LETTER TO STOCKHOLDERS

The worldwide consumer appeal of *Calvin Klein* and *Tommy Hilfiger* resulted in our outperformance in 2012

Dear Fellow Stockholders:

2012 marked another year of strong performance and sustained growth for PVH Corp., exceeding our expectations and further solidifying our position as one of the largest branded lifestyle apparel companies in the world. Our focus remained on driving market share gains, preserving and improving operating margins, introducing new products and creating innovative marketing for our brands. The strength of our brand portfolio, led by *Calvin Klein* and *Tommy Hilfiger*, enabled us to navigate successfully through the global macroeconomic pressures and associated difficult consumer spending environment, which also included higher product costs and significant foreign currency volatility during the first half of the year. Our revenue increased approximately 3% to \$6.0 billion (6%* on a constant currency basis and excluding our exit from our Timberland and Izod women's wholesale sportswear businesses). Earnings per share on a non-GAAP basis increased approximately 21%* to \$6.58*, with each of our businesses – Calvin Klein, Tommy Hilfiger and Heritage Brands – exhibiting solid performance.

Our third quarter ended with the announcement of a transaction that we believe will enable us to achieve even greater growth and extend the reach of *Calvin Klein* and *Tommy Hilfiger* in the years ahead: the acquisition of The Warnaco Group, Inc. This deal, many years in the making, creates a company with over \$8 billion in pro forma 2012 revenues, reunites the "House of *Calvin Klein*" to ensure a single global brand vision and gives us direct control over the two largest apparel categories for *Calvin Klein* – jeanswear and underwear. It also provides the combined company with strong established operations in Asia and South America. Additionally, the acquisition expands the Heritage Brands business to include Warnaco's Speedo swim products and Warner's and Olga women's intimates businesses, which, like our existing Heritage Brands businesses, are expected to provide consistent profitability and generate strong cash flows to help fuel the future growth of PVH.

Chairman and Chief Executive Officer

A Year of Great Advances

The worldwide consumer appeal of *Calvin Klein* and *Tommy Hilfiger* resulted in the continued expansion of sales, market share and the global reach of these two designer lifestyle brands, which in 2012 represented approximately three quarters of our business. Our Calvin Klein and Tommy Hilfiger businesses achieved strong financial returns, average unit retail increases and comparable store sales growth despite the economic uncertainties and volatility experienced during the year. We executed on our strategic initiatives to begin the turnaround of our Heritage Brands business and are encouraged by improvements experienced during the second half of the year. Our solid operating results and significant free cash flow enabled us to make further strategic investments in our brands and to pay down an additional \$300 million of the debt we incurred in connection with the Tommy Hilfiger acquisition, leaving us at year end with approximately \$1.5 billion of the approximately \$2.5 billion originally incurred.

Calvin Klein

Our Calvin Klein business delivered another year of strong results despite the difficult European market environment and weakness in the Calvin Klein jeanswear and women's underwear businesses in Europe and North America, clearly demonstrating the global appeal of the *Calvin Klein* brand. Worldwide retail sales were approximately \$7.6 billion in 2012, fostered by continued product innovation, expansion into additional product categories and markets and strong partnerships with our licensees. In addition, our continued investments in a dynamic marketing program, including expanded digital marketing, are helping us reach new younger customers and capture even greater market share.

Calvin Klein's revenues grew 8% to \$1.15 billion, despite royalty revenues only increasing 2% (3%* on a constant currency basis). The pressure on royalty revenues resulted from the weak performance of the jeanswear and women's underwear businesses, as well as the impact of our decision in the first quarter to acquire the licensed European bridge apparel and accessories businesses. EBIT reached \$285 million, primarily driven by new product launches, category extensions and continued strong global performance in women's sportswear, dresses, footwear and handbags, as well as growth coming from Asia and South America. We continue to experience outstanding performance in the high-growth markets of China and Brazil, which have helped offset weaker performance experienced in Europe and North America.

Tommy Hilfiger

2012 was another exceptional year for our Tommy Hilfiger business, particularly in North America and Europe, where it realized both market share gains and outstanding comparable store sales performance. *Tommy Hilfiger's* power as a truly iconic global designer lifestyle brand was demonstrated by the \$6.0 billion in global retail sales of *Tommy Hilfiger* products, despite the macroeconomic challenges and economic uncertainty in Europe, the brand's largest market. Our Tommy Hilfiger business achieved \$3.22 billion of revenue and EBIT on a non-GAAP basis grew 24% to \$437 million*. We experienced 10% growth in revenues in North America and 8%* growth in revenues internationally on a constant currency basis, driven by comparable store sales growth of 10%† in North America and 11%† in Europe. We are particularly pleased with the significant momentum in our North American business, which demonstrates that the substantial brand investments we are making in product quality and design and in-store presentation, along with marketing and advertising, are paying dividends.

Our efforts to propel the long-term growth of *Tommy Hilfiger* extended to high-growth emerging markets, including China and India, where we continue to develop our joint ventures, as well as Brazil, where we recently entered into a joint venture. We also continued our strategy of bringing in-house distributors and licensees, in order to have greater control over certain product categories and regional markets.

Heritage Brands

2012 marked a year of turnaround for the Heritage Brands business. We executed on the strategic decisions made in 2011 to exit the Timberland and Izod women's wholesale sportswear businesses to focus on our core businesses. While the business experienced a difficult first half of 2012, we saw significant signs of improvement in our wholesale business in the second half. Overall, Heritage Brands revenue declined to \$1.68 billion, primarily driven by our exited businesses and a decline in our dress furnishings business as a direct result of the new J.C. Penney marketing strategy, while generating EBIT of \$115 million, or a 6.8% operating margin. The second half of the year highlighted the strength of our Heritage Brands portfolio, with a successful roll-out of *IZOD* shop-in-shops at J.C. Penney for Fall 2012 and momentum in the Van Heusen business that launched at Kohl's in Spring 2012.

The dress furnishings division continued to experience market share gains, despite the overall market decline, furthering our market leadership in dress shirts and neckwear in U.S. department and chain stores. Offsetting our wholesale business improvement was the continued underperformance in our retail business. We expect financial results to improve in 2013 and believe we are well-positioned to return to historic levels of profitability.

CSR

Corporate Social Responsibility (CSR) is a fundamental component of how we do business that is directly linked to our business strategies and practices. We approach CSR with the same management disciplines and accountabilities that drive all elements of our business. As an industry leader, we understand our obligation to promote and maintain sustainable business practices that take into account the interests of all of our stakeholders. 2012 was another year of continued progress towards our CSR objectives in our four focus areas: Our Community, Our People, Our Supply Chain and Our Environment.

As always, we continue to operate our business in an ethical manner and work to find sustainable solutions to current and future challenges

We are committed to the health, safety and well-being of the workers throughout our supply chain and to the integrity of our products. We actively work to educate our associates and partners in order to improve factory conditions, as well as continue to invest in the communities where we do business.

As always, we continue to operate our business in an ethical manner and work to find sustainable solutions to current and future challenges. Accordingly, we report publicly on our CSR accomplishments, challenges and goals. Transparency in our CSR reporting practices promotes awareness, dialogue and engagement toward better practices. We are confident that our unwavering commitment to CSR will be a key competitive advantage as we strive to deliver future growth and stockholder value.

What the Warnaco Acquisition Means for PVH

We believe we can continue to grow our businesses profitably in the future by identifying and executing strategic opportunities for all of our brands. To that end, we pursued the long-expected acquisition of Warnaco, which we announced on October 31, 2012 and closed on February 13, 2013. The transaction, which follows our transformational acquisitions of Calvin Klein in 2003 and Tommy Hilfiger in 2010, reinforces our strategy of driving the global reach of the *Calvin Klein* brand.

By reuniting the *Calvin Klein* brand under one owner, we will have complete direct global control of the brand image and commercial operations for the two largest *Calvin Klein* apparel categories – jeanswear and underwear. Under a single brand vision, we will be able to better coordinate product design, merchandising, supply chain, retail distribution and marketing, which will strengthen the brand's image, positioning and execution across all markets. It will also give us the opportunity to unlock the additional growth potential of this powerful designer brand across all major product categories, geographies, demographics and distribution channels.

In 2012, pro forma for the transaction, PVH generated over \$8 billion in revenues and over \$1 billion* in non-GAAP EBIT, including projected synergies. Our Calvin Klein and Tommy Hilfiger businesses represented approximately 75% of our business in 2012 on a pro forma basis.

The acquisition also enables us to align our robust operating platforms in North America and Europe with Warnaco's operations in Asia and Latin America, which gives the combined company strong established operations in every major

consumer market worldwide. In 2012, our emerging market penetration (Asia and Latin America) increased from 7% to 14% of revenues on a pro forma basis for the transaction. We expect the international markets, including the high-growth countries of China and Brazil, where Warnaco has established operations, to further drive the growth of *Calvin Klein*.

The acquisition also brings the *Speedo*, *Warner's* and *Olga* brands into our Heritage Brands portfolio which, like our existing Heritage Brands businesses, provide consistent profitability and strong cash flows.

2012 Total Revenue By Brand

2012 Total Revenue By Region

¹ Includes the Middle East and Africa

² Includes Mexico

We are excited about the prospects the acquisition presents over the long term. However, we see 2013, our first year of owning Warnaco, as a year of investment. We believe that strategic investments beyond levels originally anticipated are required to achieve our goal of rebuilding the global Calvin Klein jeanswear and underwear businesses. These investments include (i) enhancing the existing infrastructure (systems and supply chain), (ii) upgrading Calvin Klein jeanswear product design and quality with an emphasis on geographic differentiation, (iii) investing in in-store marketing and the in-store customer experience, (iv) adding appropriate talent to fill key design, marketing and merchandising positions, (v) rationalizing global excess inventory levels and (vi) reducing and restructuring the off-price and club sales distribution in Europe and North America.

Over time, we believe we will achieve significant revenue and profit increases attributable to the strategic initiatives that we have already begun to implement. Our strategic initiatives should help us restore and grow our global Calvin Klein jeanswear and underwear businesses, expand the Calvin Klein category breadth in jeans, sportswear and accessories, provide increased brand support and offer an improved supply chain.

We believe we have the experience and talent in place to successfully integrate Warnaco, deliver expense synergies of approximately \$100 million over the next four years and generate annual non-GAAP earnings per share growth in excess of 15% in 2014 and beyond. This should pave the way for enhanced profitability and stockholder returns.

2013 and Beyond

While we believe that global macroeconomic challenges and uncertainty will continue in 2013 and our strategic investments in the Warnaco business will add pressure to our 2013 earnings, we are optimistic about our long-term prospects. The strength of our brands and the opportunities created through the acquisition of Warnaco, coupled with the sound execution of our business strategies, should enable us to continue to drive our long-term growth and deliver improved financial returns.

At the core of our success and our opportunity is the power of our global designer lifestyle brands, *Calvin Klein* and *Tommy Hilfiger*.

We believe the Calvin Klein business can emerge stronger as a result of the Warnaco acquisition and that the acquisition will also provide us with the opportunity over time to directly develop *Tommy Hilfiger* in the high-growth markets of Asia and South America.

March of Dimes, March for Babies Walk, April 2012

Finally, it is important to recognize that our strong 2012 results reflect, and our future depends upon, the work of our outstanding associates worldwide and their execution of our business strategy. Leveraging their dedication and hard work and the strength of our brands, we were able to overcome the challenging global macroeconomic environment in 2012, delivering not only revenue and EBIT growth but also improved operating margins and substantial free cash flow. With their efforts and focus on executing on our strategic plans, including the integration of Warnaco, we believe we will continue to grow our brands and strengthen our businesses and results, ultimately maximizing value for you, our stockholders.

Calvin Klein

The EBIT of our Calvin Klein business grew to \$285 million in 2012, as we executed on our global strategy across our *Calvin Klein Collection*, *ck Calvin Klein* and *Calvin Klein* brands, despite economic pressures in Europe and underperformance in jeanswear and women's underwear in North America and Europe. Revenue increased by 8% for the year, fueled by strong performance in our North American men's dress furnishings, sportswear and retail businesses. In 2012, our North American outlet retail stores achieved 5%[†] comparable store sales growth and double digit square footage growth. North American wholesale revenue in 2012 increased 16%, while licensing revenues from our licensees and partners in the "BRC" countries grew significantly. The *Calvin Klein* global retail footprint saw the majority of its square footage expansion in emerging or underdeveloped markets, with key store openings in London for *Calvin Klein Jeans*, in Asia for *ck Calvin Klein Watch & Jewelry* and in the U.S. for *Calvin Klein Performance*. Market share gains were achieved through continued product enhancements and design innovations, as well as enhancements to the in-store customer experience.

[†] Comparable store sales percentages are based on comparable weeks and, therefore, exclude the 53rd week in 2012.

According to *WWD*, “*Calvin Klein* is a homegrown megabrand ... the brand – under PVH Corp.’s strong management, and with design talent like Francisco Costa, Kevin Carrigan and Italo Zucchelli – continues to provide a sleek and sexy version of American cool”

Calvin Klein continued to leverage the brand’s equity in both existing and new regions, channels and markets in 2012. The *Calvin Klein* brand was ranked #1 by *Women’s Wear Daily (WWD)* in its coveted top 10 list of most-recognized designer brands (December 2012). Innovative marketing and advertising campaigns continue to fuel the global growth of *Calvin Klein*, highlighted by an expanded use of digital and social media marketing platforms, including the addition of our visually-driven, interactive *Tumblr* blog, which complements the brand’s editorial and celebrity wardrobing programs, to further consumer awareness and brand appeal.

New product launches for 2012 included *Power Stretch* and *Liquid Metal* denim programs under the *Calvin Klein Jeans* label; the men’s *Bold* underwear line and women’s *Push Positive* underwear under the *Calvin Klein Underwear* label; the *ENCOUNTER Calvin Klein* fragrance and women’s *ETERNITY AQUA* fragrance; and expanded offerings in the high-growth accessories and performance apparel categories. These brand-consistent innovations and franchise extensions enabled us to capitalize on opportunities in both existing categories and new product lines to enhance *Calvin Klein*’s position as a premium global designer brand and improve financial performance.

The most significant accomplishment for the brand this year was the announcement that we had entered into a definitive agreement to acquire Warnaco and reunite the “House of *Calvin Klein*.” This acquisition represents the next chapter, transforming our *Calvin Klein* business from a predominantly licensed model to a more directly-operated model. As we look ahead, we will seek to capitalize on our control of the two largest apparel businesses – jeanswear and underwear – and the global brand vision to best position *Calvin Klein* going forward. Over the next few years, we look to achieve 8% to 10% annual growth in global retail sales. We believe that the platforms we are building out in every major consumer market worldwide will lay the foundation to further unlock the revenue potential of the *Calvin Klein* brand globally, including in the emerging markets of the “BRIC” countries, as new consumers connect with the *Calvin Klein* brand’s modern design aesthetic.

The Tommy Hilfiger business continued to outperform in 2012 with EBIT of \$437 million*, up 24% from 2011. Revenues of our North American and International divisions increased 10% and 8%* on a constant currency basis, respectively, and the retail operations for North America and Europe exhibited comparable store sales growth of 10%¹ and 11%¹, respectively. Consumers continued to embrace the *Tommy Hilfiger* lifestyle in all of its incarnations, including men's, women's and children's sportswear and accessories; the men's and women's *Hilfiger Denim* collections; the men's tailored collection; and a broad assortment of other lifestyle products. Despite the challenging macro environment in Europe, our business saw market share gains in Europe and a significant increase in North America, fueled by continued product enhancements, increased marketing and an improved in-store customer experience.

TOMMY  HILFIGER

The brand's retail footprint increased by 135 stores, ending the year at 1,230 stores, approximately half of which are operated by us and the remainder by franchisees, distributors and licensees. As part of our focus on extending the global brand experience, we opened our first Asia-Pacific flagship location on Omotesando in Tokyo in April 2012. The expansive three-story flagship showcases the complete range of *Tommy Hilfiger* lifestyle products and highlights the brand to the Asian consumer in the region's fashion capital. The opening events were a culmination of a dedicated marketing takeover of Tokyo that included outdoor advertising displayed throughout the prestigious Omotesando shopping district and over 200 pages of editorial coverage.

The *Tommy Hilfiger* brand continues to be supported by our ongoing marketing and advertising efforts to communicate the *Tommy Hilfiger* "classic American cool," "preppy with a twist" brand image. *The Hilfigers* advertising campaign, featuring the eclectic Hilfiger "family," remains the cornerstone of our marketing strategy, leading the global creative strategy for the brand.

In 2012, we achieved significant strides in digital performance and innovation, with *Tommy Hilfiger* ranking in the top ten in the 2012 Annual L2 Think Tank Digital IQ Index, which ranks the digital competence of 64 brands across four competencies: website, digital marketing, social media and mobile. These additional investments in digital performance have further fueled the brand's reach across new, younger demographics.

We executed on our 2012 strategic goals, including bringing the men's European tailored business in-house to leverage our expertise in dress furnishings and establishing a joint venture in Brazil to gain a direct entry in this high-growth emerging market.

We also saw the launch of *Tommy Hilfiger's* first major cause marketing campaign, *The Promise Collection*, a capsule collection sold in our stores, proceeds of the sales of which support the *Tommy Hilfiger* Corporate Foundation's five-year, \$2 million grant to Millennium Promise, which is dedicated to the eradication of extreme poverty, hunger and preventable disease.

The global initiative created awareness and raised funds to support Millennium Promise and emphasized the company-wide commitment to the organization's mandate.

Lastly for 2012, Mr. Tommy Hilfiger was honored by the CFDA (Council of Fashion Designers of America) as the recipient of the prestigious Lifetime Achievement Award, highlighting his contributions to the industry and the continued elevation and evolution of the *Tommy Hilfiger* brand.

The *Tommy Hilfiger* brand continues to be well-positioned around the world with a distinct brand proposition and a compelling combination of product, quality, design and value. Looking ahead, we believe the brand should achieve 8% to 10% annual global retail sales growth by capitalizing on our investments in existing and new product categories, distribution channels and geographic regions.

Sportswear

The Heritage Brands Wholesale Sportswear business had a strong year in 2012. We executed on our plan to refocus on our core businesses, effecting strategic initiatives to better position our *Van Heusen*, *IZOD* and *ARROW* brands at wholesale, and exiting our *Timberland* and our *Izod* women's wholesale sportswear businesses. 2012 revenues, excluding our exited businesses, increased by 6%* and EBIT margin improved 380 basis points* to 7.3%. Our refocused *Izod* men's wholesale sportswear business emphasized product enhancements and marketing that focused on the *IZOD* brand's DNA as a youthful, active-inspired and colorful American brand. We also put emphasis on distribution and improved in-store marketing and presentation to enrich the consumer's experience and, thereby, capture increased average unit retails and drive improved profitability.

Looking ahead, we believe we can expand the successful dress furnishings business model by investing in our top brands

Webb Simpson for IZOD Golf

Van Heusen, IZOD and ARROW sportswear continue to be top sellers on the main floor of U.S. department stores, with combined market share of over 10% in the fragmented men's knit and woven sportswear tops market. Looking ahead, the business will continue to focus on refining the brand identities through product innovation, improved quality, compelling in-store product presentation and partnerships with key retail accounts to grow market share and drive profitability.

Dress Furnishings

Our Heritage Brands Wholesale Dress Furnishings business experienced a difficult year as a direct result of J.C. Penney's new marketing initiatives and strategy for the company's classification business. 2012 saw revenues decline to \$532 million; however, we experienced solid market share growth across dress shirts, neckwear and underwear. We successfully navigated the cost pressures in the first half of the year along with the impact of the transformational change in strategy by J.C. Penney relative to our peers by delivering a full range of styles, quality products and a credible value proposition across the business' brand portfolio. The 2012 launch of *Van Heusen* at Kohl's was very well-received and we saw increased demand for the brand in our other retail accounts, as well. The business' performance was further fueled by continued expansion of our higher-end Insignia business in North America. The dress shirts, neckwear and underwear businesses continue to focus on enhancing product, adding new labels and diversifying beyond the moderate and better channels, while expanding market share.

