OUR BUSINESS

Newell Rubbermaid Inc., an S&P 500 company, is a global marketer of consumer and commercial products with 2012 sales of approximately \$5.9 billion and a strong portfolio of leading brands, including Rubbermaid®, Sharpie®, Graco®, Calphalon®, Irwin®, Lenox®, Levolor®, Paper Mate®, Dymo®, Waterman®, Parker®, Goody®, Rubbermaid Commercial Products® and Aprica®.

TO OUR

SHAREHOLDERS:

In 2012, Newell Rubbermaid delivered solid results while simultaneously driving significant change as we deployed the first stage of the Growth Game Plan strategy into action. Our demonstrated ability to deliver results while undertaking change gives us the confidence to now accelerate the pace of our transformation — as we strive to build our Company into a larger, faster-growing, more global, more profitable Newell Rubbermaid.

Michael B. Polk
President and Chief Executive Officer

Please refer to the Reconciliation of Non-GAAP Financial Measures on page 110 for a reconciliation to the most directly comparable GAAP financial measure.

A STRONG YEAR IN A TOUGH ENVIRONMENT

Our Company delivered sequential improvement in performance in 2012 on every key performance metric, despite sluggish macro environments in North America and Europe. Core sales grew 2.2 percent, 40 basis points faster than in 2011, normalized earnings increased 6.9 percent to \$1.70 per share, normalized operating income margin increased 10 basis points, and operating cash flow increased 10.2 percent to \$618.5 million.

Our strong cash flow enabled us to further strengthen our balance sheet and reduce leverage — exiting 2012 with the strongest credit metrics in close to five years. Equally as important, we returned value to our shareholders through significant dividend increases and our repurchase of 4.9 million shares of NWL stock.

DELIVERING RESULTS WHILE SIMULTANEOUSLY DRIVING CHANGE

During the year, our Company delivered a number of noteworthy market successes. For the fourth consecutive year, our Tools business grew core sales in excess of 5 percent, generating 7 percent growth in 2012 (with almost half of the total growth in markets outside of the United States). Our Writing segment launched Paper Mate® InkJoy®, fueling both category and share growth in markets across the globe and delivered core sales growth of over 3 percent, with markets outside the United States delivering

almost half of the growth. In addition, our Baby & Parenting segment began to reap the benefits of new product innovation and a more strategic approach to customer partnerships, growing core sales nearly 10 percent with excellent margin improvement.

Core growth in emerging markets reached nearly 12 percent in 2012, with growth in Latin America of approximately 15 percent. Growth in the developed world was mixed, with good growth in the United States and Japan offset by declines in Western Europe and Australia/New Zealand.

Beyond our solid market performance, we simultaneously drove change. We launched the Growth Game Plan, our new strategy that focuses on sharper portfolio choices and strengthening capabilities with the ambition to make Newell Rubbermaid a larger, faster-growing, more global, more profitable company. We successfully executed the first phase of Project Renewal, taking the steps to simplify our organizational structure. We are on track to capture \$90 million to \$100 million of cumulative annualized cost savings from this initiative by our mid-2013 target, on time and in full.

We implemented a new SAP enterprise resource planning system in Europe which will provide us better clarity into our cost structure in that geography. We also deployed a new selling structure across our U.S. business with the creation of our Customer Development Organization, a new sales structure that better leverages our scale with key customers and in key channels, elevating our selling activities from merely transactional to strategic.

We announced the expansion of Project Renewal, a major sequential step to drive the Growth Game Plan into action with five new cost work streams, including Organization Simplification, EMEA Transformation, Best Cost Finance, Best Cost Back Office and Global Supply Chain. By mid-2015, we expect the expansion of Project Renewal to generate an additional \$180 million to \$225 million in cumulative annualized savings. These savings will be redeployed into programs to strengthen brand-building and selling capabilities in our Win Bigger businesses and geographies.

DRIVING THE GROWTH GAME PLAN INTO ACTION

With solid momentum and our increasing confidence across much of the portfolio, in late 2012 we announced a major initiative designed to accelerate the pace of transformation and more boldly drive the Growth Game Plan into action. The centerpiece of this announcement was a change in our operating model that aligned our structure with our strategy while also reducing the complexity of our organization. We reorganized the Company around the first two pillars of the Growth Game Plan: our brand and category development activities (Development); and our market execution activities (Delivery).

The realignment resulted in the consolidation of our nine global business units into six business segments and the elimination of the Consumer and Professional groups. This big simplification step not only heightens visibility into the business, but will strengthen the quality and impact of our big brand ideas and enable resources to be allocated against the ideas and businesses with the greatest right to win — ensuring Newell Rubbermaid is nimble and responsive in what is a dynamic marketplace.

Coincident with these changes, we strengthened our executive leadership team with key new appointments from both within and outside the Company. Every member of this newly assembled team is a recognized leader in her or his respective field, and they significantly strengthen the four key functional capabilities of Customer Development, Supply Chain, Design and R&D, and Marketing. Combined, the new Newell Rubbermaid executive team brings decades of experience to our shared vision of building a better company, and we began 2013 with this team in place, running at full speed.

Our executive leadership team is led by Chief Development Officer Mark Tarchetti (right), leader of our Development pillar; Chief Operating Officer Bill Burke (center), who heads our Delivery pillar; and Chief Financial Officer Doug Martin.

BUILDING CONFIDENCE AND OPTIMISM

I see more potential in our business today than I ever imagined upon joining Newell Rubbermaid in 2011. Our confidence is building across the business, and we have a growing sense of clarity that we can accelerate performance by driving the Growth Game Plan into action. I could not be more confident in our ability to achieve our ambition to build Newell Rubbermaid into a larger, faster-growing, more global, more profitable company. The opportunity to unlock our upside is energizing for me and my team and a compelling opportunity for our shareholders.

On behalf of all my colleagues at Newell Rubbermaid, thank you for your support throughout 2012.

Best,

A handwritten signature in black ink, appearing to read 'M. Polk', written in a cursive style.

BUSINESS SEGMENTS

COMMERCIAL PRODUCTS

Our Commercial Products business segment provides solutions that enhance productivity and performance worldwide. Rubbermaid Commercial Products provides commercial and institutional solutions that increase productivity in the maintenance, waste handling and away-from-home washroom categories. Rubbermaid Healthcare increases nurses' capacity to care by better enabling electronic medical recordkeeping and delivering innovation to medical carts, wall cabinets and wall arms.

TOOLS

From construction sites to steel yards, from wood shops to industrial facilities, our Tools business segment helps get the job done. Lenox® and Irwin® tool brands provide industrial cutting, hand tools and power tool accessories that perform better and last longer. Our new Hilmar™ brand is committed to bringing innovative products to the HVAC/Refrigeration category. Dymo® Industrial labeling helps create a lasting professional finish to industrial and commercial installations.

WRITING

As the global leader in writing products, Newell Rubbermaid's Writing business segment comprises such powerful brands as Sharpie®, Paper Mate®, Prismacolor®, Expo®, Parker® and Waterman®. These brands deliver superior performance, design and innovation to consumers of all ages around the world every day.

HOME SOLUTIONS

Comprising some of the company's most iconic brands, our Home Solutions business segment helps meet consumer needs every day with trusted products from Rubbermaid®, Calphalon®, Levolor® and Goody®. Our home and food storage solutions, premium cookware, window treatments and hair styling accessories deliver superior innovation, design and performance.

BABY & PARENTING

With the most trusted brands in the category, including Graco®, Aprica® and Teutonia®, our Baby & Parenting business segment represents the highest commitment to quality, comfort and safety, offering consumers an expansive line of infant and juvenile products. Our Baby & Parenting brands deliver innovation that truly matters to parents worldwide.

SPECIALTY

The technology and hardware brands of our Specialty business segment offer unique solutions to consumers at home and at work. Dymo provides businesses and consumers innovative ways to manage and organize information, while Endicia offers online mailing solutions to small businesses. Shur-Line and Bulldog products bring innovation to do-it-yourself home improvement projects.

PART I

ITEM 1. BUSINESS

“Newell Rubbermaid” or the “Company” refers to Newell Rubbermaid Inc. alone or with its wholly owned subsidiaries, as the context requires. When this report uses the words “we” or “our,” it refers to the Company and its subsidiaries unless the context otherwise requires.

Website Access to Securities and Exchange Commission Reports

The Company’s Internet website can be found at www.newellrubbermaid.com. The Company makes available free of charge on or through its website its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 as soon as practicable after the Company files them with, or furnishes them to, the Securities and Exchange Commission.

GENERAL

Newell Rubbermaid is a global marketer of consumer and commercial products that help people flourish every day, where they live, learn, work and play. The Company’s products are marketed under a strong portfolio of leading brands, including Rubbermaid[®], Levolor[®], Goody[®], Calphalon[®], Sharpie[®], Paper Mate[®], Parker[®], Waterman[®], Irwin[®], Lenox[®], Graco[®], Aprica[®] and Dymo[®].

On January 1, 2012, the Company, as part of Project Renewal, implemented changes to its organizational structure that resulted in the consolidation of the Company’s three operating groups into two and the consolidation of its 13 global business units (“GBUs”) into nine. One of the two operating groups was consumer-facing (“Newell Consumer”), while the other was commercial-facing (“Newell Professional”). In addition, while not an operating group, the Baby & Parenting GBU was treated as a stand-alone operating segment.

In October 2012, the Company committed to an expansion of Project Renewal, designed to further simplify and align the business around two key activities – Brand & Category Development and Market Execution & Delivery. As part of the expanded program, the Company’s Consumer and Professional groups were eliminated and the Company’s nine GBUs were streamlined into six business segments. The six business segments and the key brands included in each of the six business segments are as follows:

- **Home Solutions:** Rubbermaid[®], Calphalon[®], Levolor[®], Kirsch[®] and Goody[®]
- **Writing:** Sharpie[®], Paper Mate[®], Expo[®], Prismacolor[®], Parker[®] and Waterman[®]
- **Tools:** Irwin[®] and Lenox[®] tools and Dymo[®] Industrial
- **Commercial Products:** Rubbermaid Commercial Products[®] and Rubbermaid[®] Healthcare
- **Baby & Parenting:** Graco[®], Aprica[®] and Teutonia[®]
- **Specialty:** Bulldog[®], Ashland[™], Shur-Line[®], Dymo[®] Office, Endicia[®] and Mimio[®]

The actions taken by the Company in 2012 are intended to simplify the organization and free up resources to invest in growth initiatives and strengthened capabilities. These changes are considered key enablers to building a bigger, faster-growing, more global and more profitable Newell Rubbermaid.

Refer to the forward-looking statements section of Management’s Discussion and Analysis of Financial Condition and Results of Operations for a discussion of the Company’s forward-looking statements included in this report.

STRATEGIC INITIATIVES

Newell Rubbermaid’s vision is to become a global company of Brands That Matter[™] and great people, known for best-in-class results. The Company is committed to building consumer-meaningful brands through understanding the needs of consumers and using those insights to create innovative, highly differentiated product solutions that offer superior performance and value.

The transformation that began several years ago building Brands That Matter[™] and insight-driven innovations that win in the marketplace has created a solid foundation. The Company now has a stronger and more tightly focused portfolio of leading brands with a margin structure that allows for brand investment. The Company has devised its new Growth Game Plan, which is the strategy the Company is implementing to fulfill its ambition to build a bigger, faster-growing, more global and more profitable company.

The Growth Game Plan encompasses the following aspects:

Business Model

- A brand-led business with a strong home in the United States and global ambition.
- Consumer brands that win at the point of decision through excellence in performance, design and innovation.
- Professional brands that win the loyalty of the chooser by improving the productivity and performance of the user.
- Collaboration with our partners across the total enterprise in a shared commitment to growth and creating value.
- Delivering competitive returns to shareholders through consistent, sustainable and profitable growth.

Where To Play

- Win Bigger — Deploying resources to businesses and regions with higher growth opportunities through investments in innovation and geographic expansion.
- Win Where We Are — Optimizing the performance of businesses and brands in existing markets by investing in innovation to increase market share and reducing structural spend within the existing geographic footprint.
- Incubate For Growth — Investing in businesses that have unique opportunities for growth, with a primary focus on businesses that are in the early stages of the business cycle.

5 Ways To Win

- Make The Brands Really Matter — Sharpening brand strategies on the highest impact growth levers and partnering to win with customers and suppliers.
- Build An Execution Powerhouse — Realigning the customer development organization and developing joint business plans for new channel penetration and broader distribution.
- Unlock Trapped Capacity For Growth — Delivering savings from ongoing restructuring projects, working capital reductions and simplification of business processes.
- Develop The Team For Growth — Driving a performance culture aligned to the business strategy and building a more global perspective and talent base.
- Extend Beyond Our Borders — Accelerating investments and growth in emerging markets.

During 2012, the Company executed against the delivery phase of the Growth Game Plan. In this phase, the Company implemented structural changes in the organization while ensuring consistent execution and delivery. The Company expects 2013 to be a transition year from the delivery phase to the strategic phase. In the strategic phase, the Company expects to expand investment behind its Win Bigger businesses to drive accelerated growth.

In 2013, the Company will continue implementing changes to drive the Growth Game Plan into action. These changes are the foundation of the expansion of Project Renewal and are organized into the following five workstreams:

- Organizational Simplification: The Company has de-layered its top structure by eliminating the two groups (Newell Consumer and Newell Professional) and further consolidating its businesses from nine GBUs to six business segments.
- EMEA Simplification: The Company will focus its resources on fewer products and countries, while simplifying go-to-market, delivery and back office support structures.
- Best Cost Finance: The Company will deliver a simplified approach to decision support, transaction processing and information management by leveraging SAP and the streamlined business segments to align resources with the Growth Game Plan.
- Best Cost Back Office: The Company will drive “One Newell Rubbermaid” efficiencies in customer and consumer services and sourcing functions.
- Supply Chain Footprint: The Company will further optimize manufacturing and distribution facilities across its global supply chain.

In implementing the tenets of its strategy and its change agenda, the Company is focused on Every Day Great Execution, or EDGE, to capitalize on and maximize the benefits of investment and growth opportunities and to optimize the cost structure of the business.

BUSINESS SEGMENTS

The Company's segments reflect the Company's focus on building large consumer and professional brands and leveraging its understanding of similar markets and distribution channels. The Company's six segments and the key brands included in each of the six business segments are as follows:

Segment	Key Brands	Description of Primary Products
Home Solutions	Rubbermaid [®] , Calphalon [®] Levolor [®] , Goody [®]	Indoor/outdoor organization, food storage and home storage products; gourmet cookware, bakeware, cutlery and small kitchen electrics; drapery hardware and window treatments; hair care accessories
Writing	Sharpie [®] , Paper Mate [®] , Expo [®] , Parker [®] , Waterman [®]	Writing instruments, including markers and highlighters, pens and pencils; art products; fine writing instruments
Tools	Irwin [®] , Lenox [®] , Dymo [®] Industrial	Hand tools and power tool accessories; industrial bandsaw blades; cutting tools for pipes and HVAC systems; label makers and printers for industrial use
Commercial Products	Rubbermaid [®] Commercial Products, Rubbermaid [®] Healthcare	Cleaning and refuse products, hygiene systems, material handling solutions; medical and computer carts and wall-mounted workstations
Baby & Parenting	Graco [®] , Aprica [®]	Infant and juvenile products such as car seats, strollers, highchairs and playards
Specialty	Bulldog [®] , Shur-line [®] , Dymo [®] , Endicia [®] , Mimio [®]	Convenience and window hardware; manual paint applicators; office technology solutions such as label makers and printers, on-line postage and interactive teaching solutions

Home Solutions

The Company's Home Solutions segment designs, manufactures or sources and distributes a wide range of consumer products under multiple brand names, primarily targeting the female head of household. Indoor/outdoor organization products and food and home storage products are primarily sold under the Rubbermaid[®], Roughneck[®] and TakeAlongs[®] trademarks. Aluminum and stainless steel cookware, bakeware, cutlery, small kitchen electrics, and kitchen gadgets and utensils are primarily sold under the Calphalon[®], Kitchen Essentials[®], Cooking with Calphalon[™], Calphalon[®]Unison[™] and Katana[™] trademarks. Window treatments, drapery hardware and cabinet hardware are primarily sold under the Levolor[®], Kirsch[®] and Amerock[®] trademarks. Hair care accessories and grooming products are marketed primarily under the Goody[®] and Solano[®] trademarks.

The Home Solutions segment primarily markets its products directly to mass merchants and specialty, grocery/drug and department stores.

Writing

The Company's Writing segment designs, manufactures or sources and distributes writing instruments, primarily for use in business and the home. The segment's product offerings include markers, highlighters, art and office organization products, and everyday and fine writing instruments and accessories. Permanent/waterbase markers, dry erase markers, highlighters and art supplies are primarily sold under the Sharpie[®], Expo[®], Sharpie[®] Accent[®], Eberhard Faber[®], Berol[®] and Prismacolor[®] trademarks. Ballpoint pens and inks, roller ball pens, mechanical pencils and correction supplies are primarily sold under the Paper Mate[®], InkJoy[®], Uni-Ball[®] (used under exclusive license from Mitsubishi Pencil Co. Ltd. and its subsidiaries in North America and certain areas in Latin America), Sharpie[®], Eberhard Faber[®], Berol[®], Reynolds[®] and Liquid Paper[®] trademarks. Fine writing instruments are primarily sold under the Parker[®], Waterman[®] and Rotring[®] trademarks.

The Writing segment generally markets its products directly to mass merchants, warehouse clubs, grocery/drug stores, office superstores, office supply stores, contract stationers, travel retail and other retailers.

Tools

The Company's Tools segment designs, manufactures or sources and distributes hand tools and power tool accessories, industrial bandsaw blades, cutting tools for pipes and HVAC systems, and industrial labeling solutions. Hand tools and power tool accessories are primarily sold under the Irwin[®], Vise-Grip[®], Marathon[®], Quick-Grip[®], Unibit[®] and Strait-Line[®] trademarks, while industrial bandsaw blades and cutting and drilling accessories are sold under the Lenox[®] trademark. Industrial label makers are sold under the Dymo[®] trademark.

The Tools segment primarily markets its products through distributors and directly to mass merchants, home centers, industrial/construction outlets and other professional customers.

Commercial Products

The Company's Commercial Products segment designs, manufactures or sources and distributes cleaning and refuse products, hygiene systems, material handling solutions and medical and computer carts. Rubbermaid Commercial Products primarily sells its cleaning and refuse products, hygiene systems, material handling solutions and medical and computer carts and wall-mounted workstations under the trademarks Rubbermaid® and Brute®.

The Commercial Products segment primarily markets its products through distributors and directly to mass merchants, home centers, commercial products distributors, select contract customers and other professional customers.

Baby & Parenting

The Company's Baby & Parenting segment designs and distributes infant and juvenile products such as swings, highchairs, car seats, strollers and playards, and primarily sells its products under the trademarks Graco®, Aprica® and Teutonia®. The Baby & Parenting segment sources substantially all of its products.

The Baby & Parenting segment primarily markets its products directly to mass merchants and department stores.

Specialty

The Company's Specialty segment designs, manufactures or sources and distributes products that include convenience and window hardware, manual paint applicators, label makers and printers, on-line postage, and interactive teaching solutions. Hardware and paint applicator products are primarily sold under the Bulldog®, Ashland™ and Shur-Line® trademarks. Labeling and other technology products include on-demand labeling products, online postage and interactive teaching solutions and are primarily sold under the trademarks Dymo®, Endicia® and Mimio®.

The Specialty segment primarily markets its products through distributors and directly to mass merchants, home centers, industrial/construction outlets, and other professional customers.

NET SALES BY BUSINESS SEGMENT

The following table sets forth the amounts and percentages of the Company's net sales for 2012, 2011 and 2010 (*in millions, except percentages*) (including sales of acquired businesses from the time of acquisition) for the Company's six business segments.

	2012	% of Total	2011	% of Total	2010	% of Total
Home Solutions	\$ 1,644.0	27.8%	\$ 1,710.2	29.2%	\$ 1,678.0	29.6%
Writing	1,416.2	23.9%	1,399.3	23.9%	1,355.8	23.9%
Tools	806.1	13.7%	779.6	13.3%	687.6	12.2%
Commercial Products	759.7	12.9%	741.5	12.6%	683.1	12.1%
Baby & Parenting	736.1	12.5%	680.4	11.6%	700.2	12.4%
Specialty	540.6	9.2%	553.6	9.4%	553.5	9.8%
Total Company	\$ 5,902.7	100.0%	\$ 5,864.6	100.0%	\$ 5,658.2	100.0%

Sales to Wal-Mart Stores, Inc. and subsidiaries, which includes Sam's Club, amounted to approximately 10.8%, 11.0% and 11.9% of consolidated net sales for 2012, 2011 and 2010, respectively, substantially across all segments. For more detailed segment information, including operating income and identifiable assets by segment, refer to Footnote 19 of the Notes to Consolidated Financial Statements.

OTHER INFORMATION

Multi-Product Offering

The Company's broad product offering in multiple categories permits it to more effectively meet the needs of its customers. With families of leading brand names and profitable and innovative new products, the Company can assist volume purchasers in selling a more profitable product mix. As a potential single source for an entire product line, the Company can use program merchandising

to improve product presentation, optimize display space for both sales and income, and encourage impulse buying by retail consumers.

Customer Marketing and Service

The Company strives to develop long-term, mutually beneficial partnerships with its customers and to be their supplier and brand of choice. To achieve this goal, the Company has a value-added marketing program that offers a family of leading brand name consumer products, tailored sales programs, innovative merchandising support, in-store services and responsive top management.

The Company strives to enhance its relationships with customers through exceptional customer service. The Company's ability to provide superior customer service is a result of its supply chain, information technology, and marketing and merchandising programs that are designed to enhance the sales and profitability of its customers and provide consistent on-time delivery of its products.

A critical element of the Company's customer service is consistent on-time delivery of products to its customers. Retailers are pursuing a number of strategies to deliver the highest-quality, best-cost products to their customers. Retailers frequently purchase on a "just-in-time" basis in order to reduce inventory carrying costs and increase returns on investment. As retailers shorten their lead times for orders, manufacturers and suppliers need to more closely anticipate consumer buying patterns. The Company supports its retail customers' "just-in-time" inventory strategies through more responsive manufacturing and distribution capabilities and electronic communications.

Foreign Operations

Information regarding the Company's 2012, 2011 and 2010 foreign operations and financial information by geographic area is included in Footnote 19 of the Notes to Consolidated Financial Statements and is incorporated by reference herein. Information regarding risks relating to the Company's foreign operations is set forth in Part I, Item 1A, of this report and is incorporated by reference herein.

The Company began accounting for its Venezuelan operations using highly inflationary accounting in January 2010. Under highly inflationary accounting, the Company remeasures assets, liabilities, sales and expenses denominated in Bolivar Fuertes into U.S. Dollars using the applicable exchange rate, and the resulting translation adjustments are included in earnings. In June 2010, the Venezuelan government introduced a newly regulated foreign currency exchange system, Transaction System for Foreign Currency Denominated Securities ("SITME"). Foreign currency exchange through SITME is allowed within a specified band of 4.5 to 5.3 Bolivar Fuerte to U.S. Dollar, but most of the exchanges have been executed at the rate of 5.3 Bolivar Fuerte to U.S. Dollar. The Company began applying the SITME rate of 5.3 Bolivar Fuerte to U.S. Dollar in May 2010. The transition to the SITME rate resulted in a foreign exchange gain of \$5.6 million, which is recognized in other income for 2010. The SITME rate has remained unchanged at 5.3 Bolivar Fuerte since June 2010, and consequently, there was no foreign exchange gain or loss recorded for the Company's Venezuelan operations during 2011 and 2012.

As of December 31, 2012, the Company's Venezuelan subsidiary had \$63.4 million of net monetary assets denominated in Bolivar Fuertes at the SITME rate of 5.3 Bolivar Fuertes to U.S. Dollar, and as a result, a 10% increase (decrease) in the applicable exchange rate would result in an estimated one-time pretax charge (benefit) of \$6 million. On an ongoing basis, excluding the impacts of any actions management might otherwise take in response to a change in exchange rates, such as raising or decreasing prices, a 10% increase (decrease) in the exchange rate would unfavorably (favorably) impact annual net sales and operating income by an estimated \$5 million and \$3 million, respectively.

In February 2013, the exchange rate for Bolivar Fuertes declined to 6.3 Bolivar Fuertes to U.S. Dollar, and as a result, the Company expects to record an estimated \$10 million one-time charge in the first quarter of 2013, based on the decline in value of the net monetary assets of its Venezuelan operations that are denominated in Bolivar Fuertes at the time the devaluation is effective. In addition, the Company's 2013 reported net sales and operating income are expected to be adversely impacted by an estimated \$9 million and \$5 million, respectively, due solely to the devaluation of the Bolivar Fuerte. The Company is unable to predict with certainty whether future devaluations will occur because of the economic uncertainty in Venezuela; however, future devaluations would adversely impact the Company's future financial results.

Raw Materials and Sourced Finished Goods

The Company has multiple foreign and domestic sources of supply for substantially all of its material requirements. The raw materials and various purchased components required for its products have generally been available in sufficient quantities. The Company's product offerings require the purchase of resin, corrugate and metals, including steel, stainless steel, zinc, aluminum and gold. The Company's resin purchases principally comprise polyethylene and polypropylene in roughly equal quantities. Over the long-term, the Company has experienced inflation in raw material prices, and the Company expects continued inflation pressures

in 2013. The Company has reduced the volume of its resin purchases through rationalizing and exiting product lines. On an annualized basis, commodities consumed as raw materials generally represent approximately 10% to 15% of annual cost of products sold, with no single type of commodity representing more than 10% of cost of products sold.

The Company also relies on third-party manufacturers as a source for finished goods. In a limited number of cases, a single manufacturer or a limited number of manufacturers may supply substantially all of the finished goods for a product line. In particular, certain businesses within the Baby & Parenting and Home Solutions segments rely on third-party manufacturers for substantially all of their products.

See Management's Discussion and Analysis of Financial Condition and Results of Operations for further discussion.

Backlog

The dollar value of unshipped factory orders is not material.

Seasonal Variations

Sales of the Company's products tend to be seasonal, with sales and operating income in the first quarter generally lower than any other quarter during the year, driven principally by reduced volume and the mix of products sold in the first quarter. Historically, the Company has earned more than 60% of its annual operating income during the second and third quarters of the year. The seasonality of the Company's sales volume, combined with the accounting for fixed costs such as depreciation, amortization, rent, personnel costs and interest expense, impacts the Company's results on a quarterly basis. In addition, the Company has historically generated more than 60% of its operating cash flow in the second half of the year due to seasonal variations in operating results, the timing of annual performance-based compensation payments and customer rebates, and credit terms provided to customers.

Patents and Trademarks

The Company has many patents, trademarks, brand names and trade names that are, in the aggregate, important to its business. The Company's most significant registered trademarks are "Rubbermaid[®]," "Graco[®]," "Aprica[®]," "Levolor[®]," "Calphalon[®]," "Goody[®]," "Sharpie[®]," "Paper Mate[®]," "Dymo[®]," "Parker[®]," "Waterman[®]," "Irwin[®]" and "Lenox[®]."

Customers/Competition

The Company's principal customers are large mass merchandisers, such as discount stores, home centers, warehouse clubs, office superstores, commercial distributors and e-commerce companies. The rapid growth of large mass merchandisers, together with changes in consumer shopping patterns, has contributed to a significant consolidation of the consumer products retail industry and dominant multi-category retailers and e-commerce companies that have strong negotiating power with suppliers. This environment may limit the Company's ability to recover cost increases through selling prices.

Current trends among retailers and e-commerce companies include fostering high levels of competition among suppliers, demanding innovative new products and requiring suppliers to maintain or reduce product prices and deliver products with shorter lead times. Other trends, in the absence of a strong new product development effort or strong end-user brands, are for retailers and e-commerce companies to import generic products directly from foreign sources and to source and sell products, under their own private label brands, which compete with products of the Company. The combination of these market influences has created an intensely competitive environment in which the Company's principal customers continuously evaluate which product suppliers to use, resulting in downward pricing pressures and the need for big, consumer-meaningful brands, the ongoing introduction and commercialization of innovative new products, continuing improvements in category management and customer service, and the maintenance of strong relationships with large, high-volume purchasers. The Company competes with numerous manufacturers and distributors of consumer products, many of which are large and well-established.

The Company's principal methods of meeting its competitive challenges are creating and maintaining consumer-meaningful brands and differentiated products that deliver superior value and performance; delivering superior customer service and consistent on-time delivery; producing and procuring products at a competitive cost; and experienced management.

The Company has also positioned itself to respond to the competitive challenges in the retail environment by developing strong relationships with large, high-volume purchasers. The Company markets its strong multi-product offering through virtually every category of high-volume retailer, including discount, drug, grocery and variety chains; warehouse clubs; department, hardware and specialty stores; home centers; office superstores; and contract stationers. The Company's largest customer, Wal-Mart (which includes Sam's Club), accounted for approximately 10.8% of net sales in 2012, across substantially all segments. The Company's top-ten customers in 2012 included (*in alphabetical order*): Bed Bath & Beyond, Lowe's, Office Depot, OfficeMax, Staples, Target, The Home Depot, Toys 'R' Us, United Stationers and Wal-Mart.

Environmental Matters

Information regarding the Company's environmental matters is included in the Management's Discussion and Analysis of Financial Condition and Results of Operations section of this report and in Footnote 20 of the Notes to Consolidated Financial Statements and is incorporated by reference herein.

Research and Development

Information regarding the Company's research and development costs for each of the past three years is included in Footnote 1 of the Notes to Consolidated Financial Statements and is incorporated by reference herein. The Company's research and development costs are incurred to develop new, differentiated and innovative products to meet consumers' needs.

Employees

As of December 31, 2012, the Company had approximately 18,300 employees worldwide, of whom approximately 2,200 are covered by collective bargaining agreements or are located in countries that have collective arrangements decreed by statute.

ITEM 1A. RISK FACTORS

The factors that are discussed below, as well as the matters that are generally set forth in this report on Form 10-K and the documents incorporated by reference herein, could materially and adversely affect the Company's business, results of operations and financial condition.

The Company is subject to risks related to its dependence on the strength of retail, commercial and industrial sectors of the economy in various parts of the world.

The Company's business depends on the strength of the retail, commercial and industrial sectors of the economy in various parts of the world, primarily in North America, and to a lesser extent Europe, Central and South America, and Asia. These sectors of the economy are affected primarily by factors such as consumer demand and the condition of the retail industry, which, in turn, are affected by general economic conditions. With continuing challenging and volatile economic conditions in the U.S., Western Europe and elsewhere, there has been considerable pressure on consumer demand, and the resulting impact on consumer spending has had and may continue to have an adverse effect on demand for the Company's products as well as its financial condition and results of operations. The Company could also be negatively impacted by economic crises in specific countries or regions, including the deterioration in the creditworthiness of, or a default by, the issuers of sovereign debt. Such events could negatively impact the Company's overall liquidity and/or create significant credit risks relative to its local customers and depository institutions. Consumer demand and the condition of these sectors of the economy may also be impacted by other external factors such as war, terrorism, geopolitical uncertainties, public health issues, natural disasters and other business interruptions. The impact of these external factors is difficult to predict, and one or more of the factors could adversely impact the Company's business.

The Company is subject to intense competition in a marketplace dominated by large retailers and e-commerce companies.

The Company competes with numerous other manufacturers and distributors of consumer and commercial products, many of which are large and well-established. The Company's principal customers are large mass merchandisers, such as discount stores, home centers, warehouse clubs, office superstores, commercial distributors and e-commerce companies. The rapid growth of these large mass merchandisers, together with changes in consumer shopping patterns, have contributed to the formation of dominant multi-category retailers and e-commerce companies that have strong negotiating power with suppliers. Current trends among retailers and e-commerce companies include fostering high levels of competition among suppliers, demanding innovative new products and requiring suppliers to maintain or reduce product prices, and delivering products with shorter lead times. Other trends are for retailers and e-commerce companies to import products directly from foreign sources and to source and sell products, under their own private label brands, that compete with the Company's products.

The combination of these market influences and retailer consolidation has created an intensely competitive environment in which the Company's principal customers continuously evaluate which product suppliers to use, resulting in downward pricing pressures and the need for big, consumer-meaningful brands, the ongoing introduction and commercialization of innovative new products, continuing improvements in category management and customer service, and the maintenance of strong relationships with large, high-volume purchasers. The Company also faces the risk of changes in the strategy or structure of its major customers, such as overall store and inventory reductions and consolidation. The intense competition in the retail and e-commerce sectors, combined with the overall economic environment, may result in a number of customers experiencing financial difficulty or failing in the future. In particular, a failure by one of the Company's large customers would adversely impact the Company's sales and operating cash flows. As a result of these factors, the Company may experience a loss of sales, reduced profitability and a limited ability to recover cost increases through price increases.

The Company's plans to continue to improve productivity and reduce complexity and costs may not be successful, which would adversely affect its ability to compete.

The Company's success depends on its ability to continuously improve its manufacturing operations to gain efficiencies, reduce supply chain costs and streamline or redeploy nonstrategic selling, general and administrative expenses in order to produce products at a best-cost position and allow the Company to invest in innovation and brand building. In October 2011, the Company announced Project Renewal, a global initiative designed to reduce the complexity of the organization and increase investment in the Company's most significant growth platforms, and in October 2012, the Company announced an expansion of Project Renewal, designed to further simplify and align the business around two key activities — Brand & Category Development and Market Execution & Delivery. As part of the expanded program, the Company's Consumer and Professional groups were eliminated and the Company's nine global business units were streamlined into six business segments. In June 2010, the Company announced its European Transformation Plan, a program to centralize its European business and leverage the benefits of scale and to facilitate a more efficient and cost-effective implementation of an enterprise resource planning program. The Company runs the risk that these and similar initiatives may not be completed substantially as planned, may be more costly to implement than expected, or may not have the positive effects anticipated. In addition, these various initiatives require the Company to implement a significant amount of organizational change which could divert management's attention from other concerns, and if not properly managed, could cause disruptions in the Company's day-to-day operations and have a negative impact on the Company's financial results. It is also possible that other major productivity and streamlining programs may be required in the future.

If the Company is unable to commercialize a continuing stream of new products that create demand, the Company's ability to compete in the marketplace may be adversely impacted.

The Company's long-term success in the competitive retail environment and the industrial and commercial markets depends on its ability to develop and commercialize a continuing stream of innovative new products that create demand. The Company also faces the risk that its competitors will introduce innovative new products that compete with the Company's products. The Company's strategy includes investment in new product development and a focus on innovation. There are, nevertheless, numerous uncertainties inherent in successfully developing and commercializing innovative new products on a continuing basis, and new product launches may not deliver expected growth in sales or operating income.

If the Company does not continue to develop and maintain consumer-meaningful brands, its operating results may suffer.

The Company's ability to compete successfully also depends increasingly on its ability to develop and maintain consumer-meaningful brands so that the Company's retailer and other customers will need the Company's products to meet consumer demand. Consumer-meaningful brands allow the Company to realize economies of scale in its operations. The development and maintenance of such brands require significant investment in brand-building and marketing initiatives. While the Company plans to continue to increase its expenditures for advertising and other brand-building and marketing initiatives over the long term, the increased investment may not deliver the anticipated results.

Price increases in raw materials and sourced products could harm the Company's financial results.

The Company purchases raw materials, including resin, principally polyethylene and polypropylene, corrugate, steel, gold, zinc, brass and aluminum, which are subject to price volatility and inflationary pressures. The Company attempts to reduce its exposure to increases in those costs through a variety of programs, including periodic purchases, future delivery purchases, long-term contracts and sales price adjustments. Where practical, the Company uses derivatives as part of its risk management process. Also, the Company relies on third-party manufacturers as a source for its products. These manufacturers are also subject to price volatility and labor cost and other inflationary pressures, which may, in turn, result in an increase in the amount the Company pays for sourced products. Raw material and sourced product price increases may more than offset the Company's productivity gains and price increases and adversely impact the Company's financial results.

If the Company is unable to make strategic acquisitions and to integrate its acquired businesses, the Company's future growth could be adversely impacted.

Although the Company is increasingly emphasizing internal growth rather than growth by acquisition, the Company's ability to continue to make strategic acquisitions and to integrate the acquired businesses successfully, including obtaining anticipated cost savings and operating income improvements within a reasonable period of time, remain important factors in the Company's future growth. Furthermore, the Company's ability to finance major acquisitions may be adversely affected by the Company's financial position and access to credit markets. In addition, significant additional borrowings would increase the Company's borrowing costs and could adversely affect its credit rating and could constrain the Company's future access to capital.

Circumstances associated with divestitures and product lines exits could adversely affect the Company's results of operations and financial condition.

