<u>Operating Profit (Loss)</u>	<u>Depreciation and Amortization Expense</u>	<u>Operating Profit (Loss) Before Depreciation and Amortization (1)</u>

(1) Operating profit (loss) before depreciation and amortization, which is a financial measure that is not determined in accordance with GAAP can be calculated by adding amounts under the caption "Depreciation and amortization expense" to "Operating profit (loss)." This measure should be used in conjunction with GAAP

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

financial measures and is not presented as an alternative measure of operating results, as determined in accordance with GAAP. Our management and Board of Directors use operating profit (loss) before depreciation and amortization to evaluate the operating performance of our company and our business segments and to allocate resources and capital to business segments. This metric is also used as a measure of performance for incentive compensation purposes and to measure income generated from operations that could be used to fund capital expenditures, service debt or pay taxes. Depreciation and amortization expense primarily represents an allocation to current expense of the cost of historical capital expenditures and for intangible assets resulting from prior business acquisitions. To compensate for the exclusion of depreciation and amortization expense from operating profit, our management and our Board of Directors separately measure and budget for capital expenditures and business acquisitions.

We believe this measure is useful to investors, along with GAAP measures (such as revenues, operating profit and net income), to compare our operating performance to other communications, entertainment and media service providers. We believe that investors use current and projected operating profit (loss) before depreciation and amortization and similar measures to estimate our current or prospective enterprise value and make investment decisions. This metric provides investors with a means to compare operating results exclusive of depreciation and amortization. Our management believes this is useful given the significant variation in depreciation and amortization expense that can result from the timing of capital expenditures, the capitalization of intangible assets, potential variations in expected useful lives when compared to other companies and periodic changes to estimated useful lives.

The following represents a reconciliation of operating profit before depreciation and amortization to reported net income on the Consolidated Statements of Operations:

	<u>Years Ended December 31,</u>

Note 21: Commitments and Contingencies

Commitments

At December 31, 2012, minimum future commitments under noncancelable operating leases having lease terms in excess of one year were primarily for real property and aggregated \$978 million, payable as follows: \$94 million in 2013, \$88 million in 2014, \$86 million in 2015, \$88 million in 2016, \$86 million in 2017 and \$536 million thereafter. Certain of these leases contain escalation clauses and renewal or purchase options, which we have not considered in the amounts disclosed. Rental expenses under operating leases were \$118 million in 2012, \$99 million in 2011 and \$78 million in 2010.

At December 31, 2012, our minimum payments under agreements to purchase broadcast programming, regional professional team rights and the purchase of services that we have outsourced to third parties, such as billing services, and satellite telemetry, tracking and control, satellite launch contracts and broadcast center services aggregated \$7,079 million, payable as follows: \$2,186 million in 2013, \$1,947 million in 2014, \$1,145 million in 2015, \$433 million in 2016, \$375 million in 2017 and \$993 million thereafter.

Satellite Commitments

DIRECTV U.S. has entered into contracts for the construction and launch of two new satellites: D14, which we expect to launch in the first quarter of 2014 and D15, which we expect to launch in the fourth quarter of 2014. D14 and D15 are expected to provide additional HD, replacement, and backup capacity for DIRECTV U.S. Additionally, DIRECTV Latin America has entered into a contract for the lease of two additional satellites for PanAmericana: ISDLA-1, which we expect to launch in the fourth quarter of 2014 and ISDLA-2, which we expect to launch in the fourth quarter of 2015. ISDLA-1 will become the primary satellite for PanAmericana with a substantial increase in channel capacity from the current satellite, and ISDLA-2 is expected to serve as an in-orbit spare for ISDLA-1. As a part of the lease agreement for ISDLA-1 and ISDLA-2, which we expect to account for as a capital lease, we are required to make prepayments prior to the launch of the satellites and commencement of the lease. Prepayments related to this agreement totaled \$128 million for the year ended December 31, 2012 and \$104 million for the year ended December 31, 2011, and are included as "Cash paid for satellites" in the Consolidated Statements of Cash Flows.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Total future cash payments under these agreements aggregate to \$1,281 million, payable as follows: \$286 million in 2013, \$171 million in 2014, \$116 million in 2015, \$50 million in 2016, \$50 million in 2017 and \$608 million thereafter.