Looking ahead, we believe we can expand the successful dress furnishings business model by investing in our top brands, while evaluating additional licensing opportunities, collaborating with key partners and further investing in design and marketing.

Retail

We generated \$664 million in revenues in 2012 from our Heritage Brands Retail business, with flat[†] comparable store sales, while our Bass and Izod businesses initiated their strategic turnarounds. Our Van Heusen business was once again a strong performer, driven by our continued investments in product design, marketing and superior value-oriented products.

Looking ahead, each of the Heritage Brands retail divisions will focus on maximizing the power of its brand to drive improved profitability through enhanced product design and quality, optimization of its real estate portfolio and elevation of the in-store experience.

CORPORATE
SOCIAL
RESPONSIBILITY

Corporate Social Responsibility is a fundamental component of how we do business and is directly linked to our business strategies and practices

Corporate Social Responsibility (CSR) is a fundamental component of how we do business and is directly linked to our business strategies and practices. PVH is a company rooted in community involvement; a good corporate citizen offering a great place to work. We are proud to have maintained this culture through several large acquisitions and significant global growth over the last decade. In 2012, we ranked in the top 10 for human rights and corporate governance on *CR – Corporate Responsibility* magazine's "Best Corporate Citizens" list, and were also ranked as one of *CR*'s "100 Best Corporate Citizens" for the third year in a row. *Fortune* magazine ranked PVH Corp. fifth in the Apparel Industry in its annual list of "The World's Most Admired Companies."

Our commitment to CSR has never wavered despite its cost and the earnings pressures on a public company. We took a leadership position 21 years ago as one of the first companies to issue a Code of Conduct and create a human rights department to help better manage our supply chain. We understand the obligation to engage in sustainable business practices. We take our leadership very seriously and, as such, continuously review and refine our CSR strategy to best achieve our objectives with the goal of strategically differentiating our company and our products and practices.

PVH Loves Staten Island; December 2012

In 2012, we consolidated leadership for all four pillars of our CSR program – community, people, supply chain and environment – under a Chief Risk Officer, a newly created position. We also began efforts to take a more holistic approach to the supply chain, where the principal focus has traditionally been human rights. We are now beginning to focus on incorporating the management of environmental issues, including chemical management, in order to create a truly sustainable supply chain. This approach will continue into 2013 and beyond.

2012 Highlights

2012 was a year of significant accomplishments, implementation and progress in our CSR program.

Our Community – Caring for Our Communities

Charity and volunteerism are cornerstones of PVH culture. PVH strives to make a positive impact, not only through giving, but through genuine involvement in the lives of the people in the communities where we work and live. Our principal focus has been on supporting the health and well-being of women and children. We support charitable giving across all of our divisions through our PVH Cares program.

Domestically in 2012, we continued to support our major philanthropic partnerships including Safe Horizon and Save the Children. Tommy Hilfiger continued its support of Millenium Promise, which is committed to the eradication of extreme poverty, hunger and preventable disease.

Tommy Hilfiger pledged \$2 million in 2009, payable over five years, to Millennium Promise, and also funded trips for company associates to act as ambassadors for the program and lend their time as volunteers. Eighteen associates visited Ruhira, Uganda during the year, learning about Millennium Promise's Millennium Village Project and interacting with villagers at work and in their schools.

Although Hurricane Sandy forced the closing of three of our main office facilities, including our corporate headquarters, for upwards of 10 days, and a number of our associates were forced from their homes, we quickly mobilized to provide financial assistance to affected associates and matched associate donations to provide over \$1 million across multiple relief organizations for storm relief efforts. We also provided significant in-kind donations, including volunteer time and millions of dollars of clothing items and other necessities to affected residents.

Lastly, we pledged \$250,000 to the Fordham Law School Leitner Center for International Law and Justice to support cutting-edge corporate governance projects in the areas of human rights and the environment.

Our People – Listening To, and Empowering Our Associates

Our associates' quality of life and their livelihood both inside and outside of the workplace continue to be a top priority for us. Our commitment to our associates is validated by our long-tenured workforce and by our associate surveys, in which we consistently rank well above average in associate satisfaction.

In 2012, Tommy Hilfiger International conducted its first associate survey, demonstrating our commitment to receiving the input of our associates wherever they are in order to make their work life, experiences, and opportunities positive ones. We continue to make enhancements to our human resources practices and programs.

This included, in 2012, bringing in strategic new hires such as a Vice President of Talent Management, strengthening our training and performance management program for all associates, and putting a greater focus on diversity. To further our focus on diversity, we conducted a diversity survey in 2012 and plan to use the feedback received to develop a more robust diversity and inclusion program going forward.

Our Supply Chain – A Holistic Approach to CSR and the Supply Chain

In 2012, we upgraded our signature human rights program to actively pursue human rights issues beyond compliance, working with factories to build their own capabilities to manage these issues on their own. In addition, we initiated efforts to address environmental issues, including water, energy and chemical management, throughout the “lifecycle” of the production of our goods. As we ramp up, this holistic approach to our supply chain should allow us to make more of a positive impact on our communities well into the future.

Initiatives that we undertook in 2012 under this supply chain strategy included fabric innovations (e.g., launch of the *IZOD Eco-Chinos*, which use plastic bottle fiber for a portion of the cloth) and supplier training on green manufacturing and related data tracking.

We also upgraded our factory selection process by integrating it with a new factory rating system that rewards factories with orders based on adherence to local laws and our code of conduct. Further, in Bangladesh, the second largest garment exporting country and one with a recent history of factory tragedies, we have continued to actively seek to improve fire and building safety through upgrades in local codes and training.

Our Environment – Minimizing Our Footprint

We continued our environmental commitment through our efforts to measure our carbon footprint in all aspects of our operations and by putting in place numerous resource efficiency initiatives at our corporate and administrative offices worldwide (e.g., a major lighting retrofit initiative at both Tommy Hilfiger and Calvin Klein). As a result of these projects, we avoided the generation of 646 tons of CO₂, diverted 3.73 tons of compostable materials from landfills, and reduced 685,510 pages of paper as compared to 2011.

As an added commitment, we joined New York City Mayor Bloomberg’s Carbon Challenge to reduce greenhouse gas emissions in New York City’s private sector by 30% over 10 years.

PVH Carbon Footprint Summary

CO ₂ Emissions†	2011*	2012*

* Greenhouse gas in metric tons (represents North American emissions, excluding Tommy Hilfiger in 2011).

† Increase in emissions is due to corresponding increase in production at 4 warehouses.

What’s Next?

As a truly global company, we intend to take a more comprehensive approach to CSR, including driving the strategy across all our business and operations and in all regions where we operate. In 2013, we will focus on strengthening the basic foundations of our program, striving for operational excellence and increasing innovation and efficiencies where possible.

Some key focus areas for the future include (i) a continued expansion of our supply chain work to include a robust clean production program, including chemical management; (ii) strategic collaboration and partnerships to increase information-sharing and meaningful progress on deficiencies in human rights and the environment; (iii) an enhanced communication strategy to further empower our associates and other stakeholders globally; and (iv) the effective integration of Tommy Hilfiger and Warnaco into our CSR program.

Our goal is to ensure that CSR is truly embedded in everything we do as a company. We will continue to make progress by inspiring and empowering our people, our customers, our partners and our communities, by transparently reporting our progress, and by working collaboratively towards positive change.

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995: Forward-looking statements in this Annual Report on Form 10-K including, without limitation, statements relating to our future revenue and cash flows, plans, strategies, objectives, expectations and intentions, including, without limitation, statements relating to our acquisition of The Warnaco Group, Inc. (“Warnaco”), are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that such forward-looking statements are inherently subject to risks and uncertainties, many of which cannot be predicted with accuracy, and some of which might not be anticipated, including, without limitation, the following: (i) our plans, strategies, objectives, expectations and intentions are subject to change at any time at our discretion; (ii) in connection with the acquisition of Warnaco, we borrowed significant amounts, may be considered to be highly leveraged, and will have to use a significant portion of our cash flows to service such indebtedness, as a result of which we might not have sufficient funds to operate our businesses in the manner we intend or have operated in the past; (iii) the levels of sales of our apparel, footwear and related products, both to our wholesale customers and in our retail stores, the levels of sales of our licensees at wholesale and retail, and the extent of discounts and promotional pricing in which we and our licensees and other business partners are required to engage, all of which can be affected by weather conditions, changes in the economy, fuel prices, reductions in travel, fashion trends, consolidations, repositionings and bankruptcies in the retail industries, repositionings of brands by our licensors and other factors; (iv) our plans and results of operations will be affected by our ability to manage our growth and inventory, including our ability to realize benefits from Warnaco; (v) our operations and results could be affected by quota restrictions and the imposition of safeguard controls (which, among other things, could limit our ability to produce products in cost-effective countries that have the labor and technical expertise needed), the availability and cost of raw materials, our ability to adjust timely to changes in trade regulations and the migration and development of manufacturers (which can affect where our products can best be produced), changes in available factory and shipping capacity, wage and shipping cost escalation, and civil conflict, war or terrorist acts, the threat of any of the foregoing, or political and labor instability in any of the countries where our or our licensees’ or other business partners’ products are sold, produced or are planned to be sold or produced; (vi) disease epidemics and health related concerns, which could result in closed factories, reduced workforces, scarcity of raw materials and scrutiny or embargoing of goods produced in infected areas, as well as reduced consumer traffic and purchasing, as consumers become ill or limit or cease shopping in order to avoid exposure; (vii) acquisitions and issues arising with acquisitions and proposed transactions, including without limitation, the ability to integrate an acquired entity, such as Warnaco, into us with no substantial adverse effect on the acquired entity’s or our existing operations, employee relationships, vendor relationships, customer relationships or financial performance; (viii) the failure of our licensees to market successfully licensed products or to preserve the value of our brands, or their misuse of our brands; and (ix) other risks and uncertainties indicated from time to time in our filings with the Securities and Exchange Commission.

We do not undertake any obligation to update publicly any forward-looking statement, including, without limitation, any estimate regarding revenue or cash flows, whether as a result of the receipt of new information, future events or otherwise.

PART I

Item 1. Business

Introduction

Unless the context otherwise requires, the terms “we,” “our” or “us” refer to PVH Corp. and its subsidiaries.

Our fiscal years are based on the 52-53 week period ending on the Sunday closest to February 1 and are designated by the calendar year in which the fiscal year commences. References to a year are to our fiscal year, unless the context requires otherwise. Our 2012 year commenced on January 30, 2012 and ended on February 3, 2013; 2011 commenced on January 31, 2011 and ended on January 29, 2012; and 2010 commenced on February 1, 2010 and ended on January 30, 2011.

We obtained the market and competitive position data used throughout this report from research, surveys or studies conducted by third parties (including, with respect to the brand rankings for woven sport shirts, the NPD Group/POS Tracking Service), information provided by customers and industry or general publications. The specific United States department and chain store rankings we reference in this report are on a unit basis. Industry publications and surveys generally state that they have obtained information from sources believed to be reliable but do not guarantee the accuracy and completeness of such information. While we believe that each of these studies and publications and all other information is reliable, we have not independently verified such data and we do not make any representation as to the accuracy of such information.

References to the acquisition of Warnaco refer to our February 13, 2013 acquisition of The Warnaco Group, Inc. and its subsidiaries, which companies we refer to collectively as “Warnaco.” The discussion in this report relates to a period prior to our acquisition of Warnaco and, except as otherwise noted, does not give effect to it.

References to the acquisition of Tommy Hilfiger refer to our May 6, 2010 acquisition of Tommy Hilfiger B.V. and certain affiliated companies, which companies we refer to collectively as “Tommy Hilfiger.”

References to our acquisition of Calvin Klein refer to our February 2003 acquisition of Calvin Klein, Inc. and certain affiliated companies, which companies we refer to collectively as “Calvin Klein.”

Company Overview

We are one of the world’s largest apparel companies, with a heritage dating back over 130 years. Our brand portfolio consists of nationally and internationally recognized brand names, including the global designer lifestyle brands *Calvin Klein* and *Tommy Hilfiger*, as well as *Van Heusen*, *IZOD*, *Bass*, *ARROW* and *Eagle*, which are owned brands, and *Geoffrey Beene*, *Kenneth Cole New York*, *Kenneth Cole Reaction*, *Sean John*, *JOE Joseph Abboud*, *MICHAEL Michael Kors*, *Michael Kors Collection*, *Chaps*, *Donald J. Trump Signature Collection*, *DKNY*, *Elie Tahari*, *Nautica*, *Ted Baker*, *J. Garcia*, *Claiborne*, *Robert Graham*, *U.S. POLO ASSN.*, *Ike Behar*, *Axcess*, *Jones New York* and *John Varvatos*, which are licensed, as well as various other licensed and private label brands. We design and market branded dress shirts, neckwear, sportswear and, to a lesser extent, footwear and other related products. Additionally, we license our owned brands over a broad range of products. We market our brands globally at multiple price points and across multiple channels of distribution, allowing us to provide products to a broad range of consumers, while minimizing competition among our brands and reducing our reliance on any one demographic group, merchandise preference, distribution channel or geographic region. During 2012, our directly operated businesses in North America (United States and Canada) consisted principally of wholesale dress furnishings sales under our owned and licensed brands; wholesale men’s sportswear sales under our *Calvin Klein*, *Tommy Hilfiger*, *Van Heusen*, *IZOD* and *ARROW* brands; and the operation of retail stores, principally in outlet malls, under our *Calvin Klein*, *Tommy Hilfiger*, *Van Heusen*, *IZOD* and *Bass* brands. During 2012, our directly operated businesses outside of North America consisted principally of our Tommy Hilfiger International wholesale and retail businesses in Europe and Japan and our Calvin Klein dress furnishings and wholesale Calvin Klein Collection businesses in Europe. Our licensing activities principally related to the licensing worldwide of our *Calvin Klein* trademark for a broad range of lifestyle products and for specific geographic regions.

On February 13, 2013, we acquired Warnaco, which follows our transformational acquisitions of Calvin Klein in 2003 and Tommy Hilfiger in 2010, and reinforces our strategy to drive the *Calvin Klein* brand's reach globally. Prior to the acquisition, Warnaco was our largest licensee for *Calvin Klein* products and paid us an administrative fee on sales of *Calvin Klein* underwear, sleepwear and loungewear, product categories for which it is the beneficial owner of the *Calvin Klein* trademark. Royalty and administrative fee payments to us by Warnaco accounted for approximately 37% of our Calvin Klein royalty, advertising and other revenue in 2012. By reuniting the *Calvin Klein* brand under one owner, we will have complete direct global control of the brand image and commercial decisions for the two largest *Calvin Klein* apparel categories - jeans and underwear. Under a single brand vision, we will be able to better coordinate product design, merchandising, supply chain, retail distribution and marketing, which we believe will strengthen the brand's image, positioning and execution across all markets. The Warnaco acquisition also takes advantage of our and Warnaco's complementary geographic operations. Warnaco's operations in Asia and Latin America will enhance our opportunities in these high-growth regions, and we will have the ability to leverage our expertise and infrastructure in North America and Europe to enhance the growth and profitability of Warnaco's Calvin Klein jeanswear and underwear businesses in these regions. The acquisition also brings the *Speedo*, *Warner's* and *Olga* brands into our Heritage Brands portfolio. Warnaco also previously distributed sportswear and swimwear under the *Chaps* brand, but this license was reacquired by Ralph Lauren Corporation effective contemporaneously with the Warnaco acquisition. With a diversified brand portfolio and strong operations in every major consumer market around the world, we believe our business will be better balanced across geographies, channels of distribution, product categories and price points, and we will have the opportunity to realize revenue growth and enhanced profitability.

We completed the Tommy Hilfiger acquisition during the second quarter of 2010. *Tommy Hilfiger* is a global designer lifestyle brand under which we design, source and market menswear, womenswear, children's apparel, denim collections and other products worldwide. We also license the *Tommy Hilfiger* brands worldwide over a broad range of complementary lifestyle products.

During 2012, we aggregated our segments into three main businesses: (i) Tommy Hilfiger, which consists of the Tommy Hilfiger North America and Tommy Hilfiger International segments; (ii) Calvin Klein, which consists of the Calvin Klein Licensing segment (including our Calvin Klein Collection business, which we operate directly in support of the global licensing of the *Calvin Klein* brands) and the Other (Calvin Klein Apparel) segment, which consists of our Calvin Klein dress furnishings, sportswear and outlet retail divisions in North America; and (iii) Heritage Brands, which consists of the Heritage Brand Wholesale Dress Furnishings, Heritage Brand Wholesale Sportswear and Heritage Brand Retail segments. Note 18, "Segment Data," in the Notes to Consolidated Financial Statements included in Item 8 of this report contains information with respect to revenue, income before interest and taxes and assets related to each segment, as well as information regarding our revenue generated from foreign and domestic sources, and the geographic locations where our long-lived assets are held.

Our revenue reached a record \$6.043 billion in 2012, approximately 39% of which was generated internationally. Our global designer lifestyle brands, *Tommy Hilfiger* and *Calvin Klein*, together generated approximately 72% of our revenue during 2012.

Our largest customers account for significant portions of our revenue. Sales to our five largest customers were 18.7% of our revenue in 2012, 19.5% of our revenue in 2011 and 22.6% of our revenue in 2010. Macy's, Inc., our largest customer, accounted for 8.7% of our revenue in 2012, 9.4% of our revenue in 2011 and 10.1% of our revenue in 2010.

Calvin Klein Business Overview

We believe Calvin Klein is one of the best known designer names in the world and that the *Calvin Klein* brands — *Calvin Klein Collection*, *ck Calvin Klein* and *Calvin Klein* — provide us with the opportunity to market products both domestically and internationally at higher price points, in higher-end distribution channels and to various consumer groups. In order to more efficiently and effectively exploit the development opportunities for each brand, a tiered-brand strategy was established to provide a focused, consistent approach to global brand growth and development. Each of the *Calvin Klein* brands occupies a distinct marketing identity and position that preserves the brand's prestige and image. Products sold under the *Calvin Klein* brands in 2012 were sold primarily under licenses and other arrangements. As discussed above, Warnaco was our largest licensee and also paid us fees in connection with its sales of underwear, sleepwear and loungewear under the *Calvin Klein* brands, product categories for which it beneficially owns the trademark. As a result of the acquisition, we expect our directly operated businesses to account for a majority of *Calvin Klein* sales in 2013. Calvin Klein designs all products and/or controls all design operations and product development and oversees a worldwide marketing, advertising and promotions program for the *Calvin Klein* brands. We believe that maintaining control over design and advertising through Calvin Klein's dedicated in-house teams plays a key role in the continued strength of the brands. In 2012, over \$300 million was spent globally in connection with the advertising, marketing and promotion of the *Calvin Klein* brands and these expenses were principally funded by Calvin Klein's licensees and other authorized users of the brands. Worldwide retail sales of products sold under the *Calvin Klein* brands were approximately \$7.6 billion in 2012.

During 2012, our Calvin Klein business included (i) licensing and similar arrangements worldwide for use of the *Calvin Klein* brands in connection with a broad array of products, including jeans, underwear, women's dresses and suits, men's tailored clothing, women's sportswear and performance apparel, men's and women's bridge, collection and golf apparel, fragrances, eyewear, hosiery, socks, footwear, swimwear, jewelry, watches, outerwear, handbags, small leather goods and home furnishings (including furniture), as well as to operate retail stores outside North America; (ii) the marketing of the *Calvin Klein Collection* brand high-end men's and women's apparel and accessories collections through our *Calvin Klein Collection* flagship store located in New York City and our Calvin Klein Collection wholesale business (the arrangements described in clause (i) and the Calvin Klein Collection business described in this clause (ii) together constituting our Calvin Klein Licensing segment); and (iii) our wholesale Calvin Klein dress furnishings and men's better sportswear businesses, which operate principally in the United States and Canada, and our Calvin Klein outlet retail business (these businesses collectively constituting our Other (Calvin Klein Apparel) segment).

