Dear Shareholder:

The year 2012 reflected accelerated growth and broadening of the EPR portfolio. As the Company passed its 15th anniversary the case continued to be made that we have grown well beyond our roots as a megaplex cinema specialist. Although we continue to focus on the first-run exhibition business and invest aggressively in it, we have clearly expanded the range of specialty properties that will fuel the growth and development of the EPR portfolio and by extension, shareholder returns. During the year we began to more regularly and formally divide our portfolio into three primary categories of investment: Entertainment, Recreation and Education and report our financial results in these segments as well.

PORTFOLIO EXPANSION

We continued to grow the breadth of our Entertainment industry investments. As said, we have a strong appreciation for high-quality, market-leading cinema investments both on their own or coupled with other dining and activity oriented retail offerings we call Entertainment Retail Centers, or ERCs for short, but now also target music focused venues and their surrounding complimentary retail. This was evident in our notable 2012 investment in the Charlotte located North Carolina Music Factory, a 20 acre, 185,000 square foot destination property with ten bars, eateries and live music performance venues with capacities from several hundred to five thousand.

Further we made substantial investments with successful operators in both existing and new units of active participation venues that include recreations such as bowling and bocce in single or multiple activity settings, and generally combine these dynamic environments with dining.

We also extended the range of our admissions and concessions oriented entertainment investments with the Chicago located, John Hancock building observation deck transaction. With this investment we entered the arena of tourist focused properties.

Beyond Entertainment we expanded the scope of our investments in Recreation as well. For years now we have had substantial investments in daily attendance metropolitan ski properties and continued this focus with a notable year end investment in a Maryland ski property operated by a new client.

www.eprkc.com

Additionally, in this category we also expanded the range of property types we target. We invested in both existing and new units of an emerging new class of practice and competition golf venue that is not a traditional golf course but also well beyond the conventional driving range concept. Like many of our recreation concepts, it combines this activity with quality dining.

Education investments surged in 2012 to about one-third our total capital outlays to become our second largest category of investment, about 15% of our total portfolio. We stayed focused on public charter school investments in the Education category but importantly broadened the number of operators in our portfolio to 17.

IDENTITY UPDATE

Overall the expansion of our portfolio and the future we see in this course began to produce a bit of friction with our original name, **Entertainment Properties Trust**. We have been and look to go beyond Entertainment in the development of the Company and felt the need to convey that clearly to our shareholders, lenders and customers.

There once was a major consumer products advertising campaign that proclaimed "Image is Everything." I do not subscribe to that but do believe that a clear identity is essential.

Our business model was becoming a bit out of synch with our identity and in 2012 we moved to correct this. After considering a number of alternatives to describe the position and direction of the Company we concluded that an adoption of our historical trading moniker as our name would do well to signal a change but nothing radical or abrupt. It connects well with our past and serves as an homage to our continued major concentration in Entertainment. In the third quarter of 2012 we formally changed our name to **EPR Properties**.

To be clear once more, we still fully embrace the Entertainment world and look for it to remain our largest investment category for years to come but we also know there will continue to be great opportunities to advance the interests and returns of the Company in specialty property types that connect with our developed expertise; an expertise and orientation derived from our success in cinema investing that we have set forth in our frequently referenced Five Star Investment Criteria.

Accordingly, we make investments in emerging new generations of property or at times of industry transition that we describe as an Inflection Point, the first of our five criteria, in durable and long-lived categories of activity, our second criteria. We invest in market-leading, high performance properties in these niche areas, our third criteria, at yields clearly over our cost of capital, our fourth criteria. And lastly we target niche opportunities in which we can command a leadership position and enjoy the volume and pricing benefits of such.

We believe that ours is the soundest of strategies: to focus on things you know a lot about rather than seek diversity without depth of knowledge. We are confident that this approach in the long run supports superior results. It is what has allowed us provide over a 12% total shareholder return in 2012, an annual compound rate of return for the last three years in excess 16% as well as approximately 14% since our inception 15 years ago. It is because of our orientation around this knowledge based approach that we have adopted a tag line of "**Return on Insight**" to be a part of our new identity.

CONCLUSION

We are proud of the confidence that you placed in us and of the returns we have been able to produce for you. We look forward to expanding those returns along with the breadth of EPR properties.

Sincerely,

David Brain
President and CEO

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

With the exception of historical information, certain statements contained or incorporated by reference herein may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), such as those pertaining to our acquisition or disposition of properties, our capital resources, future expenditures for development projects, and our results of operations. Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of actual events. There is no assurance the events or circumstances reflected in the forward-looking statements will occur. You can identify forward-looking statements by use of words such as "will be," "intend," "continue," "believe," "may," "expect," "hope," "anticipate," "goal," "forecast," "expects," "pipeline," "anticipates," "estimates," "offers," "plans" "would," or other similar expressions or other comparable terms or discussions of strategy, plans or intentions in this Annual Report on Form 10-K. In addition, references to our budgeted amounts and guidance are forward-looking statements.

Factors that could materially and adversely affect us include, but are not limited to, the factors listed below:

- General international, national, regional and local business and economic conditions;
- Continuing volatility in the financial markets;
- Adverse changes in our credit ratings;
- The downgrade of the U.S. Government's credit rating and any future downgrade of the U.S. Government's credit rating;
- Fluctuations in interest rates;
- The duration or outcome of litigation, or other factors outside of the litigation, relating to our significant investment in a planned casino and resort development which may cause the development to be indefinitely delayed or cancelled;
- Defaults in the performance of lease terms by our tenants;
- Defaults by our customers and counterparties on their obligations owed to us;
- A borrower's bankruptcy or default;
- The obsolescence of older multiplex theatres owned by some of our tenants or by any overbuilding of megaplex theatres in their markets;
- Our ability to renew maturing leases with theatre tenants on terms comparable to prior leases and/or our ability to lease any re-claimed space from some of our larger theatres at economically favorable terms;
- Risks of operating in the entertainment industry;
- Our ability to compete effectively;
- A single tenant represents a substantial portion of our lease revenues;
- A single tenant leases or is the mortgagor of a substantial portion of our investments related to metropolitan ski areas and a single tenant leases a significant number of our public charter school properties;
- The ability of our public charter school tenants to comply with their charters and continue to receive funding from local, state and federal governments, the approval by applicable governing authorities of substitute operators to assume control of any failed public charter schools and our ability to negotiate the terms of new leases with such substitute tenants on acceptable terms, and our ability to complete collateral substitutions as applicable;
- Risks associated with use of leverage to acquire properties;
- Financing arrangements that require lump-sum payments;
- Our ability to raise capital;
- Covenants in our debt instruments that limit our ability to take certain actions;
- Risks of acquiring and developing properties and real estate companies;
- The lack of diversification of our investment portfolio;
- Our continued qualification as a real estate investment trust for U.S. federal income tax purposes ("REIT");
- The ability of our subsidiaries to satisfy their obligations;
- Financing arrangements that expose us to funding or purchase risks;
- We have a limited number of employees and the loss of personnel could harm operations;
- Fluctuations in the value of real estate income and investments;

- Risks relating to real estate ownership, leasing and development, for example local conditions such as an oversupply of space or a reduction in demand for real estate in the area, competition from other available space, whether tenants and users such as customers of our tenants consider a property attractive, changes in real estate taxes and other expenses, changes in market rental rates, the timing and costs associated with property improvements and rentals, changes in taxation or zoning laws or other governmental regulation, whether we are able to pass some or all of any increased operating costs through to tenants, and how well we manage our properties;
- Our ability to secure adequate insurance and risk of potential uninsured losses, including from natural disasters;
- Risks involved in joint ventures;
- Risks in leasing multi-tenant properties;
- A failure to comply with the Americans with Disabilities Act or other laws;
- Risks of environmental liability;
- Our real estate investments are relatively illiquid;
- We own assets in foreign countries;
- Risks associated with owning, operating or financing properties for which the tenant's, mortgagor's or our operations may be impacted by weather conditions and climate change;
- Risks associated with the ownership of vineyards and wineries;
- Risks associated with security breaches and other disruptions;
- Our ability to pay dividends in cash or at current rates;
- Fluctuations in the market prices for our shares;
- Certain limits on changes in control imposed under law and by our Declaration of Trust and Bylaws;
- Policy changes obtained without the approval of our shareholders;
- Equity issuances could dilute the value of our shares;
- Future offerings of debt or equity securities, which may rank senior to our common shares;
- Risks associated with changes in the Canadian exchange rate; and
- Changes in laws and regulations, including tax laws and regulations.

Our forward-looking statements represent our intentions, plans, expectations and beliefs and are subject to numerous assumptions, risks and uncertainties. Many of the factors that will determine these items are beyond our ability to control or predict. For further discussion of these factors see Item 1A - "Risk Factors" in this Annual Report on Form 10-K.

For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on our forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K or the date of any document incorporated by reference herein. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We do not undertake any obligation to release publicly any revisions to our forward-looking statements to reflect events or circumstances after the date of this Annual Report on Form 10-K.

PART I

Item 1. Business

General

EPR Properties ("we," "us," "our," "EPR" or the "Company") was formed on August 22, 1997 as a Maryland real estate investment trust ("REIT"), and an initial public offering of our common shares of beneficial interest ("common shares") was completed on November 18, 1997. Since that time, the Company has grown into a leading specialty REIT with an investment portfolio that includes primarily entertainment, education and recreation properties. The underwriting of our investments is centered on key industry and property cash flow criteria. As further explained under "Growth Strategies" below, our investments are also guided by a focus on inflection opportunities that are associated with or support enduring uses, excellent executions, attractive economics and an advantageous market position. Effective November 12, 2012, the Company updated its name from "Entertainment Properties Trust" to "EPR Properties" to reflect the Company's expansion into additional specialty segments.

We are a self-administered REIT. As of December 31, 2012, we had total assets of approximately $3.3 billion (before accumulated depreciation of approximately $0.4 billion). Our investments are generally structured as long-term triple-net leases that require the tenants to pay substantially all expenses associated with the operation and maintenance of the property, or as long-term mortgages with economics similar to our triple-net lease structure.

Our total investments were approximately $3.2 billion at December 31, 2012. Total investments is defined herein as the sum of the carrying values of rental properties and rental properties held for sale (before accumulated depreciation), land held for development, property under development, mortgage notes receivable (including related accrued interest receivable), net, investment in a direct financing lease, net, investment in joint ventures, intangible assets (before accumulated amortization) and notes receivable and related accrued interest receivable, net. Below is a reconciliation of the carrying value of total investments to the constituent items in the consolidated balance sheet at December 31, 2012 (in thousands):

Rental properties, net of accumulated depreciation	$	1,885,093
Rental properties held for sale, net of accumulated depreciation		2,788
Add back accumulated depreciation on rental properties		375,684
Add back accumulated depreciation on rental properties held for sale		319
Land held for development		196,177
Property under development		29,376
Mortgage notes and related accrued interest receivable, net		455,752
Investment in a direct financing lease, net		234,089
Investment in joint ventures		11,971
Intangible assets, gross[(1)]		14,327
Notes receivable and related accrued interest receivable, net[(1)]		4,904
Total investments	$	3,210,480

[(1)] Included in other assets in the accompanying consolidated balance sheet. Other assets includes the following:

Intangible assets, gross	$	14,327
Less: accumulated amortization on intangible assets		(11,006)
Notes receivable and related accrued interest receivable, net		4,904
Prepaid expenses and other current assets		30,187
Total other assets	$	38,412

Management believes that total investments is a useful measure for management and investors as it illustrates across which asset categories the Company's funds have been invested. Total investments is a non-GAAP financial measure and is not a substitute for total assets under GAAP. Furthermore, total investments may not be comparable to similarly titled financial measures reported by other companies due to differences in the way the Company calculates this measure. For financial reporting purposes, we group our investments into four reportable operating segments: entertainment,

education, recreation and other. Our total investments of $3.2 billion at December 31, 2012 consisted of interests in the following:

- $2.1 billion or 67% related to entertainment properties which includes megaplex theatres, entertainment retail centers (centers typically anchored by an entertainment component such as a megaplex theatre or live performance venue and containing other entertainment-related or retail properties), family entertainment centers and other retail parcels;
- $373.7 million or 12% related to education properties which consists entirely of investments in public charter schools;
- $421.7 million or 13% related to recreation properties which includes metro ski parks, water-parks and golf entertainment complexes; and
- $266.7 million or 8% related to other properties, including $191.7 million related to the land held for development in Sullivan County, New York and $75.0 million (before accumulated depreciation) related to vineyards and wineries.

As further described in Note 2 to the consolidated financial statements included in this Annual Report on Form 10-K, during the year ended December 31, 2012, $42.8 million, or approximately 13% of our total revenue was derived from our four entertainment retail centers in Ontario, Canada. The Company's wholly-owned subsidiaries that hold the Canadian entertainment retail centers and third-party debt represent approximately $147.3 million or 10% of the Company's equity as of December 31, 2012.

We believe destination entertainment, education and recreation are highly enduring sectors of the real estate industry and that, as a result of our focus on properties in these sectors, industry knowledge and the industry relationships of our management, we have a competitive advantage in providing capital to operators of these types of properties. We believe this focused niche approach offers the potential for higher growth and better yields.

We believe our management's knowledge and industry relationships have facilitated favorable opportunities for us to acquire, finance and lease properties. Historically, our primary challenges have been locating suitable properties, negotiating favorable lease or financing terms, and managing our real estate portfolio as we have continued to grow. We are particularly focused on property categories which allow us to use our experience to mitigate some of the risks inherent in the current economic environment. We cannot provide any assurance that any such potential investment or acquisition opportunities will arise in the near future, or that we will actively pursue any such opportunities.

Entertainment

As of December 31, 2012, our entertainment segment consisted of investments in megaplex theatres, entertainment retail centers, family entertainment centers and other retail parcels totaling approximately $2.1 billion with interests in:

- 113 megaplex theatre properties (including two joint venture properties) located in 32 states and Ontario, Canada;
- eight entertainment retail centers located in Westminster, Colorado; New Rochelle, New York; Burbank, California; Suffolk, Virginia; and Ontario, Canada;
- five family entertainment centers located in Illinois, Indiana, Florida and Texas;
- land parcels leased to restaurant and retail operators adjacent to several of our theatre properties;
- $76.2 million in mortgage notes receivable (including accrued interest) secured by two completed entertainment properties in Illinois and North Carolina and a theatre and family entertainment center under development also in Illinois;
- $21.0 million in construction in progress for real estate development; and
- $4.5 million in undeveloped land inventory.

As of December 31, 2012, our owned real estate portfolio of megaplex theatre properties consisted of approximately

8.9 million square feet and was 99% leased and our remaining owned entertainment real estate portfolio consisted of 1.8 million square feet and was 93% leased. The combined owned entertainment real estate portfolio consisted of 10.7 million square feet and was 98% leased. Our owned theatre properties are leased to 17 different leading theatre operators. For the year ended December 31, 2012, approximately 30% of our total revenue was derived from rental payments by American Multi-Cinema, Inc. ("AMC").

A significant portion of our assets consist of megaplex theatres. Megaplex theatres typically are multi-screen with stadium-style seating (seating with elevation between rows to provide unobstructed viewing) and are equipped with amenities that significantly enhance the audio and visual experience of the patron. We believe the development of new generation megaplex theatres, including the introduction of new digital cinema and 3-D technology, has accelerated the obsolescence of many of the previous generation of multiplex theatres by setting new standards for moviegoers, who, in our experience, have demonstrated their preference for the more attractive surroundings, wider variety of films, enhanced quality of visual presentation and superior customer service typical of megaplex theatres.

We expect the development of megaplex theatres to continue in the United States and abroad over the long-term. With the development of the stadium style megaplex theatre as the preeminent format for cinema exhibition, the older generation of smaller sloped theatres has generally experienced a significant downturn in attendance and performance. As a result of the significant capital commitment involved in building megaplex theatres and the experience and industry relationships of our management, we believe we will continue to have opportunities to provide capital to exhibition businesses for development of new megaplex theatres.

The success of several of our larger 24 and 30 screen properties has resulted in other exhibitors building properties that have reduced the 20 to 25 mile customer drawing range that these properties previously enjoyed. As a result of this and other competitive pressures, in some cases we may, at the expiration of the primary term of a lease, reduce the rental rate per square foot and/or reduce the number of screens at a property to better reflect the existing market demands. Any such screen reduction will create an opportunity to reclaim a portion of the former theatre for conversion to another use, while retaining the majority of the building for a newly re-configured theatre. In addition to positioning expiring theatre assets for continued success, the redevelopment of these assets creates an opportunity to diversify the Company's tenant base.

The theatre box office continues to reflect solid performance. Box office revenues reached a record high during 2012 increasing approximately 6% over 2011, according to Box Office Analyst. Additionally, many theatre operators are expanding their food and beverage offerings, including the introduction of in-theatre dining options and alcohol availability. The introduction of these enhanced food and beverage offerings, along with the technological improvements of digital projection, large-format and 3-D presentation, should continue to drive future growth and create opportunities to deploy capital both in the U.S. and abroad.

We continue to seek opportunities for the development of additional restaurant, retail and other entertainment venues around our existing portfolio. The opportunity to capitalize on the traffic generation of our market-dominant theatres to create entertainment retail centers ("ERCs") not only strengthens the execution of the megaplex theatre but adds diversity to our tenant and asset base. We have and will continue to evaluate our existing portfolio for additional development of retail and entertainment density, and we will also continue to evaluate the purchase or financing of existing ERCs that have demonstrated strong financial performance and meet our quality standards. The leasing and property management requirements of our ERCs are generally met through the use of third-party professional service providers.

In 2011 and 2012, we expanded investments in our entertainment segment to include family entertainment centers. Our family entertainment center operators offer a variety of entertainment options including live performance, bowling and bocce ball as well as an observation deck on the 94th floor of the John Hancock building in downtown Chicago, Illinois. We will continue to evaluate the development, purchase or financing of family entertainment centers.

Although we are primarily a long-term investor, we may also sell assets if we believe that it is in the best interest of our shareholders. For example, in 2011, we sold our Toronto Dundas Square entertainment retail center and related signage business in downtown Toronto for gross sale proceeds of approximately $226.0 million Canadian and recorded

a net gain of $19.5 million U.S.

Education

As of December 31, 2012, our education segment consisted entirely of investments in public charter schools totaling approximately $373.7 million with interests in:

- 12 public charter school properties located in four states;
- $234.1 million in investments in a direct financing lease, net of initial direct costs of $1.7 million, relating to 26 public charter school properties leased under a master lease to Imagine Schools, Inc. ("Imagine"). We own the fee interest in these properties; however, due to the terms of this lease it is accounted for as a direct financing lease;
- $29.0 million in mortgage financing secured by four public charter school properties; and
- $4.6 million in construction in progress for real estate development.

As of December 31, 2012, our owned education real estate portfolio consisted of approximately 2.3 million square feet and was 100% leased. We have 17 different operators for our owned public charter schools. For the year ended December 31, 2012, approximately 9% of our total revenue was derived from rental payments by Imagine.

Public charter schools are tuition-free, independent schools that are publicly funded by local, state and federal tax dollars based on enrollment. Driven by the need to improve the quality of public education and provide more school choice in the U.S., public charter schools are one of the fastest growing segments of the multi-billion dollar educational facilities sector, and we believe a critical need exists for the financing of new and refurbished educational facilities. To meet this need, we have established relationships with public charter school operators and developers across the country and expect to continue to develop our leadership position in providing real estate financing in this area. Public charter schools are operated pursuant to charters granted by various state or other regulatory authorities and are dependent upon funding from local, state and federal tax dollars. Like district public schools, public charter schools are required to meet both state and federal academic standards. One of our operators did not meet these standards in certain cases and experienced charter revocations and/or school closings during 2011 and 2012. See Item 7 - "Management's Discussion and Analysis of Financial Conditions and Results of Operations - Recent Developments" for further discussion.

Due to revenue shortfalls and other factors, various government bodies that provide educational funding have pressure to reduce their spending budgets and, as a result, have reduced educational funding in some cases and may continue to reduce educational funding in the future. This can impact our tenants' operations and potentially their ability to pay our scheduled rent. However, these reductions differ state by state and have historically been more significant at the post-secondary education level than at the K-12 level that our tenants serve. Furthermore, while there can be no assurance as to the level of these cuts, we analyze each state's fiscal situation and commitment to the charter school movement before providing financing in a new state, and also factor in anticipated reductions (as applicable) in the states in which we do decide to do business.

Recreation

As of December 31, 2012, our recreation segment consisted of investments in metro ski parks, water-parks and golf entertainment complexes totaling approximately $421.7 million with interests in:

- $348.1 million in mortgage financing secured by recreation properties including a water-park anchored entertainment village in Kansas as well as two other water-parks in Texas, and 11 metro ski parks and development land located in New Hampshire, Vermont, Missouri, Indiana, Ohio and Pennsylvania;
- Two metro ski parks in Ohio and Maryland;
- Three golf entertainment complexes in Texas; and
- $3.8 million in construction in progress for real estate development.

As of December 31, 2012, our owned recreation real estate portfolio was 100% leased.

Our metro ski parks are leased to or we have mortgages receivable from two different operators, the largest operator of which is Peak Resorts, Inc. ("Peak"). For the year ended December 31, 2012, approximately 5% of our total revenue related to Peak.

Our daily attendance ski park model provides a sustainable advantage for the value conscious consumer, providing outdoor entertainment during the winter. All of the ski parks that serve as collateral for our mortgage notes in this area, as well as our two owned properties, offer snowmaking capabilities and provide a variety of terrains and vertical drop options. We believe that the primary appeal of our ski parks lies in the convenient, low cost and reliable experience consumers can expect. Given that all of our ski parks are located near major metropolitan areas, they offer skiing and snowboarding without the expense, travel, or lengthy preparations of remote ski resorts. Furthermore, advanced snowmaking capabilities increase the reliability of the experience versus other ski areas that do not have such capabilities. We expect to continue to pursue opportunities in this area.

The three water-parks in Kansas and Texas offer innovative attractions that attract a diverse segment of customers. All of these water-parks serve as collateral for our mortgage notes and are operated by Schlitterbahn Waterparks and Resorts, an industry leader. Our three golf entertainment complexes are leased to TopGolf, which combines golf with entertainment, competition and food and beverage service. By combining an interactive entertainment and food and beverage experience with a long-lived recreational activity, we believe TopGolf provides an innovative, enjoyable and repeatable customer experience. We expect to continue to pursue opportunities with TopGolf.

Other

As of December 31, 2012, our other segment consisted of investments in vineyards and wineries and land held for development totaling approximately $266.7 million with interests in:

- six wineries and four vineyards located in California and Washington;
- $2.5 million in mortgage financing related to a sold winery property; and
- $191.7 million related to the land held for development in Sullivan County, New York.

The wine industry was adversely affected by the most recent economic downturn which affected several of our tenants' ability to perform under their leases. As a result, we have taken back certain properties due to non-performance under the related leases, and have granted concessions to other tenants in the form of rent abatement or rent deferral. We are in the process of liquidating this portfolio. During 2011 and 2012, we completed the sale of four of our vineyard and winery investments for a total of $66.5 million. As of December 31, 2012, the net book value of properties remaining in this portfolio was $55.3 million and we expect to pursue additional sales in this area in 2013.

We continue to progress with the development of our planned casino and resort property in Sullivan County, New York. In early 2013, we received approval from the Town of Thompson Board on a comprehensive development plan and we can now move forward with the submission of individual site plan applications, thus initiating the commencement of the build-out of the site. As submitted, the comprehensive development plan provides for the creation of a four-season destination resort. The initial phase of the development and construction includes a casino resort comprising an approximate 117-acre development area. We anticipate that construction of the casino resort will commence in 2013. Subsequent to that time, we anticipate that site plan approvals for the renovation of the existing golf course and other select components of the plan will be obtained with construction to commence shortly thereafter. The development of each of these elements is contingent upon various conditions, primarily related to the ability of our partner, Empire Resorts, Inc. ("Empire Resorts") to obtain financing and the receipt of any additional necessary governmental approvals.

Business Objectives and Strategies

Our long-term primary business objective is to enhance shareholder value by achieving predictable and increasing Funds From Operations ("FFO") and dividends per share (See Item 7 – "Management's Discussion and Analysis of

Financial Condition and Results of Operations - Funds From Operations" for a discussion of FFO, which is a non-GAAP measure). Our prevailing strategy is to focus on long-term investments in a limited number of categories in which we maintain a depth of knowledge and relationships, and which we believe offer sustained performance throughout all economic cycles. We intend to achieve this objective by continuing to execute the Growth Strategies, Operating Strategies and Capitalization Strategies described below.

Growth Strategies

As a part of our growth strategy, we will consider acquiring or developing additional entertainment, education, recreation or other specialty properties. We may also pursue opportunities to provide mortgage financing for these same property types in certain situations where this structure is more advantageous than owning the underlying real estate.

Our investing strategy centers on five guiding principles which we call our Five Star Investment Strategy:

Inflection Opportunity
We look for a new generation of facilities emerging as a result of age, technology, or change in the lifestyle of consumers which create development, renewal or restructuring opportunities requiring significant capital.

Enduring Value
We look for real estate that supports activities that are commercially successful and have a reasonable basis for continued and sustainable customer demand in the future. Further, we seek circumstances where the magnitude of change in the new generation of facilities adds substantially to the customer experience.

Excellent Execution
We seek attractive locations and best-of-class executions that create market-dominant properties which we believe create a competitive advantage and enhance sustainable customer demand within the category despite a potential change in tenant. We minimize the potential for turnover by seeking tenants with a reliable track record of customer service and satisfaction.

Attractive Economics
We seek investments that provide accretive returns initially and increasing returns over time with rent escalators and percentage rent features that allow participation in the financial performance of the property. Further, we are interested in investments that provide a depth of opportunity to invest sufficient capital to be meaningful to our total financial results and also provide diversity by market, geography or tenant operator.

Advantageous Position
In combination with the preceding principles, when investing we look for a competitive advantage such as unique knowledge of the category, access to industry information, a preferred tenant relationship or other relationships that provide access to sites and development projects.

Operating Strategies

Lease Risk Minimization
To avoid initial lease-up risks and produce a predictable income stream, we typically acquire single-tenant properties that are leased under long-term leases. We believe our willingness to make long-term investments in properties offers our tenants financial flexibility and allows tenants to allocate capital to their core businesses. Although we will continue to emphasize single-tenant properties, we have acquired and may continue to acquire multi-tenant properties we believe add shareholder value.

Lease Structure
We have structured our property acquisitions and leasing arrangements to achieve a positive spread between our cost of capital and the rentals paid by our tenants. We typically structure leases on a triple-net basis under which the tenants bear the principal portion of the financial and operational responsibility for the properties. During each lease term and any renewal periods, the leases typically provide for periodic increases in rent and/or percentage rent based upon a

percentage of the tenant's gross sales over a pre-determined level. In our multi-tenant property leases and some of our theatre leases, we generally require the tenant to pay a common area maintenance ("CAM") charge to defray its pro rata share of insurance, taxes and maintenance costs.

Mortgage Structure
We have structured our mortgages to achieve economics similar to our triple-net lease structure with a positive spread between our cost of capital and the interest paid by our tenants. During each mortgage term and any renewal periods, the notes typically provide for periodic increases in interest and/or participating features based upon a percentage of the tenant's gross sales over a pre-determined level.

Tenant and Customer Relationships
We intend to continue developing and maintaining long-term working relationships with entertainment, education, recreation and other specialty business operators and developers by providing capital for multiple properties on an international, national or regional basis, thereby creating efficiency and value for both the operators and the Company.

Portfolio Diversification
We will endeavor to further diversify our asset base by property type, geographic location and tenant or customer. In pursuing this diversification strategy, we will target entertainment, education, recreation and other specialty business operators that we view as leaders in their market segments and have the ability to compete effectively and perform under their agreements with the Company.

Development
We intend to continue developing properties that meet our guiding principles. We generally do not begin development of a single-tenant property without a signed lease providing for rental payments during the development period that are commensurate with our level of capital investment. In the case of a multi-tenant development, we generally require a significant amount of the development to be pre-leased prior to construction to minimize lease-up risks. In addition, to minimize overhead costs and to provide the greatest amount of flexibility, we generally outsource construction management to third-party firms.

Capitalization Strategies

Debt and Equity Financing
Our debt to gross assets ratio (i.e. long-term debt of the Company as a percentage of total assets plus accumulated depreciation) was 41% at December 31, 2012. We expect to maintain a debt to gross assets ratio of between 35% and 45% going forward. While maintaining lower leverage mitigates the growth in per share results, we believe lower leverage and an emphasis on liquidity are prudent during the current economic environment.

Prior to 2010, we relied primarily on secured debt financings. Since that time we have moved our revolving credit line from secured to unsecured, completed two public senior unsecured note offerings as well as an unsecured term loan, and paid off significant secured debt. These steps are consistent with the implementation of our strategy to migrate to an unsecured debt structure. In the future, while we may utilize secured debt from time to time, we intend to issue primarily unsecured debt securities to satisfy our debt financing needs. We believe this strategy will increase our access to capital and permit us to more efficiently match available debt and equity financing to our ongoing capital requirements.

Our sources of equity financing consist of the issuance of common shares as well as the issuance of preferred shares (including convertible preferred shares). In addition to larger underwritten registered public offerings of both common and preferred shares, we have also offered shares pursuant to registered public offerings through the direct share purchase component of our Dividend Reinvestment and Direct Share Purchase Plan ("DSP Plan"). While such offerings are generally smaller than a typical underwritten public offering, issuing common shares under the direct share purchase component of our DSP Plan allows us to access capital on a more frequent basis in a cost-effective manner. We expect to opportunistically access the equity markets in the future and, depending primarily on the size and timing of our equity capital needs, may continue to issue shares under the direct share purchase component of our DSP Plan. Furthermore, we may issue shares in connection with acquisitions in the future.

Joint Ventures
We will examine and may pursue potential additional joint venture opportunities with institutional investors or developers if the investments to which they relate meet our guiding principles discussed above. We may employ higher leverage in joint ventures.

Payment of Regular Dividends
We have historically paid quarterly dividend distributions to our common and preferred shareholders. We intend to pay dividend distributions to our common shareholders on a monthly basis beginning in the second quarter of 2013. We expect to continue to pay dividend distributions to our preferred shareholders on a quarterly basis. Our Series C cumulative convertible preferred shares ("Series C preferred shares") have a dividend rate of 5.75%, our Series E cumulative convertible preferred shares ("Series E preferred shares") have a dividend rate of 9.00% and our Series F cumulative preferred share ("Series F preferred shares") have a dividend rate of 6.625%. Among the factors the Company's board of trustees ("Board of Trustees") considers in setting the common share dividend rate are the applicable REIT tax rules and regulations that apply to dividends, the Company's results of operations, including FFO per share, and the Company's Cash Available for Distribution (defined as net cash flow available for distribution after payment of operating expenses, debt service, preferred dividends and other obligations).

Competition

We compete for real estate financing opportunities with other companies that invest in real estate, as well as traditional financial sources such as banks and insurance companies. REITs have financed and may continue to seek to finance entertainment, education, recreation and other specialty properties as new properties are developed or become available for acquisition.

Employees

As of December 31, 2012, we had 31 full time employees.

Principal Executive Offices

The Company's principal executive offices are located at 909 Walnut Street, Suite 200, Kansas City, Missouri 64106; telephone (816) 472-1700.

Materials Available on Our Website

Our internet website address is www.eprkc.com. We make available, free of charge, through our website copies of our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to the Securities and Exchange Commission (the "Commission" or "SEC"). You may also view our Code of Business Conduct and Ethics, Company Governance Guidelines, Independence Standards for Trustees and the charters of our audit, nominating/company governance, finance and compensation committees on our website. Copies of these documents are also available in print to any person who requests them. We do not intend for information contained in our website to be part of this Annual Report on Form 10-K.

Item 1A. Risk Factors

There are many risks and uncertainties that can affect our current or future business, operating results, financial performance or share price. The following discussion describes important factors which could adversely affect our current or future business, operating results, financial condition or share price. This discussion includes a number of forward-looking statements. See "Cautionary Statement Concerning Forward-Looking Statements."

