PART I

Item 1. BUSINESS

General Description

CKX Lands, Inc. is a Louisiana corporation organized in 1930 as Calcasieu Real Estate & Oil Co., Inc., to receive non-producing mineral royalties spun off by a Southwest Louisiana bank. Over the years, as some of the royalties yielded oil and gas income, the Company used the proceeds to purchase land. On May 17, 2005, the Company changed its name from Calcasieu Real Estate & Oil Co., Inc. to CKX Lands, Inc. The primary reason for the change was to help clarify that the Company is not directly involved in oil and gas exploration or operations. As used herein, the "Company" or "CKX" refers to CKX Lands, Inc.

The Company's shares are listed on the NYSE MKT (previously known as NYSE AMEX), under the symbol CKX. As of March 21, 2013, there were 1,942,495 shares outstanding. The Company had a common equity public float of less than \$75 million as of the last business day of the second fiscal quarter. Consequently, the Company is a small reporting company under the Securities Exchange Commission regulations.

As a reporting company, CKX is subject to the informational requirements of the Securities Exchange Act of 1934 (the "Exchange Act") and accordingly files its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other information with the Securities and Exchange Commission (the "SEC"). The public may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, DC 20549. Please call the SEC at (800) SEC-0330 for further information on the Public Reference Room. As an electronic filer, CKX's public filings are maintained on the SEC's Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

The Company owns land and mineral interests and collects income through its ownership in the form of oil and gas royalties, agriculture rentals and timber sales. The Company is not involved in the exploration or production of oil and gas nor does it actively farm its lands or manage its timber. These activities are performed by others for royalties and management fees

CKX owns a 100% interest in 5,743 acres, 16.667% undivided interest in 35,575 acres, 40% undivided interest in 1,579 acres and 50% undivided interest in 443 acres resulting in an ownership of approximately 12,525 net acres.

CKX does not perform or cause to have performed oil and gas producing activities inasmuch as: (1) we do not search for crude oil or natural gas in their natural states; (2) we do not acquire property for the purpose of exploration or the removing of oil and gas; and (3) we are not involved in construction, drilling and/or production activities necessary to retrieve oil and gas.

Oil and gas royalties are paid by the operators who own the wells. Timber income is paid by the highest bidder of the timber. There are several mills in the immediate area that compete for timber. All of the agriculture income comes from tenants who pay annual cash rents. The prices paid for oil, gas, timber and agriculture rentals depend on national and international market conditions. Oil and gas revenues were 86.35% of the Company's total revenues in 2012 and 90.80% in 2011.

The source of all raw materials for the Company is the land itself. All oil and gas income will eventually deplete, but we have no access to this depletion information. Timber income and agriculture income are renewable resources.

The Company does not spend any money on Research and Development.

The Company does not need government approval of its principal products or services except that the State of Louisiana must approve the size & location of all oil and gas producing units.

Employees

The Company has four employees, all of whom are part-time. There are three officers, and one clerical person. The Company is subject to no union contracts nor does the Company have any hospitalization, pension, profit sharing, option or deferred compensation programs.

Customers

The Company's customers are those who have mineral leases on the Company's property or purchase the timber in competitive bids or execute farming and other surface leases. The largest customers are the oil and gas operators under the mineral leases. During 2012, the Company received approximately 48.50% of its total revenues from Gulfmark Energy, 9.06% from Swift Energy Operating LLC, and 6.01% from Riceland Petroleum Company. Termination of cash receipts from any of these customers or underlying production would have a material adverse effect on the Company.

Environmental and Other Governmental Regulations

The operators of the wells are responsible for complying with environmental and other governmental regulations. However, should an operator abandon a well located on Company land without following prescribed procedure, the land owners could possibly be held responsible. The Company does not believe this would have a material effect on its financial condition.