The Company continues to evaluate the performance and strategic fit of its businesses and products and may decide to sell or discontinue a business or product based on such an evaluation. A decision to divest or discontinue a business or product may result in asset impairments, including those related to goodwill and other intangible assets, and losses upon disposition, both of which could have an adverse effect on the Company's results of operations and financial condition. In addition, the Company may encounter difficulty in finding buyers or executing alternative exit strategies at acceptable prices and terms and in a timely manner. In addition, prospective buyers may have difficulty obtaining financing. Divestitures and business discontinuations could involve additional risks, including the following:

- difficulties in the separation of operations, services, products and personnel;
- the diversion of management's attention from other business concerns;
- the retention of certain current or future liabilities in order to induce a buyer to complete a divestiture;
- the disruption of the Company's business; and
- the potential loss of key employees.

The Company may not be successful in managing these or any other significant risks that it may encounter in divesting or discontinuing a business or exiting product lines.

The Company is subject to risks related to its international operations and sourcing model.

International operations, especially in Europe, but also in Asia, Central and South America, and Canada, are important to the Company's business, and the Company's strategy emphasizes international growth. In addition, as the Company sources products in low-cost countries, particularly in Asia, it is exposed to additional risks and uncertainties. Foreign operations can be affected by factors such as currency devaluation; other currency fluctuations; tariffs; nationalization; exchange controls; labor inflation; interest rates; limitations on foreign investment in local business; and other political, economic and regulatory risks and difficulties. The Company also faces risks due to the transportation and logistical complexities inherent in reliance on foreign sourcing.

Venezuela was designated as a highly inflationary economy effective January 1, 2010, and, accordingly, gains and losses resulting from the translation of the net assets (excluding nonmonetary assets) of operations in Venezuela into U.S. Dollars are recorded in earnings. In February 2013, the exchange rate for the Venezuelan currency, Bolivar Fuerte, declined approximately 15%, which will adversely impact the Company's financial results. The Company is unable to predict with certainty whether future devaluations will occur because of the economic uncertainty in Venezuela; however, future devaluations would adversely impact the Company's future financial results. See Footnote 1 of the Notes to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations for further information.

The inability to obtain raw materials and finished goods in a timely manner from suppliers would adversely affect the Company's ability to manufacture and market its products.

The Company purchases raw materials to be used in manufacturing its products. In addition, the Company relies on third-party manufacturers as a source for finished goods. The Company typically does not enter into long-term contracts with its suppliers or sourcing partners. Most raw materials and sourced goods are obtained on a "purchase order" basis; however, in limited cases where the Company has supply contracts with fixed prices, the Company may be required to purchase raw materials at above-market prices, which could adversely impact gross margins. In addition, in some instances the Company maintains single-source or limited-source sourcing relationships, either because multiple sources are not available or the relationship is advantageous due to performance, quality, support, delivery, capacity or price considerations. In particular, the Company's Baby & Parenting business has a single source of supply for many of its products. Financial, operating or other difficulties encountered by the Company's suppliers and/or sourcing partners or changes in the Company's relationships with them could result in manufacturing or sourcing interruptions, delays and inefficiencies, and prevent the Company from manufacturing or obtaining the finished goods necessary to meet customer demand.

Complications in connection with the Company's current information system initiative may adversely impact its results of operations, financial condition and cash flows.

The Company is in the process of replacing various business information systems worldwide with an enterprise resource planning system from SAP. Through December 31, 2012, the North American and European operations of substantially all of the Company's six segments have successfully gone live with their SAP implementation efforts. The Company's Asia Pacific and Latin American operations have yet to go live on SAP. This activity involves the migration of multiple legacy systems and users to a common SAP information platform. Throughout this process, the Company is changing the way it conducts business and employees' roles in

processing and utilizing information. In addition, this conversion will impact certain interfaces with the Company's customers and suppliers, resulting in changes to the manner in which the Company takes orders, procures materials, schedules production, remits billings, makes payments and performs other business functions. Based upon the complexity of this initiative, there is risk that the Company will be unable to complete the implementation in accordance with its timeline and will incur additional costs. The implementation could result in operating inefficiencies, and the implementation could impact the Company's ability to perform necessary business transactions, including its ability to supply products on a timely basis. The Company's go-lives have been and will continue to be in a phased approach to reduce the risk of business disruption throughout the Company's business units and regions. However, there can be no assurance that the risk of business disruption can be eliminated with the Company's phased approach. All of these risks could adversely impact the Company's results of operations, financial condition and cash flows.

Impairment charges could have a material adverse effect on the Company's financial results.

Future events may occur that would adversely affect the reported value of the Company's assets and require impairment charges. Such events may include, but are not limited to, strategic decisions made in response to changes in economic and competitive conditions, the impact of the economic environment on the Company's sales and customer base, the unfavorable resolution of litigation, a material adverse change in the Company's relationship with significant customers or business partners, or a sustained decline in the Company's stock price. The Company continues to evaluate the impact of economic and other developments on the Company and its business units to assess whether impairment indicators are present. Accordingly, the Company may be required to perform impairment tests based on changes in the economic environment and other factors, and these tests could result in impairment charges in the future.

The Company's businesses are subject to regulation in the U.S. and abroad.

Changes in laws, regulations and related interpretations may alter the environment in which the Company does business. This includes changes in environmental, competitive and product-related laws, as well as changes in accounting standards, taxation and other regulations. Accordingly, the Company's ability to manage regulatory, tax and legal matters (including environmental, human resource, product liability, patent and intellectual property matters), and to resolve pending legal matters without significant liability could require the Company to take significant reserves in excess of amounts accrued to date or pay significant fines during a reporting period, which could materially impact the Company's results. In addition, new regulations may be enacted in the U.S. or abroad that may require the Company to incur additional personnel-related, environmental or other costs on an ongoing basis, significantly restrict the Company's ability to sell certain products, or incur fines or penalties for noncompliance, any of which could adversely affect the Company's results of operations. For example, the United States Consumer Product Safety Commission continues to advocate for more strict design standards for window blinds that if implemented, would require the Company to redesign all window blinds sold in the U.S. For certain products, redesign may not be possible or practical, and as a result, the Company would lose revenues from the sales of such products.

As a U.S.-based multinational company, the Company is also subject to tax regulations in the U.S. and multiple foreign jurisdictions, some of which are interdependent. For example, certain income that is earned and taxed in countries outside the U.S. is not taxed in the U.S., provided those earnings are indefinitely reinvested outside the U.S. If these or other tax regulations should change, the Company's financial results could be impacted.

The resolution of the Company's tax contingencies may result in additional tax liabilities, which could adversely impact the Company's cash flows and results of operations.

The Company is subject to income tax in the U.S. and numerous jurisdictions outside the U.S. Significant estimation and judgment is required in determining the Company's worldwide provision for income taxes. In the ordinary course of the Company's business, there are many transactions and calculations where the ultimate tax determination is uncertain. The Company is regularly under audit by tax authorities. Although the Company believes its tax estimates are reasonable, the final outcome of tax audits and related litigation could be materially different than that reflected in its historical income tax provisions and accruals. There can be no assurance that the resolution of any audits or litigation will not have an adverse effect on future operating results.

Product liability claims or regulatory actions could adversely affect the Company's financial results or harm its reputation or the value of its end-user brands.

Claims for losses or injuries purportedly caused by some of the Company's products arise in the ordinary course of the Company's business. In addition to the risk of substantial monetary judgments, product liability claims or regulatory actions could result in negative publicity that could harm the Company's reputation in the marketplace, adversely impact the value of its end-user brands, or result in an increase in the cost of producing the Company's products. The Company could also be required to recall possibly defective products, which could result in adverse publicity and significant expenses. Although the Company maintains product liability insurance coverage, potential product liability claims are subject to a self-insured retention or could be excluded under

the terms of the policy.

If the Company is unable to access the capital markets to refinance its maturing debt, its borrowing costs could increase.

As of December 31, 2012, the Company had \$211.9 million of debt that it will be required to refinance or repay within the next 12 months. It is possible that the Company may seek to address its short-term obligations through the capital markets or other arrangements. However, access to the capital markets cannot be assured, and although the Company believes that alternative arrangements will be available to refinance these obligations, such arrangements could result in an increase in the Company's borrowing costs.

A reduction in the Company's credit ratings could materially and adversely affect its business, financial condition and results of operations.

The Company's current senior debt credit ratings from Moody's Investors Service, Standard & Poor's and Fitch Ratings are Baa3, BBB- and BBB, respectively. Its current short-term debt credit ratings from Moody's Investors Service, Standard & Poor's and Fitch Ratings are P-3, A-3 and F-2, respectively. Moody's, Standard & Poor's and Fitch have a stable outlook on their ratings. The Company cannot be sure that any of its current ratings will remain in effect for any given period of time or that a rating will not be lowered by a rating agency if, in its judgment, circumstances in the future so warrant. A downgrade by Moody's or Standard & Poor's, which would reduce the Company's senior debt below investment-grade, could increase the Company's borrowing costs, which would adversely affect the Company's financial results. The Company would likely be required to pay a higher interest rate in future financings, and its potential pool of investors and funding sources could decrease. If the Company's short-term ratings were to be lowered, it would limit, or eliminate entirely, the Company's access to the commercial paper market. The ratings from credit agencies are not recommendations to buy, sell or hold the Company's securities, and each rating should be evaluated independently of any other rating.

The level of returns on pension and postretirement plan assets and the actuarial assumptions used for valuation purposes could affect the Company's earnings and cash flows in future periods. Changes in government regulations could also affect the Company's pension and postretirement plan expenses and funding requirements.

The funding obligations for the Company's pension plans are impacted by the performance of the financial markets, particularly the equity markets, and interest rates. Funding obligations are determined under government regulations and are measured each year based on the value of assets and liabilities on a specific date. If the financial markets do not provide the long-term returns that are expected under the governmental funding calculations, the Company could be required to make larger contributions. The equity markets can be, and recently have been, very volatile, and therefore the Company's estimate of future contribution requirements can change dramatically in relatively short periods of time. Similarly, changes in interest rates and legislation enacted by governmental authorities can impact the timing and amounts of contribution requirements. An adverse change in the funded status of the plans could significantly increase the Company's required contributions in the future and adversely impact its liquidity.

Assumptions used in determining projected benefit obligations and the fair value of plan assets for the Company's pension and other postretirement benefit plans are determined by the Company in consultation with outside actuaries. In the event that the Company determines that changes are warranted in the assumptions used, such as the discount rate, expected long-term rate of return on assets, or expected health care costs, the Company's future pension and postretirement benefit expenses could increase or decrease. Due to changing market conditions or changes in the participant population, the assumptions that the Company uses may differ from actual results, which could have a significant impact on the Company's pension and postretirement liabilities and related costs and funding requirements.

ITEM 2. PROPERTIES

The following table shows the location and general character of the principal operating facilities owned or leased by the Company. The properties are listed within their designated business segment: Home Solutions, Writing, Tools, Commercial Products, Baby & Parenting and Specialty. These are the primary manufacturing locations, administrative offices and distribution warehouses of the Company. The Company's headquarters are in Atlanta, Georgia, and the Company also maintains sales offices throughout the U.S. and the world. Most of the Company's idle facilities, which are excluded from the following list, are subleased, pending lease expiration, or are for sale. The Company's properties currently in use are generally in good condition, well-maintained, and are suitable and adequate to carry on the Company's business.

Michael B. Polk	52	President and Chief Executive Officer
William A. Burke	52	Executive Vice President, Chief Operating Officer
Mark S. Tarchetti	37	Executive Vice President, Chief Development Officer
Douglas L. Martin	50	Executive Vice President, Chief Financial Officer
John K. Stipancich	44	Executive Vice President, General Counsel and Corporate Secretary and EMEA Executive Leader
James M. Sweet	60	Executive Vice President, Human Resources & Corporate Communications (Chief Human Resources Officer)

Michael B. Polk has been President and Chief Executive Officer of the Company since July 2011. He joined the Company's Board of Directors in November 2009 and served as a member of the Audit Committee prior to assuming his current role. Prior thereto, he was President, Global Foods, Home & Personal Care, Unilever (a consumer packaged goods manufacturer and marketer) since 2010. He joined Unilever in 2003 as Chief Operating Officer, Unilever Foods USA and subsequently became President, Unilever USA in 2005. From 2007 to 2010, he served as President, Unilever Americas. Prior to joining Unilever, he spent 16 years at Kraft Foods Inc. and three years at The Procter & Gamble Company. At Kraft Foods, he was President, Kraft Foods Asia Pacific, President, Biscuits and Snacks Sector, and was a member of the Kraft Foods Management Committee.

William A. Burke has been Executive Vice President and Chief Operating Officer since October 2012. He served as President, Newell Professional from January 2012 to September 2012, having previously served as President, Tools, Hardware & Commercial Products from January 2009 through 2011, and President, Tools and Hardware from December 2007 to January 2009. Prior thereto, he was President, North American Tools from 2004 through 2006. He served as President of the Company's Lenox division from 2003 through 2004. From 1992 through 2002, he served in a variety of positions with The Black & Decker Corporation (a manufacturer and marketer of power tools and accessories), culminating as Vice President and General Manager of Product Service.

Mark S. Tarchetti has been Executive Vice President and Chief Development Officer since January 2013. From September 2011 to December 2012, Mr. Tarchetti was the Director of Tarchetti & Co. Ltd., a consulting firm he founded where he advised clients, including the Company, on business strategy and change management. From 1997 to 2011, he served in a variety of senior strategic, business and finance roles at Unilever, including as Head of Corporate Strategy from 2009 to 2011, Vice President of Corporate Strategy in 2008, Finance Director of the UK Home & Personal Care business from 2007 to 2008, and Global Head of Financial Planning & Analysis from 2004 to 2007.

Douglas L. Martin has been Executive Vice President and Chief Financial Officer since September 2012. He has been employed by the Company since 1987, and has served in a variety of senior financial roles, including Deputy Chief Financial Officer from February 2012 to September 2012, Vice President of Finance - Newell Consumer from November 2011 to February 2012, Vice President of Finance - Office Products from December 2007 to November 2011, and Vice President and Treasurer from June 2002 to December 2007.

John K. Stipancich has been Executive Vice President, General Counsel and Corporate Secretary and EMEA Executive Leader since October 2012. Prior thereto, he served as Senior Vice President, General Counsel and Corporate Secretary from January 2010 to October 2012. From November 2004 through December 2009, he served as Vice President and General Counsel to several of the Company's businesses.

James M. Sweet has been Executive Vice President, Human Resources and Corporate Communications since May 2007. Prior thereto, he served as the Company's Chief Human Resources Officer from May 2004 through May 2007. He was Group Vice President, Human Resources for the Sharpie/Calphalon Group from January 2004 to April 2004. From 2001 to 2004, he was President of Capital H, Inc., a human resource services company that Mr. Sweet co-founded. From 1999 to 2001, he was Vice President of Human Resources for the Industrial Automation Systems and Rexnord divisions of Invensys PLC (an industrial manufacturing company). Prior thereto, he held executive human resource positions at Kohler Co., Keystone International and Brady Corp.

PART II. OTHER INFORMATION

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Company's common stock is listed on the New York and Chicago Stock Exchanges (symbol: NWL). As of January 31, 2013, there were 12,349 stockholders of record. The following table sets forth the high and low sales prices of the common stock on the New York Stock Exchange Composite Tape for the calendar periods indicated:

Quarters	2012		2011	
	High	Low	High	Low
First	\$ 19.49	\$ 15.93	\$ 20.38	\$ 17.57
Second	19.12	16.63	19.81	14.14
Third	19.74	16.67	16.27	11.31
Fourth	22.49	18.80	16.53	10.87

The Company has paid regular cash dividends on its common stock since 1947. For 2012, the Company paid a quarterly cash dividend of \$0.08 per share in the first quarter, \$0.10 per share in each of the second and third quarters, and \$0.15 per share in the fourth quarter. For 2011, the Company paid a quarterly cash dividend of \$0.05 per share in the first quarter and \$0.08 per share in each of the second, third and fourth quarters. The payment of dividends to holders of the Company's common stock remains at the discretion of the board of directors and will depend upon many factors, including the Company's financial condition, earnings, legal requirements and other factors the board of directors deems relevant.

ISSUER PURCHASES OF EQUITY SECURITIES

The following table provides information about the Company's purchases of equity securities during the quarter ended December 31, 2012:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
10/1/12-10/31/12	61,700	\$ 18.96	61,700	\$ 185,544,827
11/1/12-11/30/12	415,340	20.87	397,200	177,249,105
12/1/12-12/31/12	687,361	21.83	680,000	162,403,104
Total	1,164,401	\$ 21.34	1,138,900	

(1) During the three months ended December 31, 2012, all share purchases other than those pursuant to the \$300.0 million share repurchase program (the "SRP") were made to satisfy employees' tax withholding and payment obligations in connection with the vesting of awards of restricted stock units, which are repurchased by the Company based on their fair market value on the vesting date. In November and December, in addition to the shares purchased under the SRP, the Company purchased 18,140 shares (average price: \$20.49) and 7,361 shares (average price: \$21.90), respectively, in connection with vesting of employees' stock-based awards.

(2) Under the SRP, the Company may repurchase its own shares of common stock through a combination of a 10b5-1 automatic trading plan, discretionary market purchases or in privately negotiated transactions. The SRP is authorized to run through August 2014. The average per share price of shares purchased in October, November and December was \$18.96, \$20.89 and \$21.83, respectively.

ITEM 6. SELECTED FINANCIAL DATA

The following is a summary of certain consolidated financial information relating to the Company as of and for the year ended December 31, *(in millions, except per share data)*. The summary has been derived in part from, and should be read in conjunction with, the Consolidated Financial Statements of the Company included elsewhere in this report and the schedules thereto.

(1) Supplemental data regarding 2012, 2011 and 2010 is provided in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations.

- (2) 2010, 2009 and 2008 Statement of Operations information has been adjusted to reclassify the results of operations of the hand torch and solder business to discontinued operations.
- (3) Restructuring costs include asset impairment charges, employee severance and termination benefits, employee relocation costs, and costs associated with exited contractual commitments and other restructuring costs.
- (4) Income (loss) from discontinued operations, net of tax, attributable to noncontrolling interests was not material.
- (5) Working capital is defined as Current Assets less Current Liabilities.

Acquisitions of Businesses

2012 to 2009

No significant acquisitions occurred in 2012, 2011, 2010 or 2009.

2008

On April 1, 2008, the Company acquired 100% of the outstanding limited liability company interests of Technical Concepts Holdings, LLC (“Technical Concepts”) for \$452.7 million, which includes transaction costs and the repayment of Technical Concepts’ outstanding debt obligations at closing. Technical Concepts provides touch-free and automated restroom hygiene systems in the away-from-home washroom category. The Technical Concepts acquisition gives the Company’s Rubbermaid Commercial Products business an entry into the away-from-home washroom market and fits within the Company’s strategy of leveraging its existing sales and marketing capabilities across additional product categories. In addition, with approximately 40% of its sales outside the U.S., Technical Concepts increased the global footprint of the Company’s Rubbermaid Commercial Products business. The acquisition of Technical Concepts was accounted for using the purchase method of accounting.

On April 1, 2008, the Company acquired substantially all of the assets of Aprica Childcare Institute Aprica Kassai, Inc. (“Aprica”), a maker of strollers, car seats and other children’s products, headquartered in Osaka, Japan. The Company acquired Aprica’s assets for \$145.7 million, which includes transaction costs and the repayment of Aprica’s outstanding debt obligations at closing. Aprica is a Japanese brand of premium strollers, car seats and other related juvenile products. The acquisition provides the opportunity for the Company’s Baby & Parenting business to broaden its presence worldwide, including expanding the scope of Aprica’s sales outside Asia. The acquisition of Aprica was accounted for using the purchase method of accounting.

- (1) The first and second quarters of 2011 have been adjusted to reclassify the results of operations of the hand torch and solder business to discontinued operations.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of the Company's consolidated results of operations and financial condition. The discussion should be read in conjunction with the accompanying Consolidated Financial Statements and Notes thereto.

Business Overview

Newell Rubbermaid is a global marketer of consumer and commercial products that help people flourish every day, where they live, learn, work and play. The Company's products are marketed under a strong portfolio of leading brands, including Rubbermaid[®], Levolor[®], Goody[®], Calphalon[®], Sharpie[®], Paper Mate[®], Parker[®], Waterman[®], Irwin[®], Lenox[®], Graco[®], Aprica[®] and Dymo[®].

On January 1, 2012, the Company, as part of Project Renewal, implemented changes to its organizational structure that resulted in the consolidation of the Company's three operating groups into two and the consolidation of its 13 global business units ("GBUs") into nine. One of the two operating groups was consumer-facing ("Newell Consumer"), while the other was commercial-facing ("Newell Professional"). In addition, while not an operating group, the Baby & Parenting GBU was treated as a stand-alone operating segment.

In October 2012, the Company committed to an expansion of Project Renewal, designed to further simplify and align the business around two key activities – Brand & Category Development and Market Execution & Delivery. As part of the expanded program, the Company's Consumer and Professional groups were eliminated and the Company's nine GBUs were streamlined into six business segments. The six business segments and the key brands included in each of the six business segments are as follows:

- **Home Solutions:** Rubbermaid[®], Calphalon[®], Levolor[®], Kirsch[®] and Goody[®]
- **Writing:** Sharpie[®], Paper Mate[®], Expo[®], Prismacolor[®], Parker[®] and Waterman[®]
- **Tools:** Irwin[®] and Lenox[®] tools and Dymo[®] Industrial
- **Commercial Products:** Rubbermaid Commercial Products[®] and Rubbermaid[®] Healthcare
- **Baby & Parenting:** Graco[®], Aprica[®] and Teutonia[®]
- **Specialty:** Bulldog[®], Ashland[™], Shur-Line[®], Dymo[®] Office, Endicia[®] and Mimio[®]

The actions taken by the Company in 2012 are intended to simplify the organization and free up resources to invest in growth initiatives and strengthened capabilities. These changes are considered key enablers to building a bigger, faster-growing, more global and more profitable Newell Rubbermaid.

Business Strategy

Newell Rubbermaid's vision is to become a global company of Brands That Matter[™] and great people, known for best-in-class results. The Company is committed to building consumer-meaningful brands through understanding the needs of consumers and using those insights to create innovative, highly differentiated product solutions that offer superior performance and value.

The transformation that began several years ago building Brands That Matter[™] and insight-driven innovations that win in the marketplace has created a solid foundation. The Company now has a stronger and more tightly focused portfolio of leading brands with a margin structure that allows for brand investment. The Company has devised its new Growth Game Plan, which is the strategy the Company is implementing to fulfill its ambition to build a bigger, faster-growing, more global and more profitable company.

The Growth Game Plan encompasses the following aspects:

Business Model

- A brand-led business with a strong home in the United States and global ambition.
- Consumer brands that win at the point of decision through excellence in performance, design and innovation.
- Professional brands that win the loyalty of the chooser by improving the productivity and performance of the user.
- Collaboration with our partners across the total enterprise in a shared commitment to growth and creating value.
- Delivering competitive returns to shareholders through consistent, sustainable and profitable growth.

Where To Play

- **Win Bigger** — Deploying resources to businesses and regions with higher growth opportunities through investments in innovation and geographic expansion.
- **Win Where We Are** — Optimizing the performance of businesses and brands in existing markets by investing in innovation to increase market share and reducing structural spend within the existing geographic footprint.
- **Incubate For Growth** — Investing in businesses that have unique opportunities for growth, with a primary focus on businesses that are in the early stages of the business cycle.

5 Ways To Win

- **Make The Brands Really Matter** — Sharpening brand strategies on the highest impact growth levers and partnering to win with customers and suppliers.
- **Build An Execution Powerhouse** — Realigning the customer development organization and developing joint business plans for new channel penetration and broader distribution.
- **Unlock Trapped Capacity For Growth** — Delivering savings from ongoing restructuring projects, working capital reductions and simplification of business processes.
- **Develop The Team For Growth** — Driving a performance culture aligned to the business strategy and building a more global perspective and talent base.
- **Extend Beyond Our Borders** — Accelerating investments and growth in emerging markets.

During 2012, the Company executed against the delivery phase of the Growth Game Plan. In this phase, the Company implemented structural changes in the organization while ensuring consistent execution and delivery. The Company expects 2013 to be a transition year from the delivery phase to the strategic phase. In the strategic phase, the Company expects to expand investment behind its Win Bigger businesses to drive accelerated growth.

In 2013, the Company will continue implementing changes to drive the Growth Game Plan into action. These changes are the foundation of the expansion of Project Renewal and are organized into the following five workstreams:

- **Organizational Simplification:** The Company has de-layered its top structure by eliminating the two groups (Newell Consumer and Newell Professional) and further consolidating its businesses from nine GBUs to six business segments.
- **EMEA Simplification:** The Company will focus its resources on fewer products and countries, while simplifying go-to-market, delivery and back office support structures.
- **Best Cost Finance:** The Company will deliver a simplified approach to decision support, transaction processing and information management by leveraging SAP and the streamlined business segments to align resources with the Growth Game Plan.
- **Best Cost Back Office:** The Company will drive “One Newell Rubbermaid” efficiencies in customer and consumer services and sourcing functions.
- **Supply Chain Footprint:** The Company will further optimize manufacturing and distribution facilities across its global supply chain.

In implementing the tenets of its strategy and its change agenda, the Company is focused on Every Day Great Execution, or EDGE, to capitalize on and maximize the benefits of investment and growth opportunities and to optimize the cost structure of the business.

Organizational Structure

The Company's segments reflect the Company's focus on building large consumer and professional brands and leveraging its understanding of similar markets and distribution channels. The Company's six segments and the key brands included in each of the six business segments are as follows:

Segment	Key Brands	Description of Primary Products
Home Solutions	Rubbermaid [®] , Calphalon [®] Levolor [®] , Goody [®]	Indoor/outdoor organization, food storage and home storage products; gourmet cookware, bakeware, cutlery and small kitchen electrics; drapery hardware and window treatments; hair care accessories
Writing	Sharpie [®] , Paper Mate [®] , Expo [®] , Parker [®] , Waterman [®]	Writing instruments, including markers and highlighters, pens and pencils; art products; fine writing instruments
Tools	Irwin [®] , Lenox [®] , Dymo [®] Industrial	Hand tools and power tool accessories; industrial bandsaw blades; cutting tools for pipes and HVAC systems; label makers and printers for industrial use
Commercial Products	Rubbermaid [®] Commercial Products, Rubbermaid [®] Healthcare	Cleaning and refuse products, hygiene systems, material handling solutions; medical and computer carts, and wall-mounted workstations
Baby & Parenting	Graco [®] , Aprica [®]	Infant and juvenile products such as car seats, strollers, highchairs and playards
Specialty	Bulldog [®] , Shur-line [®] , Dymo [®] , Endicia [®] , Mimio [®]	Convenience and window hardware; manual paint applicators; office technology solutions such as label makers and printers, on-line postage and interactive teaching solutions

Market and Performance Overview

The Company operates in the consumer and commercial products markets, which are generally impacted by overall economic conditions in the regions in which the Company operates. The Company's results in 2012 were impacted by the following factors:

- Core sales, which exclude foreign currency, increased 2.2% in 2012 compared to the same period last year. New products, geographic expansion and core sales growth in emerging markets were the primary drivers of the core sales growth, with double- and high-single-digit core sales growth in Latin America and Asia Pacific, respectively. Deteriorating macroeconomic conditions in Western Europe and lower merchandising in Europe in advance of the SAP go-live adversely impacted core sales and were the primary drivers of a 4.7% core sales decline in the Europe, Middle East, and Africa region. Core sales is determined by applying the prior year monthly exchange rates to the current year local currency monthly sales amounts, with the difference in core sales and prior year reported sales representing core sales increases or decreases.
- Core sales increased 9.8% in the Baby & Parenting segment, with improved retail-level sales in North America and sustained momentum in the Asia Pacific region primarily due to new product launches. Core sales grew 7.0% in the Tools segment with approximately half of the growth attributable to the segment's international businesses. Core sales increased 3.2% in the Writing segment driven by the continued global rollout of Paper Mate[®] InkJoy[®] and a strong back-to-school season. The Home Solutions segment realized a core sales decline of 3.6%, primarily due to continued operational challenges in the Décor business (Levolor window treatments) within the Home Solutions segment and challenges in the Culinary and Décor businesses related to a change in merchandising strategy at a significant retail customer.
- Input and sourced product cost inflation was more than offset by pricing and productivity, which resulted in a 20 basis point improvement in gross margin compared to 2011. The Company's gross margin increased despite continued operational challenges in the Décor business within the Home Solutions segment and pressures due to uncertain macroeconomic conditions in Western Europe.
- Continued focused spend for strategic SG&A activities to drive sales, enhance the new product pipeline, develop growth platforms and expand geographically. During 2012, the Company's spend for strategic brand-building and consumer demand creation and commercialization activities included spend for the following:
 - Continued investments to support the global roll out of Paper Mate[®]'s InkJoy[®] line of writing instruments, which feature innovative ultra-low viscosity ink for a smooth writing experience;

- Supported the Express Yourself with Sharpie® music campaigns, including the partnership with the musical group One Direction, to inspire Sharpie users to boldly express themselves in creative and innovative ways;
 - Continued expansion of dedicated Parker® “shop-in-shop” retail outlets in China and other regions to enhance in-store merchandising;
 - Expanded the launch of the Parker® Ingenuity Collection featuring Parker 5th™ Technology into Japan and China in the first half of 2012;
 - Continued support for “Irwinization” marketing and merchandising initiatives, including the Irwin National Tradesmen Day, “Blue wall” and other merchandising vehicles that get the Irwin® brand and new innovations in front of contractors in a more effective way;
 - Launched Irwin® 2500 Series Level featuring a robust new frame design that enables guaranteed vial accuracy for the life of the product;
 - Expanded the sales forces in the Tools, Writing and Commercial Products segments to drive greater sales penetration, enhance the availability of products and to support geographic expansion;
 - Supported new innovations in the Baby & Parenting segment, including the Graco® Fast-Action and Ready2Grow™ travel systems, which are driving significant market share gains; and
 - Supported the launch of the Rubbermaid® Clean & Dry Plunger with NeverWet™ nanotech coating, which forms a shield that repels water, Rubbermaid® Bathroom Scrubbers with four tools to choose from, and Rubbermaid® LunchBlox™ – a collection of customizable, modular food storage containers that snap together to save space and stay organized in lunch bags.
- Continued the execution of Project Renewal to simplify the business, reduce structural costs and increase investment in the most significant growth platforms within the business.
 - Completed the implementation of the European Transformation Plan, which includes projects designed to improve the financial performance of the European business and centralize decision-making in the Geneva headquarters, and successfully went live with SAP in Europe in April 2012.
 - Improved the Company’s capital structure by completing the offering and sale of \$500.0 million unsecured senior notes, consisting of \$250.0 million principal amount of 2.0% notes due 2015 and \$250.0 million principal amount of 4.0% notes due 2022, the aggregate proceeds of which were used in July 2012 to redeem the \$436.7 million of outstanding 5.25% junior convertible subordinated debentures due December 2027, underlying the Company’s 5.25% convertible preferred securities.
 - Completed the offering and sale of \$350.0 million 2.05% unsecured senior notes due 2017 and used the proceeds together with cash on hand and short-term borrowings to repay the \$500.0 million principal amount of the 5.50% senior notes due April 2013 (the “2013 Notes”), for which interest expense was previously recorded at a rate of approximately 3.5% after contemplating the effects of the interest rate swaps related to the 2013 Notes.
 - Retired \$250.0 million principal amount of the 6.75% medium-term notes due 2012 (the “2012 Notes”) upon maturity, for which interest expense was previously recorded at a rate of approximately 2.3% after contemplating the effect of the terminated interest rate swaps related to the 2012 Notes.
 - Continued the \$300.0 million three-year share repurchase plan that expires in August 2014, pursuant to which the Company repurchased and retired an additional 4.9 million shares of common stock for \$91.5 million during 2012.
 - Increased the Company’s quarterly dividend by 88% during 2012, from \$0.08 per share in the first quarter to \$0.15 per share in the fourth quarter.

Key Initiatives

Project Renewal

In October 2011, the Company launched Project Renewal, a program designed to reduce complexity in the organization and increase investment in the most significant growth platforms within the business, funded by a reduction in structural selling, general & administrative (“SG&A”) costs. The consolidation of a limited number of manufacturing facilities and distribution centers was also initiated as part of the program, with the goal of increasing operational efficiency, reducing costs, and improving gross margin. In October 2012, the Company committed to an expansion of Project Renewal, designed to further simplify and align the business around two key activities — Brand & Category Development and Market Execution & Delivery. As expanded, Project Renewal encompasses projects centered around five workstreams, as follows:

- **Organizational Simplification:** The Company has de-layered its top structure by eliminating the two groups (Newell Consumer and Newell Professional) and further consolidated its businesses from nine GBUs to six business segments.
- **EMEA Simplification:** The Company will focus its resources on fewer products and countries, while simplifying go-to-market, delivery and back office support structures.
- **Best Cost Finance:** The Company will deliver a simplified approach to decision support, transaction processing and information management by leveraging SAP and the streamlined business segments to align resources with the Growth Game Plan.
- **Best Cost Back Office:** The Company will achieve “One Newell Rubbermaid” efficiencies in customer and consumer services and sourcing functions.
- **Supply Chain Footprint:** The Company will further optimize manufacturing and distribution facilities across its global supply chain.

The following table depicts estimated pre-tax restructuring and restructuring-related costs, annualized savings, and headcount impacts associated with Project Renewal (*dollars in millions*):

	<u>Total Costs⁽¹⁾</u>	<u>Cash Costs</u>	<u>Annualized Savings</u>	<u>Approx. Headcount Impacts</u>
Project Renewal (October 2011)	\$90 to \$100	\$75 to \$90	\$90 to \$100	500
Renewal Expansion (October 2012)	\$250 to \$275	\$225 to \$250 ⁽²⁾	\$180 to \$225	1,750
Project Renewal	\$340 to \$375	\$300 to \$340	\$270 to \$325	2,250

(1) Restructuring and restructuring-related charges of \$69 million and \$10 million, respectively, have been incurred through December 31, 2012, the majority of which were employee-related cash costs, including severance, retirement, and other termination benefits and costs. Restructuring-related charges represent incremental cost of products sold and SG&A expenses associated with the implementation of Project Renewal.

(2) Consists of approximately 80% employee-related cash costs including severance, retirement, and other termination benefits and costs.

Project Renewal in total is expected to be fully implemented by mid-2015, with annualized savings of \$90 to \$100 million expected by the first half of 2013. The majority of the savings from Project Renewal will be invested in the business to unlock accelerated growth and to strengthen brand building and selling capabilities in priority markets around the world.

Since the inception of Project Renewal through December 31, 2012, the Company has reduced structural overhead and consolidated three operating groups into two and 13 GBUs into nine, which resulted in a headcount reduction of approximately 175 employees. In 2012, the Company completed the closure of the Home Solutions segment's Greenville, Texas, manufacturing facility, aiming to consolidate operations of the facility into the Company's existing facilities in Kansas and Ohio. The Company also began implementing a distribution center consolidation in the Home Solutions segment as well as a project to align the Home Solutions segment's sales and marketing organizations with the Company's newly created Customer Development Organization. In the Tools and the Commercial Products segments, the Company began reorganizing its sales and marketing functions and began a project to centralize Commercial Products' distribution operations. In the Specialty segment, the Company began a project to close one of its U.S. manufacturing facilities in Lowell, Indiana. In the fourth quarter of 2012, the Company's Consumer and Professional groups were eliminated and the Company's nine GBUs were streamlined into six business segments.

European Transformation Plan

In June 2010, the Company announced a program to centralize its European business (the “European Transformation Plan”). The European Transformation Plan includes initiatives designed to transform the European organizational structure and processes to centralize certain operating activities, improve performance, leverage the benefits of scale and to facilitate a more efficient and cost-effective implementation of SAP, an enterprise resource planning system, in Europe, all with the aim of increasing operating margin in the European region to approximately 10%. As of December 31, 2012, the Company had completed the implementation of its European Transformation Plan initiative with cumulative restructuring and restructuring-related costs of \$38 million and \$77 million, respectively. The European Transformation Plan was expected to result in the realization of annual after-tax savings

of \$55 to \$65 million, and substantially all of these savings have been realized and were included in the Company's 2011 and 2012 operating results.

In April 2012, the Company migrated its enterprise resource planning systems in Europe to SAP and began operating in a centralized European business model. Since the Company reports sales and operating income based on the region from which the products are shipped and invoiced to external customers and the new model defines how certain regions import and export products, the new model impacted the regions in which the Company's sales and operating income are reported in 2012. Compared to prior periods, the new model generally results in the European region's sales and operating income being lower with corresponding increases in the Company's other regions.

One Newell Rubbermaid

The Company strives to leverage the common business activities and best practices of its segments, and to build one common culture of shared values with a focus on collaboration and teamwork. Through this initiative, the Company has established regional shared service centers to leverage nonmarket-facing functional capabilities to reduce costs. In addition, through the expansion of Project Renewal, the Company will expand its focus on leveraging the common business activities and best practices by enhancing its newly created Customer Development Organization and by reorganizing the business around two of the critical elements of the Growth Game Plan — Brand & Category Development and Market Execution & Delivery.