Risks That May Impact Our Financial Condition or Performance

Volatility in the financial markets may impair our ability to refinance existing obligations or obtain new financing for acquisition or development of properties.
The global financial markets recently have undergone and may continue to experience pervasive and fundamental disruptions. While the capital markets have shown signs of improvement, the sustainability of an economic recovery is uncertain and additional levels of market disruption and volatility could materially adversely impact our ability to refinance our existing obligations as they mature or obtain new financing for acquisition or development of properties.

Adverse changes in our credit ratings could impair our ability to obtain additional debt and equity financing on favorable terms, if at all, and negatively impact the market price of our securities, including our common shares.
The credit ratings of our senior unsecured debt and preferred equity securities are based on our operating performance, liquidity and leverage ratios, overall financial position and other factors employed by the credit rating agencies in their rating analyses of us. Our credit ratings can affect the amount and type of capital we can access, as well as the terms of any financings we may obtain. There can be no assurance that we will be able to maintain our current credit ratings and in the event that our current credit ratings deteriorate, we would likely incur a higher cost of capital and it may be more difficult or expensive to obtain additional financing or refinance existing obligations and commitments. Also, a downgrade in our credit ratings would trigger additional costs or other potentially negative consequences under our current and future credit facilities and debt instruments.

The downgrade of the U.S. Government's credit rating and any future downgrade of the U.S. Government's credit rating may result in economic uncertainty and a significant rise in interest rates, either of which could have a material adverse effect on our business, financial condition, liquidity, results of operations and ability to make dividend payments to our shareholders.
On August 5, 2011, Standard and Poor's Ratings Services (or Standard & Poor's) downgraded the long-term debt rating of the United States from AAA to AA+ for the first time in history due to its belief that legislative solutions have been inadequate to address the country's growing debt burden. Standard & Poor's decision to further downgrade the U.S. Government's credit rating could create broader financial and global banking turmoil and uncertainty and could lead to a significant rise in interest rates. Moreover, these events could cause us to have a higher cost of capital. These consequences could be exacerbated if other statistical rating agencies decide to downgrade the U.S. Government's credit rating in the future. Each of Moody's Investors Service, Inc. (or Moody's) and Fitch, Inc. (or Fitch) has maintained its rating of U.S. debt at AAA, but has warned of potential future downgrades if legislative solutions to address the rising levels of U.S. Government debt are not found. Any of these outcomes could have a material adverse effect on our business, financial condition, liquidity, results of operations and ability to make dividend payments to our shareholders.

An increase in interest rates could increase interest cost on new debt, and could materially adversely impact our ability to refinance existing debt, sell assets and limit our acquisition and development activities.
If interest rates increase, so could our interest costs for any new debt. This increased cost could make the financing of any acquisition and development activity more costly. Rising interest rates could limit our ability to refinance existing debt when it matures, or cause us to pay higher interest rates upon refinancing and increase interest expense on refinanced indebtedness. In addition, an increase in interest rates could decrease the amount third parties are willing to pay for our assets, thereby limiting our ability to reposition our portfolio promptly in response to changes in economic or other conditions.

We previously made a significant investment in a planned casino and resort development, which is now the subject of ongoing litigation. We cannot predict the duration or outcome of this litigation. In the event of prolonged litigation or an unfavorable outcome, or other factors outside of the litigation, the casino project and resort development may

be indefinitely delayed or canceled, which, individually or together with an unfavorable outcome in the litigation, could have a material adverse effect on the casino project and resort development and/or our financial condition and results of operations.

In 2010, we reached a settlement agreement with the developer of the planned casino and resort project in Sullivan County, New York and certain related affiliates, pursuant to which we acquired certain land at the project. Entities affiliated with the developer of the casino property subsequently commenced litigation against us and certain of our subsidiaries regarding matters addressed by the settlement agreement. In addition, entities affiliated with the developer commenced additional litigation against us and certain of our subsidiaries relating to our potential relationship with certain parties, including Empire Resorts, Inc. and one of its subsidiaries. The plaintiffs in each of the foregoing cases are seeking significant monetary damages. We believe we have meritorious defenses to this litigation and intend to defend it vigorously. There can be no assurances, however, as to the duration or ultimate outcome of this litigation, nor can there be any assurances as to the costs we may incur in defending against and/or resolving this litigation. In the event of prolonged litigation or an unfavorable outcome, or simply as a result of economic, regulatory or other conditions, the planned casino and resort development may be indefinitely delayed or canceled. There can be no assurance that such an indefinite delay or cancellation would not have a material adverse effect on our investment, which could cause us to record an impairment charge with respect to our interest in such property, and which could result in a material adverse effect on our financial condition and results of operations. In addition, if the outcome of the litigation is unfavorable to us, it could result in a material adverse effect on our financial condition and results of operations.

We depend on leasing space to tenants on economically favorable terms and collecting rent from our tenants, who may not be able to pay.

At any time, a tenant may experience a downturn in its business that may weaken its financial condition. Similarly, a general decline in the economy may result in a decline in demand for space at our commercial properties. Our financial results depend significantly on leasing space at our properties to tenants on economically favorable terms. In addition, because a majority of our income comes from leasing real property, our income, funds available to pay indebtedness and funds available for distribution to our shareholders will decrease if a significant number of our tenants cannot pay their rent or if we are not able to maintain our levels of occupancy on favorable terms. If our tenants cannot pay their rent or we are not able to maintain our levels of occupancy on favorable terms, there is also a risk that the fair value of the underlying property will be considered less than its carrying value and we may have to take a charge against earnings. In addition, if a tenant does not pay its rent, we might not be able to enforce our rights as landlord without delays and might incur substantial legal costs.

If a tenant becomes bankrupt or insolvent, that could diminish or eliminate the income we expect from that tenant's leases. If a tenant becomes insolvent or bankrupt, we cannot be sure that we could recover the premises from the tenant promptly or from a trustee or debtor-in-possession in a bankruptcy proceeding relating to the tenant. On the other hand, a bankruptcy court might authorize the tenant to terminate its leases with us. If that happens, our claim against the bankrupt tenant for unpaid future rent would be subject to statutory limitations that might be substantially less than the remaining rent owed under the leases. In addition, any claim we have for unpaid past rent would likely not be paid in full and we would also have to take a charge against earnings for any accrued straight-line rent receivable related to the leases.

Specifically, the most recent economic downturn has adversely affected the wine industry, and has severely impacted the cash flow of many of our vineyard and winery properties, which has resulted and may continue to result in their failure to have sufficient funds to support operations or make payments under their leases.

We are exposed to the credit risk of our customers and counterparties and their failure to meet their financial obligations could adversely affect our business.

Our business is subject to credit risk. There is a risk that a customer or counterparty will fail to meet its obligations when due, particularly given the current state of the economy. Customers and counterparties that owe us money may default on their obligations to us due to bankruptcy, lack of liquidity, operational failure or other reasons. Although we have procedures for reviewing credit exposures to specific customers and counterparties to address present credit concerns, default risk may arise from events or circumstances that are difficult to detect or foresee. Some of our risk management methods depend upon the evaluation of information regarding markets, clients or other matters that are publicly available or otherwise accessible by us. That information may not, in all cases, be accurate, complete, up-to-

date or properly evaluated. In addition, concerns about, or a default by, one customer or counterparty could lead to significant liquidity problems, losses or defaults by other customers or counterparties, which in turn could adversely affect us. We may be materially and adversely affected in the event of a significant default by our customers and counterparties.

We could be adversely affected by a borrower's bankruptcy or default.

If a borrower becomes bankrupt or insolvent or defaults under its loan, that could force us to declare a default and foreclose on any available collateral. As a result, future interest income recognition related to the applicable note receivable could be significantly reduced or eliminated. There is also a risk that the fair value of the collateral, if any, will be less than the carrying value of the note and accrued interest receivable at the time of a foreclosure and we may have to take a charge against earnings. If a property serves as collateral for a note, we may experience costs and delays in recovering the property in foreclosure or finding a substitute operator for the property. If a mortgage we hold is subordinated to senior financing secured by the property, our recovery would be limited to any amount remaining after satisfaction of all amounts due to the holder of the senior financing. In addition, to protect our subordinated investment, we may desire to refinance any senior financing. However, there is no assurance that such refinancing would be available or, if it were to be available, that the terms would be attractive.

Our theatre tenants may be adversely affected by the obsolescence of any older multiplex theatres they own or by any overbuilding of megaplex theatres in their markets.

The development of megaplex theatres has rendered many older multiplex theatres obsolete. To the extent our tenants own a substantial number of multiplexes, they have been, or may in the future be, required to take significant charges against their earnings resulting from the impairment of these assets. Megaplex theatre operators have also been and could in the future be adversely affected by any overbuilding of megaplex theatres in their markets and the cost of financing, building and leasing megaplex theatres.

The base term of some of our original theatre leases are expiring and there is no assurance that such leases will be renewed at existing lease terms or that we can lease any re-claimed space from some of our larger theatres at economically favorable terms.

The base term of some of our original theatre leases are expiring. For theatres that are not performing as well as they did in the past, the tenants have and may continue to seek rent or other concessions or not renew at all. Furthermore, some tenants of our larger megaplex theatres desire to down-size the theatres they lease to respond to market trends. As a result, these tenants have and may continue to seek rent or other concessions from us, including requiring us to down-size the theatres or otherwise modify the properties in order to renew their leases. Furthermore, while any such screen reductions would likely create opportunities to reclaim a portion of the former theatres for conversion to other uses, there is no guarantee that we can re-lease such space or that such leases would be at economically favorable terms.

Operating risks in the entertainment industry may affect the ability of our tenants to perform under their leases.

The ability of our tenants to operate successfully in the entertainment industry and remain current on their lease obligations depends on a number of factors, including the availability and popularity of motion pictures, the performance of those pictures in tenants' markets, the allocation of popular pictures to tenants, the release window (represents the time that elapses from the date of a picture's theatrical release to the date it is available on other mediums) and the terms on which the pictures are licensed. Neither we nor our tenants control the operations of motion picture distributors. The success of "out-of-home" entertainment venues such as megaplex theatres, entertainment retail centers and recreational properties also depends on general economic conditions and the willingness of consumers to spend time and money on out-of-home entertainment.

Real estate is a competitive business.

Our business operates in highly competitive environments. We compete with a large number of real estate property owners and developers, some of which may be willing to accept lower returns on their investments. Principal factors of competition are rent or interest charged, attractiveness of location, the quality of the property and breadth and quality of services provided. If our competitors offer space at rental rates below the rental rates we are currently charging our tenants, we may lose potential tenants, and we may be pressured to reduce our rental rates below those we currently charge in order to retain tenants when our tenants' leases expire. Our success depends upon, among other factors, trends of the national and local economies, financial condition and operating results of current and prospective tenants and

customers, availability and cost of capital, construction and renovation costs, taxes, governmental regulations, legislation and population trends.

A single tenant represents a substantial portion of our lease revenues.

For the year ended December 31, 2012, approximately 30% of our total revenue was derived from rental payments by AMC, one of the nation's largest movie exhibition companies, under leases for megaplex theatre properties. AMCE Entertainment, Inc. ("AMCE") has guaranteed AMC's performance under substantially all of their leases. We have diversified and expect to continue to diversify our real estate portfolio by entering into lease transactions with a number of other leading operators. Nevertheless, our revenues and our continuing ability to service our debt and pay shareholder dividends are currently substantially dependent on AMC's performance under its leases and AMCE's performance under its guarantee.

We believe AMC occupies a strong position in the industry and we intend to continue acquiring and leasing back or developing new AMC theatres. However, AMC and AMCE are susceptible to the same risks as our other tenants described herein. If for any reason AMC failed to perform under its lease obligations and AMCE did not perform under its guarantee, we could be required to reduce or suspend our shareholder dividends and may not have sufficient funds to support operations or service our debt until substitute tenants are obtained. If that happened, we cannot predict when or whether we could obtain substitute quality tenants on acceptable terms.

A single tenant leases or is the mortgagor of a substantial portion of our investments related to metropolitan ski areas and a single tenant leases a significant number of our public charter school properties.

Peak is the lessee of our metropolitan ski area in Ohio and is the mortgagor on six notes receivable secured by 11 metropolitan ski areas and related development land. Similarly, Imagine is the lessee of a significant number of our public charter school properties. If Peak failed to perform under its lease and mortgage loan obligations, and/or Imagine failed to perform under its master lease, we may need to reduce our shareholder dividends and may not have sufficient funds to support operations or service our debt until substitute operators are obtained. If that happened, we cannot predict when or whether we could obtain quality substitute tenants or mortgagors on acceptable terms.

Public charter schools are operated pursuant to charters granted by various state or other regulatory authorities and are dependent upon compliance with the terms of such charters in order to obtain funding from local, state and federal governments. We could be adversely affected by a public charter school's failure to comply with its charter, non-renewal of a charter upon expiration or by its reduction or loss of funding.

Our public charter school properties operate pursuant to charters granted by various state or other regulatory authorities, which are generally shorter than our lease terms, and most of the schools have undergone or expect to undergo compliance audits or reviews by such regulatory authorities. Such audits and reviews examine the financial as well as the academic performance of the school. Adverse audit or review findings could result in non-renewal or revocation of a public charter school's charter, or in some cases, a reduction in the amount of state funding, repayment of previously received state funding or other economic sanctions. Our public charter school tenants are also dependent upon funding from local, state and federal governments, which are currently experiencing budgetary constraints, and any reduction or loss of such funding could adversely affect a public charter school's ability to comply with its charter and/or pay its obligations.

Imagine, an operator of public charter schools, is a lessee of a substantial number of our public charter school properties. Recently, some of the Company's public charter school properties operated by Imagine have been subject to compliance audits or reviews that resulted in probationary actions and, in nine cases, charter revocation. Additionally, two schools have received notice that their charters will not be renewed and although this decision is being appealed, there is no guarantee that this appeal will be successful. We are currently in the process of resolving these issues with Imagine; however, there can be no assurances that any such solutions will satisfy either the respective regulatory body or the Company, and could result in the Company pursuing its remedies under the lease.

We believe that we have taken actions to mitigate, or have otherwise accounted for, some of the risks associated with our public charter school properties. For instance, Imagine is required to maintain irrevocable letters of credit to secure a portion of their annual lease payment owed to us under the master lease agreement. Subject to our approval and certain other terms and conditions, the master lease agreement also allows Imagine to repurchase from us the public charter

school properties that are causing technical defaults and, in substitution for such properties, sell to us public charter school properties that would otherwise comply with the lease agreement. In fact, Imagine recently exercised this right with respect to two of the properties that suffered a charter revocation and such repurchases have been completed. In addition, one school has been sub-leased by Imagine to the St. Louis Missouri Public School District. However, with respect to other schools without charters for which Imagine is still paying rent, there is no guarantee that acceptable schools will be available for substitutions or that such substitutions will be completed. In addition, while governing authorities may approve substitute operators for failed public charter schools to ensure continuity for students, we cannot predict when or whether applicable governing authorities would approve such substitute operators, nor can we predict whether we could reach lease agreements with such substitute tenants on acceptable terms. If Imagine is unable to provide adequate substitute collateral under its master lease with us, and/or is unable to pay its obligations, we may be required to record an impairment loss or sell schools for less than their net book value.

There are risks inherent in having indebtedness and the use of such indebtedness to fund acquisitions.
We currently utilize debt to fund portions of our operations and acquisitions. In a rising interest rate environment, the cost of our variable rate debt and any new variable rate debt will increase. We have used leverage to acquire properties and expect to continue to do so in the future. Although the use of leverage is common in the real estate industry, our use of debt exposes us to some risks. If a significant number of our tenants fail to make their lease payments and we don't have sufficient cash to pay principal and interest on the debt, we could default on our debt obligations. A substantial amount of our debt financing is secured by mortgages on our properties. If we fail to meet our mortgage payments, the lenders could declare a default and foreclose on those properties.

Most of our debt instruments contain balloon payments which may adversely impact our financial performance and our ability to pay dividends.
Most of our financing arrangements require us to make a lump-sum or "balloon" payment at maturity. There can be no assurance that we will be able to refinance such debt on favorable terms or at all. To the extent we cannot refinance such debt on favorable terms or at all, we may be forced to dispose of properties on disadvantageous terms or pay higher interest rates, either of which would have an adverse impact on our financial performance and ability to pay dividends to our shareholders.

We must obtain new financing in order to grow.
As a REIT, we are required to distribute at least 90% of our taxable net income to shareholders in the form of dividends. Other than deciding to make these dividends in our common shares, we are limited in our ability to use internal capital to acquire properties and must continually raise new capital in order to continue to grow and diversify our investment portfolio. Our ability to raise new capital depends in part on factors beyond our control, including conditions in equity and credit markets, conditions in the industries in which our tenants are engaged and the performance of real estate investment trusts generally. We continually consider and evaluate a variety of potential transactions to raise additional capital, but we cannot assure that attractive alternatives will always be available to us, nor that our share price will increase or remain at a level that will permit us to continue to raise equity capital publicly or privately.

Covenants in our debt instruments could adversely affect our financial condition and our acquisitions and development activities.
The mortgages on our properties contain customary covenants such as those that limit our ability, without the prior consent of the lender, to further mortgage the applicable property or to discontinue insurance coverage. Our unsecured revolving credit facility, term loan facility, senior notes and other loans that we may obtain in the future contain certain cross-default provisions as well as customary restrictions, requirements and other limitations on our ability to incur indebtedness, including covenants that limit our ability to incur debt based upon the level of our ratio of total debt to total assets, our ratio of secured debt to total assets, our ratio of EBITDA to interest expense and fixed charges. Our ability to borrow under both our unsecured revolving credit facility and our term loan facility is also subject to compliance with certain other covenants. In addition, failure to comply with our covenants could cause a default under the applicable debt instrument, and we may then be required to repay such debt with capital from other sources. Under those circumstances, other sources of capital may not be available to us, or be available only on unattractive terms. Additionally, our ability to satisfy current or prospective lenders' insurance requirements may be adversely affected if lenders generally insist upon greater insurance coverage against acts of terrorism than is available to us in the marketplace or on commercially reasonable terms.

We rely on debt financing, including borrowings under our unsecured revolving credit facility, term loan facility, issuances of debt securities and debt secured by individual properties, to finance our acquisition and development activities and for working capital. If we are unable to obtain financing from these or other sources, or to refinance existing indebtedness upon maturity, our financial condition and results of operations would likely be adversely affected.

We may acquire or develop properties or acquire other real estate related companies and this may create risks.
We may acquire or develop properties or acquire other real estate related companies when we believe that an acquisition or development is consistent with our business strategies. We may not, however, succeed in consummating desired acquisitions or in completing developments on time. In addition, we may face competition in pursuing acquisition or development opportunities that could increase our costs. Difficulties in integrating acquisitions may prove costly or time-consuming and could divert management's attention. Acquisitions or developments in new markets or industries where we do not have the same level of market knowledge may expose us to unanticipated risks in those markets and industries to which we are unable to effectively respond and, as a result, our performance in those new markets and industries and overall may be worse than anticipated. In addition, there is no assurance that planned third party financing related to acquisition and development opportunities will be provided on a timely basis or at all, thus increasing the risk that such opportunities are delayed or fail to be completed as originally contemplated. We may also abandon acquisition or development opportunities that we have begun pursuing and consequently fail to recover expenses already incurred and have devoted management time to a matter not consummated. Furthermore, our acquisitions of new properties or companies will expose us to the liabilities of those properties or companies, some of which we may not be aware at the time of acquisition. In addition, development of our existing properties presents similar risks.

Our real estate investments are concentrated in entertainment, education and recreation properties and a significant portion of those investments are in megaplex theatre properties, making us more vulnerable economically than if our investments were more diversified.
We acquire, develop or finance entertainment, education and recreation properties. A significant portion of our investments are in megaplex theatre properties. Although we are subject to the general risks inherent in concentrating investments in real estate, the risks resulting from a lack of diversification become even greater as a result of investing primarily in entertainment, education and recreation properties. These risks are further heightened by the fact that a significant portion of our investments are in megaplex theatre properties. Although a downturn in the real estate industry could significantly adversely affect the value of our properties, a downturn in the entertainment, education and recreation industries could compound this adverse effect. These adverse effects could be more pronounced than if we diversified our investments to a greater degree outside of entertainment, education and recreation properties or, more particularly, outside of megaplex theatre properties.

If we fail to qualify as a REIT, we would be taxed as a corporation, which would substantially reduce funds available for payment of dividends to our shareholders.
If we fail to qualify as a REIT for federal income tax purposes, we will be taxed as a corporation. We are organized and believe we qualify as a REIT, and intend to operate in a manner that will allow us to continue to qualify as a REIT. However, we cannot provide any assurance that we have always qualified and will remain qualified in the future. This is because qualification as a REIT involves the application of highly technical and complex provisions of the Internal Revenue Code of 1986, as amended, on which there are only limited judicial and administrative interpretations, and depends on facts and circumstances not entirely within our control. In addition, future legislation, new regulations, administrative interpretations or court decisions may significantly change the tax laws, the application of the tax laws to our qualification as a REIT or the federal income tax consequences of that qualification.

If we were to fail to qualify as a REIT in any taxable year (including any prior taxable year for which the statute of limitations remains open) we would face tax consequences that could substantially reduce the funds available for the service of our debt and payment of dividends:

- We would not be allowed a deduction for dividends paid to shareholders in computing our taxable income and would be subject to federal income tax at regular corporate rates;
- We could be subject to the federal alternative minimum tax and possibly increased state and local taxes;
- Unless we are entitled to relief under statutory provisions, we could not elect to be treated as a REIT for four taxable years following the year in which we were disqualified; and

- We could be subject to tax penalties and interest.

In addition, if we fail to qualify as a REIT, we will no longer be required to pay dividends. As a result of these factors, our failure to qualify as a REIT could adversely affect the market price for our shares.

We will depend on distributions from our direct and indirect subsidiaries to service our debt and pay dividends to our shareholders. The creditors of these subsidiaries, and our direct creditors, are entitled to amounts payable to them before we pay any dividends to our shareholders.

Substantially all of our assets are held through our subsidiaries. We depend on these subsidiaries for substantially all of our cash flow. The creditors of each of our direct and indirect subsidiaries are entitled to payment of that subsidiary's obligations to them, when due and payable, before distributions may be made by that subsidiary to us. In addition, our creditors, whether secured or unsecured, are entitled to amounts payable to them before we may pay any dividends to our shareholders. Thus, our ability to service our debt obligations and pay dividends to holders of our common and preferred shares depends on our subsidiaries' ability first to satisfy their obligations to their creditors and then to pay distributions to us and our ability to satisfy our obligations to our direct creditors. Our subsidiaries are separate and distinct legal entities and have no obligations, other than guaranties of our debt, to make funds available to us.

Our development financing arrangements expose us to funding and purchase risks.

Our ability to meet our construction financing obligations which we have undertaken or may enter into in the future depends on our ability to obtain equity or debt financing in the required amounts. There is no assurance we can obtain this financing or that the financing rates available will ensure a spread between our cost of capital and the rent or interest payable to us under the related leases or mortgage notes receivable. As a result, we could fail to meet our construction financing obligations which, in turn, could result in failed projects and related foreclosures and penalties, each of which could have a material adverse impact on our results of operations and business.

We have a limited number of employees and loss of personnel could harm our operations and adversely affect the value of our common shares.

We had 31 full-time employees as of December 31, 2012 and, therefore, the impact we may feel from the loss of an employee may be greater than the impact such a loss would have on a larger organization. We are dependent on the efforts of the following individuals: David M. Brain, our President and Chief Executive Officer; Gregory K. Silvers, our Executive Vice President and Chief Operating Officer; Mark A. Peterson, our Senior Vice President and Chief Financial Officer; Morgan G. Earnest, our Senior Vice President and Chief Investment Officer; Neil E. Sprague, our Senior Vice President and General Counsel; and Michael L. Hirons, our Vice President - Strategic Planning. While we believe that we could find replacements for our personnel, the loss of their services could harm our operations and adversely affect the value of our common shares.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

In the ordinary course of our business, we collect and store sensitive data, including our proprietary business information and that of our tenants and clients and personally identifiable information of our employees, in our facility and on our network. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our network and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, disrupt our operations, damage our reputation, and cause a loss of confidence, which could adversely affect our business.

Risks That Apply to our Real Estate Business

Real estate income and the value of real estate investments fluctuate due to various factors.

The value of real estate fluctuates depending on conditions in the general economy and the real estate business. These conditions may also limit our revenues and available cash.

The factors that affect the value of our real estate include, among other things:

- international, national, regional and local economic conditions;
- consequences of any armed conflict involving, or terrorist attack against, the United States or Canada;
- our ability to secure adequate insurance;
- local conditions such as an oversupply of space or a reduction in demand for real estate in the area;
- competition from other available space;
- whether tenants and users such as customers of our tenants consider a property attractive;
- the financial condition of our tenants, including the extent of tenant bankruptcies or defaults;
- whether we are able to pass some or all of any increased operating costs through to tenants;
- how well we manage our properties;
- fluctuations in interest rates;
- changes in real estate taxes and other expenses;
- changes in market rental rates;
- the timing and costs associated with property improvements and rentals;
- changes in taxation or zoning laws;
- government regulation;
- our failure to continue to qualify as a REIT for federal income tax purposes;
- availability of financing on acceptable terms or at all;
- potential liability under environmental or other laws or regulations; and
- general competitive factors.

The rents and interest we receive and the occupancy levels at our properties may decline as a result of adverse changes in any of these factors. If our revenues decline, we generally would expect to have less cash available to pay our indebtedness and distribute to our shareholders. In addition, some of our unreimbursed costs of owning real estate may not decline when the related rents decline.

There are risks associated with owning and leasing real estate.
Although our lease terms obligate the tenants to bear substantially all of the costs of operating the properties, investing in real estate involves a number of risks, including:

- the risk that tenants will not perform under their leases, reducing our income from the leases or requiring us to assume the cost of performing obligations (such as taxes, insurance and maintenance) that are the tenant's responsibility under the lease;
- the risk that changes in economic conditions or real estate markets may adversely affect the value of our properties;
- the risk that local conditions could adversely affect the value of our properties;
- we may not always be able to lease properties at favorable rates or certain tenants may require significant capital expenditures by us to conform existing properties to their requirements;
- we may not always be able to sell a property when we desire to do so at a favorable price; and
- changes in tax, zoning or other laws could make properties less attractive or less profitable.

If a tenant fails to perform on its lease covenants, that would not excuse us from meeting any debt obligation secured by the property and could require us to fund reserves in favor of our lenders, thereby reducing funds available for payment of dividends. We cannot be assured that tenants will elect to renew their leases when the terms expire. If a tenant does not renew its lease or if a tenant defaults on its lease obligations, there is no assurance we could obtain a substitute tenant on acceptable terms. If we cannot obtain another quality tenant, we may be required to modify the property for a different use, which may involve a significant capital expenditure and a delay in re-leasing the property.

Some potential losses are not covered by insurance.
Our leases require the tenants to carry comprehensive liability, casualty, workers' compensation, extended coverage and rental loss insurance on our properties. We believe the required coverage is of the type, and amount, customarily obtained by an owner of similar properties. We believe all of our properties are adequately insured. However, there are some types of losses, such as catastrophic acts of nature, acts of war or riots, for which we or our tenants cannot obtain insurance at an acceptable cost. If there is an uninsured loss or a loss in excess of insurance limits, we could lose both the revenues generated by the affected property and the capital we have invested in the property. We would, however,

remain obligated to repay any mortgage indebtedness or other obligations related to the property. Since September 11, 2001, the cost of insurance protection against terrorist acts has risen dramatically. There can be no assurance our tenants will be able to obtain terrorism insurance coverage, or that any coverage they do obtain will adequately protect our properties against loss from terrorist attack.

Joint ventures may limit flexibility with jointly owned investments.
We may continue to acquire or develop properties in joint ventures with third parties when those transactions appear desirable. We would not own the entire interest in any property acquired by a joint venture. Major decisions regarding a joint venture property may require the consent of our partner. If we have a dispute with a joint venture partner, we may feel it necessary or become obligated to acquire the partner's interest in the venture. However, we cannot ensure that the price we would have to pay or the timing of the acquisition would be favorable to us. If we own less than a 50% interest in any joint venture, or if the venture is jointly controlled, the assets and financial results of the joint venture may not be reportable by us on a consolidated basis. To the extent we have commitments to, or on behalf of, or are dependent on, any such "off-balance sheet" arrangements, or if those arrangements or their properties or leases are subject to material contingencies, our liquidity, financial condition and operating results could be adversely affected by those commitments or off-balance sheet arrangements.

Our multi-tenant properties expose us to additional risks.
Our entertainment retail centers in Westminster, Colorado, New Rochelle, New York, Burbank, California, Suffolk, Virginia and Ontario, Canada, and similar properties we may seek to acquire or develop in the future, involve risks not typically encountered in the purchase and lease-back of real estate properties which are operated by a single tenant. The ownership or development of multi-tenant retail centers could expose us to the risk that a sufficient number of suitable tenants may not be found to enable the centers to operate profitably and provide a return to us. This risk may be compounded by the failure of existing tenants to satisfy their obligations due to various factors, including the current economic crisis. These risks, in turn, could cause a material adverse impact to our results of operations and business.

Retail centers are also subject to tenant turnover and fluctuations in occupancy rates, which could affect our operating results. Multi-tenant retail centers also expose us to the risk of potential "CAM slippage," which may occur when the actual cost of taxes, insurance and maintenance at the property exceeds the CAM fees paid by tenants.

Failure to comply with the Americans with Disabilities Act and other laws could result in substantial costs.
Most of our properties must comply with the Americans with Disabilities Act ("ADA"). The ADA requires that public accommodations reasonably accommodate individuals with disabilities and that new construction or alterations be made to commercial facilities to conform to accessibility guidelines. Failure to comply with the ADA can result in injunctions, fines, damage awards to private parties and additional capital expenditures to remedy noncompliance. Our leases require the tenants to comply with the ADA.

Our properties are also subject to various other federal, state and local regulatory requirements. We do not know whether existing requirements will change or whether compliance with future requirements will involve significant unanticipated expenditures. Although these expenditures would be the responsibility of our tenants, if tenants fail to perform these obligations, we may be required to do so.

Potential liability for environmental contamination could result in substantial costs.
Under federal, state and local environmental laws, we may be required to investigate and clean up any release of hazardous or toxic substances or petroleum products at our properties, regardless of our knowledge or actual responsibility, simply because of our current or past ownership of the real estate. If unidentified environmental problems arise, we may have to make substantial payments, which could adversely affect our cash flow and our ability to service our debt and pay dividends to our shareholders. This is because:

- as owner we may have to pay for property damage and for investigation and clean-up costs incurred in connection with the contamination;
- the law may impose clean-up responsibility and liability regardless of whether the owner or operator knew of or caused the contamination;
- even if more than one person is responsible for the contamination, each person who shares legal liability under

environmental laws may be held responsible for all of the clean-up costs; and
- governmental entities and third parties may sue the owner or operator of a contaminated site for damages and costs.

These costs could be substantial and in extreme cases could exceed the value of the contaminated property. The presence of hazardous substances or petroleum products or the failure to properly remediate contamination may adversely affect our ability to borrow against, sell or lease an affected property. In addition, some environmental laws create liens on contaminated sites in favor of the government for damages and costs it incurs in connection with a contamination. Most of our loan agreements require the Company or a subsidiary to indemnify the lender against environmental liabilities. Our leases require the tenants to operate the properties in compliance with environmental laws and to indemnify us against environmental liability arising from the operation of the properties. We believe all of our properties are in material compliance with environmental laws. However, we could be subject to strict liability under environmental laws because we own the properties. There is also a risk that tenants may not satisfy their environmental compliance and indemnification obligations under the leases. Any of these events could substantially increase our cost of operations, require us to fund environmental indemnities in favor of our lenders, limit the amount we could borrow under our unsecured revolving credit facility and term loan facility and reduce our ability to service our debt and pay dividends to shareholders.