Item 2. PROPERTIES

The Company owns a total of 12,525 net acres in the Louisiana Parishes of Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis, LaFourche, Sabine, St. Landry and Vermilion. Most of the acreage is in Southwest Louisiana. Much of this land is owned in indivision. Ownership is as follows:

		<u>2012</u>
100.000%	Ownership of 5,743 acres	5,743 acres
40.000%	Ownership of 1,579 acres	632 acres
50.000%	Ownership of 443 acres	221 acres
16.667%	Ownership of 35,575 acres	5,929 acres

Of the total 12,525 net acres owned by CKX, timberland comprises 9,137 acres, 2,251 acres are agricultural land, 943 acres are marsh land and 194 acres are future subdivision land.

The table below shows, for the years ended December 31, 2012 and December 31, 2011, the Company's net gas produced in thousands of cubic feet (MCF), net oil produced in barrels (Bbl), and average sales prices relating to oil and gas attributable to the royalty interests of the Company as reported by the various producers.

	Year Ended <u>12/31/12</u>	Year Ended <u>12/31/11</u>
Net gas produced (MCF)	92,791	63,725
Average gas sales price (per MCF) ⁽¹⁾	\$2.84	\$5.08
Net oil produced (Bbl) ⁽²⁾	19,585	10,909
Average oil sales price (per Bbl) ^(1,2)	\$105.51	\$104.73

Notes to above schedule:

⁽¹⁾ Before deduction of severance taxes and other charges.

⁽²⁾ Excludes plant products.

Item 3. LEGAL PROCEEDINGS

The Company was not involved in any legal proceedings as of December 31, 2012.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of security holders during the three months ended December 31, 2012.

PART II

Item 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Company's Common Stock is traded on the NYSE MKT (previously known as NYSE AMEX) under the trading symbol CKX since its listing on December 8, 2003. Prior to the listing there was no established public trading market for the Common Stock, and there had been only limited and sporadic trading in the Common Stock, principally among its shareholders. On March 21, 2013, there were approximately 520 stockholders of record. The Company believes that there are approximately 570 beneficial owners of its Common Stock. There were no sales of unregistered securities of the Company and no purchases of equity securities of the Company during 2012 by the Company. The following table sets forth the high and low sales prices for the Common Stock by quarter during 2012 and 2011.

		<u>First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>
Common stock price per share 2012	high	13.58	14.96	19.35	14.30
	low	10.95	11.69	13.57	12.49
Common stock price per share 2011	high	13.60	22.77	13.39	13.30
	low	11.52	10.75	10.53	10.25

The Company has paid cash dividends since 1990. The Company is currently paying a quarterly dividend of 7¢ per share and intends to maintain quarterly dividends. From time to time, the Company may elect to pay an extra dividend. In determining if an extra dividend will be declared, the Board of Directors will take into consideration the Company's current liquidity and capital resources and the availability of suitable timberland that has mineral potential. The Company did not pay an extra dividend to shareholders in 2012 or 2011. A summary of cash dividends is set forth in the table below.

	<u>First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>	<u>Year Total</u>
Cash Dividend per Share					
2012	\$0.07	0.07	0.07	0.07	0.28
2011	\$0.07	0.07	0.07	0.07	0.28

Pursuant to a dividend reversion clause in the Company's Articles of Incorporation, dividends not claimed within one year after a dividend becomes payable will expire and revert in full ownership to the Company and the Company's obligation to pay such dividend will cease. During 2012 and 2011, the Company received \$8,113 and \$13,375, respectively, in dividend reversions.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

CKX Lands, Inc. began operations in 1930 under the name Calcasieu Real Estate & Oil Co., Inc. It was originally organized as a spin-off by a bank operating in Southwest Louisiana. The purpose of the spin-off was to form an entity to hold non-producing minerals which regulatory authorities required the bank to charge off. Over the years, as some of the mineral interests began producing, the Company used part of the proceeds to acquire land. In 1990, the Company made its largest acquisition when it was one of four purchasers who bought a fifty percent undivided interest in approximately 35,575 acres in Southwest Louisiana.

Today most of the Company's income is derived from mineral production on the land acquired over the years. CKX receives income from seismic permits, mineral leases and royalty interest in any oil and gas production, agriculture rents, and timber sales. Although CKX is active in the management of its land, CKX is passive in the production of these incomes in that CKX does not explore for oil and gas, operate wells, farm land, or plant and/or harvest timber. All these income producing activities are performed by unrelated third parties.