Our *Calvin Klein* men's dress shirts, neckwear and sportswear target the modern classical consumer, are marketed at better price points and are distributed principally in better fashion department and specialty stores in North America, including Macy's and Dillard's, Inc. We also offer our *Calvin Klein Collection* and *ck Calvin Klein* dress shirts to the more limited channel of luxury department and specialty stores, as well as through freestanding *Calvin Klein Collection* and *ck Calvin Klein* stores operated by Warnaco and others.

Our *Calvin Klein* stores are located principally in premium outlet centers in the United States and Canada and offer men's and women's apparel and other *Calvin Klein* products to communicate the *Calvin Klein* lifestyle. We also operate one *Calvin Klein Collection* store, located on Madison Avenue in New York City, that offers high-end men's and women's *Calvin Klein Collection* apparel and accessories and other products under the *Calvin Klein* brands.

Warnaco's Calvin Klein business includes men's and women's jeans and related apparel worldwide; jeans accessories in Europe and Asia; men's and women's underwear worldwide; and men's and women's swimwear in North America and Europe. Warnaco's *Calvin Klein* products are distributed through all major channels of distribution. In addition, Warnaco distributes its *Calvin Klein* products through dedicated retail stores, including approximately 1,900 company-operated *Calvin Klein* retail stores worldwide, principally in Europe, Asia, Mexico and Brazil. *Calvin Klein* products are also distributed through *Calvin Klein* retail stores operated by third parties under retail licenses or franchise and distributor agreements.

An important source of our revenue is Calvin Klein's arrangements with licensees and other third parties worldwide that manufacture and distribute globally a broad array of products under the *Calvin Klein* brands. Calvin Klein combines its design, marketing and imaging skills with the specific manufacturing, distribution and geographic capabilities of its licensing and other partners to develop, market and distribute a variety of goods across a wide range of categories and to expand existing lines of business.

Calvin Klein has approximately 50 licensing and other arrangements (after giving effect to the Warnaco acquisition) across the three *Calvin Klein* brands. The arrangements are generally exclusive to the applicable territory and/or product category licensed. Calvin Klein's key licensing partners, and the products and territories licensed, include:

Licensing Partner	Product Category and Territory
CK Watch and Jewelry Co., Ltd. (Swatch SA)	Men's and women's watches (worldwide) and women's jewelry (worldwide, excluding Japan)

Peerless Delaware, Inc.	Men's better and bridge tailored clothing (United States, Canada, Mexico and, on a non-exclusive basis, South America)

Tommy Hilfiger Business Overview

Tommy Hilfiger is one of few globally recognized designer lifestyle brands, with distribution in over 90 countries and more than 1,200 *Tommy Hilfiger* stores worldwide. The "classic American cool" spirit of the brand inspires a wide range of preppy, all-American designs that appeal to a diverse array of global consumers. *Tommy Hilfiger* occupies a unique position as a premium brand offering quality apparel, accessories and lifestyle products at accessible prices with a diverse consumer following. We believe the brand's global awareness has been achieved through consistent implementation of a global marketing and communications strategy, product enhancements, increased marketing and an improved in-store experience. We continue to make significant investments in global advertising and integrated marketing programs, with the popular "The Hilfigers" advertising campaign as the current cornerstone of our marketing strategy, leading a global creative vision for the brand.

Tommy Hilfiger's brand portfolio includes *Tommy Hilfiger*, *Hilfiger Denim* and *Tommy Girl* (which we refer to collectively as the *Tommy Hilfiger* brands). *Tommy Hilfiger* is targeted at the 25 to 45 year-old consumer, *Hilfiger Denim* is targeted at the 25 to 30 year-old, denim-oriented consumer and *Tommy Girl* is targeted at girls ages 12 to 18. *Tommy Hilfiger* product offerings by us and our licensees include sportswear for men, women and children; footwear; athletic apparel (golf, swim and sailing); bodywear (underwear, robes and sleepwear); eyewear; sunwear; watches; handbags; men's tailored clothing; men's dress furnishings; accessories; socks; small leather goods; fragrances; home and bedding products; bathroom accessories and luggage. The *Hilfiger Denim* product line consists of casual apparel for men and women with a focus on premium denim

separates, footwear, bags, accessories, eyewear and fragrance. Inspired by American denim classics with a modern edge, *Hilfiger Denim* is more “fashion forward” and casual than the *Tommy Hilfiger* label.

We sell *Tommy Hilfiger* products at wholesale and retail in North America, Europe and Japan and license the *Tommy Hilfiger* brands for an assortment of products in various markets. *Tommy Hilfiger* products are also sold through joint ventures in which we are a partner in China, India and, since January 2013, Brazil, and by third party distributors, licensees and franchisees in Europe, Southeast Asia, Australia, Central and South America and the Caribbean. Worldwide retail sales of *Tommy Hilfiger* products were approximately \$6.0 billion in 2012.

The *Tommy Hilfiger* wholesale business consists of the distribution and sale of products under the *Tommy Hilfiger* brands to distributors and licensees for resale, to stores operated by franchisees, licensees and distributors and to department and specialty stores. The European retail customers range from large department stores to small independent stores. *Tommy Hilfiger* has, since the Fall of 2008, conducted the majority of its North American wholesale operations through Macy's, which is currently the exclusive department store retailer for *Tommy Hilfiger* men's and women's sportswear in the United States. *Tommy Hilfiger* re-launched a wholesale business in Canada with The Bay, Canada's leading department store, in the Fall of 2011, initially offering men's sportswear and more recently expanding into women's sportswear.

The *Tommy Hilfiger* retail business principally consists of the distribution and sale of *Tommy Hilfiger* products in Europe, the United States, Canada and Japan through company-operated specialty stores and outlet stores, as well as through company-operated e-commerce sites. *Tommy Hilfiger* specialty stores consist of flagship stores, which are generally larger stores situated in high-profile locations in major cities and are intended to enhance local exposure of the brand, and anchor stores, which are located on high-traffic retail streets and in malls in secondary cities and are intended to provide incremental revenue and profitability. Company (outlet) stores in North America are primarily located in premium outlet centers and carry specially designed merchandise that is sold at a lower price point than merchandise sold in our specialty stores. Company (outlet) stores operated by *Tommy Hilfiger* in Europe and Japan are used primarily to clear excess inventory from previous seasons at discounted prices and also carry specially designed merchandise.

We license the *Tommy Hilfiger* brands to third parties both for specific product categories and in certain geographic regions, and generally on an exclusive basis. As of February 3, 2013, *Tommy Hilfiger* had over 25 license agreements. In 2011, we formed a joint venture in China in which we own a 45% economic interest. The joint venture assumed direct control of the licensed *Tommy Hilfiger* wholesale and retail distribution business in China from the prior licensee in August 2011. In addition, in September 2011, we acquired the perpetually licensed rights to the *Tommy Hilfiger* trademarks in India from GVM International Limited (“GVM”) and acquired from affiliates of GVM a 50% economic interest in a company that was renamed *Tommy Hilfiger Arvind Fashion Private Limited* (“TH India”). TH India was GVM's sublicensee of the *Tommy Hilfiger* trademarks for apparel, footwear and handbags in India. As a result of the transaction, TH India is now the direct licensee of the trademarks for all categories (other than fragrance), operates a wholesale apparel, footwear and handbags business in connection with its license and sublicenses the trademarks for certain other product categories in the region. In November 2012, we formed, with an experienced local partner, a joint venture in Brazil in which we own a 40% economic interest. The joint venture holds an exclusive license for the *Tommy Hilfiger* brand in Brazil that became effective on January 4, 2013.

Tommy Hilfiger's key licensing partners, and the products and territories licensed, include:

Licensing Partner	Product Category and Territory
American Sportswear S.A.	Men's, women's and children's sportswear, accessories and <i>Hilfiger Denim</i> distribution (Central America and South America (excluding Brazil))

Safilo Group S.P.A.	Men's, women's and children's eyeglasses and non-ophthalmic sunglasses (worldwide, excluding India)
SK Networks Co., Ltd.	Men's, women's and children's sportswear and <i>Hilfiger Denim</i> distribution (South Korea)
Swank, Inc.	Men's belts and small leather goods (United States, Canada and Mexico)
Tommy Hilfiger Asia-Pacific, Ltd.	Men's, women's and children's sportswear and <i>Hilfiger Denim</i> distribution (Hong Kong, Macau, Malaysia, Singapore and Taiwan)
TH Asia Ltd.*	Men's, women's and children's sportswear and <i>Hilfiger Denim</i> distribution (China)
Tommy Hilfiger Australia PTY, Ltd.	Men's and women's sportswear and <i>Hilfiger Denim</i> distribution (Australia)
Tommy Hilfiger do Brasil S.A.*	All products, other than fragrances, watches, eyewear, jewelry and home furnishings (Brazil)

*Joint venture in which we own an interest.

The results of our Tommy Hilfiger wholesale, retail and licensing operations in the United States and Canada are reported in our Tommy Hilfiger North America segment, and wholesale, retail and licensing operations outside of North America are reported in our Tommy Hilfiger International segment.

Heritage Brands Business Overview

Our Heritage Brands business encompasses the design, sourcing and marketing of a varied selection of branded dress shirts, neckwear, sportswear, footwear and underwear, as well as the licensing of our heritage brands (*Van Heusen, IZOD, ARROW* and *Bass*), for an assortment of products. The Heritage Brands business also includes private label dress furnishings programs, particularly neckwear programs. We design, source and market these products to target distinct consumer demographics and lifestyles in an effort to minimize competition among our brands. We distribute our Heritage Brands products at wholesale in national and regional department, mid-tier department, mass market, specialty and independent stores in the United States and Canada. Our men's wholesale business represents our core business. As a complement to our wholesale business, we also market our Heritage Brands products directly to consumers through our *Van Heusen, IZOD* and *Bass* retail stores, principally located in outlet centers throughout the United States and Canada.

We intend to integrate Warnaco's Speedo (swim products) and Warner's and Olga (women's intimates) businesses into our Heritage Brands business.

Heritage Brand Wholesale Dress Furnishings. Our Heritage Brand Wholesale Dress Furnishings segment principally consists of the design and marketing of men's dress shirts and neckwear. We market both dress shirts and neckwear under brands including *Van Heusen, ARROW, IZOD, Eagle, Sean John, Donald J. Trump Signature Collection, Kenneth Cole New York, Kenneth Cole Reaction, JOE Joseph Abboud, DKNY, Elie Tahari, J. Garcia, Ike Behar, MICHAEL Michael Kors, Michael Kors Collection* and *John Varvatos*. We also market dress shirts under the *Geoffrey Beene* and *Chaps* brands and neckwear under the *Nautica, Jones New York, Ted Baker, Access, U.S. POLO ASSN., Bass, Claiborne* and *Robert Graham* brands, among others. Collectively, our product offerings represent a sizeable portion of the domestic dress furnishings market. We market dress shirts and neckwear under our owned and licensed brands, as well as private label brands, primarily to department, mid-tier department and specialty stores, as well as, to a lesser degree, mass market stores.

The following provides additional information for some of the more significant brands, as determined based on 2012 sales volume:

The *Van Heusen* dress shirt continues to be the best selling national brand dress shirt in United States department and chain stores in 2012. *Van Heusen* dress shirts and neckwear target the updated classical consumer, are marketed at opening to moderate price points and are sold principally in department stores, including Belk, Inc., Stage Stores, Inc., The Bon-Ton Stores, Inc., Macy's, J.C. Penney Company, Inc., and Kohl's Corporation.

ARROW was the second best selling national brand dress shirt in United States department and chain stores in 2012. *ARROW* dress shirts and neckwear target the updated classical consumer, are marketed at opening to moderate price points and are sold principally in mid-tier department stores, including Kohl's, Sears, Roebuck and Co. and Stage Stores.

The *Geoffrey Beene* dress shirt was the third best selling national brand dress shirt in United States department and chain stores in 2012. *Geoffrey Beene* dress shirts target the more style-conscious consumer, are marketed at moderate to upper moderate price points and are sold principally in department and specialty stores, including Macy's, Belk, Bon-Ton and Casual Male Retail Group, Inc. We market *Geoffrey Beene* dress shirts under a license agreement with Geoffrey Beene, LLC with a current term that expires on December 31, 2021, and a right of renewal (subject to certain conditions) through December 31, 2028.

Kenneth Cole New York and *Kenneth Cole Reaction* dress shirts and neckwear target the modern consumer, are marketed at bridge and better price points, respectively, and are sold principally in department stores. We market both brands of *Kenneth Cole* dress shirts and neckwear under a license agreement with Kenneth Cole Productions (Lic), Inc. that expires on December 31, 2014, which we may extend through December 31, 2019.

The *Chaps* dress shirt targets the updated traditional consumer, is marketed at moderate price points and is sold principally at Kohl's and Stage Stores. We market *Chaps* dress shirts under a license agreement with PRL USA, Inc. and The Polo/Lauren Company, LP that expires on March 31, 2014.

JOE Joseph Abboud dress shirts and neckwear target the more youthful, classical consumer, are marketed at moderate to better price points and are sold principally in department and men's specialty stores, including J.C. Penney and The Men's Wearhouse, Inc. We market *JOE Joseph Abboud* dress shirts and neckwear under a license agreement with J.A. Apparel Corp. that expires on December 31, 2020.

The *Eagle* dress shirt, a 100% cotton, no-iron shirt, and *Eagle* neckwear target the updated traditional consumer, are marketed at better price points and are sold principally in department stores, including Macy's and Bon-Ton.

IZOD dress shirts and neckwear target the modern traditional consumer, are marketed at moderate price points and are sold principally in department stores, including J.C. Penney and Belk.

MICHAEL Michael Kors dress shirts and neckwear target the modern consumer, are marketed at moderate to better price points and are sold principally in department stores, including Macy's. We market *MICHAEL Michael Kors* dress shirts and neckwear under a license agreement with Michael Kors, LLC that expires on January 31, 2015 and which we may extend, subject to mutual consent, through January 31, 2016.

We also offer private label dress shirt and neckwear programs to retailers. These programs present an opportunity for us to leverage our design, sourcing, manufacturing and logistics expertise. Private label programs offer the consumer quality product and offer the retailer the opportunity to enjoy product exclusivity at generally higher margins. Private label products, however, generally do not have the same level of consumer recognition as branded products and we do not provide retailers with the same breadth of services and in-store sales and promotional support as we do for our branded products. We market private label dress shirts and neckwear to national department and mass market stores.

Heritage Brand Wholesale Sportswear. Our Heritage Brand Wholesale Sportswear segment principally includes the design and marketing of sportswear, including men's knit and woven sport shirts, sweaters, bottoms, swimwear and outerwear, at wholesale, primarily under the *IZOD*, *Van Heusen* and *ARROW* brands.

IZOD was the third best selling national brand men's knit shirt (excluding T-shirts and sports jerseys) in United States department and chain stores in 2012. *IZOD* men's sportswear includes a broad range of product categories and is marketed in several collections, including the classic *IZOD* blue label (for J.C. Penney and regional department stores), *IZOD XFG* (performance/technical activewear), and *IZOD LX*. *IZOD* men's sportswear is targeted to the active inspired consumer, is marketed at moderate to upper moderate price points and is sold principally in department stores including Macy's, Stage Stores, Belk, Bon-Ton and J.C. Penney, where we opened shop-in-shops in approximately 680 stores in September 2012.

Van Heusen was the best selling national brand men's woven sport shirt in United States department and chain stores in 2012. The *Van Heusen* sportswear collection also includes knit sport shirts, chinos and sweaters. Like *Van Heusen* dress shirts, the sportswear collection is targeted to the updated classical consumer, is marketed at opening to moderate price points and is sold principally to the same department stores.

ARROW was the third best selling national brand men's woven sport shirt in United States department and chain stores in 2012. *ARROW* sportswear consists of men's knit and woven tops, sweaters and bottoms. *ARROW* sportswear targets the updated traditional consumer, is marketed at moderate price points and is sold principally in mid-tier department stores, including Kohl's, Stage Stores and Sears.

Heritage Brand Retail. Our Heritage Brand Retail segment operates stores under the *Van Heusen*, *IZOD* and *Bass* names, primarily in outlet centers throughout the United States and Canada. We believe these stores are an important complement to our wholesale operations because we believe that the stores further enhance consumer awareness of our brands by offering products that are not available in our wholesale lines, while also providing a means for managing excess inventory, as well as direct control of the in-store customer experience.

Our *Van Heusen* stores offer men's dress shirts, neckwear and underwear, men's and women's suit separates, men's and women's sportswear, including woven and knit shirts, sweaters, bottoms and outerwear, and men's and women's accessories. These stores are targeted to the value-conscious consumer who looks for classically styled, moderately priced apparel.

Our *IZOD* stores offer men's and women's active-inspired sportswear, including woven and knit shirts, bottoms and activewear and men's and women's accessories. These stores primarily focus on golf, travel and resort clothing.

Our *Bass* stores offer casual and dress shoes for men, women and children. Most of our *Bass* stores also carry apparel for men and women, including tops, neckwear, bottoms and outerwear, as well as accessories such as handbags, wallets, belts and travel gear.

Licensing. We license our heritage brands globally for a broad range of products through approximately 40 domestic and 40 international license agreements covering approximately 145 territories combined. We believe that licensing provides us with a relatively stable flow of revenues with high margins and extends and strengthens our brands.

We grant licensing partners the right to manufacture and sell at wholesale specified products under one or more of our brands. In addition, certain foreign licensees are granted the right to open retail stores under the licensed brand name. A substantial portion of the sales by our domestic licensing partners is made to our largest wholesale customers. We provide support to our licensing partners and seek to preserve the integrity of our brand names by taking an active role in the design, quality control, advertising, marketing and distribution of each licensed product, most of which are subject to our prior approval and continuing oversight.

Our heritage brand licensing partners, and the products and territories licensed by them, include:

Weihai Dishang Fashion Brands Co., Ltd	<i>IZOD</i> men's and women's sportswear and accessories (China)

Speedo, Warner's and Olga. As part of the Warnaco acquisition we acquired the *Warner's* and *Olga* women's intimate apparel brands and a perpetual license with Speedo International Limited, the owner of such brand, that permits us to design, manufacture and market certain men's, women's and children's swimwear, sportswear and related products under the *Speedo* trademark exclusively in the United States, Canada, Mexico and the Caribbean.

Speedo swimwear and accessories, including swim goggles, water-based fitness products, electronics and other swim and fitness-related products for adults and children, are distributed through all major distribution channels, sporting goods stores, team dealers, catalog retailers and the www.SpeedoUSA.com website.

Warner's and *Olga* women's intimate apparel is marketed at moderate to better price points and is primarily distributed in the United States, Mexico, Canada and the Caribbean through all major distribution channels.

Our Business Strategy

We intend to grow our existing Calvin Klein and Tommy Hilfiger businesses, with particular emphasis on growth in Asia and Latin America, as well as to increase the revenue and profitability of our Heritage Brands business, through the execution strategies described below. In addition, we intend to capitalize on the significant opportunities presented by the Warnaco acquisition, particularly the opportunities to restore growth and improve profitability in Warnaco's Calvin Klein jeanswear and underwear businesses.