Real estate investments are relatively illiquid.
We may desire to sell a property in the future because of changes in market conditions, poor tenant performance or default of any mortgage we hold, or to avail ourselves of other opportunities. We may also be required to sell a property in the future to meet debt obligations or avoid a default. Specialty real estate projects such as megaplex theatres cannot always be sold quickly, and we cannot assure you that we could always obtain a favorable price. In addition, the Internal Revenue Code limits our ability to sell our properties. We may be required to invest in the restoration or modification of a property before we can sell it. The inability to respond promptly to changes in the performance of our property portfolio could adversely affect our financial condition and ability to service our debt and pay dividends to our shareholders.

There are risks in owning assets outside the United States.
Our properties in Canada are subject to the risks normally associated with international operations. The rentals under our Canadian leases and the debt service on our Canadian mortgage financing are payable or collectible (as applicable) in Canadian dollars, which could expose us to losses resulting from fluctuations in exchange rates to the extent we have not hedged our position. Canadian real estate and tax laws are complex and subject to change, and we cannot assure you we will always be in compliance with those laws or that compliance will not expose us to additional expense. We may also be subject to fluctuations in Canadian real estate values or markets or the Canadian economy as a whole, which may adversely affect our Canadian investments.

Additionally, we have made initial investments in projects located in China and may enter other international markets, which may have similar risks as described above as well as unique risks associated with a specific country.

There are risks in owning or financing properties for which the tenant's, mortgagor's or our operations may be impacted by weather conditions and climate change.
We have acquired and financed metropolitan ski areas and may continue to do so in the future. The operators of these properties, our tenants or mortgagors, are dependent upon the operations of the properties to pay their rents and service their loans. The ski area operator's ability to attract visitors is influenced by weather conditions and climate change in general, each of which may impact the amount of snowfall during the ski season. Adverse weather conditions may discourage visitors from participating in outdoor activities. In addition, unseasonably warm weather may result in inadequate natural snowfall, which increases the cost of snowmaking, and could render snowmaking wholly or partially ineffective in maintaining quality skiing conditions. Excessive natural snowfall may materially increase the costs incurred for grooming trails and may also make it difficult for visitors to obtain access to the ski resorts. Prolonged periods of adverse weather conditions, or the occurrence of such conditions during peak visitation periods, could have a material adverse effect on the operator's financial results and could impair the ability of the operator to make rental payments or service our loans.

Vineyards and wineries are subject to a number of risks associated with the agricultural industry.
Winemaking and wine grape growing are subject to a variety of agricultural risks. In addition to weather, various diseases, pests, fungi and viruses can affect the quality and quantity of wine grapes and negatively impact the profitability of our tenants. Furthermore, wine grape growing requires adequate water supplies. The water needs of our properties are generally supplied through wells and reservoirs located on the properties. Although we believe that there are adequate water supplies to meet the needs of all of our properties, a substantial reduction in water supplies could result in material losses of wine crops and vines. If our tenants or the properties which we operate suffer a downturn due to any of the factors described above, these tenants may be unable to make their lease or loan payments and cash flow from the properties which we operate may be reduced, both of which could adversely affect our results of operations and financial condition.

Risks That May Affect the Market Price of our Shares

We cannot assure you we will continue paying cash dividends at current rates.
Our dividend policy is determined by our Board of Trustees. Our ability to continue paying dividends on our common shares, to pay dividends on our preferred shares at their stated rates or to increase our common share dividend rate will depend on a number of factors, including our liquidity, our financial condition and results of future operations, the performance of lease and mortgage terms by our tenants and customers, our ability to acquire, finance and lease additional properties at attractive rates, and provisions in our loan covenants. If we do not maintain or increase our common share dividend rate, that could have an adverse effect on the market price of our common shares and possibly our preferred shares. Furthermore, if the Board of Trustees decides to pay dividends on our common shares partially or substantially all in common shares, that could have an adverse effect on the market price of our common shares and possibly our preferred shares.

Market interest rates may have an effect on the value of our shares.
One of the factors that investors may consider in deciding whether to buy or sell our common shares or preferred shares is our dividend rate as a percentage of our share price, relative to market interest rates. If market interest rates increase, prospective investors may desire a higher dividend rate on our common shares or seek securities paying higher dividends or interest.

Market prices for our shares may be affected by perceptions about the financial health or share value of our tenants and mortgagors or the performance of REIT stocks generally.
To the extent any of our tenants or customers, or their competition, report losses or slower earnings growth, take charges against earnings or enter bankruptcy proceedings, the market price for our shares could be adversely affected. The market price for our shares could also be affected by any weakness in the performance of REIT stocks generally or weakness in any of the sectors in which our tenants and customers operate.

Limits on changes in control may discourage takeover attempts which may be beneficial to our shareholders.
There are a number of provisions in our Declaration of Trust, Bylaws, Maryland law and agreements we have with others which could make it more difficult for a party to make a tender offer for our shares or complete a takeover of the Company which is not approved by our Board of Trustees. These include:

- a staggered Board of Trustees that can be increased in number without shareholder approval;
- a limit on beneficial ownership of our shares, which acts as a defense against a hostile takeover or acquisition of a significant or controlling interest, in addition to preserving our REIT status;
- the ability of the Board of Trustees to issue preferred or common shares, to reclassify preferred or common shares, and to increase the amount of our authorized preferred or common shares, without shareholder approval;
- limits on the ability of shareholders to remove trustees without cause;
- requirements for advance notice of shareholder proposals at shareholder meetings;
- provisions of Maryland law restricting business combinations and control share acquisitions not approved by the Board of Trustees;
- provisions of Maryland law protecting corporations (and by extension REITs) against unsolicited takeovers by limiting the duties of the trustees in unsolicited takeover situations;
- provisions in Maryland law providing that the trustees are not subject to any higher duty or greater scrutiny

than that applied to any other director under Maryland law in transactions relating to the acquisition or potential acquisition of control;
- provisions of Maryland law creating a statutory presumption that an act of the trustees satisfies the applicable standards of conduct for trustees under Maryland law;
- provisions in loan or joint venture agreements putting the Company in default upon a change in control; and
- provisions of employment agreements with our officers calling for severance compensation and vesting of equity compensation upon a change in control.

Any or all of these provisions could delay or prevent a change in control of the Company, even if the change was in our shareholders' interest or offered a greater return to our shareholders.

We may change our policies without obtaining the approval of our shareholders.
Our operating and financial policies, including our policies with respect to acquiring or financing real estate or other companies, growth, operations, indebtedness, capitalization and dividends, are exclusively determined by our Board of Trustees. Accordingly, our shareholders do not control these policies.

Dilution could affect the value of our shares.
Our future growth will depend in part on our ability to raise additional capital. If we raise additional capital through the issuance of equity securities, the interests of holders of our common shares could be diluted. Likewise, our Board of Trustees is authorized to cause us to issue preferred shares in one or more series, the holders of which would be entitled to dividends and voting and other rights as our Board of Trustees determines, and which could be senior to or convertible into our common shares. Accordingly, an issuance by us of preferred shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares. As of December 31, 2012, our Series C preferred shares are convertible, at each of the holder's option, into our common shares at a conversion rate of 0.3590 common shares per $25.00 liquidation preference, which is equivalent to a conversion price of approximately $69.64 per common share (subject to adjustment in certain events). Additionally, as of December 31, 2012, our Series E preferred shares are convertible, at each of the holder's option, into our common shares at a conversion rate of 0.4512 common shares per $25.00 liquidation preference, which is equivalent to a conversion price of approximately $55.41 per common share (subject to adjustment in certain events). Under certain circumstances in connection with a change in control of our Company, holders of our Series F preferred shares may elect to convert some or all of their Series F preferred shares into a number of our common shares per Series F preferred share equal to the lesser of (a) the $25.00 per share liquidation preference, plus accrued and unpaid dividends divided by the market value of our common shares or (b) 1.1008 shares. Depending upon the number of Series C, Series E and Series F preferred shares being converted at one time, a conversion of Series C, Series E and Series F preferred shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares.

Future offerings of debt or equity securities, which may rank senior to our common shares, may adversely affect the market price of our common shares.
If we decide to issue debt securities in the future, which would rank senior to our common shares, it is likely that they will be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Additionally, any equity securities or convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges more favorable than those of our common shares and may result in dilution to owners of our common shares. We and, indirectly, our shareholders, will bear the cost of issuing and servicing such securities. Because our decision to issue debt or equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of our common shares will bear the risk of our future offerings reducing the market price of our common shares and diluting the value of their share holdings in us.

Changes in foreign currency exchange rates may have an impact on the value of our shares.
The functional currency for our Canadian operations is the Canadian dollar. As a result, our future operating results could be affected by fluctuations in the exchange rate between U.S. and Canadian dollars, which in turn could affect our share price. We have attempted to mitigate our exposure to Canadian currency exchange risk by having both our Canadian lease rentals and the debt service on our Canadian mortgage financing payable in the same currency. We have also entered into foreign currency exchange contracts to hedge in part our exposure to exchange rate fluctuations.

Foreign currency derivatives are subject to future risk of loss. We do not engage in purchasing foreign exchange contracts for speculative purposes.

Additionally, we have made investments in China and may enter other international markets which pose similar currency fluctuation risks as described above.

We may be subject to adverse legislative or regulatory tax changes that could reduce the market price of our shares.
At any time, the U.S. federal income tax laws or regulations governing REITs or the administrative interpretations of those laws or regulations may be changed, possibly with retroactive effect. We cannot predict if or when any new U.S. federal income tax law, regulation or administrative interpretation, or any amendment to any existing U.S. federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective or whether any such law, regulation or interpretation may take effect retroactively. We and our shareholders could be adversely affected by any such change in, or any new, U.S. federal income tax law, regulation or administrative interpretation.

Tax reform could adversely affect the value of our shares.
There have been a number of proposals in Congress for major revision of the federal income tax laws, including proposals to adopt a flat tax or replace the income tax system with a national sales tax or value-added tax. Any of these proposals, if enacted, could change the federal income tax laws applicable to REITs, subject us to federal tax or reduce or eliminate the current deduction for dividends paid to our shareholders, any of which could negatively affect the market for our shares.

Item 1B. Unresolved Staff Comments

There are no unresolved comments from the staff of the SEC required to be disclosed herein as of the date of this Annual Report on Form 10-K.

Item 2. Properties

As of December 31, 2012, our real estate portfolio consisted of 113 megaplex theatre properties and various restaurant, retail and other properties including 38 public charter schools and certain properties under construction located in 36 states, the District of Columbia and Ontario, Canada. Except as otherwise noted, all of the real estate investments listed below are owned or ground leased directly by us. The following table lists our owned properties (excluding properties under development) listed by segment, their locations, acquisition dates, number of theatre screens, number of seats, gross square footage, and the tenant.

Property	Location	Acquisition date	Screens	Seats	Building (gross sq. ft)	Tenant
Entertainment Properties:						
Huebner Oaks 14	San Antonio, TX	11/97	24	4,400	53,583	Regal
Amstar Cinemas 14	Dallas, TX	11/97	14	2,962	56,430	Southern
First Colony 24 (1)(26)	Sugar Land, TX	11/97	24	5,098	107,690	AMC
Leawood Town Center 20 (28)	Leawood, KS	11/97	20	2,995	75,224	AMC
Oakview Plaza 24 (27)	Omaha, NE	11/97	24	5,098	107,402	AMC
Lennox Town Center 24 (1)	Columbus, OH	11/97	24	4,412	98,261	AMC
Mission Valley 20 (1)	San Diego, CA	11/97	20	4,361	84,352	AMC
Ontario Mills 30	Ontario, CA	11/97	30	5,469	131,534	AMC
Promenade 16	Los Angeles, CA	11/97	16	2,860	129,822	AMC

(40) Property includes 406 acres of land.

As of December 31, 2012, our owned portfolio of entertainment properties consisted of 10.7 million square feet and was 98% leased, including 8.9 million square feet of owned megaplex theatre properties that were 99% leased. Our owned portfolio of education properties consisted of 2.3 million square feet and was 100% leased. Our owned portfolio of recreation properties consisted of approximately 370 thousand square feet of buildings and 1,038 acres of land, and was 100% leased. The combined owned portfolio consisted of 13.9 million square feet and was 98% leased. The following table sets forth information regarding EPR's owned megaplex theatre portfolio as of December 31, 2012 (dollars in thousands). This data does not include the two megaplex theatre properties held by our unconsolidated joint ventures.

Megaplex Theatre Portfolio

Year	Total Number of Leases Expiring	Square Footage	Revenue for the Year Ended December 31, 2012 (1)	% of Rental Revenue

(1) Consists of rental revenue and tenant reimbursements.

Office Location

Our executive office is located in Kansas City, Missouri and is leased from a third-party landlord. The office occupies approximately 31,831 square feet with annual rentals of approximately $408 thousand. The lease expires on September 30, 2016 with two five year extension options available.

Tenants and Leases

Our existing leases on rental property (on a consolidated basis - excluding unconsolidated joint venture properties) provide for aggregate annual rentals of approximately $231.0 million (not including periodic rent escalations, percentage

rent or straight-line rent). The megaplex theatre leases have an average remaining base term lease life of approximately nine years and may be extended for predetermined extension terms at the option of the tenant. The theatre leases are typically triple-net leases that require the tenant to pay substantially all expenses associated with the operation of the properties, including taxes, other governmental charges, insurance, utilities, service, maintenance and any ground lease payments.

Property Acquisitions and Developments in 2012

The following table lists the significant rental properties we acquired or developed during 2012:

Property	Operating Segment	Location	Tenant	Development Cost/ Purchase Price
Magic Valley Mall Theatre	Entertainment	Twin Falls, ID	Cinema West	$4.8 million
Sandhills 10	Entertainment	Southern Pines, NC	Frank Theatres, LLC	$6.5 million
Pinstripes Oakbrook	Entertainment	Oakbrook, IL	Pinstripes	$8.1 million
Latitude 39	Entertainment	Indianapolis, IN	Latitude Global, Inc.	$10.6 million
Latitude 30	Entertainment	Jacksonville, FL	Latitude Global, Inc.	$9.6 million
Valley Academy	Education	Hurricane, UT	Valley Academy Project Development, LLC	$5.4 million
Skyline Phoenix	Education	Phoenix, AZ	Skyline Schools Project Development, LLC	$9.2 million
American Leadership Academy High School	Education	Queen Creek, AZ	Schoolhouse Queen Creek LLC	$16.4 million
Prospect Ridge Academy	Education	Broomfield, CO	Prospect Ridge Academy Project Development, LLC	$10.7 million
Pacific Heritage Academy	Education	Salt Lake City, UT	Pacific Heritage Academy Project Development, LLC	$5.4 million
The Odyssey Insitute for International and Advanced Studies	Education	Buckeye, AZ	Schoolhouse Buckeye LLC	$10.6 million
Wisp Resort	Recreation	McHenry, MD	Everbright Pacific, LLC	$23.5 million
Top Golf Houston	Recreation	Houston, TX	Top Golf USA	$12.4 million
Top Golf Dallas	Recreation	Dallas, TX	Top Golf USA	$10.0 million
Top Golf Allen	Recreation	Allen, TX	Top Golf USA	$10.0 million

Item 3. Legal Proceedings

On June 7, 2011, affiliates of Louis Cappelli, Concord Associates, L.P., Concord Resort, LLC and Concord Kiamesha LLC ("the Cappelli Group"), filed a complaint with the Supreme Court of the State of New York, County of Sullivan, against a subsidiary of the Company seeking (i) a declaratory judgment on certain of the subsidiary's obligations under a previously disclosed settlement agreement involving these entities, (ii) an order that the Company subsidiary execute the golf course lease and the "Racino Parcel" lease subject to the settlement agreement, and (iii) an extension of the restrictive covenant against ownership or operation of a casino on the Concord resort property under the settlement agreement, which covenant was set to expire on December 31, 2011. On October 20, 2011, the Cappelli Group filed a complaint with the Supreme Court of the State of New York, County of Westchester against the Company and certain of its subsidiaries alleging breach of contract and breach of the duty of good faith and fair dealing with respect to a casino development agreement relating to a planned casino and resort development in Sullivan County, New York. Plaintiffs are seeking specific performance with respect to such agreement and money damages of $800.0 million, plus interest and attorneys' fees. On March 7, 2012, Concord Associates, L.P. and seven other companies affiliated with Mr. Cappelli and Concord Associates, L.P. filed a new complaint against the Company and certain of its subsidiaries, as well as Empire Resorts, Inc. and its subsidiary Monticiello Raceway Management, Inc., in the United States District

Court for the Southern District of New York. On June 25, 2012, an amended complaint was served against the same parties as well as Kien Huat Realty III Limited and Genting New York, LLC (Genting Parties). The amended complaint alleges unlawful restraint of trade, conspiracy to monopolize and unlawful monopolization, against the Company, the Empire Resorts parties and the Genting Parties as well as tortious interference against the Empire Resorts parties and the Genting Parties, in relation to a proposed development transaction on the same Sullivan County, New York resort property. Plaintiffs seek damages of $1.5 billion, plus interest and attorneys' fees. The Company intends to vigorously defend the claims asserted against the Company and certain of its subsidiaries by the Concord entities for which it believes it has meritorious defenses, but it is too early to assess the outcome.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information and Dividends

The following table sets forth, for the quarterly periods indicated, the high and low sales prices per share for our common shares on the New York Stock Exchange ("NYSE") under the trading symbol "EPR" and the dividends declared.

	High	Low	Dividend
2012:			
Fourth quarter	$ 46.75	$ 42.44	$ 0.75
Third quarter	48.92	41.13	0.75
Second quarter	48.49	40.04	0.75
First quarter	47.40	41.25	0.75
2011:			
Fourth quarter	$ 46.48	$ 35.97	$ 0.70
Third quarter	50.44	35.71	0.70
Second quarter	48.90	44.31	0.70
First quarter	48.24	44.31	0.70

The closing price for our common shares on the NYSE on February 26, 2013 was $47.09 per share.

We declared quarterly dividends to common shareholders aggregating $3.00 and $2.80 per common share in 2012 and 2011, respectively.

While we intend to continue paying regular dividends, future dividend declarations will be at the discretion of the Board of Trustees and will depend on our actual cash flow, our financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Code, debt covenants and other factors the Board of Trustees deems relevant. We intend to pay dividends to our common shareholders on a monthly basis beginning in the second quarter of 2013. We expect to continue to pay dividends to our preferred shareholders on a quarterly basis. The actual cash flow available to pay dividends may be affected by a number of factors, including the revenues received from rental properties and mortgage notes, our operating expenses, debt service on our borrowings, the ability of tenants and customers to meet their obligations to us and any unanticipated capital expenditures. Our Series C preferred shares have a fixed dividend rate of 5.75%, our Series E preferred shares have a fixed dividend rate of 9.00% and our Series F preferred shares have a fixed dividend rate of 6.625%.

During the year ended December 31, 2012, the Company did not sell any unregistered equity securities.

On February 26, 2013, there were approximately 645 holders of record of our outstanding common shares.

Issuer Purchases of Equity Securities
During the quarter ended December 31, 2012, the Company did not purchase any unregistered equity securities.

Share Performance Graph

The following graph compares the cumulative return on our common shares during the five year period ended December 31, 2012, to the cumulative return on the MSCI U.S. REIT Index and the Russell 2000 Index for the same period. The comparisons assume an initial investment of $100 and the reinvestment of all dividends during the comparison period. Performance during the comparison period is not necessarily indicative of future performance.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in this Annual Report on Form 10-K. The forward-looking statements included in this discussion and elsewhere in this Annual Report on Form 10-K involve risks and uncertainties, including anticipated financial performance, business prospects, industry trends, shareholder returns, performance of leases by tenants, performance on loans to customers and other matters, which reflect management's best judgment based on factors currently known. See "Cautionary Statement Concerning Forward-Looking Statements." Actual results and experience could differ materially from the anticipated results and other expectations expressed in our forward-looking statements as a result of a number of factors, including but not limited to those discussed in this Item and in Item 1A - "Risk Factors."

Overview

Business

Our principal business objective is to enhance shareholder value by achieving predictable and increasing FFO and dividends per share. Our prevailing strategy is to focus on long-term investments in a limited number of categories in which we maintain a depth of knowledge and relationships, and which we believe offer sustained performance throughout all economic cycles. Our investment portfolio includes ownership of and long-term mortgages on entertainment, education and recreation properties. Substantially all of our owned single-tenant properties are leased pursuant to long-term, triple-net leases, under which the tenants typically pay all operating expenses of the property. Tenants at our owned multi-tenant properties are typically required to pay common area maintenance charges to reimburse us for their pro-rata portion of these costs.

It has been our strategy to structure leases and financings to ensure a positive spread between our cost of capital and the rentals or interest paid by our tenants. We have primarily acquired or developed new properties that are pre-leased to a single tenant or multi-tenant properties that have a high occupancy rate. We have also entered into certain joint ventures and we have provided mortgage note financing. We intend to continue entering into some or all of these types of arrangements in the foreseeable future.

Historically, our primary challenges have been locating suitable properties, negotiating favorable lease or financing terms (on new or existing properties), and managing our portfolio as we have continued to grow. We believe our management's knowledge and industry relationships have facilitated opportunities for us to acquire, finance and lease properties. Our business is subject to a number of risks and uncertainties, including those described in "Risk Factors" in Item 1A of this report.

As of December 31, 2012, our total assets exceeded $2.9 billion (after accumulated depreciation of approximately $0.4 billion) which included investments in 113 megaplex theatre properties (including two joint venture properties), 38 public charter school properties and various other entertainment and recreation properties located in 36 states, the District of Columbia and Ontario, Canada. The combined owned portfolio consisted of 13.9 million square feet and was 98% leased. As of December 31, 2012, we had invested approximately $225.6 million in development land and property under development and approximately $455.8 million in mortgage financing for entertainment, education and recreation properties.

Operating Results

Our total revenue, net income available to common shareholders and Funds From Operations As Adjusted ("FFOAA") are detailed below for the years ended December 31, 2012 and 2011 (in millions, except per share information):

	Year ended December 31,		
	2012	2011	Increase
Total revenue	$ 321.8	$ 298.3	8%
Net income available to common shareholders of EPR Properties	93.2	84.3	11%
FFOAA per diluted share	3.69	3.43	8%

Our total revenue, net income available to common shareholders of EPR Properties and FFOAA per diluted share increased year over year primarily due to investment spending in 2011 and 2012 (discussed below), lower financing rates and favorable percentage revenue related to our interests in water-parks and golf entertainment complexes. Our net income available to common shareholders of EPR Properties was partially offset in both years by impairment charges related to our vineyard and winery properties as we exit that business, as well as preferred share redemption costs. In 2011, net income available to common shareholders of EPR Properties was favorably impacted by a gain on the sale of the Toronto Dundas Square entertainment retail center of $19.5 million. FFOAA is a non-GAAP financial measure. For the definitions and further details on the calculations of FFOAA and certain other non-GAAP financial measures, see section below titled "Funds From Operations (FFO), Funds From Operations As Adjusted (FFOAA) and Adjusted Funds from Operations (AFFO)."

Investment Spending Overview

During 2012, our total investment spending of $298.1 million was an increase of 116% over our investment spending in 2011. Our investment spending in 2011 was lower than it had been historically because of the financial and economic environment at that time.

During 2012, our investment spending in our entertainment segment was $121.5 million. As box office performance improved over the latter part of 2011 and 2012, we were able to find more build-to-suit opportunities available for megaplex theatres at attractive terms with both existing and new tenants. Additionally, many megaplex theatre operators are expanding their food and beverage options and are now including in-theatre dining options and alcohol availability. This trend has provided more build-to-suit opportunities for us as well. Also, we expanded our investment spending in the family entertainment center category.

During 2012, our investment spending in our education segment was $81.4 million and consisted of build-to-suit public charter schools. We continued to establish our position as a leading owner of public charter school real estate and expect this momentum to continue into 2013. We continued to diversify our tenant base, and as of year-end we have 17 different public charter school operators and we expect to continue to expand this number in 2013. As discussed below under "Recent Developments," certain of our public charter school properties which were operated by our largest tenant in this area, Imagine, had their charters revoked and/or were closed; however these events are not expected to impact our ability to collect payments from Imagine under their master lease with us.

During 2012, our investment spending in our recreation segment was $83.6 million and related primarily to metro ski areas and golf entertainment complexes. We plan to continue to seek attractive investments in this segment in 2013. During the 2011-2012 season, our ski parks experienced unseasonably warm temperatures. While attendance and revenues decreased at our ski parks during the 2011-2012 season, our operator was able to fully fund the off-season reserve for interest payments and continues to perform under the terms of our mortgage note and lease agreements.

During 2012, our investment spending in our other segment was $11.6 million and related to our land held for development in Sullivan County, New York. As further discussed below under "Recent Developments," the most recent economic downturn significantly impacted both the planned casino and resort development in Sullivan County, New York as well as the performance of our vineyard and winery tenants. While the Sullivan County project is subject to an ongoing lawsuit for which we believe we have meritorious defenses, progress is being made with respect to the development of this property. Furthermore, progress is also being made in selling our vineyard and winery properties as we sold four such investments in 2011 and 2012. As of December 31, 2012, the remaining carrying value of vineyard

and winery assets was $55.3 million. We expect to continue to pursue sales of additional vineyard and winery assets in 2013.

Capitalization Strategies

Our property acquisitions and financing commitments are financed by cash from operations, borrowings under our revolving credit facility and term loan, long-term mortgage debt, and the sale of debt and equity securities. During the past three years, we have taken significant steps to implement our strategy of migrating to an unsecured debt structure and maintaining significant liquidity by issuing $600.0 million of unsecured notes, entering into a new $400.0 million unsecured revolving credit facility and $240.0 million unsecured term loan and we paid off $171.6 million in secured debt. Having enhanced our liquidity position, strengthened our balance sheet and obtained access to the unsecured debt markets, we believe we are better positioned to aggressively pursue investments, acquisitions and financing opportunities that may become available to us from time to time.

Throughout the remainder of 2013, we expect to maintain our debt to total gross assets ratio between 35% and 45%. Depending on our capital needs, we will seek both debt and equity capital and will consider issuing additional shares under the direct share purchase component of our DSP Plan. While equity issuances and maintaining lower leverage mitigate the growth in per share results, we believe lower leverage and an emphasis on liquidity are prudent during the current economic environment.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying consolidated financial statements and related notes. In preparing these financial statements, management has made its best estimates and assumptions that affect the reported assets and liabilities. The most significant assumptions and estimates relate to consolidation, revenue recognition, depreciable lives of the real estate, the valuation of real estate, accounting for real estate acquisitions, estimating reserves for uncollectible receivables and the accounting for mortgage and other notes receivable. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from these estimates.

Consolidation
We consolidate certain entities if we are deemed to be the primary beneficiary in a variable interest entity ("VIE"), as defined in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic on Consolidation. The Topic on Consolidation requires the consolidation of VIEs in which an enterprise has a controlling financial interest. A controlling financial interest will have both of the following characteristics: the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. This topic requires an ongoing reassessment of and eliminates the quantitative approach previously required for determining whether a company is the primary beneficiary and requires enhanced disclosures on variable interest entities. The equity method of accounting is applied to entities in which we are not the primary beneficiary as defined in the Consolidation Topic of the FASB ASC, or do not have effective control, but can exercise influence over the entity with respect to its operations and major decisions.

Operating Segments
For financial reporting purposes, we group our investments into four reportable operating segments: entertainment, education, recreation and other. See Note 23 to the consolidated financial statements included in this Annual Report on Form 10-K for financial information related to these operating segments.

Revenue Recognition
Rents that are fixed and determinable are recognized on a straight-line basis over the minimum terms of the leases. Base rent escalation in other leases is dependent upon increases in the Consumer Price Index ("CPI") and accordingly, management does not include any future base rent escalation amounts on these leases in current revenue. Most of our leases provide for percentage rents based upon the level of sales achieved by the tenant. These percentage rents are

recognized once the required sales level is achieved. Lease termination fees are recognized when the related leases are canceled and we have no continuing obligation to provide services to such former tenants.

Direct financing lease income is recognized on the effective interest method to produce a level yield on funds not yet recovered. Estimated unguaranteed residual values at the date of lease inception represent management's initial estimates of fair value of the leased assets at the expiration of the lease, not to exceed original cost. Significant assumptions used in estimating residual values include estimated net cash flows over the remaining lease term and expected future real estate values. The estimated unguaranteed residual value is reviewed on an annual basis or more frequently if necessary. We evaluate the collectibility of our direct financing lease receivable to determine whether it is impaired. A direct financing lease receivable is considered to be impaired when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the existing contractual terms. When a direct financing lease receivable is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the direct financing lease receivable's effective interest rate or to the value of the underlying collateral, less costs to sell, if such receivable is collateralized.

Real Estate Useful Lives

We are required to make subjective assessments as to the useful lives of our properties for the purpose of determining the amount of depreciation to reflect on an annual basis with respect to those properties. These assessments have a direct impact on our net income. Depreciation and amortization are provided on the straight-line method over the useful lives of the assets, as follows:

Buildings	40 years
Tenant improvements	Base term of lease or useful life, whichever is shorter
Furniture, fixtures and equipment	3 to 25 years

Impairment of Real Estate Values

We are required to make subjective assessments as to whether there are impairments in the value of our rental properties. These estimates of impairment may have a direct impact on our consolidated financial statements.

We assess the carrying value of our rental properties whenever events or changes in circumstances indicate that the carrying amount of a property may not be recoverable. Certain factors that may occur and indicate that impairments may exist include, but are not limited to: underperformance relative to projected future operating results, tenant difficulties and significant adverse industry or market economic trends. If an indicator of possible impairment exists, a property that is held and used by the Company is evaluated for impairment by comparing the carrying amount of the property to the estimated undiscounted future cash flows expected to be generated by the property. If the carrying amount of a property exceeds its estimated future cash flows on an undiscounted basis, an impairment charge is recognized in the amount by which the carrying amount of the property exceeds the fair value of the property. For assets and asset groups that are held for sale, an impairment loss is measured by comparing the fair value of the property, less costs to sell, to the asset (group) carrying value. Management estimates fair value of our rental properties utilizing independent appraisals and/or based on projected discounted cash flows using a discount rate determined by management to be commensurate with the risk inherent in the Company.

Real Estate Acquisitions

Upon acquisitions of real estate properties, we record the fair value of acquired tangible assets (consisting of land, building, tenant improvements, and furniture, fixtures and equipment) and identified intangible assets and liabilities (consisting of above and below market leases, in-place leases, tenant relationships and assumed financing that is determined to be above or below market terms) as well as any noncontrolling interest in accordance with FASB ASC Topic 805 on Business Combinations ("Topic 805"). In addition, in accordance with Topic 805, acquisition-related costs in connection with business combinations are expensed as incurred, rather than capitalized.

Allowance for Doubtful Accounts

Management makes quarterly estimates of the collectibility of its accounts receivable related to base rents, tenant escalations (straight-line rents), reimbursements and other revenue or income. Management specifically analyzes trends

in accounts receivable, historical bad debts, customer credit worthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of its allowance for doubtful accounts. In addition, when customers are in bankruptcy, management makes estimates of the expected recovery of pre-petition administrative and damage claims. These estimates have a direct impact on our net income.

Mortgage Notes and Other Notes Receivable

Mortgage notes and other notes receivable, including related accrued interest receivable, consist of loans that we originated and the related accrued and unpaid interest income as of the balance sheet date. Mortgage notes and other notes receivable are initially recorded at the amount advanced to the borrower and we defer certain loan origination and commitment fees, net of certain origination costs, and amortize them over the term of the related loan. Interest income on performing loans is accrued as earned. We evaluate the collectibility of both interest and principal for each loan to determine whether it is impaired. A loan is considered to be impaired when, based on current information and events, we determine it is probable that we will be unable to collect all amounts due according to the existing contractual terms. When a loan is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the loan's effective interest rate or to the fair value of the underlying collateral, less costs to sell, if the loan is collateral dependent. For impaired loans, interest income is recognized on a cash basis, unless we determine based on the loan to estimated fair value ratio the loan should be on the cost recovery method, and any cash payments received would then be reflected as a reduction of principal. Interest income recognition is recommenced if and when the impaired loan becomes contractually current and performance is demonstrated to be resumed.