The Company's oil and gas income fluctuates as new oil and gas production is discovered on Company land and then ultimately depletes or becomes commercially uneconomical to produce.

CKX has small royalty interests in 39 different oil and gas fields. The size of each royalty interest is determined by the Company's net ownership in the acreage unit for the well. CKX's royalty interests range from 0.0033% for the smallest to 7.62% for the largest. As the Company does not own or operate the wells, it does not have access to any reserve information.

Eventually, the oil and gas under the Company's current land holdings will be depleted. The Company is constantly looking for additional land to be purchased in southwest Louisiana. Preferably, the Company searches for timberland that has mineral potential.

Results of Operations

Fiscal Year 2012 Compared to Fiscal Year 2011

Total revenues for 2012 were \$3,262,987, an increase of 64.39% when compared with 2011 revenues of \$1,984,914. Total revenue consists of oil and gas, agriculture and timber revenues.

Oil and gas revenues were 86.35% and 90.80% of total revenues for 2012 and 2011, respectively. Oil and gas revenues consist of royalty revenue, lease rentals and geophysical revenue. During 2012 these revenues changed from 2011 as follows:

	<u>2012</u>	<u>2011</u>	<u>\$ Change</u>	<u>% Change</u>
Royalty	\$2,558,605	\$1,538,006	\$1,020,599	66.36%
Lease Rental	203,828	253,102	(49,274)	(19.47%)
Geophysical	<u>55,173</u>	<u>11,097</u>	<u>44,076</u>	397.19%
Total	<u>\$2,817,606</u>	<u>\$1,802,205</u>	<u>\$1,015,401</u>	56.34%

During 2012, royalty revenues from gas production increased approximately 29,066 MCF, and the average gas sales price per MCF decreased by approximately \$2.24 resulting in a decrease in gas revenue of \$60,040. Revenue from oil production, including plants, increased by \$1,080,639. This increase was due to the net effect of an increase of 0.74% in the average barrel sales price, not including plants, and an increase in production of approximately 8,676 barrels, not including plants, and an increase in plants revenue of \$156,761.

The following three fields produced 56.76% of the Company's oil and gas revenues in 2012. The following table shows the number of barrels of oil (Bbl Oil) and MCF of gas (MCF Gas) produced from these fields.

Field	Bbl Oil	MCF Gas
Cowards Gully	6,715	43,202
South Bear Head Creek	5,681	8,817
South Jennings	975	19,990

Notes to above schedule:

- (1) Before deduction of severance taxes and other charges.
- (2) Excludes plant products.

In 2011, the following five fields produced 57.42% of the Company's oil and gas revenues. The following table shows the number of barrels of oil (Bbl Oil) and MCF of gas (MCF Gas) produced from these fields.

Field	Bbl Oil	MCF Gas
West Gordon	2,620	1,535
South Bear Head Creek	2,376	7,357
South Jennings	1,138	18,131
South Gordon	986	1,347
South Lake Charles	880	8,630

Notes to above schedule:

- (1) Before deduction of severance taxes and other charges.
- (2) Excludes plant products.

From review of the limited information provided by the field operators, it appears an additional field went into production, and in existing fields, either wells were reworked or recompleted.

In 2012, the Company was a lessor in 2 new mineral leases covering a total of 289 gross acres. The Company's net acres leased in 2012 were 48 acres. The new leased acres are located in two different Parishes.

During 2012, the Company saw no significant change in leasing or geophysical activity as compared to 2011. Due to the current environment of the oil and gas industry, we expect this activity to remain flat.

Timber income was flat compared to 2011. Although the revenue was flat as compared to 2011, the amount of revenue remains low to historical volumes due to the depressed lumber market. The Company does perform its internal maintenance programs for age class timber and storm protection measures and thus the Company sells a fluctuating minimal timber volume each year regardless of market conditions.

Agriculture income increase by \$262,943 from 2011. Agriculture income includes income from farm leases, right of way grant, hunting leases and other surface leases. This increase was due to a pipeline right of way grant executed during 2012 and is not recurring revenue.