Calvin Klein Business

The tiered-brand strategy we created for the *Calvin Klein* brands establishes a strategic brand architecture to guide the global brand growth and development of all three brand tiers by differentiating each of the *Calvin Klein* brands with distinct marketing identities, positioning and channels. Additionally, branding product across three tiers allows flexibility from market to market to build businesses that address the differences between markets. After giving effect to the Warnaco acquisition, we have approximately 50 license arrangements with third parties across the three *Calvin Klein* brands. These arrangements grant rights to market a broad range of products worldwide or in specified countries and/or to open retail stores in countries outside of the United States. The *Calvin Klein* brands are as follows:

- *Calvin Klein Collection* — our “halo” brand under which men's and women's high-end collection apparel and accessories are sold both in the United States and overseas.
- *ck Calvin Klein* — our bridge brand, under which apparel and accessories are sold through specialty and department stores, as well as freestanding *ck Calvin Klein* stores in Europe and Asia.
- *Calvin Klein* — our white label “better” brand under which we sell men's sportswear and license various other lines (including men's and women's footwear, handbags, women's sportswear, dresses, men's and women's outerwear, accessories, and fragrance) and our *ck one* lifestyle brand.

Warnaco is our largest *Calvin Klein* licensee and also beneficially owns the *Calvin Klein* trademark for underwear, sleepwear and loungewear. Acquiring Warnaco presents us with additional opportunities to grow our Calvin Klein business. We believe that additional investments above our initial expectations are required to achieve our goal of rebuilding Warnaco's global Calvin Klein jeanswear and underwear businesses. Therefore, we see 2013 as a year of investment and transition. These investments include (i) enhancing the existing infrastructure (systems and supply chain), (ii) upgrading *Calvin Klein* jeanswear product design and quality with an emphasis on geographic differentiation, (iii) investing in in-store marketing and the in-store customer experience, (iv) adding appropriate talent to fill key design, marketing and merchandising positions, (v) rationalizing global excess inventory levels, and (vi) reducing and restructuring the off-price and club sales distribution in Europe and North America. Our key strategies for the Warnaco Calvin Klein businesses include the following:

Improving execution for jeans and underwear and the “Calvin Klein” brand globally. Since we acquired Calvin Klein in 2003, global retail sales have grown at a compounded annual rate of approximately 12%. Product innovation, category extensions and a targeted global brand marketing message are key drivers for the *Calvin Klein* brands. By acquiring Warnaco, we have gained full control of the brand image and commercial decisions for the two largest apparel categories of *Calvin Klein* — jeans and underwear — for the first time. Our strategies to increase demand for *Calvin Klein Jeans* and *Calvin Klein Underwear* products include:

- Enhancing jeanswear design and improving coordination between design and in-country teams to address local market preferences;
- Aligning merchandise and presentation to be consistent with the global brand positioning of *Calvin Klein*;
- Optimizing product assortment across categories, channels and regions;
- Transitioning the Warnaco businesses in North America and Europe to our existing processes, supply chain and systems to enhance fulfillment of wholesale orders; and
- Creating a cohesive and consistent single brand message across categories, including sportswear, jeanswear, underwear and accessories.

Rebalancing distribution and improving profitability in North America. In North America, we intend to leverage our existing infrastructure and expertise to improve profitability of Warnaco’s Calvin Klein jeanswear and underwear businesses by:

- Rebalancing the mix of distribution among the full price, off-price and club channels;
- Leveraging our North American retail stores to better showcase jeans and underwear; and
- Expanding category breadth, where appropriate.

Leveraging our European operating platform and management team. We plan to integrate Warnaco’s European Calvin Klein businesses into our existing Tommy Hilfiger operating platform and leverage our systems and the expertise of our European management team to enhance execution and profitability of the Warnaco businesses, in addition to managing the Calvin Klein “bridge” business in Europe that we were to take over in 2013, by employing the following strategies:

- Streamlining the cost structure within the existing jeanswear and underwear infrastructure in Europe;
- Optimizing distribution mix by reducing distribution in the off-price channel;
- Utilizing the Tommy Hilfiger matrix model to improve product placement and execution at wholesale and retail on a country/regional basis;
- Improving the sales productivity by promoting the *Calvin Klein* lifestyle across Europe through more effective merchandising and marketing; and
- Coordinating the European jeanswear and underwear strategy with the re-launch of the bridge wholesale business.

Continuing expansion in emerging markets. The Warnaco acquisition provides us with an established presence and local operations in high-growth emerging markets in Asia and Latin America, where we were less developed. We plan to continue growing in these markets by:

- Continuing to grow retail square footage in China and Brazil;
- Improving operating margins through improved execution and leveraging of expenses; and
- Evaluating opportunities to leverage existing capabilities to introduce and/or accelerate growth of additional categories and brands.

Realizing identified cost synergy opportunities. We believe the Warnaco acquisition will create significant opportunities to reduce overhead and administrative expenses. We currently expect to achieve costs savings through synergies, principally with respect to certain corporate functions and duplicative brand management functions in North America and Europe. We expect to realize approximately \$100 million of synergies in full by the end of 2016.

Tommy Hilfiger Business

We have significantly grown the Tommy Hilfiger business since we acquired it in 2010. Our strategies for continuing to grow revenues and improve profitability include the following:

Continue to expand the European business. We believe that there is significant potential for further expansion in Europe. Among other initiatives, our current strategies for the European market include:

- Growing the business in product categories that we believe are currently underdeveloped in Europe, such as pants, outerwear, underwear, accessories and womenswear;

- Expanding the bags and small leather goods business, which we acquired from our former licensee in 2010;
- Developing a Tommy Hilfiger tailored division, a business we acquired from a licensee at the end of 2012;
- Concentrating on the development of the business in underpenetrated markets where we believe there is growth potential, such as France, the United Kingdom, Scandinavia and Central and Eastern Europe (including Russia), through both our own retail expansion and increased wholesale sales, which we intend to support with increased advertising and marketing activities; and
- Increasing *Tommy Hilfiger's* presence in Europe through the opening of additional specialty and outlet retail stores (both by us and retail partners), including brand-promoting locations, such as those opened on Regent Street, London in 2012, Brompton Road, London in 2011, and the Champs-Élysées, Paris in 2010, and anchor stores in key shopping destinations worldwide, such as those opened in Frankfurt, Hamburg and Vienna since our acquisition of Tommy Hilfiger.

Grow and continue to strengthen the North American business. Our overarching goal in North America is to drive brand elevation in every channel and category in which we operate, while maximizing our current store portfolio and pursuing opportunities for growth. We intend to achieve growth in the North American business by:

- Enhancing our strategic alliance with Macy's by leveraging our logistics capabilities and "preferred vendor" relationship with Macy's, offering expanded merchandise assortments, adding and enhancing shop-in-shops in high-volume Macy's stores, featuring *Tommy Hilfiger* products in Macy's marketing campaigns and concentrating on brand enhancement and elevation through strategic marketing and investments in partnership with Macy's;
- Expanding product offerings by Tommy Hilfiger and its licensees in both the retail and wholesale channels;
- Increasing *Tommy Hilfiger's* overall presence and brand positioning through the opening of a limited number of specialty stores, as well as making focused capital improvements in our existing retail stores to improve image, presentation and productivity, and adding square footage in existing locations and opening new outlet stores, where appropriate;
- Elevating the product presentation and improving the visibility and exposure of the *Tommy Hilfiger* brand at The Bay in Canada;
- Investing in advertising and marketing initiatives, such as our well-received "The Hilfigers" marketing campaign, through TV, print and digital media, with an emphasis on growing our customer database and expanding our Hispanic marketing campaign; and
- Enhancing our merchandising focus by delivering the right product regionally and offering an engaging store experience.

Expansion of opportunities outside of Europe and North America. Our opportunities in the rest of the world can be achieved by:

- Leveraging Warnaco's operational experience in Asia and Latin America to facilitate the growth of the Tommy Hilfiger business in these regions over time;
- Capitalizing on opportunities to grow the Tommy Hilfiger business by repositioning the *Tommy Hilfiger* brand image to be more consistent throughout the world, and elevating the brand's visibility and positioning, such as through the opening of our first Asian flagship store on Omotesando in Tokyo in April 2012, and introducing regional sizing, enhancing product offerings and adopting other initiatives targeted at local market needs;
- Continuing the development of our joint ventures in China (operations started in August 2011), India (acquired interest in September 2011) and Brazil (operations started in January 2013) by expanding the brand's retail footprint, enhancing product and increasing price points; and
- Continuing a balanced strategy of acquiring licensees, distributors and franchisees where we believe we can achieve greater scale and success compared to our partners, while at the same time licensing businesses for product categories and markets when we believe experienced and/or local partners provide the best opportunity for success.

Further improve the e-commerce channel. We intend to seek to improve the online capabilities and functions of the *Tommy Hilfiger* European and North American e-commerce sites to improve the shopping experience and increase sales.

Heritage Brands Business

Our Heritage Brands business remains an important part of our overall business mix. We intend to integrate Warnaco's Speedo, Warner's and Olga businesses into our Heritage Brands business. Our key strategies for the Heritage Brands business include the following:

Continue to strengthen the competitive position and image of our brand portfolio. We intend for each of our heritage brands to be a leader in its respective market segment, with strong consumer awareness and loyalty. We believe that our heritage brands are successful because we have positioned each one to target distinct consumer demographics and tastes. We will continue to design and market our branded products to complement each other, satisfy lifestyle needs, emphasize product features important to our target consumers and increase consumer loyalty. We will seek to increase our market share in our businesses by expanding our presence through product extensions and increased floor space. We are also committed to investing in our brands through advertising, sponsorships and other means to maintain strong customer recognition.

Pursue international growth. We intend to expand the international distribution of our heritage brands, including through licensing. We have approximately 40 license agreements, covering approximately 145 territories outside of the United States to use our heritage brands in numerous product categories, including apparel, accessories, footwear, soft home goods and fragrances. We believe that our strong brand portfolio and broad product offerings enable us to seek additional growth opportunities in geographic areas where we are underpenetrated, such as Europe and Asia.

In order to implement the strategies for the Heritage Brands business described above, we have a number of initiatives in place, including the following:

Maintain and protect our top-performing dress furnishings divisions. Our dress furnishings divisions continue to grow through cross-channel expansion and market share gains. We are focused on elevating the in-store experience in top doors and identifying brand and channel opportunities for additional growth.

Exit underperforming businesses. We successfully exited our Timberland and Izod women's wholesale sportswear businesses in 2012 and continue to evaluate our businesses for productivity and profitability.

Targeting marketing spend. We target our marketing expenditures on initiatives that we believe will reflect each brand's core image, resonate with the target consumer and enhance the in-store shopping experience or encourage sales.

Focus on turnaround initiatives where appropriate. We are focused on revitalizing the Izod men's business at wholesale (including at J.C. Penney through the new full lifestyle presentation, upgraded product and complete shop-in-shop experience), as well as right-sizing the Heritage Brand retail divisions' real estate portfolio, while elevating the in-store experience and making strategic product investments to refocus on the brand's heritage and value proposition.

Other Strategic Opportunities

We intend to continue to build our brand portfolio through acquisition and licensing opportunities. While we believe we have an attractive and diverse portfolio of brands with growth potential, we will continue to explore acquisitions of companies or trademarks and licensing opportunities that we believe are additive to our overall business. New license opportunities allow us to fill new product and brand portfolio needs. We take a disciplined approach to acquisitions, seeking brands with broad consumer recognition that we can grow profitably and expand by leveraging our infrastructure and core competencies and, where appropriate, by extending the brand through licensing.

Seasonality

Our business generally follows a seasonal pattern. Our wholesale businesses tend to generate higher levels of sales in the first and third quarters, while our retail businesses tend to generate higher levels of sales in the fourth quarter. Royalty, advertising and other revenue tends to be earned somewhat evenly throughout the year, although the third quarter has the highest level of royalty revenue due to higher sales by licensees in advance of the holiday selling season. We expect this seasonal pattern will generally continue.

Design

Our businesses depend on our ability to stimulate and respond to consumer tastes and demands, as well as on our ability to remain competitive in the areas of quality and price.

A significant factor in the continued strength of our brands is our in-house design teams. We form separate teams of designers and merchandisers for each of our brands, creating a structure that focuses on the special qualities and identity of

each brand. These designers and merchandisers consider consumer taste and lifestyle and trends when creating a brand or product plan for a particular season. The process from initial design to finished product varies greatly but generally spans six to ten months prior to each retail selling season. Our product lines are developed primarily for two major selling seasons, Spring and Fall. However, certain of our product lines offer more frequent introductions of new merchandise.

Calvin Klein has a team of senior design directors who share a vision for the *Calvin Klein* brands and who each lead a separate design team. These teams control all design operations and product development for most licensees and other strategic partners.

Tommy Hilfiger seeks to reinforce the premium positioning of the *Tommy Hilfiger* brands by taking a coordinated and consistent worldwide approach to brand management. Products are then adapted and executed on a regional basis in order to adjust for local or regional sizing, fits, weather, trends and demand. Tommy Hilfiger management believes that regional execution and adaptation helps it anticipate, identify and respond more readily to changing consumer demand, fashion trends and local tastes or preferences. It also reduces the importance of any one collection and enables the brand to appeal to a wider range of customers.

Product Sourcing

In 2012, our products were produced in over 700 factories and over 50 countries worldwide. With the exception of handmade and handfinished neckwear, which is made in our Los Angeles, California facility and accounted for less than 10% of our total quantity of neckwear sourced and produced, all of our products were produced by independent manufacturers located in foreign countries in Europe, the Far East, the Indian subcontinent, the Middle East, South America, the Caribbean and Central America. The manufacturers of our products are required to meet our quality, cost, human rights, safety and environmental requirements. No single supplier is critical to our production needs and we believe that an ample number of alternative suppliers exist should we need to secure additional or replacement production capacity and raw materials. We source finished products and raw materials. Raw materials include fabric, buttons, thread, labels and similar materials. Raw materials and production commitments are generally made two to six months prior to production, and quantities are finalized at that time. We believe we are one of the largest users of shirting fabric in the world. Finished products consist of manufactured and fully assembled products ready for shipment to our customers and our stores.

Our foreign offices and buying agents enable us to monitor the quality of the goods manufactured by, and the delivery performance of, our suppliers, which includes the enforcement of human rights and labor standards through our ongoing approval and monitoring system. Our purchases from our suppliers are effected through individual purchase orders specifying the price, quantity, delivery date and destination of the items to be produced. Sales are monitored regularly at both the retail and wholesale levels and modifications in production can be made either to increase or reduce inventories. We continually seek suppliers throughout the world for our sourcing needs and place our orders in a manner designed to limit the risk that a disruption of production at any one facility could cause a serious inventory problem.

Tommy Hilfiger is a party to a nonexclusive agreement with Li & Fung Trading Limited under which Li & Fung performs most of Tommy Hilfiger's sourcing work. Under the terms of the agreement, Tommy Hilfiger is required to use Li & Fung for at least 54% of its sourced products. Our Tommy Hilfiger business also uses other third-party buying offices for a portion of its sourced products and has a small in-house sourcing team.

We are continuing to develop strategies and make investments to enhance our ability to provide our customers with timely product availability and delivery. Our investments should allow us to reduce the cycle time between the design of products and the delivery of those products to our customers. We believe the enhancement of our supply chain efficiencies and working capital management through the effective use of our distribution network and overall infrastructure will allow us to better control costs and provide improved service to our customers. The integration of Warnaco's sourcing network is a key element to our strategy to realize synergies and gain efficiencies.

We are committed to the health, safety and well-being of the workers throughout our supply chain and to the integrity of our products. We actively work to educate our associates and partners and improve factory conditions, as well as continue to invest in the communities where we do business.

Warehousing and Distribution

To facilitate distribution, our products are shipped from manufacturers to our wholesale and retail warehousing and distribution centers for inspection, sorting, packing and shipment. Our centers range in size and are principally located in the United States in Brinkley, Arkansas; Los Angeles, California; McDonough, Georgia; Jonesville, North Carolina; Reading,

Pennsylvania; and Chattanooga, Tennessee; and internationally in Venlo and Tegelen, The Netherlands; Montreal, Canada; and Urayasu-shi, Japan. Our warehousing and distribution centers are designed to provide responsive service to our customers and our retail stores, as the case may be, on a cost-effective basis. This includes the use of various forms of electronic communications to meet customer needs, including advance shipping notices for certain customers.

We believe that our investments in logistics and supply chain management allow us to respond rapidly to changes in sales trends and consumer demands while enhancing inventory management. We believe our customers can better manage their inventories as a result of our continuous analysis of sales trends, broad array of product availability and quick response capabilities. Certain of our products can be ordered at any time through our EDI replenishment systems. For customers who reorder these products, we generally ship these products within one to two days of order receipt. At the end of 2012 and 2011, our backlog of customer orders totaled \$930 million and \$729 million, respectively.

Advertising and Promotion

We market our brands and products to target distinct consumer demographics and lifestyles. Our marketing programs are an integral feature of our brands and their associated product offerings. Advertisements generally portray a lifestyle rather than a specific item. We intend for each of our brands to be a leader in its respective market segment, with strong consumer awareness and consumer loyalty. We believe that our brands are successful in their respective segments because we have strategically positioned each brand to target a distinct consumer demographic. We will continue to design and market our products to complement each other, satisfy lifestyle needs, emphasize product features important to our target consumers and encourage consumer loyalty.

We advertise our brands through digital media, including our e-commerce platforms and social media outlets, in order to expand our reach to customers and enable us to provide timely information in an entertaining fashion to consumers about our products, special events, promotions and store locations. In addition, we also advertise through print media (including fashion, entertainment/human interest, business, men's, women's and sports magazines and newspapers), on television and through outdoor signage.

We also advertise our brands through sport sponsorships and product tie-ins. In 2012, our *Van Heusen* brand continued its professional football marketing and media campaign through individual endorsement agreements with Pro Football Hall of Famers Steve Young and Jerry Rice and NFL quarterback Matthew Stafford. In addition, PGA golfer Webb Simpson was joined by Scott Piercy and Spencer Levin as ambassadors for the *IZOD* brand, and *IZOD* is the title sponsor of the *IZOD* IndyCar Series. *Calvin Klein* has a sponsorship agreement with the Brooklyn Nets and the Barclays Center and we have an all-brand regional sponsorship agreement with the New York Giants. We are also an official sponsor of the 2014 Super Bowl Host Committee and have the right to use the 2014 Super Bowl Host Committee logo and marks for promotional use with the *IZOD*, *Van Heusen*, *Calvin Klein* and *Tommy Hilfiger* brands. In addition, we participate in cooperative advertising programs with our retail partners.

With respect to our North America retail operations, we generally rely upon local outlet mall developers to promote traffic for their centers. Outlet center developers employ multiple formats, including signage (highway billboards, off-highway directional signs, on-site signage and on-site information centers), print advertising (brochures, newspapers and travel magazines), direct marketing (to tour bus companies and travel agents), radio and television and special promotions.

We believe *Calvin Klein* is one of the most well-known designer names in the world. Its high-profile, often cutting-edge global advertising campaigns have periodically garnered significant publicity, notoriety and debate among customers and consumers, as well as within the fashion industry, and have helped to establish and maintain the *Calvin Klein* name and image. *Calvin Klein* has a dedicated in-house advertising agency, with experienced creative and media teams that develop and execute a substantial portion of the institutional consumer advertising for products under the *Calvin Klein* brands and work closely with other *Calvin Klein* departments and business partners to deliver a consistent and unified brand message to the consumer.

Calvin Klein oversees a worldwide marketing, advertising and promotions program. *Calvin Klein* products are advertised primarily in national print media, through digital media and on television, including the *Calvin Klein Concept* underwear commercial that was aired during the Super Bowl broadcast in February 2013. Innovative marketing and advertising campaigns continue to fuel the global growth of *Calvin Klein*, highlighted by an expanded use of digital and social media marketing platforms, including the addition of a visually-driven, interactive *Tumblr* blog, which complements the brand's editorial and celebrity wardrobing programs, to further consumer awareness and appeal. We believe promotional activities throughout the year further strengthen brand awareness of the *Calvin Klein* brands. In addition to offering a broad array of

Calvin Klein apparel and licensed products, Calvin Klein's website, www.calvinklein.com, also serves as a marketing vehicle to complement the ongoing development of the *Calvin Klein* brands.