Recent Developments

Debt Financing

On January 5, 2012, we entered into a new $240.0 million five-year unsecured term loan facility. The loan matures on January 5, 2017. The facility is priced based on a grid related to our senior unsecured credit ratings, with pricing at closing of LIBOR plus 175 basis points. We also entered into interest rate swaps that effectively mitigate our risk to variable interest rates and provide a fixed interest stream (when cash flows from the debt and interest rate swaps are combined) at 2.66% for 4 years. The new facility also contains an "accordion" feature allowing it to be increased by up to an additional $110.0 million upon satisfaction of certain conditions. The net proceeds from this new unsecured term loan facility were primarily utilized to reduce the outstanding balance of our unsecured revolving credit facility to zero at closing.

On August 8, 2012, we issued $350.0 million in senior notes due on August 15, 2022. The notes bear interest at 5.75%. Interest is payable on February 15 and August 15 of each year beginning on February 15, 2013 until the stated maturity date of August 15, 2022. The notes are unsecured and guaranteed by certain of our subsidiaries.

During the year ended December 31, 2012, we prepaid in full our mortgage notes payable totaling $171.6 million, which were secured by sixteen theatre properties and two entertainment retail centers. In connection with the payment in full of the mortgage notes, $439 thousand of deferred financing costs (net of accumulated amortization) were written off and $188 thousand of additional costs associated with loan refinancing or payoff were incurred.

Issuance of Series F Preferred Shares

On October 12, 2012, we issued 5.0 million shares of 6.625% Series F cumulative redeemable preferred shares ("Series F preferred shares") in a registered public offering at a purchase price of $25.00 per share resulting in net proceeds of approximately $120.6 million, after underwriting discounts and expenses. We will pay cumulative dividends on the Series F preferred shares from the date of original issuance in the amount of $1.65625 per share each year, which is equivalent to 6.625% of the $25.00 liquidation preference per share. See Note 15 to the consolidated financial statements in this Annual Report on Form 10-K for further details.

Redemption of Series D Preferred Shares

On November 5, 2012, we redeemed all of our 4.6 million outstanding 7.375% Series D preferred shares. The shares were redeemed at a redemption price of $25.18 per share ($25.00 per share liquidation preference plus accrued dividends through the redemption date) for a total aggregate redemption price of approximately $115.8 million. In conjunction

with the redemption, we recognized a charge representing the original issuance costs that were paid in 2007 and other redemption related expenses. The aggregate reduction to net income available to common shareholders was approximately $3.9 million.

Investment Spending

Our investment spending during the year ended December 31, 2012 totaled approximately $298.1 million, and included investments in each of our four operating segments.

Entertainment investment spending during the year ended December 31, 2012 totaled $121.5 million, and related to investments in eight build-to-suit construction and one acquisition of megaplex theatres, and other entertainment properties including four family entertainment centers that are subject to long-term triple net leases or long-term mortgage agreements.

Education investment spending during the year ended December 31, 2012 totaled $81.4 million, and related primarily to investments in build-to-suit construction of ten public charter schools that are subject to long-term triple net leases or long-term mortgage agreements. On August 15, 2012, we also completed a sale of a public charter school property for $4.5 million that was leased to Imagine. There was no gain or loss on this sale.

Recreation investment spending during the year ended December 31, 2012 totaled $83.6 million, and related to our acquisition of the Wisp Resort in McHenry, Maryland, build-to-suit construction of five golf entertainment complexes and fundings under our mortgage notes with Peak related to additional improvements at existing properties and Peak's acquisition of a metropolitan ski resort in Ohio.

Other investment spending during the year ended December 31, 2012 totaled $11.6 million and primarily related to the land held for development in Sullivan County, New York.

The following details our investment spending during the years ended December 31 2012 and 2011 (in thousands):

For the Year Ended December 31, 2012

Operating Segment	Total Investment Spending	New Development	Re-development	Asset Acquisition	Investment in Mortgage Notes	Investment in Joint Ventures
Entertainment	$ 121,437	$ 34,350	$ 10,288	$ 16,999	$ 58,000	$ 1,800
Education	81,397	54,327	—	—	27,070	—
Recreation	83,643	3,842	—	55,503	24,298	—
Other	11,605	11,605	—	—	—	—
Total Investment Spending	$ 298,082	$ 104,124	$ 10,288	$ 72,502	$ 109,368	$ 1,800

For the Year Ended December 31, 2011

Operating Segment	Total Investment Spending	New Development	Re-development	Asset Acquisition	Investment in Mortgage Notes	Investment in Joint Ventures or Direct Financing Lease
Entertainment	$ 69,928	$ 5,126	$ 16,047	$ 44,786	$ —	$ 3,969
Education	49,600	46,190	—	—	1,297	2,113
Recreation	18,390	—	—	—	18,390	—
Total Investment Spending	$ 137,918	$ 51,316	$ 16,047	$ 44,786	$ 19,687	$ 6,082

The above amounts include $105 thousand and $35 thousand in capitalized payroll, $802 thousand and $435 thousand

in capitalized interest and $1.4 million and $1.5 million in capitalized other general and administrative direct project costs for the years ended December 31, 2012 and 2011, respectively. In addition, we had $4.3 million and $3.1 million of maintenance capital expenditures for the years ended December 31, 2012 and 2011, respectively.

Imagine Schools

Through December 31, 2012, nine public charter schools located in Missouri and Georgia, which are owned by us and operated by Imagine, were closed due primarily to academic under performance. In addition, in early 2013, two schools in Indiana received notice that their charters will not be renewed for 2013/2014 academic year; however, this decision is being appealed for both of these schools. We have assessed the impact of these closings and charter non-renewals on our investment in a direct financing lease with Imagine and have determined that no impairments exist and that these events are not expected to impact our ability to collect payments from Imagine under their master lease with us. This assessment considered the cross-default nature of the master lease, the ability of Imagine per the terms of the master lease to exchange the closed properties for properties that are acceptable to us (i.e. unoccupied schools for occupied schools that are acceptable from an underwriting basis), the cashflow that Imagine generates at the parent level and our $16.4 million letter of credit from Imagine. On July 13, 2012, per the terms of the master lease, we exchanged the two Kansas City, Missouri schools for one located in Pittsburgh, Pennsylvania and another in Land O' Lakes, Florida. In addition, one school has been sub-leased by Imagine to the St. Louis Missouri Public School District. We have also entered into an agreement with Imagine allowing it to substitute additional public charter school properties that are acceptable to us on an underwriting basis, and Imagine continues to seek further opportunities for sale or sublease of properties to resolve this issue. Additionally, on August 15, 2012, we completed the sale of a public charter school property for $4.5 million that was leased to Imagine. The sold school is not one of the schools discussed above and there was no gain or loss on this sale. As of December 31, 2012, Imagine was current on all payments under the master lease of 26 public charter schools, and we do not anticipate any delay in future payments.

Planned Casino and Resort Development in Sullivan County, New York

On December 21, 2011, we entered into entered into an Option to Lease Agreement (the "Option") covering approximately 190 acres of the Concord resort property with Empire Resorts, Inc. ("Empire Resorts") . The Option included an option payment of $750 thousand to us by Empire Resorts. The parties finalized the master development agreement on December 14, 2012, however, it is subject to certain contingencies that make the option payment refundable until the contingencies are satisfied. There can be no guarantee that these contingencies will be satisfied or that the $750 thousand payment will be earned by us. Accordingly, this item is included in accounts payable and accrued liabilities at December 31, 2012 in the accompanying consolidated balance sheets in this Annual Report on Form 10-K.

During the year ended December 31, 2012, we have expended approximately $11.6 million in pursuit of the necessary environmental and land use approvals and permits for the proposed casino anchored development in Sullivan County, New York. In early 2013, we received approval from the Town of Thompson Board on a comprehensive development plan and we can now move forward with the submission of individual site plan applications, thus initiating the commencement of the build-out of this site.

As further described in Note 8 to the consolidated financial statements in this Annual Report on Form 10-K, this planned casino and resort development is the subject of ongoing litigation for which we believe we have meritorious defenses.

On June 18, 2012, Concord Kiamesha Casino, LLC, an affiliate of Concord Associates, L.P., exercised the right to ground lease approximately 57 acres of former Concord Resort property from us, pursuant to agreements entered into as part of the June 18, 2010 settlement between the parties. The affiliate has the right to ground lease the parcel (with option to purchase) for a five-year period with annual rent payments of $200 thousand due in advance. Additionally, as agreed in the June 18, 2010 settlement, Concord Associates, L.P. has the right to purchase our fee simple interest underlying the ground lease for $1.00 provided that construction of the harness racetrack and casino project is completed prior to the end of the ground lease term. The ground lease covers property which is not included in our separate agreements with Empire Resorts and has no effect on our development plans.

Concord Associates, L.P.'s separate option to acquire all of our property at the former Concord Resort expired unexercised on June 11, 2012. This option was recorded at fair value as a noncontrolling interest at the time of settlement which

was determined to be $27.8 million. During the nine months ended September 30, 2012, we reduced the value of the noncontrolling interest to zero and recorded an adjustment to increase additional paid-in-capital by the same amount.

Vineyards and Wineries

The wine industry has been adversely affected by recent economic conditions and we continue to make progress in selling these assets. During 2012, we completed the sale of two vineyard and winery investments for $45.0 million and a net loss of $0.3 million was recognized. Additionally, we recorded impairment charges totaling $23.9 million on six vineyard and winery properties during 2012. See Notes 3 and 4 to the consolidated financial statements in this Annual Report on Form 10-K for further details. At December 31, 2012, we had approximately $55.3 million remaining in vineyard and winery assets.

Results of Operations

Year ended December 31, 2012 compared to year ended December 31, 2011

Rental revenue was $238.4 million for the year ended December 31, 2012 compared to $224.3 million for the year ended December 31, 2011. Rental revenue increased $14.1 million from the prior period, of which $12.6 million was related to acquisitions completed in 2012 and 2011, and $1.5 million was related to net rent increases on existing properties. Percentage rents of $1.8 million and $1.2 million were recognized during the years ended December 31, 2012 and 2011, respectively. Straight-line rents of $4.6 million and $0.7 million were recognized during the years ended December 31, 2012 and 2011, respectively.

During the year ended December 31, 2012, we experienced a decrease of approximately 7.7% in rental rates on approximately 720,000 square feet with respect to significant lease renewals and new leases on existing properties. Additionally, we have funded or have agreed to fund a weighted average of $12.24 per square foot in tenant improvements and a weighted average of $0.43 per square foot in leasing commissions.

Tenant reimbursements totaled $18.6 million for the year ended December 31, 2012 compared to $18.0 million for the year ended December 31, 2011. These tenant reimbursements arise from the operations of our entertainment retail centers. The $0.6 million increase is primarily due as an increase in tenant reimbursements at our retail centers in Ontario, Canada.

Other income was $0.8 million for the year ended December 31, 2012 compared to $0.4 million for the year ended December 31, 2011. The $0.4 million increase is primarily due to a court settlement payment related to a vineyard property.

Mortgage and other financing income for the year ended December 31, 2012 was $64.0 million compared to $55.6 million for the year ended year ended December 31, 2011. The $8.4 million increase is primarily due to increased real estate lending activities related to our mortgage loan agreements. We also recognized participating interest income of $0.9 million and $0.5 million from SVVI related to our water-park interests for the years ended December 31, 2012 and 2011, respectively.

Our property operating expense totaled $25.3 million for the year ended December 31, 2012 compared to $24.2 million for the year ended December 31, 2011. These property operating expenses arise from the operations of our retail centers and other specialty properties. The $1.1 million increase resulted primarily due to increased bad debt expense at multi-tenant properties during 2012, less collections of previously reserved vineyard and winery tenant receivables, and increases in property operating expenses at our retail centers in Ontario, Canada.

Our general and administrative expense totaled $23.2 million for the year ended December 31, 2012 compared to $20.2 million for the year ended December 31, 2011. The increase of $3.0 million is primarily due to an increase in payroll related expenses, travel costs, professional fees, insurance costs and franchise taxes.

Costs associated with loan refinancing or payoff, net were $0.6 million for the year ended December 31, 2012 and related to the prepayment of our mortgage notes payable totaling $171.6 million. Costs associated with loan refinancing

or payoff, net were $3.7 million for the year ended December 31, 2011 and related to the termination of our eight term loans outstanding under the vineyard and winery facility. In connection with the payment in full of these term loans, the related interest rate swaps were terminated at a cost of $4.6 million (including $2.3 million which is classified within discontinued operations) and deferred financing costs, net of accumulated amortization, of $1.8 million were written off. These costs were partially offset by a gain of $0.4 million on the settlement of a capital lease obligation related to the planned casino and resort development in Sullivan County, New York.

Our net interest expense increased by $5.2 million to $76.7 million for the year ended December 31, 2012 from $71.5 million for the year ended December 31, 2011. This increase resulted primarily from an increase in average borrowings and was partially offset by a decrease in the weighted average interest rate used to finance our real estate acquisitions and fund our mortgage notes receivable.

Transaction costs totaled $0.4 million for the year ended December 31, 2012 compared to $1.7 million for the year ended December 31, 2011. The decrease of $1.3 million is due to less write off of costs associated with terminated transactions.

Impairment charges for the year ended December 31, 2012 were $10.9 million compared to $18.7 million for the year ended December 31, 2011 and related to certain of our vineyard and winery properties.

Depreciation and amortization expense totaled $50.3 million for the year ended December 31, 2012 compared to $45.8 million for the year ended December 31, 2011. The $4.5 million increase resulted primarily from asset acquisitions completed in 2012 and 2011.

Equity in income from joint ventures totaled $1.0 million for the year ended December 31, 2012 compared to $2.8 million for the year ended December 31, 2011. The $1.8 million decrease is primarily due to the January 1, 2012 conversion of $14.9 million of equity in Atlantic-EPR I, which earned a preferred return of 15%, into a loan from us at a rate of 9.5%. Additionally, the decrease resulted from a lease amendment on the underlying theatre property held by Atlantic-EPR I, which reduced the theatre square footage and annual rent. This decrease was partially offset by an increase in income of $0.4 million from our joint venture projects located in China.

Loss from discontinued operations totaled $12.2 million for the year ended December 31, 2012 and included the operations of Pope Valley which was held for sale at December 31, 2012 (including $1.9 million in impairment charges) as well as the operations of the Buena Vista winery and vineyards (including $11.1 million in impairment charges) and the Carneros custom crush facility, which were sold during 2012. Loss from discontinued operations totaled $17.7 million for the year ended December 31, 2011 related to the operations of the prior mentioned properties (including impairment charges of $8.4 million related to Buena Vista and $1.8 million related to Pope Valley and costs associated with loan refinancing of $2.1 million related to Buena Vista) as well as the operations of the Toronto Dundas Square property which was sold on March 29, 2011, the operations of the Gary Farrell (including a $1.0 million lease termination fee and $0.2 million in costs associated with loan refinancing or payoff) and EOS wineries and vineyards (including a $7.2 million impairment charge) sold during 2011. For further detail, see Note 21 to the consolidated financial statements included in this Annual Report Form 10-K for further details.

Loss on sale or acquisition of real estate from discontinued operations was $0.01 million for the year ended December 31, 2012 and was due to the sale of our Buena Vista winery and vineyards and the Carneros custom crush facility for a total net loss of $0.3 million, which was partially offset by the settlement of certain reserves established with the March 29, 2011 sale of Toronto Dundas Square. Gain on sale or acquisition of real estate from discontinued operations for the year ended December 31, 2011 was due to a $19.5 million gain on sale of Toronto Dundas Square as well a $0.02 million gain on the sale of the EOS wineries and vineyards. For further detail, see Note 3 to the consolidated financial statements included in this Annual Report on Form 10-K for further details.

Preferred dividend requirements for the year ended December 31, 2012 were $24.5 million compared to $28.1 million for the year ended December 31, 2011. The $3.6 million decrease is due to a decrease of $4.1 million as a result of the redemption of 3.2 million Series B preferred shares on August 31, 2011, a decrease of $1.3 million as a result of the redemption of 4.6 million Series D preferred shares on November 5, 2012, offset by an increase of $1.8 million due to

the issuance of 5.0 million Series F preferred shares issued on October 12, 2012.

Preferred share redemption costs of $3.9 million for the year ended December 31, 2012 were due to the redemption of all of the Series D preferred shares on November 5, 2012. Preferred share redemption costs of $2.8 million for the year ended December 31, 2011 were due to the redemption of all of the Series B preferred shares on August 31, 2011. These costs consist of the original issuance costs and other redemption related expenses.

Year ended December 31, 2011 compared to year ended December 31, 2010

Rental revenue was $224.3 million for the year ended December 31, 2011 compared to $213.1 million for the year ended December 31, 2010. Rental revenue increased $11.2 million from the prior period which was primarily related to acquisitions completed in 2011 and 2010. Net rent increases on existing properties were flat, due to lease escalations offset primarily by reductions in vineyard and winery tenant rental rates and lease up time on one megaplex theatre property. Percentage rents of $1.2 million and $1.7 million were recognized during the year ended December 31, 2011 and 2010, respectively. Straight-line rents of $0.7 million and $1.0 million were recognized during the year ended December 31, 2011 and 2010, respectively.

During the year ended December 31, 2011, we experienced a decrease of approximately 10.3% in rental rates on approximately 295,000 square feet with respect to significant lease renewals and new leases on existing properties. Additionally, we funded a weighted average of $6.44 per square foot in tenant improvements. There were no leasing commissions related to these renewals.

Tenant reimbursements totaled $18.0 million for the year ended December 31, 2011 compared to $17.1 million for the year ended December 31, 2010. These tenant reimbursements resulted from the operations of our entertainment retail centers. The $0.9 million increase was primarily due to an increase in tenant reimbursements at our retail centers in Ontario, Canada and in New Rochelle, New York.

Mortgage and other financing income for the year ended December 31, 2011 was $55.6 million compared to $52.1 million for the year ended December 31, 2010. The $3.5 million increase was primarily due to our additional investments in public charter school properties classified as a direct financing lease, as well as increased real estate lending activities related to our mortgage loan agreements with SVVI and Peak Resorts. We also recognized participating interest income of $0.5 million from SVVI for the year ended December 31, 2011. No participating interest income was recognized for the year ended December 31, 2010.

Our property operating expense totaled $24.2 million for the year ended December 31, 2011 compared to $22.7 million for the year ended December 31, 2010. These property operating expenses resulted from the operations of our retail centers and other specialty properties. The $1.5 million increase resulted primarily from increases in property operating expenses at our retail centers in Ontario, Canada and New Rochelle, New York, and carrying costs associated with land held for development and the Dallas Grand theatre property prior to commencement of new leases at this location.

Other expense totaled $1.9 million for the year ended December 31, 2011 compared to $1.1 million for the year ended December 31, 2010. The $0.8 million increase was due to $0.6 million more loss recognized upon settlement of foreign currency forward and swap contracts, $0.3 million in golf course expenses related to two golf courses on the Concord resort property, which we took ownership of on June 18, 2010 in connection with the Cappelli settlement, partially offset by $0.1 million less in cost of goods sold from grape sales and other expenses related to certain of our vineyard and winery properties which are being operated through a wholly-owned taxable REIT subsidiary.

Our general and administrative expense totaled $20.2 million for the year ended December 31, 2011 compared to $18.2 million for the year ended December 31, 2010. The increase of $2.0 million was primarily due to an increase in payroll related expenses, including share grant amortization, as well as professional fees.

Costs associated with loan refinancing or payoff, net were $3.7 million for the year ended December 31, 2011 and $11.4 million for the year ended December 31, 2010. For the year ended December 31, 2011, these costs related to the termination of our eight term loans outstanding under the vineyard and winery facility. In connection with the payment

in full of the term loans, the related interest rate swaps were terminated at a cost of $4.6 million (including $2.3 million which is classified within discontinued operations) and deferred financing costs, net of accumulated amortization, of $1.8 million were written off. These costs were partially offset by a gain of $0.4 million on the settlement of a capital lease obligation related to the planned casino and resort development in Sullivan County, New York. For the year ended December 31, 2010, these costs related to the termination of our previous revolving credit facility and a term loan (including related interest rate swap agreements).

Our net interest expense was $71.5 million for the year ended December 31, 2011 and $70.3 million for the year ended December 31, 2010. Including interest expense classified within discontinued operations of $0.2 million and $7.7 million for the years ended December 31, 2011 and 2010, respectively, our interest expense decreased by $6.3 million in 2011 due to a decrease in average borrowings used to finance our real estate acquisitions and fund our mortgage notes receivable.

Transaction costs totaled $1.7 million for the year ended December 31, 2011 compared to $0.5 million for the year ended December 31, 2010. The increase of $1.2 million was due to the write off of costs associated with terminated transactions.

Provision for loan losses for the year ended December 31, 2010 was $0.7 million and related to a note receivable that was settled in connection with the settlement with Mr. Cappelli and affiliates entered on June 18, 2010 as further discussed in Note 8 to the consolidated financial statements in this Annual Report on Form 10-K. There was no provision for loan losses for the year ended December 31, 2011.

Impairment charges for the year ended December 31, 2011 were $18.7 million and related to certain of our vineyard and winery properties. For further detail, see Note 4 to the consolidated financial statements in this Annual Report on Form 10-K. Impairment charges for the year ended December 31, 2010 were $0.5 million and related to an asset recorded as a result of the settlement with Mr. Cappelli and affiliates on June 18, 2010, as further discussed in Note 8 to the consolidated financial statements in this Annual Report on Form 10-K.

Depreciation and amortization expense totaled $45.8 million for the year ended December 31, 2011 compared to $43.1 million for the year ended December 31, 2010. The $2.7 million increase resulted primarily from asset acquisitions completed in 2011 and 2010.

Equity in income from joint ventures totaled $2.8 million for the year ended December 31, 2011 compared to $2.1 million for the year ended December 31, 2010. The $0.7 million increase was due primarily to our contribution of an additional $14.9 million to Atlantic-EPR I to pay off the Partnership's long-term debt at its maturity on May 1, 2010. The $14.9 million contribution earned a preferred return of 15% per the partnership agreement.

Loss from discontinued operations including impairment charges totaled $17.7 million for the year ended December 31, 2011 and included the operations of the Toronto Dundas Square property which was sold on March 29, 2011, the operations of the Buena Vista winery and vineyards (including impairment charges of $8.5 million and $2.1 million in costs associated with loan refinancing or payoff) and the Carneros custom crush facility that was sold during 2012, as well as the operations of the Gary Farrell winery sold on April 28, 2011 (including a $1.0 million lease termination fee and $0.2 million in costs associated with loan refinancing or payoff), the Pope Valley vineyard and winery which was held for sale as of December 31, 2012 (including a $1.8 million impairment charge) and the EOS vineyard and winery sold on September 20, 2011 (including a $7.1 million impairment charge). Loss from discontinued operations including transaction costs totaled $11.7 million for the year ended December 31, 2010 and related to the prior mentioned properties, costs associated with loan refinancing as well as a parcel of land in Arroyo Grande, California, an entertainment retail center in White Plains, New York and the Havens winery and vineyards, all of which were disposed of in 2010. See Note 21 to the consolidated financial statements in this Annual Report on Form 10-K for further details.

Gain on sale or acquisition of real estate from discontinued operations for the year ended December 31, 2011 was due to gain of $19.5 million on the sale of Toronto Dundas Square as well as a $0.02 million gain on sale of real estate related to the sale of the EOS vineyard and winery on September 20, 2011. Gain on sale or acquisition of real estate from discontinued operations of $8.3 million for the year ended December 31, 2010 was due to the gain on acquisition

of Toronto Dundas Square of $9.0 million and a gain on sale of $0.2 million from a parcel of land including one building in Arroyo Grande, California, which was partially offset by a loss of approximately $0.9 million related to the sale of the Havens winery and vineyards.

Net income attributable to noncontrolling interest for the year ended December 31, 2011 was $0.04 million and related to VinREIT operations. Net loss attributable to noncontrolling interest was $1.8 million for the year ended December 31, 2010 and primarily related to the consolidation of a VIE at the entertainment retail center in White Plains, New York. Our interest in the VIE was extinguished in connection with the settlement entered into with Mr. Cappelli and his affiliates on June 18, 2010.

Preferred dividend requirements for the year ended December 31, 2011 were $28.1 million compared to $30.2 million for the year ended December 31, 2010. The $2.1 million decrease was due to the redemption of 3.2 million Series B preferred shares on August 31, 2011.

Preferred share redemption costs of $2.8 million for the year ended December 31, 2011 was due to the redemption of all of the Series B preferred shares on August 31, 2011 and consists of the original issuance costs and other redemption related expenses. There was no such expense incurred during the year ended December 31, 2010.

Liquidity and Capital Resources

Cash and cash equivalents were $10.7 million at December 31, 2012. In addition, we had restricted cash of $24.0 million at December 31, 2012. Of the restricted cash at December 31, 2012, $6.5 million relates to cash held for our borrowers' debt service reserves for mortgage notes receivable, $1.2 million relates to escrow balances required in connection with the sale of Toronto Dundas Square and the balance represents deposits required in connection with debt service, payment of real estate taxes and capital improvements.

Mortgage Debt, Credit Facilities and Term Loan

As of December 31, 2012, we had total debt outstanding of $1.4 billion of which $479.2 million was fixed rate mortgage debt secured by a portion of our rental properties, with a weighted average interest rate of approximately 6.1%.

At December 31, 2012, we had outstanding $250.0 million in aggregate principal amount of unsecured 7.75% senior notes due on July 15, 2020 and $350.0 million in aggregate principal amount of unsecured 5.75% senior notes due on August 15, 2022, all of which are guaranteed by certain of our subsidiaries. The notes contain various covenants, including: (i) a limitation on incurrence of any debt which would cause the ratio of our debt to adjusted total assets to exceed 60%; (ii) a limitation on incurrence of any secured debt which would cause the ratio of secured debt to adjusted total assets to exceed 40%; (iii) a limitation on incurrence of any debt which would cause our debt service coverage ratio to be less than 1.5 times; and (iv) the maintenance at all times of our total unencumbered assets to be not less than 150% of our outstanding unsecured debt.

At December 31, 2012, we had $39.0 million in debt outstanding under our $400.0 million unsecured revolving credit facility, with interest at a floating rate. The facility has a term expiring October 13, 2015 with a one year extension available at our option. The amount that we are able to borrow on our revolving credit facility is a function of the values and advance rates, as defined by the credit agreement, assigned to the assets included in the borrowing base less outstanding letters of credit and less other liabilities. As of December 31, 2012, our total availability under the revolving credit facility was $361.0 million.

Additionally, on January 5, 2012, we entered into a new $240.0 million five year term loan facility. The loan matures on January 5, 2017. The facility is priced based on a grid related to our senior unsecured credit ratings, with pricing at closing of LIBOR plus 175 basis points. We also entered into interest rate swaps that fix the all-in rate on this loan at 2.66% for four years. The new facility also contains an "accordion" feature allowing it to be increased by up to an additional $110.0 million upon satisfaction of certain conditions.

Our unsecured revolving credit facility and our unsecured term loan facility contain substantially identical financial covenants that limit our levels of consolidated debt, secured debt, investment levels outside certain categories and dividends, and require minimum coverage levels for fixed charges and unsecured debt service costs. Additionally, our unsecured revolving credit facility, unsecured term loan facility and our unsecured 7.75% senior notes and 5.75% senior notes contain cross-default provisions that go into effect if we default on any of our obligations for borrowed money or credit in an amount exceeding $25.0 million, unless such default has been waived or cured within a specified period of time. We were in compliance with all financial covenants at December 31, 2012.

Our principal investing activities are acquiring, developing and financing entertainment, education and recreation properties. These investing activities have generally been financed with mortgage debt and senior unsecured notes, as well as the proceeds from equity offerings. Our revolving credit facility is also used to finance the acquisition or development of properties, and to provide mortgage financing. We have and expect to continue to issue debt securities in public or private offerings. Continued growth of our rental property and mortgage financing portfolios will depend in part on our continued ability to access funds through additional borrowings and securities offerings.

Certain of our long-term debt agreements contain customary restrictive covenants related to financial and operating performance as well as certain cross-default provisions. We were in compliance with all financial covenants at December 31, 2012.

Liquidity Requirements

Short-term liquidity requirements consist primarily of normal recurring corporate operating expenses, debt service requirements and dividends to shareholders. We meet these requirements primarily through cash provided by operating activities. Net cash provided by operating activities was $207.3 million, $195.8 million and $180.4 million for the years ended December 31, 2012, 2011 and 2010, respectively. Net cash used by investing activities was $255.8 million for the year ended December 31, 2012, net cash provided by investing activities was $89.7 million for the year ended December 31, 2011 and net cash used in investing activities was $320.3 million for the year ended December 31, 2010. Net cash provided by financing activities was $44.4 million for the year ended December 31, 2012, net cash used in financing activities was $282.3 million for the year ended December 31, 2011 and net cash provided by financing activities was $128.0 million for the year ended December 31, 2010. We anticipate that our cash on hand, cash from operations, and funds available under our revolving credit facility will provide adequate liquidity to fund our operations, make interest and principal payments on our debt, and allow dividends to be paid to our shareholders and avoid corporate level federal income or excise tax in accordance with REIT Internal Revenue Code requirements.

Long-term liquidity requirements at December 31, 2012 consisted primarily of maturities of long-term debt. Contractual obligations as of December 31, 2012 are as follows (in thousands):

	Year ended December 31,						
Contractual Obligations	**2013**	**2014**	**2015**	**2016**	**2017**	**Thereafter**	**Total**
Long Term Debt Obligations	$ 17,439	$ 153,817	$ 140,931	$ 103,377	$ 329,252	$ 624,016	$ 1,368,832
Interest on Long Term Debt Obligations	75,423	67,989	63,560	55,568	42,892	146,110	451,542
Operating Lease Obligations	408	434	454	358	—	—	1,654
Total	$ 93,270	$ 222,240	$ 204,945	$ 159,303	$ 372,144	$ 770,126	$ 1,822,028

Our unconsolidated joint venture, Atlantic EPR-II, of which we own a 30.1% investment interest at December 31, 2012, has a mortgage note payable at December 31, 2012 of $11.8 million which matures in September 2013.

Commitments

As of December 31, 2012, we had 11 entertainment development projects under construction for which we have commitments to fund approximately $61.3 million of additional improvements, one education development project under construction for which we have commitments to fund approximately $7.3 million of additional improvements and two recreation development projects under construction for which we have commitments to fund approximately $13.9 million. These costs are expected to be funded in 2013. Development costs are advanced by us in periodic draws. If we determine that construction is not being completed in accordance with the terms of the development agreements, we can discontinue funding construction draws. We have agreed to lease the properties to the operators at pre-determined rates upon completion of construction.

We have certain commitments related to our mortgage note investments that we may be required to fund in the future. We are generally obligated to fund these commitments at the request of the borrower or upon the occurrence of events outside of its direct control. As of December 31, 2012, we had eight mortgage notes receivable with commitments totaling approximately$38.8 million. If commitments are funded in the future, interest will be charged at rates consistent with the existing investments.

We have provided guarantees of the payment of certain economic development revenue bonds totaling $34.8 million related to four theatres in Louisiana for which we earn a fee at an annual rate of 1.75% to 4.00% over the 30 year terms of the bonds. We have recorded $11.2 million as a deferred asset included in other assets and $11.2 million included in other liabilities in the accompanying consolidated balance sheet included in this Annual Report on Form 10-K as of December 31, 2012 related to these guarantees. No amounts have been accrued as a loss contingency related to this guarantee because payment by us is not probable.

Liquidity Analysis

In analyzing our liquidity, we generally expect that our cash provided by operating activities will meet our normal recurring operating expenses, recurring debt service requirements and dividends to shareholders.

We have no consolidated debt balloon payments coming due in 2013. Our cash commitments, as described above, include additional commitments under various mortgage notes receivable totaling approximately $38.8 million, of which approximately $16.5 million is expected to be funded in 2013.