Contingencies

Redeemable Noncontrolling Interest

In connection with our acquisition of Sky Brasil in 2006, Globo was granted the right, until January 2014, to require us to purchase all, but not less than all, of its shares in Sky Brasil. Upon exercising this right, the fair value of Sky Brasil shares will be determined by mutual agreement or by an outside valuation expert, and we have the option to elect to pay for the Sky Brasil shares in cash, shares of our common stock or a combination of both. We estimated that Globo's remaining 7% equity interest in Sky Brasil had a fair value of approximately \$400 million as of December 31, 2012 and \$265 million as of December 31, 2011. Adjustments to the carrying amount of the redeemable noncontrolling interest are recorded to additional paid-in-capital. We determined the fair values using significant unobservable inputs, which are Level 3 inputs under accounting guidance for measuring fair value.

Venezuela Devaluation and Foreign Currency Exchange Controls

Companies operating in Venezuela are required to obtain Venezuelan government approval to exchange Venezuelan bolivars into U.S. dollars at the official exchange rate. Our ability to pay U.S. dollar denominated obligations and repatriate cash generated in Venezuela in excess of local operating requirements is limited, resulting in an increase in the cash balance at our Venezuelan subsidiary. At such time that exchange controls are eased, accumulated cash balances may ultimately be repatriated at less than their currently reported value. As of December 31, 2012, our Venezuelan subsidiary had Venezuelan bolivar denominated net monetary assets of \$446 million, including cash of \$563 million, based on the official 4.3 bolivars per U.S. dollar exchange rate at that time.

In February 2013, the Venezuelan government announced a devaluation of the bolivar from the official exchange rate of 4.3 bolivars per U.S. dollar to an official rate of 6.3 bolivars per U.S. dollar. As a result of the devaluation, we will record a

pre-tax charge in "General and administrative expenses" in the Consolidated Statements of Operations of approximately \$160 million in the first quarter of 2013, related to the remeasurement of the bolivar denominated net monetary assets of our Venezuelan subsidiary as of the date of the devaluation. This devaluation did not impact our results of operations, financial position or cash flows for the year ended December 31, 2012, but may affect the growth of our Venezuelan business. There will also be ongoing impacts to our results of operations, primarily related to the translation of local financial statements at the new exchange rate. In the event of an additional devaluation of the bolivar, we will recognize a charge to earnings based on the amount of bolivar denominated net monetary assets held at the time of such devaluation.

Litigation

Litigation is subject to uncertainties and the outcome of individual litigated matters is not predictable with assurance. Various legal actions, claims and proceedings are pending against us arising in the ordinary course of business. We have established loss provisions for matters in which losses are probable and can be reasonably estimated. Some of the matters may involve compensatory, punitive, or treble damage claims, or demands that, if granted, could require us to pay damages or make other expenditures in amounts that could not be estimated at December 31, 2012. After discussion with counsel representing us in those actions, it is the opinion of management that such litigation is not expected to have a material effect on our consolidated financial statements. We expense legal costs as incurred.

Pegasus Development Corporation and Personalized Media Communications L.L.C. In December, 2000, Pegasus Development Corporation and Personalized Media Communications L.L.C. filed suit in the United States District Court for the District of Delaware against DIRECTV, Inc., Hughes Electronics Corporation, Thomson Consumer Electronics, Inc., and Philips Electronics North America Corporation. The suit alleged infringement of certain claims of seven United States patents and sought an injunction and a monetary award including damages for infringement, interest, costs, and attorneys' fees. Trial is presently scheduled for November 2013. The suit now involves claims of four of the seven patents

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

originally asserted, all of which have expired, and the validity and infringement of which are disputed by DIRECTV.

Other Intellectual Property Litigation. We are a defendant in several unrelated lawsuits claiming infringement of various patents relating to various aspects of our businesses. In certain of these cases other industry participants are also defendants, and also in certain of these cases we expect that at least some potential liability would be the responsibility of our equipment vendors pursuant to applicable contractual indemnification provisions. To the extent that the allegations in these lawsuits can be analyzed by us at this stage of their proceedings, we believe the claims are without merit and intend to defend the actions vigorously. We have determined that the likelihood of a material liability in such matters is remote or have made appropriate accruals. The final disposition of these claims is not expected to have a material effect on our consolidated financial position or results of operations. However, if an adverse ruling is made in a lawsuit involving key intellectual property, such ruling could result in a loss that would be material to our consolidated results of operations of any one period. No assurance can be given that any adverse outcome would not be material to our consolidated financial position.