The Company is also migrating multiple legacy systems and users to a common SAP global information platform in a phased, multi-year rollout. SAP is expected to enable the Company to integrate and manage its worldwide business and reporting processes more efficiently. Through December 31, 2012, the North American and European operations of substantially all of the Company's six segments have successfully gone live with their SAP implementation efforts.

The Company continues to evaluate and optimize nonstrategic SG&A expenditures throughout the organization, including centralizing indirect procurement to better leverage the Company's spend.

CONSOLIDATED RESULTS OF OPERATIONS

The Company believes the selected data and the percentage relationship between net sales and major categories in the Consolidated Statements of Operations are important in evaluating the Company's operations. The following table sets forth items from the Consolidated Statements of Operations as reported and as a percentage of net sales for the years ended December 31, (*in millions, except percentages*):

	2012		2011		2010	
Net sales	\$ 5,902.7	100.0%	\$ 5,864.6	100.0%	\$ 5,658.2	100.0%
Cost of products sold	3,673.6	62.2	3,659.4	62.4	3,509.5	62.0
Gross margin	2,229.1	37.8	2,205.2	37.6	2,148.7	38.0
Selling, general and administrative expenses	1,521.1	25.8	1,515.3	25.8	1,447.8	25.6
Impairment charges	—	—	382.6	6.5	—	—
Restructuring costs	56.1	1.0	50.1	0.9	77.4	1.4
Operating income	651.9	11.0	257.2	4.4	623.5	11.0
Nonoperating expenses:						
Interest expense, net	76.1	1.3	86.2	1.5	118.4	2.1
Losses related to extinguishments of debt	10.9	0.2	4.8	0.1	218.6	3.9
Other (income) expense, net	(1.0)	—	13.7	0.2	(7.3)	(0.1)
Net nonoperating expenses	86.0	1.5	104.7	1.8	329.7	5.8
Income before income taxes	565.9	9.6	152.5	2.6	293.8	5.2
Income tax expense	166.3	2.8	17.9	0.3	5.6	0.1
Income from continuing operations	399.6	6.8	134.6	2.3	288.2	5.1
Income (loss) from discontinued operations	1.7	—	(9.4)	(0.2)	4.6	0.1
Net income	\$ 401.3	6.8%	\$ 125.2	2.1%	\$ 292.8	5.2%

Results of Operations — 2012 vs. 2011

Net sales for 2012 were \$5,902.7 million, representing an increase of \$38.1 million, or 0.6%, from \$5,864.6 million for 2011. The following table sets forth an analysis of changes in consolidated net sales for 2012 as compared to 2011 (*in millions, except percentages*):

Core sales	\$	129.2	2.2%
Foreign currency		(91.1)	(1.6)
Total change in net sales	\$	<u>38.1</u>	<u>0.6%</u>

Core sales increased 2.2% compared to the prior year, driven by double-digit core sales growth in the Latin America region and high-single-digit core sales growth in the Asia Pacific region. The growth in emerging markets was partially offset by a decline in the Company's European businesses due to a challenging macroeconomic environment. Excluding foreign currency, sales in North America and international businesses increased 1.8% and 3.3%, respectively, versus the prior year. Foreign currency had the impact of reducing net sales by 1.6%.

Gross margin, as a percentage of net sales, for 2012 was 37.8%, or \$2,229.1 million, versus 37.6% of net sales, or \$2,205.2 million, for 2011. The primary drivers of the 20 basis point gross margin increase were pricing and productivity, partially offset by input cost inflation.

SG&A expenses for 2012 were 25.8% of net sales, or \$1,521.1 million, versus 25.8% of net sales, or \$1,515.3 million, for 2011. In constant currency, SG&A expenses increased \$32.6 million, primarily due to \$37.1 million of incremental investments in brand building and strategic SG&A activities to support new products, marketing initiatives, new market entries and global expansion, and a \$7.3 million increase in structural SG&A due to increased annual incentive compensation offset by savings from structural cost savings initiatives and ongoing restructuring projects. Restructuring-related costs associated with the European Transformation Plan decreased \$13.1 million to \$24.3 million, as the project neared completion toward the end of 2012. In 2012, the Company incurred \$7.6 million of restructuring-related costs associated with Project Renewal. Lastly, \$6.3 million of incremental costs in 2011 associated with the Company's Chief Executive Officer transition did not recur in 2012.

The Company recorded non-cash impairment charges of \$382.6 million during 2011, principally relating to the impairment of goodwill in the Company's Baby & Parenting and Hardware businesses. There were no similar charges recorded during 2012.

The Company recorded restructuring costs of \$56.1 million and \$50.1 million for 2012 and 2011, respectively. The restructuring costs in 2012 relate to Project Renewal and the European Transformation Plan and consisted of \$44.0 million of employee severance, termination benefits and employee relocation costs, \$12.8 million of exited contractual commitments and other restructuring costs, and a net benefit of \$0.7 million for facility and other exits, including impairment costs. The restructuring costs for 2011 relate to Project Renewal and the European Transformation Plan and consisted of \$8.4 million of facility and other exit and impairment costs, \$33.2 million of employee severance, termination benefits and employee relocation costs, and \$8.5 million of exited contractual commitments and other restructuring costs. See Footnote 4 of the Notes to Consolidated Financial Statements for further information.

Operating income for 2012 was 11.0% of net sales, or \$651.9 million, versus 4.4% of net sales, or \$257.2 million for 2011. Excluding the impact of the \$382.6 million of impairment charges, which were 6.5% of net sales, operating income for 2011 would be \$639.8 million, or 10.9% of net sales for 2011.

Net nonoperating expenses for 2012 were \$86.0 million versus \$104.7 million for 2011. Interest expense for 2012 was \$76.1 million, a decrease of \$10.1 million from \$86.2 million for 2011, due to lower average debt levels in 2012. Losses related to extinguishments of debt were \$10.9 million for 2012 compared to \$4.8 million in 2011. During 2012, the Company has recognized foreign exchange transactional gains of \$2.3 million compared to foreign exchange losses of \$14.7 million for 2011, as currencies generally appreciated against the U.S. Dollar during 2012 compared to depreciating in the prior year.

The Company recognized income tax expense of \$166.3 million and \$17.9 million for 2012 and 2011, respectively. The increase in income tax expense is primarily attributable to pretax income in 2012 and a change in the geographical mix in earnings, as well as \$23.1 million of income tax expense attributable to charges resulting from incremental tax contingencies and the expiration of various statutes of limitation and audit settlements. The income tax expense in 2011 is net of a \$76.2 million tax benefit the Company was able to record associated with a portion of the \$382.6 million of impairment charges. Additionally, the 2011 income tax expense is net of the favorable impact of \$49.0 million of benefits due to the reversal of accruals for certain tax contingencies, including interest and penalties, upon the expiration of various worldwide statutes of limitation.

The net income from discontinued operations was \$1.7 million for 2012 compared to net loss from discontinued operations of \$9.4 million for 2011. Income (loss) from discontinued operations during 2012 and 2011 primarily relate to the Company's hand

torch and solder business which was sold on July 1, 2011. During 2012, all conditions related to the escrow were satisfied and resolved, and the Company had received \$7.8 million from the escrow and recognized the proceeds as a gain from the sale of the hand torch and solder business in discontinued operations. The loss on disposal of discontinued operations for 2011 related to the disposal of the hand torch and solder business. See Footnote 2 of the Notes to Consolidated Financial Statements for further information.

Results of Operations — 2011 vs. 2010

Net sales for 2011 were \$5,864.6 million, representing an increase of \$206.4 million, or 3.6%, from \$5,658.2 million for 2010. The following table sets forth an analysis of changes in consolidated net sales for 2011 as compared to 2010 (*in millions, except percentages*):

Core sales	\$	102.0	1.8%
Foreign currency		104.4	1.8
Total change in net sales	\$	<u>206.4</u>	<u>3.6%</u>

Core sales increased 1.8% compared to the prior year, driven by growth in the Company's international businesses, particularly in emerging markets, with double-digit core sales growth in the Latin America and Asia Pacific regions, across substantially all segments. Excluding foreign currency, sales at the Company's international and North American businesses increased 3.5% and 1.2%, respectively. Foreign currency contributed 1.8% to the increase in net sales.

Gross margin, as a percentage of net sales, for 2011 was 37.6%, or \$2,205.2 million, versus 38.0% of net sales, or \$2,148.7 million, for 2010. The primary drivers of the 40 basis point gross margin decrease were input and sourced product cost inflation, partially offset by pricing and productivity.

SG&A expenses for 2011 were 25.8% of net sales, or \$1,515.3 million, versus 25.6% of net sales, or \$1,447.8 million, for 2010. In constant currency, SG&A expenses increased \$36.6 million due to \$39.8 million of incremental investments in brand building and other strategic SG&A activities to support marketing initiatives, advertising and promotions, new market entries and global expansion. SG&A expenses for 2011 include \$6.3 million of incremental costs incurred due to the Company's Chief Executive Officer transition and an increase of \$22.2 million in restructuring-related costs for the European Transformation Plan. The aforementioned increases were partially offset by \$31.7 million lower structural SG&A costs, which resulted primarily from lower incentive compensation costs in 2011 compared to 2010.

As a result of the Company's annual impairment testing of goodwill and indefinite-lived intangible assets, the Company recorded non-cash impairment charges of \$382.6 million during 2011, principally relating to the impairment of goodwill in the Company's Baby & Parenting and Hardware businesses. There were no similar charges recorded during 2010.

The Company recorded restructuring costs of \$50.1 million and \$77.4 million for 2011 and 2010, respectively. The year-over-year decrease in restructuring costs was attributable to the completion of Project Acceleration in 2010. The restructuring costs for 2011 relate to Project Renewal and the European Transformation Plan and consisted of \$8.4 million of facility and other exit and impairment costs; \$33.2 million of employee severance, termination benefits and employee relocation costs; and \$8.5 million of exited contractual commitments and other restructuring costs. The restructuring costs in 2010 primarily relate to Project Acceleration and included \$6.0 million of facility and other exit and impairment costs; \$53.5 million of employee severance, termination benefits and employee relocation costs; and \$17.9 million of exited contractual commitments and other restructuring costs. See Footnote 4 of the Notes to Consolidated Financial Statements for further information.

Operating income for 2011 was 4.4% of net sales, or \$257.2 million, versus 11.0% of net sales, or \$623.5 million for 2010. Excluding the impact of the \$382.6 million of impairment charges, which were 6.5% of net sales, operating income for 2011 would be \$639.8 million, or 10.9% of net sales.

Net nonoperating expenses for 2011 were \$104.7 million versus \$329.7 million for 2010. Interest expense for 2011 was \$86.2 million, a decrease of \$32.2 million from \$118.4 million for 2010, due to lower overall borrowing costs resulting from the Capital Structure Optimization Plan, a more favorable interest rate environment and a higher mix of short-term borrowings. Losses related to extinguishments of debt were \$4.8 million for 2011 compared to \$218.6 million in 2010. The losses related to extinguishments of debt of \$218.6 million recognized in 2010 relate to the retirement of \$279.3 million of the \$300.0 million aggregate principal amount of 10.60% senior unsecured notes due April 2019 and \$324.7 million principal amount of the \$345.0 million 5.50% convertible senior notes due 2014 pursuant to the Capital Structure Optimization Plan. During 2011, the Company recognized \$14.7 million of foreign exchange transactional losses; however, during 2010, the Company recognized foreign exchange gains of \$6.9 million principally related to a foreign exchange gain of \$5.6 million associated with the Company's transition to the Transaction System for Foreign Currency Denominated Securities ("SITME") rate for remeasuring the Company's Venezuelan assets and liabilities denominated in Bolivar Fuerte.

The Company recognized income tax expense of \$17.9 million and \$5.6 million for 2011 and 2010, respectively. The change in the income tax expense was primarily attributable to the \$382.6 million of impairment charges in 2011, which were only partially deductible, and \$218.6 million of losses related to extinguishments of debt in 2010, which were fully deductible. The change in the income tax expense was also attributable to the recognition of income tax benefits of \$49.0 million in 2011 due to the reversal of accruals for certain tax contingencies, including interest and penalties, upon the expiration of various worldwide statutes of limitation, and the recognition of \$63.6 million of previously unrecognized tax benefits in 2010 as a result of the Company entering into a binding closing agreement related to its 2005 and 2006 U.S. Federal income tax examination, including all issues that were at the IRS Appeals Office.

The net loss from discontinued operations was \$9.4 million for 2011 compared to net income from discontinued operations of \$4.6 million for 2010. The loss on disposal of discontinued operations for 2011 was \$15.2 million, after tax, related to the disposal of the hand torch and solder business. See Footnote 2 of the Notes to Consolidated Financial Statements for further information.

Business Segment Operating Results:

2012 vs. 2011 Business Segment Operating Results

Net sales by segment were as follows for the years ended December 31, (in millions, except percentages):

	2012	2011	% Change
Home Solutions	\$ 1,644.0	\$ 1,710.2	(3.9)%
Writing	1,416.2	1,399.3	1.2
Tools	806.1	779.6	3.4
Commercial Products	759.7	741.5	2.5
Baby & Parenting	736.1	680.4	8.2
Specialty	540.6	553.6	(2.3)
Total net sales	<u>\$ 5,902.7</u>	<u>\$ 5,864.6</u>	0.6

The following table sets forth an analysis of changes in net sales in each segment for 2012 as compared to 2011:

	Home Solutions	Writing	Tools	Commercial Products	Baby & Parenting	Specialty
Core sales	(3.6)%	3.2%	7.0%	3.6%	9.8%	(0.4)%
Foreign currency	(0.3)	(2.0)	(3.6)	(1.1)	(1.6)	(1.9)
Total change in net sales	<u>(3.9)%</u>	<u>1.2%</u>	<u>3.4%</u>	<u>2.5%</u>	<u>8.2%</u>	<u>(2.3)%</u>

Operating income (loss) by segment was as follows for the years ended December 31, (in millions, except percentages):

	2012	2011	% Change
Home Solutions ⁽¹⁾	\$ 217.5	\$ 228.9	(5.0)%
Writing ⁽¹⁾	261.9	246.9	6.1
Tools	109.8	119.1	(7.8)
Commercial Products	92.9	108.3	(14.2)
Baby & Parenting	72.7	51.6	40.9
Specialty	68.2	60.2	13.3
Impairment charges	—	(382.6)	NMF
Restructuring costs	(56.1)	(50.1)	(12.0)
Corporate ⁽²⁾	(115.0)	(125.1)	8.1
Total operating income	<u>\$ 651.9</u>	<u>\$ 257.2</u>	NMF

NMF - Not meaningful

- (1) For 2012, includes restructuring-related costs associated with Project Renewal of \$4.9 million and \$1.2 million attributable to the Home Solutions and Writing segments, respectively.
- (2) Includes restructuring-related costs of \$24.3 million and \$37.4 million for 2012 and 2011, respectively, associated with the European Transformation Plan and \$4.1 million of restructuring-related costs associated with Project Renewal for 2012. The 2011 operating income also includes \$6.3 million of incremental costs associated with the Company's Chief Executive Officer transition in 2011.

Home Solutions

Net sales for 2012 were \$1,644.0 million, a decrease of \$66.2 million, or 3.9%, from \$1,710.2 million for 2011. Core sales declined 3.6%, primarily due to continuing challenges in the Décor business and also due to a change in merchandising strategy by a significant retail customer in North America, which impacted the Décor and Culinary businesses. Excluding the impacts of currency, sales at the segment's North American and international businesses declined 3.6% and 1.5%, respectively. Foreign currency had an unfavorable impact of 0.3%.

Operating income for 2012 was \$217.5 million, or 13.2% of net sales, a decrease of \$11.4 million, or 5.0%, from \$228.9 million, or 13.4% of net sales, for 2011. The 20 basis point decrease in operating margin is primarily attributable to a reduction in gross margin, as input cost inflation and unfavorable mix were partially offset by pricing and productivity gains. In constant currency, SG&A costs as a percentage of net sales remained relatively unchanged as reductions in SG&A driven by savings realized from Project Renewal were consistent with the declines in net sales.

Writing

Net sales for 2012 were \$1,416.2 million, an increase of \$16.9 million, or 1.2%, from \$1,399.3 million for 2011. Core sales increased 3.2%, driven by a strong back-to-school season and double-digit core sales growth in the Latin American markets due to the rollout of new products, partially offset by a challenging macroeconomic environment in Western Europe which adversely impacted the fine writing business. Excluding the impacts of currency, sales at the segment's North American and international businesses increased 3.0% and 3.3%, respectively. Foreign currency had an unfavorable impact of 2.0%.

Operating income for 2012 was \$261.9 million, or 18.5% of net sales, an increase of \$15.0 million, or 6.1%, from \$246.9 million, or 17.6% of net sales, for 2011. The 90 basis point increase in operating margin is primarily attributable to gross margin expansion, as pricing and productivity more than offset input cost inflation. In constant currency, SG&A costs as a percentage of net sales increased 20 basis points, primarily due to higher brand building and ongoing strategic SG&A spending to support the continued rollout of Paper Mate® InkJoy®.

Tools

Net sales for 2012 were \$806.1 million, an increase of \$26.5 million, or 3.4%, from \$779.6 million for 2011. Core sales increased 7.0% driven by the introduction of new products in North America and continued investment in sales forces in international markets. Excluding the impacts of foreign currency, sales at the segment's North American and international businesses increased 6.6% and 7.7%, respectively. Foreign currency had an unfavorable impact of 3.6%.

Operating income for 2012 was \$109.8 million, or 13.6% of net sales, a decrease of \$9.3 million, or 7.8%, from \$119.1 million, or 15.3% of net sales, for 2011. The 170 basis point decrease in operating margin is partially attributable to input cost inflation and unfavorable mix, partially offset by pricing and productivity. The decrease was also the result of a 100 basis point increase in constant currency SG&A costs as a percentage of net sales due to higher brand building and ongoing strategic SG&A spending, structural SG&A to support geographic expansion, and sustained investment in selling and marketing resources in certain businesses.

Commercial Products

Net sales for 2012 were \$759.7 million, an increase of \$18.2 million, or 2.5%, from \$741.5 million for 2011. Core sales increased 3.6%. Excluding the impacts of foreign currency, sales at the segment's North American businesses increased 6.2% while sales declined 10.1% at international businesses, primarily due to continued softness in the European markets. Foreign currency had an unfavorable impact of 1.1%.

Operating income for 2012 was \$92.9 million, or 12.2% of net sales, a decrease of \$15.4 million, or 14.2%, from \$108.3 million, or 14.6% of net sales, for 2011. The 240 basis point decrease in operating margin is primarily attributable to a 290 basis point increase in constant currency SG&A costs as a percentage of net sales due to higher brand building and ongoing strategic SG&A spending, structural SG&A to support geographic expansion primarily in Latin America, and sustained investments in selling and marketing resources, partially offset by gross margin expansion.

Baby & Parenting

Net sales for 2012 were \$736.1 million, an increase of \$55.7 million, or 8.2%, from \$680.4 million for 2011. Core sales increased 9.8%, which was primarily attributable to improvements in sales at the retail level in North America and sustained growth momentum in the Asia Pacific markets attributable to new products. Excluding the impacts of foreign currency, sales at the segment's North American and international businesses increased 10.5% and 8.8%, respectively. Foreign currency had an unfavorable impact of 1.6%.

Operating income for 2012 was \$72.7 million, or 9.9% of net sales, an increase of \$21.1 million, or 40.9%, from \$51.6 million, or 7.6% of net sales, for 2011. The 230 basis point increase in operating margin is attributable to productivity, favorable mix, and better leverage of constant currency SG&A costs on the net sales increase, partially offset by input cost inflation.

Specialty

Net sales for 2012 were \$540.6 million, a decrease of \$13.0 million, or 2.3%, from \$553.6 million for 2011. Core sales decreased 0.4%, primarily due to declines in the window hardware and interactive teaching technologies product lines, partially offset by increases in labeling. Excluding the impacts of currency, sales at the segment's North American businesses increased 0.9% while sales declined 2.7% at international businesses. Foreign currency had an unfavorable impact of 1.9%.

Operating income for 2012 was \$68.2 million, or 12.6% of net sales, an increase of \$8.0 million, or 13.3%, from \$60.2 million, or 10.9% of net sales, for 2011. The 170 basis point increase in operating margin is attributable to a 280 basis point decrease in constant currency SG&A costs as a percentage of net sales, driven by reductions in strategic SG&A activities, partially offset by input cost inflation.

2011 vs. 2010 Business Segment Operating Results

Net sales by segment were as follows for the years ended December 31, (in millions, except percentages):

	2011	2010	% Change
Home Solutions	\$ 1,710.2	\$ 1,678.0	1.9%
Writing	1,399.3	1,355.8	3.2
Tools	779.6	687.6	13.4
Commercial Products	741.5	683.1	8.5
Baby & Parenting	680.4	700.2	(2.8)
Specialty	553.6	553.5	—
Total net sales	<u>\$ 5,864.6</u>	<u>\$ 5,658.2</u>	3.6

The following table sets forth an analysis of changes in net sales in each segment for 2011 as compared to 2010:

	Home Solutions	Writing	Tools	Commercial Products	Baby & Parenting	Specialty
Core sales	1.2%	0.8%	10.3%	7.4%	(5.5)%	(2.1)%
Foreign currency	0.7	2.4	3.1	1.1	2.7	2.1
Total change in net sales	<u>1.9%</u>	<u>3.2%</u>	<u>13.4%</u>	<u>8.5%</u>	<u>(2.8)%</u>	<u>0.0 %</u>

Operating income (loss) by segment was as follows for the years ended December 31, (in millions, except percentages):

	2011	2010	% Change
Home Solutions	\$ 228.9	\$ 228.3	0.3 %
Writing	246.9	222.4	11.0
Tools	119.1	93.0	28.1
Commercial Products	108.3	134.2	(19.3)
Baby & Parenting	51.6	53.4	(3.4)
Specialty	60.2	66.5	(9.5)
Impairment charges	(382.6)	—	NMF
Restructuring costs	(50.1)	(77.4)	35.3
Corporate ⁽³⁾	(125.1)	(96.9)	(29.1)
Total operating income	<u>\$ 257.2</u>	<u>\$ 623.5</u>	(58.7)%

NMF - Not meaningful figure

(3) Includes restructuring-related costs of \$37.4 million and \$15.2 million for 2011 and 2010, respectively, associated with the European Transformation Plan, and 2011 also includes \$6.3 million of incremental costs associated with the Company's Chief Executive Officer transition in 2011.

Home Solutions

Net sales for 2011 were \$1,710.2 million, an increase of \$32.2 million, or 1.9%, from \$1,678.0 million for 2010. Core sales increased 1.2%, driven by high-single-digit core sales growth at Calphalon due to new product launches and distribution gains. Excluding the impacts of currency, sales at the segment's North American businesses increased 1.4% while sales declined 6.0% at international businesses. Foreign currency had a favorable impact of 0.7%.

Operating income for 2011 was \$228.9 million, or 13.4% of net sales, an increase of \$0.6 million, or 0.3%, from \$228.3 million or 13.6% of net sales, for 2010. The 20 basis point decline in operating margin is primarily attributable to input cost inflation, partially offset by pricing and productivity. In constant currency, SG&A costs as a percentage of net sales decreased 110 basis points due to lower incentive compensation costs.

Writing

Net sales for 2011 were \$1,399.3 million, an increase of \$43.5 million, or 3.2%, from \$1,355.8 million for 2010. Core sales increased 0.8% with low-single-digit core sales growth in fine writing products, partially offset by a modest core sales decline in everyday writing products. Core sales growth for everyday writing products was impacted by an estimated \$5 to \$10 million of sales shifted from 2011 to the fourth quarter of 2010 due to customer order acceleration to qualify for annual volume rebates. Excluding the impacts of currency, sales at the segment's North American businesses remained unchanged while sales increased 2.0% at international businesses. Foreign currency had a favorable impact of 2.4%.

Operating income for 2011 was \$246.9 million, or 17.6% of net sales, an increase of \$24.5 million, or 11.0%, from \$222.4 million, or 16.4% of net sales, for 2010. The 120 basis point increase in operating margin is attributable to a 60 basis point increase in gross margin, as pricing and productivity were partially offset by input cost inflation. In constant currency, SG&A costs as a percentage of net sales decreased 60 basis points due to lower structural SG&A costs, including lower incentive compensation, partially offset by higher strategic SG&A spending to support geographic expansion, new market entries and distribution gains.

Tools

Net sales for 2011 were \$779.6 million, an increase of \$92.0 million, or 13.4%, from \$687.6 million for 2010. Core sales increased 10.3%, driven by double- and high-single-digit core sales growth across the segment. Excluding the impacts of currency, sales at the segment's North American and international businesses increased 8.4% and 13.1%, respectively. Foreign currency had a favorable impact of 3.1%.

Operating income for 2011 was \$119.1 million, or 15.3% of net sales, an increase of \$26.1 million, or 28.1%, from \$93.0 million, or 13.5% of net sales, for 2010. The 180 basis point increase in operating margin is attributable to a 190 basis point decrease in constant currency SG&A as a percentage of net sales due to better leverage of structural SG&A as a result of increased sales, partially offset by the effects of input cost inflation net of pricing and productivity.

Commercial Products

Net sales for 2011 were \$741.5 million, an increase of \$58.4 million, or 8.5%, from \$683.1 million for 2010. Core sales increased 7.4%. Excluding the impacts of currency, sales at the segment's North American businesses increased 9.2% while sales declined 1.2% at international businesses, primarily due to weakness in the European markets. Foreign currency had a favorable impact of 1.1%.

Operating income for 2011 was \$108.3 million, or 14.6% of net sales, a decrease of \$25.9 million, or 19.3%, from \$134.2 million, or 19.6% of net sales, for 2010. The 500 basis point decrease in operating margin is primarily attributable to input cost inflation and unfavorable product mix, partially offset by pricing. In constant currency, SG&A costs as a percentage of net sales increased 130 basis points due to increases in brand building, other strategic SG&A and structural spending to support products and initiatives, partially offset by lower incentive compensation.

Baby & Parenting

Net sales for 2011 were \$680.4 million, a decrease of \$19.8 million, or 2.8%, from \$700.2 million for 2010. Core sales declined 5.5% due primarily to continued economic pressure and declining birth rates in the North American and European markets. Excluding the impacts of currency, sales at the segment's North American and international businesses decreased 8.2% and 1.0%, respectively. Foreign currency had a favorable impact of 2.7%.

Operating income for 2011 was \$51.6 million, or 7.6% of net sales, a decrease of \$1.8 million, or 3.4%, from \$53.4 million, or 7.6% of net sales, for 2010. Operating margins were favorably impacted by pricing and productivity, which more than offset the impacts of inflation. In constant currency, SG&A costs as a percentage of net sales increased 90 basis points due primarily to the

core sales decline as increased investments in strategic SG&A costs were partially offset by lower structural SG&A costs, including lower incentive compensation.

Specialty

Net sales for 2011 were \$553.6 million, an increase of \$0.1 million, or essentially flat, from \$553.5 million for 2010. Core sales decreased 2.1%, driven by double-digit core sales declines at the hardware businesses, partially offset by mid-single-digit core sales growth in the labeling and technology businesses. Excluding the impacts of currency, sales at the segment's North American businesses declined 5.6% while international sales increased 5.3%. Foreign currency had a favorable impact of 2.1%.

Operating income for 2011 was \$60.2 million, or 10.9% of net sales, a decrease of \$6.3 million, or 9.5%, from \$66.5 million, or 12.0% of net sales, for 2010. The 110 basis point decrease in operating margin is primarily attributable to a 190 basis point increase in constant currency SG&A costs as a percentage of net sales. Structural SG&A costs increased as a percentage of net sales as a result of the decrease in core sales. Higher strategic SG&A costs in the technology businesses attributable to investments in strategic initiatives also contributed to the increase in SG&A costs as a percentage of net sales.

Liquidity and Capital Resources

Cash Flows

Cash and cash equivalents increased (decreased) as follows for the years ended December 31, *(in millions)*:

	2012	2011	2010
Cash provided by operating activities	\$ 618.5	\$ 561.3	\$ 582.6
Cash used in investing activities	(163.0)	(206.4)	(153.4)
Cash used in financing activities	(446.0)	(324.6)	(571.9)
Currency effect on cash and cash equivalents	4.1	0.3	4.0
Increase (decrease) in cash and cash equivalents	<u>\$ 13.6</u>	<u>\$ 30.6</u>	<u>\$ (138.7)</u>

In the cash flow statement, the changes in operating assets and liabilities are presented excluding the effects of changes in foreign currency exchange rates and the effects of acquisitions and divestitures. Accordingly, the amounts in the cash flow statement differ from changes in the operating assets and liabilities that are presented in the balance sheets.

Sources

Historically, the Company's primary sources of liquidity and capital resources have included cash provided by operations, proceeds from divestitures, issuance of debt, and use of available borrowing facilities.

Cash provided by operating activities for 2012 was \$618.5 million compared to \$561.3 million for 2011. The \$57.2 million year-over-year increase in operating cash flow was primarily driven by the following:

- improved profitability in 2012 compared to 2011;
- a \$61.7 million decrease in incentive compensation payments made in 2012 compared to 2011; and
- a \$9.2 million decrease in customer program payments during 2012 compared to 2011;

Partially offset by

- a \$41.1 million increase in contributions to the Company's defined benefit plans, including its primary U.S. defined benefit pension plan.

Cash provided by operating activities for 2011 was \$561.3 million compared to cash provided by operating activities of \$582.6 million for 2010. The \$21.3 million year-over-year decline in operating cash flow was primarily driven by the following items:

- higher customer program payments in 2011 compared to 2010, including higher amounts paid in 2011 for amounts earned in 2010 compared to customer program payments in 2010 for amounts earned in 2009, which resulted in an incremental \$114.0 million use of cash in 2011;

Partially offset by

- a \$30.0 million decline in contributions to the Company's primary U.S. defined benefit pension plan, from \$50.0 million in 2010 to \$20.0 million in 2011; and
- a \$43.4 million decline in cash paid for income taxes.

During 2012, the Company received net proceeds of \$106.0 million from its short-term borrowing arrangements compared to \$34.4 million of net payments related to these borrowing arrangements in 2011. The Company's short-term borrowings, which include commercial paper and the receivables financing facility, were \$210.7 million at December 31, 2012 compared to \$103.6 million at December 31, 2011. The increase in short-term borrowings is primarily due to the redemption of the \$436.7 million of the 5.25% Junior Convertible Subordinated Debentures (the "Debentures") in July 2012 and the repayments of an aggregate \$750.0 million principal amount of medium-term notes during 2012, partially offset by proceeds from long-term debt issuances in the second and fourth quarters of 2012. In June 2012, the Company completed the offering and sale of \$500.0 million of unsecured senior notes, consisting of \$250.0 million aggregate principal amount of 2.0% notes due 2015 (the "2015 Notes") and \$250.0 million aggregate principal amount of 4.0% notes due 2022 (the "2022 Notes" and, together with the 2015 Notes, the "Notes"). The aggregate net proceeds from the Notes were \$495.1 million, which were used in July 2012 to fund the redemption of all of the \$436.7 million outstanding principal amount of the Debentures that underlie the convertible preferred securities (the "Preferred Securities"), to reduce short-term borrowings and for general corporate purposes. In December 2012, the Company completed the offering and sale of \$350.0 million aggregate principal amount of the 2.05% notes due 2017 (the "2017 Notes"). The net proceeds of \$346.8 million from the issuance of the 2017 Notes, together with cash on hand and short-term borrowings, were used to repay the \$500.0 million outstanding principal amount of the 5.50% notes due 2013.

In July 2011, the Company sold its hand torch and solder business to an affiliate of Worthington Industries, Inc. ("Worthington") for cash consideration of \$51.0 million, \$8.0 million of which was held in escrow. The cash consideration paid to the Company also provided for settlement of all claims involving the Company's litigation with Worthington. During 2012, the conditions related to the escrow were satisfied and resolved, and the Company received \$7.8 million from the escrow.

During 2011, the Company made net payments of \$34.4 million related to its short-term borrowing arrangements, including commercial paper and its receivables facility, compared to \$133.6 million of net proceeds from these borrowing arrangements in 2010. The net proceeds in 2010 were used primarily to complete the Capital Structure Optimization Plan (the "Plan").

During 2010, the Company substantially completed the Plan. The Plan included the issuance of \$550.0 million of 4.70% senior notes due 2020. The Company used the proceeds from the sale of the new notes, cash on hand, and the \$133.6 million of short-term borrowings to fund the repurchase of \$500.0 million of shares of its common stock through an accelerated stock buyback program and to complete a cash tender offer for its outstanding \$300.0 million principal amount of 10.60% notes due 2019, which resulted in the repurchase of \$279.3 million principal amount of the notes. The Company received \$544.9 million of net proceeds from the issuance of the 4.70% notes due 2020. In addition, the Company received \$71.1 million of net proceeds associated with the settlement of the convertible note hedge and warrant transactions during 2010.

Uses

Historically, the Company's primary uses of liquidity and capital resources have included dividend payments, share repurchases, capital expenditures, payments on debt and acquisitions.

During 2012, the Company retired \$250.0 million outstanding principal amount of 6.75% medium-term notes (the "2012 Notes") at maturity in March 2012, for which interest expense was previously recorded at a rate of approximately 2.3% after contemplating the effect of the terminated interest rate swaps related to the 2012 Notes. In July 2012, the Company redeemed \$436.7 million outstanding principal amount of Debentures that underlie the Preferred Securities. During the third quarter of 2012, the Company repaid an additional \$8.5 million outstanding principal amount of extant 6.11% medium-term notes due 2028 (the "2028 Notes"). In December 2012, the Company repaid \$500.0 million outstanding principal amount of 5.50% notes due in April 2013 (the "2013 Notes") and paid a premium of \$7.1 million due to early repayment. The Company used a combination of short-term borrowings, cash on hand and proceeds from the Notes and the 2017 Notes to repay the 2012 Notes, the 2013 Notes, the 2028 Notes and the Debentures.

During 2011, the Company repaid the remaining \$150.0 million outstanding principal amount of the unsecured three-year \$400.0 million term loan (the "Term Loan"). In connection with the extinguishments of \$20.2 million principal amount of Convertible Notes, the Company paid \$3.1 million in cash to the holders of such Convertible Notes during 2011.

In 2010, the Company completed a cash tender offer for \$279.3 million of \$300.0 million principal amount of 10.60% notes due 2019 and paid cash of \$402.2 million upon settlement. Pursuant to the Plan, the Company also completed an exchange offer for \$324.7 million of \$345.0 million principal amount of Convertible Notes (the "Exchange Offer") and issued 37.7 million shares

of common stock and paid cash consideration of \$52.0 million to holders accepting the Exchange Offer. The Company made payments on medium-term notes and other debt of \$108.6 million and made payments of \$200.0 million on its Term Loan during 2010.

Aggregate dividends paid were \$125.9 million, \$84.9 million and \$55.4 million for 2012, 2011 and 2010, respectively. The Company's Board of Directors approved a 25% increase in the Company's quarterly dividend from \$0.08 per share to \$0.10 per share, effective with the quarterly dividend paid in June 2012, and further increased the quarterly dividend by 50% from \$0.10 per share to \$0.15 per share, effective with the Company's dividend paid in December 2012.

In August 2011, the Company announced a \$300.0 million share repurchase program (the "SRP"). The SRP is authorized to run for a period of three years ending in August 2014. During 2012, the Company repurchased and retired 4.9 million shares pursuant to the SRP for \$91.5 million.

Capital expenditures were \$177.2 million, \$222.9 million and \$164.7 million for 2012, 2011 and 2010, respectively. The largest single capital project in all periods was the implementation of SAP, which represented \$36.2 million, \$65.4 million and \$45.3 million of capital expenditures for 2012, 2011 and 2010, respectively.

During 2012 and 2011, the Company paid \$26.5 million and \$20.0 million, respectively, in connection with acquisitions and acquisition-related activity.

Cash used for restructuring activities was \$48.6 million, \$39.5 million and \$72.8 million for 2012, 2011 and 2010, respectively, and is included in the cash provided by operating activities. These payments relate primarily to employee severance, termination benefits and relocation costs.

In 2012 and 2011, the Company made contributions of \$100.8 million and \$59.7 million, respectively, to its defined benefit plans. In 2013, the Company expects to make contributions of \$144 million, including \$100 million in January 2013 to its primary U.S. defined benefit pension plan.