Our sources of liquidity as of December 31, 2012 to pay the above 2013 commitments include the remaining amount available under our unsecured revolving credit facility of approximately $361.0 million and unrestricted cash on hand of $10.7 million. Accordingly, while there can be no assurance, we expect that our sources of cash will exceed our existing commitments over the remainder of 2013.

We also believe that we will be able to repay, extend, refinance or otherwise settle our debt obligations for 2014 and thereafter as the debt comes due, and that we will be able to fund our remaining commitments as necessary. However, there can be no assurance that additional financing or capital will be available, or that terms will be acceptable or advantageous to us.

Our primary use of cash after paying operating expenses, debt service, dividends to shareholders and funding existing commitments is in growing our investment portfolio through the acquisition, development and financing of additional properties. We expect to finance these investments with borrowings under our revolving credit facility, as well as long-term debt and equity financing alternatives. The availability and terms of any such financing will depend upon market and other conditions. If we borrow the maximum amount available under our revolving credit facility, there can be no assurance that we will be able to obtain additional investment financing (See Item 1A - “Risk Factors”).

Off Balance Sheet Arrangements

At December 31, 2012, we had a 43.9% and 30.1% investment interest in two unconsolidated real estate joint ventures, Atlantic-EPR I and Atlantic-EPR II, respectively, which are accounted for under the equity method of accounting. We

do not anticipate any material impact on our liquidity as a result of commitments involving those joint ventures. On January 1, 2012, we converted a $14.9 million equity interest in Atlantic-EPR I to a secured first mortgage loan of the same amount with interest at 9.50% and due January 31, 2018 . Additionally, Atlantic-EPR I entered into an agreement to develop a family entertainment venue at the property it owns for approximately $4.0 million which is being funded through additional advances under the mortgage note. We recognized income totaling $536.0 thousand, $2.8 million and $2.3 million during 2012, 2011 and 2010, respectively, from our equity investments in the Atlantic-EPR I and Atlantic-EPR II joint ventures. We also received distributions from Atlantic-EPR I and Atlantic-EPR II totaling $1.0 million, $2.8 million, and $2.5 million during 2012, 2011 and 2010, respectively. The Atlantic-EPR II joint venture has a mortgage note payable of $11.8 million at December 31, 2012 secured by a megaplex theatre, and the note matures in September 2013. Condensed financial information for Atlantic-EPR I and Atlantic-EPR II joint ventures is included in Note 9 to the consolidated financial statements included in this Annual Report on Form 10-K.

The partnership agreements for Atlantic-EPR I and Atlantic-EPR II allow our partner, Atlantic of Hamburg, Germany ("Atlantic"), to exchange up to a maximum of 10% of its ownership interest per year in each of the joint ventures for common shares of the Company or, at our discretion, the cash value of those shares as defined in each of the partnership agreements. During 2010, we paid Atlantic cash of $679 and $186 (in thousands) in exchange for additional ownership of 3.1% and 1.6% for Atlantic-EPR I and Atlantic-EPR II, respectively. During 2011, we paid Atlantic cash of $2.5 million and $258 thousand in exchange for additional ownership of 11.3% and 2.0% for Atlantic-EPR I and Atlantic-EPR II, respectively. During 2012, we paid Atlantic cash of $1.3 million and $490 thousand in exchange for additional ownership of 6.0% and 3.8% for Atlantic-EPR I and Atlantic-EPR II, respectively. These exchanges did not impact total partners' equity in either Atlantic-EPR I or Atlantic-EPR II.

In addition, as of December 31, 2012 and 2011 we had invested $4.7 million and $4.2 million, respectively, in unconsolidated joint ventures for three theatre projects located in China. We recognized income of $489 thousand, $42 thousand and a loss of $157 thousand from its investment in these joint ventures for the years ended December 31, 2012, 2011 and 2010, respectively.

Capital Structure

We believe that our shareholders are best served by a conservative capital structure. Therefore, we seek to maintain a conservative debt level on our balance sheet and solid interest, fixed charge and debt service coverage ratios. We expect to maintain our debt to gross assets ratio (i.e. total long-term debt to total assets plus accumulated depreciation) between 35% and 45%. However, the timing and size of our equity and debt offerings may cause us to temporarily operate over this threshold. At December 31, 2012, this ratio was 41%. Our long-term debt as a percentage of our total market capitalization at December 31, 2012 was 35%; however, we do not manage to a ratio based on total market capitalization due to the inherent variability that is driven by changes in the market price of our common shares. We calculate our total market capitalization of $3.9 billion by aggregating the following at December 31, 2012:

- Common shares outstanding of 46,887,401 multiplied by the last reported sales price of our common shares on the NYSE of $46.11 per share, or $2.2 billion;
- Aggregate liquidation value of our Series C convertible preferred shares of $135.0 million;
- Aggregate liquidation value of our Series E convertible preferred shares of $86.3 million; and
- Aggregate liquidation value of our Series F convertible preferred shares of $125.0 million; and
- Total long-term debt of $1.4 billion.

Funds From Operations (FFO), Funds From Operations As Adjusted (FFOAA) and Adjusted Funds from Operations (AFFO)

The National Association of Real Estate Investment Trusts ("NAREIT") developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. Pursuant to the definition of FFO by the Board of Governors of NAREIT, we calculate FFO as net income available to common shareholders, computed in accordance with GAAP, excluding gains and losses from sales or acquisitions of depreciable operating properties and impairment losses of depreciable real estate, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships, joint ventures and other affiliates. Adjustments for unconsolidated partnerships, joint ventures and other affiliates are calculated to reflect FFO on the same basis. We have calculated FFO for all periods presented in accordance with this definition.

In addition to FFO, we present FFOAA and AFFO. FFOAA is presented by adding to FFO costs associated with loan refinancing or payoff, net, transaction costs, preferred share redemption costs and provision for loan losses. AFFO is presented by adding to FFOAA non-real estate depreciation and amortization, deferred financing fees amortization, share-based compensation expense to management and Trustees and amortization of above market leases, net; and subtracting maintenance capital expenditures (including second generation tenant improvements and leasing commissions), straight-lined rental revenue, and the non-cash portion of mortgage and other financing income.

FFO, FFOAA and AFFO are widely used measures of the operating performance of real estate companies and are provided here as a supplemental measure to GAAP net income available to common shareholders and earnings per share, and management provides FFO, FFOAA and AFFO herein because it believes this information is useful to investors in this regard. FFO, FFOAA and AFFO are non-GAAP financial measures. FFO, FFOAA and AFFO do not represent cash flows from operations as defined by GAAP and are not indicative that cash flows are adequate to fund all cash needs and are not to be considered alternatives to net income or any other GAAP measure as a measurement of the results of our operations or our cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate FFO, FFOAA and AFFO the same way so comparisons with other REITs may not be meaningful.

The following table summarizes our FFO, FFOAA and AFFO including per share amounts for FFO and FFOAA, for the years ended December 31, 2012, 2011 and 2010 (unaudited, in thousands, except per share information):

	Year ended December 31,		
	2012	2011	2010
FFO:			
Net income available to common shareholders of EPR Properties	$ 93,160	$ 84,319	$ 84,668
Loss (gain) on sale or acquisition of property	27	(19,545)	(8,287)
Real estate depreciation and amortization	51,162	49,009	52,828
Allocated share of joint venture depreciation	581	452	308
Impairment charges	23,909	36,056	463
Noncontrolling interest	—	—	(1,905)
FFO available to common shareholders of EPR Properties	$ 168,839	$ 150,291	$ 128,075
FFOAA:			
FFO available to common shareholders of EPR Properties	168,839	150,291	128,075
Costs associated with loan refinancing or payoff, net	627	5,998	15,620
Transaction costs	404	1,730	7,787
Preferred share redemption costs	3,888	2,769	—
Provision for loan losses	—	—	700
FFOAA available to common shareholders of EPR Properties	$ 173,758	$ 160,788	$ 152,182
AFFO:			
FFOAA available to common shareholders of EPR Properties	173,758	160,788	152,182
Non-real estate depreciation and amortization	1,057	1,077	596
Deferred financing fees amortization	4,218	3,807	4,809
Share-based compensation expense to management and trustees	5,833	5,610	4,710
Maintenance capital expenditures (1)	(4,772)	(3,881)	(5,882)
Straight-lined rental revenue	(4,632)	(966)	(1,883)
Non-cash portion of mortgage and other financing income	(4,988)	(5,174)	(5,738)
Amortization of above market leases, net	—	20	200
AFFO available to common shareholders of EPR Properties	$ 170,474	$ 161,281	$ 148,994
FFO per common share attributable to EPR Properties:			
Basic	$ 3.61	$ 3.22	$ 2.83
Diluted	3.59	3.20	2.81
FFOAA per common share attributable to EPR Properties:			
Basic	$ 3.71	$ 3.45	$ 3.37
Diluted	3.69	3.43	3.34
Shares used for computation (in thousands):			
Basic	46,798	46,640	45,206
Diluted	47,049	46,901	45,555
Other financial information:			
Dividends per common share	$ 3.00	$ 2.80	$ 2.60

(1) Includes maintenance capital expenditures and certain second generation tenant improvements and leasing commissions.

The additional 1.9 million common shares that would result from the conversion of our 5.75% Series C cumulative convertible preferred shares and the additional 1.6 million common shares that would result from the conversion of our 9.0% Series E cumulative convertible preferred shares and the corresponding add-back of the preferred dividends declared on those shares are not included in the calculation of diluted earnings per share for the years ended December 31, 2012, 2011 and 2010 because the effect is anti-dilutive.

Impact of Recently Issued Accounting Standards

In June 2011, the FASB issued ASU 2011-05 Presentation of Comprehensive Income ("ASU 2011-05"). ASU 2011-05 requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in equity. The Company adopted ASU 2011-05 during first quarter of 2012 and it did not have a material effect on our consolidated financial statements.

Inflation

Investments by EPR are financed with a combination of equity and debt. During inflationary periods, which are generally accompanied by rising interest rates, our ability to grow may be adversely affected because the yield on new investments may increase at a slower rate than new borrowing costs.

Substantially all of our megaplex theatre leases as well as other leases provide for base and participating rent features. In addition, certain of our mortgage notes receivable similarly provide for base and participating interest. To the extent inflation causes tenant or borrower revenues at our properties to increase over baseline amounts, we would participate in those revenue increases through our right to receive annual percentage rent and/or participating interest.

Our leases and mortgage notes receivable also generally provide for escalation in base rents or interest in the event of increases in the Consumer Price Index, with generally a limit of 2% per annum, or fixed periodic increases. Alternatively, during deflationary periods, our leases and mortgage notes receivable with escalations in base rents or interest dependent on increases in the Consumer Price Index may be adversely affected.

Our leases are generally triple-net leases requiring the tenants to pay substantially all expenses associated with the operation of the properties, thereby minimizing our exposure to increases in costs and operating expenses resulting from inflation. A portion of our megaplex theatre, retail and restaurant leases are non-triple-net leases. These leases represent approximately 12% of our total real estate square footage. To the extent any of those leases contain fixed expense reimbursement provisions or limitations, we may be subject to increases in costs resulting from inflation that are not fully passed through to tenants.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks, primarily relating to potential losses due to changes in interest rates and foreign currency exchange rates. We seek to mitigate the effects of fluctuations in interest rates by matching the term of new investments with new long-term fixed rate borrowings whenever possible. We also have a $400.0 million unsecured revolving credit facility with $39.0 million outstanding as of December 31, 2012 and a $10.7 million bond, both of which bear interest at a floating rate. In addition, on January 5, 2012, we entered into a $240.0 million five year term loan facility which bears interest at a floating rate. As further described in Note 13 to the consolidated financial statements in this Annual Report on Form 10-K, this LIBOR based debt was converted with interest rate swaps to a fixed rate of 2.66% for four years.

We are subject to risks associated with debt financing, including the risk that existing indebtedness may not be refinanced or that the terms of such refinancing may not be as favorable as the terms of current indebtedness. The majority of our borrowings are subject to mortgages or contractual agreements which limit the amount of indebtedness we may incur. Accordingly, if we are unable to raise additional equity or borrow money due to these limitations, our ability to make additional real estate investments may be limited.

The following table presents the principal amounts, weighted average interest rates, and other terms required by year of expected maturity to evaluate the expected cash flows and sensitivity to interest rate changes as of December 31 (including the impact of the interest rate swap agreements described below):

Expected Maturities (in millions)

	2013	2014	2015	2016	2017	Thereafter	Total	Estimated Fair Value
December 31, 2012:								
Fixed rate debt	$ 17.4	$153.8	$101.9	$103.4	$329.3	$ 613.4	$ 1,319.2	$ 1,393.9
Average interest rate	6.3%	6.3%	5.7%	6.1%	3.5%	6.6%	5.7%	4.4%
Variable rate debt	$ —	$ —	$ 39.0	$ —	$ —	$ 10.6	$ 49.6	$ 49.6
Average interest rate (as of December 31, 2012)	—%	—%	1.9%	—%	—%	0.2%	1.5%	1.5%

	2012	2013	2014	2015	2016	Thereafter	Total	Estimated Fair Value
December 31, 2011:								
Fixed rate debt	$ 90.4	$116.4	$155.9	$101.9	$103.4	$ 352.7	$ 920.7	$ 950.0
Average interest rate	6.5%	6.0%	6.3%	5.7%	6.1%	7.2%	6.6%	5.5%
Variable rate debt	$ —	$ —	$ —	$223.0	$ —	$ 10.6	$ 233.6	$ 233.6
Average interest rate (as of December 31, 2011)	—%	—%	—%	2.0%	—%	0.1%	1.9%	1.9%

The fair value of our debt as of December 31, 2012 and 2011 is estimated by discounting the future cash flows of each instrument using current market rates including current market spreads.

We are exposed to foreign currency risk against our functional currency, the US dollar, on our four Canadian properties. We financed the acquisition of four of our Canadian entertainment retail centers with a fixed rate mortgage loan from a Canadian lender in the original aggregate principal amount of approximately U.S. $97.0 million. The loan was made and is payable by us in CAD, and the rents received from tenants of the properties are payable in CAD.

As discussed above, we have partially mitigated the impact of foreign currency exchange risk on four of our Canadian properties by matching Canadian dollar debt financing with Canadian dollar rents. To further mitigate our foreign currency risk in future periods on these Canadian properties, during the second quarter of 2007, we entered into a cross currency swap with a notional value of $76.0 million CAD and $71.5 million U.S. The swap calls for monthly exchanges from January 2008 through February 2014 with us paying CAD based on an annual rate of 17.16% of the notional amount and receiving U.S. dollars based on an annual rate of 17.4% of the notional amount. There is no initial or final exchange of the notional amounts. The net effect of this swap is to lock in an exchange rate of $1.05 CAD per U.S. dollar on approximately $13.0 million of annual CAD denominated cash flows. These foreign currency derivatives should hedge a significant portion of our expected CAD denominated FFO of these four Canadian properties through February 2014 as their impact on our reported FFO when settled should move in the opposite direction of the exchange rates utilized to translate revenues and expenses of these properties.

In order to also hedge our net investment on the four Canadian properties, we entered into a forward contract with a notional amount of $100.0 million CAD and a February 2014 settlement date which coincides with the maturity of our underlying mortgage on these four properties. The exchange rate of this forward contract is approximately $1.04 CAD per U.S. dollar. This forward contract should hedge a significant portion of our CAD denominated net investment in these four centers through February 2014 as the impact on accumulated other comprehensive income from marking the derivative to market should move in the opposite direction of the translation adjustment on the net assets of our four Canadian properties.

Additionally, we have entered into foreign currency forward agreements to hedge the currency fluctuations related to the monthly cash flows of our Canadian properties. These foreign currency forwards settle at the end of each month from January to December 2013 and lock in an exchange rate of $0.98 CAD to $0.99 CAD per U.S. dollar on $500 thousand monthly CAD denominated cash flows.

See Note 13 to the consolidated financial statements in this Annual Report on Form 10-K for additional information on our derivative financial instruments and hedging activities.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders
EPR Properties:

We have audited the accompanying consolidated balance sheets of EPR Properties and subsidiaries (the Company) as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2012. In connection with our audits of the consolidated financial statements, we have also audited the accompanying financial statement schedules II and III. These consolidated financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of EPR Properties and subsidiaries of December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of EPR Properties' internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control–Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2013 expressed an unqualified opinion on the effectiveness of EPR Properties' internal control over financial reporting.

EPR PROPERTIES
Notes to Consolidated Financial Statements
December 31, 2012, 2011 and 2010

1. Organization

Description of Business

EPR Properties (the Company) is a specialty real estate investment trust (REIT) organized on August 29, 1997 in Maryland. Effective November 12, 2012, the Company updated its name from Entertainment Properties Trust to EPR Properties. The Company develops, owns, leases and finances properties in select market segments primarily related to entertainment, education and recreation. The Company's properties are located in the United States and Canada.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of EPR Properties and its subsidiaries, all of which are wholly-owned except for those subsidiaries discussed below.

The Company consolidates certain entities if it is deemed to be the primary beneficiary in a variable interest entity (VIE), as defined in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic on Consolidation. The Topic on Consolidation requires the consolidation of VIEs in which an enterprise has a controlling financial interest. A controlling financial interest will have both of the following characteristics: the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. This topic requires an ongoing reassessment of and eliminates the quantitative approach previously required for determining whether a company is the primary beneficiary and requires enhanced disclosures on variable interest entities. The equity method of accounting is applied to entities in which the Company is not the primary beneficiary as defined in the Consolidation Topic of the FASB ASC, or does not have effective control, but can exercise influence over the entity with respect to its operations and major decisions.

The Company reports its noncontrolling interests as required by the Consolidation Topic of the FASB ASC. Noncontrolling interest is the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. The ownership interests in the subsidiary that are held by owners other than the parent are noncontrolling interests. Such noncontrolling interests are reported on the consolidated balance sheets within equity, separately from the Company's equity. On the consolidated statements of income, revenues, expenses and net income or loss from less-than-wholly-owned subsidiaries are reported at the consolidated amounts, including both the amounts attributable to the Company and noncontrolling interests. Consolidated statements of changes in shareholders' equity are included for both quarterly and annual financial statements, including beginning balances, activity for the period and ending balances for equity, noncontrolling interests and total equity. The Company does not have any redeemable noncontrolling interests under the scope of the Distinguishing Liabilities from Equity guidance of the FASB ASC.

As further explained in Note 10, the Company owns 96% of the membership interests of VinREIT, LLC (VinREIT). Net income attributable to noncontrolling interest related to VinREIT was $108 thousand, $38 thousand and $86 thousand for the years ended December 31, 2012, 2011 and 2010, respectively, representing the noncontrolling interest's portion of the annual cash flow. Total noncontrolling interest in VinREIT included in the accompanying consolidated balance sheets was $377 thousand and $269 thousand at December 31, 2012 and 2011, respectively.

As further described in Note 8, on June 18, 2010, the Company entered into a series of agreements with Louis Cappelli (Mr. Cappelli) and several of his affiliates regarding the settlement of all pending litigation and a restructuring of the Company's investments with Mr. Cappelli and his affiliates. Among other things, as a part of the settlement, the Company became the sole owner of the New Rochelle, New York entertainment retail center (New Roc), and no longer has any ownership interest in the City Center entertainment retail center in White Plains, New York (City Center.)

Prior to June 18, 2010, New Roc was owned 71.4% by the Company. There was no net income attributable to noncontrolling interest related to New Roc for the year ended December 31, 2010.

Prior to June 18, 2010, the Company had a 66.67% voting interest in LC White Plains Retail LLC, LC White Plains Recreation LLC and Cappelli Group LLC (collectively, the White Plains LLCs), which owned City Center. Each of these entities was formerly a VIE and the Company was deemed the primary beneficiary. Net loss attributable to noncontrolling interest related to the White Plains LLCs was $1.9 million for the year ended December 31, 2010. The operating results of this property have been reclassified into discontinued operations in the accompanying consolidated statements of income for the year ended December 31, 2010. See Note 21 for further details.

Use of Estimates
Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

Rental Properties
Rental properties are carried at cost less accumulated depreciation. Costs incurred for the acquisition and development of the properties are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which generally are estimated to be 40 years for buildings and 3 to 25 years for furniture, fixtures and equipment. Tenant improvements, including allowances, are depreciated over the shorter of the base term of the lease or the estimated useful life. Expenditures for ordinary maintenance and repairs are charged to operations in the period incurred. Significant renovations and improvements which improve or extend the useful life of the asset are capitalized and depreciated over their estimated useful life.

Management reviews a property for impairment whenever events or changes in circumstances indicate that the carrying value of a property may not be recoverable. The review of recoverability is based on an estimate of undiscounted future cash flows expected to result from its use and eventual disposition. If impairment exists due to the inability to recover the carrying value of the property, an impairment loss is recorded to the extent that the carrying value of the property exceeds its estimated fair value.

The Company evaluates the held-for-sale classification of its real estate as of the end of each quarter. Assets that are classified as held for sale are recorded at the lower of their carrying amount or fair value less costs to sell. Assets are generally classified as held for sale once management has initiated an active program to market them for sale and has received a firm purchase commitment that is expected to close within one year. The results of operations of these real estate properties are reflected as discontinued operations in all periods reported. On occasion, the Company will receive unsolicited offers from third parties to buy individual Company properties. Under these circumstances, the Company will classify the properties as held for sale when a sales contract is executed with no contingencies and the prospective buyer has funds at risk to ensure performance.

Accounting for Acquisitions
Upon acquisitions of real estate properties, the Company records the fair value of acquired tangible assets (consisting of land, building, tenant improvements, and furniture, fixtures and equipment) and identified intangible assets and liabilities (consisting of above and below market leases, in-place leases, tenant relationships and assumed financing that is determined to be above or below market terms) as well as any noncontrolling interest in accordance with FASB ASC Topic 805 on Business Combinations (Topic 805). In addition, in accordance with Topic 805, acquisition-related costs in connection with business combinations are expensed as incurred, rather than capitalized. Costs related to such transactions, as well as costs associated with terminated transactions, are included in the accompanying Consolidated Statements of Income as transaction costs. Transaction costs totaled $0.4 million, $1.7 million and $7.8 million (including $7.3 million in discontinued operations) for the years ended December 31, 2012, 2011 and 2010, respectively.

Most of the Company's rental property acquisitions do not involve in-place leases. In such cases, the fair value of the tangible assets is determined based on recent independent appraisals and management judgment. Because the Company typically executes these leases simultaneously with the purchase of the real estate, no value is ascribed to in-place leases in these transactions.

For rental property acquisitions involving in-place leases, the fair value of the tangible assets is determined by valuing the property as if it were vacant based on management's determination of the relative fair values of the assets. Management determines the "as if vacant" fair value of a property using recent independent appraisals or methods similar to those used by independent appraisers. The aggregate value of intangible assets or liabilities is measured based on the difference between the stated price plus capitalized costs and the property as if vacant.

In determining the fair value of acquired in-place leases, the Company considers many factors. On a lease-by-lease basis, management considers the present value of the difference between the contractual amounts to be paid pursuant to the leases and management's estimate of fair market lease rates. For above market leases, management considers such differences over the remaining non-cancelable lease terms and for below market leases, management considers such differences over the remaining initial lease terms plus any fixed rate renewal periods. The capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. The capitalized below market lease values are amortized as an increase to rental income over the remaining initial lease terms plus any fixed rate renewal periods. Management considers several factors in determining the discount rate used in the present value calculations, including the credit risks associated with the respective tenants. If debt is assumed in the acquisition, the determination of whether it is above or below market is based upon a comparison of similar financing terms for similar rental properties at the time of the acquisition.

The fair value of acquired in-place leases also includes management's estimate, on a lease-by-lease basis, of the present value of the following amounts: (i) the value associated with avoiding the cost of originating the acquired in-place leases (i.e. the market cost to execute the leases, including leasing commissions, legal and other related costs); (ii) the value associated with lost revenue related to tenant reimbursable operating costs estimated to be incurred during the assumed re-leasing period, (i.e. real estate taxes, insurance and other operating expenses); (iii) the value associated with lost rental revenue from existing leases during the assumed re-leasing period; and (iv) the value associated with avoided tenant improvement costs or other inducements to secure a tenant lease. These values are amortized over the remaining initial lease term of the respective leases.

The Company also determines the value, if any, associated with customer relationships considering factors such as the nature and extent of the Company's existing business relationship with the tenants, growth prospects for developing new business with the tenants and expectation of lease renewals. The value of customer relationship intangibles is amortized over the remaining initial lease terms plus any renewal periods.

Management of the Company reviews the carrying value of intangible assets for impairment on an annual basis.

Intangible assets (included in Other Assets in the accompanying consolidated balance sheets) consist of the following at December 31 (in thousands):

	2012	2011
In-place leases, net of accumulated amortization of $11.0 million and $9.6 million, respectively	$ 2,628	$ 3,792
Goodwill	693	693
Total intangible assets, net	$ 3,321	$ 4,485

In-place leases, net at December 31, 2012 and 2011 of approximately $2.6 million and $3.8 million, respectively, relate to four entertainment retail centers in Ontario, Canada that were purchased on March 1, 2004 and one entertainment retail center in Burbank, California that was purchased on March 31, 2005. Goodwill at December 31, 2012 and 2011

relates solely to the acquisition of New Roc that was acquired on October 27, 2003. Amortization expense related to in-place leases is computed using the straight-line method and was $1.2 million, $1.3 million and $1.2 million for the years ended December 31, 2012, 2011 and 2010, respectively. The weighted average life for these in-place leases at December 31, 2012 is 2.7 years.

Future amortization of in-place leases, net at December 31, 2012 is as follows (in thousands):

		Amount
Year:		
2013	$	1,245
2014		656
2015		540
2016		165
2017		22
Thereafter		—
Total	$	2,628

Deferred Financing Costs

Deferred financing costs are amortized over the terms of the related long-term debt obligations or mortgage note receivable as applicable.

Capitalized Development Costs

The Company capitalizes certain costs that relate to property under development including interest and a portion of internal legal personnel costs.

Operating Segments

For financial reporting purposes, the Company groups its investments into four reportable operating segments: entertainment, education, recreation and other. See Note 23 for financial information related to these operating segments.

Revenue Recognition

Rents that are fixed and determinable are recognized on a straight-line basis over the minimum terms of the leases. Base rent escalation on leases that are dependent upon increases in the Consumer Price Index (CPI) is recognized when known. In addition, most of the Company's tenants are subject to additional rents if gross revenues of the properties exceed certain thresholds defined in the lease agreements (percentage rents). Percentage rents as well as participating interest for those mortgage agreements that contain similar such clauses are recognized at the time when specific triggering events occur as provided by the lease or mortgage agreements. Rental revenue included percentage rents of $1.8 million, $1.2 million and $1.7 million for the years ended December 31, 2012, 2011 and 2010, respectively. Mortgage and other financing income included participating interest income of $0.9 million and $0.5 million for the years ended December 31, 2012 and 2011, respectively. No participating interest income was recognized for the year ended December 31, 2010. Lease termination fees are recognized when the related leases are canceled and the Company has no obligation to provide services to such former tenants. Termination fees of $0.1 million and $1.1 million (of which $1.0 million has been classified within discontinued operations) were recognized during the years ended December 31, 2012 and 2011, respectively. See Note 21 for further details. No termination fees were recognized during the year ended December 31, 2010.

Direct financing lease income is recognized on the effective interest method to produce a level yield on funds not yet recovered. Estimated unguaranteed residual values at the date of lease inception represent management's initial estimates of fair value of the leased assets at the expiration of the lease, not to exceed original cost. Significant assumptions used in estimating residual values include estimated net cash flows over the remaining lease term and expected future real estate values. The Company evaluates on an annual basis (or more frequently if necessary) the collectability of its

direct financing lease receivable and unguaranteed residual value to determine whether they are impaired. A direct financing lease receivable is considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the existing contractual terms. When a direct financing lease receivable is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the direct financing lease receivable's effective interest rate or to the fair value of the underlying collateral, less costs to sell, if such receivable is collateralized.

Allowance for Doubtful Accounts

Accounts receivable is reduced by an allowance for amounts that may become uncollectible in the future. The Company's accounts receivable balance is comprised primarily of rents and operating cost recoveries due from tenants as well as accrued rental rate increases to be received over the life of the existing leases. The Company regularly evaluates the adequacy of its allowance for doubtful accounts. The evaluation primarily consists of reviewing past due account balances and considering such factors as the credit quality of the Company's tenants, historical trends of the tenant and/or other debtor, current economic conditions and changes in customer payment terms. Additionally, with respect to tenants in bankruptcy, the Company estimates the expected recovery through bankruptcy claims and increases the allowance for amounts deemed uncollectible. If the Company's assumptions regarding the collectiblity of accounts receivable prove incorrect, the Company could experience write-offs of the accounts receivable or accrued straight-line rents receivable in excess of its allowance for doubtful accounts. The allowance for doubtful accounts was $3.9 million and $5.2 million at December 31, 2012 and 2011, respectively.

Mortgage Notes and Other Notes Receivable

Mortgage notes and other notes receivable, including related accrued interest receivable, consist of loans originated by the Company and the related accrued and unpaid interest income as of the balance sheet date. Mortgage notes and other notes receivable are initially recorded at the amount advanced to the borrower and the Company defers certain loan origination and commitment fees, net of certain origination costs, and amortizes them over the term of the related loan. Interest income on performing loans is accrued as earned. The Company evaluates the collectability of both interest and principal of each of its loans to determine whether it is impaired. A loan is considered to be impaired when, based on current information and events, the Company determines that it is probable that it will be unable to collect all amounts due according to the existing contractual terms. An insignificant delay or shortfall in amounts of payments does not necessarily result in the loan being identified as impaired. When a loan is considered to be impaired, the amount of loss, if any, is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the loan's effective interest rate or to the fair value of the Company's interest in the underlying collateral, less costs to sell, if the loan is collateral dependent. For impaired loans, interest income is recognized on a cash basis, unless the Company determines based on the loan to estimated fair value ratio the loan should be on the cost recovery method, and any cash payments received would then be reflected as a reduction of principal. Interest income recognition is recommenced if and when the impaired loan becomes contractually current and performance is demonstrated to be resumed. During the year ended December 31, 2012, the Company wrote off $8.1 million of previously impaired and fully reserved notes receivable. These notes were due from Sapphire Wines LLC and were deemed uncollectible by the Company during the fourth quarter of 2012.

Income Taxes

The Company operates in a manner intended to qualify as a REIT under the Internal Revenue Code (the Code). A REIT which distributes at least 90% of its taxable income to its shareholders each year and which meets certain other conditions is not taxed on that portion of its taxable income which is distributed to its shareholders. The Company intends to continue to qualify as a REIT and distribute substantially all of its taxable income to its shareholders.

The Company owns certain real estate assets which are subject to income tax in Canada. In addition, the Company has certain taxable REIT subsidiaries, as permitted under the Code, through which it conducts certain business activities and are subject to federal and state income taxes on their net taxable income. One of the taxable REIT subsidiaries holds four unconsolidated joint ventures located in China. The Company records these investments using the equity method; therefore the income reported by the Company is net of income tax paid to the Chinese authorities. Temporary

differences between income for financial reporting purposes and taxable income for the Canadian operations and the taxable REIT subsidiaries relate primarily to depreciation, amortization of deferred financing costs and straight line rents. As of December 31, 2012 and 2011, respectively, the Canadian operations and the taxable REIT subsidiaries had deferred tax assets totaling approximately $19.3 million and $17.5 million and deferred tax liabilities totaling approximately $4.2 million and $4.1 million. As there is no assurance that the Canadian operations and the taxable REIT subsidiaries will generate taxable income in the future beyond the reversal of temporary taxable differences, the deferred tax assets and liabilities have been offset by a valuation allowance such that there is no net deferred tax asset or liability at December 31, 2012 and 2011. The tax benefit of the cumulative losses could be recognized for financial reporting purposes in future periods to the extent the taxable REIT subsidiaries or the Canadian operations generate sufficient taxable income. Furthermore, the Company qualified as a REIT and distributed the necessary amount of taxable income such that no federal income taxes were due for the years ended December 31, 2012, 2011 and 2010. Accordingly, no provision for federal income taxes was recorded for any of those years. If the Company fails to qualify as a REIT in any taxable year, without the benefit of certain provisions, it will be subject to federal and state income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, the Company is subject to certain state and local taxes on its income and property, and federal income and excise taxes on its undistributed taxable income. These amounts are not material to the financial statements. Tax years 2009 through 2012 remain generally open to examination for U.S. federal income tax and state tax purposes and from 2007 through 2012 for Canada income tax purposes. The Company did not have any unrecognized tax benefits recorded as of December 31, 2012 or December 31, 2011.