Calvin Klein also has a dedicated in-house global communications agency, which incorporates corporate communications, public relations, celebrity dressing and special events. This group coordinates many global events including the Spring and Fall *Calvin Klein Collection* fashion shows in New York City and Milan, and oversees the dressing of celebrities for events, movie award ceremonies and movie premieres.

We believe that *Tommy Hilfiger* is also one of the world's most well-known designer brands. Tommy Hilfiger employs advertising, marketing and communications staff, including an in-house creative team, as well as outside agencies, to implement its global marketing and communications strategy across all channels of distribution. The Tommy Hilfiger marketing and communications team develops and coordinates Tommy Hilfiger advertising for all regions and product lines, licensees and regional distributors. Advertisements for *Tommy Hilfiger* brand products appear primarily in fashion and lifestyle magazines, newspapers, outdoor media and cinema and on television. We also have increased the digital and online focus of marketing for the *Tommy Hilfiger* brands. The marketing and communications team also coordinates selected personal appearances by Mr. Tommy Hilfiger, including at runway shows, brand events and flagship store openings as part of its efforts. Most of Tommy Hilfiger's licensees and distributors are required to contribute a percentage of their net sales of *Tommy Hilfiger* products, generally subject to minimum amounts, to the advertising and promotion of the *Tommy Hilfiger* brand and products. We maintain multiple showroom facilities and sales offices in Europe, North America and Asia for *Tommy Hilfiger*. We launch significant brand advertising campaigns two times per year in Spring/Summer and Fall/Winter to provide maximum consumer visibility of the new seasonal collections and to support sell-through. In addition to offering a broad array of *Tommy Hilfiger* apparel and licensed products, Tommy Hilfiger's website, www.tommy.com, also serves as a marketing vehicle to complement the ongoing development of the *Tommy Hilfiger* lifestyle brands.

Trademarks

We own the *Van Heusen*, *Bass*, *G.H. Bass & Co.*, *IZOD*, *ARROW*, *Eagle* and *Tommy Hilfiger* brands, as well as related trademarks (e.g., *IZOD XFG* and the *Tommy Hilfiger* flag logo and crest design) and lesser-known names. These trademarks are registered for use in each of the primary countries where our products are sold and additional applications for registration of these and other trademarks are made in jurisdictions to accommodate new marks, uses in additional trademark classes or additional categories of goods or expansion into new countries.

Calvin Klein beneficially owns the *Calvin Klein* marks and derivative marks in all trademark classes and for all product categories within each class, other than underwear, sleepwear and loungewear in Class 25, which are beneficially owned by Warnaco. As a result of the Warnaco acquisition, we effectively own 100% of the Calvin Klein Trademark Trust, which is the sole and exclusive title owner of substantially all registrations of the *Calvin Klein* trademarks. The sole purpose of the Trust is to hold these marks. Calvin Klein maintains and protects the marks on behalf of the Trust pursuant to a servicing agreement. The Trust licenses to Calvin Klein and Warnaco on an exclusive, irrevocable, perpetual and royalty-free basis the use of the marks on the goods for which each has beneficial ownership.

Mr. Calvin Klein retains the right to use his name, on a non-competitive basis, with respect to his right of publicity, unless those rights are already being used in the Calvin Klein business. Mr. Klein has also been granted a royalty-free worldwide right to use the *Calvin Klein* mark with respect to certain personal businesses and activities, such as motion picture, television and video businesses, a book business, writing, speaking and/or teaching engagements, non-commercial photography, charitable activities and architectural and industrial design projects, subject to certain limitations designed to protect the image and prestige of the *Calvin Klein* brands and to avoid competitive conflicts.

Mr. Tommy Hilfiger is prohibited in perpetuity from using, or authorizing others to use, the *Tommy Hilfiger* marks (except for the use by Mr. Hilfiger of his name personally and in connection with certain specified activities). In addition, we are prohibited in perpetuity from selling products not ordinarily sold under the names of prestige designer businesses or prestige global lifestyle brands without Mr. Hilfiger's consent, from engaging in new lines of business materially different from such types of lines of business without Mr. Hilfiger's consent, or from disparaging or intentionally tarnishing the *Tommy Hilfiger*-related marks or Mr. Hilfiger's personal name. The products that we are prohibited from selling include cigarettes, dog food and alcohol. Certain lines of business will not be considered "new lines of business" for purposes of the agreement, including apparel, fashion, eyewear, accessories, housewares, home and bedding products, personal care products, footwear, watches and leather goods.

Our trademarks are the subject of registrations and pending applications throughout the world for use on a variety of apparel, footwear and related products, and we continue to expand our worldwide usage and registration of new and related trademarks. In general, trademarks remain valid and enforceable as long as the marks continue to be used in connection with the products and services with which they are identified and, as to registered tradenames, the required registration renewals are filed. In markets outside of the United States, particularly those where products bearing any of our brands are not sold by us or any of our licensees or other authorized users, our rights to the use of trademarks may not be clearly established.

Our trademarks and other intellectual property rights are valuable assets and we vigorously seek to protect them on a worldwide basis against infringement. We are susceptible to others imitating our products and infringing on our intellectual property rights. This is especially the case with respect to the *Calvin Klein* and *Tommy Hilfiger* brands, as the *Calvin Klein* and *Tommy Hilfiger* brands enjoy significant worldwide consumer recognition and their generally higher pricing provides significant opportunity and incentive for counterfeiters and infringers. We have a broad, proactive enforcement program that we believe has been generally effective in controlling the sale of counterfeit products in the United States and in major markets abroad.

Contingent Purchase Price Payments

In connection with our acquisition of Calvin Klein, we are obligated to pay Mr. Calvin Klein contingent purchase price payments based on a percentage of total worldwide net sales of products bearing any of the *Calvin Klein* brands with respect to sales made through February 12, 2018. Our obligation to make contingent purchase price payments to Mr. Klein is guaranteed by our domestic Calvin Klein subsidiaries and is secured by a pledge of all of the equity interests in our Calvin Klein subsidiaries and a first priority lien on substantially all of our domestic Calvin Klein subsidiaries' assets. Events of default under the agreements governing the collateral for our contingent payment obligations to Mr. Klein include, but are not limited to (1) our failure to make payments to Mr. Klein when due, (2) covenant defaults, (3) cross-defaults to other indebtedness in excess of an agreed amount, (4) events of bankruptcy, (5) monetary judgment defaults and (6) a change of control, including the sale of any portion of the equity interests in our Calvin Klein subsidiaries. An event of default under those agreements would permit Mr. Klein to foreclose on his security interest in the collateral. In addition, if we fail to pay Mr. Klein a contingent purchase price payment when due and such failure to pay continues for 60 days or more after a final judgment by a court is rendered relating to our failure to pay, Mr. Klein will no longer be restricted from competing with us as he otherwise would be under the non-competition provisions contained in the purchase agreement related to our acquisition of Calvin Klein, although he would still not be able to use any of the *Calvin Klein* brands or any similar trademark in any competing business.

During the third quarter of 2011, we reacquired the rights in India to the *Tommy Hilfiger* trademarks that had been subject to a perpetual license previously granted to GVM. The transaction was accounted for as a business combination. We paid \$25.0 million during the third quarter of 2011 as consideration for this transaction. In addition, we are required to make annual contingent purchase price payments based on a percentage of annual sales in excess of an agreed upon threshold of *Tommy Hilfiger* products in India for a period of five years (or, under certain circumstances, a period of six years) following the acquisition date. Such payments are subject to a \$25.0 million aggregate maximum. During the third quarter of 2012, we made a contingent purchase price payment of \$0.2 million for the first one-year period.

Competition

The apparel industry is competitive as a result of its fashion orientation, mix of large and small producers, the flow of domestic and imported merchandise and the wide diversity of retailing methods. We compete with numerous domestic and foreign designers, brands, manufacturers and retailers of apparel, accessories and footwear.

We compete primarily on the basis of style, quality, price and service. Our business depends on our ability to stimulate consumer tastes and demands, as well as on our ability to remain competitive in these areas. We believe we are well-positioned to compete in the apparel industry. Our diversified portfolio of brands and products and our use of multiple channels of distribution have allowed us to develop a business that produces results which are not dependent on any one demographic group, merchandise preference, distribution channel or geographic region. We have developed a portfolio of brands that appeal to a broad spectrum of consumers. Our owned brands have long histories and enjoy high recognition within their respective consumer segments. We develop our owned and licensed brands to complement each other and to generate strong consumer loyalty. The *Calvin Klein* and *Tommy Hilfiger* brands generally provide us with the opportunity to develop businesses that target different consumer groups at higher price points and in higher-end distribution channels than our heritage brands, as well as with significant global opportunities due to the worldwide recognition of the brands.

Imports and Import Restrictions

A substantial portion of our products is imported into the United States, Canada, Europe and Asia. These products are subject to various customs laws, which may impose tariffs, as well as quota restrictions. Under the provisions of the World Trade Organization (“WTO”) agreement governing international trade in textiles, known as the “WTO Agreement on Textiles and Clothing,” the United States and other WTO member countries have eliminated quotas on textiles and apparel-related products from WTO member countries. As a result, quota restrictions generally do not affect our business in most countries. Presently, a portion of our imported products is eligible for certain duty-advantaged programs, including the North American Free Trade Agreement, Africa Growth & Opportunity Act, Central American Free Trade Agreement, Jordan Free Trade Agreement, Israel Free Trade Agreement, Egypt Qualifying Industrial Zones, Colombia Free Trade Agreement and the Peru Free Trade Agreement.

Environmental Matters

Our facilities and operations are subject to various environmental, health and safety laws and regulations. In addition, we may incur liability under environmental statutes and regulations with respect to the contamination of sites that we own or operate or previously owned or operated (including contamination caused by prior owners and operators of such sites, abutters or other persons) and the off-site disposal of hazardous materials. We believe our operations are in compliance with terms of all applicable laws and regulations.

Employees

As of February 3, 2013, we employed approximately 11,800 persons on a full-time basis and approximately 16,900 persons on a part-time basis. Approximately 2% of our employees were represented for the purpose of collective bargaining by five different unions. Additional persons, some represented by these five unions, are employed from time to time based upon our manufacturing schedules and retailing seasonal needs. Our collective bargaining agreements generally are for three-year terms. We believe that our relations with our employees are satisfactory.

Executive Officers of the Registrant

The following table sets forth the name, age and position of each of our executive officers:

Name	Age	Position
Emanuel Chirico	55	Chairman and Chief Executive Officer
Michael A. Shaffer	50	Executive Vice President and Chief Operating & Financial Officer
Francis K. Duane	56	Chief Executive Officer, Heritage Brands and North America Wholesale
Paul Thomas Murry	62	Chief Executive Officer, Calvin Klein
Fred Gehring	58	Chief Executive Officer, Tommy Hilfiger and PVH International Operations

Mr. Emanuel Chirico joined us as Vice President and Controller in 1993. Mr. Chirico was named Executive Vice President and Chief Financial Officer in 1999, President and Chief Operating Officer in 2005, Chief Executive Officer in February 2006, and Chairman of the Board in June 2007.

Mr. Michael A. Shaffer has been employed by us since 1990. He served as Senior Vice President, Retail Operations immediately prior to being named Executive Vice President, Finance in 2005, Executive Vice President and Chief Financial Officer in March 2006, and Executive Vice President and Chief Operating & Financial Officer in February 2012.

Mr. Francis K. Duane served as President of our Izod division from 1998 until 2001, was named Vice Chairman, Sportswear in 2001, Vice Chairman, Wholesale Apparel in March 2006, Chief Executive Officer, Wholesale Apparel in February 2012, and Chief Executive Officer, Heritage Brands and North America Wholesale in February 2013.

Mr. Paul Thomas Murry has been employed by Calvin Klein since 1996. Mr. Murry retained his position as President and Chief Operating Officer, Calvin Klein upon our acquisition of Calvin Klein in 2003 and was named President and Chief Executive Officer, Calvin Klein in September 2008. Mr. Murry’s title was shortened to Chief Executive Officer, Calvin Klein,

in connection with the reorganization we undertook in connection with the Warnaco acquisition; his responsibilities have not been reduced.

Mr. Fred Gehring has been employed by Tommy Hilfiger since 1996. Mr. Gehring retained his position as Chief Executive Officer, Tommy Hilfiger upon our acquisition of Tommy Hilfiger in 2010 and was also named Chief Executive Officer, PVH International Operations upon such acquisition.

Item 1A. Risk Factors

Acquisitions may not be successful in achieving intended benefits, cost savings and synergies; the acquired Warnaco business may underperform relative to our expectations; and the Warnaco acquisition may cause our financial results to differ from our expectations or the expectations of the investment community.

One component of our growth strategy has been to make acquisitions, such as the Warnaco acquisition. Prior to completing any acquisition, our management team identifies expected synergies, cost savings and growth opportunities, but due to legal and business limitations, we may not have access to all necessary information. The integration process may be complex, costly and time-consuming. The potential difficulties of integrating the operations of an acquired business, such as Warnaco, and realizing our expectations for an acquisition, including the benefits that may be realized, include, among other things:

- failure to implement our business plan for the combined business;
- delays or difficulties in completing the integration of acquired companies or assets;
- higher than expected costs, lower than expected cost savings and/or a need to allocate resources to manage unexpected operating difficulties;
- unanticipated issues in integrating manufacturing, logistics, information, communications and other systems;
- unanticipated changes in applicable laws and regulations;
- unanticipated changes in the combined business due to potential divestitures or other requirements imposed by antitrust regulators;
- retaining key customers, suppliers and employees;
- retaining and obtaining required regulatory approvals, licenses and permits;
- operating risks inherent in the acquired business and our business;
- diversion of the attention and resources of management;
- consumers' failure to accept product offerings by us or our licensees;
- assumption of liabilities not identified in due diligence;
- the impact on our or an acquired business' internal controls and compliance with the requirements under the Sarbanes-Oxley Act of 2002; and
- other unanticipated issues, expenses and liabilities.

We cannot assure you that any acquisition will not have a material adverse impact on our financial condition and results of operations.

Recent and future economic conditions, including volatility in the financial and credit markets, have affected, and in the future may adversely affect, our business.

Economic conditions have affected, and in the future may adversely affect, our business, our customers and our financing and other contractual arrangements. Recent economic developments have led to a reduction in consumer spending overall, which could have an adverse impact on our revenue and profitability. Such events have affected, and in the future could adversely affect, the businesses of our wholesale and retail customers, which, among other things, have resulted and may result in financial difficulties leading to restructurings, bankruptcies, liquidations and other unfavorable events for our customers, and may continue to cause such customers to reduce or discontinue orders of our products. Financial difficulties of customers may also affect the ability of our customers to access credit markets or lead to higher credit risk relating to receivables from customers.

Recent or future volatility in the financial and credit markets could make it more difficult for us to obtain financing or refinance existing debt when the need arises or on terms that would be acceptable to us.

A substantial portion of our revenue and gross profit is derived from a small number of large customers and the loss of any of these customers could substantially reduce our revenue.

A few of our customers account for significant portions of our revenue. Sales to our five largest customers were 18.7% of our revenue in 2012, 19.5% of our revenue in 2011 and 22.6% of our revenue in 2010. Macy's, our largest customer, accounted for 8.7% of our revenue in 2012, 9.4% of our revenue in 2011 and 10.1% of our revenue in 2010.

Tommy Hilfiger is party to a strategic alliance with Macy's providing for the exclusive wholesale distribution in the United States of most men's, women's and children's sportswear under the *Tommy Hilfiger* brand. The current term of the agreement with Macy's ends on January 31, 2014 and is renewable at the option of Macy's for up to two additional renewal terms of three years each. As a result of this strategic alliance, the success of Tommy Hilfiger's North American wholesale business is substantially dependent on this relationship and on Macy's ability to maintain and increase sales of *Tommy Hilfiger* products. We are currently in discussions with Macy's regarding renewing the agreement and currently expect the renewal to occur, although there can be no assurances this will be the case. In addition, our United States wholesale businesses may be affected by any operational or financial difficulties that Macy's experiences, including any deterioration in Macy's overall ability to attract customer traffic or in its overall liquidity position.

Other than Tommy Hilfiger's strategic alliance with Macy's, we do not have long-term agreements with any of our customers and purchases generally occur on an order-by-order basis. A decision by any of our major customers, whether motivated by marketing strategy, competitive conditions, financial difficulties or otherwise, to decrease significantly the amount of merchandise purchased from us or our licensing or other partners, or to change their manner of doing business with us or our licensing or other partners, could substantially reduce our revenue and materially adversely affect our profitability. During the past several years, the retail industry has experienced a great deal of consolidation and other ownership changes, as well as management changes, and we expect such changes to be ongoing. In addition, store closings by our customers decrease the number of stores carrying our apparel products, while the remaining stores may purchase a smaller amount of our products and may reduce the retail floor space designated for our brands. In the future, retailers may further consolidate, undergo restructurings or reorganizations, realign their affiliations or reposition their stores' target markets or marketing strategies. Any of these types of actions could decrease the number of stores that carry our products or increase the ownership concentration within the retail industry. These changes could decrease our opportunities in the market, increase our reliance on a smaller number of large customers and decrease our negotiating strength with our customers. These factors could have a material adverse effect on our financial condition and results of operations.

We may not be able to continue to develop and grow our Calvin Klein and Tommy Hilfiger businesses in terms of revenue and profitability.

A significant portion of our business strategy involves growing our Calvin Klein and Tommy Hilfiger businesses. Our achievement of revenue and profitability growth from Calvin Klein and Tommy Hilfiger will depend largely upon our ability to:

- realize the synergies, efficiencies and strategic rationale of the Warnaco acquisition;
- continue to maintain and enhance the distinctive brand identities of the *Calvin Klein* and *Tommy Hilfiger* brands;
- retain key employees at our Calvin Klein and Tommy Hilfiger businesses;

- continue to maintain good working relationships with Calvin Klein's and Tommy Hilfiger's licensees;
- continue to enter into new (or renew or extend existing) licensing agreements for the *Calvin Klein* and *Tommy Hilfiger* brands; and
- continue to strengthen and expand the Calvin Klein and Tommy Hilfiger businesses.

We cannot assure you that we can successfully execute any of these actions or our growth strategy for these brands, nor can we assure you that the launch of any additional product lines or businesses by us or our licensees or that the continued offering of these lines will achieve the degree of consistent success necessary to generate profits or positive cash flow. Our ability to successfully carry out our growth strategy may be affected by, among other things, our ability to enhance our relationships with existing customers to obtain additional selling space and/or add additional product lines, our ability to develop new relationships with retailers, economic and competitive conditions, changes in consumer spending patterns and changes in consumer tastes and style trends. If we fail to continue to develop and grow either the Calvin Klein or Tommy Hilfiger business in terms of revenue and profitability, our financial condition and results of operations may be materially and adversely affected.

The success of our Calvin Klein and Tommy Hilfiger businesses depends on the value of our "Calvin Klein" and "Tommy Hilfiger" brands, and if the value of either of those brands were to diminish, our business could be adversely affected.

Our success depends on our brands and their value. The *Calvin Klein* name is integral to the existing Calvin Klein business, as well as to our strategies for continuing to grow and expand Calvin Klein. The *Calvin Klein* brands could be adversely affected if Mr. Klein's public image or reputation were to be tarnished. We have similar exposure with respect to the *Tommy Hilfiger* brands. Mr. Hilfiger is closely identified with the *Tommy Hilfiger* brand and any negative perception with respect to Mr. Hilfiger could adversely affect the *Tommy Hilfiger* brand. In addition, under Mr. Hilfiger's employment agreement, if his employment is terminated for any reason, his agreement not to compete with the Tommy Hilfiger business will expire two years after such termination. Although Mr. Hilfiger could not use any *Tommy Hilfiger* trademark in connection with a competitive business, his association with a competitive business could adversely affect the Tommy Hilfiger business.

Our level of debt could impair our financial condition and ability to operate.