Early Cancellation Fees. In 2008, a number of plaintiffs filed putative class action lawsuits in state and federal courts challenging the early cancellation fees we assess our customers when they do not fulfill their programming commitments. Several of these lawsuits are pending, some in California state court purporting to represent statewide classes, and some in federal courts purporting to represent nationwide classes. The lawsuits seek both monetary and injunctive relief. While the theories of liability vary, the lawsuits generally challenge these fees under state consumer protection laws as both unfair and inadequately disclosed to customers. Our motions to compel arbitration have been granted in all of the federal cases, except as to claims seeking injunctive relief under California statutes. The denial of our motion as to those claims is currently on appeal. We believe that our early cancellation fees are adequately disclosed, and represent reasonable estimates of the costs we incur when customers cancel service before fulfilling their programming commitments.

ECAD. Sky Brasil, along with other video distributors in Brazil, is disputing charges assessed by Escritorio Central de Arrecadação, or ECAD, the organization

responsible for collecting performance rights fees under Brazilian law. Sky Brasil has been withholding payments to ECAD since 2004, and has accrued amounts we and Sky Brasil believe are adequate to satisfy amounts owed to ECAD. In order to continue its opposition to ECAD's claims, Sky Brasil has provided letters of credit in the amount of approximately \$103 million. Sky Brasil's dispute with ECAD is currently pending in the Superior Justice Tribunal, and there are other claims by the Brazilian pay television association, known as ABTA, against ECAD before the Brazilian antitrust board, or CADE, which may affect ECAD or the rights fees it is attempting to collect.

Waste Disposal Inquiry. On August 20, 2012, DIRECTV U.S. received from the State of California subpoenas and interrogatories related to our generation, handling, recordkeeping, transportation and disposal of hazardous waste, including universal waste, in the State of California, and the training of employees regarding the same. The investigation is jointly conducted by the Office of the Attorney General and the District Attorney for Alameda County and appears to be part of a broader effort to investigate waste handling and disposal processes of a number of industries. We are diligently reviewing our policies and procedures applicable to all facilities and cooperating with the investigation. As this inquiry is in its early stages, we are currently unable to reasonably estimate the outcome of this matter.

From time to time, we receive investigative inquiries or subpoenas from state and federal authorities with respect to alleged violations of state and federal statutes. These inquiries may lead to legal proceedings in some cases. DIRECTV U.S. has received a request for information from the Federal Trade Commission, or FTC, on advertising and sales practices similar to those resolved in 2010 with a multistate group of state attorneys general. We are cooperating with the FTC by providing information about our sales and marketing practices and customer complaints.

Income Tax Matters

We have received tax assessments from certain foreign jurisdictions and have agreed to indemnify previously divested businesses for certain tax assessments relating to periods prior to their respective divestitures. These assessments are in various stages of the administrative process or litigation. While the outcome of these assessments and other tax issues cannot be predicted with certainty, we believe

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

that the ultimate outcome will not have a material effect on our consolidated financial position and result of operations.

Satellites

We may purchase in-orbit and launch insurance to mitigate the potential financial impact of satellite launch and in-orbit failures if the premium costs are considered economic relative to the risk of satellite failure. The insurance generally covers the unamortized book value of covered satellites. We do not insure against lost revenues in the event of a total or partial loss of the capacity of a satellite. We generally rely on in-orbit spare satellites and excess transponder capacity at key

orbital slots to mitigate the impact a satellite failure could have on our ability to provide service. At December 31, 2012, the net book value of in-orbit satellites was \$1,664 million all of which was uninsured.

Other

We are contingently liable under standby letters of credit and bonds in the aggregate amount of \$167 million at December 31, 2012 primarily related to a judicial deposit in Brazil for the ECAD matter discussed above, and insurance deductibles.

DIRECTV

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Note 22: Selected Quarterly Data (Unaudited)

The following table presents unaudited selected quarterly data for the years presented:

	<u>1st</u>	<u>2nd</u>	<u>3rd</u>	<u>4th</u>
	(Dollars in Millions, Except Per Share Amounts)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS—(continued)

Note 23: Subsequent Events

2013 Financing Transactions

On January 10, 2013, DIRECTV U.S. issued, pursuant to a registration statement, \$750 million in aggregate principal of 1.750% senior notes due in 2018 with proceeds, net of an original issue discount, of \$743 million. We incurred \$4 million of debt issuance costs in connection with this transaction.

Venezuela Currency Devaluation

In February 2013, the Venezuelan government announced a devaluation of the Venezuelan bolivar, which will result in a pre-tax charge in "General and administrative expenses" in the Consolidated Statements of Operations of approximately \$160 million in the first quarter of 2013. See Note 21 for additional information regarding the Venezuelan devaluation and foreign currency exchange controls.

Note 24: Condensed Consolidating Financial Statements

As discussed above in Note 10, on November 14, 2011, DIRECTV provided a guarantee of all the outstanding senior notes of DIRECTV Holdings LLC and DIRECTV Financing Co., Inc., or the Co-issuers.