The Company's policy is to recognize interest and penalties as general and administrative expense. In 2012 and 2011, the Company did not recognize any expense (benefit) related to interest and penalties. The Company did not have any accrued interest and penalties at December 31, 2012 or December 31, 2011.

Concentrations of Risk

American Multi-Cinema, Inc. (AMC) was the lessee of a substantial portion (31%) of the megaplex theatre rental properties held by the Company (including joint venture properties) at December 31, 2012 as a result of a series of sale leaseback transactions pertaining to AMC megaplex theatres. A substantial portion of the Company's total revenues (approximately $95.1 million or 30% , $105.3 million or 35% and $106.4 million or 38%, for the years ended December 31, 2012, 2011 and 2010, respectively) result from the revenue from AMC under the leases, or from its parent, AMC Entertainment, Inc. (AMCE), as the guarantor of AMC's obligations under the leases. During July of 2012, the leases at four of the Company's megaplex theatres located in Canada were assumed by third-party operators and are no longer leased to AMC. AMCE has publicly reported total assets of $3.6 billion and $3.7 billion, total liabilities of $3.5 billion and $3.4 billion and total stockholders' equity of $154.3 million and $360.2 million at March 29, 2012 and March 31, 2011, respectively. AMCE has publicly reported a net loss of $82.0 million for the fifty-two weeks ended March 29, 2012, a net loss of $122.9 million for the fifty-two weeks ended March 31, 2011 and net earnings of $69.8 million for the fifty-two weeks ended April 1, 2010. In addition, AMCE has publicly reported net earnings of $51.4 million for the twenty-six weeks ended September 27, 2012. AMCE has publicly held debt and the foregoing financial information was reported in its consolidated financial information which is publicly available. On August 30, 2012, Dalian Wanda Group Co., Ltd. (Wanda) announced that it completed its acquisition of AMC Entertainment Holdings, Inc., the parent of AMCE (AMCE Holdings), in a transaction valued at $2.7 billion. Upon completion of the acquisition, AMCE Holdings became a wholly-owned subsidiary of Wanda.

For the years ended December 31, 2012, 2011 and 2010, approximately $42.8 million or 13%, and $42.3 million or 14%, and $40.8 million or 14%, respectively, of total revenue was derived from the Company's four entertainment retail centers in Ontario, Canada. The Company acquired Toronto Dundas Square, a 13-level entertainment retail center located in downtown Toronto, consisting of 330,000 square feet of net rentable area and a signage business consisting of 25,000 square feet of digital and static signage, on March 4, 2010. On March 29, 2011, the Company sold this entertainment retail center and accordingly, the results of operations of the property have been classified within discontinued operations. The Company's wholly owned subsidiaries that hold the four Canadian entertainment retail

centers and third-party debt represent approximately $147.3 million or 10% and $144.6 million or 10% of the Company's net assets as of December 31, 2012 and 2011, respectively.

Cash Equivalents
Cash equivalents include bank demand deposits and shares of highly liquid institutional money market mutual funds for which cost approximates market value.

Restricted Cash
Restricted cash represents cash held for a borrower's debt service reserve for mortgage notes receivable, deposits required in connection with debt service, payment of real estate taxes and capital improvements, and escrow balances required in connection with the sale of Toronto Dundas Square.

Share-Based Compensation
Share-based compensation to employees of the Company is granted pursuant to the Annual Incentive Program and the Long-Term Incentive Plan. Share-based compensation to non-employee trustees of the Company is granted pursuant to the director compensation program and shares are issued under the Company's 2007 Equity Incentive Plan.

Share based compensation expense consists of share option expense, amortization of nonvested share grants, and shares and share units issued to non-employee Trustees for payment of their annual retainers. Share based compensation is included in general and administrative expense in the accompanying consolidated statements of income, and totaled $5.8 million, $5.6 million and $4.7 million for the years ended December 31, 2012, 2011 and 2010, respectively.

Share Options
Share options are granted to employees pursuant to the Long-Term Incentive Plan and to non-employee Trustees for their service to the Company. The fair value of share options granted is estimated at the date of grant using the Black-Scholes option pricing model. Share options granted to employees vest over a period of four years and share option expense for these options is recognized on a straight-line basis over the vesting period. Share options granted to non-employee Trustees vest immediately but may not be exercised for a period of one year from the grant date. Share option expense for non-employee Trustees is recognized on a straight-line basis over the year of service by the non-employee Trustees.

Nonvested Shares Issued to Employees
The Company grants nonvested shares to employees pursuant to both the Annual Incentive Program and the Long-Term Incentive Plan. The Company amortizes the expense related to the nonvested shares awarded to employees under the Long-Term Incentive Plan and the premium awarded under the nonvested share alternative of the Annual Incentive Program on a straight-line basis over the future vesting period (three to four years). Total expense recognized related to all nonvested shares was $4.4 million, $4.2 million and $3.6 million for the years ended December 31, 2012, 2011 and 2010, respectively.

Restricted Share Units Issued to Non-Employee Trustees
The Company issues restricted share units to non-employee Trustees for payment of their annual retainers. The fair value of the share units granted was based on the share price at the date of grant. The share units vest upon the earlier of the day preceding the next annual meeting of shareholders or a change of control. The settlement date for the shares is selected by the non-employee trustee, and ranges from one year from the grant date to upon termination of service. This expense was amortized by the Company on a straight-line basis over the year of service by the non-employee Trustees. Total expense recognized related to shares issued to non-employee Trustees was $494 thousand, $493 thousand and $445 thousand for the years ended December 31, 2012, 2011 and 2010, respectively.

Foreign Currency Translation
The Company accounts for the operations of its Canadian properties and mortgage note in Canadian dollars. The assets and liabilities related to the Company's Canadian properties and mortgage note are translated into U.S. dollars at current

exchange rates; revenues and expenses are translated at average exchange rates. Resulting translation adjustments are recorded as a separate component of comprehensive income.

Derivative Instruments

The Company has acquired certain derivative instruments to reduce exposure to fluctuations in foreign currency exchange rates and variable interest rates. The Company has established policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. These derivatives consist of foreign currency forward contracts, cross currency swaps and interest rate swaps.

The Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Derivatives may also be designated as hedges of the foreign currency exposure of a net investment in a foreign operation. Hedge accounting generally provides for the matching of the timing of gain or loss recognition on the hedging instrument with the recognition of the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk in a fair value hedge or the earnings effect of the hedged forecasted transactions in a cash flow hedge. The Company may enter into derivative contracts that are intended to economically hedge certain of its risk, even though hedge accounting does not apply or the Company elects not to apply hedge accounting.

The Company has made an accounting policy election under FASB ASU 2011-04 (Amendments to ASC 820) to use the exception in ASC 820-10-35-18D (commonly referred to as the "portfolio exception") with respect to measuring counterparty credit risk for derivative instruments, consistent with the guidance in ASC 820-10-35-18G. The Company further documents that it meets the criteria for the exception in ASC 820-10-35-18E.

Reclassifications

Certain reclassifications have been made to the prior period amounts to conform to the current period presentation primarily for asset groups that qualify for presentation as discontinued operations.

3. Rental Properties

The following table summarizes the carrying amounts of rental properties as of December 31, 2012 and 2011(in thousands):

	2012	2011
Buildings and improvements	$ 1,734,300	$ 1,602,676
Furniture, fixtures & equipment	34,028	54,737
Land	492,449	496,879
	2,260,777	2,154,292
Accumulated depreciation	(375,684)	(335,116)
Total	$ 1,885,093	$ 1,819,176

Depreciation expense on rental properties was $47.3 million, $42.8 million and $40.7 million for the years ended December 31, 2012, 2011 and 2010, respectively.

On March 29, 2011, the Company sold its Toronto Dundas Square entertainment retail center and related signage business in downtown Toronto. The gross sale proceeds were approximately $226.0 million Canadian (CAD) and the net sales proceeds, after selling costs, were $222.7 million CAD. The acquirer did not purchase any of the pre-acquisition

receivables, payables or accrued liabilities and the purchase and sale agreement called for the establishment of $15.3 million CAD of escrow accounts primarily for the payment of previously accrued property taxes. This amount has been netted against the net proceeds from sale of real estate from discontinued operations in the consolidated statement of cash flows for the year ended December 31, 2011. The net proceeds from this sale, after the aforementioned escrows, were converted to U.S. dollars primarily through a foreign currency forward contract that was entered into on February 3, 2011 and designated as a net investment hedge. This forward contract allowed the Company to sell $200.0 million CAD for $201.5 million U.S. The Company used the proceeds to pay down its revolving line of credit and recorded a net gain of $18.3 million U.S. on the sale of real estate, including the impact of foreign currency and the settlement of the forward contract. During 2011 and 2012, approximately $14.0 million CAD, was paid from reserves leaving an outstanding balance of $1.2 million CAD at December 31, 2012. During the fourth quarter of 2011 and the first quarter of 2012, the Company recorded an additional gain on sale or acquisition of real estate of $1.2 million U.S. and $282 thousand U.S, respectively, related to the settlement of certain reserves. The results of operations of the project have been classified within discontinued operations retroactively through the first quarter of 2010 as the project was purchased on March 4, 2010 at which time a gain on acquisition of $9.0 million was recognized (see Note 21 for further details). As of December 31, 2012, the Company's consolidated balance sheet includes $1.6 million CAD of assets and $5.6 million CAD of liabilities related to Toronto Dundas Square; however, the Company has no significant continuing involvement with the ownership or operation of the project.

On April 28, 2011, the Company sold its winery assets at the Gary Farrel Winery in Sonoma, California for proceeds of $6.5 million and no gain or loss on sale was recognized. On August 16, 2011, the Company completed the sale of the tasting room portion of its Buena Vista winery facility in Sonoma, California for $1.7 million and no gain or loss on sale was recognized. On September 20, 2011, the Company completed the sale of EOS winery and vineyards in Paso Robles, California, for $13.3 million and a gain on sale of $16 thousand was recognized. As further detailed in Note 21, the results of operations of the properties have been classified within discontinued operations.

During 2012, the Company completed the sale of the remaining assets at its Buena Vista winery and vineyards in Sonoma County, California in three sale transactions for a total of $32.5 million and a net loss on sale of $846 thousand was recognized. Additionally, on December 6, 2012, the Company completed the sale of the Carneros custom crush facility in Sonoma, California for $12.5 million and a gain on sale of $538 thousand was recognized. In consideration for the property, the Company received $10 million in cash and mortgage note receivable of $2.5 million, due in December 2017. As further detailed in Note 21, the results of operations of the properties have been classified within discontinued operations.

4. Impairment Charges

During 2011, the Company recorded impairment charges totaling $36.1 million on eight vineyard and winery properties, including one property which is held for sale. Management estimated the fair values of these properties taking into account various factors, including the shortened holding period, current market conditions as well as independent appraisals for most of the properties utilizing a leased fee or fee simple approach as applicable. It was determined that the carrying value of these properties (included in the Other segment) exceeded the estimated fair values by $36.1 million. Two of these properties were sold during 2011 and 2012. Accordingly, the related results of operations including the impairment charge of $15.6 million for these two properties have been classified within discontinued operations. Additionally, at December 31, 2011, one of the vineyard and winery properties with a carrying value of $4.7 million has been classified as held for sale in the accompanying consolidated balance sheet, and the related results of operations, including the impairment charge of $1.8 million in 2011, has been classified within discontinued operations. See Note 21 for further details.

During 2012, the Company recorded impairment charges totaling $23.9 million on six vineyard and winery properties. The Company began negotiations on or entered into non-binding agreements to sell these assets and as a result, the Company revised its estimated undiscounted cash flows associated with each of these asset groups, considering the shorter expected holding periods, and determined that those estimated cash flows were not sufficient to recover the

carrying values of these properties. Management estimated the fair values of these properties taking into account the various purchase offers, pending purchase agreements, input from an outside broker and previous appraisals. During 2012, the Company sold all of the assets at its Buena Vista vineyard and winery in Sonoma, California, and the related results of operations, including the impairment of $11.1 million, has been classified within discontinued operations. Additionally, at December 31, 2012, one of the vineyard and winery properties with a carrying value of $2.8 million has been classified as held for sale in the accompanying consolidated balance sheet, and the related results of operations, including the impairment of $1.9 million in 2012, has been classified within discontinued operations. See Note 21 for further details.

5. Accounts Receivable, Net

The following table summarizes the carrying amounts of accounts receivable, net as of December 31, 2012 and 2011 (in thousands):

	2012	2011
Receivable from tenants	$ 9,379	$ 6,874
Receivable from non-tenants	1,527	1,265
Receivable from Canada Revenue Agency	793	1,099
Straight-line rent receivable	30,891	26,499
Deferred rent receivable	—	4,420
Allowance for doubtful accounts	(3,852)	(5,152)
Total	$ 38,738	$ 35,005

6. Investment in Mortgage Notes

Investment in mortgage notes, including related accrued interest receivable, at December 31, 2012 and 2011 consists of the following (in thousands):

		2012	2011
(1)	Mortgage note, 10.00%, due April 1, 2013	$ 42,907	$ 33,677
(2)	Mortgage note and related accrued interest receivable, 9.00%, due June 30, 2013	1,710	1,303
(3)	Mortgage note and related accrued interest receivable, 10.00%, due November 1, 2017	2,517	—
(4)	Mortgage note, 9.50%, due January 31, 2018	17,979	—
(5)	Mortgage notes, 7.00% and 10.00%, due May 1, 2019	178,545	178,384
(6)	Mortgage note, 9.96%, due March 10, 2027	10,945	8,000
(7)	Mortgage notes, 10.61%, due April 3, 2027	62,500	62,500
(8)	Mortgage note, 9.83%, due October 30, 2027	45,714	41,233
(9)	Mortgage note and related accrued interest receivable, 10.65%, due June 28, 2032	36,032	—
(10)	Mortgage note and related accrued interest receivable, 9.00%, due September 1, 2032	19,471	—
(11)	Mortgage note and related accrued interest receivable, 10.25%, due October 31, 2032	22,188	—
(12)	Mortgage note, 10.00%, due December 19, 2032	2,550	—
(13)	Mortgage note and related accrued interest receivable, 9.00%, due December 31, 2032	5,787	—
(14)	Mortgage note, 10.25%, due June 30, 2033	1,977	—
(15)	Mortgage note, 11.31%, due December 31, 2033	4,930	—
	Total mortgage notes and related accrued interest receivable	$ 455,752	$ 325,097

(1) The Company's first mortgage loan agreement with Peak Resorts, Inc. (Peak) is secured by approximately 696 acres of development land. The note requires monthly interest payments and Peak is required to fund a debt service reserve for off-season interest payments (those due from April to December). The reserve is to be funded by equal monthly installments during the months of January, February and March. Monthly interest payments are transferred to the Company from this debt service reserve.

(2) The Company's first mortgage loan agreement with Starshine Charter Holdings, LLC is secured by approximately three acres of land and improvements. This note requires monthly interest payments.

(3) The Company's mortgage loan agreement with Carneros Vintners, Inc. is secured by approximately 20 acres of land and a custom crush facility. The note requires monthly interest payments and two principal payments of $750 thousand each during the note term with a final principal payment of $1.0 million due at maturity. Pursuant to the mortgage note, a $10.0 million first mortgage ranks superior to the Company's collateral position.

(4) The Company's first mortgage loan agreement with Cantera 30, L.P. is secured by a theatre and family entertainment development located in Warrenville, Illinois. Cantera 30, L.P. owns direct title to the collateral and this entity is owned by the Company's unconsolidated joint venture, Atlantic-EPR I, in which the Company has a 43.9% investment interest. See footnote 9 for more details. This note requires monthly interest payments.

(5) The Company's mortgage loan agreements with SVVI, LLC (SVVI) are secured by one water-park and adjacent land in Kansas City, Kansas as well as two other water-parks located in New Braunfels and South Padre Island, Texas. The mortgage notes have cross-default and cross-collateral provisions. Pursuant to the mortgage on the Texas properties, only a seasonal line of credit secured by the Texas parks totaling not more than $7.0 million at any time ranks superior to the Company's collateral position. The note requires monthly interest payments and SVVI is required to fund a debt service reserve for off-season interest payments (those due from September to May). The reserve is to be funded by equal monthly installments during the months of June, July and August. Monthly interest payments are transferred to the Company from this debt service reserve. The mortgage loan agreements also contain certain participating interest and note pay-down provisions. During the years ended December 31, 2012 and 2011, the Company recognized $862 thousand and $451 thousand of participating interest income, respectively. No participating interest income was recognized during the year ended December 31, 2010. SVV I, LLC is a VIE, but it was determined that the Company was not the primary beneficiary of this VIE. The Company's maximum exposure to loss associated with SVVI, LLC is limited to the Company's outstanding mortgage note and related accrued interest receivable.

(6) The Company's first mortgage loan agreement with SNH Development, Inc. is secured by a ski resort located in Bennington, New Hampshire with a total of 308 acres. This loan is guaranteed by Peak, which operates the property. The note requires monthly interest payments and Peak is required to fund a debt service reserve for off-season interest payments (those due from April to December). The reserve is to be funded by equal monthly installments during the months of January, February and March. Monthly interest payments are transferred to the Company from this debt service reserve. Annually, this interest rate increases based on a formula dependent in part on increases in the CPI.

(7) The Company's first mortgage loan agreements with Peak are secured by two ski resorts located in Vermont and New Hampshire. Mount Snow is approximately 2,378 acres and is located in both West Dover and Wilmington, Vermont. Mount Attitash is approximately 1,250 acres and is located in Bartlett, New Hampshire. The note requires monthly interest payments and Peak is required to fund a debt service reserve for off-season interest payments (those due from April to December). The reserve is to be funded by equal monthly installments during the months of January, February and March. Monthly interest payments are transferred to the Company from this debt service reserve. Annually, this interest rate increases based on a formula dependent in part on increases in the CPI.

(8) The Company's first mortgage loan agreement with Peak is secured by seven ski resorts located in Missouri, Indiana, Ohio and Pennsylvania with a total of approximately 1,431 acres. The note requires monthly interest payments and Peak is required to fund a debt service reserve for off-season interest payments (those due from April to December). The reserve is to be funded by equal monthly installments during the months of January, February and March. Monthly interest payments are transferred to the Company from this debt service reserve. Annually, this interest rate increases based on a formula dependent in part on increases in the CPI.

(9) The Company's first mortgage loan agreement with Montparnasse 56 USA is secured by the observation deck of the John Hancock building in Chicago, Illinois. This note requires monthly interest payments.

(10) The Company's first mortgage loan agreement with Basis Schools, Inc. is secured by a six story public charter school and the underlying land with approximately 40,000 square feet located in Washington D.C. The note bears interest beginning at 9.0% with increases of 0.5% every four years and requires monthly interest payments. The note has an effective interest rate of approximately 9.3%, which is net of a 2% servicer fee to HighMark School Development (HighMark).

(11) The Company's first mortgage loan agreement with Fiber Mills, LLC and Music Factory Condominiums, LLC is secured by the North Carolina Music Factory located in Charlotte, North Carolina which is an existing entertainment retail center that includes live performance and other dining and entertainment tenants. The note bears interest beginning at 10.25% with increases of 1.0% every five years and requires monthly interest payments. The note contains an option to purchase the property for a period of time during 2015 at a price based on a multiple of the property's adjusted net

operating income as defined in the agreement.

(12) The Company's first mortgage loan agreement with Peak is secured by a ski resort located in Chesterland, Ohio with approximately 125 acres. The note requires monthly interest payments and Peak is required to fund a debt service reserve for off-season interest payments (those due from April to December). The reserve is to be funded by equal monthly installments during the months of January, February and March. Monthly interest payments are transferred to the Company from this debt service reserve. Annually, this interest rate increases based on a formula dependent in part on increases in the CPI.

(13) The Company's first mortgage loan agreement with LBE Investments, Ltd. is secured by a charter school property located in Queen Creek, Arizona. The note is fully amortizing and requires monthly principal and interest payments of $52 thousand.

(14) The Company's first mortgage loan agreement with UME Preparatory Academy is secured by approximately 28 acres of land located in Dallas, Texas, which is expected to be developed by HighMark into a public charter school. The note bears interest beginning at 10.25% with increases of 0.5% every five years and requires monthly interest payments. The note is expected to have an effective interest rate of approximately 10.3% upon completion of development, which is net of a 2% servicer fee to HighMark.

(15) The Company's first mortgage loan agreement with TopGolf USA Austin is secured by a recreation facility located in Austin, Texas which is under construction. The note requires monthly interest payments during the construction term. Upon completion of construction, the note requires monthly principal and interest payments and is fully amortizing.

Principal payments and related accrued interest due on mortgage notes receivable subsequent to December 31, 2012 are as follows (in thousands):

	Amount
Year:	
2013	$ 45,118
2014	117
2015	878
2016	890
2017	1,154
Thereafter	407,595
Total	$ 455,752

7. Investment in a Direct Financing Lease

The Company's investment in a direct financing lease relates to the Company's master lease of 26 public charter school properties as of December 31, 2012 and 27 public charter school properties as of December 31, 2011, with affiliates of Imagine Schools, Inc. (Imagine). Investment in a direct financing lease, net represents estimated unguaranteed residual values of leased assets and net unpaid rentals, less related deferred income. The following table summarizes the carrying amounts of investment in a direct financing lease, net as of December 31, 2012 and 2011(in thousands):

	2012	2011
Total minimum lease payments receivable	$ 648,632	$ 683,653
Estimated unguaranteed residual value of leased assets	211,944	215,987
Less deferred income [1]	(626,487)	(666,021)
Investment in a direct financing lease, net	$ 234,089	$ 233,619

(1) Deferred income is net of $1.7 million and $1.8 million of initial direct costs at December 31, 2012 and 2011, respectively.

Additionally, the Company has determined that no allowance for losses was necessary at December 31, 2012 and 2011.

On July 13, 2012, per the terms of the master lease of public charter schools with Imagine, the Company exchanged two Kansas City, Missouri schools for one located in Pittsburgh, Pennsylvania and another in Land O' Lakes, Florida. There was no impact on the Company's investment in direct financing lease as a result of this exchange. Additionally, on August 15, 2012, the Company completed the sale of a public charter school property for $4.5 million that was leased to Imagine. There was no gain or loss recognized on this sale.

The Company's direct financing lease has expiration dates ranging from approximately 19 to 22 years. Future minimum rentals receivable on this direct financing lease at December 31, 2012 are as follows (in thousands):

	Amount
Year:	
2013	$ 23,576
2014	24,283
2015	25,011
2016	25,762
2017	26,535
Thereafter	523,465
Total	$ 648,632

8. Cappelli Litigation and Sullivan County Planned Casino and Resort Development

On December 31, 2009, the Company commenced litigation in Kansas City, Missouri, against Mr. Cappelli and several of his affiliates seeking payment of amounts due under various loans to them and a declaratory judgment that no further investments are required to be made by the Company under any prior commitment to Mr. Cappelli or any of his affiliates. This litigation included claims by the Company seeking payment of amounts due under a mortgage note receivable (the Concord Mortgage Note) with a carrying value of $131.2 million, net of unearned interest, from Concord Resort, LLC (Concord Resort), an entity controlled by Mr. Cappelli, related to a planned casino and resort development in Sullivan County, New York, and other notes receivable. On April 9, 2010, Mr. Cappelli and certain affiliates commenced separate litigation in Westchester County, New York against the Company seeking declaratory relief, derivative relief and money damages with respect to the Sullivan County casino project and City Center.

On June 18, 2010, the Company entered into a series of agreements with Mr. Cappelli and several of his affiliates regarding the settlement of all pending litigation and a restructuring of the Company's investments with Mr. Cappelli and his affiliates. The significant terms of the agreements are as follows:

Concord Resort transferred its interests in the Concord resort property to one of the Company's wholly owned subsidiaries in exchange for its release from obligations under the Concord Mortgage Note, subject to, among other terms: an option granted to Concord Resort to purchase for a two-year period the Company's subsidiary that is holding the Concord resort property for $143.0 million, plus interest accruing on such sum at the rate of 6% per annum, a right of first refusal granted to Concord Resort with respect to purchasing the Company's interest in the Concord resort property applicable for a period of two years running concurrently with the option described above, certain limitations for a period of time on the Company's ability to own or operate any casino, racino, racing or gaming facility on the Concord resort property, which is adjacent to the Concord casino property owned by an affiliate of Mr. Cappelli (the Casino Owner), and certain perpetual limitations on the ability of the Casino Owner (or its successor) to own or operate a resort facility, golf course or other operation or facility on the Concord casino property, other than the currently contemplated casino and hotel project. The Company agreed that, upon the Cappelli affiliate's execution of an agreement for the construction of the Concord casino on the Concord casino property and execution of a Master Credit Agreement (the MCA) on or before June 11, 2012, substantially in the form attached to the settlement documents, the Company would lease or sublease, as applicable, two golf courses that are associated with the Concord resort property to a Cappelli affiliate on a triple-net basis for an initial term of 10 years, plus fivefive-year extensions at fair market value rent mutually acceptable to the parties. The Company also agreed that, upon the Cappelli affiliate's execution of the MCA on or before June 11, 2012, substantially in the form attached to the settlement documents, the Company would enter into a ground lease (for $1.00 per year), with a right for the Cappelli affiliate to eventually purchase, a parcel of approximately 51 acres known as the "Racino Parcel" upon completion of construction of the harness track and relocation of a roadway. The Cappelli affiliate also has the right to ground lease the parcel (with option to purchase) for a five year period (until June 11, 2017) if the MCA is not signed, but in that case, rent would be $200,000 per year, payable in advance. In either case, the purchase option described above would be exercisable for nominal consideration ($1.00), but the lease and the option would lapse if vertical construction on the Cappelli affiliate's proposed casino had not commenced, or was not being diligently and continuously pursued to completion on June 18, 2015. Management determined the fair value of the real estate to be $180.0 million by taking into account an independent appraisal prepared as of the settlement date. The fair value of the option granted to Concord Resort of $27.8 million was recorded as noncontrolling interest and a ground lease assumed by the Company was recorded as a capital lease obligation of $9.2 million, which is equal to the fair value. This lease obligation was subsequently satisfied by the Company on December 7, 2011. Additionally, the option granted to Concord Resort expired unexercised on June 11, 2012. During the year ended December 31, 2012, the Company reduced the value of the noncontrolling interest from $27.8 million to zero and recorded an adjustment to increase additional paid-in-capital by the same amount.

The Company transferred to an affiliate of Mr. Cappelli, KBC Concord LLC (KBC Concord), three promissory notes, in an aggregate principal amount of $30.0 million and for which the Company had previously recorded a loan loss reserve in the aggregate of $28.0 million, in exchange for an agreement by KBC Concord to pay the Company up to $15.0 million payable from 50% of the available cash distributed to KBC Concord from its minority interest in the Concord casino project which was determined by management to have a fair value of approximately $463 thousand. The Company evaluated the $463 thousand asset related to cash flow rights in the Concord casino for impairment at December 31, 2010 and determined that it was fully impaired. An impairment charge was recorded as of December 31, 2010 for this amount.

The Company provided a commitment to acquire a $30.0 million participation (pari passu with the other lenders) from Union Labor Life Insurance Company (ULLICO) in a loan to be made by ULLICO and other

lenders under a proposed amended and restated master credit agreement to the Concord casino project, which was conditioned upon, among other things, receipt of a $100.0 million equity investment by a major gaming operator prior to December 31, 2010. This commitment expired on December 31, 2010.

One of Mr. Cappelli's affiliates, LC New Roc LP, transferred to the Company its partnership interest in New Roc Associates, L.P. (previously a consolidated joint venture that had a noncontrolling interest with a fair value of $2.5 million at the date of settlement), which owns New Roc, in exchange for the Company's interest in LC White Plains Retail LLC and LC White Plains Recreation, LLC (together the White Plains LLCs, each part of a previously consolidated joint venture), which own City Center, and a promissory note related to City Center, in the original principal amount of $20.0 million payable by Cappelli Group, LLC to the Company (previously eliminated in consolidation). The deconsolidation by the Company of its ownership interest in City Center resulted in a charge of $7.4 million in conjunction with the settlement primarily related to the deficit balance in noncontrolling interest. As a result, the Company now holds a 100% interest in New Roc and has no interest in City Center. As further detailed in Note 21, the results of operations of City Center have been classified in discontinued operations.

In addition, the Company paid cash at closing of $3.7 million for the interests acquired, the acquisition of certain equipment and the payment of property obligations. The Company also incurred $1.6 million in closing costs and other expenses, including transfer taxes, and the parties mutually released and settled all claims, obligations and liabilities, including all pending litigation.

A reconciliation of the gain on settlement of $4 thousand is as follows (in thousands):

Fair value of Concord resort land received	$	180,000
Carrying value of extinguished mortgage note receivable related to Concord resort		(131,175)
Fair value of option granted for purchase for Concord resort (included in non-controlling interest)		(27,785)
Capital lease obligation assumed related to Concord resort		(9,215)
Fair value of cash flow rights in Concord casino		463
Fair value of New Roc non-controlling interest received		2,452
Notes receivable forgiven, net of loan loss reserves		(2,000)
Deconsolidation of ownership interests in City Center		(7,385)
Cash paid at closing for interests acquired, equipment and payment of property obligations		(3,702)
Settlement closing costs and other expenses, including land transfer taxes		(1,649)
Net gain on settlement (included in other income)	$	4

On June 18, 2012, Concord Kiamesha Casino, LLC, an affiliate of Mr. Cappelli, exercised the right to ground lease approximately 57 acres of former Concord Resort property from the Company, pursuant to agreements entered into as part of the June 18, 2010 settlement between the parties. The affiliate has the right to ground lease the parcel (with option to purchase) for a five year period with annual rent payments of $200 thousand due in advance. Additionally, as agreed in the June 18, 2010 settlement, Concord Associates, L.P., an affiliate of Mr. Cappelli, has the right to purchase the Company's fee simple interest underlying the ground lease for $1.00 provided that construction of the harness racetrack and casino project is completed prior to the end of the ground lease term. The ground lease covers property which is not included in the Company's separate agreements with Empire Resorts, Inc. (Empire Resorts) and has no effect on the Company's development plans discussed below.

On June 7, 2011, affiliates of Louis Cappelli, Concord Associates, L.P., Concord Resort, LLC and Concord Kiamesha LLC (the Cappelli Group), filed a complaint with the Supreme Court of the State of New York, County of Sullivan, against a subsidiary of the Company seeking (i) a declaratory judgment on certain of the subsidiary's obligations under

a previously disclosed settlement agreement involving these entities, (ii) an order that the Company subsidiary execute the golf course lease and the "Racino Parcel" lease subject to the settlement agreement, and (iii) an extension of the restrictive covenant against ownership or operation of a casino on the Concord resort property under the settlement agreement, which covenant was set to expire on December 31, 2011. On October 20, 2011, the Cappelli Group filed a complaint with the Supreme Court of the State of New York, County of Westchester against the Company and certain of its subsidiaries alleging breach of contract and breach of the duty of good faith and fair dealing with respect to a casino development agreement relating to a planned casino and resort development in Sullivan County, New York. Plaintiffs are seeking specific performance with respect to such agreement and money damages of $800.0 million, plus interest and attorneys' fees. On March 7, 2012, Concord Associates, L.P. and seven other companies affiliated with Mr. Cappelli and Concord Associates, L.P. filed a new complaint against the Company and certain of its subsidiaries, as well as Empire Resorts, Inc. and its subsidiary Monticiello Raceway Management, Inc., in the United States District Court for the Southern District of New York. On June 25, 2012, an amended complaint was served against the same parties as well as Kien Huat Realty III Limited and Genting New York , LLC (Genting Parties). The amended complaint alleges unlawful restraint of trade, conspiracy to monopolize and unlawful monopolization, against the Company, the Empire Resorts parties and the Genting Parties as well as tortious interference against the Empire Resorts parties and the Genting Parties, in relation to a proposed development transaction on the same Sullivan County, New York resort property. Plaintiffs seek damages of $1.5 billion, plus interest and attorneys' fees. The Company intends to vigorously defend the claims asserted against the Company and certain of its subsidiaries by the Concord entities for which it believes it has meritorious defenses, but it is too early to assess the outcome.