Outlook for Fiscal Year 2013

The Company continues to actively search for lands that meet our criteria of timberland with mineral potential. During 2012, the Company noted an increase in the available timberland for sale at reasonable fair values. We believe that the current national economy condition, primarily a slowdown in construction, has caused the increase and we look for 2013 to provide us with continued opportunities to purchase land. In January 2012, the Company sold 80 acres and in September 2012, the Company purchased 100 acres.

Currently, there are 15 non-producing mineral leases covering approximately 1,785 gross acres, or 521 net acres. The Company believes that some of these leases will be drilled and production discovered as oil and gas prices are projected to increase as the national economy improves.

The Company expects timber prices to remain depressed in 2013 due to a continued weak housing market. We do expect timber revenue to remain flat as we perform our maintenance programs during 2013.

In that the Company can not predict new large right of way leases and is unaware of any changing trends in our agriculture operations, we expect agriculture income to return to 2011 levels.

Liquidity and Capital Resources

The Company's current assets and securities available-for-sale totaled \$6,573,551 and total liabilities equaled \$222,692 at December 31, 2012. Additional sources of liquidity include the Company's certificates of deposits and an available bank line of credit for \$1,000,000.

In the opinion of management, current cash flow from operations, cash and cash equivalents, investments and the available line of credit are adequate for projected operation, possible land purchases and continuation of the regular cash dividend.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The most significant accounting estimates inherent in the preparation of our financial statements include the following items:

Our accounts receivable consist of incomes received after year end for royalties produced prior to year end. When there are royalties that have not been received at the time of the preparation of the financial statements for months in the prior year, we estimate the amount to be received based on the last month's royalties that were received from that particular company. We do not maintain an allowance for doubtful accounts because other than the accrual for earned but not received royalties, we have no accounts receivable..

The Company accounts for income taxes in accordance with ASC Topic 740, Income Taxes, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of assets and liabilities.

When land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. Reforestation costs are capitalized and added to the timber asset account. The timber asset is depleted when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract.

Forward Looking Statements

Certain matters contained in this report are forward-looking statements including, without limitation, the information contained under the heading "Outlook for Fiscal Year 2013" in Item 7 of this report. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control and difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this report. Unless legally required, the Company undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Additional information may be obtained by reviewing the information set forth below under "Significant Risk Factors" and information contained in the Company's reports periodically with the SEC.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Significant Risk Factors

The Company's business and operations are subject to certain risks and uncertainties, including:

Reliance upon Oil and Gas Discoveries

The Company's most significant risk is its reliance upon others to perform exploration and development for oil and gas on its land. Future income is dependent on others finding new production on the Company's land to replace present production as it is depleted. Oil and gas prices as well as new technology will affect the possibility of new discoveries.

Commodity Prices

All of the Company's operating income comes from the sale of commodities produced from its real estate: oil and gas, forest products, and agriculture products. Fluctuations in these commodity prices will directly impact net income. In 2012, average gas prices paid to the Company were 44.06% lower than the average in 2011, and average oil prices, excluding plants, were higher in 2012 than in 2011, by 0.74%. If the average oil and gas prices in 2012 reverted to the 2011 averages, income before income tax would have increased by approximately 5.29%.

Interest Rate Risks

The Company has no direct exposure to changes in foreign currency exchange rates and minimal direct exposure to interest rates. The Company has an unsecured line of credit with Chase at their prime rate, but the Company hasn't utilized this line and has no current plans to do so.

Item 8. FINANCIAL STATEMENTS

All financial statements required by this item are listed in the Table of Contents to Financial Statements appearing immediately after the signature page of this Form 10-K and are included herein by reference.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of December 31, 2012, an evaluation was performed under the supervision and with the participation of the Company's management, including the principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the principal executive officer and principal financial officer, concluded that the Company's disclosure controls and procedures were effective as of December 31, 2012.

Management's Annual Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting ("ICFR") for the Company. In assessing the Company's ICFR, management follows the Committee of Sponsoring Organizations of the Treadway Commission's ("COSO") Internal Control over Financial Reporting – Guidance for Smaller Public Companies Integrated Framework (2006) in assessing the effectiveness of the Company's ICFR. Management shall determine ICFR ineffective if a material weakness exists in the controls.