Cash Conversion Cycle

The Company defines its cash conversion cycle as the sum of inventory and accounts receivable days outstanding (based on cost of products sold and net sales, respectively, for the most recent three-month period, including discontinued operations) minus accounts payable days outstanding (based on cost of products sold for the most recent three-month period, including discontinued operations) at the end of the year. The following table depicts the Company's cash conversion cycle at December 31, (*in number of days*):

	2012	2011	2010
Accounts receivable	67	61	62
Inventory	66	68	69
Accounts payable	(50)	(46)	(47)
Cash conversion cycle	<u>83</u>	<u>83</u>	<u>84</u>

The Company's cash conversion cycle is impacted by the seasonality of its businesses and generally tends to be longer in the first and second quarters, based on historical trends, due to inventory build-ups early in the year for seasonal sales activity and credit terms provided to customers. For 2012, the increase in accounts receivable days is attributable to the timing of sales in the fourth quarter of 2012 compared to the fourth quarter of 2011, and this increase was offset by the combined improvements in inventory and accounts payable days. The Company's cash conversion cycle at December 31, 2012 approximated its cash conversion cycle at December 31, 2011 and 2010. The Company has leveraged the implementation of SAP in North America to improve working capital over the past several years, with a focus on reducing the number of days of inventory on hand.

Financial Position

The Company is committed to maintaining a strong financial position through maintaining sufficient levels of available liquidity, managing working capital, and monitoring the Company's overall capitalization.

- Cash and cash equivalents at December 31, 2012 were \$183.8 million, and the Company had \$800.0 million of borrowing capacity under its revolving credit facility.
- Working capital at December 31, 2012 was \$700.3 million compared to \$487.1 million at December 31, 2011, and the current ratio at December 31, 2012 was 1.45:1 compared to 1.29:1 at December 31, 2011. The increase in working capital

and the current ratio is primarily attributable to an increase in accounts receivable balances due to the timing of sales in the fourth quarter of 2012 compared to the same quarter in 2011 and lower combined levels of short-term and current portion of long-term debt, partially offset by an increase in accounts payable.

- The Company monitors its overall capitalization by evaluating net debt to total capitalization. Net debt to total capitalization is defined as the sum of short- and long-term debt, less cash, divided by the sum of total debt and stockholders' equity, less cash. Net debt to total capitalization was 0.46:1 and 0.52:1 at December 31, 2012 and December 31, 2011, respectively.

The Company has from time to time refinanced, redeemed or repurchased its debt and taken other steps to reduce its debt or lease obligations or otherwise improve its overall financial position and balance sheet. Going forward, depending on market conditions, its cash positions and other considerations, the Company may continue to take such actions.

Borrowing Arrangements

In December 2011, the Company entered into a five-year credit agreement (the "Credit Agreement") with a syndicate of banks. The Credit Agreement provides for an unsecured syndicated revolving credit facility with a maturity date of December 2, 2016, and an aggregate commitment at any time outstanding of up to \$800.0 million (the "Facility"). In December 2012, the Company obtained an extension of the term of the Credit Agreement for a period of one year beyond its original maturity date such that the Credit Agreement will expire on December 1, 2017. The Facility provides the committed backup liquidity for the issuance of commercial paper and accordingly, commercial paper may be issued only up to the amount available for borrowing under the Facility. The Facility also provides for the issuance of up to \$100.0 million of letters of credit, so long as there is a sufficient amount available for borrowing under the Facility. As of December 31, 2012, there were no borrowings or standby letters of credit issued or outstanding under the Facility, and there was no commercial paper outstanding. Concurrent with the Company's entry into the Credit Agreement, the Company terminated its \$665.0 million syndicated revolving credit facility, which was scheduled to expire in November 2012.

In addition to the committed portion of the Facility, the Credit Agreement provides for extensions of competitive bid loans from one or more lenders (at the lenders' discretion) of up to \$500.0 million, which are not a utilization of the amount available for borrowing under the Facility.

In September 2012, the Company renewed its 364-day receivables financing facility that provides for maximum borrowings of up to \$200.0 million such that it will expire in September 2013. As of December 31, 2012, aggregate borrowings of \$200.0 million were outstanding under the facility at a weighted-average interest rate of 0.9%.

The following table presents the maximum and average daily borrowings outstanding under the Company's short-term borrowing arrangements during the years ended December 31, (*in millions*):

<u>Short-term Borrowing Arrangement</u>	2012		2011	
	Maximum	Average	Maximum	Average
Commercial paper	\$ 392.8	\$ 163.6	\$ 214.5	\$ 80.0
Receivables financing facility	200.0	128.3	200.0	160.1

The indentures governing the Company's medium-term notes contain usual and customary nonfinancial covenants. The Company's borrowing arrangements other than the medium-term notes contain usual and customary nonfinancial covenants and certain financial covenants, including minimum interest coverage and maximum debt-to-total-capitalization ratios. As defined by the agreements governing the borrowing arrangements, minimum interest coverage ratio is computed as adjusted Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA") divided by adjusted interest expense for the four most recent quarterly periods. Generally, maximum debt-to-total-capitalization is calculated as the sum of short-term and long-term debt divided by the sum of (i) total debt, (ii) total stockholders' equity and (iii) a specified dollar amount ranging from \$550.0 million to \$750.0 million related to impairment charges incurred by the Company. As of December 31, 2012, the Company had complied with all covenants under the indentures and its other borrowing arrangements, and the Company could access the full borrowing capacity available under the Facility and utilize the \$800.0 million for general corporate purposes without exceeding the debt-to-total-capitalization limits in its financial covenants. A failure to maintain the financial covenants would impair the Company's ability to borrow under the Facility and the receivables facility and may result in the acceleration of the repayment of certain indebtedness.

Debt

The Company has varying needs for short-term working capital financing as a result of the seasonal nature of its business. The volume and timing of production impacts the Company's cash flows and has historically involved increased production in the first quarter of the year to meet increased customer demand through the remainder of the year. Working capital fluctuations have historically been financed through short-term financing arrangements, such as commercial paper or borrowings under the Facility or receivables facility.

As of December 31, 2012, the current portion of long-term debt and short-term debt totaled \$211.9 million, including \$200.0 million of borrowings under the receivables facility.

Total debt was \$1.9 billion and \$2.2 billion as of December 31, 2012 and 2011, respectively, a decrease of \$258.4 million. During 2012, the Company repaid \$250.0 million of the 2012 Notes and repaid \$8.5 million of the 2028 Notes. In July 2012, the Company redeemed the \$436.7 million outstanding principal amount of the Debentures that underlie the Preferred Securities. In December 2012, the Company repaid the \$500.0 million of 2013 Notes. The decrease in total debt due to repayments in 2012 was partially offset by issuances of an aggregate of \$850 million principal amount of medium-term notes and a \$100.0 million increase in borrowings under the receivables facility during 2012.

The following table presents the average outstanding debt and weighted-average interest rates for the years ended December 31, (in millions, except percentages):

	2012	2011	2010
Average outstanding debt	\$ 2,195.5	\$ 2,351.3	\$ 2,461.0
Average interest rate ⁽¹⁾	3.5%	3.6%	4.8%

(1) The average interest rate includes the impacts of fixed-for-floating interest rate swaps.

The Company's floating-rate debt, which includes medium-term notes that are subject to fixed-for-floating interest rate swaps, was 51.7% and 17.7% of total debt as of December 31, 2012 and 2011, respectively. The increase in floating-rate debt is primarily due to fixed-for-floating interest rate swaps related to \$500.0 million of 4.7% medium-term notes due 2020 that were entered into during 2012, whereas in 2011, the Company terminated and settled fixed-for-floating interest rate swaps relating to \$750.0 million principal amount of medium-term notes. Additionally, borrowings under the receivables facility were \$200.0 million at December 31, 2012, an increase of \$100.0 million compared to December 31, 2011. See Footnote 9 of the Notes to Consolidated Financial Statements for further details.

Pension and Other Postretirement Plan Obligations

The Company sponsors pension plans in the U.S. and in various other countries. The Company's ongoing funding requirements for its pension plans are largely dependent on the value of each of the plan's assets and the investment returns realized on plan assets, as well as the interest rate environment. In 2012 and 2011, the Company made cash contributions of \$48.5 million and \$20.4 million, respectively, to its primary U.S. defined benefit pension plan. The Company expects to contribute approximately \$144 million to its worldwide pension and other postretirement plans in 2013, which includes \$100 million contributed in January 2013 to its primary U.S. defined benefit pension plan.

Future increases or decreases in pension liabilities and required cash contributions are highly dependent on changes in interest rates and the actual return on plan assets. During 2012, the projected benefit obligations of the Company's defined benefit plans increased approximately \$170 million, primarily due to the decline in interest rates. The Company determines its plan asset investment mix, in part, on the duration of each plan's liabilities. To the extent each plan's assets decline in value or do not generate the returns expected by the Company or to the extent the pension liabilities increase due to declines in interest rates or otherwise, the Company may be required to make contributions to the pension plans to ensure the pension obligations are adequately funded as required by law or mandate.

Dividends

The Company's Board of Directors approved a 25% increase in the Company's quarterly dividend from \$0.08 per share to \$0.10 per share, effective with the quarterly dividend paid in June 2012, and further increased the quarterly dividend by 50% from \$0.10 per share to \$0.15 per share, effective with the Company's dividend paid in December 2012. The Company intends to maintain dividends at a level such that operating cash flows can be used to fund growth initiatives and restructuring activities, and at the Company's discretion, to repay outstanding debt.

The payment of dividends to holders of the Company's common stock remains at the discretion of the Board of Directors and will depend upon many factors, including the Company's financial condition, earnings, legal requirements, payout ratio and other factors the Board of Directors deems relevant.

Share Repurchase Program

In August 2011, the Company announced a \$300.0 million share repurchase program (the "SRP"). Under the SRP, the Company may repurchase its own shares of common stock through a combination of a 10b5-1 automatic trading plan, discretionary market purchases or in privately negotiated transactions. The SRP is authorized to run for a period of three years ending in August 2014. During 2012, the Company repurchased 4.9 million shares pursuant to the SRP for \$91.5 million, and such shares were immediately retired. From the commencement of the SRP in August 2011 through December 31, 2012, the Company has repurchased and retired a total of 8.3 million shares for \$137.6 million. During January 2013, the Company purchased an additional 0.5 million shares at an aggregate cost of \$12.3 million. The repurchase of additional shares will depend upon many factors, including the Company's financial condition, liquidity and legal requirements.

Credit Ratings

The Company's credit ratings are periodically reviewed by rating agencies. The Company's current senior and short-term debt credit ratings from three credit rating agencies are listed below:

	Senior Debt Credit Rating	Short-term Debt Credit Rating	Outlook
Moody's Investors Service	Baa3	P-3	Stable
Standard & Poor's	BBB-	A-3	Stable
Fitch Ratings	BBB	F-2	Stable

Outlook

For the year ending December 31, 2013, the Company expects to generate cash flows from operations of \$575 to \$625 million after restructuring and restructuring-related cash payments of \$70 to \$90 million and approximately \$100 million in contributions to the Company's primary U.S. pension plan. The Company plans to fund capital expenditures of approximately \$175 to \$200 million, which include expenditures associated with the implementation of SAP in Brazil.

Overall, the Company believes that available cash and cash equivalents, cash flows generated from future operations, access to capital markets, and availability under the Facility and receivables facility will be adequate to support the cash needs of existing businesses. The Company plans to use available cash, borrowing capacity, cash flows from future operations and alternative financing arrangements to repay debt maturities as they come due, including short-term debt of \$210.7 million, primarily representing borrowings under the receivables facility.

Resolution of Income Tax Contingencies

In 2011 and 2010, the Company recorded \$49.0 million and \$79.3 million, respectively, in net income tax benefits as a result of the favorable resolution of certain tax matters with taxing authorities and the expiration of the statute of limitations on certain tax matters. In 2012, amounts recognized as income tax benefits as a result of the favorable resolution of certain tax matters with taxing authorities and the expiration of the statute of limitations were not material. These benefits are reflected in the Company's 2012, 2011 and 2010 Consolidated Statements of Operations. The ultimate resolution of outstanding tax matters may be different from that reflected in the historical income tax provisions and accruals, which may adversely impact future operating results and cash flows.

Contractual Obligations, Commitments and Off-Balance Sheet Arrangements

The Company has outstanding debt obligations maturing at various dates through 2028. Certain other items, such as purchase commitments and other executory contracts, are not recognized as liabilities in the Company's consolidated financial statements but are required to be disclosed. Examples of items not recognized as liabilities in the Company's consolidated financial statements are commitments to purchase raw materials or inventory that has not yet been received as of December 31, 2012, and future minimum lease payments for the use of property and equipment under operating lease agreements.

The following table summarizes the effect that lease and other material contractual obligations are expected to have on the Company's cash flow in the indicated period. In addition, the table reflects the timing of principal and interest payments on borrowings outstanding as of December 31, 2012. Additional details regarding these obligations are provided in the Notes to Consolidated Financial Statements (*in millions*):

	Payments Due by Period				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Debt ⁽¹⁾	\$ 1,918.4	\$ 211.9	\$ 250.0	\$ 350.0	\$ 1,106.5
Interest on debt ⁽²⁾	453.1	67.2	129.4	121.9	134.6
Operating lease obligations ⁽³⁾	457.3	105.5	149.9	98.0	103.9
Purchase obligations ⁽⁴⁾	742.9	645.6	97.3	—	—
Total contractual obligations⁽⁵⁾	\$ 3,571.7	\$ 1,030.2	\$ 626.6	\$ 569.9	\$ 1,345.0

- (1) Amounts represent contractual obligations based on the earliest date that the obligation may become due, excluding interest, based on borrowings outstanding as of December 31, 2012. Includes \$200.0 million in borrowings under the receivables facility that the Company intends to repay or refinance before maturity in September 2013. For further information relating to these obligations, see Footnote 9 of the Notes to Consolidated Financial Statements.
- (2) Amounts represent estimated interest payable on borrowings outstanding as of December 31, 2012, excluding the impact of interest rate swaps that adjust the fixed rate to a floating rate for \$750.0 million of medium-term notes. Interest on floating-rate debt was estimated using the rate in effect as of December 31, 2012. For further information, see Footnote 9 of the Notes to Consolidated Financial Statements.
- (3) Amounts represent contractual minimum lease obligations on operating leases as of December 31, 2012. For further information relating to these obligations, see Footnote 12 of the Notes to Consolidated Financial Statements.
- (4) Primarily consists of purchase commitments entered into as of December 31, 2012 for finished goods, raw materials, components and services pursuant to legally enforceable and binding obligations, which include all significant terms.
- (5) Total does not include contractual obligations reported on the December 31, 2012 balance sheet as current liabilities, except for current portion of long-term debt and short-term debt.

The Company also has liabilities for uncertain tax positions and unrecognized tax benefits. As a large taxpayer, the Company is under audit from time-to-time by the IRS and other taxing authorities, and it is possible that the amount of the liability for uncertain tax positions and unrecognized tax benefits could change in the coming year. While it is possible that one or more of these examinations may be resolved in the next year, the Company is not able to reasonably estimate the timing or the amount by which the liability will increase or decrease over time; therefore, the \$112.7 million in unrecognized tax benefits, including interest and penalties, at December 31, 2012, is excluded from the preceding table. See Footnote 16 of the Notes to Consolidated Financial Statements for additional information.

Additionally, the Company has obligations with respect to its pension and other postretirement benefit plans, which are excluded from the preceding table. The timing and amounts of the funding requirements are uncertain because they are dependent on interest rates and actual returns on plan assets, among other factors. As of December 31, 2012, the Company had liabilities of \$727.7 million related to its unfunded and underfunded pension and other postretirement benefit plans for which the Company expects to make contributions of \$144 million in 2013. See Footnote 13 of the Notes to Consolidated Financial Statements for further information.

As of December 31, 2012, the Company had \$45.7 million in standby letters of credit primarily related to the Company's self-insurance programs, including workers' compensation, product liability and medical. See Footnote 20 of the Notes to Consolidated Financial Statements for further information.

As of December 31, 2012, the Company did not have any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

Critical Accounting Policies

The Company's accounting policies are more fully described in Footnote 1 of the Notes to Consolidated Financial Statements. As disclosed in that footnote, the preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying footnotes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the Consolidated Financial Statements. The following sections describe the Company's critical accounting policies.

Sales Recognition

Sales of merchandise and freight billed to customers are recognized when title passes and all substantial risks of ownership transfer, which generally occurs either upon shipment or upon delivery based upon contractual terms. Sales are net of provisions for cash discounts, returns, customer discounts (such as volume or trade discounts), cooperative advertising and other sales-related discounts.

Recovery of Accounts Receivable

The Company evaluates the collectibility of accounts receivable based on a combination of factors. When aware of a specific customer's inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position, the Company records a specific reserve for bad debt to reduce the related receivable to the amount the Company reasonably believes is collectible. The Company also records reserves for bad debt for all other customers based on a variety of factors, including the length of time the receivables are past due and historical collection experience. Accounts are reviewed for potential write-off on a case-by-case basis. Accounts deemed uncollectible are written off, net of expected recoveries. If circumstances related to specific customers change, the Company's estimates of the recoverability of receivables could be further adjusted.

Inventory Reserves

The Company reduces its inventory value for estimated obsolete and slow-moving inventory in an amount equal to the difference between the cost of inventory and the net realizable value based upon assumptions about future demand and market conditions. Net provisions for excess and obsolete inventories, including shrink reserves, totaled \$38.3 million, \$26.9 million and \$18.4 million in 2012, 2011 and 2010, respectively, and are included in cost of products sold. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Goodwill and Other Indefinite-Lived Intangible Assets

Goodwill

The Company performs its annual impairment testing of goodwill at a reporting unit level, and all of the Company's goodwill is assigned to the Company's reporting units. For the Company's annual impairment testing in 2012, reporting units, which were referred to as the Company's Global Business Units ("GBU"), were one level below the operating segment level. Effective January 1, 2012, the Company, as part of Project Renewal, implemented certain changes to its organizational structure that resulted in the consolidation of the Company's 13 global business units ("GBU") into nine; and, as a result, the Company performed its annual goodwill impairment testing for the nine GBUs. Acquired businesses, if any, including goodwill arising from such transactions, are integrated into the Company's existing reporting units.

As of July 1, 2012, the Company had nine reporting units with total goodwill of \$2.4 billion. Four of the Company's nine reporting units accounted for over 70 percent of the Company's total goodwill. These four reporting units were as follows: Writing & Creative Expression; Commercial Products; Technology; and Industrial Products & Services.

The Company conducts its annual test of impairment of goodwill as of the first day of the third quarter because it generally coincides with its annual strategic planning process. The Company also tests for impairment if events and circumstances indicate that it is more likely than not that the fair value of a reporting unit is below its carrying amount. For example, if macroeconomic factors, such as consumer demand and consumer confidence, deteriorate materially such that the Company's reporting units' projected sales and operating income decline significantly relative to previous estimates, the Company will perform an interim test to assess whether goodwill is impaired. Other than the annual impairment test, the Company determined that no tests of impairment were necessary during 2012.

In the Company's goodwill impairment testing, if the carrying amount of a reporting unit is greater than its fair value, impairment may be present. Estimates made by management in performing its impairment testing may impact whether or not an impairment charge is necessary and the magnitude of the corresponding impairment charge to the extent one is recorded. The Company uses multiple valuation approaches in its impairment testing, each of which requires estimates to arrive at an estimate of fair value. For the Company's reporting units that are stable businesses and have a history of generating positive operating income and cash flows, the Company relies on a multiple of earnings approach to assess fair value. The material assumptions used to value a reporting unit using this approach are the reporting units' estimated financial performance for the remainder of the year and the applicable multiple to apply to earnings before interest, taxes, depreciation and amortization ("EBITDA"). The estimated financial performance for the remainder of the year is based on the Company's internal forecasting process. To determine the EBITDA multiple, the Company obtains information from third parties on EBITDA multiples observed for recent acquisitions and other transactions in the marketplace for comparable businesses. The Company also evaluates the EBITDA multiples of publicly traded companies that are in the same industry and are comparable to each reporting unit and compares the EBITDA multiples of the publicly traded companies to the multiples used by the Company to estimate the fair value of each reporting unit. The Company evaluates the EBITDA multiples used to value the reporting units relative to the Company's market capitalization plus an equity

control premium. The equity control premium is defined as the sum of the individual reporting units' estimated market values compared to the Company's market value, with the sum of the individual values typically being larger than the market value of the Company. The Company considers premiums paid by acquirers of comparable businesses to determine the reasonableness of the implied control premium.

The EBITDA multiple observed in the marketplace for publicly traded companies that are comparable to the reporting units ranged from 6 to 10. In using the EBITDA multiples, the Company compared the aggregate value of all reporting units to the Company's total market value to validate the aggregate values of the reporting units resulted in a reasonable implied equity control premium. The Company considers several factors in estimating the EBITDA multiple applicable to each reporting unit, including the reporting unit's market position, brand awareness, gross and operating margins, and prospects for growth, among other factors. After adjusting the EBITDA multiples for the reporting units, no potential goodwill impairment was indicated for reporting units for which this approach was used. Furthermore, the Company's equity market value at July 1, 2012 of approximately \$5.3 billion was significantly in excess of its book value of stockholders' equity of approximately \$2.0 billion. For the impairment test as of July 1, 2012, if each reporting unit's EBITDA multiple were reduced by 1.0 from the 6 to 10 multiple used for each reporting unit, all reporting units where the EBITDA multiple approach was used to value the reporting unit would have passed Step 1 of the goodwill impairment test.

The Company relies on a discounted cash flow approach to value reporting units in certain circumstances, such as when the reporting unit is growing at a significantly slower rate than planned, is declining at a significantly faster rate than the overall market, has experienced significant losses, is in a stage of hyper-growth, is executing significant restructuring efforts, or is in a stage of development where it has not yet fully realized the benefits of scale and operating efficiencies. The Company used the discounted cash flow approach to value the Technology reporting unit for the annual impairment test as of July 1, 2012. The material assumptions used to value a reporting unit using the discounted cash flow approach are the future financial performance and cash flows of the reporting unit, the discount rate, long-term sales growth rate, and the working capital investment required. Estimates of future financial performance include estimates of future sales growth rates, raw material and sourced product costs, currency fluctuations, and operating efficiencies to be realized. The Company determines a discount rate based on an estimate of a reasonable risk-adjusted return an investor would expect to realize on an investment in the reporting unit. In using the discounted cash flow approach to value the Technology reporting unit in 2012, the Company used an average compound long-term sales growth rate of 2%, average operating margins generally ranging from 14% to 18%, and a discount rate of 12%. The Company concluded that the Technology reporting unit passed Step 1 of the goodwill impairment test based on the estimated fair value determined using the discounted cash flow approach.

If the discount rate used to estimate the fair value of the Technology reporting unit increased 100 basis points, the estimated fair value of the reporting unit would have declined by approximately \$60 million and would have resulted in a fair value, which was approximately 1% less than the net assets of the reporting unit. Additional valuation procedures would have been required to determine whether the Technology reporting unit's goodwill was impaired, and to the extent goodwill was impaired, the magnitude of the impairment charge. The carrying amount of goodwill assigned to the Technology reporting unit was approximately \$360 million as of July 1, 2012.

The Company continues to implement specific restructuring projects and business and operational strategies to further strengthen the profitability of the Technology reporting unit. The Company continues to monitor whether these initiatives are being executed as planned and are successful in improving the financial performance of the reporting unit. To the extent the Company is not successful in implementing these projects and strategies, it is possible the Company would record goodwill impairment charges associated with the Technology reporting unit in future periods. The Technology reporting unit has been adversely affected by the decline in government spending and its impact on the classroom technology industry, as well as weaker macroeconomic conditions throughout Western Europe.

Other than the Technology reporting unit, the Company has no reporting units whose estimated fair values at July 1, 2012 exceeded net assets by less than 10% of the reporting unit's net assets.

Indefinite-Lived Intangible Assets

The Company's indefinite-lived intangible assets totaled \$310.1 million as of July 1, 2012. The Company adopted Accounting Standards Update ("ASU") 2012-02, "*Testing Indefinite-Lived Intangible Assets for Impairment*," which permits an entity to first perform a qualitative assessment to determine whether it is necessary to perform the quantitative impairment test. Under ASU 2012-02, the Company has an unconditional option to bypass the qualitative assessment for any indefinite-lived intangible asset in any period and proceed directly to performing the quantitative impairment test. Additionally, the Company may resume performing the qualitative assessment in any subsequent period.

In performing the qualitative assessment for each of the Company's indefinite-lived intangible assets, the Company considered events and circumstances that could affect the significant inputs used to determine the fair value of the indefinite-lived intangible asset, including factors such as declines in actual or planned revenue or negative or declining cash flows; input cost inflation that may have a negative effect on future cash flows; legal, regulatory, contractual, political, business or other factors; and, other entity-specific events such as changes in management, key personnel, strategy or customers. Based on the qualitative assessment, if the Company was unable to assert that it is not more likely than not that the indefinite-lived intangible asset is impaired, then the Company would proceed with the quantitative impairment test for such asset.

For the quantitative impairment test, the Company estimates the fair value of its indefinite-lived intangible assets by employing a discounted cash flow model using the relief-from-royalty method, which estimates royalties to be derived in the future use of the asset were the Company to license the use of the trade name. An impairment charge for indefinite-lived intangible assets is recorded if the carrying amount of an indefinite-lived intangible asset exceeds the estimated fair value on the measurement date.

The Company completed its annual impairment test of indefinite-lived intangible assets as of July 1, 2012, and determined that none of its indefinite-lived intangible assets were impaired.

The Company considers qualitative and quantitative factors in determining whether impairment testing of the trademark and trade name assets is necessary at dates other than the annual impairment testing date, such as whether the Company has plans to abandon or significantly reduce the use of a trademark or trade name. Based on consideration of these factors, the Company determined that no impairment indicators have been present, and therefore, impairment testing as of a date other than July 1, 2012 was not required during 2012.

Potential for Future Impairments

As of December 31, 2012, the Company had goodwill of \$2.4 billion and indefinite-lived intangible assets of \$311.1 million. The Company cannot predict the occurrence of events that might adversely affect the reported value of goodwill and other intangible assets. Such events may include, but are not limited to, strategic decisions made in response to economic and competitive conditions, the impact of the economic environment on the Company's customer base and net sales, a material negative change in its relationships with significant customers, or sustained declines in the Company's market capitalization relative to its reported stockholders' equity. The Company periodically evaluates the impact of economic and other conditions on the Company and its reporting units to assess whether impairment indicators are present. The Company may be required to perform additional impairment tests based on changes in the economic environment and other factors, which could result in impairment charges in the future. Although management cannot predict when improvements in macroeconomic conditions will occur, if consumer confidence and consumer spending decline significantly in the future or if commercial and industrial economic activity deteriorates significantly from current levels, it is reasonably likely the Company will be required to record impairment charges in the future.

Capitalized Software Costs

The Company capitalizes costs associated with internal-use software during the application development stage after both the preliminary project stage has been completed and the Company's management has authorized and committed to funding for further project development. Capitalized internal-use software costs include: (i) external direct costs of materials and services consumed in developing or obtaining the software; (ii) payroll and payroll-related costs for employees who are directly associated with and who devote time directly to the project; and (iii) interest costs incurred while developing the software. Capitalization of these costs ceases no later than the point at which the project is substantially complete and ready for its intended purpose. The Company expenses as incurred research and development, general and administrative, and indirect costs associated with internal-use software. In addition, the Company expenses as incurred training, maintenance and other internal-use software costs incurred during the post-implementation stage. Costs associated with upgrades and enhancements of internal-use software are capitalized only if such modifications result in additional functionality of the software. The Company capitalized \$43.9 million of software costs during 2012, which primarily relate to employee, consultant and related personnel costs incurred in the rollout of SAP in the European region and in Brazil. Capitalized software costs net of accumulated amortization were \$269.2 million at December 31, 2012. Capitalized interest costs included in capitalized software were not material as of December 31, 2012.

The Company amortizes internal-use software costs using the straight-line method over the estimated useful life of the software, which typically ranges from 3 to 12 years. Capitalized software costs are evaluated annually for indicators of impairment, including but not limited to a significant change in available technology or the manner in which the software is being used. Impaired items are written down to their estimated fair values.

Other Long-Lived Assets

The Company continuously evaluates if impairment indicators related to its property, plant and equipment and other long-lived assets are present. These impairment indicators may include a significant decrease in the market price of a long-lived asset or asset group, a significant adverse change in the extent or manner in which a long-lived asset or asset group is being used or in its physical

condition, or a current-period operating or cash flow loss combined with a history of operating or cash flow losses or a forecast that demonstrates continuing losses associated with the use of a long-lived asset or asset group. If impairment indicators are present, the Company estimates the future cash flows for the asset or group of assets. The sum of the undiscounted future cash flows attributable to the asset or group of assets is compared to their carrying amount. The cash flows are estimated utilizing various assumptions regarding future revenue and expenses, working capital, and proceeds from asset disposals on a basis consistent with the Company's strategic plan. If the carrying amount exceeds the sum of the undiscounted future cash flows, the Company discounts the future cash flows using a discount rate required for a similar investment of like risk and records an impairment charge as the difference between the fair value and the carrying value of the asset group. Generally, the Company performs its testing of the asset group at the product-line level, as this is the lowest level for which identifiable cash flows are available.

Product Liability Reserves

The Company has a self-insurance program for product liability that includes reserves for self-retained losses and certain excess and aggregate risk transfer insurance. The Company uses historical loss experience combined with actuarial evaluation methods, review of significant individual files and the application of risk transfer programs in determining required product liability reserves. The Company's actuarial evaluation methods take into account claims incurred but not reported when determining the Company's product liability reserve. The Company has product liability reserves of \$33.0 million as of December 31, 2012. While the Company believes that it has adequately reserved for these claims, the ultimate outcome of these matters may exceed the amounts recorded by the Company, and such additional losses may be material to the Company's Consolidated Financial Statements.

Legal and Environmental Reserves

The Company is subject to losses resulting from extensive and evolving federal, state, local, and foreign laws and regulations, as well as contract and other disputes. The Company evaluates the potential legal and environmental losses relating to each specific case and determines the probable loss based on historical experience and estimates of cash flows for certain environmental matters. The estimated losses take into account anticipated costs associated with investigative and remediation efforts where an assessment has indicated that a probable liability has been incurred and the cost can be reasonably estimated. No insurance recovery is taken into account in determining the Company's cost estimates or reserve, nor do the Company's cost estimates or reserve reflect any discounting for present value purposes, except with respect to long-term operations and maintenance, Comprehensive Environmental Response Compensation and Liability ("CERCLA") and other matters which are estimated at present value. The Company's estimate of environmental response costs associated with these matters as of December 31, 2012, ranged between \$21.9 million and \$25.4 million. As of December 31, 2012, the Company had a reserve of \$22.3 million for such environmental response costs in the aggregate, which is included in other accrued liabilities and other noncurrent liabilities in the Consolidated Balance Sheet.

Income Taxes

In accordance with relevant authoritative guidance, the Company accounts for deferred income taxes using the asset and liability approach. Under this approach, deferred income taxes are recognized based on the tax effects of temporary differences between the financial statement and tax bases of assets and liabilities, as measured by current enacted tax rates. Valuation allowances are recorded to reduce the deferred tax assets to an amount that will more likely than not be realized. No provision is made for the U.S. income taxes on the undistributed earnings of non-U.S. subsidiaries, as substantially all such earnings are permanently reinvested.

The Company's income tax provisions are based on calculations and assumptions that are subject to examination by the IRS and other tax authorities. Although the Company believes that the positions taken on previously filed tax returns are reasonable, it has established tax and interest reserves in recognition that various taxing authorities may challenge the positions taken, which could result in additional liabilities for taxes and interest. The Company regularly reviews its deferred tax assets for recoverability considering historical profitability, projected future taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies.

For uncertain tax positions, the Company applies the provisions of relevant authoritative guidance, which requires application of a "more likely than not" threshold to the recognition and derecognition of tax positions. The Company's ongoing assessments of the more likely than not outcomes of tax authority examinations and related tax positions require significant judgment and can increase or decrease the Company's effective tax rate as well as impact operating results. See Footnote 16 of the Notes to Consolidated Financial Statements for further information.

Pensions and Other Postretirement Benefits

Pension and other postretirement benefit costs and liabilities are dependent on assumptions used in calculating such amounts. The primary assumptions include factors such as discount rates, health care cost trend rates, expected return on plan assets, mortality rates and rate of compensation increases, as discussed below:

- *Discount rates:* The Company generally estimates the discount rate for its pension and other postretirement benefit obligations using an iterative process based on a hypothetical investment in a portfolio of high-quality bonds that approximate the estimated cash flows of the pension and other postretirement benefit obligations. The Company believes this approach permits a matching of future cash outflows related to benefit payments with future cash inflows associated with bond coupons and maturities.
- *Health care cost trend rate:* The Company's health care cost trend rate is based on historical retiree cost data, near-term health care outlook, and industry benchmarks and surveys.
- *Expected return on plan assets:* The Company's expected return on plan assets is derived from reviews of asset allocation strategies and historical and anticipated future long-term performance of individual asset classes. The Company's analysis gives consideration to historical returns and long-term, prospective rates of return.
- *Mortality rates:* Mortality rates are based on actual and projected plan experience.
- *Rate of compensation increase:* The rate of compensation increases reflects the Company's long-term actual experience and its outlook, including consideration of expected rates of inflation.

In accordance with generally accepted accounting principles, actual results that differ from the assumptions are accumulated and amortized over future periods, and therefore, generally affect recognized expense in future periods. While management believes that the assumptions used are appropriate, differences in actual experience or changes in assumptions may affect the Company's pension and other postretirement plan obligations and future expense. See Footnote 13 of the Notes to Consolidated Financial Statements for additional information on the assumptions used. The following tables summarize the Company's pension and other postretirement plan assets and obligations included in the Consolidated Balance Sheet as of December 31, 2012 (*in millions*):

	U.S.	International
<i>Pension plan assets and obligations, net:</i>		
Prepaid benefit cost	\$ —	\$ 4.8
Accrued current benefit cost	(9.7)	(4.4)
Accrued noncurrent benefit cost	(453.7)	(101.1)
Net liability recognized in the Consolidated Balance Sheet	<u>\$ (463.4)</u>	<u>\$ (100.7)</u>
		<u>U.S.</u>
<i>Other postretirement benefit obligations:</i>		
Accrued current benefit cost		\$ (12.9)
Accrued noncurrent benefit cost		(145.9)
Liability recognized in the Consolidated Balance Sheet		<u>\$ (158.8)</u>

The following table summarizes the net pretax cost associated with pensions and other postretirement benefit obligations in the Consolidated Statement of Operations for the year ended December 31, (*in millions*):

	2012	2011	2010
Net pension cost	\$ 25.4	\$ 19.5	\$ 21.5
Net postretirement benefit costs	7.2	8.4	9.2
Total	<u>\$ 32.6</u>	<u>\$ 27.9</u>	<u>\$ 30.7</u>

The Company used weighted-average discount rates of 4.6% to determine the expenses for 2012 for the pension and postretirement plans. The Company used a weighted-average expected return on assets of 6.9% to determine the expense for the pension plans for 2012.

The following table illustrates the sensitivity to a change in certain assumptions for the pension and postretirement plan expenses, holding all other assumptions constant (*in millions*):

	Impact on 2012 Expense
25 basis point decrease in discount rate	\$ 0.6
25 basis point increase in discount rate	\$ (0.7)
25 basis point decrease in expected return on assets	\$ 3.0
25 basis point increase in expected return on assets	\$ (3.0)

The total projected benefit obligations of the Company's pension and postretirement plans as of December 31, 2012 were \$1.77 billion and \$158.8 million, respectively. The Company used a weighted-average discount rate of 3.7% to determine the projected benefit obligations for the pension and postretirement plans as of December 31, 2012.

The following table illustrates the sensitivity to a change in certain assumptions for the projected benefit obligation for the pension and postretirement plans, holding all other assumptions constant (*in millions*):

	December 31, 2012 Impact on PBO
25 basis point decrease in discount rate	\$ 68.3
25 basis point increase in discount rate	\$ (65.7)

The Company has \$621.1 million (after-tax) of net unrecognized pension and other postretirement losses (\$931.3 million pretax) included as a reduction to stockholders' equity at December 31, 2012. The unrecognized gains and losses primarily result from changes to life expectancies and other actuarial assumptions, changes in discount rates, as well as actual returns on plan assets being more or less than expected. The unrecognized gain (loss) for each plan is amortized to expense over the life of each plan. The net amount amortized to expense totaled \$24.8 million (pretax) in 2012, and amortization of unrecognized net losses is expected to continue to result in increases in pension and other postretirement plan expenses for the foreseeable future. Changes in actuarial assumptions, changes in discount rates, actual returns on plan assets and changes in the actuarially determined life of the plans impact the amount of unrecognized gain (loss) recognized as expense annually.

Recent Accounting Pronouncements

See Item 8 of Part II, "Financial Statements and Supplementary Data—Footnote 1—Description of Business and Significant Accounting Policies—Recent Accounting Pronouncements."