On December 21, 2011, the Company entered into an Option to Lease Agreement (the Option) covering approximately 190 acres of the Concord resort property with Empire Resorts. The Option included an option payment of $750 thousand to the Company by Empire Resorts. The parties finalized the master development agreement on December 14, 2012, however, it is subject to certain contingencies that make the option payment refundable until the contingencies are satisfied. There can be no guarantee that these contingencies will be satisfied or that the $750 thousand payment will be earned by the Company. Accordingly, this item is included in accounts payable and accrued liabilities at December 31, 2012 in the accompanying consolidated balance sheets.

During the year ended December 31, 2012, the Company expended approximately $11.6 million in pursuit of the necessary environmental and land use approvals and permits for the proposed casino anchored development in Sullivan County, New York. In early 2013, the Company received approval from the Town of Thompson Board on the comprehensive development plan and can now move forward with the submission of individual site plan applications, thus initiating the commencement of the build-out of this site.

9. Unconsolidated Real Estate Joint Ventures

At December 31, 2012, the Company had a 43.9% and 30.1% investment interest in two unconsolidated real estate joint ventures, Atlantic-EPR I and Atlantic-EPR II, respectively. The Company accounts for its investment in these joint ventures under the equity method of accounting.

On January 1, 2012, the Company converted a $14.9 million equity interest in Atlantic-EPR I to a secured first mortgage loan of the same amount. Additionally, Atlantic-EPR I entered into an agreement to develop a family entertainment venue at the property it owns for approximately $4.0 million which is being funded through additional advances under the mortgage note. The Company recognized income of $536.0 thousand, $2.8 million and $2.3 million during 2012, 2011 and 2010, respectively, from its equity investments in the Atlantic-EPR I and Atlantic-EPR II joint ventures. The Company also received distributions from Atlantic-EPR I and Atlantic-EPR II of $1.0 million, $2.8 million, and $2.5 million during 2012, 2011 and 2010, respectively. Condensed consolidated financial information for Atlantic-EPR I and Atlantic-EPR II is as follows as of and for the years ended December 31, 2012, 2011 and 2010 (in thousands):

	2012	2011	2010
Rental properties, net	$ 45,496	$ 46,600	$ 47,705
Cash	278	1,071	132
Mortgage note payable (1)	11,827	12,224	12,599
Mortgage note payable to EPR (2)	17,979	—	—
Partners' equity	18,675	34,772	35,021
Rental revenue	5,604	6,523	7,387
Net income	1,842	1,874	3,244

(1) Atlantic-EPR II mortgage note payable is due September 1, 2013
(2) Atlantic-EPR I mortgage note payable to EPR is due January 31, 2018

The partnership agreements for Atlantic-EPR I and Atlantic-EPR II allow the Company's partner, Atlantic of Hamburg, Germany (Atlantic), to exchange up to a maximum of 10% of its ownership interest per year in each of the joint ventures for common shares of the Company or, at our discretion, the cash value of those shares as defined in each of the partnership agreements. During 2010, the Company paid Atlantic cash of $679 and $186 (in thousands) in exchange for additional ownership of 3.1% and 1.6% for Atlantic-EPR I and Atlantic-EPR II, respectively. During 2011, the Company paid Atlantic cash of $2.5 million and $258 thousand in exchange for additional ownership of 11.3% and 2.0% for Atlantic-EPR I and Atlantic-EPR II, respectively. During 2012, the Company paid Atlantic cash of $1.3 million and $490 thousand in exchange for additional ownership of 6.0% and 3.8% for Atlantic-EPR I and Atlantic-EPR II, respectively. These exchanges did not impact total partners' equity in either Atlantic-EPR I or Atlantic-EPR II.

In addition, as of December 31, 2012 and 2011 the Company had invested $4.7 million and $4.2 million, respectively, in unconsolidated joint ventures for three theatre projects located in China. The Company recognized income of $489 thousand, $42 thousand and a loss of $157 thousand from its investment in these joint ventures for the years ended December 31, 2012, 2011 and 2010, respectively.

10. Consolidated Real Estate Joint Ventures

The Company owns 96% of the membership interests of VinREIT, LLC (VinREIT) and accordingly, the financial statements of VinREIT have been consolidated into the Company's financial statements. VinREIT owns six wineries and four vineyards located in California and Washington. The Company's partner in VinREIT is Global Wine Partners (U.S.), LLC (GWP). GWP provides certain consulting services to VinREIT in connection with the acquisition, development, administration and marketing of vineyard properties and wineries.

As detailed in the operating agreement, GWP is entitled to receive a 1% origination fee on winery and vineyard investments and 4% of the annual cash flow of VinREIT after a charge for debt service. GWP may receive additional amounts upon certain events and after certain hurdle rates of return are achieved by us. Net income attributable to noncontrolling interest related to VinREIT was $108 thousand, $38 thousand and $86 thousand for the years ended December 31, 2012, 2011 and 2010, respectively, representing GWP's portion of the annual cash flow. The Company's consolidated statements of income include net losses related to VinREIT of $21.2 million, $39.9 million and $2.2 million for the years ended December 31, 2012, 2011 and 2010, respectively. The Company received operating distributions from VinREIT of $11.3 million, $9.7 million and $332 thousand during 2012, 2011 and 2010, respectively. In addition, during 2012 and 2011, respectively, the Company received distributions of $40.6 million and $19.5 million related to property sales. There were no distributions related to property sales during 2010. During 2011, the Company contributed $90.9 million to VinREIT for financing activities. During 2010 and 2012, there were no contributions related to financing activities.

As discussed in Note 2, prior to June 18, 2010, New Roc and White Plains were owned 71.4% and 66.67%, respectively. As a result of the settlement with Mr. Cappelli and several of his affiliates on June 18, 2010, the Company became the

sole owner of New Roc and the Company has no ownership interest in City Center. The Company's consolidated statements of net income include net income related to New Roc of $1.1 million for the year ended December 31, 2010, and net losses related to White Plains of $3.1 million for the year ended December 31, 2010. The Company did not receive any distributions from New Roc and White Plains during 2010.

Prior to December 22, 2011, the Company held a 50% ownership interest in Suffolk. Suffolk completed three phases of development of an entertainment retail center adjacent to one of the Company's megaplex theatres in Suffolk, Virginia for a total development cost of $19.8 million. On December 22, 2011, the Company acquired all of the shares from the noncontrolling interest. As of December 31, 2011, Suffolk is a wholly-owned subsidiary and is no longer a VIE. The Company's consolidated statements of income include net income related to Suffolk of $645 thousand and $579 thousand, for the years ended December 31, 2011 and 2010, respectively.

11. Long-Term Debt

Long term debt at December 31, 2012 and 2011 consists of the following (in thousands):

	2012	2011
(1) Mortgage notes payable, 4.26%-9.01%, paid in full on August 10, 2012	$ —	$ 106,229
(2) Mortgage notes payable, 6.57%-6.73%, paid in full on August 31, 2012	—	43,045
(3) Mortgage note payable, 6.63%, paid in full on September 26, 2012	—	24,072
(4) Mortgage note payable, 5.50%, paid in full on December 28, 2012	—	4,000
(5) Unsecured revolving variable rate credit facility, LIBOR + 1.60%, due October 13, 2015	39,000	223,000
(6) Mortgage note payable, 6.84%, due March 1, 2014	92,773	95,976
(7) Mortgage note payable, 5.58%, due April 1, 2014	57,078	58,338
(8) Mortgage note payable, 5.56%, due June 5, 2015	31,923	32,568
(9) Mortgage notes payable, 5.77%, due November 6, 2015	67,172	69,143
(10) Mortgage notes payable, 5.84%, due March 6, 2016	37,863	38,931
(11) Mortgage notes payable, 6.37%, due June 30, 2016	27,156	27,854
(12) Mortgage notes payable, 6.10%, due October 1, 2016	24,395	25,027
(13) Mortgage notes payable, 6.02%, due October 6, 2016	18,381	18,862
(14) Term loan payable, LIBOR + 1.75%, fixed through interest rate swaps at 2.66% through January 5, 2016, due January 5, 2017	240,000	—
(15) Mortgage note payable, 6.06%, due March 1, 2017	10,261	10,518
(16) Mortgage note payable, 6.07%, due April 6, 2017	10,565	10,827
(17) Mortgage notes payable, 5.73%-5.95%, due May 1, 2017	48,914	50,132
(18) Mortgage note payable, 5.29%, due July 1, 2017	3,881	4,008
(19) Mortgage notes payable, 5.68% due August 1, 2017	25,053	25,677
(20) Mortgage note payable, 6.19%, due February 1, 2018	15,084	15,643
(21) Mortgage note payable, 7.37%, due July 15, 2018	8,698	9,810
(22) Senior unsecured notes payable, 7.75%, due July 15, 2020	250,000	250,000
(23) Senior unsecured notes payable, 5.75%, due August 15, 2022	350,000	—
(24) Bond payable, variable rate, due October 1, 2037	10,635	10,635
Total	$ 1,368,832	$ 1,154,295

(1) The Company's mortgage notes payable were prepaid in full on August 10, 2012 prior to their maturity dates of February 10, 2013. The notes were secured by thirteen theatre properties and one entertainment retail center. In connection with the payment in full of the mortgage notes, $433 thousand of deferred financing costs (net of accumulated amortization) were written off and $37 thousand of additional costs associated with loan payoff were incurred.

(2) The Company's mortgage notes payable were prepaid in full on August 31, 2012 prior to their maturity dates of October 1, 2012. The notes were secured by two theatre properties. In connection with the payment in full of the mortgage notes, $5 thousand of deferred financing costs (net of accumulated amortization) were written off.

(3) The Company's mortgage note payable was prepaid in full on September 26, 2012 prior to its maturity date of November 1, 2012. The note was secured by one theatre property. In connection with the payment in full of the mortgage note, $2 thousand of deferred financing costs (net of accumulated amortization) were written off.

(4) The Company's mortgage note payable was prepaid in full on December 28, 2012 prior to its maturity date of July 1, 2014. The note was secured by one entertainment retail center. In connection with the payment in full of this mortgage note, $150 thousand of costs associated with loan payoff were incurred.

(5) On October 13, 2011, the Company amended and restated its unsecured revolving credit facility (the facility). The size of the facility increased from $382.5 million to $400.0 million. The facility includes a $100.0 million subline for letters of credit and contains an accordion feature in which the facility can be increased to up to $500.0 million subject to certain conditions, including lender consent. The facility continues to be supported by a borrowing base of assets, and is secured by a pledge of the equity of each entity that holds a borrowing base asset. The facility is priced based on a grid related to the Company's senior unsecured credit ratings, with pricing at closing of LIBOR plus 160 basis points, which was 1.86% at December 31, 2012. The facility has a maturity date of October 13, 2015 with a one year extension available at the Company's option. As of December 31, 2012, $39.0 million was outstanding under the facility and the total availability under the revolving credit facility was $361.0 million.

(6) The Company's mortgage note payable due March 1, 2014 is secured by four entertainment retail centers in Ontario, Canada, which had a net book value of approximately $216.3 million at December 31, 2012. The mortgage note payable is denominated in Canadian dollars (CAD). The note had an initial balance of CAD $128.6 million and the monthly payments are based on a 20 year amortization schedule. The note requires monthly principal and interest payments of approximately CAD $977 thousand with a final principal payment at maturity of approximately CAD $85.6 million. At December 31, 2012 and 2011, the outstanding balance in Canadian dollars was CAD $92.3 million and CAD $97.6 million, respectively.

(7) The Company's mortgage note payable due April 1, 2014 is secured by one entertainment retail center, which had a net book value of approximately $78.9 million at December 31, 2012. The note had an initial balance of $66.0 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately $378 thousand with a final principal payment at maturity of approximately $55.3 million.

(8) The Company's mortgage note payable due June 5, 2015 is secured by one entertainment retail center, which had a net book value of approximately $49.0 million at December 31, 2012. The note had an initial balance of $36.0 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately $206 thousand with a final principal payment at maturity of approximately $30.1 million.

(9) The Company's mortgage notes payable due November 6, 2015 are secured by six theatre properties, which had a net book value of approximately $78.5 million at December 31, 2012. The notes had initial balances totaling $79.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal

and interest payments totaling approximately $498 thousand with a final principal payment at maturity totaling approximately $60.7 million.

(10) The Company's mortgage notes payable due March 6, 2016 are secured by two theatre properties, which had a net book value of approximately $33.2 million at December 31, 2012. The notes had initial balances totaling $44.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments totaling approximately $279 thousand with a final principal payment at maturity totaling approximately $33.9 million.

(11) The Company's mortgage notes payable due June 30, 2016 are secured by two theatre properties, which had a net book value of approximately $32.5 million at December 31, 2012. The notes had initial balances totaling $31.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments totaling approximately $207 thousand with a final principal payment at maturity totaling approximately $24.4 million.

(12) The Company's mortgage notes payable due October 1, 2016 are secured by four theatre properties, which had a net book value of approximately $27.5 million at December 31, 2012. The notes had initial balances totaling $27.8 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments totaling approximately $180 thousand with a final principal payment at maturity totaling approximately $21.6 million.

(13) The Company's mortgage notes payable due October 6, 2016 are secured by three theatre properties, which had a net book value of approximately $19.7 million at December 31, 2012. The notes had initial balances totaling $20.9 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments totaling approximately $135 thousand with a final principal payment at maturity totaling approximately $16.2 million.

(14) The Company's unsecured term loan payable is due January 5, 2017. The facility is priced based on a grid related to the Company's senior unsecured credit ratings, with pricing at closing of LIBOR plus 175 basis points, which was 1.96% at December 31, 2012. The Company also entered into interest rate swaps that effectively mitigate the Company's risk to variable interest rates and provide a fixed interest stream (when cash flows from the debt and interest rate swaps are combined) at 2.66% for four years. The term loan contains an "accordion" feature allowing it to be increased by up to an additional $110.0 million upon satisfaction of certain conditions. The term loan had an initial balance of $240.0 million and requires monthly interest only payments.

(15) The Company's mortgage note payable due March 1, 2017 is secured by one theatre property, which had a net book value of approximately $10.5 million at December 31, 2012. The note had an initial balance of $11.6 million and the monthly payments are based on a 25 year amortization schedule. The note requires monthly principal and interest payments of approximately $75 thousand with a final principal payment at maturity of approximately $9.0 million.

(16) The Company's mortgage note payable due April 6, 2017 is secured by one theatre property, which had a net book value of approximately $9.3 million at December 31, 2012. The note had an initial balance of $11.9 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately $77 thousand with a final principal payment at maturity of approximately $9.2 million.

(17) The Company's mortgage notes payable due May 1, 2017 are secured by five theatre properties, which had a net book value of approximately $42.2 million at December 31, 2012. The notes had initial balances totaling $55.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments totaling approximately $348 thousand with a final principal payment at maturity totaling approximately $42.4 million. The weighted average interest rate on these notes is 5.81%.

(18) On March 3, 2011, the Company assumed a mortgage note payable of $3.8 million in conjunction with the acquisition of a theatre property. The note was recorded at fair value upon acquisition which was estimated to be $4.1 million. The fair value of the note was determined by discounting the future cash flows of the note using an estimated current market rate of 5.29%. The note is due July 1, 2017 and is secured by one theatre property, which had a net book value of approximately $8.5 million at December 31, 2012. The monthly payments are based on a 25 year amortization schedule and the note requires monthly principal and interest payments of approximately $28 thousand with a final principal payment at maturity of approximately $3.2 million.

(19) The Company's mortgage notes payable due August 1, 2017 are secured by two theatre properties, which had a net book value of approximately $23.3 million at December 31, 2012. The notes had initial balances totaling $28.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments totaling approximately $178 thousand with a final principal payment at maturity totaling approximately $21.7 million.

(20) The Company's mortgage note payable due February 1, 2018 is secured by one theatre property which had a net book value of approximately $20.4 million at December 31, 2012. The mortgage loan had an initial balance of $17.5 million and the monthly payments are based on a 20 year amortization schedule. The note requires monthly principal and interest payments of approximately $127 thousand with a final principal payment at maturity of approximately $11.6 million.

(21) The Company's mortgage note payable due July 15, 2018 is secured by one theatre property, which had a net book value of approximately $18.4 million at December 31, 2012. The note had an initial balance of $18.9 million and the monthly payments are based on a 20 year amortization schedule. The notes require monthly principal and interest payments of approximately $151 thousand with a final principal payment at maturity of approximately $843 thousand.

(22) On June 30, 2010, the Company issued $250.0 million in senior unsecured notes due on July 15, 2020. The notes bear interest at 7.75%. Interest is payable on July 15 and January 15 of each year beginning on January 15, 2011 until the stated maturity date of July 15, 2020. The notes were issued at 98.29% of their principal amount and are guaranteed by certain of the Company's subsidiaries. The notes contain various covenants, including: (i) a limitation on incurrence of any debt which would cause the ratio of the Company's debt to adjusted total assets to exceed 60%; (ii) a limitation on incurrence of any secured debt which would cause the ratio of the Company's secured debt to adjusted total assets to exceed 40%; (iii) a limitation on incurrence of any debt which would cause the Company's debt service coverage ratio to be less than 1.5 times; and (iv) the maintenance at all times of total unencumbered assets not less than 150% of the Company's outstanding unsecured debt.

(23) On August 8, 2012, the Company issued $350.0 million in senior unsecured notes due on August 15, 2022. The notes bear interest at 5.75%. Interest is payable on February 15 and August 15 of each year beginning on February 15, 2013 until the stated maturity date of August 15, 2022. The notes were issued at 99.998% of their principal amount and are guaranteed by certain of the Company's subsidiaries. The notes contain various covenants, including: (i) a limitation on incurrence of any debt which would cause the ratio of the Company's debt to adjusted total assets to exceed 60%; (ii) a limitation on incurrence of any secured debt which would cause the ratio of the Company's secured debt to adjusted total assets to exceed 40%; (iii) a limitation on incurrence of any debt which would cause the Company's debt service coverage ratio to be less than 1.5 times; and (iv) the maintenance at all times of total unencumbered assets not less than 150% of the Company's outstanding unsecured debt.

(24) The Company's bond payable due October 1, 2037 is secured by one theatre, which had a net book value of approximately $9.8 million at December 31, 2012, and bears interest at a variable rate which resets on a weekly basis and was 0.15% at December 31, 2012. The bond requires monthly interest only payments with principal due at maturity.

Certain of the Company's long-term debt agreements contain customary restrictive covenants related to financial and operating performance as well as certain cross-default provisions. The Company was in compliance with all financial

covenants at December 31, 2012.

Principal payments due on long-term debt obligations subsequent to December 31, 2012 (without consideration of any extensions) are as follows (in thousands):

	Amount
Year:	
2013	$ 17,439
2014	153,817
2015	140,931
2016	103,377
2017	329,252
Thereafter	624,016
Total	$ 1,368,832

The Company capitalizes a portion of interest costs as a component of property under development. The following is a summary of interest expense, net for the years ended December 31, 2012, 2011 and 2010 (in thousands):

	2012	2011	2010
Interest on loans and capital lease obligation	$ 71,849	$ 67,265	$ 72,758
Less: interest expense of discontinued operations	—	(219)	(7,265)
Amortization of deferred financing costs	4,218	3,807	4,809
Less: amortization of deferred financing costs of discontinued operations	—	—	(401)
Credit facility and letter of credit fees	1,515	1,159	853
Interest cost capitalized	(859)	(498)	(383)
Interest income	(79)	(70)	(37)
Less: interest income of discontinued operations	12	37	—
Interest expense, net	$ 76,656	$ 71,481	$ 70,334

12. Variable Interest Entities

The Company's variable interest in VIEs currently are in the form of equity ownership and loans provided by the Company to a VIE or other partner. The Company examines specific criteria and uses its judgment when determining if the Company is the primary beneficiary of a VIE. Factors considered in determining whether the Company is the primary beneficiary include risk and reward sharing, experience and financial condition of other partner(s), voting rights, involvement in day-to-day capital and operating decisions, representation on a VIE's executive committee, existence of unilateral kick-out rights or voting rights, and level of economic disproportionality between the Company and the other partner(s).

Consolidated VIEs

As of December 31, 2012, the Company has invested in one 50% joint venture which is a VIE. This joint venture does not have any significant assets and liabilities at December 31, 2012 and was established to explore certain investment opportunities.

Unconsolidated VIE

At December 31, 2012, the Company's recorded investment in SVVI, a VIE that is unconsolidated, was $178.5 million. The Company's maximum exposure to loss associated with SVVI is limited to the Company's outstanding mortgage note and related accrued interest receivable of $178.5 million because there are no commitments to fund above this amount. For further discussion of this mortgage note, see Note 6.

While this entity is a VIE, the Company has determined that the power to direct the activities of the VIE that most significantly impact the VIE's economic performance is not held by the Company. The Company does not have the power to direct these activities. Additionally, the Company does not have the right to receive benefits (beyond its interest payments per the note agreement) and does not have the obligation to absorb losses of SVVI, as its equity at risk is limited to the amount invested in the note.

13. Derivative Instruments

Risk Management Objective of Using Derivatives

The Company is exposed to the effect of changes in foreign currency exchange rates and interest rates on its LIBOR based borrowings. The Company limits this risk by following established risk management policies and procedures including the use of derivatives. The Company's objective in using derivatives is to add stability to reported earnings and to manage its exposure to foreign exchange and interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps, cross currency swaps and foreign currency forwards.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements on its LIBOR based borrowings. To accomplish this objective, the Company currently uses interest rate swaps as its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

During the year ended December 31, 2010, the Company terminated three of its interest rate swap agreements in connection with the payoff of the related debt. These interest rate swaps had a combined outstanding notional amount of $118.6 million at termination and $8.7 million was reclassified into earnings as an expense during the year ended December 31, 2010, as the forecasted future transactions were no longer probable. On February 7, 2011, the Company terminated six of its interest rate swap agreements as the related loan agreements were paid in full. These interest rate swaps had a combined notional amount of $87.7 million at termination and $4.6 million was reclassified into earnings as an expense during the year ended December 31, 2011, as the forecasted future transactions were no longer probable.

On January 5, 2012 the Company entered into three interest rate swap agreements to fix the interest rate on a $240.0 million term loan that closed on the same day. These agreements have a combined outstanding notional amount of $240.0 million, a termination date of January 5, 2016 and a fixed rate of 2.66%.

The effective portion of changes in the fair value of interest rate derivatives designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive income (AOCI) and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During the years ending December 31, 2012, 2011 and 2010, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. No hedge ineffectiveness on cash flow hedges was recognized during the years ending December 31, 2012, 2011 and 2010.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. As of December 31, 2012, the Company estimates that during the twelve months ending December 31, 2013, $1.7 million will be reclassified from AOCI to interest expense.

Cash Flow Hedges of Foreign Exchange Risk

The Company is exposed to foreign currency exchange risk against its functional currency, the U.S. dollar, on its four Canadian properties. The Company uses cross currency swaps and foreign currency forwards to mitigate its exposure to fluctuations in the CAD to U.S. dollar exchange rate on its Canadian properties. These foreign currency derivatives

should hedge a significant portion of the Company's expected CAD denominated cash flow of the Canadian properties through February 2014 as their impact on the Company's cash flow when settled should move in the opposite direction of the exchange rates utilized to translate revenues and expenses of these properties.

At December 31, 2012, the Company's cross-currency swaps had a fixed original notional value of $76.0 million CAD and $71.5 million U.S. The net effect of these swaps is to lock in an exchange rate of $1.05 CAD per U.S. dollar on approximately $13 million of annual CAD denominated cash flows on the properties through February 2014.

The Company entered into foreign currency forward agreements to further hedge the currency fluctuations related to the cash flows of these properties. These foreign currency forwards settled at the end of each month from April to December 2011 and locked in an exchange rate of $0.99 CAD per U.S. dollar on $500 thousand of monthly CAD denominated cash flows. In February 2012, the Company entered into foreign currency forward agreements that settle at the end of each month from February to December 2012 and lock in an exchange rate of $1.00 CAD per U.S. dollar on $500 thousand of monthly CAD denominated cash flows. Additionally, on October 11, 2012, the Company entered into foreign currency forward agreements which settle at the end of each month from January to December 2013. These agreements lock in an exchange rate of $0.98 CAD to $0.99 CAD per U.S. dollar on $500 thousand of monthly CAD denominated cash flows.

The effective portion of changes in the fair value of foreign currency derivatives designated and that qualify as cash flow hedges of foreign exchange risk is recorded in accumulated other comprehensive income and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivative, as well as amounts excluded from the assessment of hedge effectiveness, is recognized directly in earnings. No hedge ineffectiveness on foreign currency derivatives has been recognized for the years ended December 31, 2012, 2011 and 2010. As of December 31, 2012, the Company estimates that during the twelve months ending December 31, 2013, $0.5 million will be reclassified from accumulated other comprehensive income to other expense.

Net Investment Hedges

As discussed above, the Company is exposed to fluctuations in foreign exchange rates on its four Canadian properties. As such, the Company uses currency forward agreements to hedge its exposure to changes in foreign exchange rates. Currency forward agreements involve fixing the CAD to U.S. dollar exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward agreements are typically cash settled in US dollars for their fair value at or close to their settlement date. In order to hedge the net investment in four of the Canadian properties, the Company entered into a forward contract with a fixed notional value of $100.0 million CAD and $96.1 million U.S. with a February 2014 settlement which coincides with the maturity of the Company's underlying mortgage on these four properties. The exchange rate of this forward contract is approximately $1.04 CAD per U.S. dollar. This forward contract should hedge a significant portion of the Company's CAD denominated net investment in these four centers through February 2014 as the impact on accumulated other comprehensive income from marking the derivative to market should move in the opposite direction of the translation adjustment on the net assets of these four Canadian properties.

In addition, on February 3, 2011, in order to hedge the foreign currency exposure related to the proceeds from the March 29, 2011 sale of a Canadian property, the Company entered into a forward contract to sell $200.0 million CAD for $201.5 million U.S. dollars. The contract settled in conjunction with the sale of the property on March 29, 2011 and the $4.3 million loss related to the settlement was recognized with the gain on sale of the property.

For foreign currency derivatives designated as net investment hedges, the effective portion of changes in the fair value of the derivatives are reported in accumulated other comprehensive income as part of the cumulative translation adjustment. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. No hedge ineffectiveness on net investment hedges has been recognized for the years ended December 31, 2012, 2011 and 2010. Amounts are reclassified out of accumulated other comprehensive income into earnings when the hedged net

investment is either sold or substantially liquidated.

See Note 14 for disclosure relating to the fair value of the Company's derivative instruments. Below is a summary of the effect of derivative instruments on the consolidated statements of changes in equity and income for the years ended December 31, 2012, 2011 and 2010:

Effect of Derivative Instruments on the Consolidated Statements of Changes in Equity and Income for the Years Ended December 31, 2012, 2011 and 2010
(Dollars in thousands)

Description	Year Ended December 31,		
	2012	2011	2010
Interest Rate Swaps			
Amount of Loss Recognized in AOCI on Derivative (Effective Portion)	$ (5,462)	$ (4,125)	$ (17,129)
Amount of Expense Reclassified from AOCI into Earnings (Effective Portion) (1)	(1,613)	(4,722)	(13,567)
Amount of Gain (Loss) Recognized in Earnings on Derivative (Ineffective Portion)	—	—	—
Cross Currency Swaps			
Amount of Loss Recognized in AOCI on Derivative (Effective Portion)	(684)	(12)	(1,761)

Amount of Loss Recognized in AOCI on Derivative (Effective Portion)	$ (8,224)	$ (8,184)	$ (21,647)
Amount of Expense Reclassified from AOCI into Earnings (Effective Portion)	(2,251)	(9,804)	(13,783)
Amount of Gain (Loss) Recognized in Earnings on Derivative (Ineffective Portion)	—	—	—

(1) For the year ended December 31, 2012, included in "Interest expense, net" in accompanying consolidated statements of income. For the year ended December 31, 2011, $4.6 million included in "Costs associated with loan refinancing or payoff, net" and $137 thousand included in "Interest expense, net" in accompanying consolidated statements of income. For the year ended December 31, 2010, $8.7 million included in "Costs associated with loan refinancing or payoff, net" and $4.9 million included in "Interest expense, net" in the accompanying consolidated statements of income.

(2) Included in "Other expense" in the accompanying consolidated statements of income.

(3) For the years ended December 31, 2012 and 2010, included in "Other expense". For the year ended December 31, 2011, $4.3 million included in "Gain (loss) on sale or acquisition of real estate" and $37 thousand included

in "Other expense" in the accompanying consolidated statements of income.

Credit-risk-related Contingent Features

The Company has agreements with each of its interest rate derivative counterparties that contain a provision where if the Company defaults on any of its obligations for borrowed money or credit in an amount exceeding $25.0 million and such default is not waived or cured within a specified period of time, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its interest rate derivative obligations.

As of December 31, 2012, the fair value of the Company's derivatives in a liability position related to these agreements was $8.0 million. If the Company breached any of the contractual provisions of the derivative contracts, it would be required to settle its obligations under the agreements at their termination value of $8.1 million.

14. Fair Value Disclosures

The Company's has certain financial instruments that are required to be measured under the FASB's Fair Value Measurements and Disclosures guidance. The Company currently does not have any non-financial assets and non-financial liabilities that are required to be measured at fair value on a recurring basis.

As a basis for considering market participant assumptions in fair value measurements, the FASB's Fair Value Measurements and Disclosures guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy). Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Derivative Financial Instruments

The Company uses interest rate swaps, foreign currency forwards and cross currency swaps to manage its interest rate and foreign currency risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves, foreign exchange rates, and implied volatilities. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees. In conjunction with the FASB's fair value measurement guidance, the Company made an accounting policy election to measure the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio.

EPR PROPERTIES
Notes to Consolidated Financial Statements
December 31, 2012, 2011 and 2010

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives also utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by itself and its counterparties. As of December 31, 2012, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives and therefore, has classified its derivatives as Level 2 within the fair value reporting hierarchy.

The table below presents the Company's assets and liabilities measured at fair value on a recurring basis as of December 31, 2012 and 2011, aggregated by the level in the fair value hierarchy within which those measurements are classified and by derivative type.

Assets and Liabilities Measured at Fair Value on a Recurring Basis at December 31, 2012 and 2011
(Dollars in thousands)

Description	Quoted Prices in Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31,

Long-term debt	$ —	$ 4,109	$ —	$ 4,109

As further discussed in Note 4, during the year ended December 31, 2012, the Company recorded impairment charges of $23.9 million relating to adjustments to the carrying value of several of the Company's winery and vineyard properties. The adjustment is the amount that the carrying value of the assets exceeds the estimated fair market value. Management estimated the fair values of these properties taking into account various factors, including various purchase offers, pending purchase agreements, input from an outside broker, the shortened holding period, current market conditions as well as appraisals. For $65.1 million of the rental properties, net and $2.8 million of the rental properties held for sale, net, the Company determined, based on the inputs, that its valuation of the investment was classified within Level 2 of the fair value hierarchy. For $3.3 million of the rental properties, net, the Company determined, based on the inputs, that its valuation of the investment was classified within Level 3 of the fair value hierarchy.

As further discussed in Note 4, during the year ended December 31, 2011, the Company recorded impairment charges of $36.1 million relating to adjustments to the carrying value of several of the Company's winery and vineyard properties. The adjustment is the amount that the carrying value of the assets exceeds the estimated fair market value. Management estimated the fair values of these properties taking into account various factors, including the shortened holding period, current market conditions as well as appraisals. Based on these inputs, the Company determined that its valuation of the investment was classified within Level 3 of the fair value hierarchy.