In the fourth quarter of 2012, the Company withdrew from the Walker Louisiana Properties joint venture ("WLP") which is operated by the owners of certain land consisting of 35,575 acres of which CKX is a 1/6 undivided owner. WLP will continue to provide property management services to the Company but on a third party relationship basis. As a result of this withdrawal, the Company's management implemented certain processes to remediate the ICFR related to this portion of the Company's activities which had been assessed as ineffective prior to the fourth quarter of 2012.

Management has assessed the Company's ICFR as effective as of December 31, 2012.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

During the quarter ending December 31, 2012, the Company's Management followed the COSO Internal Control over Financial Reporting – Guidance for Smaller Public Companies Integrated Framework (2006) when assessing the ICFR. During the quarter ending December 31, 2012 and other than the changes discussed above, there have been no changes in the Company's internal control over financial reporting that has materially affected or is reasonably likely to affect, the Company's internal control over financial reporting.

Item 9B. OTHER INFORMATION

None.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
CKX Lands, Inc.
Lake Charles, Louisiana

We have audited the accompanying balance sheets of CKX Lands, Inc. as of December 31, 2012 and 2011, and the related statements of income and comprehensive income, stockholders' equity and cash flows for each of the years in the two year period ended December 31, 2012. CKX Lands, Inc.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CKX Lands, Inc. as of December 31, 2012 and 2011, and the results of its operations and its cash flows for each of the years in the two year period ended December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

CKX Lands, Inc.
Notes to Financial Statements

Note 1. Nature of Business and Significant Accounting Policies

Nature of business:

The Company's business is the ownership and management of land. The primary activities consist of leasing its properties for minerals (oil and gas) and agriculture and raising timber.

Significant accounting policies:

Pervasiveness of estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash equivalents:

Cash equivalents are highly liquid debt instruments with original maturities of three months or less when purchased.

Certificate of deposits:

Certificates of deposit have maturities greater than three months when purchased, in amounts not greater than \$250,000 and no more than one certificate issued per financial institution. All certificates of deposit are held until maturity and recorded at amortized cost which approximates fair value. Certificates of deposit mature through 2013.

Investment securities:

In accordance with GAAP, management must make a determination at the time of acquisition whether certain investments in debt and equity securities are classified as trading, available-for-sale or held-to-maturity securities. Under a policy adopted by the board of directors of the Company, Management intends to purchase available-for-sale securities and has determined that all securities held are available-for-sale.

For investments classified as available-for-sale, all such debt securities and equity securities that have readily determinable fair value shall be measured at fair value in the balance sheet. Unrealized holding gains and losses for securities available-for-sale shall be excluded from earnings and reported as a net amount (net of income taxes) and as a separate component of retained earnings until realized. Realized gains and losses on securities available-for-sale are included in income. The cost of securities sold is based on the specific identification method.

Declines in the fair value of securities available-for-sale below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Interest on debt securities is recognized in income as earned. Dividends on marketable equity securities are recognized in income when declared.

CKX Lands, Inc.
Notes to Financial Statements (continued)

Property and equipment:

Property and equipment is stated at cost. Major additions are capitalized; maintenance and repairs are charged to income currently. Depreciation is computed on the straight-line and accelerated methods over the estimated useful lives of the assets.

Timber:

When timber land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. Reforestation costs are capitalized. The timber asset is depleted when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract.

Oil and gas:

Oil and gas income is booked when the Company is notified by the well's operator as to the Company's share of the revenue proceeds together with the withheld severance taxes. The Company has no capitalized costs relating to oil and gas producing activities and no costs for property acquisition, exploration and development activities.

Net Income and Dividends Paid per common stock:

Net income and dividends paid per common stock are based on the weighted average number of common stock shares outstanding during the period.

Dividends

Pursuant to a dividend reversion clause in the Company's Articles of Incorporation, dividends not claimed within one year after the dividend became payable will expire and revert in full ownership to the Company and the Company's obligation to pay such dividend will cease.