As of February 3, 2013, we had outstanding an aggregate of \$900 million of term loan borrowings under our amended senior secured credit facility, \$1.3 billion of senior unsecured notes (\$700 million of which was issued in connection with the Warnaco acquisition) and \$100 million of secured debentures. On February 13, 2013 we terminated our amended senior secured credit facility and entered into a new senior secured credit facility, under which we had \$3.075 billion of borrowings outstanding as of February 13, 2013. Our level of debt could have important consequences to investors, including:

- requiring a substantial portion of our cash flows from operations be used for the payment of interest on our debt, thereby reducing the funds available to us for our operations or other capital needs;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate because our available cash flow after paying principal and interest on our debt may not be sufficient to make the capital and other expenditures necessary to address these changes;
- increasing our vulnerability to general adverse economic and industry conditions because, during periods in which we experience lower earnings and cash flow, we will be required to devote a proportionally greater amount of our cash flow to paying principal and interest on our debt;
- limiting our ability to obtain additional financing in the future to fund working capital, capital expenditures, acquisitions, contributions to our pension plans and general corporate requirements;
- placing us at a competitive disadvantage to other relatively less leveraged competitors that have more cash flow available to fund working capital, capital expenditures, acquisitions, contributions to pension plans and general corporate requirements; and
- with respect to any borrowings we make at variable interest rates, including under our senior secured credit facility, leaving us vulnerable to increases in interest rates generally.

Our business is exposed to foreign currency exchange rate fluctuations.

Our Tommy Hilfiger business and the Calvin Klein jeanswear and underwear businesses acquired from Warnaco each have a substantial international component, which exposes us to significant foreign exchange risk. Accordingly, the impact of a strengthening United States dollar, particularly against the Euro, the Brazilian Real, the Japanese Yen, the Korean Won, the British Pound, the Canadian dollar, the Mexican Peso, the Indian Rupee and the Chinese Yuan, will have a negative impact on our results of operations.

We have exposure to changes in foreign currency exchange rates related to certain anticipated cash flows associated with certain international inventory purchases and certain intercompany loans. We currently use and plan to continue to use foreign currency forward exchange contracts or other derivative instruments to mitigate the cash flow or market value risks associated with these transactions, but we are unable to entirely eliminate these risks.

We are also exposed to market risk for changes in exchange rates for the United States dollar in connection with our licensing businesses, particularly our Calvin Klein business. Most of our license agreements require the licensee to report sales to us in the licensee's local currency but to pay us in United States dollars based on the exchange rate as of the last day of the contractual selling period. Thus, while we are not exposed to exchange rate gains and losses between the end of the selling period and the date we collect payment, we are exposed to exchange rate changes during and up to the last day of the selling period. In addition, certain of our other foreign license agreements expose us to exchange rate changes up to the date we collect payment or convert local currency payments into United States dollars. As a result, during times of a strengthening United States dollar, our foreign royalty revenue will be adversely impacted, and during times of a weakening United States dollar, our foreign royalty revenue will be favorably impacted.

We conduct business, directly or through licensees and other partners, in countries that are or have been subject to exchange rate control regulations and have, as a result, experienced difficulties in receiving payments owed to us when due, with amounts left unpaid for extended periods of time. Although the amounts to date have been immaterial to us, as our international businesses grow and if controls are enacted or enforced in additional countries, there can be no assurance that such controls would not have a material and adverse effect on our business, financial condition or results of operations.

We primarily use foreign suppliers for our products and raw materials, which poses risks to our business operations.

All of our apparel and footwear products, excluding handmade and handfinished neckwear, are produced by and purchased or procured from independent manufacturers located in countries in Europe, the Far East, the Indian subcontinent, the Middle East, South America, the Caribbean and Central America. We believe that we are one of the largest users of shirting fabric in the world. Although no single supplier or country is expected to be critical to our production needs, any of the following could materially and adversely affect our ability to produce or deliver our products and, as a result, have a material adverse effect on our business, financial condition and results of operations:

- political or labor instability in countries where contractors and suppliers are located;
- political or military conflict involving any of the countries in which we operate, which could cause a delay in the transportation of our products and raw materials to us and an increase in transportation costs;
- heightened terrorism security concerns, which could subject imported or exported goods to additional, more frequent or more thorough inspections, leading to delays in deliveries or impoundment of goods for extended periods or could result in decreased scrutiny by customs officials for counterfeit goods, leading to lost sales, increased costs for our anti-counterfeiting measures and damage to the reputation of our brands;
- a significant decrease in availability or increase in cost of raw materials or the inability to use raw materials produced in a country that is a major provider due to political, human rights, labor, environmental, animal cruelty or other concerns;
- a significant decrease in factory and shipping capacity;
- a significant increase in wage and shipping costs;
- disease epidemics and health-related concerns, which could result in closed factories, reduced workforces, scarcity of raw materials and scrutiny or embargoing of goods produced in infected areas;
- migration and development of manufacturers, which could affect where our products are or are planned to be produced;

- imposition of regulations, quotas and safeguards relating to imports and our ability to adjust timely to changes in trade regulations, which, among other things, could limit our ability to produce products in cost-effective countries that have the labor and expertise needed;
- imposition of duties, taxes and other charges on imports;
- a significant fluctuation of the value of the United States dollar against foreign currencies; and
- restrictions on transfers of funds out of countries where our foreign licensees are located.

If our manufacturers, or the manufacturers used by our licensees, fail to use legal and ethical business practices, our business could suffer.

We require our manufacturers, and the manufacturers used by our licensees (and the licensees themselves), to operate in compliance with applicable laws, rules and regulations regarding working conditions, employment practices and environmental compliance. Additionally, we impose upon our business partners operating guidelines that require additional obligations in those areas in order to promote ethical business practices, and our staff and third parties we retain for such purposes periodically visit and monitor the operations of these independent parties to determine compliance. In 2012, we signed a Joint Memorandum of Understanding to improve fire and building safety in Bangladesh's apparel factories and we continue to collaborate with factories, suppliers, industry participants and other engaged stakeholders to improve the lives of our factory workers and others in our sourcing communities. However, we do not control our manufacturers, or the manufacturers used by our licensees, or their labor, manufacturing and other business practices. If any of these manufacturers (or licensees) violates labor, environmental, building and fire safety, or other laws or implements labor, manufacturing or other business practices that are generally regarded as unethical in the United States, the shipment of finished products to us could be interrupted, orders could be cancelled and relationships could be terminated. In addition, we could be the focus of adverse publicity and our reputation could be damaged. This could be more adverse if multiple manufacturers engaged in these types of activities. Any of these events could have a material adverse effect on our revenue and, consequently, our results of operations.

We are dependent on third parties to source and/or manufacture our products and any disruption in the relationship with these parties or in their businesses may materially adversely affect our businesses.

We rely upon independent third parties for the vast majority of our apparel and footwear products. A manufacturer's failure to ship products to us in a timely manner or to meet required quality standards could cause us to miss the delivery date requirements of our customers for those products. As a result, customers could cancel their orders, refuse to accept deliveries or demand reduced prices. Any of these actions taken by our customers could have a material adverse effect on our revenue and, consequently, our results of operations.

In addition, we are a party to a non-exclusive buying agency agreement with Li & Fung to carry out most of our sourcing for *Tommy Hilfiger* products. Li & Fung is one of the world's largest buying agencies for apparel and related goods and is our largest buying office for *Tommy Hilfiger* products. Under the terms of the agreement, we are required to use Li & Fung for at least 54% of our global sourcing needs for *Tommy Hilfiger* products. The buying agency agreement with Li & Fung is terminable by us upon 12 months' prior notice for any reason, and is terminable by either party (i) upon six months' prior notice in the event of a material breach by the other party and (ii) immediately upon the occurrence of certain bankruptcy or insolvency events relating to the other party. We also use other third-party buying offices for a portion of our sourcing for *Tommy Hilfiger* products and have retained a small in-house sourcing team. Any interruption in the operations of Li & Fung or other buying offices, or the failure of Li & Fung or other buying offices to perform effectively their services for us, could result in material delays, reductions of shipments and increased costs. Furthermore, such events could harm our wholesale and retail relationships. Although alternative sourcing companies exist, we may be unable to source *Tommy Hilfiger* products through other third parties, if at all, on terms commercially acceptable to us and on a timely basis. Any disruption in our relationship with our buying offices or businesses, particularly Li & Fung, could have a material adverse effect on our cash flows, business, financial condition and results of operations.

We are dependent on a limited number of distribution facilities. If one becomes inoperable, our business, financial condition and operating results could be negatively impacted.

We operate a limited number of distribution facilities. Our ability to meet the needs of our retail customers and of our own retail stores depends on the proper operation of our primary facilities. If any of our primary facilities were to shut down or otherwise become inoperable or inaccessible for any reason, we could have a substantial loss of inventory and/or disruptions of deliveries to our customers and our stores, and/or incur significantly higher costs and longer lead times associated with the

distribution of our products during the time it takes to reopen or replace the facility. This could adversely affect our business, financial condition and operating results.

A portion of our revenue is dependent on royalties and licensing.

The operating profit associated with our royalty, advertising and other revenue is significant because the operating expenses directly associated with administering and monitoring an individual licensing or similar agreement are minimal. Therefore, the loss of a significant licensing partner, whether due to the termination or expiration of the relationship, the cessation of the licensing partner's operations or otherwise (including as a result of financial difficulties of the partner), without an equivalent replacement, could materially affect our profitability.

While we generally have significant control over our licensing partners' products and advertising, we rely on our licensing partners for, among other things, operational and financial controls over their businesses. Our licensing partners' failure to successfully market licensed products or our inability to replace our existing licensing partners could materially and adversely affect our revenue both directly from reduced royalty and advertising and other revenue received and indirectly from reduced sales of our other products. Risks are also associated with our licensing partners' ability to obtain capital; execute their business plans, including timely delivery of quality products; manage their labor relations; maintain relationships with their suppliers; manage their credit risk effectively; and maintain relationships with their customers.

Our licensing business makes us susceptible to the actions of third parties over whom we have limited control.

We rely on our licensing partners to preserve the value of our brands. Although we make every attempt to protect our brands through, among other things, approval rights over design, production quality, packaging, merchandising, distribution, advertising and promotion of our products, we cannot assure you that we can control the use by our licensing partners of each of our licensed brands. The misuse of our brands by a licensing partner could have a material adverse effect on our business, financial condition and results of operations. As a substantial portion of our Calvin Klein licensing revenue was generated from Warnaco (previously our largest licensee), this exposure has been substantially reduced by the acquisition of Warnaco on February 13, 2013.

Our retail stores are heavily dependent on the ability and desire of consumers to travel and shop.

Our North American retail stores are located principally in outlet malls, which are typically located in or near vacation destinations or away from large population centers where department stores and other traditional retailers are concentrated. As a result, reduced travel resulting from economic conditions, fuel shortages, increased fuel prices, travel restrictions, travel concerns and other circumstances, including adverse weather conditions, disease epidemics and other health-related concerns, war, terrorist attacks or the perceived threat of war or terrorist attacks could have a material adverse effect on us, particularly if such events impact certain of our higher-volume retail locations. Other factors that could affect the success of our stores include:

- the location of the mall or the location of a particular store within the mall;
- the other tenants occupying space at the mall;
- increased competition in areas where the outlet malls are located; and
- the amount of advertising and promotional dollars spent on attracting consumers to the malls.

We may be unable to protect our trademarks and other intellectual property rights.

Our trademarks and other intellectual property rights are important to our success and our competitive position. We are susceptible to others imitating our products and infringing on our intellectual property rights. Since our acquisitions of Calvin Klein and Tommy Hilfiger, we are more susceptible to infringement of our intellectual property rights, as the *Calvin Klein* and *Tommy Hilfiger* brands enjoy significant worldwide consumer recognition, and the generally higher pricing of *Calvin Klein* and *Tommy Hilfiger* branded products creates additional incentive for counterfeiters and infringers. Imitation or counterfeiting of our products or infringement of our intellectual property rights could diminish the value of our brands or otherwise adversely affect our revenue. We cannot assure you that the actions we take to establish and protect our trademarks and other intellectual property rights will be adequate to prevent imitation of our products by others or to prevent others from seeking to invalidate our trademarks or block sales of our products as a violation of their own trademarks and intellectual property rights. In addition, we cannot assure you that others will not assert rights in, or ownership of, trademarks and other intellectual property rights of ours or in marks that are similar to ours or marks that we license and/or market or that we will be able to successfully

resolve these types of conflicts to our satisfaction. In some cases, there may be trademark owners who have prior rights to our marks because the laws of certain foreign countries may not protect intellectual property rights to the same extent as do the laws of the United States. In other cases, there may be holders who have prior rights to similar marks. For example, in the past we were involved in proceedings relating to a company's claim of prior rights to the *IZOD* mark in Mexico and to another company's claim of prior rights to the *Calvin Klein* mark in Chile. We are currently involved in opposition and cancellation proceedings with respect to marks similar to some of our brands, both domestically and internationally.

The success of our dress furnishings business is dependent on the strategies and reputation of our licensors.

Our business strategy is to offer our products on a multiple brand, multiple channel and multiple price point basis. This strategy is designed to provide stability should market trends shift. As part of this strategy we license the names and brands of recognized designers and celebrities, including Kenneth Cole, Sean "Diddy" Combs (*Sean John*), Donald J. Trump, Michael Kors, Joseph Abboud, Donna Karan (*DKNY*), Ike Behar, Elie Tahari, John Varvatos and Robert Graham. In entering into these license agreements, we target our products towards certain market segments based on consumer demographics, design, suggested pricing and channel of distribution in order to minimize competition between our own products and maximize profitability. If any of our licensors determines to "reposition" a brand we license from them, introduce similar products under similar brand names or otherwise change the parameters of design, pricing, distribution, target market or competitive set, we could experience a significant downturn in that brand's business, adversely affecting our sales and profitability. In addition, as products may be personally associated with these designers and celebrities, our sales of those products could be materially and adversely affected if any of those individual's images, reputations or popularity were to be negatively impacted.

We face intense competition in the apparel industry.

Competition is intense in the apparel industry. We compete with numerous domestic and foreign designers, brands, manufacturers and retailers of apparel, accessories and footwear, some of which are significantly larger or more diversified or have greater resources than we do. In addition, through their use of private label programs, we compete directly with our wholesale customers. We compete within the apparel industry primarily on the basis of:

- anticipating and responding to changing consumer tastes and demands in a timely manner and developing attractive, quality products;
- maintaining favorable brand recognition;
- appropriately pricing products and creating an acceptable value proposition for customers;
- providing strong and effective marketing support;
- ensuring product availability and optimizing supply chain efficiencies with third-party manufacturers and retailers; and
- obtaining sufficient retail floor space and effective presentation of our products at retail.

The failure to compete effectively or to keep pace with rapidly changing markets could have a material adverse effect on our business, financial condition and results of operations. In addition, if we misjudge the market for our products, we could be faced with significant excess inventories for some products and missed opportunities for others.

The loss of members of our executive management and other key employees could have a material adverse effect on our business.

We depend on the services and management experience of our executive officers who have substantial experience and expertise in our business. We also depend on other key employees involved in our licensing, design and advertising operations. Competition for qualified personnel in the apparel industry is intense and competitors may use aggressive tactics to recruit our key employees. The unexpected loss of services of one or more of these individuals could materially adversely affect us.

A significant shift in the relative sources of our earnings, adverse decisions of tax authorities or changes in tax treaties, laws, rules or interpretations could have a material adverse effect on our results of operations and cash flow.

We have direct operations in many countries, and the applicable tax rates vary by jurisdiction. As a result, our overall effective tax rate could be materially affected by the relative level of earnings in the various taxing jurisdictions to which our earnings are subject. In addition, the tax laws and regulations in the countries where we operate may be subject to change and there may be changes in interpretation and enforcement of tax law. As a result, we may pay additional taxes if tax rates increase

or if tax laws, regulations or treaties in the jurisdictions where we operate are modified by the competent authorities in an adverse manner.

In addition, various national and local taxing authorities periodically examine us and our subsidiaries. The resolution of an examination or audit may result in us paying more than the amount that we may have reserved for a particular tax matter, which could have a material adverse effect on our cash flows, business, financial condition and results of operations for any affected reporting period.

We and our subsidiaries are engaged in a number of intercompany transactions. Although we believe that these transactions reflect arm's length terms and that proper transfer pricing documentation is in place, which should be respected for tax purposes, the transfer prices and conditions may be scrutinized by local tax authorities, which could result in additional tax becoming due.

If we are unable to fully utilize our deferred tax assets, our profitability could be reduced.

Our deferred income tax assets are valuable to us. These assets include tax loss and foreign tax credit carryforwards in various jurisdictions. Realization of deferred tax assets is based on a number of factors, including whether there will be adequate levels of taxable income in future periods to offset the tax loss and foreign tax credit carryforwards in jurisdictions where such assets have arisen. Valuation allowances are recorded in order to reduce the deferred tax assets to the amount expected to be realized in the future. In assessing the adequacy of our valuation allowances, we consider various factors including reversal of deferred tax liabilities, forecasted future taxable income and potential tax planning strategies. These factors could reduce the value of the deferred tax assets, which could have a material effect on our profitability.

Our profitability may decline as a result of increasing pressure on margins.

The apparel industry, particularly in the United States (our largest market), is subject to significant pricing pressure caused by many factors, including intense competition, consolidation in the retail industry, pressure from retailers to reduce the costs of products and changes in consumer demand. These factors may cause us to reduce our sales prices to retailers and consumers, which could cause our profitability to decline if we are unable to appropriately manage inventory levels and/or offset price reductions with sufficient reductions in product costs or operating expenses. This could have a material adverse effect on our results of operations, liquidity and financial condition.

We rely significantly on information technology. Our businesses could be adversely impacted if our computer systems are disrupted or cease to operate effectively.

Our ability to effectively manage and operate our business depends significantly on information technology systems. This is particularly important as we commence the integration of Warnaco and seek to transition its business and financial reporting systems onto our platforms. The failure of our systems to operate effectively, disruption in our systems or our inability to merge our systems with Warnaco's could adversely impact our operations. Additionally, any electronic or physical security breach involving the misappropriation, loss or other unauthorized disclosure of confidential or personally identifiable information, including penetration of our network security, whether by us or by a third party, could disrupt our business, severely damage our reputation and our relationships with our customers, expose us to risks of litigation and liability and adversely affect our business and results of operations.

Volatility in securities markets, interest rates and other economic factors could substantially increase our defined benefit pension costs and liabilities.

We have significant obligations under our defined benefit pension plans. These obligations will increase significantly as a result of the Warnaco acquisition, both as a result of the addition of a large number of new participants and because Warnaco has a discontinued plan, the assets of which still must be maintained. The funded status of our pension plans is dependent on many factors, including returns on invested plan assets and the discount rate used to measure pension obligations. Unfavorable returns on plan assets, a lower discount rate or unfavorable changes in the applicable laws or regulations could materially change the timing and amount of pension funding requirements, which could reduce cash available for our business.

Our operating performance also may be significantly impacted by the amount of expense recorded for our pension plans. Pension expense recorded throughout the year is calculated using actuarial valuations that incorporate assumptions and estimates about financial market, economic and demographic conditions. Differences between estimated and actual results give rise to gains and losses that are recorded immediately in pension expense, generally in the fourth quarter of the year, which can create volatility in our operating results.

Provisions in our certificate of incorporation and our by-laws and Delaware General Corporation Law could make it more difficult to acquire us and may reduce the market price of our common stock.

Our certificate of incorporation and by-laws contain certain provisions, including provisions requiring supermajority voting (80% of the outstanding voting power) to approve certain business combinations with beneficial owners of 5% or more of our outstanding stock entitled to vote for election of directors, permitting the Board of Directors to fill vacancies on the Board and authorizing the Board of Directors to issue shares of preferred stock without approval of our stockholders. These provisions could also have the effect of deterring changes of control.