International Operations

For 2012, 2011 and 2010, the Company's non-U.S. businesses accounted for approximately 32%, 33% and 32% of net sales, respectively (see Footnote 19 of the Notes to Consolidated Financial Statements). Changes in both U.S. and non-U.S. net sales are shown below for the years ended December 31, (*in millions, except percentages*):

	2012	2011	2010	2012 vs. 2011 % Change	2011 vs. 2010 % Change
U.S.	\$ 4,004.5	\$ 3,915.7	\$ 3,870.3	2.3%	1.2%
Non-U.S.	1,898.2	1,948.9	1,787.9	(2.6)	9.0
	<u>\$ 5,902.7</u>	<u>\$ 5,864.6</u>	<u>\$ 5,658.2</u>	<u>0.6%</u>	<u>3.6%</u>

The Company began accounting for its Venezuelan operations using highly inflationary accounting in January 2010. Under highly inflationary accounting, the Company remeasures assets, liabilities, sales and expenses denominated in Bolivar Fuertes into U.S. Dollars using the applicable exchange rate, and the resulting translation adjustments are included in earnings. As of December 31, 2012, the Company's Venezuelan subsidiary had \$63.4 million of net monetary assets denominated in Bolivar Fuertes, and as a result, a 10% increase (decrease) in the applicable exchange rate would result in a one-time estimated pretax charge (benefit) of \$6 million. On an ongoing basis, excluding the impacts of any actions management might otherwise take in response to a change in exchange rates, such as raising or decreasing prices, a 10% increase (decrease) in the exchange rate would unfavorably (favorably) impact annual net sales and operating income by an estimated \$5 million and \$3 million, respectively.

In May 2010, the Venezuelan government enacted reforms to its foreign currency exchange control regulations to close down the parallel exchange market. In early June 2010, the Venezuelan government introduced a newly regulated foreign currency exchange system, Transaction System for Foreign Currency Denominated Securities ("SITME"). Foreign currency exchange through SITME is allowed within a specified band of 4.5 to 5.3 Bolivar Fuerte to U.S. Dollar, but most of the exchanges have been executed at

the rate of 5.3 Bolivar Fuerte to U.S. Dollar. The Company began applying the SITME rate of 5.3 Bolivar Fuerte to U.S. Dollar in May 2010. The transition to the SITME rate from the parallel rate did not have a material impact on the Company's consolidated net sales or operating income for 2010 compared to using the parallel rate for the same period. The transition to the SITME rate did result in a one-time foreign exchange gain of \$5.6 million, which is recognized in other income in 2010. Since the introduction of SITME in June 2010, the Venezuelan government held the rate constant at 5.3 Bolivar Fuerte to U.S. Dollar until February 2013. In February 2013, the exchange rate for Bolivar Fuertes declined to 6.3 Bolivar Fuertes to U.S. Dollar and the SITME rate is no longer available. As a result, the Company expects to record an estimated \$10 million one-time charge in the first quarter of 2013, based on the decline in value of the net monetary assets of its Venezuelan operations that are denominated in Bolivar Fuertes at the time the devaluation is effective. In addition, the Company's 2013 reported net sales and operating income are expected to be adversely impacted by an estimated \$9 million and \$5 million, respectively, due solely to the devaluation of the Bolivar Fuerte.

The Company is unable to predict with certainty whether future devaluations will occur because of the economic uncertainty in Venezuela; however, future devaluations would adversely impact the Company's future financial results. Any change in the rate would not impact reported changes in core sales, which exclude the impact of foreign currency.

Fair Value Measurements

Fair value is a market-based measurement, not an entity-specific measurement, defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. Various valuation techniques exist for measuring fair value, including the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). These valuation techniques are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The authoritative accounting guidance for fair value provides a hierarchy that prioritizes these two inputs to valuation techniques used to measure fair value into three broad levels.

The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets.
- Level 2: Observable inputs other than quoted prices that are directly or indirectly observable for the asset or liability, including quoted prices for similar assets or liabilities in active markets; quoted prices for similar or identical assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

The Company's assets and liabilities adjusted to fair value at least annually are its money market fund investments, included in cash and cash equivalents; mutual fund investments, included in other assets; and derivative instruments, primarily included in prepaid expenses and other, other assets, other accrued liabilities and other noncurrent liabilities, and these assets and liabilities are therefore subject to the measurement and disclosure requirements outlined in the authoritative guidance. The Company determines the fair value of its money market fund investments based on the values of the underlying assets (Level 2) and its mutual fund investments based on quoted market prices (Level 1). The Company generally uses derivatives for hedging purposes, and the Company's derivatives are primarily foreign currency forward contracts and interest rate swaps. The Company determines the fair value of its derivative instruments using standard pricing models and market-based assumptions for all significant inputs, such as yield curves and quoted spot and forward exchange rates. Accordingly, the Company's derivative instruments are classified as Level 2.

Forward-Looking Statements

Forward-looking statements in this Report are made in reliance upon the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may relate to, but are not limited to, information or assumptions about the effects of sales (including pricing), income/(loss), earnings per share, return on equity, return on invested capital, operating income, operating margin or gross margin improvements or declines, Project Renewal, the European Transformation Plan, capital and other expenditures, working capital, cash flow, dividends, capital structure, debt to capitalization ratios, debt ratings, availability of financing, interest rates, restructuring and restructuring-related costs, impairment and other charges, potential losses on divestitures, impacts of changes in accounting standards, pending legal proceedings and claims (including environmental matters), future economic performance, costs and cost savings (including raw material and sourced product inflation, productivity and streamlining), synergies, management's plans, goals and objectives for future operations, performance and growth or the assumptions relating to any of the forward-looking statements. These statements generally are accompanied by words such as

“intend,” “anticipate,” “believe,” “estimate,” “project,” “target,” “plan,” “expect,” “will,” “should,” “would” or similar statements. The Company cautions that forward-looking statements are not guarantees because there are inherent difficulties in predicting future results. Actual results could differ materially from those expressed or implied in the forward-looking statements. Important factors that could cause actual results to differ materially from those suggested by the forward-looking statements include, but are not limited to, the Company’s dependence on the strength of retail, commercial and industrial sectors of the economy in light of the continuation or escalation of the global economic slowdown or regional sovereign debt issues; currency fluctuations; competition with other manufacturers and distributors of consumer products; major retailers’ strong bargaining power; changes in the prices of raw materials and sourced products and the Company’s ability to obtain raw materials and sourced products in a timely manner from suppliers; the Company’s ability to develop innovative new products and to develop, maintain and strengthen its end-user brands; the Company’s ability to expeditiously close facilities and move operations while managing foreign regulations and other impediments; the Company’s ability to implement successfully information technology solutions throughout its organization; the Company’s ability to improve productivity and streamline operations; changes to the Company’s credit ratings; significant increases in the funding obligations related to the Company’s pension plans due to declining asset values, declining interest rates or otherwise; the imposition of tax liabilities greater than the Company’s provisions for such matters; the risks inherent in the Company’s foreign operations and those matters set forth in this Report generally and Item 1A to this Report. In addition, there can be no assurance that the Company has correctly identified and assessed all of the factors affecting the Company or that the publicly available and other information the Company receives with respect to these factors is complete or correct.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

The Company’s market risk is impacted by changes in interest rates, foreign currency exchange rates and certain commodity prices. Pursuant to the Company’s policies, natural hedging techniques and derivative financial instruments may be utilized to reduce the impact of adverse changes in rates and prices. The Company does not hold or issue derivative instruments for trading purposes.

Interest Rates

Interest rate risk is present with both fixed- and floating-rate debt. The Company manages its interest rate exposure through its mix of fixed- and floating-rate debt and its conservative debt ratio target. Interest rate swap agreements designated as fair value hedges are used to mitigate the Company’s exposure to changes in the fair value of fixed-rate debt resulting from fluctuations in benchmark interest rates. Accordingly, benchmark interest rate fluctuations impact the fair value of the Company’s fixed-rate debt, which are offset by corresponding changes in the fair value of the swap agreements. Interest rate swaps may also be used to adjust interest rate exposures when appropriate, based on market conditions, and for qualifying hedges, the interest differential of swaps is included in interest expense. Excluding debt for which a fixed rate has been swapped for a floating rate, fixed-rate debt represented approximately 48.3% of the Company’s \$1.92 billion of total debt as of December 31, 2012.

Foreign Currency Exchange Rates

The Company is exposed to foreign currency risk in the ordinary course of business since a portion of the Company’s sales, expenses and operating transactions is conducted on a global basis in various foreign currencies. To the extent that business transactions are not denominated in the functional currency of the entity entering into the transaction, the Company is exposed to transactional foreign currency exchange rate risk. The Company’s foreign exchange risk management policy emphasizes hedging anticipated intercompany and third-party commercial transaction exposures of one-year duration or less. The Company uses foreign exchange forward contracts as economic hedges for commercial transactions and to offset the future impact of gains and losses resulting from changes in the expected amount of functional currency cash flows to be received or paid upon settlement of the anticipated intercompany and third-party commercial transactions. Gains and losses related to the settlement of qualifying hedges of commercial and intercompany transactions are deferred and included in the basis of the underlying transactions. The Company also uses natural hedging techniques such as offsetting or netting like foreign currency flows and denominating contracts in the appropriate functional currency.

The Company also realizes gains and losses recorded within shareholders’ equity due to the translation of the financial statements from the functional currency of its subsidiaries to U.S. Dollars. The Company utilizes capital structures of foreign subsidiaries combined with forward contracts to minimize its exposure to foreign currency risk. The Company may hedge portions of its net investments in foreign subsidiaries, including intercompany loans, with forward contracts and cross-currency hedges. Gains and losses related to qualifying forward exchange contracts and cross-currency hedges, which are generally used to hedge intercompany loans and net investments in foreign subsidiaries, are recognized in other comprehensive income (loss).

Commodity Prices

The Company purchases certain raw materials, including resin, corrugate, steel, stainless steel, aluminum and other metals, which are subject to price volatility caused by unpredictable factors. The Company's resin purchases are principally comprised of polyethylene and polypropylene in roughly equal quantities. While future movements of raw material costs are uncertain, a variety of programs, including periodic raw material purchases, purchases of raw materials for future delivery and customer price adjustments help the Company address this risk. Where practical, the Company uses derivatives as part of its risk management process.

Financial Instruments

In managing the impact of interest rate changes and foreign currency fluctuations, the Company uses interest rate swaps, foreign currency forward contracts and cross-currency swaps. Derivatives were recorded at fair value in the Company's Consolidated Balance Sheet at December 31, 2012 as follows (*in millions*):

Prepaid expenses and other	\$	0.5
Other assets	\$	38.9
Other accrued liabilities	\$	1.3
Other noncurrent liabilities	\$	7.2

See Footnote 11 of the Notes to Consolidated Financial Statements for additional information on derivatives.

Value at Risk

The amounts shown below represent the estimated potential economic loss that the Company could incur from adverse changes in either interest rates or foreign exchange rates using the value-at-risk estimation model. The value-at-risk model uses historical foreign exchange rates and interest rates to estimate the volatility and correlation of these rates in future periods. It estimates a loss in fair market value using statistical modeling techniques that are based on a variance/covariance approach and includes substantially all market risk exposures (specifically excluding cost and equity method investments). The fair value losses shown in the table below represent the Company's estimate of the maximum loss that could arise in one day. The amounts presented in the table are shown as an illustration of the impact of potential adverse changes in interest and foreign currency exchange rates. The following table sets forth the one-day value-at-risk as of and for the year ended December 31, (*in millions, except percentages*):

Market Risk ⁽¹⁾	2012 Average	December 31, 2012	2011 Average	December 31, 2011	Confidence Level
Interest rates	\$ 6.6	\$ 2.9	\$ 10.3	\$ 10.6	95%
Foreign exchange	\$ 9.7	\$ 6.0	\$ 11.8	\$ 15.5	95%

(1) The Company generally does not enter into material derivative contracts for commodities; therefore, commodity price risk is not shown because the amounts are not material.

The year-over-year decline in value-at-risk for interest rates is primarily due to the Company swapping a fixed rate for a short-term floating rate for \$500 million of the Company's medium-term notes due 2020, because the short-term rate has less risk compared to the longer-term rate and the shorter-term rate has less historical volatility. The year-over-year decline in value-at-risk for foreign exchange is due to generally lower foreign currency positions at December 31, 2012 compared to December 31, 2011 and lower exchange rate volatility in late 2012 compared to late 2011.

The 95% confidence interval signifies the Company's degree of confidence that actual losses would not exceed the estimated losses shown above. The amounts shown here disregard the possibility that interest rates and foreign currency exchange rates could move in the Company's favor. The value-at-risk model assumes that all movements in these rates will be adverse. Actual experience has shown that gains and losses tend to offset each other over time, and it is highly unlikely that the Company could experience losses such as these over an extended period of time. Additionally, since the Company operates globally, and therefore, among a broad basket of currencies, its foreign currency exposure is diversified. These amounts should not be considered projections of future losses, because actual results may differ significantly depending upon activity in the global financial markets.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS AND ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of Newell Rubbermaid Inc. is responsible for the accuracy and internal consistency of the consolidated financial statements and footnotes contained in this annual report.

The Company's management is also responsible for establishing and maintaining adequate internal control over financial reporting. Newell Rubbermaid Inc. operates under a system of internal accounting controls designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of published financial statements in accordance with generally accepted accounting principles. The internal accounting control system is evaluated for effectiveness by management and is tested, monitored and revised as necessary. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2012. In making its assessment, the Company's management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework.

Based on the results of its evaluation, the Company's management concluded that, as of December 31, 2012, the Company's internal control over financial reporting is effective based on those criteria.

The Company's independent registered public accounting firm, Ernst & Young LLP, has audited the financial statements prepared by the management of Newell Rubbermaid Inc. and the effectiveness of Newell Rubbermaid Inc.'s internal control over financial reporting. Their reports on the financial statements and on the effectiveness of Newell Rubbermaid Inc.'s internal control over financial reporting are presented herein.

NEWELL RUBBERMAID INC.

Atlanta, Georgia

March 1, 2013

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of Newell Rubbermaid Inc.

We have audited the accompanying consolidated balance sheets of Newell Rubbermaid Inc. and subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2012. Our audits also included the financial statement schedule listed in the Index at Item 15(a) (2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Newell Rubbermaid Inc. and subsidiaries at December 31, 2012 and 2011, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Newell Rubbermaid Inc.'s internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 1, 2013, expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

Atlanta, Georgia
March 1, 2013

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Board of Directors and Stockholders of Newell Rubbermaid Inc.

We have audited Newell Rubbermaid Inc. and subsidiaries' internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Newell Rubbermaid Inc. and subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Responsibility for Financial Statements and Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Newell Rubbermaid Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Newell Rubbermaid Inc. and subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2012 of Newell Rubbermaid Inc. and subsidiaries and our report dated March 1, 2013 expressed an unqualified opinion thereon. Our audits also included the financial statement schedule listed in the Index at Item 15(a) (2).

NEWELL RUBBERMAID INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOOTNOTE 1

Description of Business and Significant Accounting Policies

Description of Business

Newell Rubbermaid (the “Company”) is a global marketer of consumer and commercial products that help people flourish every day, where they live, learn, work and play. The Company’s products are marketed under a strong portfolio of leading brands, including Rubbermaid[®], Levolor[®], Goody[®], Calphalon[®], Sharpie[®], Paper Mate[®], Parker[®], Waterman[®], Irwin[®], Lenox[®], Graco[®], Aprica[®] and Dymo[®]. The Company’s multi-product offering consists of well-known, name-brand consumer and commercial products in six business segments: Home Solutions; Writing; Tools; Commercial Products; Baby & Parenting; and Specialty.

Principles of Consolidation

The Consolidated Financial Statements include the accounts of the Company, its majority-owned subsidiaries and variable interest entities where the Company is the primary beneficiary, after elimination of intercompany transactions.

Use of Estimates

The preparation of these consolidated financial statements requires the use of certain estimates by management in determining the Company’s assets, liabilities, revenues and expenses, and related disclosures. Actual results could differ from those estimates.

Concentration of Credit Risk

The Company sells products to customers in diversified industries and geographic regions and, therefore, has no significant concentrations of credit risk. The Company continuously evaluates the creditworthiness of its customers and generally does not require collateral.

The Company evaluates the collectibility of accounts receivable based on a combination of factors. When aware of a specific customer’s inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration in the customer’s operating results or financial position, the Company records a specific reserve for bad debt to reduce the related receivable to the amount the Company reasonably believes is collectible. The Company also records reserves for bad debt for all other customers based on a variety of factors, including the length of time the receivables are past due and historical collection experience. Accounts are also reviewed for potential write-off on a case-by-case basis. Accounts deemed uncollectible are written off, net of expected recoveries. If circumstances related to specific customers change, the Company’s estimates of the recoverability of receivables could be further adjusted.

The Company’s forward exchange and option contracts do not subject the Company to risk due to foreign exchange rate movement, because gains and losses on these instruments generally offset gains and losses on the assets, liabilities, and other transactions being hedged. The Company is exposed to credit-related losses in the event of non-performance by counterparties to certain derivative financial instruments. The Company does not obtain collateral or other security to support derivative financial instruments subject to credit risk, but monitors the credit standing of the counterparties.

The credit exposure that results from commodity, interest rate, foreign exchange and other derivatives is the fair value of contracts with a positive fair value as of the reporting date. The credit exposure on the Company’s interest rate and foreign currency derivatives at December 31, 2012 was \$38.9 million and \$0.5 million, respectively.

Sales Recognition

Sales of merchandise and freight billed to customers are recognized when title passes and all substantial risks of ownership change, which generally occurs either upon shipment or upon delivery based upon contractual terms. Sales are net of provisions for cash discounts, returns, customer discounts (such as volume or trade discounts), cooperative advertising and other sales-related discounts.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and highly liquid investments that have a maturity of three months or less when purchased.

Inventories

Inventories are stated at the lower of cost or market value using the last-in, first-out (LIFO) or first-in, first-out (FIFO) methods (see Footnote 5 for additional information). The Company reduces its inventory value for estimated obsolete and slow-moving inventory in an amount equal to the difference between the cost of inventory and the net realizable value based upon estimates about future demand and market conditions. As of December 31, 2012 and 2011, the Company's reserves for excess and obsolete inventory and shrink totaled \$56.9 million and \$59.3 million, respectively. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Property, Plant and Equipment

Property, plant and equipment are stated at cost. Expenditures for maintenance and repairs are expensed as incurred. Depreciation expense is calculated principally on the straight-line basis. Useful lives determined by the Company are as follows: buildings and improvements (20-40 years) and machinery and equipment (3-12 years).

Goodwill and Other Indefinite-Lived Intangible Assets

The Company conducts its annual test for impairment of goodwill and indefinite-lived intangible assets in the third quarter because it coincides with its annual strategic planning process.

The Company evaluates goodwill for impairment annually at the reporting unit level. The Company also tests for impairment if events and circumstances indicate that it is more likely than not that the fair value of a reporting unit is below its carrying amount. If the carrying amount of the reporting unit is greater than the fair value, impairment may be present. The Company assesses the fair value of each reporting unit for its goodwill impairment test based on a discounted cash flow model, an earnings multiple or an actual sales offer received from a prospective buyer, if available. Estimates critical to the Company's fair value estimates using earnings multiples include the projected financial performance of the reporting unit and the applicable earnings multiple. Estimates critical to the Company's fair value estimates under the discounted cash flow model include the discount rate, projected average revenue growth, projected long-term growth rates in the determination of terminal values and product costs.

The Company measures the amount of any goodwill impairment based upon the estimated fair value of the underlying assets and liabilities of the reporting unit, including any unrecognized intangible assets, and estimates the implied fair value of goodwill. An impairment charge is recognized to the extent the recorded goodwill exceeds the implied fair value of goodwill.

The Company evaluates indefinite-lived intangible assets (primarily trademarks and trade names) for impairment annually. The Company also tests for impairment if events and circumstances indicate that it is more likely than not that the fair value of an indefinite-lived intangible asset is below its carrying amount. Estimates critical to the Company's evaluation of indefinite-lived intangible assets for impairment include the discount rate, royalty rates used in its evaluation of trade names, projected average revenue growth and projected long-term growth rates in the determination of terminal values. An impairment charge is recorded if the carrying amount of an indefinite-lived intangible asset exceeds the estimated fair value on the measurement date.

See Footnote 7 for additional detail on goodwill and other intangible assets.

Other Long-Lived Assets

The Company tests its other long-lived assets for impairment in accordance with relevant authoritative guidance. The Company evaluates if impairment indicators related to its property, plant and equipment and other long-lived assets are present. These impairment indicators may include a significant decrease in the market price of a long-lived asset or asset group, a significant adverse change in the extent or manner in which a long-lived asset or asset group is being used or in its physical condition, or a current period operating or cash flow loss combined with a history of operating or cash flow losses or a forecast that demonstrates continuing losses associated with the use of a long-lived asset or asset group. If impairment indicators are present, the Company estimates the future cash flows for the asset or group of assets. The sum of the undiscounted future cash flows attributable to the asset or group of assets is compared to their carrying amount. The cash flows are estimated utilizing various projections of revenues and expenses, working capital and proceeds from asset disposals on a basis consistent with the strategic plan. If the carrying amount exceeds the sum of the undiscounted future cash flows, the Company determines the assets' fair value by discounting the future cash flows using a discount rate required for a similar investment of like risk and records an impairment charge as the difference between the fair value and the carrying value of the asset group. Generally, the Company performs its testing of the asset group at the product-line level, as this is the lowest level for which identifiable cash flows are available.

Shipping and Handling Costs

The Company records shipping and handling costs as a component of cost of products sold.

Product Liability Reserves

The Company has a self-insurance program for product liability that includes reserves for self-retained losses and certain excess and aggregate risk transfer insurance. The Company uses historical loss experience combined with actuarial evaluation methods, review of significant individual files and the application of risk transfer programs in determining required product liability reserves. The Company's actuarial evaluation methods take into account claims incurred but not reported when determining the Company's product liability reserve. While the Company believes that it has adequately reserved for these claims, the ultimate outcome of these matters may exceed the amounts recorded by the Company, and such additional losses may be material to the Company's Consolidated Financial Statements.

Product Warranties

In the normal course of business, the Company offers warranties for a variety of its products. The specific terms and conditions of the warranties vary depending upon the specific product and markets in which the products were sold. The Company accrues for the estimated cost of product warranty at the time of sale based on historical experience.

Advertising Costs

The Company expenses advertising costs as incurred. Cooperative advertising with customers is recorded in the Consolidated Financial Statements as a reduction of net sales and totaled \$118.5 million, \$120.9 million and \$107.6 million for 2012, 2011 and 2010, respectively. All other advertising costs are recorded in selling, general and administrative expenses and totaled \$146.8 million, \$158.3 million and \$152.9 million in 2012, 2011 and 2010, respectively.

Research and Development Costs

Research and development costs relating to both future and current products are charged to selling, general and administrative expenses as incurred. These costs totaled \$125.4 million, \$130.1 million and \$128.8 million in 2012, 2011 and 2010, respectively.

Derivative Financial Instruments

Derivative financial instruments are generally used to manage certain commodity, interest rate and foreign currency risks. These instruments primarily include interest rate swaps, forward exchange contracts and options. The Company's forward exchange contracts and options do not subject the Company to exchange rate risk because gains and losses on these instruments generally offset gains and losses on the assets, liabilities, and other transactions being hedged. However, these instruments, when settled, impact the Company's cash flows from operations to the extent the underlying transaction being hedged is not simultaneously settled due to an extension, a renewal or otherwise.

On the date when the Company enters into a derivative, the derivative is designated as a hedge of the identified exposure. The Company measures effectiveness of its hedging relationships both at hedge inception and on an ongoing basis.

Interest Rate Risk Management

Gains and losses on interest rate swaps designated as cash flow hedges, to the extent that the hedge relationship has been effective, are deferred in other comprehensive income (loss) and recognized in interest expense over the period in which the Company recognizes interest expense on the related debt instrument. The fair value of interest rate swaps on long-term debt designated as fair value hedges, to the extent the hedge relationship is effective, are recorded as an asset or liability with a corresponding adjustment to the carrying value of the debt. Any ineffectiveness on these instruments is immediately recognized in interest expense in the period that the ineffectiveness occurs.

Gains or losses resulting from the early termination of interest rate swaps previously designated as fair value hedges are deferred as an increase or decrease to the carrying value of the related debt and amortized as an adjustment to the yield of the related debt instrument over the remaining period originally covered by the swap. The cash received or paid relating to the termination of interest rate swaps is included in accrued liabilities and other as an operating activity in the Consolidated Statements of Cash Flows.

Foreign Currency Management

The Company utilizes forward exchange contracts and options to manage foreign exchange risk related to both known and anticipated intercompany transactions and third-party commercial transaction exposures of approximately one year in duration or less. For instruments designated as cash flow hedges, the effective portion of the changes in fair value of these instruments is reported in other comprehensive income (loss) and reclassified into earnings in the same period or periods in which the hedged transactions affect earnings. Any ineffective portion is immediately recognized in earnings. For instruments designated as fair

value hedges, the changes in fair value are reported in earnings, generally offsetting the change in value of the underlying instrument being hedged.

Gains and losses related to qualifying forward exchange contracts, which hedge certain anticipated transactions, are recognized in other comprehensive income (loss) until the underlying transaction occurs.

The fair values of foreign currency hedging instruments are recorded within Prepaid expenses and other and Other accrued liabilities in the Consolidated Balance Sheets based on the maturity of the Company's forward contracts at December 31, 2012 and 2011. The earnings impact of cash flow hedges relating to forecasted purchases of inventory is generally reported in cost of products sold to match the underlying transaction being hedged. For hedged forecasted transactions, hedge accounting is discontinued if the forecasted transaction is no longer probable of occurring, in which case previously deferred hedging gains or losses would be recorded to earnings immediately.

Foreign Currency Translation

Assets and liabilities of foreign subsidiaries are translated into U.S. dollars at the rates of exchange in effect at year-end. The related translation adjustments are made directly to accumulated other comprehensive income (loss). Income and expenses are translated at the average monthly rates of exchange in effect during the year. Gains and losses from foreign currency transactions of these subsidiaries are included in net income (loss). International subsidiaries operating in highly inflationary economies remeasure nonmonetary assets at historical rates, while net monetary assets are remeasured at current rates, with the resulting remeasurement adjustment included in net income (loss) as other expense, net.

The Company designates certain foreign currency denominated, long-term intercompany financing transactions as being of a long-term investment nature and records gains and losses on the transactions arising from changes in exchange rates as translation adjustments.

The Company considers Venezuela a highly inflationary economy. Accounting standards require the functional currency of foreign operations operating in highly inflationary economies to be the same as the reporting currency of the Company. Accordingly, the functional currency of the Company's Venezuelan operations is the U.S. Dollar. The Company's Venezuelan operations had \$63.4 million of net monetary assets denominated in Bolivar Fuertes as of December 31, 2012, which are subject to changes in value based on changes in the exchange rate for Bolivar Fuertes. In future periods, foreign exchange gains (losses) arising due to the appreciation (depreciation) of Bolivar Fuertes versus the U.S. Dollar will result in one-time benefits (charges) in each reporting period during which such exchange rate changes become effective. Throughout 2012 and 2011, the Company used the exchange rate of the Transaction System for Foreign Currency Denominated Securities (SITME) of 5.3 Bolivar Fuertes to U.S. Dollar. During 2012, 2011 and 2010, the Company's Venezuelan operations generated less than 1% of consolidated net sales.

In February 2013, the exchange rate for Bolivar Fuertes declined to 6.3 Bolivar Fuertes to U.S. Dollar, and as a result, the Company expects to record a charge to other expense to reduce the value of the net monetary assets of its Venezuelan operations that are denominated in Bolivar Fuertes.

Income Taxes

The Company accounts for deferred income taxes using the asset and liability approach. Under this approach, deferred income taxes are recognized based on the tax effects of temporary differences between the financial statement and tax bases of assets and liabilities, as measured by current enacted tax rates. Valuation allowances are recorded to reduce the deferred tax assets to an amount that will more likely than not be realized. No provision is made for the U.S. income taxes on the undistributed earnings of non-U.S. subsidiaries that are considered to be permanently invested.

The Company's income tax provisions are based on calculations and assumptions that are subject to examination by the Internal Revenue Service and other tax authorities. Although the Company believes that the positions taken on previously filed tax returns are reasonable, it has established tax and interest reserves in recognition that various taxing authorities may challenge the positions taken, which could result in additional liabilities for taxes and interest. The Company regularly reviews its deferred tax assets for recoverability considering historical profitability, projected future taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies.

The authoritative guidance requires application of a "more likely than not" threshold to the recognition and derecognition of tax positions. The Company's ongoing assessments of the more likely than not outcomes of tax authority examinations and related tax positions require significant judgment and can increase or decrease the Company's effective tax rate, as well as impact operating results.

Stock-Based Compensation

Stock-based compensation expense is adjusted for estimated forfeitures and is recognized on a straight-line basis over the requisite service period of the award, which is generally three to five years for stock options and one to three years for restricted stock units and performance-based restricted stock units. The Company estimates future forfeiture rates based on its historical experience. See Footnote 15 for additional information.

Recent Accounting Pronouncements

Changes to U.S. Generally Accepted Accounting Principles (“US GAAP”) are established by the Financial Accounting Standards Board (“FASB”) in the form of accounting standards updates (“ASUs”) to the FASB’s Accounting Standards Codification. The Company considers the applicability and impact of all ASUs.

In June 2011, the FASB issued ASU 2011-05, “*Presentation of Comprehensive Income*,” which requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income, or in two separate but consecutive statements. Additionally, ASU 2011-05 eliminates the option to present comprehensive income and its components as part of the statement of stockholders’ equity. Effective January 1, 2012, the Company adopted ASU 2011-05 as amended by ASU 2011-12, “*Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*.” ASU 2011-12 defers the effective date of provisions in ASU 2011-05 that require presentation of reclassifications out of comprehensive income by income statement line item on the statement of comprehensive income, with all other requirements of ASU 2011-05 unaffected. The Company adopted ASU 2011-05 and ASU 2011-12 beginning January 1, 2012 and has elected to present items of net income and other comprehensive income in two consecutive statements.

In September 2011, the FASB issued ASU 2011-08, “*Intangibles — Goodwill and Other (Topic 350): Testing Goodwill for Impairment*,” which amends existing guidance by giving an entity the option to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If this is the case, a more detailed two-step goodwill impairment test will need to be performed which is used to identify potential goodwill impairments and to measure the amount of goodwill impairment losses to be recognized, if any. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed by the Company after January 1, 2012. The Company adopted the guidance in ASU 2011-08 for its annual goodwill impairment test performed during 2012, and the adoption of the guidance did not have a material impact on the Company's goodwill impairment test.

In July 2012, the FASB issued ASU 2012-02, “*Testing Indefinite-Lived Intangible Assets for Impairment*,” which amends existing guidance by giving an entity the option to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired. If this is the case, a more detailed fair value calculation will need to be performed which is used to identify potential impairments and to measure the amount of impairment losses to be recognized, if any. To perform a qualitative assessment, an entity must identify and evaluate changes in economic, industry and entity-specific events and circumstances that could affect the significant inputs used to determine the fair value of an indefinite-lived intangible asset. ASU 2012-02 is effective for annual and interim impairment tests performed by the Company for fiscal years beginning after September 15, 2012, with early adoption permitted. The Company early adopted the provisions of ASU 2012-02 effective July 1, 2012, which coincided with its annual impairment tests for the year ended December 31, 2012. The adoption of ASU 2012-02 did not have a material impact on the Company's indefinite-lived intangibles impairment test results.

In January 2013, the FASB issued ASU 2013-01, “*Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*.” ASU 2013-01 clarifies that ordinary trade receivables are not in the scope of ASU 2011-11, “*Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*.” Specifically, ASU 2011-11 applies only to certain derivatives, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in accordance with specific criteria contained in the accounting standards or subject to a master netting arrangement or similar agreement. Other types of financial assets and financial liabilities subject to a master netting arrangement or similar agreement are no longer subject to the disclosure requirements in ASU 2011-11. ASU 2011-11 and ASU 2013-01 are effective for annual and interim periods beginning after on or after January 1, 2013, and the Company is currently evaluating the impacts the ASUs may have on its financial statement disclosures in future periods.

In February 2013, the FASB issued ASU 2013-02, “*Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*.” ASU 2013-02 finalizes the requirements of ASU 2011-05 that ASU 2011-12 deferred, clarifying how to report the effect of significant reclassifications out of accumulated other comprehensive income. ASU 2013-02 is to be applied prospectively. The Company does not anticipate that the adoption of this ASU will materially change the presentation of its consolidated financial statements.

Other recently issued ASUs were assessed and determined to be either not applicable or are expected to have a minimal impact on the Company's consolidated financial position and results of operations.

FOOTNOTE 2

Discontinued Operations

On July 1, 2011, the Company sold its hand torch and solder business to an affiliate of Worthington Industries, Inc. ("Worthington") for cash consideration of \$51.0 million, \$8.0 million of which was held in escrow for a period of one year. The cash consideration paid in connection with the transaction provided for settlement of all claims involving the Company's litigation with Worthington referenced in Footnote 20. In connection with the sale of the business, the Company transferred net assets with a carrying value of approximately \$11.1 million to Worthington, representing property, plant and equipment, certain intangible assets, and net working capital. The Company allocated \$35.2 million of the Hardware business's goodwill (presently included in the Specialty segment) to the hand torch and solder business on a relative fair value basis as of July 1, 2011, and the \$35.2 million of goodwill was written off in connection with the sale. The Company retained approximately \$13.0 million of accounts receivable associated with the hand torch and solder business that resulted from sales prior to July 1, 2011. During 2012, the conditions related to the escrow were satisfied and resolved, and the Company received \$7.8 million from the escrow and recognized the proceeds as a gain from the sale of the hand torch and solder business in discontinued operations.

The following table provides a summary of amounts included in discontinued operations, which primarily relate to the hand torch and solder business (*in millions*):

	2012	2011	2010
Net sales	\$ —	\$ 58.8	\$ 101.0
Income from operations, net of income tax expense of \$2.6 and \$2.0 for 2011 and 2010, respectively	\$ —	\$ 5.8	\$ 4.6
Gain (loss) on disposal, including income tax expense of \$3.4 and \$1.3 for 2012 and 2011, respectively	1.7	(15.2)	—
Income (loss) from discontinued operations, net of tax	<u>\$ 1.7</u>	<u>\$ (9.4)</u>	<u>\$ 4.6</u>

FOOTNOTE 3

Stockholders' Equity

In August 2011, the Company announced a \$300.0 million three-year share repurchase program (the "SRP"). Under the SRP, the Company may repurchase its own shares of common stock through a combination of a 10b5-1 automatic trading plan, discretionary market purchases or in privately negotiated transactions. The SRP is authorized to run for a period of three years ending in August 2014. During 2012, the Company repurchased 4.9 million shares pursuant to the SRP for \$91.5 million, and such shares were immediately retired. From the commencement of the SRP in August 2011 through December 31, 2012, the Company repurchased and retired 8.3 million shares at an aggregate cost of \$137.6 million.

During 2010, the Company executed a series of transactions pursuant to a Capital Structure Optimization Plan (the "Plan") in order to simplify the Company's capital structure, lower interest costs and reduce potential future dilution from the convertible notes due 2014 (the "Convertible Notes") and the associated hedge and warrant transactions (see Footnotes 9 and 10 of the Notes to Consolidated Financial Statements). The Plan included the issuance of \$550.0 million of 4.70% senior notes due 2020. The Company used the proceeds from the sale of the notes, cash on hand and short-term borrowings to fund the repurchase of \$500.0 million of shares of its common stock through an accelerated stock buyback program; to complete a cash tender offer for any and all of the \$300.0 million principal amount of outstanding 10.60% notes due 2019; and to exchange common stock and cash for any and all of the \$345.0 million principal amount of outstanding Convertible Notes. In addition, the Plan contemplated the settlement of the convertible note hedge and warrant transactions entered into in connection with the issuance of the Convertible Notes in March 2009.

In connection with the Plan, on August 2, 2010, the Company entered into an accelerated stock buyback program (the "ASB") with Goldman, Sachs & Co. ("Goldman Sachs"). Under the ASB, on August 10, 2010, the Company paid Goldman Sachs an initial purchase price of \$500.0 million, and Goldman Sachs delivered approximately 25.8 million shares of common stock to the Company. The final number of shares that the Company purchased under the ASB was determined based on the average of the daily volume-weighted average share prices of the Company's common stock from August 11, 2010 until March 21, 2011, subject to certain adjustments. Based on a calculated per share price of \$17.95, Goldman Sachs delivered 2.0 million additional shares to the Company on March 24, 2011 in connection with the completion of the ASB, and such shares were immediately retired.