Income taxes:

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

In accordance with generally accepted accounting principles, the Company has analyzed its filing positions in federal and state income tax returns for the tax years ending December 31, 2009 through 2011 that remain subject to examination. The Company believes that all filing positions are highly certain and that all income tax filing positions and deductions would be sustained upon a taxing jurisdiction's audit. Therefore, no reserve for uncertain tax positions is required. No interest or penalties have been levied against the Company and none are anticipated.

Note 2. Securities Available-for-Sale

Debt and equity securities have been classified in the balance sheet according to management's intent in the noncurrent asset sections under the heading "securities available-for-sale". The carrying amount of securities and their approximate fair values at December 31, 2012 and 2011 follow:

	Gross Amortized <u>Cost</u>	Unrealized <u>Gains</u>	Unrealized <u>Losses</u>	<u>Fair Value</u>
At December 31, 2012				
Equity securities	-	-	-	-
Mutual Funds	\$ -	-	-	-
	\$ -	-	-	-
At December 31, 2011				
Equity securities	-	-	-	-
Mutual Funds	\$ -	-	-	-
	\$ -	-	-	-

Gross realized gains and gross realized losses on sales of securities available-for-sale for the year ended December 31, 2012 and 2011 are presented below.

	<u>Realized Gains</u>	<u>Realized Losses</u>	<u>Net Gains (Losses)</u>
December 31, 2012			
Equity securities	\$ --	--	--
Mutual Funds	\$ --	--	--
December 31, 2011			
Equity securities	\$ --	--	--
Mutual Funds	\$ <u>10,831</u>	<u>143</u>	<u>10,688</u>

During the years ended December 31, 2012 and 2011, there were no available-for-sale securities with gross unrealized losses.

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

The Company has the intent and ability to retain its investments for a period of time sufficient to allow for anticipated recovery of fair value.

CKX Lands, Inc.
Notes to Financial Statements (continued)

Note 3. Oil and Gas Leases

Results of oil and gas leasing activities for the year ending December 31, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
Gross revenues		
Royalty interests	\$2,558,605	\$1,537,876
Working interests	--	129
Seismic and Lease Fees	<u>259,001</u>	<u>264,200</u>
	2,817,606	1,802,205
Production costs	<u>219,224</u>	<u>138,801</u>
Results before income tax expense	2,598,382	1,663,404
Estimated income tax expense (40%)	<u>1,039,353</u>	<u>665,362</u>
Results of operations from producing activities excluding corporate overhead	<u>\$ 1,559,029</u>	<u>\$ 998,042</u>

There were no major costs, with the exception of severance taxes, incurred in connection the Company's oil and gas leasing activities, which are located entirely within the United States, during the years ended December 31, 2012 and 2011.

Reserve quantities (unaudited):

Reserve information relating to estimated quantities of the Company's interest in proved reserves of natural gas and crude including condensate and natural gas liquids is not available. Such reserves are located entirely within the United States. A schedule indicating such reserve quantities is, therefore, not presented. All oil and gas royalties come from Company owned properties that were developed and produced by producers under lease agreements.

Company's royalty and working interests share of oil and gas, exclusive of plant products, produced from leased properties:

	<u>2012</u>	<u>2011</u>
Net gas produced (MCF)	92,470	70,105
Net oil produced (Bbl)	19,543	9,801

Note 4. Land Sale:

During the first quarter of 2012, the Company sold 80 acres of land for \$160,000 and reported a gain of \$124,000. At March 31, 2012, this transaction was structured as a "deferred exchange using a qualified intermediary" pursuant to Paragraph 1031 of the Internal Revenue Code (1031 Exchange) for income tax purposes and as such the gain of \$124,000 was deferred for income tax purposes. During July, 2012, the Company determined that it would not be able to complete the 1031 Exchange and the \$159,000 held by the intermediary was returned to the Company. At June 30, 2012, the Company recorded the \$124,000 gain as current for income tax purposes.