In addition, Section 203 of the Delaware General Corporation Law imposes restrictions on mergers and other business combinations between us and any holder of 15% or more of our common stock. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the Board of Directors.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

The following discussion and analysis is intended to provide you with information about us, our operations and our financial performance. It should be read in conjunction with our consolidated financial statements and the accompanying notes, which are included elsewhere in this report.

We are one of the largest branded apparel companies in the world, with a heritage dating back over 130 years. Our brand portfolio consists of nationally and internationally recognized brand names, including our own brands — *Calvin Klein*, *Tommy Hilfiger*, *Van Heusen*, *IZOD*, *ARROW* and *Bass*, and our licensed brands — *Geoffrey Beene*, *Kenneth Cole New York*, *Kenneth Cole Reaction*, *MICHAEL Michael Kors*, *Sean John*, *Chaps*, *Donald J. Trump Signature Collection*, *JOE Joseph Abboud*, *DKNY*, *Ike Behar* and *John Varvatos*, as well as certain other owned, licensed and private label brands.

We acquired Warnaco on February 13, 2013 for \$3.1 billion, of which \$2.2 billion was paid in cash and the balance through the issuance of approximately 7.7 million shares of our common stock. We funded the cash portion and related costs of the acquisition and repaid a portion of our and Warnaco’s previously outstanding debt with the net proceeds of: (i) an offering

of \$700.0 million of 4 1/2% senior notes due 2022; and (ii) \$3.075 billion of term loans borrowed under new senior secured credit facilities. These items are more fully described in the section entitled “Liquidity and Capital Resources” below.

Warnaco designs, sources, markets, licenses and distributes a broad line of intimate apparel, sportswear and swim products worldwide. Warnaco’s products are sold under the highly-recognized *Calvin Klein*, *Speedo*, *Warner’s* and *Olga* brand names and are distributed domestically and internationally, through all major channels of distribution. The Warnaco transaction, which follows our transformational acquisitions of Calvin Klein in 2003 and Tommy Hilfiger in 2010, reinforces our strategy to drive the *Calvin Klein* brand’s reach globally. Prior to the acquisition, Warnaco was our largest licensee for *Calvin Klein* products and the royalties it paid us, together with fees paid on its sales of *Calvin Klein* underwear, sleepwear and loungewear (product categories for which it beneficially owns the *Calvin Klein* trademarks), accounted for approximately 37% of our Calvin Klein royalty, advertising and other revenue in 2012. By reuniting the *Calvin Klein* brand under one owner, we will have complete direct global control of the brand image and commercial decisions for the two largest *Calvin Klein* apparel categories — jeanswear and underwear. Under a single brand vision, we will be able to better coordinate product design, merchandising, supply chain, retail distribution and marketing, which will strengthen the brand’s image, positioning and execution across all markets. The Warnaco acquisition also takes advantage of our and Warnaco’s complementary geographic operations. Warnaco’s operations in Asia and Latin America will enhance our opportunities in these high-growth regions, and we will have the ability to leverage our expertise and infrastructure in North America and Europe to enhance the growth and profitability of Warnaco’s Calvin Klein jeanswear and underwear businesses in these regions. The acquisition also brings the *Speedo*, *Warner’s* and *Olga* brands into our Heritage Brands portfolio. With a diversified brand portfolio and strong operations in every major consumer market around the world, we believe our business will be better balanced across geographies, channels of distribution, product categories and price points, and we will have the opportunity to realize revenue growth and enhanced profitability. We also believe the Warnaco acquisition creates significant opportunities to achieve synergies, principally with respect to certain corporate functions and duplicative brand management functions in North America and Europe. We expect to realize the synergies in full by the end of 2016.

Our acquisition of Tommy Hilfiger in 2010 provided us with an established international platform in Europe that is a strategic complement to our strong North American presence and gives us resources and expertise needed to grow our brands and businesses internationally. As discussed above, the acquisition of Warnaco presents us with the opportunity to continue to grow our brands around the world. We are also pursuing growth opportunities for the *Tommy Hilfiger* brands through, among other things, joint ventures in the rapidly emerging markets of China, India and Brazil, and intensifying efforts in underdeveloped markets.

Our revenue reached a record \$6.0 billion in 2012, approximately 39% of which was generated internationally. Our global designer lifestyle brands, *Tommy Hilfiger* and *Calvin Klein*, together generated approximately 72% of this revenue. We currently estimate that with the addition of Warnaco, approximately 45% of our annual revenue will be generated internationally and revenue for our Tommy Hilfiger and Calvin Klein businesses will approximate 75% of our total revenue.

Our business strategy is to manage and market a portfolio of nationally and internationally recognized brands at multiple price points and across multiple channels of distribution. We believe this strategy reduces our reliance on any one demographic group, merchandise preference, distribution channel or geographic region. Our internationally renowned designer lifestyle brands, *Calvin Klein* and *Tommy Hilfiger*, offer additional geographic distribution channel and price point opportunities as compared to our heritage brands.

RESULTS OF OPERATIONS

Operations Overview

During 2012, we generated net sales from (i) the wholesale distribution to retailers, franchisees, licensees and distributors of men’s dress shirts, neckwear and underwear, men’s and women’s sportswear, footwear, accessories and related products under owned and licensed trademarks; and (ii) over 1,000 company-operated retail locations worldwide of apparel, footwear, accessories and other products under our *Calvin Klein*, *Tommy Hilfiger*, *Van Heusen*, *IZOD* and *Bass* trademarks. We generate royalty, advertising and other revenue from fees for licensing the use of our trademarks. Calvin Klein royalty, advertising and other revenue, which comprised 78% of total royalty, advertising and other revenue in 2012, is derived across various regions under licenses and other arrangements for a broad array of products offered under our *Calvin Klein* brands.

Our future operating performance and financial results will be significantly impacted by the Warnaco acquisition, including in regard to revenue, gross margin, operating expenses and cash flows. A substantial portion of our Calvin Klein licensing revenue was generated from Warnaco and, therefore, our royalty, advertising and other revenue will decrease significantly (such amount generated from Warnaco was approximately \$145 million in 2012). The loss of licensing revenue

will also affect our gross profit on total revenue, as licensing revenue carries no cost of goods sold. In addition, the financing of the transaction has greatly impacted our capital structure, will cause our interest expense to increase, and will require us to use significant amounts of our cash to pay interest and principal. Our effective tax rate will also be impacted as Warnaco has significant operations in jurisdictions that are generally taxed at rates higher than our current effective tax rate. Additionally, we incurred in 2012, and expect to incur over the next four years, significant costs and charges related to the acquisition, integration and related restructuring. In 2012, we incurred pre-tax charges of \$42.6 million and expect to incur approximately \$175 million to \$200 million of additional pre-tax charges over the next four years, approximately \$125 million of which is expected to be incurred in 2013. Our segment reporting will also change as a result of the acquisition.

We acquired Tommy Hilfiger in the second quarter of 2010. We recorded pre-tax charges in 2010 in connection with the acquisition and integration of Tommy Hilfiger that totaled \$338.3 million, including: (i) a loss of \$140.5 million associated with hedges against Euro to United States dollar exchange rates relating to the purchase price; (ii) short-lived non-cash valuation amortization charges of \$76.8 million, which became fully amortized during 2010; and (iii) transaction, integration, restructuring and debt extinguishment costs of \$121.0 million. We incurred pre-tax charges of \$20.5 million and \$69.5 million during 2012 and 2011, respectively, in connection with the integration and the related restructuring, including product exit charges. We reacquired during the third quarter of 2011 the rights in India to the *Tommy Hilfiger* trademarks that had been subject to a perpetual license. We paid \$25.0 million as consideration for this transaction and are required to make annual contingent purchase price payments under certain circumstances. In connection with the transaction, we were required to record an expense of \$20.7 million in 2011 due to the settlement of an unfavorable contract as a result of a pre-existing relationship with the licensee, as the license provided favorable terms to the licensee. Please see the section entitled "Liquidity and Capital Resources" below for a further discussion.

In the fourth quarter of 2010, we exited our United Kingdom and Ireland Van Heusen dresswear and accessories business. We recorded pre-tax charges in connection with this exit of \$6.6 million in 2010, which consists principally of non-cash charges. In 2011, we announced we would be exiting in 2012 our licensed Timberland men's wholesale sportswear and our Izod women's wholesale sportswear businesses. We incurred pre-tax charges of \$8.1 million during 2011 in connection with these two initiatives.

We amended and restated our senior secured credit facility in the first quarter of 2011. We recorded debt modification costs of \$16.2 million in connection with this transaction. Please see the section entitled "Liquidity and Capital Resources" below for a further discussion.

Our calculations of the comparable store sales percentages throughout this discussion are based on comparable weeks and, therefore, exclude an extra week in 2012, as our 2012 fiscal year included 53 weeks of operations.

During the fourth quarter of 2012, we changed our method of accounting for our pension and other postretirement plans. As part of this change, we elected to begin immediately recognizing actuarial gains and losses in our operating results in the year in which they occur. We have applied this change retrospectively, adjusting all prior periods. This change resulted in recording actuarial losses of \$28.1 million, \$76.1 million and \$4.5 million in 2012, 2011 and 2010, respectively.

The following table summarizes our income statements in 2012, 2011 and 2010:

Total Revenue

Net Sales

Our net sales were \$5.541 billion in 2012, \$5.410 billion in 2011 and \$4.220 billion in 2010. The 2012 net sales increase of \$130.8 million as compared to 2011 included a negative impact of approximately \$210 million, or 4%, of which approximately \$110 million was due to foreign currency translation and approximately \$100 million was attributable to the exit from the Izod women's and Timberland wholesale sportswear businesses. The overall increase in 2012 as compared to 2011 was due principally to the effect of the following items:

- The aggregate addition of \$154.1 million of net sales attributable to growth in our Tommy Hilfiger North America and Tommy Hilfiger International segments. Within the Tommy Hilfiger North America segment, net sales increased 10%, principally driven by retail comparable store sales growth of 10%. Net sales in the Tommy Hilfiger International segment increased 2%, including a negative impact of approximately \$110 million, or 6%, related to foreign currency translation. European retail comparable store sales grew 11% and the European wholesale business exhibited strong growth, but these increases were partially offset by continued weakness in Japan, where we are currently in the process of strategically repositioning and investing in the brand.
- The addition of \$87.1 million of net sales attributable to growth in our Other (Calvin Klein Apparel) segment, driven by (i) a 12% increase in the North American Calvin Klein retail business, which was due to new store openings, store expansions and a 5% increase in comparable store sales; and (ii) a 16% increase in the North American wholesale business.
- The aggregate reduction of \$99.6 million in net sales attributable to our Heritage Brand Wholesale Dress Furnishings, Heritage Brand Wholesale Sportswear and Heritage Brand Retail segments. Comparable store sales in the Heritage Brand Retail segment were relatively flat as compared to the prior year period, while sales in the Heritage Brand Wholesale Sportswear segment decreased 13%, due principally to the negative impact of approximately \$100 million related to the exited sportswear businesses, partially offset by strong growth in our ongoing sportswear businesses in the second half of the year. The Heritage Brand Wholesale Dress Furnishings segment experienced a 7% decrease due primarily to a reduction in dress furnishings sales to J.C. Penney.

The 2011 net sales increase of \$1.190 billion as compared to 2010 net sales was due principally to the effect of the following items:

- The addition of \$433.7 million and \$267.6 million of first quarter net sales in our Tommy Hilfiger International and Tommy Hilfiger North America segments, respectively, as the acquisition of Tommy Hilfiger was not completed until the second quarter of 2010.
- The addition of \$262.2 million and \$116.6 million, attributable to second through fourth quarter growth in the Tommy Hilfiger International and Tommy Hilfiger North America segments, respectively. This increase was driven by low double-digit growth in the European wholesale division, combined with retail comparable store sales growth of 10% and 14% for our Tommy Hilfiger International and Tommy Hilfiger North America retail businesses, respectively. Also contributing to the revenue increase was a net benefit of approximately \$55 million in our Tommy Hilfiger International segment related to foreign currency translation.
- The addition of \$85.1 million of net sales attributable to growth in our Other (Calvin Klein Apparel) segment, as our Calvin Klein retail business posted a 16% increase in comparable store sales in 2011 and the wholesale business experienced low double-digit growth.
- The addition of \$41.0 million of sales attributable to growth in our Heritage Brand Wholesale Dress Furnishings segment.
- The addition of \$7.9 million of sales attributable to growth in our Heritage Brand Retail segment, due principally to a 2% increase in retail comparable stores sales in 2011.
- The addition of \$7.5 million of net sales attributable to growth in our Calvin Klein Licensing segment.
- The reduction of \$31.2 million of sales attributable to our Heritage Brand Wholesale Sportswear segment, which was driven particularly by decreases in the Timberland division, which we exited in 2012, and the Izod division.

Royalty, Advertising and Other Revenue

Royalty, advertising and other revenue was \$502.2 million in 2012 as compared to \$480.6 million in 2011. Of the \$21.6 million increase, \$12.0 million was attributable to our Tommy Hilfiger business, due principally to strong performance in watches, footwear and eyewear and growth in Asia and Latin America. Within the Calvin Klein Licensing segment, global licensee royalty revenue increased 2%, including a negative impact of 1% related to foreign currency translation. Continued global growth in women's sportswear, dresses, footwear and handbags was partially offset by a decline in royalty revenue related to a reduction in the European Calvin Klein bridge and accessories business attributable, in part, to our decision to terminate Warnaco's licenses and operate the business directly, and weakness in jeans and women's underwear in Europe and the United States.

Royalty, advertising and other revenue was \$480.6 million in 2011 as compared to \$417.1 million in 2010. Of this \$63.5 million increase, \$25.6 million was attributable to our Tommy Hilfiger business, due principally to the addition of first quarter royalty, advertising and other revenue, combined with second through fourth quarter increases due to growth in Central and South America and Asia, and strong performance in tailored apparel, fragrance and eyewear. Within the Calvin Klein Licensing segment, global licensee royalty revenue increased \$28.1 million, or 11%, as compared to 2010 driven by growth across virtually all product categories and regions, with jeanswear, underwear, fragrance, footwear, accessories and women's sportswear and dresses performing particularly well. Calvin Klein advertising and other revenue increased \$11.1 million to \$108.6 million in 2011 as compared to 2010, driven principally by the launch in the first quarter of 2011 of the global marketing campaign supporting the introduction of the new *ck one* lifestyle brand for jeanswear, underwear and fragrance. Advertising and other revenue is generally collected and spent and, therefore, is presented as both a revenue and an expense within our income statement, with minimal net impact on earnings.

Impact of Warnaco Acquisition on Future Revenue

Revenue in 2013 will be significantly impacted by the acquisition of Warnaco. We currently expect revenue in 2013 will be approximately \$8.2 billion. This amount reflects the elimination of approximately \$200 million of revenue generated, in the aggregate, by us and Warnaco in 2012 through transactions between each other, approximately \$100 million of additional lost revenue from the absence of the 53rd week in 2013 and the revenue generated by Warnaco for the first ten days of our 2013 fiscal year as the acquisition did not close until February 13, 2013. Our expectation for revenue from the acquired Warnaco business is approximately \$2.15 billion, which is relatively flat as compared to Warnaco's 2012 revenue (excluding approximately \$230 million of revenue related to the Chaps men's sportswear business, as Ralph Lauren Corporation reacquired the *Chaps* license effective contemporaneously with the Warnaco acquisition). Approximately \$145 million of the

\$200 million of revenue generated between us and Warnaco referred to above relates to Calvin Klein licensing revenue generated from Warnaco, and, as such, the royalty, advertising and other revenue generated by our Calvin Klein licensing business will decrease in 2013 due to the acquisition. This will also have a significant impact on our gross profit percentage on total revenue, as more fully discussed below.

Gross Profit on Total Revenue

Gross profit on total revenue is calculated as total revenue less cost of goods sold. Included as cost of goods sold are costs associated with the production and procurement of product, including inbound freight costs, purchasing and receiving costs, inspection costs and other product procurement related charges. All of our royalty, advertising and other revenue is included in gross profit because there is no cost of goods sold associated with such revenue. As a result, our gross profit may not be comparable to that of other entities.

The following table shows our revenue mix between net sales and royalty, advertising and other revenue, as well as our gross profit as a percentage of total revenue for 2012, 2011 and 2010:

	2012	2011	2010
Components of revenue:			
Net sales	91.7%	91.8%	91.0%
Royalty, advertising and other revenue	8.3%	8.2%	9.0%
Total	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>
Gross profit as a % of total revenue	<u>53.8%</u>	<u>51.9%</u>	<u>52.2%</u>

Gross profit on total revenue in 2012 was \$3.249 billion, or 53.8% of total revenue, compared to \$3.056 billion, or 51.9% of total revenue, in 2011. Gross profit as a percentage of revenue increased 190 basis points in 2012 as compared with 2011, due primarily to our mix of business, as we experienced faster growth in our higher-margin Tommy Hilfiger and Calvin Klein businesses while exiting the lower-margin Izod women's and Timberland wholesale sportswear businesses. In addition, our Tommy Hilfiger business experienced an increase in gross profit as a percentage of revenue resulting from higher average unit retail selling prices globally.

Gross profit as a percentage of total revenue decreased 30 basis points in 2011 as compared with 2010, due principally to (i) the negative impact of higher overall product costs in 2011, particularly in the second half of the year, and increased promotional selling during 2011 in our Izod and Timberland wholesale sportswear businesses; (ii) the negative impact of a change in revenue mix, as royalty, advertising and other revenue, which does not carry a cost of sales and has a gross profit percentage of 100%, decreased in 2011 as a percentage of total revenue; (iii) the positive impact of the absence in 2011 of \$44.5 million of short-lived non-cash valuation amortization charges that were recorded during 2010 as a result of the Tommy Hilfiger acquisition; and (iv) the positive impact of owning Tommy Hilfiger for a full year in 2011, as Tommy Hilfiger's gross profit rates are higher than our other non-licensing businesses.

We currently expect that the gross profit percentage on total revenue in 2013 will decrease as compared with 2012 due to the Warnaco acquisition, as our royalty, advertising and other revenue, which does not carry a cost of sales and has a gross profit percentage of 100%, will decrease as a percentage of total revenue and will be replaced by a directly-operated business, which does carry a cost of sales. In addition, we expect the gross profit percentage in 2013 to decrease as a result of one-time acquisition adjustments expected to be recorded in connection with the Warnaco acquisition.

Selling, General and Administrative ("SG&A") Expenses

Our SG&A expenses were as follows:

	2012	2011	2010
(dollars in millions)			
SG&A expenses	\$ 2,594.3	\$ 2,549.9	\$ 2,071.8
% of total revenue	42.9%	43.3%	44.7%

SG&A expenses in 2012 were \$2.594 billion, or 42.9% of total revenue, as compared to \$2.550 billion, or 43.3% of total revenue in 2011. The 40 basis point decrease in SG&A expenses as a percentage of total revenue was due primarily to the effect of (i) an 80 basis point decrease due to lower pension expense resulting from smaller actuarial losses; and (ii) a net 50 basis point decrease due to a reduction in acquisition, integration and restructuring costs; partially offset by (iii) a 90 basis point increase due principally to faster growth in the higher-expense Tommy Hilfiger and Calvin Klein businesses.

SG&A expenses in 2011 were \$2.550 billion, or 43.3% of total revenue, as compared to \$2.072 billion, or 44.7% of total revenue in 2010. The 140 basis point decrease in SG&A expenses as a percentage of total revenue was due primarily to the effect of (i) a net 170 basis point decrease due to a reduction in acquisition, integration and related restructuring costs; and (ii) a 90 basis point decrease due principally to leveraging of expenses; offset, in part, by (iii) a 120 basis point increase due to higher pension expense resulting from larger actuarial losses.