In connection with the Plan, on August 17, 2010, the Company commenced an exchange offer for its \$345.0 million outstanding principal amount of Convertible Notes (the "Exchange Offer"). The Company offered to exchange 116.198 shares of its common stock and a cash payment of \$160 for each \$1,000 principal amount of Convertible Notes tendered in the Exchange Offer. Holders of the Convertible Notes exchanged \$324.7 million principal amount of Convertible Notes in the Exchange Offer. The Company issued approximately 37.7 million shares of its common stock valued at \$638.0 million and paid approximately \$52.0 million of cash in exchange for the \$324.7 million principal amount of Convertible Notes and retired the Convertible Notes received in the Exchange Offer. The value of the shares issued in connection with the Exchange Offer, \$638.0 million, increased stockholders' equity, and the value of the equity component of the Convertible Notes received and extinguished in the Exchange Offer, \$334.4 million, reduced stockholders' equity during 2010. See Footnote 9 for further information. The Company settled the convertible note hedge and warrant transactions with the counterparties and received \$369.5 million from the counterparties for the value of the convertible note hedge and paid the counterparties \$298.4 million for the warrants. See Footnote 10 for further information.

In 2011, the Company exchanged 2.3 million shares valued at \$44.7 million and \$3.1 million of cash in exchange for substantially all of the \$20.3 million principal amount of Convertible Notes that remained outstanding after completion of the Exchange Offer. The \$44.7 million value of the shares issued in connection with the transactions increased stockholders' equity, and the value of the equity component of the Convertible Notes received and extinguished in the transactions, \$25.8 million, reduced stockholders' equity. See Footnote 9 for further information.

The following table displays the components of accumulated other comprehensive loss as of and for the year ended December 31, 2012 (*in millions*):

	Foreign Currency Translation Loss, net of tax	Unrecognized Pension & Other Postretirement Costs, net of tax	Derivative Hedging Income (Loss), net of tax	Accumulated Other Comprehensive Loss
Balance at December 31, 2011	\$ (207.1)	\$ (501.3)	\$ 1.4	\$ (707.0)
Current period change	40.6	(119.8)	(2.8)	(82.0)
Balance at December 31, 2012	\$ (166.5)	\$ (621.1)	\$ (1.4)	\$ (789.0)

The following table depicts the components of other comprehensive income (loss) presented on a pretax basis and the associated income tax impact (*in millions*):

	Foreign Currency Translation Income (Loss)	Change in Unrecognized Pension & Other Postretirement Costs	Derivative Hedging Income (Loss)	Other Comprehensive Income (Loss)
2012				
Pretax	\$ 42.1	\$ (156.4)	\$ (4.1)	\$ (118.4)

Tax benefit (expense)	—	30.3	—	30.3
After-tax	\$ (13.1)	\$ (7.0)	\$ 0.3	\$ (19.8)

FOOTNOTE 4

Restructuring Costs

Project Renewal

In October 2011, the Company announced Project Renewal, a program designed to reduce the complexity of the organization and increase investment in growth platforms within the business. In connection with the program, the Company consolidated three operating groups into two and 13 global business units into nine. In addition, the Company consolidated a limited number of manufacturing facilities and distribution centers as part of the program, with the goal of increasing operational efficiency, reducing costs and improving gross margin. In October 2012, the Company committed to an expansion of Project Renewal, designed to

further simplify and align the business around two key activities – Brand & Category Development and Market Execution & Delivery. As part of the expanded program, the Company's Consumer and Professional groups were eliminated and the Company's nine global business units are being streamlined into six business segments. In connection with the expansion, the Company expects to incur incremental cash costs of \$225 to \$250 million, approximately 80% of which are employee-related cash costs, including severance, retirement, and other termination benefits and costs. The Company also expects to record incremental pretax restructuring charges in the range of \$250 to \$275 million over the same period. Cumulative pretax costs of the expanded Project Renewal are expected to be \$340 to \$375 million, with cash costs of \$300 to \$340 million. Project Renewal is expected to be completed by mid-2015.

The following table depicts the restructuring charges incurred in connection with Project Renewal for the year ended December 31, (*in millions*):

	2012	2011	Since Inception Through December 31, 2012
Facility and other exit costs, including impairments	\$ (0.7)	\$ 8.4	\$ 7.7
Employee severance, termination benefits and relocation costs	29.2	18.3	47.5
Exited contractual commitments and other	8.8	4.5	13.3
	<u>\$ 37.3</u>	<u>\$ 31.2</u>	<u>\$ 68.5</u>

Restructuring provisions were determined based on estimates prepared at the time the restructuring actions were approved by management, are periodically updated for changes and also include amounts recognized as incurred. The following table depicts the activity in accrued restructuring reserves for Project Renewal for 2012 and 2011 (*in millions*):

	December 31, 2011		December 31, 2012	
	Balance	Provision	Costs Incurred	Balance
Facility and other exit costs, including impairments	\$ —	\$ (0.7)	\$ 0.7	\$ —

European Transformation Plan

In June 2010, the Company announced a program to centralize its European business (the “European Transformation Plan”). The European Transformation Plan includes initiatives designed to transform the European organizational structure and processes to centralize certain operating activities, improve performance, leverage the benefits of scale, and to contribute to a more efficient and cost-effective implementation of an enterprise resource planning program in Europe, all with the aim of increasing operating margin in the European region to approximately 10%. The implementation of the European Transformation Plan was complete as of December 31, 2012, with cumulative restructuring costs over the life of the initiative totaling \$37.7 million.

Restructuring charges incurred in connection with the European Transformation Plan are reported in the Company’s Corporate segment and were \$18.8 million and \$18.9 million in 2012 and 2011, respectively, while restructuring charges in 2010 were not material.

Restructuring provisions were determined based on estimates prepared at the time the restructuring actions were approved by management, are periodically updated for changes and also include amounts recognized as incurred. The following table depicts the activity in accrued restructuring reserves for the European Transformation Plan for 2012 and 2011 (*in millions*):

	December 31, 2011			December 31, 2012
	Balance	Provision	Costs Incurred	Balance
Employee severance, termination benefits and relocation costs	\$ 6.0	\$ 14.8	\$ (9.9)	\$ 10.9

	December 31, 2010			December 31, 2011
	Balance	Provision	Costs Incurred	Balance
Employee severance, termination benefits and relocation costs	\$ —	\$ 14.9	\$ (8.9)	\$ 6.0
Exited contractual commitments and other	—	4.0	(1.9)	2.1
	<u>\$ —</u>	<u>\$ 18.9</u>	<u>\$ (10.8)</u>	<u>\$ 8.1</u>

Project Acceleration

In 2010, the Company completed a global initiative referred to as Project Acceleration aimed at strengthening and transforming the Company’s portfolio. Project Acceleration was designed to reduce manufacturing overhead, better align the Company’s distribution and transportation processes to achieve logistical excellence, and reorganize the Company’s overall business structure to align with the Company’s core organizing concept, the global business unit, to achieve best total cost. In July 2008, the Company expanded Project Acceleration to include initiatives to exit certain product categories to create a more focused and more profitable platform for growth by eliminating selected low-margin, commodity-like, mostly resin-intensive product categories and reduce the Company’s exposure to volatile commodity markets, particularly resin. The implementation of Project Acceleration was complete as of December 31, 2010, with cumulative restructuring costs over the life of the initiative totaling \$498.4 million.

The table below summarizes the restructuring costs recognized for Project Acceleration restructuring activities for the periods indicated (*in millions*):

	2010	Since Inception Through December 31, 2010
Facility and other exit costs, including impairments	\$ 6.0	\$ 178.4
Employee severance, termination benefits and relocation costs	53.5	241.0
Exited contractual commitments and other	17.9	79.0
	<u>\$ 77.4</u>	<u>\$ 498.4</u>

Restructuring provisions were determined based on estimates prepared at the time the restructuring actions were approved by management, are periodically updated for changes and also include amounts recognized as incurred. Costs incurred include cash payments and the impairment of assets associated with vacated facilities. Impairments included in restructuring charges totaled \$6.0 million for 2010. The impaired assets include vacated land and buildings, land and buildings for which a plan existed to vacate and dispose of the facility, and machinery and equipment to be sold or otherwise disposed of prior to the end of its original estimated useful life. The impairments primarily result from the consolidation of manufacturing activities as well as the increased use of sourcing partners.

A summary of activity in accrued restructuring reserves for continuing operations for 2012 and 2011 is as follows (*in millions*):

	December 31, 2011			December 31, 2012
	Balance	Provision	Costs Incurred	Balance
Employee severance, termination benefits and relocation costs	\$ 3.3	\$ —	\$ (1.5)	\$ 1.8

Baby & Parenting	8.1	22.8
Specialty	—	12.4
Corporate	30.1	78.3
	<u>\$ 77.4</u>	<u>\$ 498.4</u>

The following table depicts the activity in accrued restructuring reserves for 2012 and 2011 aggregated by reportable business segment (*in millions*):

	December 31, 2011			December 31, 2012
Segment	Balance	Provision	Costs Incurred	Balance
Writing	\$ 2.3	\$ —	\$ (1.5)	\$ 0.8
Tools	4.1	—	(1.1)	3.0
Corporate	2.8	—	(1.5)	1.3
	<u>\$ 9.2</u>	<u>\$ —</u>	<u>\$ (4.1)</u>	<u>\$ 5.1</u>

Segment	December 31, 2010			December 31, 2011	
	Balance	Provision	Costs Incurred	Balance	
Home Solutions	\$ 2.1	\$ —	\$ (2.1)	\$ —	
Writing	10.5	—	(8.2)	2.3	
Tools	4.7	—	(0.6)	4.1	
Baby & Parenting	1.9	—	(1.9)	—	
Specialty	0.7	—	(0.7)	—	
Corporate	13.6	—	(10.8)	2.8	
	<u>\$ 33.5</u>	<u>\$ —</u>	<u>\$ (24.3)</u>	<u>\$ 9.2</u>	

The table below shows restructuring costs recognized for all restructuring activities for the periods indicated, aggregated by reportable business segment (*in millions*):

Segment	2012	2011	2010
Home Solutions	\$ 7.6	\$ 7.8	\$ 6.6
Writing	2.4	1.9	23.7
Tools	1.0	—	7.3
Commercial Products	5.6	—	1.6
Baby & Parenting	0.9	2.4	8.1
Specialty	3.4	3.7	—
Corporate	35.2	34.3	30.1
	<u>\$ 56.1</u>	<u>\$ 50.1</u>	<u>\$ 77.4</u>

Cash paid for all restructuring activities included in operating activities was \$48.6 million, \$39.5 million and \$72.8 million for 2012, 2011 and 2010, respectively.

FOOTNOTE 5

Inventories, Net

The components of net inventories were as follows as of December 31, (*in millions*):

	2012	2011
Materials and supplies	\$ 126.6	\$ 130.8
Work in process	109.3	105.6
Finished products	460.5	463.5
	<u>\$ 696.4</u>	<u>\$ 699.9</u>

Inventory costs include direct materials, direct labor and manufacturing overhead, or when finished goods are sourced, the cost is the amount paid to the third party. Cost of certain domestic inventories (approximately 54.4% and 53.3% of gross inventory costs at December 31, 2012 and 2011, respectively) was determined by the LIFO method; for the balance, cost was determined using the FIFO method. As of December 31, 2012 and 2011, LIFO reserves were \$49.8 million and \$41.9 million, respectively. The net income (loss) recognized by the Company related to the liquidation of LIFO-based inventories in 2012, 2011 and 2010 was \$4.2 million, \$(0.5) million and \$8.7 million, respectively.

FOOTNOTE 6

Property, Plant & Equipment, Net

Property, plant and equipment, net, consisted of the following as of December 31, (*in millions*):

	2012	2011
Land	\$ 27.5	\$ 28.5
Buildings and improvements	368.1	381.0
Machinery and equipment	1,748.6	1,743.4
	<u>2,144.2</u>	<u>2,152.9</u>
Accumulated depreciation	(1,584.0)	(1,601.5)
	<u>\$ 560.2</u>	<u>\$ 551.4</u>

Depreciation expense was \$106.7 million, \$110.6 million and \$118.0 million in 2012, 2011 and 2010, respectively.

FOOTNOTE 7

Goodwill and Other Intangible Assets, Net

A summary of changes in the Company's goodwill by reportable business segment is as follows for 2012 and 2011 (*in millions*):

Segment	December 31, 2011 Balance	Acquisitions	Impairment Charges ⁽²⁾	Other Adjustments ⁽¹⁾	Foreign Currency	December 31, 2012 Balance ⁽²⁾
Home Solutions	\$ 226.9	\$ —	\$ —	\$ —	\$ —	\$ 226.9
Writing	764.8	—	—	0.9	0.8	766.5
Tools	480.3	—	—	—	1.9	482.2
Commercial Products	387.5	—	—	—	0.2	387.7
Baby & Parenting	134.0	—	—	(3.4)	(2.6)	128.0
Specialty	372.5	—	—	3.2	3.2	378.9
	<u>\$ 2,366.0</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 0.7</u>	<u>\$ 3.5</u>	<u>\$ 2,370.2</u>

Segment	December 31, 2010 Balance	Acquisitions	Impairment Charges ⁽²⁾	Other Adjustments ⁽¹⁾	Foreign Currency	December 31, 2011 Balance
Home Solutions	\$ 226.9	\$ —	\$ —	\$ —	\$ —	\$ 226.9
Writing	771.8	—	—	—	(7.0)	764.8
Tools	464.6	—	—	15.9	(0.2)	480.3
Commercial Products	387.5	—	—	—	—	387.5
Baby & Parenting	435.7	—	(305.5)	—	3.8	134.0
Specialty	463.0	2.2	(64.7)	(25.2)	(2.8)	372.5
	<u>\$ 2,749.5</u>	<u>\$ 2.2</u>	<u>\$ (370.2)</u>	<u>\$ (9.3)</u>	<u>\$ (6.2)</u>	<u>\$ 2,366.0</u>

- (1) The other adjustment for Baby & Parenting in 2012 was due to the settlement of a contingency that was initially recorded in conjunction with the acquisition of Aprica in 2008. The other adjustment for Specialty for 2011 includes a payment of \$10.0 million for contingent payments relating to the Company's acquisition of PSI Systems, Inc. ("Endicia") in 2007. The contingent payments are based on Endicia's post-acquisition revenues. The other adjustment for 2011 for Specialty also includes the goodwill of the hand torch and solder business that was written off in connection with the sale of the business in 2011.
- (2) Cumulative impairment charges relating to goodwill since January 1, 2002 were \$1,642.4 million as of December 31, 2012 and 2011. Of this amount, \$538.0 million was included in cumulative effect of accounting change, and \$298.9 million was included in discontinued operations.

The Company performs its annual impairment tests of goodwill and indefinite-lived intangibles as of the first day of the Company's third quarter because it coincides with the Company's annual strategic planning process. No impairments were recorded as a result of the annual impairment tests of goodwill and indefinite-lived intangible assets during 2012. The Company recorded non-cash impairment charges of \$382.6 million in 2011 as a result of its annual impairment tests, principally related to goodwill impairments in the Company's Baby & Parenting and Hardware reporting units (included in the Specialty segment). The impairments generally resulted from declines in sales projections relative to previous estimates due to economic and market factors based in large part on actual declines in sales in the first six months of 2011, which adversely impacted projected operating margins and net cash

flows for these reporting units. The decline in anticipated future cash flows adversely affected the estimated fair value of the reporting units calculated using the discounted cash flow approach and resulted in the estimated fair value of the Baby & Parenting and the Hardware reporting units being less than their net assets (including goodwill). In addition to \$370.2 million of goodwill impairments, the Company recorded \$12.4 million of non-cash impairment charges relating to impairments of trade names and other assets. See Footnote 18 for further details.

Other intangible assets, net consisted of the following as of December 31, (*in millions*):

	2012			2011		
	Gross Carrying Amount	Accumulated Amortization	Net Book Value	Gross Carrying Amount	Accumulated Amortization	Net Book Value
Trade names — indefinite life	\$ 311.1	\$ —	\$ 311.1	\$ 311.3	\$ —	\$ 311.3
Trade names — other	42.1	(28.0)	14.1	42.3	(25.1)	17.2
Capitalized software	429.9	(160.7)	269.2	387.1	(125.8)	261.3
Patents	92.2	(68.2)	24.0	88.4	(59.2)	29.2
Customer lists	113.5	(77.9)	35.6	114.6	(67.6)	47.0
Other	3.1	(3.0)	0.1	3.1	(3.0)	0.1
	<u>\$ 991.9</u>	<u>\$ (337.8)</u>	<u>\$ 654.1</u>	<u>\$ 946.8</u>	<u>\$ (280.7)</u>	<u>\$ 666.1</u>

The table below summarizes the Company's amortization periods using the straight-line method for other intangible assets, including capitalized software, as of December 31, 2012:

	Weighted-Average Amortization Period (in years)	Amortization Periods (in years)
Trade names — indefinite life	N/A	N/A
Trade names — other	10	3 – 20 years
Capitalized software	10	3 – 12 years
Patents	7	3 – 14 years
Customer lists	8	3 – 10 years
Other	5	3 – 5 years
	<u>9</u>	

Amortization expense for intangible assets, including capitalized software, was \$57.0 million, \$51.0 million and \$54.3 million in 2012, 2011 and 2010, respectively.

As of December 31, 2012, the aggregate estimated intangible amortization amounts for the succeeding five years are as follows (*in millions*):

2013	2014	2015	2016	2017
\$51.2	\$49.5	\$43.5	\$39.0	\$36.7

Actual amortization expense to be reported in future periods could differ materially from these estimates as a result of acquisitions, changes in useful lives and other relevant factors.

FOOTNOTE 8**Other Accrued Liabilities**

Other accrued liabilities included the following as of December 31, *(in millions)*:

	<u>2012</u>	<u>2011</u>
Customer accruals	\$ 269.8	\$ 250.7
Accruals for manufacturing, marketing and freight expenses	91.6	105.1
Accrued self-insurance liabilities	56.9	66.8
Accrued pension, defined contribution and other postretirement benefits	45.8	54.6
Accrued contingencies, primarily legal, environmental and warranty	38.3	37.2
Accrued restructuring (See Footnote 4)	41.3	33.0
Other	114.3	146.1
Other accrued liabilities	<u><u>\$ 658.0</u></u>	<u><u>\$ 693.5</u></u>

Customer accruals are promotional allowances and rebates, including cooperative advertising, given to customers in exchange for their selling efforts and volume purchased. The self-insurance accrual is primarily casualty liabilities such as workers' compensation, general and product liability and auto liability and is estimated based upon historical loss experience combined with actuarial evaluation methods, review of significant individual files and the application of risk transfer programs.

FOOTNOTE 9**Debt**

The following is a summary of outstanding debt as of December 31, *(in millions)*:

	<u>2012</u>	<u>2011</u>
Medium-term notes	\$ 1,703.9	\$ 1,632.3
Convertible notes	0.1	0.1
Junior convertible subordinated debentures	—	436.7
Receivables facility	200.0	100.0
Other debt	14.4	7.7
Total debt	<u>1,918.4</u>	<u>2,176.8</u>
Short-term debt	(210.7)	(103.6)
Current portion of long-term debt	(1.2)	(263.9)
Long-term debt	<u><u>\$ 1,706.5</u></u>	<u><u>\$ 1,809.3</u></u>

During 2012 and 2011, the Company's average commercial paper obligations outstanding were \$163.6 million and \$80.0 million, respectively, at average interest rates, including fees and commissions, of 2.7% and 2.2%, respectively.

The aggregate maturities of debt outstanding, based on the earliest date the obligation may become due, are as follows as of December 31, 2012 *(in millions)*:

	<u>2013</u>		<u>2014</u>		<u>2015</u>		<u>2016</u>		<u>2017</u>		<u>Thereafter</u>		<u>Total</u>
\$	211.9	\$	—	\$	250.0	\$	—	\$	350.0	\$	1,106.5	\$	1,918.4

Medium-term Notes

The Company's outstanding medium-term notes consisted of the following principal amounts and interest rate swap values as of December 31, (*in millions*):

	2012	2011
6.75% senior notes due 2012	\$ —	\$ 250.0
5.50% senior notes due 2013	—	500.0
2.00% senior notes due 2015	250.0	—
2.05% senior notes due 2017	350.0	—
6.25% senior notes due 2018	250.0	250.0
10.60% senior notes due 2019	20.7	20.7
4.70% senior notes due 2020	550.0	550.0
4.00% senior notes due 2022	250.0	—
6.11% senior notes due 2028	1.5	10.0
Interest rate swaps	31.7	35.8
Unamortized gain on termination of interest rate swaps	—	15.8
Total medium-term notes	<u>\$ 1,703.9</u>	<u>\$ 1,632.3</u>

Average stated interest rate of all medium-term notes outstanding as of December 31, 2012 was 3.94%.

As of December 31, 2012, the Company was party to fixed-for-floating interest rate swaps designated as fair value hedges. The interest rate swaps relate to an aggregate \$750.0 million principal amount of the medium-term notes and result in the Company effectively paying a floating rate of interest on the medium-term notes hedged by the interest rate swap, which includes fixed-for-floating interest rate contracts with third-party financial institutions the Company entered into during 2012 relating to \$500.0 million of the 4.70% medium-term notes due 2020. See Footnote 11 for further details. During 2011, the Company, at its option, terminated and settled certain interest rate swaps related to an aggregate \$750.0 million principal amount of medium-term notes with original maturity dates ranging between March 2012 and April 2013. The Company received cash proceeds of \$22.7 million from counterparties as settlement for the interest rate swaps. Under the relevant authoritative guidance, gains resulting from the early termination of interest rate swaps were deferred and amortized as adjustments to interest expense over the remaining period of the debt originally covered by the interest rate swaps. The cash received from the termination of the interest rate swaps is included in operating activities in accrued liabilities and other in the Consolidated Statement of Cash Flows for 2011.

The medium-term note balances at December 31, 2012 and 2011 include mark-to-market adjustments of \$31.7 million and \$35.8 million, respectively, to record the fair value of the hedges of the fixed-rate debt, and the mark-to-market adjustments had the effect of increasing the reported value of the medium-term notes. Compared to the stated rates of the underlying medium-term notes, the interest rate swaps, including amortization of settled interest rate swaps, had the effect of reducing interest expense by \$21.8 million, \$31.5 million and \$30.3 million for 2012, 2011 and 2010, respectively.

In June 2012, the Company completed the offering and sale of \$500.0 million of unsecured senior notes, consisting of \$250.0 million aggregate principal amount of 2.0% notes due 2015 (the "2015 Notes") and \$250.0 million aggregate principal amount of 4.0% notes due 2022 (the "2022 Notes" and, together with the 2015 Notes, the "Notes"). The aggregate net proceeds from the issuance of the Notes were \$495.1 million and were used to fund the redemption of all of the \$436.7 million of junior convertible subordinated debentures which underlie the outstanding 5.25% convertible preferred securities with an aggregate liquidation preference of \$421.2 million, to reduce short-term borrowings and for general corporate purposes. The Notes are senior obligations of the Company and rank equally with all of its other unsecured and unsubordinated indebtedness from time to time outstanding. The 2015 Notes may be redeemed by the Company at any time and the 2022 Notes may be redeemed at any time prior to the date that is three months prior to the maturity date of the 2022 Notes, in whole or in part, at a redemption price plus accrued and unpaid interest to the date of redemption. The redemption price is equal to the greater of (1) 100% of the principal amount of the Notes being redeemed on the redemption date and (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon (not including any portion of any payments of interest accrued through the date of the redemption), discounted to the date of redemption on a semiannual basis at a specified rate. If the 2022 Notes are redeemed on or after a date that is three months prior to the maturity date of the 2022 Notes, then the redemption price is equal to 100% of the principal amount of the 2022 Notes being redeemed plus accrued interest to such redemption date. The Notes also contain a provision that allows holders of the Notes to require the Company to repurchase all or any part of the Notes if a change of control triggering event occurs. Under this provision, the repurchase of the Notes will occur at a purchase price of 101% of the outstanding principal amount, plus accrued and unpaid interest, if any, on such Notes to the date of repurchase. The Notes are classified as long-term debt in the Company's Consolidated Balance Sheet at December 31, 2012 based on their maturity dates in 2015 and 2022.

In December 2012, the Company completed the offering and sale of \$350.0 million aggregate principal amount of 2.05% notes due 2017 (the "2017 Notes"). The net proceeds of \$346.8 million from the issuance of the 2017 Notes, together with cash on hand and short-term borrowings, were used to repay the \$500.0 million outstanding principal amount of 5.50% notes due 2013. The 2017 Notes are senior obligations of the Company and rank equally with all of its other unsecured and unsubordinated indebtedness from time to time outstanding. The 2017 Notes may be redeemed by the Company at any time prior to the maturity date, in whole or in part, at a redemption price plus accrued and unpaid interest to the date of redemption. The redemption price is equal to the greater of (1) 100% of the principal amount of the 2017 Notes being redeemed on the redemption date and (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon (not including any portion of any payments of interest accrued through the date of the redemption), discounted to the date of redemption on a semiannual basis at a specified rate. The 2017 Notes also contain a provision that allows holders of the 2017 Notes to require the Company to repurchase all or any part of the 2017 Notes if a change of control triggering event occurs. Under this provision, the repurchase of the 2017 Notes will occur at a purchase price of 101% of the outstanding principal amount, plus accrued and unpaid interest, if any, on such 2017 Notes to the date of repurchase. The 2017 Notes are classified as long-term debt in the Company's Consolidated Balance Sheet at December 31, 2012 based on their maturity date in 2017.

In December 2012, the Company repaid and retired the \$500.0 million outstanding principal amount of 5.50% senior notes due April 2013 (the "2013 Notes"). At settlement, the Company made cash payments of \$512.9 million, which included accrued interest of \$5.8 million through settlement and a \$7.1 million premium payable due to the early repayment pursuant to the terms of the 2013 Notes. The Company recognized a loss of \$4.1 million on extinguishment of the 2013 Notes, which includes the \$7.1 million premium net of the remaining \$3.0 million unamortized gain on terminated interest rate swaps attributable to the 2013 Notes.

During 2012, the Company repaid and retired \$250.0 million principal amount of the 6.75% senior notes due March 2012 and repaid and retired \$8.5 million principal amount of extant 6.11% medium-term notes due 2028.

In connection with the Capital Structure Optimization Plan (the "Plan"), the Company completed the offering and sale of \$550.0 million aggregate principal amount of 4.70% senior unsecured notes with a maturity of August 2020 (the "2020 Notes") in August 2010. The net proceeds from this offering were \$544.9 million, which together with cash on hand and short-term borrowings were used to fund the repurchase of \$500.0 million of shares of the Company's common stock through an accelerated buyback program and to complete a cash tender offer for any and all of the \$300.0 million principal amount of outstanding 10.60% notes due 2019. The 2020 Notes are unsecured and unsubordinated obligations of the Company and equally rank with all of its existing and future senior unsecured debt. The 2020 Notes may be redeemed by the Company at any time, in whole or in part, at a redemption price plus accrued and unpaid interest to the date of redemption. The redemption price is equal to the greater of (1) 100% of the principal amount of the 2020 Notes being redeemed on the redemption date and (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon (not including any portion of any payments of interest accrued through the date of the redemption), discounted to the date of redemption on a semiannual basis at a specified rate. The 2020 Notes also contain a provision that allows holders of the 2020 Notes to require the Company to repurchase all or any part of the 2020 Notes if a change of control triggering event occurs. Under this provision, the repurchase of the 2020 Notes will occur at a purchase price of 101% of the outstanding principal amount, plus accrued and unpaid interest, if any, on such 2020 Notes to the date of repurchase. The 2020 Notes are classified as long-term debt in the Company's Consolidated Balance Sheet at December 31, 2012 and 2011 based on their maturity date.

In connection with the Plan, the Company conducted and completed a cash tender offer (the "Tender Offer") in August 2010 through which it repurchased \$279.3 million of the \$300.0 million aggregate principal amount outstanding of 10.60% senior unsecured notes with a maturity of April 2019 (the "10.60% Notes"). The Company repurchased the 10.60% Notes at a fixed cash purchase price of \$1,437.50 per \$1,000 principal amount of the 10.60% Notes and also paid all accrued and unpaid interest on the 10.60% Notes repurchased pursuant to the Tender Offer. As a result of premiums paid and fees incurred associated with the Tender Offer and the write-off of unamortized issuance costs, the Company recorded a pretax loss of \$131.4 million, which is reflected in losses related to extinguishments of debt in the Consolidated Statement of Operations for 2010. The \$402.2 million cash paid to complete the Tender Offer is included as payments on and for the settlement of notes payable and debt in the Consolidated Statement of Cash Flows for 2010. The remaining \$20.7 million principal amount outstanding of the 10.60% Notes is classified as long-term debt due to its maturity in 2019.

Term Loan

In September 2008, the Company entered into a \$400.0 million credit agreement (the "Agreement"), under which the Company received an unsecured three-year term loan in the amount of \$400.0 million (the "Term Loan"). The Company repaid \$100.0 million of the principal amount of the Term Loan in September 2010 and made a \$100.0 million prepayment of the principal amount in December 2010. During 2011, the Company repaid the remaining \$150.0 million outstanding principal amount of the Term Loan based on the maturity date. Borrowings under the Agreement bore interest at a rate of LIBOR plus a spread that was determined based on the credit rating of the Company, and interest was payable no less frequently than monthly.

Convertible Notes

In March 2009, the Company issued \$345.0 million of Convertible Notes. The Convertible Notes bear interest at a rate of 5.5% per year, which is payable semiannually, and the Convertible Notes mature on March 15, 2014. The Convertible Notes are convertible at an initial conversion rate of 116.198 shares of the Company's common stock per \$1,000 principal amount of Convertible Notes (representing an initial conversion price of approximately \$8.61 per share of common stock), subject to adjustment in certain circumstances. Upon conversion, a holder will receive cash up to the aggregate principal amount of the Convertible Notes converted, and cash, shares of common stock or a combination thereof (at the Company's election) in respect of the conversion value above the Convertible Notes' principal amount, if any. The Company entered into convertible note hedge transactions upon issuance to reduce the Company's cost of the conversion option (see Footnote 10).

Accounting standards require the Company, as issuer of the Convertible Notes, to separately account for the liability and equity components of the Convertible Notes in a manner that reflects the Company's nonconvertible debt borrowing rate at the date of issuance when interest cost is recognized in subsequent periods. The Company allocated \$69.0 million of the \$345.0 million principal amount of the Convertible Notes to the equity component, which represents a discount to the debt to be amortized into interest expense using the effective interest method through the maturity of the Convertible Notes. Accordingly, the Company's effective interest rate on the Convertible Notes was 10.8%.

In connection with the Capital Structure Optimization Plan, in September 2010 the Company completed an exchange of newly issued shares of common stock and cash for \$324.7 million of the \$345.0 million outstanding principal amount of the Convertible Notes (the "Exchange Offer"). In the aggregate, the Company paid \$52.0 million in cash and issued 37.7 million shares of the Company's common stock for \$324.7 million principal amount of the Convertible Notes validly offered for exchange by the holders pursuant to the Exchange Offer. In accordance with the applicable authoritative accounting guidance, the Company determined the fair value of the liability component of the Convertible Notes received in the Exchange Offer, with the residual value representing the equity component. The excess of the fair value of the liability component, or \$356.0 million, over the carrying value of the Convertible Notes exchanged, \$275.5 million, was recognized as a loss related to the extinguishment of debt. Including fees incurred associated with the Exchange Offer and the write-off of unamortized issuance costs, the Company recorded a pretax loss of \$87.2 million upon the settlement of the Exchange Offer, which is included in losses related to extinguishments of debt in the Consolidated Statement of Operations for 2010.

In March 2011, the Company completed exchanges of newly issued shares of common stock and cash for an additional \$20.0 million outstanding principal amount of Convertible Notes. The Company paid \$3.1 million in cash and issued 2.3 million shares of the Company's common stock for the \$20.0 million principal amount of Convertible Notes. The Company determined that the fair value of total consideration (including cash) paid to the holders of Convertible Notes, using the fair market value of common stock at settlement, was \$47.4 million. In accordance with the applicable authoritative accounting guidance, the Company determined the fair value of the liability component of the Convertible Notes received, with the residual value representing the equity component. The excess of the fair value of the liability component, or \$21.8 million, over the carrying value of the Convertible Notes exchanged, \$17.3 million, was recognized as a loss related to the extinguishment of debt in 2011. Including the write-off of unamortized issuance costs, the Company recorded a pretax loss of \$4.8 million, which is included in loss related to extinguishment of debt in the Consolidated Statement of Operations for 2011. During 2011, in addition to the March 2011 exchanges, the Company also exchanged an additional \$0.2 million principal amount of the Convertible Notes generally based on the same terms and conditions as offered to the holders of the Convertible Notes in previous exchanges. As of December 31, 2012, \$0.1 million principal amount of the Convertible Notes remained outstanding.

Junior Convertible Subordinated Debentures

In 1997, a 100% owned finance subsidiary (the "Subsidiary") of the Company issued 10.0 million shares of 5.25% convertible preferred securities (the "Preferred Securities"). Holders of the Preferred Securities were entitled to cumulative cash dividends of 5.25% of the liquidation preference of \$50 per Preferred Security, or \$2.625 per year. Each of these Preferred Securities was convertible into 0.9865 of a share of the Company's common stock. During 2005 and 2004, the Company purchased an aggregate of 1.6 million shares of its Preferred Securities from holders at an average price of \$45.27 per share (\$71.3 million).

The proceeds received by the Subsidiary from the issuance of the Preferred Securities were invested in the Company's 5.25% Junior Convertible Subordinated Debentures (the "Debentures"), with a scheduled maturity date of December 1, 2027. In addition, the Subsidiary received approximately \$15.5 million of the Company's Debentures as payment for \$15.5 million the Company borrowed from the Subsidiary to purchase all of the common equity interests in the Subsidiary. As a result, the Company issued an aggregate of \$515.5 million of Debentures, and the Subsidiary was the sole holder of the Debentures.

During 2012, the Company redeemed the \$436.7 million of remaining outstanding Debentures. Because the Preferred Securities were mandatorily redeemable upon the retirement of the Debentures at maturity or upon acceleration of the Debentures, the Preferred Securities were concurrently redeemed at 100% of the liquidation preference of \$421.2 million. In conjunction with the redemption of the Debentures and the Preferred Securities, the Company received cash proceeds of \$15.5 million representing

liquidation of the Company's equity interest in the Subsidiary. The Company repaid the Debentures at 100% of their face amount; therefore, substantially all of the \$6.0 million loss on extinguishment of the Debentures was due to the write-off of deferred financing costs.

Receivables-Related Borrowings

In September 2009, the Company entered into a 364-day receivables facility that provides for borrowings of up to \$200.0 million (the "Receivables Facility"), and the maturity date has been extended such that it expires in September 2013. Under the Receivables Facility, the Company and certain operating subsidiaries (collectively, "the Originators") sell their receivables to a financing subsidiary as the receivables are originated. The financing subsidiary is wholly owned by the Company and is the owner of the purchased receivables and the borrower under the facility. The assets of the financing subsidiary are restricted as collateral for the payment of debt or other obligations arising under the facility, and the financing subsidiary's assets and credit are not available to satisfy the debts and obligations owed to the Company's or any other Originator's creditors. The Company includes the financing subsidiary's assets, liabilities and results of operations in its consolidated financial statements. The Receivables Facility requires, among other things, that the Company maintain certain interest coverage and total indebtedness to total capital ratios, and the Company was in compliance with such requirements as of December 31, 2012. As of December 31, 2012, the financing subsidiary owned \$679.9 million of outstanding accounts receivable, and these amounts are included in accounts receivable, net in the Company's Consolidated Balance Sheet at December 31, 2012. The amount that may be borrowed under the Receivables Facility is subject to various limitations based on the character of the receivables owned by the financing subsidiary. As of December 31, 2012, the Company had outstanding borrowings of \$200.0 million under the Receivables Facility, which have been classified as short-term borrowings and bear interest at a weighted-average rate of 0.9%.

Revolving Credit Facility and Commercial Paper

On December 2, 2011, the Company entered into a five-year credit agreement (the "Credit Agreement") with a syndicate of banks. The Credit Agreement provides for an unsecured syndicated revolving credit facility with a maturity date of December 2, 2016, and an aggregate commitment at any time outstanding of up to \$800.0 million (the "Facility"). During 2012, the Company obtained an extension of the term of the Credit Agreement for a period of one year beyond its original maturity date such that the Credit Agreement will expire on December 1, 2017. The Company may from time to time request increases in the aggregate commitment to up to \$1.25 billion upon the satisfaction of approval requirements. The Company may request extensions of the maturity date of the Facility (subject to lender approval) for additional one-year periods. Borrowings under the Facility will be used for general corporate purposes, and the Facility provides the committed backup liquidity required to issue commercial paper. Accordingly, commercial paper may be issued only up to the amount available for borrowing under the Facility. Under the Facility, the Company may borrow funds on a variety of interest rate terms. The Facility also provides for the issuance of up to \$100.0 million of letters of credit, so long as there is a sufficient amount available for borrowing under the Facility. The Company may borrow, prepay and re-borrow amounts under the Facility at any time prior to termination of the facility. As of December 31, 2012, there were no borrowings or standby letters of credit issued or outstanding under the Facility, and there was no commercial paper outstanding.