On March 3, 2011, the Company assumed a mortgage note payable of $3.8 million in conjunction with the acquisition of a theatre property. The note was recorded at fair value upon acquisition which was estimated to be $4.1 million. The fair value of the note was determined by discounting the future cash flows of the note using an estimated current market rate of 5.29%. Based on this input, the Company determined that its valuation of this note was classified within Level 2 of the fair value hierarchy.

Fair Value of Financial Instruments

Management compares the carrying value and the estimated fair value of the Company's financial instruments. The following methods and assumptions were used by the Company to estimate the fair value of each class of financial instruments at December 31, 2012:

Mortgage notes receivable and related accrued interest receivable:

The fair value of the Company's mortgage notes and related accrued interest receivable is estimated by discounting the future cash flows of each instrument using current market rates. At December 31, 2012, the Company had a carrying value of $455.8 million in fixed rate mortgage notes receivable outstanding, including related accrued interest, with a weighted average interest rate of approximately 8.96%. The fixed rate mortgage notes bear interest at rates of 7.00% to 11.31%. Discounting the future cash flows for fixed rate mortgage notes receivable using rates of 9.00% to 11.31%, management estimates the fair value of the fixed rate mortgage notes receivable to be $431.2 million with an estimated weighted average market rate of 10.07% at December 31, 2012.

At December 31, 2011, the Company had a carrying value of $325.1 million in fixed rate mortgage notes receivable outstanding, including related accrued interest, with a weighted average interest rate of approximately 8.48%. The fixed rate mortgage notes bear interest at rates of 7.00% to 10.46%. Discounting the future cash flows for fixed rate mortgage notes receivable using rates of 9.68% to 10.46%, management estimates the fair value of the fixed rate mortgage notes receivable to be approximately $298.9 million with an estimated weighted average market rate of 10.04% at December 31, 2011.

Investment in a direct financing lease, net:

The fair value of the Company's investment in a direct financing lease as of December 31, 2012 and 2011 is estimated by discounting the future cash flows of the instrument using current market rates. At December 31, 2012 and 2011, the Company had an investment in a direct financing lease with a carrying value of $234.1 million and $233.6 million, respectively, and weighted average effective interest rate of 12.02% for both periods. The investment in direct financing lease bears interest at effective interest rates of 11.93% to 12.38%. The carrying value of the investment in a direct financing lease approximates the fair market value at December 31, 2012 and

2011.

Derivative instruments:
Derivative instruments are carried at their fair market value.

Debt instruments:
The fair value of the Company's debt as of December 31, 2012 and 2011 is estimated by discounting the future cash flows of each instrument using current market rates. At December 31, 2012, the Company had a carrying value of $289.6 million in variable rate debt outstanding with an average weighted interest rate of approximately 1.88%. The carrying value of the variable rate debt outstanding approximates the fair market value at December 31, 2012. As described in Note 11, $240.0 million of variable rate debt outstanding at December 31, 2012 under our unsecured term loan facility has been effectively converted to a fixed rate through January 5, 2016 by interest rate swap agreements.

At December 31, 2011, the Company had a carrying value of $233.6 million in variable rate debt outstanding with an average weighted interest rate of approximately 1.94%. The carrying value of the variable rate debt outstanding approximates the fair market value at December 31, 2011.

At December 31, 2012, the Company had a carrying value of $1.08 billion in fixed rate long-term debt outstanding with an average weighted interest rate of approximately 6.35%. Discounting the future cash flows for fixed rate debt using rates of 3.41% to 5.17%, management estimates the fair value of the fixed rate debt to be approximately $1.17 billion with an estimated weighted average market rate of 4.46% at December 31, 2012.

At December 31, 2011, the Company had a carrying value of $920.7 million in fixed rate long-term debt outstanding with an average weighted interest rate of approximately 6.55%. Discounting the future cash flows for fixed rate debt using rates of 4.64% to 7.00%, management estimates the fair value of the fixed rate debt to be approximately $950.0 million with an estimated market rate of 5.53% at December 31, 2011.

15. Common and Preferred Shares

Common Shares
The Board of Trustees declared cash dividends totaling $3.00 and $2.80 per common share for the years ended December 31, 2012 and 2011, respectively.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and long-term capital gain for cash dividends paid per common share for the years ended December 31, 2012 and 2011 are as follows:

	2012	2011
Taxable ordinary income	$ 1.8277	$ 1.9932
Return of capital	1.1223	0.7568
Long-term capital gain	—	—
Unrecaptured Sec. 1250 Gain	—	—
Totals	$ 2.9500	$ 2.7500

Series B Preferred Shares
On August 31, 2011, the Company completed the redemption of all 3.2 million outstanding 7.75% Series B cumulative redeemable preferred shares (Series B preferred shares). The shares were redeemed at a redemption price of $25.32 per share. This price is the sum of the $25.00 per share liquidation preference and a quarterly dividend per share of

$0.484375 prorated through the redemption date. In conjunction with the redemption, the Company recognized a charge representing the original issuance costs that were paid in 2005 and other redemption related expenses. The Series B preferred share redemption costs, which reduced net income available to common shareholders for the year ended December 31, 2011, were $2.8 million.

The total amount of cash dividends paid per Series B preferred share of $1.7760 for the year ended December 31, 2011 were characterized as taxable ordinary income.

Series C Convertible Preferred Shares

On December 22, 2006, the Company issued 5.4 million 5.75% Series C cumulative convertible preferred shares (Series C preferred shares) in a registered public offering for net proceeds of approximately $130.8 million, after underwriting discounts and expenses. The Company will pay cumulative dividends on the Series C preferred shares from the date of original issuance in the amount of $1.4375 per share each year, which is equivalent to 5.75% of the $25 liquidation preference per share. Dividends on the Series C preferred shares are payable quarterly in arrears. The Company does not have the right to redeem the Series C preferred shares except in limited circumstances to preserve the Company's REIT status. The Series C preferred shares have no stated maturity and will not be subject to any sinking fund or mandatory redemption. As of December 31, 2012, the Series C preferred shares are convertible, at the holder's option, into the Company's common shares at a conversion rate of 0.3590 common shares per Series C preferred share, which is equivalent to a conversion price of $69.64 per common share. This conversion ratio may increase over time upon certain specified triggering events including if the Company's common dividend per share exceeds a quarterly threshold of $0.6875.

Upon the occurrence of certain fundamental changes, the Company will under certain circumstances increase the conversion rate by a number of additional common shares or, in lieu thereof, may in certain circumstances elect to adjust the conversion rate upon the Series C preferred shares becoming convertible into shares of the public acquiring or surviving company.

On or after January 15, 2012, the Company may, at its option, cause the Series C preferred shares to be automatically converted into that number of common shares that are issuable at the then prevailing conversion rate. The Company may exercise its conversion right only if, at certain times, the closing price of the Company's common shares equals or exceeds 135% of the then prevailing conversion price of the Series C preferred shares.

Owners of the Series C preferred shares generally have no voting rights, except under certain dividend defaults. Upon conversion, the Company may choose to deliver the conversion value to the owners in cash, common shares, or a combination of cash and common shares.

The Board of Trustees declared cash dividends totaling $1.4375 per Series C preferred share for each of the years ended December 31, 2012 and 2011, respectively. The total amount of cash dividends paid per Series C preferred share of $1.4375 for the years ended December 31, 2012 and 2011 were characterized as taxable ordinary income.

Series D Preferred Shares

On November 5, 2012, the Company completed the redemption of all of its 4.6 million outstanding 7.375% Series D cumulative redeemable preferred shares (Series D preferred shares). The shares were redeemed at a redemption price of $25.18 per share. This price is the sum of the $25.00 per share liquidation preference and a quarterly dividend per share of $0.4609375 prorated through the redemption date. In conjunction with the redemption, the Company recognized a charge representing the original issuance costs and other redemption related expenses. The Series D preferred share redemption costs, which reduced net income available to common shareholders for the year ended December 31, 2012, were $3.9 million.

The Board of Trustees declared cash dividends totaling $1.5628 and $1.8438 per Series D preferred share for the years ended December 31, 2012 and 2011, respectively. The total amount of cash dividends paid per Series D preferred share

of $2.0238 and $1.8438 for the years ended December 31, 2012 and 2011 were characterized as taxable ordinary income.

Series E Convertible Preferred Shares
On April 2, 2008, the Company issued 3.5 million 9.00% Series E cumulative convertible preferred shares (Series E preferred shares) in a registered public offering for net proceeds of approximately $83.4 million, after underwriting discounts and expenses. The Company will pay cumulative dividends on the Series E preferred shares from the date of original issuance in the amount of $2.25 per share each year, which is equivalent to 9.00% of the $25 liquidation preference per share. Dividends on the Series E preferred shares are payable quarterly in arrears. The Company does not have the right to redeem the Series E preferred shares except in limited circumstances to preserve the Company's REIT status. The Series E preferred shares have no stated maturity and will not be subject to any sinking fund or mandatory redemption. As of December 31, 2012, the Series E preferred shares are convertible, at the holder's option, into the Company's common shares at a conversion rate of 0.4512 common shares per Series E preferred share, which is equivalent to a conversion price of $55.41 per common share. This conversion ratio may increase over time upon certain specified triggering events including if the Company's common dividend per share exceeds a quarterly threshold of $0.84.

Upon the occurrence of certain fundamental changes, the Company will under certain circumstances increase the conversion rate by a number of additional common shares or, in lieu thereof, may in certain circumstances elect to adjust the conversion rate upon the Series E preferred shares becoming convertible into shares of the public acquiring or surviving company.

On or after April 20, 2013, the Company may, at its option, cause the Series E preferred shares to be automatically converted into that number of common shares that are issuable at the then prevailing conversion rate. The Company may exercise its conversion right only if, at certain times, the closing price of the Company's common shares equals or exceeds 150% of the then prevailing conversion price of the Series E preferred shares.

Owners of the Series E preferred shares generally have no voting rights, except under certain dividend defaults. Upon conversion, the Company may choose to deliver the conversion value to the owners in cash, common shares, or a combination of cash and common shares.

The Board of Trustees declared cash dividends totaling $2.25 per Series E preferred share for the years ended December 31, 2012 and 2011. The total amount of cash dividends paid per Series E preferred share of $2.25 for each of the years ended December 31, 2012 and 2011 were characterized as taxable ordinary income.

Series F Preferred Shares
On October 12, 2012, the Company issued 5.0 million shares of 6.625% Series F cumulative redeemable preferred shares (Series F preferred shares) in a registered public offering for net proceeds of approximately $120.6 million, after underwriting discounts and expenses. The Company will pay cumulative dividends on the Series F preferred shares from the date of original issuance in the amount of $1.65625 per share each year, which is equivalent to 6.625% of the $25.00 liquidation preference per share. Dividends on the Series F preferred shares are payable quarterly in arrears. The Company may not redeem the Series F preferred shares before October 12, 2017, except in limited circumstances to preserve the Company's REIT status or in connection with a change of control. On or after October 12, 2017, the Company may, at its option, redeem the Series F preferred shares in whole at any time or in part from time to time by paying $25.00 per share, plus any accrued and unpaid dividends up to and including the date of redemption. The Series F preferred shares have no stated maturity and will not be subject to any sinking fund or mandatory redemption. The Series F preferred shares are not convertible into any of the Company's securities, except under certain circumstances in connection with a change of control. Owners of the Series F preferred shares generally have no voting rights except under certain dividend defaults.

The Board of Trustees declared cash dividends totaling $0.42787 per Series F preferred share for the year ended December 31, 2012 that were paid on January 15, 2013.

16. Earnings Per Share

The following table summarizes the Company's computation of basic and diluted earnings per share (EPS) for the years ended December 31, 2012, 2011 and 2010 (amounts in thousands except per share information):

	Year Ended December 31, 2012		
	Income (numerator)	Shares (denominator)	Per Share Amount
Basic EPS:			
Income from continuing operations	$ 133,866		
Less: preferred dividend requirements and redemption costs	(28,396)		
Noncontrolling interest adjustments	(108)		
Income from continuing operations available to common shareholders	$ 105,362	46,798	$ 2.25
Loss from discontinued operations available to common shareholders	$ (12,202)	46,798	$ (0.26)
Net income available to common shareholders	$ 93,160	46,798	$ 1.99
Diluted EPS:			
Income from continuing operations available to common shareholders	$ 105,362	46,798	
Effect of dilutive securities:			
Share options	—	251	
Income from continuing operations available to common shareholders	$ 105,362	47,049	$ 2.24
Loss from discontinued operations available to common shareholders	$ (12,202)	47,049	$ (0.26)
Net income available to common shareholders	$ 93,160	47,049	$ 1.98

	Year Ended December 31, 2011		
	Income (numerator)	Shares (denominator)	Per Share Amount
Basic EPS:			
Income from continuing operations	$ 113,442		
Less: preferred dividend requirements and redemption costs	(30,909)		
Noncontrolling interest adjustments	(38)		
Income from continuing operations available to common shareholders	$ 82,495	46,640	$ 1.77
Income from discontinued operations available to common shareholders	$ 1,824	46,640	$ 0.04
Net income available to common shareholders	$ 84,319	46,640	$ 1.81
Diluted EPS:			
Income from continuing operations available to common shareholders	$ 82,495	46,640	
Effect of dilutive securities:			
Share options	—	261	
Income from continuing operations available to common shareholders	$ 82,495	46,901	$ 1.76
Income from discontinued operations available to common shareholders	$ 1,824	46,901	$ 0.04
Net income available to common shareholders	$ 84,319	46,901	$ 1.80

	Year Ended December 31, 2010		
	Income (numerator)	Shares (denominator)	Per Share Amount
Basic EPS:			
Income from continuing operations	$ 116,465		
Less: preferred dividend requirements	(30,206)		
Noncontrolling interest adjustments	(86)		
Income from continuing operations available to common shareholders	$ 86,173	45,206	$ 1.90
Loss from discontinued operations	$ (3,410)		
Noncontrolling interest adjustments	1,905		
Loss from discontinued operations available to common shareholders	$ (1,505)	45,206	$ (0.03)
Net income available to common shareholders	$ 84,668	45,206	$ 1.87
Diluted EPS:			
Income from continuing operations available to common shareholders	$ 86,173	45,206	
Effect of dilutive securities:			
Share options	—	349	
Income from continuing operations available to common shareholders	$ 86,173	45,555	$ 1.89
Loss from discontinued operations available to common shareholders	$ (1,505)	45,555	$ (0.03)
Net income available to common shareholders	$ 84,668	45,555	$ 1.86

The additional 1.9 million common shares that would result from the conversion of the Company's Series C preferred shares and the additional 1.6 million common shares that would result from the conversion of the Company's Series E preferred shares and the corresponding add-back of the preferred dividends declared on those shares are not included in the calculation of diluted earnings per share for the years ended December 31, 2012, 2011 and 2010 because the effect is anti-dilutive.

The dilutive effect of potential common shares from the exercise of share options is included in diluted earnings per share for the years ended December 31, 2012, 2011 and 2010. However, options to purchase 368 thousand, 265 thousand and 262 thousand shares of common shares at per share prices ranging from $44.62 to $65.50, $44.98 to $65.50 and $42.46 to $65.50, were outstanding at the end of 2012, 2011 and 2010, respectively, but were not included in the computation of diluted earnings per share because they were anti-dilutive.

17. Equity Incentive Plan

Grants of common shares and options to purchase common shares are issued under the 2007 Equity Incentive Plan. Under the 2007 Equity Incentive Plan, an aggregate of 1,950,000 common shares, options to purchase common shares and restricted share units, subject to adjustment in the event of certain capital events, may be granted. At December 31, 2012, there were 411,862 shares available for grant under the 2007 Equity Incentive Plan.

Share Options

Share options granted under the 2007 Equity Incentive Plan have exercise prices equal to the fair market value of a common share at the date of grant. The options may be granted for any reasonable term, not to exceed 10 years, and for employees typically become exercisable at a rate of 25% per year over a four-year period. For non-employee Trustees, share options are vested upon issuance, however, the share options may not be exercised for a one year period subsequent to the grant date. The Company generally issues new common shares upon option exercise. A summary of the Company's share option activity and related information is as follows:

	Number of shares		Option price per share					Weighted avg. exercise price
Outstanding at December 31, 2009	1,208,288	$	14.00	—	$	65.50	$	30.27
Exercised	(168,743)		14.00	—		42.46		20.91
Granted	39,438		36.56	—		44.98		38.23
Forfeited	(7,887)		18.18	—		60.03		34.70
Outstanding at December 31, 2010	1,071,096	$	16.05	—	$	65.50	$	32.00
Exercised	(135,196)		18.18	—		42.46		21.96
Granted	70,266		45.73	—		47.77		46.19
Forfeited	(3,333)		16.05			16.05		16.05
Outstanding at December 31, 2011	1,002,833	$	18.18	—	$	65.50	$	34.41
Exercised	(224,181)		18.18	—		36.56		23.42
Granted	103,082		44.62	—		47.99		45.60
Forfeited	(396)		18.18	—		46.69		40.03
Outstanding at December 31, 2012	881,338	$	18.18	—	$	65.50	$	38.51

The weighted average fair value of options granted was $12.08, $9.29 and $7.27 during 2012, 2011 and 2010, respectively. The intrinsic value of stock options exercised was $5.1 million, $2.9 million, and $3.5 million during the years ended December 31, 2012, 2011 and 2010, respectively.

The expense related to share options included in the determination of net income for the years ended December 31, 2012, 2011 and 2010 was $937 thousand, $777 thousand and $674 thousand, respectively. The following assumptions were used in applying the Black-Scholes option pricing model at the grant dates: risk-free interest rate of 1.1% to 1.4%, 2.5% to 3.1% and 2.6% to 3.1% in 2012, 2011 and 2010, respectively, dividend yield of 6.3% to 6.7%, 6.4% and 6.5% to 6.6% in 2012, 2011 and 2010, respectively, volatility factors in the expected market price of the Company's common shares of 51.3% to 51.4%, 39.8%, 39.5% to 39.6% in 2012, 2011 and 2010, respectively, 0.25% expected forfeiture rate for 2012 and no expected forfeitures for 2011 and 2010, and an expected life of approximately six years for 2012 and approximately eight years for 2011 and 2010. The Company uses historical data to estimate the expected life of the option and the risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant. Additionally, expected volatility is computed based on the average historical volatility of the Company's publicly traded shares.

At December 31, 2012, stock-option expense to be recognized in future periods was $1.2 million as follows (in thousands):

		Amount
Year:		
2013	$	499
2014		463
2015		234
2016		18
Total	$	1,214

The following table summarizes outstanding options at December 31, 2012:

Exercise price range	Options outstanding	Weighted avg. life remaining	Weighted avg. exercise price	Aggregate intrinsic value (in thousands)
$ 18.18 - 19.99	258,235	6.1		
20.00 - 29.99	3,333	0.4		
30.00 - 39.99	93,499	3.0		
40.00 - 49.99	412,918	5.8		
50.00 - 59.99	10,000	5.3		
60.00 - 65.50	103,353	4.1		
	881,338	5.4	$ 38.51	$ 8,772

The following table summarizes exercisable options at December 31, 2012:

Exercise price range	Options outstanding	Weighted avg. life remaining	Weighted avg. exercise price	Aggregate intrinsic value (in thousands)
$ 18.18 - 19.99	160,753	6.1		
20.00 - 29.99	3,333	0.4		
30.00 - 39.99	77,541	2.2		
40.00 - 49.99	247,488	4.0		
50.00 - 59.99	10,000	5.3		
60.00 - 65.50	103,353	4.1		
	602,468	4.4	$ 39.80	$ 5,828

Nonvested Shares

A summary of the Company's nonvested share activity and related information is as follows:

	Number of shares	Weighted avg. grant date fair value	Weighted avg. life remaining
Outstanding at December 31, 2011	350,863	$ 38.11	
Granted	148,095	45.20	
Vested	(175,965)	35.97	
Forfeited	(185)	41.33	
Outstanding at December 31, 2012	322,808	$ 42.52	0.88

The holders of nonvested shares have voting rights and receive dividends from the date of grant. These shares vest ratably over a period of three to four years. The fair value of the nonvested shares that vested was $7.7 million, $7.3 million and $5.0 million for the years ended December 31, 2012, 2011 and 2010, respectively. At December 31, 2012, unamortized share-based compensation expense related to nonvested shares was $6.3 million and will be recognized in future periods as follows (in thousands):

	Amount
Year:	
2013	$ 3,044
2014	2,178
2015	1,083
Total	$ 6,305

Restricted Share Units

A summary of the Company's restricted share unit activity and related information is as follows:

	Number of Shares	Weighted Average Grant Date Fair Value	Weighted Average Life Remaining
Outstanding at December 31, 2011	10,519	$ 47.77	
Granted	10,925	44.62	
Vested	(10,519)	47.77	
Outstanding at December 31, 2012	10,925	$ 44.62	0.35

The holders of restricted share units have voting rights and receive dividends from the date of grant. The share units vest upon the earlier of the day preceding the next annual meeting of shareholders or a change of control. The settlement date for the shares is selected by the non-employee trustee, and ranges from one year from the grant date to upon termination of service. At December 31, 2012, unamortized share-based compensation expense related to restricted share units was $166 thousand which will be recognized in 2013.

18. Related Party Transactions

In 2008, Donald Brain, the brother of the Company's Chief Executive Officer, acquired a 33.33% interest in the Company's partner in VinREIT, GWP. The Company's Board of Trustees was informed of Donald Brain's acquisition of such interest, and affirmed VinREIT's business relationship with GWP. There was no modification to the operating agreement of VinREIT, and future amendments or modifications to the operating agreement or relationship with GWP will require the Board of Trustee's approval.

19. Operating Leases

Most of the Company's rental properties are leased under operating leases with expiration dates ranging from 1 to 35 years. Future minimum rentals on non-cancelable tenant operating leases at December 31, 2012 are as follows (in thousands):

	Amount
Year:	
2013	$ 231,317
2014	224,083
2015	221,182
2016	209,579
2017	196,540
Thereafter	1,155,616
Total	$ 2,238,317

The Company leases its executive office from an unrelated landlord. Rental expense totaled approximately $467 thousand, $463 thousand and $408 thousand for the years ended December 31, 2012, 2011 and 2010, respectively, and is included as a component of general and administrative expense in the accompanying consolidated statements of income. Future minimum lease payments under this lease at December 31, 2012 are as follows (in thousands):

	Amount
Year:	
2013	$ 408
2014	434
2015	454
2016	358
2017	—
Thereafter	—
Total	$ 1,654

20. Quarterly Financial Information (unaudited)

Summarized quarterly financial data for the years ended December 31, 2012 and 2011 are as follows (in thousands, except per share data):

	March 31	June 30	September 30	December 31
2012:				
Total revenue	$ 77,449	$ 78,555	$ 82,420	$ 83,362
Net income	21,390	36,818	34,175	29,281
Net income available to common shareholders of EPR Properties	15,371	30,797	28,149	18,843
Basic net income per common share	0.33	0.66	0.60	0.40
Diluted net income per common share	0.33	0.65	0.60	0.40

	March 31	June 30	September 30	December 31
2011:				
Total revenue	$ 73,185	$ 74,044	$ 75,601	$ 75,448
Net income	41,733	2	35,563	37,968
Net income (loss) available to common shareholders of EPR Properties	34,179	(7,549)	25,749	31,940
Basic net income (loss) per common share	0.73	(0.16)	0.55	0.68
Diluted net income (loss) per common share	0.73	(0.16)	0.55	0.68

During the three months ended December 31, 2012, the Company recognized impairment charges totaling $8.0 million on four vineyard and winery properties. Certain reclassifications have been made to the prior period amounts to conform to the current period presentation primarily for asset groups that qualify for presentation as discontinued operations.

21. Discontinued Operations

Included in discontinued operations for the year ended December 31, 2012 are the operations of the Pope Valley winery which was held for sale as of December 31, 2012 as well as the operations of the Buena Vista winery and vineyards and the Carneros custom crush facility, which were sold during 2012. Additionally, included in discontinued operations for the year ended December 31, 2012 is a gain on sale or acquisition of real estate of $0.3 million that relates to the settlement of escrow reserves established with the March 29, 2011 sale of Toronto Dundas Square. Included in discontinued operations for the year ended December 31, 2011 are the operations of the prior mentioned properties as well as the operations of the Gary Farrell and EOS wineries and vineyards sold during 2011. Included in discontinued operations for the year ended December 31, 2010 are the prior mentioned properties and the operations of the Havens winery and vineyards and a parcel of land including one building sold during 2010 as well as the operations of the City Center entertainment retail center in White Plains, New York. As a result of the settlement with Mr. Cappelli and his

affiliates on June 18, 2010, the Company no longer holds an interest in the previously consolidated joint ventures that owned City Center.

The operating results relating to discontinued operations are as follows (in thousands):

	Year ended December 31,		
	2012	2011	2010
Rental revenue	$ 1,466	$ 6,998	$ 25,561
Tenant reimbursements	—	2,409	9,305
Other income	2,294	1,633	32
Mortgage and other financing income	87	251	182
Total revenue	3,847	11,291	35,080
Property operating expense (income)	(1,404)	2,445	16,944
Other expense	2,434	2,380	308
General and administrative expense	—	—	2
Costs associated with loan refinancing or payoff	—	2,298	4,236
Interest expense, net	(12)	182	7,666
Transaction costs	—	3	7,270
Impairment charges	13,039	17,372	—
Depreciation and amortization	1,965	4,332	10,351
Loss before gain on sale or acquisition of real estate	(12,175)	(17,721)	(11,697)
Gain (loss) on sale or acquisition of real estate	(27)	19,545	8,287
Net income (loss)	$ (12,202)	$ 1,824	$ (3,410)

Rental revenue above includes lease termination fees of $1.0 million that were recognized during the year ended December 31, 2011 related to the sale of the Gary Farrel winery. Depreciation and amortization above includes amortization expense related to in-place leases of $0.8 million and $2.7 million for the years ended December 31, 2011 and 2010, respectively. Rental revenue above also includes amortization expense related to above market leases of $20 thousand and $200 thousand, respectively, for the years ended December 31, 2011 and 2010, respectively.

22. Other Commitments and Contingencies

As of December 31, 2012, the Company had 11 entertainment development projects under construction for which it has commitments to fund approximately $61.3 million of additional improvements, one education development project under construction for which is has commitments to fund approximately $7.3 million of additional improvements and two recreation development projects under construction for which it has commitments to fund approximately $13.9 million. These costs are expected to be funded in 2013. Development costs are advanced by the Company in periodic draws. If the Company determines that construction is not being completed in accordance with the terms of the development agreements, it can discontinue funding construction draws. The Company has agreed to lease the properties to the operators at pre-determined rates upon completion of construction.

The Company has certain commitments related to its mortgage note investments that it may be required to fund in the future. The Company is generally obligated to fund these commitments at the request of the borrower or upon the occurrence of events outside of its direct control. As of December 31, 2012, the Company had eight mortgage notes receivable with commitments totaling approximately $38.8 million. If commitments are funded in the future, interest will be charged at rates consistent with the existing investments.

The Company has provided guarantees of the payment of certain economic development revenue bonds totaling $34.8 million related to four theatres in Louisiana for which the Company earns a fee at an annual rate of 1.75% to 4.00%

over the 30 year terms of the related bonds. The Company has recorded $11.2 million as a deferred asset included in other assets and $11.2 million included in other liabilities in the accompanying consolidated balance sheet as of December 31, 2012 related to these guarantees. No amounts have been accrued as a loss contingency related to these guarantees because payment by the Company is not probable.

The Company is involved in litigation with Louis Cappelli, Concord Associates, L.P. and certain of their affiliates regarding the Sullivan County planned casino and resort development. See Note 8 for further details.

23. Segment Information

Due to further refinement of internal processes during the first quarter of 2012, the Company began grouping investments into four reportable operating segments: entertainment, education, recreation and other. The financial information summarized below is presented by reportable operating segment, consistent with how the Company now regularly reviews and manages its business:

Balance Sheet Data:

	As of December 31, 2012					
	Entertainment	Education	Recreation	Other	Corporate/ Unallocated	Consolidated
Total Assets	$ 1,818,712	$ 376,048	$ 427,977	$252,444	$ 71,549	$ 2,946,730

	As of December 31, 2011

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

Item 9A. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this report our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our disclosure controls were designed to provide reasonable assurance that the controls and procedures would meet their objectives. Our management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls will prevent all errors and fraud. A control system, no matter how well designed and operated, can provide only reasonable assurance of achieving the designed control objectives and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusions of two or more people, or by management override of the control. Because of the inherent limitations in a cost-effective, maturing control system, misstatements due to error or fraud may occur and not be detected.

There have not been any changes in the Company's internal control over financial reporting (as defined in Rule 13a-15 (f) and 15d-15(f) under the Exchange Act) during the fourth quarter of the fiscal year to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control–Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of December 31, 2012. KPMG LLP, the independent registered public accounting firm that audited the consolidated financial statements included in this Annual Report on Form 10-K, has issued a report on the effectiveness of our internal control over financial reporting.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements, errors or fraud. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of or compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders
EPR Properties:

We have audited EPR Properties' internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). EPR Properties' management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on EPR Properties' internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, EPR Properties maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of EPR Properties and subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2012, and our report dated February 27, 2013 expressed an unqualified opinion on those consolidated financial statements.

Item 9B. Other Information

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The Company's definitive Proxy Statement for its Annual Meeting of Shareholders to be held on May 15, 2013 (the "Proxy Statement"), contains under the captions "Election of Trustees", "Company Governance", "Executive Officers", and "Section 16(a) Beneficial Ownership Reporting Compliance" the information required by Item 10 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

We have adopted a Code of Business Conduct and Ethics that applies to our Chief Executive Officer, Chief Financial Officer, and all other officers, employees and trustees. The Code of Business Conduct and Ethics may be viewed on our website at www.eprkc.com. Changes to and waivers granted with respect to the Code of Business Conduct and Ethics required to be disclosed pursuant to applicable rules and regulations will be posted on our website.

Item 11. Executive Compensation

The Proxy Statement contains under the captions "Election of Trustees", "Executive Compensation", and "Compensation Committee Report", the information required by Item 11 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The Proxy Statement contains under the captions "Share Ownership" and "Equity Compensation Plan Information" the information required by Item 12 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The Proxy Statement contains under the caption "Transactions Between the Company and Trustees, Officers or their Affiliates" the information required by Item 13 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

Item 14. Principal Accounting Fees and Services

The Proxy Statement contains under the caption "Ratification of Appointment of Independent Registered Public Accounting Firm" the information required by Item 14 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(1) *Financial Statements:*
Report of Independent Registered Public Accounting Firm
Consolidated Balance Sheets as of December 31, 2012 and 2011
Consolidated Statements of Income for the years ended December 31, 2012, 2011 and 2010
Consolidated Statements of Comprehensive Income for the years ended December 31, 2012, 2011 and 2010
Consolidated Statements of Changes in Equity for the years ended December 31, 2012, 2011 and 2010
Consolidated Statements of Cash Flows for the years ended December 31, 2012, 2011 and 2010
Notes to Consolidated Financial Statements

(2) *Financial Statement Schedules*:
Schedule II – Valuation and Qualifying Accounts
Schedule III – Real Estate and Accumulated Depreciation

(3) *Exhibits*
The exhibits listed in the Exhibit Index immediately preceding the exhibits are filed as part of this Annual Report on Form 10-K or incorporated by reference as indicated below.

CERTIFICATION

PURSUANT TO RULE 13a-14(a) OR 15d-14(a) OF THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002.

I, David M. Brain, certify that:

1. I have reviewed this Annual Report on Form 10-K of EPR Properties;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

EXHIBIT 31.2

CERTIFICATION

PURSUANT TO RULE 13a-14(a) OR 15d-14(a) OF THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002.

I, Mark A. Peterson, certify that:

1. I have reviewed this Annual Report on Form 10-K of EPR Properties;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