Note 5. Deepwater Horizon Settlement

In the fourth quarter of 2012, the Company prepared and filed a Business Economic Loss claim under the Deepwater Horizon Settlement claim framework which generally requires a Company to meet certain revenue patterns and if the required revenue patterns are met, then calculate a compensation amount based on a court approved Economic and Property Damages Settlement Agreement (See www.deepwaterhorizonsettlements.com for agreements and details). The total claim, including claimant accounting supporting reimbursement of \$11,250, was \$808,865. Under separate contingent fee

CKX Lands, Inc.
Notes to Financial Statements (continued)

arrangements with an attorney and an accountant for the filing and preparation of the claim, fees of \$80,887 and \$40,443, respectively, were paid and the net claim amount received by the Company was \$687,535.

The attorney is the spouse of the accountant and the accountant is the Company's Treasurer and Chief Financial Officer. The Board of Directors was advised by the President of the employment of the attorney and accountant for the filing and preparation of the claim.

Note 6. Income Taxes

The Company files federal and state income tax returns on a calendar year basis.

The net deferred tax liability in the accompanying balance sheets includes the following components at December 31, 2012 and 2011:

	<u>2012</u>		<u>2011</u>	
	<u>Current</u>	<u>Non-Current</u>	<u>Current</u>	<u>Non-Current</u>

	<u>\$ --</u>	<u>\$ (181,818)</u>	<u>\$2,753</u>	<u>\$ (181,818)</u>

Reconciliations between the United States Federal statutory income tax provision, using the statutory rate of 34%, and the Company's provision for income taxes at December 31, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
<u>Income tax on income before extraordinary item:</u>		
Tax at statutory rates	\$900,944	\$468,082
Tax effect of the following:

CKX Lands, Inc.
Notes to Financial Statements

Deferred income taxes result from timing differences in the recognition of revenue and expenses for tax and financial statement purposes. The effect of these timing differences at December 31, 2012 and 2011 is as follows:

	<u>2012</u>		<u>2011</u>	
	<u>Current</u>	<u>Non-Current</u>	<u>Current</u>	<u>Non-Current</u>

There are no intersegment sales reported in the accompanying income statements. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates performance based on income or loss from operations before income taxes excluding nonrecurring gains and losses on securities held available-for-sale. Income before income tax represents net revenues less costs and expenses less other income and expenses of a general corporate nature. Identifiable assets by segment are those assets used solely in the Company's operations within that segment.

Revenue from four customers of the Company's oil and gas segment represented approximately \$1,324,000, \$286,000, \$216,000, and \$179,000, respectively, of the Company's 2012 total revenue. In 2011, five oil and gas segment customers represented approximately \$301,000, \$279,000, \$228,000, \$117,000, and \$110,000 respectively, of the Company's total revenue.

Note 8. Line of Credit

The Company has available an unsecured line of credit in the amount of \$1,000,000. The balance on this line of credit was \$-0- at December 31, 2012 and 2011.

Note 9. Supplementary Income Statement Information

Taxes, other than income taxes, of \$290,542 and \$199,911, were charged to expense during 2012 and 2011, respectively.

Note 10. Contingencies:

There are no material contingencies known to management. The Company does not participate in off balance sheet arrangements.

Note 11. Concentration of Credit Risk

The Company maintains its cash balances in one financial institution. The amount on deposit in the financial institution is insured by the Federal Deposit Insurance Corporation up to \$250,000.

Note 12. Subsequent Events

On March 21, 2013, the Company's Board of Directors declared a dividend of seven cents (\$0.07) per common share to shareholders of record April 4, 2013 and payment date of April 18, 2013.

Note 13. Disclosures About Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it was practical to estimate that value:

<u>Class</u>	<u>Methods and/or Assumptions</u>
Cash and cash equivalents:	Carrying value approximates fair value due to its readily convertible characteristic.
Certificate of Deposit:	Held until maturity and recorded at amortized cost.
Securities available-for-sale	Valued at fair value which equals quoted market price.

The estimated fair value of the Company's financial instruments at December 31, 2012 and 2011 are as follows.

(Presented in thousands)	<u>2012</u>		<u>2011</u>	
	<u>Carrying</u> <u>Value</u>	<u>Fair Value</u>	<u>Carrying</u> <u>Value</u>	<u>Fair Value</u>