In addition to the committed portion of the Facility, the Credit Agreement provides for extensions of competitive bid loans from one or more lenders (at the lenders' discretion) of up to \$500.0 million, which are not a utilization of the amount available for borrowing under the Facility.

The Credit Agreement contains customary representations and warranties, covenants and events of default. The covenants set forth in the Credit Agreement include certain affirmative and negative operational and financial covenants, including, among other things, restrictions on the Company's ability to incur certain liens, make fundamental changes to its business or engage in transactions with affiliates, limitations on the amount of indebtedness that may be incurred by the Company's subsidiaries and a requirement that the Company maintain certain interest coverage and total indebtedness to total capital ratios, as defined in the Credit Agreement. In addition, the Credit Agreement provides for certain events of default, the occurrence of which could result in the acceleration of the Company's obligations under the Credit Agreement and the termination of the lenders' obligation to extend credit pursuant to the Credit Agreement. As of December 31, 2012, the Company was in compliance with the provisions of the Credit Agreement.

FOOTNOTE 10

Convertible Note Hedge and Warrant Transactions

In connection with the issuance of the Convertible Notes in March 2009, the Company entered into separate convertible note hedge transactions and warrant transactions with respect to the Company's common stock to minimize the impact of the potential dilution upon conversion of the Convertible Notes. The Company purchased call options in private transactions to cover 40.1 million shares of the Company's common stock at a strike price of \$8.61 per share, subject to adjustment in certain circumstances, for \$69.0 million. The call options generally allowed the Company to receive shares of the Company's common stock from counterparties equal to the number of shares of common stock payable to the holders of the Convertible Notes upon conversion.

The Company also sold warrants permitting the purchasers to acquire up to 40.1 million shares of the Company's common stock at an exercise price of \$11.59 per share, subject to adjustment in certain circumstances, in private transactions for total proceeds of \$32.7 million.

In September 2010, in connection with the Plan, the Company negotiated settlement of the convertible note hedge and warrants with the Company receiving \$369.5 million from the counterparties for the value of the convertible note hedge and paying the counterparties \$298.4 million for the warrants. As of December 31, 2010, the Company had completely settled the convertible note hedge and warrant transactions and recorded a net increase in additional paid-in capital of \$71.1 million representing the net value associated with the settlement of the convertible note hedge and warrant transactions.

FOOTNOTE 11

Derivatives

The use of financial instruments, including derivatives, exposes the Company to market risk related to changes in interest rates, foreign currency exchange rates and commodity prices. The Company enters into interest rate swaps related to existing debt obligations with initial maturities ranging from five to ten years. The Company uses interest rate swap agreements to manage its interest rate exposure and to achieve a desired proportion of variable and fixed-rate debt. These derivatives are designated as fair value hedges based on the nature of the risk being hedged. The Company also uses derivatives to hedge interest rates on anticipated issuances of debt securities occurring within one year or less of the inception date of the derivative, and the Company uses these instruments to reduce the volatility in future interest payments that would be made pursuant to the anticipated debt issuances. These derivatives are designated as cash flow hedges. The Company uses derivative instruments, such as forward contracts, to manage the risk associated with the volatility of future cash flows denominated in foreign currencies and changes in fair value resulting from changes in foreign currency exchange rates. The Company's foreign exchange risk management policy generally emphasizes hedging transaction exposures of one-year duration or less and hedging foreign currency intercompany financing activities with derivatives with maturity dates of one year or less. The Company uses derivative instruments to hedge various foreign exchange exposures, including the following: (i) variability in foreign currency-denominated cash flows, such as the hedges of inventory purchases for products produced in one currency and sold in another currency and (ii) currency risk associated with foreign currency-denominated operating assets and liabilities, such as forward contracts and other instruments that hedge cash flows associated with intercompany financing activities. Additionally, the Company purchases certain raw materials that are subject to price volatility caused by unpredictable factors. Where practical, the Company uses derivatives as part of its commodity risk management process. The Company reports its derivative positions in the Consolidated Balance Sheets on a gross basis and does not net asset and liability derivative positions with the same counterparty. The Company monitors its positions with, and the credit quality of, the financial institutions that are parties to its financial transactions.

Derivative instruments are accounted for at fair value. The accounting for changes in the fair value of a derivative depends on the intended use and designation of the derivative instrument. For a derivative instrument that is designated and qualifies as a fair value hedge, the gain or loss on the derivative, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk, is recognized in current earnings. For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is initially reported as a component of accumulated other comprehensive income (loss) ("AOCI"), net of tax, and is subsequently reclassified into earnings when the hedged transaction affects earnings. The ineffective portion of the gain or loss is recognized in current earnings. Gains and losses from changes in fair values of derivatives that are not designated as hedges for accounting purposes are recognized currently in earnings, and such amounts were not material for 2012, 2011 and 2010.

The following table summarizes the Company's outstanding derivative instruments and their effects on the Consolidated Balance Sheets as of December 31, 2012 and 2011 (*in millions*):

Derivatives designated as hedging instruments	Balance Sheet Location	Assets		Balance Sheet Location	Liabilities	
		2012	2011		2012	2011
Interest rate swaps	Other assets	\$ 38.9	\$ 35.8	Other noncurrent liabilities	\$ 7.2	\$ —
Foreign exchange contracts on inventory-related purchases	Prepaid expenses and other	0.5	1.9	Other accrued liabilities	0.2	—
Foreign exchange contracts on intercompany borrowings	Prepaid expenses and other	—	0.5	Other accrued liabilities	1.1	—
Total assets		\$ 39.4	\$ 38.2	Total liabilities	\$ 8.5	\$ —

The fair values of outstanding derivatives that are not designated as hedges for accounting purposes were not material as of December 31, 2012 and 2011.

The Company is not a party to any derivatives that require collateral to be posted prior to settlement. During 2012, the Company entered into fixed-for-floating interest rate contracts with third-party financial institutions for \$500.0 million principal amount of medium-term notes due 2020. During the term of these contracts, the Company will receive semi-annual interest payments from the counterparties based on a fixed annual interest rate of 4.70%; and, concurrently, the Company will make semi-annual interest payments at a rate indexed to the LIBOR. During 2011, the Company, at its option, terminated certain interest rate swap contracts that were previously accounted for as fair value hedges. See Footnote 9 for further details.

Fair Value Hedges

The pretax effects of derivative instruments designated as fair value hedges on the Company's Consolidated Statements of Operations for 2012, 2011 and 2010 were as follows (*in millions*):

Derivatives in fair value relationships	Location of gain (loss) recognized in income	Amount of gain (loss) recognized in income		
		2012	2011	2010
Interest rate swaps	Interest expense, net	\$ (4.0)	\$ 16.2	\$ 23.9
Fixed-rate debt	Interest expense, net	\$ 4.0	\$ (16.2)	\$ (23.9)

The Company did not realize any ineffectiveness related to fair value hedges during 2012, 2011 and 2010.

Cash Flow Hedges

The pretax effects of derivative instruments designated as cash flow hedges on the Company's Consolidated Statements of Operations and AOCI for 2012, 2011 and 2010 were as follows (*in millions*):

Derivatives in cash flow hedging relationships	Location of gain (loss) recognized in income	Amount of gain (loss) reclassified from AOCI into income		
		2012	2011	2010
Foreign exchange contracts on inventory-related purchases	Cost of products sold	\$ (0.1)	\$ (5.1)	\$ (1.8)
Foreign exchange contracts on intercompany borrowings	Interest expense, net	(0.1)	(0.7)	0.5
Forward interest rate swaps	Interest expense, net	(0.1)	—	—
Commodity swap	Cost of products sold	(2.9)	—	—
		<u>\$ (3.2)</u>	<u>\$ (5.8)</u>	<u>\$ (1.3)</u>

Derivatives in cash flow hedging relationships	Amount of gain (loss) recognized in AOCI		
	2012	2011	2010
Foreign exchange contracts on inventory-related purchases	\$ (1.7)	\$ (2.8)	\$ (1.4)
Foreign exchange contracts on intercompany borrowings	(2.1)	1.8	4.3
Forward interest rate swaps	(2.5)	—	—
Commodity swap	(2.9)	—	—
	<u>\$ (9.2)</u>	<u>\$ (1.0)</u>	<u>\$ 2.9</u>

During 2012, the Company entered into forward interest rate swap contracts with certain counterparties for an aggregate \$250.0 million notional amount (the "Forward Swaps") to swap floating LIBOR rates with a weighted-average fixed rate of 1.8%. The Forward Swaps had original maturities in March 2013. The Forward Swaps were intended to fix the "risk-free" component of the interest rate of the Company's forecasted debt issuances that were probable of occurring at the time the Forward Swaps were entered into. In November 2012, the Forward Swaps were settled upon the issuance of the \$350.0 million principal amount of 2.05% medium-term notes due 2017 (the "2017 Notes"). The Company determined that the Forward Swaps met the hedge accounting criteria under the relevant authoritative guidance, and accordingly, the Forward Swaps are accounted for as cash flow hedges. Upon the settlement of the Forward Swaps, the Company recognized pretax losses of \$2.5 million in AOCI, and the Company will reclassify these losses into earnings as interest expense over the term of the instruments the Forward Swaps were intended to hedge.

In May 2012, the Company entered into a commodity swap contract with a counterparty for an aggregate \$14.0 million notional amount (the "Commodity Swap") relating to forecasted monthly purchases of resin. The Commodity Swap expired on December 31, 2012 with cash settlement occurring monthly through the expiration date. The Company determined that the Commodity Swap met the hedge accounting criteria under the relevant authoritative guidance, and accordingly, the Commodity Swap was accounted for as a cash flow hedge.

The Company (paid) received \$(0.5) million, \$2.4 million and \$3.8 million to settle foreign exchange contracts on intercompany borrowings during 2012, 2011, and 2010 respectively. Such amounts are included in changes in accrued liabilities and other in the Consolidated Statements of Cash Flows for 2012, 2011 and 2010.

The ineffectiveness related to cash flow hedges during 2012 was not material and the Company did not realize any ineffectiveness related to cash flow hedges during 2011 and 2010. The Company estimates that during the next 12 months it will reclassify losses of \$1.5 million included in the pretax amount recorded in AOCI as of December 31, 2012 into earnings.

FOOTNOTE 12

Commitments

Lease Commitments

The Company leases manufacturing, warehouse and other facilities, real estate, transportation, and data processing and other equipment under leases that expire at various dates through the year 2023. Rent expense, which is recognized on a straight-line basis over the life of the lease term, was \$135.2 million, \$129.4 million and \$122.7 million in 2012, 2011 and 2010, respectively.

Future minimum rental payments for operating leases with initial or remaining terms in excess of one year are as follows as of December 31, 2012 (*in millions*):

2013	2014	2015	2016	2017	Thereafter	Total
\$105.5	\$81.0	\$68.9	\$53.3	\$44.7	\$103.9	\$457.3

Purchase Obligations

The Company enters into certain obligations to purchase finished goods, raw materials, components and services pursuant to legally enforceable and binding obligations, which include all significant terms.

As of December 31, 2012, the Company's future estimated total purchase obligations are as follows (*in millions*):

2013	2014	2015	Total
\$645.6	\$90.9	\$6.4	\$742.9

FOOTNOTE 13

Employee Benefit and Retirement Plans

The Company and its subsidiaries have noncontributory pension, profit sharing and contributory 401(k) plans covering substantially all of their international and domestic employees. Plan benefits are generally based on years of service and/or compensation. The Company's funding policy is to contribute not less than the minimum amounts required by the Employee Retirement Income Security Act of 1974, as amended, the Internal Revenue Code of 1986, as amended, or foreign statutes to ensure that plan assets will be adequate to provide retirement benefits.

Included in AOCI at December 31, 2012 is \$931.3 million (\$621.1 million net of tax) related to net unrecognized actuarial losses and unrecognized prior service credit that have not yet been recognized in net periodic pension cost. The Company expects to recognize \$32.9 million (\$21.6 million net of tax) of costs in 2013 associated with net actuarial losses and prior service credit.

The Company's tax-qualified defined benefit pension plan is frozen for the entire non-union U.S. workforce, and the Company has replaced the defined benefit pension plan with an additional defined contribution benefit arrangement, which has a three-year cliff-vesting schedule. The Company recorded \$19.0 million, \$18.8 million and \$17.9 million in expense for the defined contribution benefit arrangement for 2012, 2011 and 2010, respectively. The liability associated with the defined contribution benefit arrangement as of December 31, 2012 and 2011 is \$18.8 million and is included in other accrued liabilities in the Consolidated Balance Sheets.

As of December 31, 2012 and 2011, the Company maintained various nonqualified deferred compensation plans with varying terms. The total liability associated with these plans was \$65.3 million and \$68.7 million as of December 31, 2012 and 2011, respectively. These liabilities are included in other noncurrent liabilities in the Consolidated Balance Sheets. The Company

maintains assets to offset the impact of the market gains and losses associated with the deferred compensation liabilities, and the values of these assets were \$51.8 million and \$52.0 million as of December 31, 2012 and 2011, respectively. These assets are included in other assets in the Consolidated Balance Sheets.

The Company has a Supplemental Executive Retirement Plan (“SERP”), which is a nonqualified defined benefit plan pursuant to which the Company will pay supplemental pension benefits to certain key employees upon retirement based upon the employees’ years of service and compensation. The SERP is partially funded through a trust agreement with the Northern Trust Company, as trustee, that owns life insurance policies on approximately 400 active and former key employees with aggregate net death benefits of \$300.7 million. At December 31, 2012 and 2011, the life insurance contracts were accounted for using the investment method and had a cash surrender value of \$106.7 million and \$102.3 million, respectively. All premiums paid and proceeds received associated with the life insurance policies are included in accrued liabilities and other in the Consolidated Statements of Cash Flows. The SERP is also partially funded through cash and mutual fund investments, which had a combined value of \$9.2 million and \$12.6 million at December 31, 2012 and 2011, respectively. These assets, as well as the cash surrender value of the life insurance contracts, are included in other assets in the Consolidated Balance Sheets. The projected benefit obligation was \$130.5 million and \$119.9 million at December 31, 2012 and 2011, respectively. The SERP liabilities are included in the pension table below; however, the value of the Company’s investments in the life insurance contracts, cash and mutual funds are excluded from the table, as they do not qualify as plan assets.

The Company’s matching contributions to the contributory 401(k) plan were \$14.2 million, \$14.9 million and \$12.9 million for 2012, 2011 and 2010, respectively.

Defined Benefit Pension Plans

The following provides a reconciliation of benefit obligations, plan assets and funded status of the Company’s noncontributory defined benefit pension plans, including the SERP, as of December 31, *(in millions, except percentages)*:

	U.S.		International	
	2012	2011	2012	2011
Change in benefit obligation:				
Benefit obligation at beginning of year	\$ 1,054.9	\$ 969.6	\$ 536.3	\$ 482.6
Service cost	3.0	4.3	7.9	6.0
Interest cost	45.9	49.4	25.2	26.6
Actuarial loss	135.0	88.6	38.0	46.1
Currency translation	—	—	21.6	(2.0)
Benefits paid	(69.3)	(57.3)	(32.3)	(22.1)
Curtailments, settlement costs and other	1.0	0.3	5.9	(0.9)
Benefit obligation at end of year	\$ 1,170.5	\$ 1,054.9	\$ 602.6	\$ 536.3

Fair value of plan assets at end of year	\$ 707.1	\$ 634.9	\$ 501.9	\$ 484.5
Funded status at end of year	\$ (463.4)	\$ (420.0)	\$ (100.7)	\$ (51.8)
Amounts recognized in the Consolidated Balance Sheets:				
Prepaid benefit cost, included in other assets	\$ —	\$ —	\$ 4.8	\$ 23.9
Accrued current benefit cost, included in other accrued liabilities	(9.7)	(17.7)	(4.4)	(4.6)
Accrued noncurrent benefit cost, included in other noncurrent liabilities	(453.7)	(402.3)	(101.1)	(71.1)
Total	\$ (463.4)	\$ (420.0)	\$ (100.7)	\$ (51.8)
Amounts recognized in AOCI:				
Prior service cost	\$ (7.6)	\$ (8.9)	\$ 0.6	\$ 1.0
Net loss	(777.9)	(679.6)	(132.2)	(71.5)
AOCI, pretax	\$ (785.5)	\$ (688.5)	\$ (131.6)	\$ (70.5)
Accumulated benefit obligation	\$ 1,162.5	\$ 1,049.7	\$ 592.3	\$ 528.1

	U.S.		International	
	2012	2011	2012	2011
Weighted-average assumptions used to determine benefit obligation:				
Discount rate	3.50%	4.50%	4.15%	4.69%
Long-term rate of compensation increase	2.50%	2.80%	3.84%	3.72%

The international amounts as of December 31, 2012 include a projected benefit obligation of \$176.2 million and plan assets of \$181.0 million for plans in which the benefit obligation is less than the fair value of plan assets.

Net pension cost includes the following components for the years ended December 31, (in millions, except percentages):

	U.S.			International		
	2012	2011	2010	2012	2011	2010
Service cost-benefits earned during the year	\$ 3.0	\$ 4.3	\$ 4.0	\$ 7.9	\$ 6.0	\$ 4.8
Interest cost on projected benefit obligation	45.9	49.4	50.6	25.2	26.6	26.6
Expected return on plan assets	(59.7)	(59.6)	(57.5)	(25.6)	(28.3)	(24.8)
Amortization of:						
Prior service cost	1.3	1.3	1.3	1.9	3.4	—
Actuarial loss	21.5	16.1	11.3	1.3	0.9	2.0
Curtailment, settlement and termination benefit costs	1.1	0.2	—	1.6	(0.8)	3.2
Net pension cost	\$ 13.1	\$ 11.7	\$ 9.7	\$ 12.3	\$ 7.8	\$ 11.8
Weighted-average assumptions used to determine net periodic benefit cost:						
Discount rate	4.50%	5.25%	5.75%	4.65%	5.35%	5.70%
Long-term rate of return on plan assets	8.25%	8.25%	8.25%	5.12%	6.39%	6.32%
Long-term rate of compensation increase	2.80%	2.70%	3.00%	3.74%	4.02%	4.22%

In January 2013, the Company contributed \$100 million to its primary U.S. pension plan. The Company expects to make additional cash contributions of approximately \$10 million and \$22 million to its domestic and international defined benefit pension plans, respectively, in 2013.

Plan Assets

Current Allocation

The fair value of each major category of pension plan assets as of December 31, 2012 and 2011 is as follows (*in millions*):

	U.S.						International					
	Quoted Prices in Active Markets for Identical Assets		Significant Other Observable Inputs	Significant Unobservable Inputs	% of Total Assets as of December 31,		Quoted Prices in Active Markets for Identical Assets		Significant Other Observable Inputs	Significant Unobservable Inputs	% of Total Assets as of December 31,

(1) Equity securities primarily comprise mutual funds and common/collective trust funds. Investments in mutual funds and common/collective trust funds are valued at the net asset value per share or unit multiplied by the number of shares or units held as of the measurement date. The common/collective trust funds are generally actively managed investment vehicles.

(2) Fixed income investments primarily comprise mutual funds and common/collective trust funds that invest in corporate and government bonds. Investments in mutual funds and common/collective trust funds are valued at the net asset value per share or unit multiplied by the number of shares or units held as of the measurement date. The investments in fixed income securities include both actively managed funds and index funds.

(3) The fair values of insurance contracts are estimated based on the future cash flows to be received under the contracts discounted to the present using a discount rate that approximates the discount rate used to measure the associated pension plan liabilities.

(4) Venture capital and partnerships are valued at net asset value, which is generally calculated using the most recent partnership financial reports.

- (5) Real estate investments are generally investments in limited partnerships, real estate investment trusts and similar vehicles that invest in real estate. The values of the investments are generally based on the most recent financial reports of the investment vehicles. The managers of each of the investment vehicles estimate the values of the real estate assets underlying the real estate investments using third-party appraisals and other valuation techniques and analysis.
- (6) Cash and cash equivalents include investments in stable value funds. Stable value funds are generally invested in common trust funds and interest-bearing accounts.
- (7) In the U.S. pension plan assets, certain equity and fixed income investments are held in separately managed investment accounts. The underlying investments in these separately managed accounts are primarily publicly traded securities that are directly owned by the U.S. pension plan, and such investments have been valued using the quoted price as of December 31, 2012 and 2011. Accordingly, these investments have been classified as Level 1 as of December 31, 2012 and 2011.
- (8) Derivatives primarily consist of interest rate and inflation swaps relating to the Company's international plans. Included in cash and cash equivalents is an amount of \$31.4 million that relates to cash collateral posted with third parties for the derivatives that are in a liability position as of December 31, 2012.
- (9) Commodity assets primarily consist of exchange traded funds that have publicly quoted prices and are therefore classified as Level 1 investments.

A reconciliation of the change in the fair value measurement of the defined benefit plans' consolidated assets using significant unobservable inputs (Level 3) for 2012 and 2011 is as follows (*in millions*):

	Venture Capital and Partnerships	Real Estate	Other	Total
Fair value as of December 31, 2010	\$ 47.4	\$ 25.2	\$ 0.5	\$ 73.1
Realized losses	—	—	(3.7)	(3.7)
Unrealized gains (losses)	3.2	(0.5)	3.7	6.4
Purchases	3.5	3.6	—	7.1
Sales	(7.8)	—	(0.5)	(8.3)
Fair value as of December 31, 2011	\$ 46.3	\$ 28.3	\$ —	\$ 74.6
Realized losses	—	(0.3)	—	(0.3)
Unrealized gains	2.7	2.6	—	5.3
Purchases	3.6	0.9	—	4.5
Sales	(4.8)	(3.8)	—	(8.6)
Fair value as of December 31, 2012	\$ 47.8	\$ 27.7	\$ —	\$ 75.5

Investment Strategy

The Company has established formal investment policies for the assets associated with its pension plans. The objectives of the investment strategies generally include maximizing long-term return at acceptable risk levels, diversifying among asset classes, if appropriate, as well as establishing relevant risk parameters within each asset class. Investment policies reflect the unique circumstances of the respective plans, and risk tolerance is established through consideration of plan liabilities, plan funded status and corporate financial condition. Asset allocation targets are based on periodic asset liability and/or risk budgeting study results, which help determine the appropriate investment strategies for acceptable risk levels. The investment policies permit variances from the targets within certain parameters.

The target asset allocations for the Company's U.S. pension plan and primary international pension plans are as follows as of December 31, 2012:

Asset Category	Target	
	U.S.	International
Equity	45%	23%
Fixed income	40	14
Insurance contracts	5	24
Cash and equivalents	—	21
Other investments ⁽¹⁾	10	18
Total	100%	100%

(1) Other investments include private equity funds, hedge funds and real estate funds.

Expected Long-term Rate of Return on Plan Assets

The Company employs a building-block approach in determining the long-term rate of return for plan assets. Historical markets are studied and long-term historical relationships between equities and fixed income are preserved consistent with the widely accepted capital market principle that assets with higher volatility generate a greater return over the long run. Current market factors, such as inflation and interest rates, are evaluated before long-term capital market assumptions are determined. The long-

term portfolio return is established giving consideration to investment diversification and rebalancing. Peer data and historical returns are reviewed to assess for reasonableness and appropriateness. The weighted-average expected long-term rates of return are based on reviews of the target investment allocation and the historical and expected rates of return of the asset classes included in the pension plans' target asset allocations.

Other Postretirement Benefit Plans

Several of the Company's subsidiaries currently provide retiree health care and life insurance benefits for certain employee groups.

The following provides a reconciliation of benefit obligations and funded status of the Company's other postretirement benefit plans as of December 31, *(in millions, except percentages)*:

	2012	2011
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 165.2	\$ 166.5
Service cost	1.3	1.3
Interest cost	7.1	8.3
Actuarial (gain) loss	(2.9)	0.3
Benefits paid, net	(11.9)	(11.2)
Benefit obligation at end of year	\$ 158.8	\$ 165.2
Funded status and net liability recognized at end of year	<u>\$ (158.8)</u>	<u>\$ (165.2)</u>
Amounts recognized in the Consolidated Balance Sheets:		
Accrued current benefit cost, included in other accrued liabilities	\$ (12.9)	\$ (13.6)
Accrued noncurrent benefit cost, included in other noncurrent liabilities	(145.9)	(151.6)
Total	\$ (158.8)	\$ (165.2)
Amounts recognized in AOCI:		
Prior service credit	\$ 8.4	\$ 10.8
Net loss	(22.6)	(26.6)
AOCI, pretax	<u>\$ (14.2)</u>	<u>\$ (15.8)</u>
Weighted-average assumptions used to determine benefit obligation:	2012	2011
Discount rate	3.50%	4.50%
Long-term health care cost trend rate	4.50%	4.50%

There are no plan assets associated with the Company's other postretirement benefit plans.

Other postretirement benefit costs include the following components for the years ended December 31, *(in millions)*:

	2012	2011	2010
Service cost-benefits earned during the year	\$ 1.3	\$ 1.3	\$ 1.5
Interest cost on projected benefit obligation	7.1	8.3	9.2
Amortization of:			
Prior service benefit	(2.4)	(2.4)	(2.4)
Actuarial loss	1.2	1.2	0.9
Net postretirement benefit costs	\$ 7.2	\$ 8.4	\$ 9.2

The weighted-average discount rate for the Company's other postretirement benefit plans is developed using a spot interest yield curve based on a broad population of corporate bonds rated AA or higher. The following are the weighted-average assumptions used to determine net periodic benefit cost for the other postretirement benefit plans for the years ended December 31,:

	2012	2011	2010
Weighted-average assumptions used to determine net periodic benefit cost:			
Discount rate	4.50%	5.25%	5.75%
Long-term health care cost trend rate	4.50%	4.50%	4.50%

Assumed health care cost trends have been used in the valuation of the benefit obligations for postretirement benefits. The trend rate used to measure the benefit obligation was 7.4% for all retirees in 2012, declining to 4.5% in 2028 and thereafter.

The health care cost trend rate significantly affects the reported postretirement benefit costs and obligations. A one-percentage-point change in the assumed rate would have the following effects (*in millions*):

	1% Increase	1% Decrease
Effect on total of service and interest cost components	\$ 0.8	\$ (0.7)
Effect on postretirement benefit obligations	\$ 15.8	\$ (13.9)

Estimated Future Benefit Payments

Estimated future benefit payments under the Company's defined benefit pension plans and other postretirement benefit plans are as follows as of December 31, 2012 (*in millions*):

	2013	2014	2015	2016	2017	2018-2021
Pension benefits ⁽¹⁾	\$ 82.6	\$ 80.7	\$ 81.6	\$ 82.2	\$ 87.8	\$ 449.7
Other postretirement benefits	\$ 12.4	\$ 12.1	\$ 11.9	\$ 11.5	\$ 11.5	\$ 57.9

(1) Certain pension benefit payments will be funded by plan assets.

The estimated other postretirement benefit payments are net of annual Medicare Part D subsidies of approximately \$0.3 million per year. The Company expects to make direct cash benefit payments of approximately \$13.0 million for its other postretirement benefit plans in 2013.

FOOTNOTE 14

Earnings per Share

The calculation of basic and diluted earnings per share is shown below for the years ended December 31, (*in millions, except per share data*):

	2012	2011	2010
Numerator for basic and diluted earnings per share:			
Income from continuing operations	\$ 399.6	\$ 134.6	\$ 288.2
Income (loss) from discontinued operations	1.7	(9.4)	4.6
Net income	\$ 401.3	\$ 125.2	\$ 292.8
Dividends and equivalents for share-based awards expected to be forfeited	0.1	0.1	0.1
Net income for basic earnings per share	\$ 401.4	\$ 125.3	\$ 292.9
Effect of Preferred Securities ⁽¹⁾	—	—	—
Net income for diluted earnings per share	\$ 401.4	\$ 125.3	\$ 292.9
Denominator for basic and diluted earnings per share:			
Weighted-average shares outstanding	288.5	290.5	279.3
Share-based payment awards classified as participating securities	2.7	3.1	3.1
Denominator for basic earnings per share	291.2	293.6	282.4
Dilutive securities ⁽²⁾	2.4	2.4	2.5
Convertible Notes ⁽³⁾	—	0.2	13.1
Warrants ⁽⁴⁾	—	—	7.4
Preferred Securities ⁽¹⁾	—	—	—
Denominator for diluted earnings per share	293.6	296.2	305.4
Basic earnings per share:			
Income from continuing operations	\$ 1.37	\$ 0.46	\$ 1.02
Income (loss) from discontinued operations	0.01	(0.03)	0.02
Net income	\$ 1.38	\$ 0.43	\$ 1.04
Diluted earnings per share:			
Income from continuing operations	\$ 1.36	\$ 0.45	\$ 0.94
Income (loss) from discontinued operations	0.01	(0.03)	0.02
Net income	\$ 1.37	\$ 0.42	\$ 0.96

(1) The Preferred Securities are anti-dilutive for all years presented, and therefore have been excluded from diluted earnings per share. Had the Preferred Securities been included in the diluted earnings per share calculation, net income for 2012 would be increased by \$7.7 million and by \$14.0 million for each of 2011 and 2010. Weighted-average shares outstanding would be increased by 4.5 million shares for 2012 and by 8.3 million shares for each of 2011 and 2010. The Preferred Securities were redeemed during 2012. See Footnote 9 for further information.

(2) Dilutive securities include “in the money” options, non-participating restricted stock units and performance stock units. The weighted-average shares outstanding for 2012, 2011 and 2010 exclude the effect of approximately 9.4 million, 12.4 million and 13.2 million stock options and other securities, respectively, because such securities were anti-dilutive.

(3) The Convertible Notes issued in March 2009 were dilutive to the extent the average price during the period was greater than \$8.61, the conversion price of the Convertible Notes, and the Convertible Notes were only dilutive for the “in the money” portion of the Convertible Notes that could be settled with the Company’s stock. The Convertible Notes were dilutive for all years presented, as the average price of the Company’s common stock during these periods was greater than \$8.61. As disclosed in Footnote 9, substantially all of the remaining outstanding principal amount of the Convertible Notes was extinguished in March 2011, and as such, dilution for 2011 takes into consideration the period of time the Convertible Notes were outstanding. The Convertible Notes will not meaningfully impact diluted average shares outstanding in subsequent periods because the maximum amount of shares required to settle the “in the money” portion of the \$0.1 million principal amount of the Convertible Notes outstanding as of December 31, 2012 and 2011 is not material. As disclosed in Footnote 9, \$324.7 million of the \$345.0 million principal amount of the Convertible Notes was extinguished in September 2010, and as such, dilution for 2010 takes into consideration the period of time the Convertible Notes were outstanding.

The call options purchased in connection with the convertible note hedge transactions, which were settled in September 2010, had an equal and offsetting impact to the dilution associated with the Convertible Notes in 2010. However, because the impact of the purchased call options would reduce weighted-average shares outstanding by 13.1 million shares for 2010, the purchased call options are considered anti-dilutive securities. The authoritative accounting guidance does not permit anti-dilutive securities to be included in weighted-average shares outstanding despite their characteristics and economic impacts.

- (4) The warrants were dilutive for the period the warrants were outstanding during 2010 because the average price of the Company's common stock during quarterly periods the warrants were outstanding was greater than \$11.59, the exercise price of the warrants. As disclosed in Footnote 10, the warrants were settled during September 2010, and as such, dilution for 2010 takes into consideration the period of time the warrants were outstanding.

Net income attributable to participating securities, which consisted of certain of the Company's outstanding restricted stock awards and restricted stock units, was \$3.5 million, \$1.2 million and \$3.1 million for 2012, 2011 and 2010, respectively.

FOOTNOTE 15

Stock-Based Compensation

The Company offers stock-based compensation to its employees that includes stock options and time-based and performance-based restricted stock units, as follows:

Stock Options

The Company has issued both nonqualified and incentive stock options at exercise prices equal to the Company's common stock price on the date of grant with contractual terms of ten years. Stock options issued by the Company generally vest and are expensed ratably over three to five years. For options granted prior to 2008, options became fully vested and were exercisable for one year following termination due to death, disability or retirement at age 65 or older. For options granted since the beginning of 2008, options fully vest and are exercisable for a period of time depending on the employee's age and years of service in the case of retirement (as defined in the stock option agreement). Stock option grants are generally subject to forfeiture if employment terminates prior to vesting, except upon retirement, in which case the options may remain outstanding and exercisable for the remaining contractual term of the option.

Time-Based Restricted Stock Units

Awards of time-based restricted stock units are independent of stock option grants and are generally subject to forfeiture if employment terminates prior to vesting. The awards generally cliff-vest one to three years from the date of grant. In the case of retirement (as defined in the award agreement), awards vest depending on the employee's age and years of service. The time-based restricted stock units have rights to dividend equivalents payable in cash. The Company expenses the cost of restricted stock units ratably over the vesting period.

Performance-Based Restricted Stock Units

Performance-based restricted stock unit awards represent the right to receive unrestricted shares of stock based on the achievement of Company performance objectives and/or individual performance goals established by the Organizational Development & Compensation Committee and the Board of Directors. The performance-based restricted stock units generally entitle recipients to shares of common stock equal to 0% up to 200% of the number of units granted at the vesting date, depending on the level of achievement of the specified conditions. Other performance-based restricted stock units entitle the recipient to shares of common stock if specified market and service conditions are achieved and vest no earlier than one year from the date of grant and no later than seven years from the date of grant. Performance-based restricted stock units are not subject to the payment of dividend equivalents in the same manner as time-based restricted stock units. Rather, with respect to performance-based restricted stock units, dividend equivalents are credited to the recipient and are paid only to the extent the applicable performance criteria are met and the performance-based restricted stock units vest and the related stock is issued. In the case of retirement (as defined in the award agreement), awards vest depending on the employee's age and years of service subject to the satisfaction of the applicable performance criteria.

Stock Plans

The Company's stock plans include plans adopted in 2003 and 2010. In 2010, a plan was approved by the Company's stockholders (the "2010 Plan"). Upon approval of the 2010 Plan, shares available for issuance of new awards under all plans other than the 2010 Plan were canceled, and all future grants are required to be made from the 2010 Plan. The total number of shares of the Company's common stock that may be issued under the 2010 Plan may not exceed 21.0 million; however, stock awards and stock units for one share reduce availability under the 2010 Plan by 2.5 shares. The 2010 Plan generally provides for awards to vest over a minimum three-year period, except for performance-based grants, which may vest over a minimum of one year.

The following table depicts the number of shares authorized for issuance and availability under the 2010 Plan (*shares in millions*):

	<u>2010 Plan</u>
Authorized for issuance	<u>21.0</u>
Issued and reserved for issuance of outstanding:	
Options	0.8
Restricted stock units (2 1/2 times the number of awards)	8.2
Performance-based restricted stock units (2 1/2 times the number of awards)	<u>3.1</u>
Shares available for issuance	<u>8.9</u>

As of December 31, 2012, the Company had 10.4 million options outstanding under the 2003 plan. In addition, the Company had 1.5 million time-based and performance-based restricted stock units outstanding under the 2003 plan as of December 31, 2012.

The Company accounts for stock-based compensation pursuant to relevant authoritative guidance, which requires measurement of compensation cost for all stock awards at fair value on the date of grant and recognition of compensation, net of estimated forfeitures, over the requisite service period for awards expected to vest.

The table below summarizes the expense related to share-based payments for the years ended December 31, (*in millions*):

	2012	2011	2010
Stock options	\$ 4.3	\$ 12.5	\$ 13.9
Restricted stock and restricted stock units	28.6	30.5	22.6
Stock-based compensation	<u>\$ 32.9</u>	<u>\$ 43.0</u>	<u>\$ 36.5</u>
Stock-based compensation, net of income tax benefit of \$11.7 million, \$11.2 million and \$8.0 million in 2012, 2011 and 2010, respectively	<u>\$ 21.2</u>	<u>\$ 31.8</u>	<u>\$ 28.5</u>

The fair value of stock option awards granted was estimated using the Black-Scholes option pricing model with the following weighted-average assumptions for the years ended December 31,:

	<u>2011</u>	<u>2010</u>
Risk-free interest rate	2.6%	2.9%
Dividend yield	1.3%	1.4%
Expected volatility	39%	38%
Expected life (in years)	6.4	6.7

The Company considered the retirement and forfeiture provisions of the options and utilized its historical experience to estimate the expected life of the options and volatility.

The following table summarizes the changes in the number of shares of common stock under option for the following periods (*shares and aggregate intrinsic value in millions*):

	Shares	Weighted-Average Exercise Price	Exercisable at End of Year	Weighted-Average Exercise Price	Weighted-Average Fair Value of Options Granted During the Year	Aggregate Intrinsic Value
Outstanding at December 31, 2009	16.3	\$22	7.6	\$26		\$21.1
Granted	1.5	\$14			\$5	
Exercised	(0.1)	\$9				\$0.5
Forfeited / expired	(1.4)	\$23				
Outstanding at December 31, 2010	16.3	\$22	8.9	\$26		\$35.4
Granted	1.0	\$19			\$7	
Forfeited / expired	(1.9)	\$23				
Outstanding at December 31, 2011	15.4	\$21	9.8	\$24		\$25.3
Exercised	(1.8)	\$9				\$19.1
Forfeited / expired	(2.5)	\$26				
Outstanding at December 31, 2012	11.1	\$22	9.0	\$23		\$27.8
Vested and expected to vest at December 31, 2012	11.0	\$22				

At December 31, 2012, the aggregate intrinsic value of exercisable options was \$16.4 million.