The following condensed consolidating financial statements of DIRECTV and subsidiaries have been prepared pursuant to rules regarding the preparation of consolidating financial statements of Regulation S-X. For the periods prior to November 14, 2011, the condensed consolidating financial statements have been prepared as if the guarantee had been in place during that period.

These condensed consolidating financial statements present the condensed consolidating statements of operations, condensed consolidating statements of comprehensive income and condensed consolidating statements of cash flows for the years ended December 31, 2012, 2011 and 2010, and the condensed consolidating balance sheets as of December 31, 2012 and December 31, 2011.

The condensed consolidating financial statements are comprised of DIRECTV, or the Parent Guarantor, its indirect wholly owned subsidiaries, DIRECTV Holdings, DIRECTV Financing and each of DIRECTV Holdings' material subsidiaries (other than DIRECTV Financing), or the Guarantor Subsidiaries, as well as other subsidiaries who are not guarantors of the senior notes, or the Non-Guarantor Subsidiaries, and the eliminations necessary to present DIRECTV's financial statements on a consolidated basis. The Non-Guarantor Subsidiaries consist primarily of DIRECTV's direct-to-home digital television services throughout Latin America which are held by DIRECTV Latin America Holdings, Inc. and its subsidiaries and DIRECTV Sports Networks LLC and its subsidiaries which are comprised primarily of three regional sports networks.

The accompanying condensed consolidating financial statements are presented based on the equity method of accounting for all periods presented. Under this method, investments in subsidiaries are recorded at cost and adjusted for the subsidiaries' cumulative results of operations, capital contributions and distributions, and other changes in equity. Elimination entries include consolidating and eliminating entries for investments in subsidiaries, intercompany activity and balances, and income taxes.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We carried out an evaluation as of the end of the year covered by this Annual Report on Form 10-K under the supervision and with the participation of management, including our principal executive officers and financial officers, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act). Based on the evaluation, our principal executive officers and our financial officers concluded that our disclosure controls and procedures were effective as of December 31, 2012.

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our fiscal quarter ended December 31, 2012, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Internal Control Over Financial Reporting

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934. Those rules define internal control over financial reporting as a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of

financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America, or GAAP, and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2012. In making this assessment, our management used the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on their assessment and those criteria, management believes that, as of December 31, 2012, our internal control over financial reporting is effective.

DIRECTV

Our independent registered public accounting firm has issued an audit report on internal control over financial reporting, which appears below.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of DIRECTV
El Segundo, California

We have audited the internal control over financial reporting of DIRECTV and subsidiaries (the "Company") as of December 31, 2012, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2012 of the Company and our report dated February 20, 2013 expressed an unqualified opinion on those financial statements and financial statement schedule.

CERTIFICATION

I, Michael D. White, certify that:

1. I have reviewed this Annual Report on Form 10-K of DIRECTV;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15d(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

DIRECTV

Comparative Performance

The following graph compares our five-year cumulative return to stockholders against: (a) the Standard and Poor's 500 Composite Stock Price Index, or the S&P 500 Index and (b) an industry peer group.

The comparison assumes \$100 investment in DIRECTV, the S&P 500 Index and an industry peer group on December 31, 2006, and reflects dividend reinvestment and annual weighting of the industry peer group by individual company market capitalization. Although the industry peer group is comprised of companies that were selected because of similar industry characteristics, they are not entirely representative of our business.

Specifically, the industry peer group is comprised of companies we have identified for our Compensation Committee to aid in their evaluation of DIRECTV's executive compensation: Cablevision Systems Corporation, CBS Corporation, CenturyLink, Charter Communications, Comcast Corporation, Discovery Communications, Inc., DISH Network Corp., Gannett Company, Liberty Global, Inc, News Corporation, Sprint Nextel Corp., Time Warner Cable, Inc., Time Warner, Inc., Viacom Inc., and Walt Disney Co.

The following table sets forth our five-year cumulative return along with the S&P 500 Index and the industry peer group.

Non-GAAP Financial Measure Reconciliation Schedules (Unaudited)

Operating profit before depreciation and amortization, or OPBDA, which is a financial measure that is not determined in accordance with accounting principles generally accepted in the United States of America, or GAAP, should be used in conjunction with other GAAP financial measures and is not presented as an alternative measure of operating results, as determined in accordance with GAAP. Please see the DIRECTV Annual Report on Form 10-K for the year ended December 31, 2012 for further discussion of operating profit before depreciation and amortization.