The weighted-average remaining contractual life for options outstanding and options exercisable was four years and three years, respectively, as of December 31, 2012.

The following table summarizes the changes in the number of shares of restricted stock, restricted stock units and performance-based restricted stock units for the following periods (*shares in millions*):

	Shares	Weighted-Average Grant Date Fair Value
Outstanding at December 31, 2009	4.6	\$15
Granted	2.2	\$14
Vested	(1.1)	\$24
Forfeited	(0.5)	\$13
Outstanding at December 31, 2010	5.2	\$13
Granted	2.5	\$17
Vested	(1.2)	\$19
Forfeited	(0.4)	\$14
Outstanding at December 31, 2011	6.1	\$13
Granted	2.4	\$19
Vested	(2.2)	\$10
Forfeited	(0.8)	\$18
Outstanding at December 31, 2012	5.5	\$17
Expected to vest at December 31, 2012	5.2	\$17

The fair values of awards that vested were \$41.4 million, \$21.5 million and \$17.0 million in 2012, 2011 and 2010, respectively.

During 2012, 2011 and 2010, the Company awarded 1.0 million, 0.5 million and 0.9 million performance-based restricted stock units, respectively, which entitle recipients to shares of the Company's stock at the end of a three-year vesting period if specified market conditions are achieved ("PSUs"). The PSUs entitle recipients to shares of common stock equal to 0% up to 200% of the number of units granted at the vesting date depending on the level of achievement of the specified market and service conditions. As of December 31, 2012, 1.9 million PSUs were outstanding, and based on performance through December 31, 2012, recipients

of PSUs would be entitled to 2.5 million shares at the vesting date. The PSUs are included in the preceding table as if the participants earn shares equal to 100% of the units granted.

During 2011, the Company awarded 0.7 million performance-based restricted stock units, which entitle the recipient to shares of the Company's stock if specified market and service conditions are achieved. The performance-based restricted stock units vest no earlier than two years from the date of grant and no later than seven years from the date of grant. Based on performance through December 31, 2012, the market conditions have been achieved and, accordingly, the performance-based stock units will vest in July 2013 if the service conditions are achieved. During 2012, the Company granted 0.1 million performance-based restricted stock units with similar terms, except the awards vest no earlier than one year to three years from the grant date. The 0.8 million performance-based restricted stock units are included in the preceding table as outstanding as of December 31, 2012 and 2011 as applicable.

The following table summarizes the Company's total unrecognized compensation cost related to stock-based compensation as of December 31, 2012 (*in millions*):

	Unrecognized Compensation Cost	Weighted-Average Period of Expense Recognition (in years)
Stock options	\$ 2.3	1
Restricted stock units	38.8	2
Total	<u>\$ 41.1</u>	

FOOTNOTE 16

Income Taxes

As of December 31, 2012 and 2011, the Company had unrecognized tax benefits of \$101.5 million and \$89.5 million, respectively. If recognized, \$97.0 million and \$79.8 million as of December 31, 2012 and 2011, respectively, would affect the effective tax rate. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as a component of income tax expense. As of December 31, 2012 and 2011, the Company had recorded accrued interest and penalties related to the unrecognized tax benefits of \$11.2 million and \$11.0 million, respectively. During 2012 and 2011, the Company recognized income tax benefits of \$4.0 million and \$5.1 million, respectively, due to the reduction in the reserves for interest and penalties.

The following table summarizes the changes in gross unrecognized tax benefits for the years ended December 31, (*in millions*):

	2012	2011
Unrecognized tax benefits balance at January 1,	\$ 89.5	\$ 96.8
Increase in tax positions for prior years	—	7.9
Decreases in tax positions for prior years	(3.8)	—
Increases in tax positions for current year	25.2	15.1
Settlements with taxing authorities	(0.8)	—
Lapse of statute of limitations	(8.6)	(30.3)
Unrecognized tax benefits balance at December 31,	<u>\$ 101.5</u>	<u>\$ 89.5</u>

The provision for income taxes consists of the following for the years ended December 31, (*in millions*):

	2012	2011	2010
Current:			
Federal	\$ 41.8	\$ (36.7)	\$ (63.6)
State	(3.8)	5.1	(0.5)
Foreign	57.1	57.5	76.6
Total current	<u>95.1</u>	<u>25.9</u>	<u>12.5</u>
Deferred	71.2	(8.0)	(6.9)
Total provision	<u>\$ 166.3</u>	<u>\$ 17.9</u>	<u>\$ 5.6</u>

The non-U.S. component of income before income taxes was \$228.8 million, \$118.2 million and \$242.6 million in 2012, 2011 and 2010, respectively.

A reconciliation of the U.S. statutory rate to the effective income tax rate is as follows for the years ended December 31,:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Statutory rate	35.0%	35.0%	35.0%
Add (deduct) effect of:			
State income taxes, net of federal income tax effect	0.6	2.2	1.8
Foreign tax credit	(3.8)	(12.2)	(10.1)
Foreign rate differential	(4.0)	(20.3)	(0.2)
Resolution of tax contingencies, net of increases	2.2	(20.3)	(20.3)
Tax basis differential on goodwill impairment	—	38.0	—
Valuation allowance reserve increase (decrease)	1.2	0.7	(2.5)
Stock compensation	0.2	1.5	1.9
Other	(2.0)	(12.9)	(3.7)
Effective rate	<u>29.4%</u>	<u>11.7%</u>	<u>1.9%</u>

The Company files numerous consolidated and separate income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The statute of limitations for the Company's U.S. federal income tax returns has expired for years prior to 2009.

During 2012, the Company's effective tax rate was driven by changes in pretax income and the geographical mix in earnings, the unfavorable impact on reserves for certain tax contingencies, the expiration of statutes of limitation and audit settlements, and other non-cash tax charges associated with the European Transformation Plan.

During 2011, the Company's effective tax rate was impacted by \$76.2 million of tax benefits associated with impairment charges recorded during the year. The Company's effective tax rate was favorably impacted by \$49.0 million associated with the realization of unrecognized tax benefits, including interest and penalties, due to the expiration of various worldwide statutes of limitation. The effective tax rate for the year ended December 31, 2011 was also favorably impacted by a change in the geographical mix in earnings.

During 2010, the Company settled its 2005 and 2006 U.S. federal income tax return examinations, including all issues that were at the IRS Appeals Office, and as part of this settlement, entered into binding closing agreements relating to specific issues under examination, resulting in a reduction to the Company's unrecognized tax benefits in the amount of \$63.6 million, including relevant penalties and interest. In addition, the Company's effective tax rate was favorably impacted by \$8.2 million due to the reversal of certain tax reserves upon resolution of a tax examination and was adversely affected by \$6.7 million due primarily to the write-off of deferred tax assets determined not to be realizable upon the vesting of equity-based compensation. The Company's Canadian income tax returns are subject to examination for years after 2004. With few exceptions, the Company is no longer subject to other income tax examinations for years before 2007.

It is reasonably possible that there could be a change in the amount of the Company's unrecognized tax benefits within the next 12 months due to activities of the IRS or other taxing authorities, including proposed assessments of additional tax, possible settlement of audit issues, or the expiration of applicable statutes of limitations. The range of the possible change in unrecognized tax benefits within the next 12 months cannot be reasonably estimated at December 31, 2012.

The components of net deferred tax assets are as follows as of December 31, *(in millions)*:

	2012	2011
Deferred tax assets:		
Accruals not currently deductible for tax purposes	\$ 140.2	\$ 153.1
Postretirement liabilities	63.9	65.6
Inventory reserves	5.8	5.8
Pension liabilities	203.8	174.7
Self-insurance liability	3.4	3.9
Foreign tax credit carryforward	94.6	120.0
Foreign net operating losses	282.3	339.4
Other	140.0	147.6
Total gross deferred tax assets	934.0	1,010.1
Less valuation allowance	(397.1)	(441.6)
Net deferred tax assets after valuation allowance	\$ 536.9	\$ 568.5
Deferred tax liabilities:		
Accelerated depreciation	\$ (61.0)	\$ (67.4)
Amortizable intangibles	(269.2)	(253.3)
Other	(5.3)	(9.6)
Total gross deferred tax liabilities	\$ (335.5)	\$ (330.3)
Net deferred tax assets	\$ 201.4	\$ 238.2
Current deferred income tax assets	\$ 135.8	\$ 130.7
Current deferred income tax liabilities	(3.7)	(10.4)
Noncurrent deferred income tax assets	85.2	120.2
Noncurrent deferred income tax liabilities	(15.9)	(2.3)
	\$ 201.4	\$ 238.2

The foreign tax credit carryforwards expire from 2016 to 2021, and a majority of the foreign net operating loss carryforwards do not expire except for \$182.8 million expiring from 2013 to 2030. The decrease in the deferred tax asset valuation allowance relates predominantly to the expiration of attributes in North America where the Company maintained full valuation allowances and utilization of attributes in various foreign jurisdictions.

At December 31, 2012, the estimated amount of total unremitted non-U.S. subsidiary earnings is \$694.3 million. Those earnings are considered to be indefinitely reinvested and, accordingly, no U.S. federal or state deferred income taxes have been provided thereon. Upon distribution of those earnings in the form of dividends or otherwise, the Company would be subject to U.S. income taxes and withholding taxes payable in various non-U.S. jurisdictions, which could potentially be offset by foreign tax credits. Determination of the amount of unrecognized deferred U.S. income tax liability is not practicable because of the complexities associated with its hypothetical calculation.

FOOTNOTE 17

Other (Income) Expense, Net

Other (income) expense, net consists of the following for the years ended December 31, *(in millions)*:

	2012	2011	2010
Investment activities, including equity in earnings	\$ 1.4	\$ (1.3)	\$ (0.4)
Currency transaction (gain) loss	(2.3)	14.7	(6.9)
Other	(0.1)	0.3	—
	\$ (1.0)	\$ 13.7	\$ (7.3)

FOOTNOTE 18

Fair Value

Accounting principles generally accepted in the U.S. define fair value as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The authoritative guidance discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). These valuation techniques are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. As the basis for evaluating such inputs, a three-tier value hierarchy prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets.

Level 2: Observable inputs other than quoted prices that are directly or indirectly observable for the asset or liability, including quoted prices for similar assets or liabilities in active markets; quoted prices for similar or identical assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Recurring Fair Value Measurements

The Company's financial assets and liabilities adjusted to fair value at least annually are its money market fund investments included in cash and cash equivalents, its mutual fund investments included in other assets, and its derivative instruments, which are primarily included in prepaid expenses and other, other assets, other accrued liabilities and other noncurrent liabilities.

The Company determines the fair value of its mutual fund investments based on quoted market prices (Level 1).

Level 2 fair value determinations are derived from directly or indirectly observable (market-based) information. Such inputs are the basis for the fair values of the Company's money market fund investments and derivative instruments. The money market fund investments held by the Company and included in cash and cash equivalents are not publicly traded, but the fair value is determined based on the values of the underlying investments in the money market fund (Level 2). The Company generally uses derivatives for hedging purposes pursuant to the relevant authoritative guidance, and the Company's derivatives are primarily foreign currency forward contracts and interest rate swaps. The Company determines the fair value of its derivative instruments using standard pricing models and market-based assumptions for all significant inputs, such as yield curves and quoted spot and forward exchange rates. Accordingly, the Company's derivative instruments are classified as Level 2.

The following tables present the Company's non-pension financial assets and liabilities which are measured at fair value on a recurring basis (*in millions*):

Fair value as of December 31, 2012	Total	Level 1	Level 2	Level 3
Assets				
Investment securities, including mutual funds ⁽¹⁾	\$ 11.5	\$ 8.2	\$ 3.3	\$ —
Interest rate swaps	38.9	—	38.9	—
Foreign currency derivatives	0.5	—	0.5	—
Total	\$ 50.9	\$ 8.2	\$ 42.7	\$ —
Liabilities				
Interest rate swaps	\$ 7.2	\$ —	\$ 7.2	\$ —
Foreign currency derivatives	1.3	—	1.3	—
Total	\$ 8.5	\$ —	\$ 8.5	\$ —
Fair value as of December 31, 2011				
Assets				
Investment securities, including mutual funds ⁽¹⁾	\$ 17.7	\$ 7.3	\$ 10.4	\$ —
Interest rate swaps	35.8	—	35.8	—
Foreign currency derivatives	2.4	—	2.4	—
Total	\$ 55.9	\$ 7.3	\$ 48.6	\$ —

(1) The values of investment securities, including mutual funds, are classified as cash and cash equivalents (\$2.3 million and \$5.1 million as of December 31, 2012 and 2011, respectively) and other assets (\$9.2 million and \$12.6 million as of December 31, 2012 and 2011, respectively). For mutual funds that are

publicly traded, fair value is determined on the basis of quoted market prices and, accordingly, these investments have been classified as Level 1. Other investment securities are valued at the net asset value per share or unit multiplied by the number of shares or units held as of the measurement date and have been classified as Level 2.

Nonrecurring Fair Value Measurements

The Company's nonfinancial assets which are measured at fair value on a nonrecurring basis include property, plant and equipment, goodwill, intangible assets and certain other assets.

The Company's annual impairment tests of goodwill and indefinite-lived intangible assets did not result in the Company recording any impairment charges during 2012 and 2010. During 2011, in conjunction with the Company's annual impairment tests of goodwill and indefinite-lived intangible assets, the Company recognized non-cash impairment charges of \$382.6 million, primarily related to goodwill impairment in the Baby & Parenting and Hardware reporting units (Hardware is included in the Specialty segment). In making the assessment of goodwill impairment, management relies on a number of factors including operating results, business plans, economic projections, anticipated future cash flows, transactions, and marketplace data. Accordingly, these fair value measurements fall in Level 3 of the fair value hierarchy. The factors used by management in the impairment analysis are inherently subject to uncertainty. While the Company believes it has made reasonable estimates and assumptions to determine the fair value of its reporting units, if actual results are not consistent with management's estimates and assumptions, goodwill and other intangible assets may be overstated and could potentially trigger additional impairment charges.

During 2012 and 2011, impairments associated with plans to dispose of certain property, plant and equipment were not material, while the Company recorded \$6.0 million of such impairments in 2010. The Company generally uses projected cash flows, discounted as necessary, to estimate the fair values of the impaired assets using key inputs such as management's projections of cash flows on a held-and-used basis (if applicable), management's projections of cash flows upon disposition and discount rates. Accordingly, these fair value measurements fall in Level 3 of the fair value hierarchy. These assets and certain liabilities are measured at fair value on a nonrecurring basis as part of the Company's impairment assessments and as circumstances require.

Financial Instruments

The Company's financial instruments include cash and cash equivalents, accounts receivable, accounts payable, derivative instruments, notes payable and short- and long-term debt. The carrying values for current financial assets and liabilities, including cash and cash equivalents, accounts receivable and accounts payable, approximate fair value due to the short maturity of such instruments. The fair values of the Company's derivative instruments are recorded in the Consolidated Balance Sheets and are disclosed in Footnote 11. The fair values of certain of the Company's short- and long-term debt are based on quoted market prices and are as follows (*in millions*):

	2012		2011	
	Fair Value	Book Value	Fair Value	Book Value
Medium-term notes	\$ 1,803.6	\$ 1,703.9	\$ 1,679.7	\$ 1,632.3
Preferred securities underlying the junior convertible subordinated debentures	—	—	356.0	421.2

The carrying amounts of all other significant debt approximate fair value.

FOOTNOTE 19

Industry Segment Information

In October 2012, the Company committed to an expansion of Project Renewal, designed to further simplify and align the business around two key activities – Brand & Category Development and Market Execution & Delivery. As part of the expanded program, the Company's Consumer and Professional groups were eliminated and the Company's nine global business units were streamlined into six business segments. As a result, the 2011 and 2010 segment information in this footnote and Footnotes 4 and 7 pertaining to restructuring and goodwill and other intangible assets, net, respectively, has been presented to reflect the six business segments.

The Company's reportable segments are as follows:

Segment	Key Brands	Description of Primary Products
Home Solutions	Rubbermaid [®] , Calphalon [®] , Levolor [®] , Goody [®]	Indoor/outdoor organization, food storage and home storage products; gourmet cookware, bakeware, cutlery and small kitchen electrics; drapery hardware and window treatments; hair care accessories
Writing	Sharpie [®] , Paper Mate [®] , Expo [®] , Parker [®] , Waterman [®]	Writing instruments, including markers and highlighters, pens and pencils; art products; fine writing instruments
Tools	Irwin [®] , Lenox [®] , Dymo [®] Industrial	Hand tools and power tool accessories; industrial bandsaw blades; cutting tools for pipes and HVAC systems; label makers and printers for industrial use
Commercial Products	Rubbermaid Commercial Products [®] , Rubbermaid [®] Healthcare	Cleaning and refuse products, hygiene systems, material handling solutions; medical and computer carts and wall-mounted workstations
Baby & Parenting	Graco [®] , Aprica [®]	Infant and juvenile products such as car seats, strollers, highchairs and playards
Specialty	Bulldog [®] , Shur-Line [®] , Dymo [®] , Endicia [®] , Mimio [®]	Convenience and window hardware; manual paint applicators; office technology solutions such as label makers and printers, on-line postage and interactive teaching solutions

The Company's segment and geographic results are as follows as of and for the years ended December 31, (*in millions*):

(1) All intercompany transactions have been eliminated. Sales to Wal-Mart Stores, Inc. and subsidiaries amounted to 10.8%, 11.0% and 11.9% of consolidated net sales in 2012, 2011 and 2010, respectively, substantially across all segments.

(2) Operating income (loss) by segment is net sales less cost of products sold and selling, general & administrative ("SG&A") expenses. Operating income by geographic area is net sales less cost of products sold, SG&A expenses, impairment charges and restructuring costs. Certain headquarters expenses of an operational nature are allocated to business segments and geographic areas primarily on a net sales basis. Depreciation and amortization is allocated to the segments on a percentage of sales basis, and the allocated depreciation and amortization is included in segment operating income.

(3) Corporate capital expenditures primarily relate to the SAP implementation.

(4) Corporate assets primarily include goodwill, capitalized software, cash and deferred tax assets.

(5) Geographic sales information is based on the region from which the products are shipped and invoiced. Long-lived assets by geography are not presented because it is impracticable to do so.

(6) The following table summarizes the restructuring costs and impairment charges by region included in operating income (loss) above (in millions):

	2012	2011	2010
Restructuring Costs

FOOTNOTE 20

Litigation and Contingencies

The Company is involved in legal proceedings in the ordinary course of its business. These proceedings include claims for damages arising out of use of the Company's products, allegations of infringement of intellectual property, commercial disputes and employment matters, as well as environmental matters. Some of the legal proceedings include claims for punitive as well as compensatory damages, and certain proceedings may purport to be class actions.

The Company, using current product sales data and historical trends, actuarially calculates the estimate of its exposure for product liability. The Company has product liability reserves of \$33.0 million and \$39.7 million as of December 31, 2012 and 2011, respectively. The Company is insured for product liability claims for amounts in excess of established deductibles and accrues for the estimated liability as described up to the limits of the deductibles. All other claims and lawsuits are handled on a case-by-case basis.

Legal Matters

The Company is currently a party to three purported state class actions and one purported national Canadian class action. The cases include allegations that a certain model car seat sold by an affiliate of the Company did not satisfy all requisite government safety standards. The Company is vigorously defending all three actions.

In July 2007, the Company acquired all of the outstanding equity interests of PSI Systems, Inc. ("Endicia"), provider of DYMO|Endicia Internet Postage. Endicia was party to a lawsuit against it alleging patent infringement which was filed on November 22, 2006 in the U.S. District Court for the Central District of California. In this case, Stamps.com sought unspecified damages, attorneys' fees and injunctive relief in order to prevent Endicia from continuing to engage in activities that are alleged to infringe on Stamps.com's patents. In 2010, the Court entered judgment in favor of the Company terminating the action on summary

judgment, and on June 15, 2011, the U.S. Court of Appeals for the Federal Circuit affirmed that judgment. Stamps.com's petition for a rehearing before the Federal Circuit panel was denied and Stamps.com has no further right of appeal. A separate case, in which Endicia and Stamps.com each claimed infringement of different patents, was settled during March 2012 without payment by either the Company or Stamps.com.

The City of Sao Paulo's Green and Environmental Office (the "Sao Paulo G&E Office") is seeking fines of up to approximately \$4.0 million related to alleged improper storage of hazardous materials at the Company's tool manufacturing facility located in Sao Paulo, Brazil. The Company has obtained a stay of enforcement of a notice of fine due October 1, 2009 issued by the Sao Paulo G&E Office. The Company plans to continue to contest the fines.

The Company (through two of its affiliates) has been involved in litigation originally filed in June 2008 in the U.S. District Court for the Western District of North Carolina with Worthington Industries, Inc. ("Worthington") over breach of a supply contract and price increases levied by Worthington after having wrongfully terminated the contract prior to its expiration. In February 2010, a jury determined that Worthington: (a) breached the supply agreement; (b) illegally traded upon the goodwill of the Company; and (c) committed deceptive trade practices in violation of relevant laws. The jury awarded damages of \$13.0 million to the Company, and the Company was subsequently awarded an additional \$2.8 million in pre-judgment interest and attorneys' fees. In conjunction with the sale of the Company's hand torch and solder business to Worthington, the parties agreed to settle all claims. See Footnote 2 for further details.

Environmental Matters

As of December 31, 2012, the Company was involved in various matters concerning federal and state environmental laws and regulations, including matters in which the Company has been identified by the U.S. Environmental Protection Agency and certain state environmental agencies as a potentially responsible party ("PRP") at contaminated sites under the Federal Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA") and equivalent state laws.

In assessing its environmental response costs, the Company has considered several factors, including the extent of the Company's volumetric contribution at each site relative to that of other PRPs; the kind of waste; the terms of existing cost sharing and other applicable agreements; the financial ability of other PRPs to share in the payment of requisite costs; the Company's prior experience with similar sites; environmental studies and cost estimates available to the Company; the effects of inflation on cost estimates; and the extent to which the Company's, and other parties', status as PRPs is disputed.

The Company's estimate of environmental response costs associated with these matters as of December 31, 2012 ranged between \$21.9 million and \$25.4 million. As of December 31, 2012, the Company had a reserve of \$22.3 million for such environmental remediation and response costs in the aggregate, which is included in other accrued liabilities and other noncurrent liabilities in the Consolidated Balance Sheet. No insurance recovery was taken into account in determining the Company's cost estimates or reserve, nor do the Company's cost estimates or reserves reflect any discounting for present value purposes, except with respect to certain long-term operations and maintenance CERCLA matters, which are estimated at their present value of \$16.9 million by applying a 5% discount rate to undiscounted obligations of \$25.1 million.

Two of the Company's subsidiaries, Goody Products, Inc. and Berol Corporation (the "Company Parties"), are among over 300 entities named by Maxus Energy Corporation ("Maxus") and Tierra Solutions, Inc. ("Tierra") as third-party defendants in New Jersey Department of Environmental Protection, et al. (collectively "DEP") v. Occidental Chemical Corporation, et al., pending in the Superior Court of New Jersey, Law Division - Essex County. Through the third-party complaint, Maxus and Tierra allege that releases from two facilities formerly operated by the Company Parties contributed to contamination in the Passaic River and other bodies of water and seek contribution for certain clean-up and removal costs, as well as other damages for which they may be found liable to DEP.

In addition, U.S. EPA has issued General Notice Letters ("GNLs") to over 100 entities, including the Company and Berol Corporation, alleging that they are PRPs at the Diamond Alkali Superfund Site, which includes a 17-mile stretch of the Lower Passaic River and its tributaries. 72 of the GNL recipients, including the Company on behalf of itself and the Company Parties, have taken over the performance of the remedial investigation and feasibility study ("RI/FS") for the Lower Passaic River. U.S. EPA continues to evaluate remedial options, the scope and cost of which have yet to be determined. U.S. EPA has also indicated that it will seek to have the PRPs fund the remedy. The site is also subject to a Natural Resource Damage Assessment.

Given the uncertainties pertaining to this matter, including that the litigation and RI/FS are ongoing, the ultimate remediation has not yet been determined, the parties have not agreed upon a final allocation for the investigation and any remediation, and the extent to which the Company Parties may be held liable or responsible is not yet known—it is not possible for the Company to estimate its ultimate liability related to this matter. Based on currently known facts and circumstances, the Company does not believe that this matter is reasonably likely to have a material impact on the Company's results of operations because the Company Parties' facilities are not alleged to have discharged the contaminants which are of the greatest concern in the river sediments, and

because there are numerous other parties who will likely share in any costs of remediation and/or damages. However, in the event of one or more adverse determinations related to this matter, it is possible that the ultimate liability resulting from this matter and the impact on the Company's results of operations could be material.

Because of the uncertainties associated with environmental investigations and response activities, the possibility that the Company could be identified as a PRP at sites identified in the future that require the incurrence of environmental response costs and the possibility that sites acquired in business combinations may require environmental response costs, actual costs to be incurred by the Company may vary from the Company's estimates.

Although management of the Company cannot predict the ultimate outcome of these proceedings with certainty, it believes that the ultimate resolution of the Company's proceedings, including any amounts it may be required to pay in excess of amounts reserved, will not have a material effect on the Company's consolidated financial statements, except as otherwise described above.

In the normal course of business and as part of its acquisition and divestiture strategy, the Company may provide certain representations and indemnifications related to legal, environmental, product liability, tax or other types of issues. Based on the nature of these representations and indemnifications, it is not possible to predict the maximum potential payments under all of these agreements due to the conditional nature of the Company's obligations and the unique facts and circumstances involved in each particular agreement. Historically, payments made by the Company under these agreements did not have a material effect on the Company's business, financial condition or results of operations.

As of December 31, 2012, the Company had \$45.7 million in standby letters of credit primarily related to the Company's self-insurance programs, including workers' compensation, product liability and medical.

FOOTNOTE 21

Subsequent Events

In January 2013, the Company contributed \$100.0 million to its primary U.S. defined benefit pension plan.

In February 2013, the exchange rate for Bolivar Fuertes declined to 6.3 Bolivar Fuertes to U.S. Dollar, and as a result, the Company expects to record a charge to other expense to reduce the value of the net monetary assets of its Venezuelan operations that are denominated in Bolivar Fuertes.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

- (a) **Evaluation of Disclosure Controls and Procedures.** As of December 31, 2012, an evaluation was performed by the Company's management, under the supervision and with the participation of the Company's chief executive officer and chief financial officer, of the effectiveness of the Company's disclosure controls and procedures. Based on that evaluation, the chief executive officer and the chief financial officer concluded that the Company's disclosure controls and procedures were effective.
- (b) **Management's Report on Internal Control Over Financial Reporting.** The Company's management's annual report on internal control over financial reporting is set forth under Item 8 of this annual report and is incorporated herein by reference.
- (c) **Attestation Report of the Independent Registered Public Accounting Firm.** The attestation report of Ernst & Young LLP, the Company's independent registered public accounting firm, on the Company's internal control over financial reporting is set forth under Item 8 of this annual report and is incorporated herein by reference.
- (d) **Changes in Internal Control Over Financial Reporting.** There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended December 31, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. The Company is in the process of replacing various business information systems worldwide with an enterprise resource planning system from SAP. Implementation will continue to occur in phases, primarily focused on geographic region and segment. This activity involves the migration of multiple legacy systems and users to a common SAP information platform. In addition, this conversion will impact certain interfaces with the Company's customers and suppliers, resulting in changes to the tools the Company uses to take orders, procure materials, schedule production, remit billings, make payments and perform other business functions.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information required under this Item with respect to Directors will be contained in the Company's Proxy Statement for the Annual Meeting of Stockholders to be held May 7, 2013 (the "Proxy Statement") under the captions "Election of Directors" and "Information Regarding Board of Directors and Committees and Corporate Governance," which information is incorporated by reference herein.

Information required under this Item with respect to Executive Officers of the Company is included as a supplemental item at the end of Part I of this report.

Information required under this Item with respect to compliance with Section 16(a) of the Exchange Act will be included in the Proxy Statement under the caption "Section 16(a) Beneficial Ownership Compliance Reporting," which information is incorporated by reference herein.

Information required under this Item with respect to the Company's Code of Ethics for Senior Financial Officers will be included in the Proxy Statement under the caption "Information Regarding Board of Directors and Committees and Corporate Governance — Code of Ethics," which information is incorporated by reference herein.

Information required under this Item with respect to the audit committee and audit committee financial experts will be included in the Proxy Statement under the caption "Information Regarding Board of Directors and Committees and Corporate Governance — Committees — Audit Committee," which information is incorporated by reference herein.

Information required under this Item with respect to communications between security holders and Directors will be included in the Proxy Statement under the caption "Information Regarding Board of Directors and Committees and Corporate Governance — Director Nomination Process," and "Information Regarding Board of Directors and Committees and Corporate Governance — Communications with the Board of Directors," which information is incorporated by reference herein.

ITEM 11. EXECUTIVE COMPENSATION

Information required under this Item will be included in the Proxy Statement under the captions "Organizational Development & Compensation Committee Report," "Executive Compensation," and "Compensation Committee Interlocks and Insider Participation," which information is incorporated by reference herein.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information required under this Item will be included in the Proxy Statement under the captions "Certain Beneficial Owners" and "Equity Compensation Plan Information," which information is incorporated by reference herein.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required under this Item with respect to certain relationships and related transactions will be included in the Proxy Statement under the caption "Certain Relationships and Related Transactions," which information is incorporated by reference herein.

Information required under this Item with respect to director independence will be included in the Proxy Statement under the caption "Information Regarding Board of Directors and Committees and Corporate Governance — Director Independence," which information is incorporated by reference herein.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information required under this Item will be included in the Proxy Statement under the caption "Ratification of Appointment of Independent Registered Public Accounting Firm," which information is incorporated by reference herein.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a)(1) The following is a list of the financial statements of Newell Rubbermaid Inc. included in this report on Form 10-K, which are filed herewith pursuant to Item 8:

Report of Independent Registered Public Accounting Firm

Consolidated Statements of Operations — Years Ended December 31, 2012, 2011 and 2010

Consolidated Statements of Comprehensive Income — Years Ended December 31, 2012, 2011 and 2010

Consolidated Balance Sheets — December 31, 2012 and 2011

Consolidated Statements of Cash Flows — Years Ended December 31, 2012, 2011 and 2010

Consolidated Statements of Stockholders' Equity — Years Ended December 31, 2012, 2011 and 2010

Notes to Consolidated Financial Statements — December 31, 2012, 2011 and 2010

(2) The following consolidated financial statement schedule of the Company included in this report on Form 10-K is filed herewith pursuant to Item 15(c) and appears immediately following the Exhibit Index:

SCHEDULE II — VALUATION AND QUALIFYING ACCOUNTS

All other financial schedules are not required under the related instructions or are inapplicable and, therefore, have been omitted.

(3) The exhibits filed herewith are listed on the Exhibit Index filed as part of this report on Form 10-K. Each management contract or compensatory plan or arrangement of the Company listed on the Exhibit Index is separately identified by an asterisk.

(b) EXHIBIT INDEX

ITEM 3 — ARTICLES OF INCORPORATION AND BY-LAWS

Exhibit Number	Description of Exhibit
----------------	------------------------

- | | |
|-----|--|
| 3.1 | Amendment to Restated Certificate of Incorporation of Newell Rubbermaid Inc. dated May 9, 2012, and Restated Certificate of Incorporation of Newell Rubbermaid Inc., as amended as of May 6, 2008. |
| 3.2 | By-Laws of Newell Rubbermaid Inc., as amended (incorporated by reference to Exhibit 3.1 of the Company's Current Report on Form 8-K dated November 12, 2008). |

ITEM 4 — INSTRUMENTS DEFINING THE RIGHTS OF SECURITY HOLDERS, INCLUDING INDENTURES

Exhibit Number	Description of Exhibit

COMMON STOCK PRICE PERFORMANCE GRAPH

The following common stock price performance graph compares the yearly change in the Company's cumulative total stockholder returns on its common stock during the years 2008 through 2012, with the cumulative total return of the Standard & Poor's 500 Index and the Dow Jones Consumer Goods Index, assuming the investment of \$100 on December 31, 2007 and the reinvestment of dividends.

COMPARISON OF CUMULATIVE FIVE YEAR TOTAL RETURN

	2007	2008	2009	2010	2011	2012
Newell Rubbermaid Inc.	\$100	\$39.60	\$62.61	\$ 76.82	\$ 69.48	\$ 97.97
S&P 500 Index	\$100	\$63.00	\$79.67	\$ 91.68	\$ 93.61	\$108.59
DJ Consumer Goods Index	\$100	\$ 74.31	\$92.03	\$109.98	\$119.66	\$134.98

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES “NORMALIZED” EARNINGS PER SHARE

	2012	2011	2010
Diluted earnings per share, as reported	\$ 1.37	\$ 0.42	\$ 0.96
Impairment charges	—	1.03	—
Restructuring and restructuring-related costs	0.24	0.24	0.24
Discontinued operations	(0.01)	0.03	(0.02)
CEO transition costs	—	0.02	—
Convertible notes dilution	—	—	0.10
Losses on extinguishments of debt*	0.02	0.01	0.44
Income tax contingencies	0.08	(0.17)	(0.21)
Other items, net	—	—	(0.01)
“Normalized” EPS	\$ 1.70	\$ 1.59	\$ 1.50

* For 2010, includes certain share impacts of the Capital Structure Optimization Plan.
Totals may not add due to rounding.

“NORMALIZED” OPERATING MARGIN

	2012	2011	2010
Operating income, as reported	\$ 651.9	\$ 257.2	\$ 623.5
Impairment charges	—	382.6	—
Restructuring and restructuring-related costs	90.6	87.5	92.6
CEO transition costs	—	6.3	—
Operating income, excluding charges	\$ 742.5	\$ 733.6	\$ 716.1
Net sales	\$ 5,902.7	\$ 5,864.6	\$ 5,658.2
“Normalized” operating margin	12.6%	12.5%	12.7%

CORE SALES GROWTH – SELECTED DATA

	2012			2011	Year-Over-Year Increase		
	Sales as Reported	Currency Impact	Core Sales*		Excluding Currency	Including Currency	Currency Impact
Writing Segment	\$1,416.2	\$ 27.3	\$1,443.5	\$ 1,399.3	3.2%	1.2%	(2.0)%
Tools Segment	806.1	28.3	834.4	779.6	7.0%	3.4%	(3.6)%
Baby & Parenting Segment	736.1	11.1	747.2	680.4	9.8%	8.2%	(1.6)%
Latin America	338.9	26.2	365.1	318.6	14.6%	6.4%	(8.2)%
Total Company	5,902.7	91.1	5,993.8	5,864.6	2.2%	0.6%	(1.6)%

* “Core Sales” is determined by applying the prior year monthly exchange rates to the current year local currency monthly sales amounts, with the difference in the current year reported sales and Core Sales representing changes attributable to foreign currency translation, reported in the table as “Currency Impact.”

MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's common stock is listed on the New York and Chicago Stock Exchanges (symbol: NWL). As of January 31, 2013, there were 12,349 stockholders of record. The following table sets forth the high and low sales prices of the common stock on the New York Stock Exchange Composite Tape for the calendar periods indicated:

Quarters	2012		2011	
	High	Low	High	Low
First	\$19.49	\$15.93	\$20.38	\$17.57
Second	19.12	16.63	19.81	14.14
Third	19.74	16.67	16.27	11.31
Fourth	22.49	18.80	16.53	10.87

The Company has paid regular cash dividends on its common stock since 1947. For 2012, the Company paid a quarterly cash dividend of \$0.08 per share in the first quarter, \$0.10 per share in each of the second and third quarters, and \$0.15 per share in the fourth quarter. For 2011, the Company paid a quarterly cash dividend of \$0.05 per share in the first quarter and \$0.08 per share in each of the second, third and fourth quarters. The payment of dividends to holders of the Company's common stock remains at the discretion of the board of directors and will depend upon many factors, including the Company's financial condition, earnings, legal requirements and other factors the board of directors deems relevant.

FORWARD-LOOKING STATEMENTS

We discuss expectations regarding future performance, events and outcomes, such as our business outlook and objectives, in this annual report. All such statements are "forward-looking statements," and are based on financial data and our business plans available as of the date of this annual report, which may become out-of-date or incomplete. We assume no obligation to update any forward-looking statements as a result of new information, future events or other factors. Forward-looking statements are inherently uncertain and investors must recognize that actual results could be significantly different from our expectations. Risks and uncertainties that could cause results to differ from expectations are detailed in Item 1A in Newell Rubbermaid's Annual Report on Form 10-K for the year ended December 31, 2012, and in our other filings with the Securities and Exchange Commission.