We currently expect that our SG&A expenses as a percentage of total revenue in 2013 will decrease as compared to 2012 due principally to the addition of Warnaco's businesses, most of which are lower-expense wholesale businesses. This decrease is expected to be offset, in part, by acquisition, integration and restructuring costs associated with the acquisition. Our SG&A expenses are expected to be significantly impacted by the amount of expense recorded for our pension plans due to the change in accounting method discussed above. Pension expense recorded throughout the year is calculated using actuarial valuations that incorporate assumptions and estimates about financial market, economic and demographic conditions. Differences between estimated and actual results give rise to gains and losses that are recorded immediately in pension expense, generally in the fourth quarter of the year, which can create volatility in our operating results.

Debt Modification and Extinguishment Costs

We incurred costs totaling \$16.2 million during 2011 in connection with the amendment and restatement of our senior secured credit facility. Please refer to the section entitled "Liquidity and Capital Resources" below for a discussion of this transaction.

We incurred a loss of \$6.7 million in 2010 on the extinguishment of our 7 1/4% senior notes due 2011 and our 8 1/8% senior notes due 2013. Please refer to the section entitled "Liquidity and Capital Resources" below for a discussion of the tender for, and redemption of, these notes.

We currently expect to incur costs in 2013 related to the termination of our previously outstanding term loans and the replacement of such term loans with new senior secured credit facilities entered into in connection with the Warnaco acquisition. Please refer to the section entitled "Liquidity and Capital Resources" below for a discussion of this transaction.

Other Loss

We settled on May 6, 2010 €1.550 billion of foreign currency forward exchange contracts, which we entered into in connection with the Tommy Hilfiger acquisition to hedge against our exposure to changes in the exchange rate for the Euro, as a portion of the acquisition purchase price was payable in cash and denominated in Euros. We recorded a pre-tax loss of \$140.5 million during 2010 related to these contracts.

Equity in Income of Unconsolidated Affiliates

The equity in income of unconsolidated affiliates during 2012 was \$5.4 million as compared to \$1.4 million during 2011. These amounts relate to our share of income from our joint ventures for the *Tommy Hilfiger* brand in China and India, both of which began operations under our partnership in the third quarter of 2011, and in Brazil, which began operations in the fourth quarter of 2012. Our investments in these joint ventures are being accounted for under the equity method of accounting. Please refer to the section entitled "Investments in Unconsolidated Affiliates (China, India and Brazil Joint Ventures)" within "Liquidity and Capital Resources" below for a further discussion of our investments in these joint ventures.

Interest Expense and Interest Income

Interest expense decreased to \$118.7 million in 2012 from \$129.4 million in 2011, principally as a result of payments we made on our term loans during the last two years, partially offset by interest expense incurred on our new \$700.0 million of 4 1/2% senior notes due 2022, which were issued during the fourth quarter of 2012 to fund a portion of the consideration for the Warnaco acquisition. Please refer to the section entitled "Financing Arrangements" within "Liquidity and Capital Resources" below for a further discussion. Interest income of \$1.5 million in 2012 was relatively flat to \$1.3 million in 2011.

Interest expense increased slightly to \$129.4 million in 2011 from \$128.6 million in 2010, principally as a result of the full year impact of our increased debt incurred related to the Tommy Hilfiger acquisition, mostly offset by the additional voluntary repayments of the debt. Interest income decreased to \$1.3 million in 2011 from \$1.7 million in 2010 due principally to a decrease in our average cash position during the year.

Net interest expense for 2013 is currently expected to increase to approximately \$200 million from \$117.2 million in 2012, principally as a result of the term loans borrowed under new senior secured credit facilities and the issuance of the \$700.0 million of 4 1/2% senior notes due 2022 mentioned above, which were used to fund the Warnaco acquisition and to repay a portion of our and Warnaco's previously outstanding debt.

Income Taxes

Income tax expense was as follows:

	2012	2011	2010
(dollars in millions)			
Income tax expense	\$ 109.3	\$ 87.4	\$ 21.8
Income tax expense as a % of pre-tax income	20.1%	24.1%	28.6%

The effective tax rate for 2012 was 20.1% compared with 24.1% in 2011. Our effective tax rate in 2012 was lower than the United States statutory tax rate primarily due to the benefit of the overall lower tax rates in international jurisdictions, combined with a benefit from the recognition of previously unrecognized net operating losses and tax credits, partially offset by non-deductible acquisition expenses incurred in 2012 in connection with the Warnaco acquisition. The 2012 effective tax rate was lower than 2011 due to certain foreign earnings in 2011 being taxed in the United States, as well as additional tax synergies resulting from the Tommy Hilfiger acquisition, partially offset by non-deductible acquisition expenses incurred in 2012 in connection with the Warnaco acquisition.

The effective tax rate for 2011 was 24.1% compared with 28.6% in 2010. Our effective tax rate in 2011 was lower than the United States statutory tax rate primarily due to the benefit of the overall lower tax rates in international jurisdictions partially offset by foreign earnings taxed in the United States, combined with a tax benefit resulting from revaluing certain deferred tax liabilities in connection with a decrease in the statutory tax rate in Japan. The 2011 effective tax rate was lower than 2010 due in large part to significant non-deductible acquisition expenses and short-lived intangible asset amortization in 2010 in connection with the Tommy Hilfiger acquisition.

We currently anticipate that our 2013 effective tax rate will be between 25.5% to 26.5%. The 2013 effective tax rate is expected to increase as compared to the 2012 effective tax rate as a result of the impact of our acquisition of Warnaco, as Warnaco has significant operations in jurisdictions that are generally taxed at rates higher than our effective tax rate. It is possible that our estimated rate could change from the mix of international and domestic pre-tax earnings, or from discrete events arising from specific transactions, audits by tax authorities or the receipt of new information.

LIQUIDITY AND CAPITAL RESOURCES

Historical Results

Cash Flow Summary

Cash increased \$659.0 million during 2012, including net proceeds from the \$700 million senior notes offering undertaken in connection with the Warnaco acquisition, partially offset by \$300 million of term loan repayments. Cash flow in 2013 will be impacted by various factors in addition to those noted below in this "Liquidity and Capital Resources" section, including the Warnaco acquisition and the amount of debt repayments we make in 2013.

As of February 3, 2013, approximately \$237 million of cash and cash equivalents was held by international subsidiaries whose undistributed earnings are considered permanently reinvested. Our intent is to reinvest these funds in international operations. If management decides at a later date to repatriate these funds to the United States, we would be required to provide taxes on these amounts based on applicable United States tax rates, net of foreign taxes already paid.

Operations

Cash provided by operating activities was \$569.5 million in 2012, as compared to \$490.7 million in 2011, due primarily to the net effect of (i) an increase in net income; (ii) an increase in cash related to changes in working capital attributable to inventory and trade receivables; and (iii) a decrease in cash due to increased contributions to our defined benefit qualified pension plans.

Investments in Unconsolidated Affiliates (China, India and Brazil Joint Ventures)

We formed a joint venture in Brazil in 2012 in which we own a 40% economic interest. The joint venture holds an exclusive license for the *Tommy Hilfiger* brand in Brazil that became effective on January 4, 2013. We made funding payments with respect to our 40% interest totaling \$6.5 million during 2012.

We formed a joint venture in China in 2011 in which we own a 45% economic interest. The joint venture assumed direct control of the Tommy Hilfiger wholesale and retail distribution business in China from the prior licensee in 2011. We made funding payments with respect to our 45% interest totaling \$17.1 million during 2011.

We completed a \$30 million acquisition in 2011 from Ganesha Limited and Ganesha Brands Limited, both of which are affiliates of GVM International Limited (“GVM”), of a 50% economic interest in a company that was renamed Tommy Hilfiger Arvind Fashion Private Limited (“TH India”). TH India was GVM’s sublicensee of the *Tommy Hilfiger* trademarks for apparel, footwear and handbags in India. As a result of the transaction, TH India is now the direct licensee of the trademarks for all categories (other than fragrance), operates a wholesale apparel, footwear and handbags business in connection with its license, and sublicenses the trademarks for certain other product categories in the region. We made additional payments to TH India totaling \$1.9 million and \$1.6 million during 2012 and 2011, respectively, to contribute our 50% share of funding.

Acquisition of Netherlands Franchisee

We acquired during the third quarter of 2012 from a former *Tommy Hilfiger* franchisee in the Netherlands 100% of the share capital of ten affiliated companies, which operate 13 *Tommy Hilfiger* stores in the Netherlands. We paid \$13.1 million as consideration for this transaction.

Reacquisition of Tommy Hilfiger Tailored Apparel License

We entered into agreements during 2011 to reacquire from a licensee, prior to the expiration of the license, the rights to distribute *Tommy Hilfiger* brand tailored apparel in Europe and acquire an outlet store from the licensee. The transfer of the rights and store ownership became effective December 31, 2012. Under these agreements, we made a payment of \$9.6 million (based on the applicable exchange rate in effect on the payment date) to the licensee during the fourth quarter of 2011 and made an additional payment of \$24.8 million (based on the applicable exchange rate in effect on the payment date) to the licensee during the fourth quarter of 2012.

Tommy Hilfiger India Perpetually Licensed Rights Reacquisition

We reacquired in 2011 the rights in India to the *Tommy Hilfiger* trademarks that had been subject to a perpetual license previously granted to GVM. We paid \$25.0 million during the third quarter of 2011 as consideration for the transaction. In addition, we are required to make annual contingent purchase price payments based on a percentage of annual sales in excess of an agreed upon threshold of *Tommy Hilfiger* products in India for a period of five years (or, under certain circumstances, a period of six years) following the acquisition date. Such payments are subject to a \$25.0 million aggregate maximum and are due within 60 days following each one-year period. The first one-year period commenced on July 1, 2011. During the third quarter of 2012, we made a contingent purchase price payment of \$0.2 million for the first one-year period.

In connection with the transaction, we recorded an expense of \$20.7 million in 2011 due to the settlement of an unfavorable contract as a result of a pre-existing relationship with the licensee, as the license provided favorable terms to the licensee.

Reacquisition of Tommy Hilfiger Handbag License

We entered into an agreement in 2010 to reacquire from a licensee, prior to the expiration of the license, the rights to distribute *Tommy Hilfiger* handbags outside of the United States. The effective date of the transfer of the rights was December

31, 2010. In connection with this transaction, we made a payment of \$7.3 million, based on the applicable exchange rate in effect on the payment date, to the former licensee during the second quarter of 2010.

Tommy Hilfiger Acquisition

We completed our acquisition of Tommy Hilfiger on May 6, 2010. We paid \$2.486 billion in cash and issued 7.9 million shares of our common stock, valued at \$475.6 million, as consideration for the acquisition, for total consideration of approximately \$3.0 billion. In addition, we entered into foreign currency forward exchange contracts to purchase €1.550 billion to hedge against our exposure to changes in the exchange rate for the Euro, as a portion of the cash component of the purchase price was denominated in Euros. We settled the foreign currency forward exchange contracts at a loss of \$140.5 million on May 6, 2010 in connection with completing the acquisition.

We funded the cash portion and related costs of the Tommy Hilfiger acquisition with cash on hand and the net proceeds of the following activities: (i) the sale of 5.8 million shares of our common stock; (ii) the issuances of an aggregate of 8,000 shares of Series A convertible preferred stock for an aggregate gross purchase price of \$200.0 million; (iii) the issuance of \$600.0 million of 7 3/8% senior notes due 2020; and (iv) the borrowing of \$1.9 billion of term loans under new senior secured credit facilities.

Capital Expenditures

Our capital expenditures in 2012 were \$210.6 million compared to \$169.8 million in 2011. This increase was due principally to new stores and retail store expansions in the United States and Canada. We currently expect capital expenditures in 2013 to increase as compared to the prior year primarily due to capital expenditures for Warnaco's operations, as well as our investment in combining the infrastructure of the two companies.

Calvin Klein Contingent Purchase Price Payments

In connection with our acquisition of Calvin Klein, we are obligated to pay Mr. Calvin Klein contingent purchase price payments based on 1.15% of total worldwide net sales (as defined in the agreement governing this acquisition, as amended) of products bearing any of the *Calvin Klein* brands with respect to sales made through February 12, 2018. A significant portion of the sales on which the payments to Mr. Klein are made are wholesale sales by us and our licensees and other partners to retailers. Such contingent purchase price payments totaled \$51.0 million in 2012. We currently expect that such payments will be between \$53 million and \$55 million in 2013.

Common Stock Offering

We sold 5.8 million shares of our common stock on April 28, 2010 for net proceeds, after commissions, discounts and related fees and expenses of \$364.5 million, which were used to fund a portion of the purchase price for the Tommy Hilfiger acquisition.

Series A Convertible Preferred Stock Issuance

On May 6, 2010, we sold an aggregate of 8,000 shares of Series A convertible preferred stock, par value \$100.00 per share, for an aggregate gross purchase price of \$200.0 million. We received net proceeds of \$188.6 million in connection with this issuance, which were used to fund a portion of the purchase price for the Tommy Hilfiger acquisition. The Series A convertible preferred stock had a liquidation preference of \$25,000 per share and was convertible at a price of \$47.74. During 2012, the holders of the Series A convertible preferred stock converted all of the convertible preferred stock into 4.2 million shares of our common stock. Holders of the Series A convertible preferred stock were entitled to vote and participate in dividends with the holders of our common stock on an as-converted basis. Due to the conversion of such stock, there were no holders of our Series A convertible preferred stock as of February 3, 2013.

Dividends

Our common stock currently pays annual dividends totaling \$0.15 per share. Our Series A convertible preferred stock participated in common stock dividends on an as-converted basis prior to its conversion during 2012. Dividends on common and preferred stock totaled \$11.0 million during 2012.

We currently project that cash dividends on our common stock in 2013 will be approximately \$12 million based on our current dividend rate, the number of shares of our common stock outstanding as of February 3, 2013, the number of shares of stock issued in connection with the acquisition of Warnaco, and our estimates of stock to be issued during 2013 under our stock incentive plans.

Financing Arrangements

Our capital structure was as follows:

(dollars in millions)	February 3, 2013	January 29, 2012
Short-term borrowings	\$ 10.8	\$ 13.0
Current portion of long-term debt	88.0	70.0
Capital lease obligations	31.1	26.8
Long-term debt	2,211.6	1,832.9
Stockholders' equity	3,252.6	2,715.4

In addition, we had \$892.2 million and \$233.2 million of cash and cash equivalents as of February 3, 2013 and January 29, 2012, respectively. \$700.0 million of cash and cash equivalents as of February 3, 2013 arose from senior notes that were issued to fund a portion of the consideration for the acquisition of Warnaco.

Short-Term Borrowings

One of our subsidiaries has a Yen-denominated overdraft facility with a Japanese bank, which provides for borrowings of ¥1.000 billion (\$10.8 million based on the exchange rates in effect on February 3, 2013) and is utilized to fund working capital. Borrowings under the facility are unsecured and bear interest at the one-month Japanese inter-bank borrowing rate ("TIBOR") plus 0.15%. Such facility renews automatically unless we give notice of termination. The full amount of this facility was borrowed as of February 3, 2013. The weighted average interest rate on the funds borrowed at February 3, 2013 was 0.33%. The maximum amount of borrowings outstanding under this facility during 2012 was approximately \$12.5 million.

Capital Lease Obligations

Our cash payments for capital lease obligations totaled \$10.8 million and \$10.4 million in 2012 and 2011, respectively.

4 1/2% Senior Notes Due 2022

On December 20, 2012, we issued \$700.0 million principal amount of 4 1/2% senior notes due December 15, 2022. Interest on the 4 1/2% notes is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on June 15, 2013.

We may redeem some or all of these notes at any time prior to December 15, 2017 by paying a "make whole" premium plus any accrued and unpaid interest. Subject to certain conditions, we may also redeem up to 35% of these notes prior to December 15, 2015 with the net cash proceeds of certain equity offerings without having to pay a penalty or "make whole" premium. In addition, we may redeem some or all of these notes on or after December 15, 2017 at specified redemption prices plus any accrued and unpaid interest.

7 3/8% Senior Notes Due 2020

On May 6, 2010, we issued \$600.0 million principal amount of 7 3/8% senior notes due May 15, 2020. Interest on the 7 3/8% notes is payable semi-annually in arrears.

We may redeem some or all of these notes on or after May 15, 2015 at specified redemption prices plus any accrued and unpaid interest. We may redeem some or all of these notes at any time prior to May 15, 2015 by paying a "make whole" premium plus any accrued and unpaid interest. In addition, subject to certain conditions, we may also redeem up to 35% of these notes prior to May 15, 2013, by paying a set premium, with the net proceeds of certain equity offerings.

During the fourth quarter of 2012, we received the requisite consents from holders of these notes to amend the indenture governing the notes. The amendment increases the amount of secured indebtedness that we are permitted to incur without equally and ratably securing the notes. Under the terms of the consent solicitation, we paid \$5.7 million during the fourth quarter to the holders of the notes.

7 3/4% Debentures Due 2023

We have outstanding \$100.0 million of debentures due on November 15, 2023 with a yield to maturity of 7.80%. The debentures accrue interest at the rate of 7 3/4%, which is payable semi-annually. Pursuant to the indenture governing the debentures, we must maintain a certain level of stockholders' equity in order to pay cash dividends and make other restricted payments, as defined in the indenture governing the debentures.

Tender for and Redemption of 2011 Notes and 2013 Notes

We commenced tender offers on April 7, 2010 for (i) all of the \$150.0 million outstanding principal amount of our notes due 2011; and (ii) all of the \$150.0 million outstanding principal amount of our notes due 2013. The tender offers expired on May 4, 2010. On May 6, 2010, we accepted for purchase all of the notes tendered, made payment to tendering holders and called for redemption all of the balance of our outstanding 7 1/4% senior notes due 2011 and all of the balance of our outstanding 8 1/8% senior notes due 2013. The redemption prices of the notes due 2011 and 2013 were 100.000% and 101.354%, respectively, of the outstanding aggregate principal amount of the applicable note, plus accrued and unpaid interest thereon to the redemption date. On May 6, 2010, we made an irrevocable payment, including accrued and unpaid interest, to the trustee for the notes due 2011 and 2013. As a result, such indentures were satisfied and effectively discharged as of May 6, 2010.

Senior Secured Credit Facilities

On May 6, 2010, we entered into a senior secured credit facility, which we amended and restated on March 2, 2011 ("the amended facility"). The amended facility consisted of a Euro-denominated term loan A facility, a United States dollar-denominated term loan A facility, a Euro-denominated term loan B facility, a United States dollar-denominated term loan B facility, a United States dollar-denominated revolving credit facility and two multi-currency (one United States dollar and Canadian dollar, and the other Euro, Japanese Yen and British Pound) revolving credit facilities. We made payments on our term loans of approximately \$300 million during 2012. As of February 3, 2013, (a) we had an aggregate of approximately \$900 million of term loan borrowings outstanding under our United States dollar-denominated term loan A and B facilities; (b) we had repaid all of our Euro-denominated term loan A and B facilities; and (c) the amended facility provided for approximately \$450 million of revolving credit (based on the applicable exchange rates on February 3, 2013), under which we had no revolving credit borrowings and \$42.4 million of letters of credit outstanding. The amended facility was terminated on February 13, 2013 and replaced with the senior secured credit facilities entered into in connection with the Warnaco acquisition, as discussed below.

We made payments on our term loans of approximately \$450 million during 2011, including a voluntary prepayment of approximately \$150 million in connection with the closing of the amended facility in the first quarter of 2011. We paid \$10.6 million of fees in cash in connection with the modification of our amended facility in the first quarter of 2011. We made additional payments on our term loans of approximately \$300 million during 2012.

As of February 3, 2013, we were in compliance with all financial and non-financial covenants applicable at that time. Please see the section below entitled "Warnaco Acquisition" for a discussion of the material debt covenants to which we are subject under the terms of the new senior secured credit facility entered into in connection with the acquisition of Warnaco.

As of February 3, 2013, our corporate credit was rated Ba2 by Moody's with a stable outlook and our issuer credit was rated BB+ by Standard & Poor's with a stable outlook. Both ratings were reaffirmed upon the acquisition of Warnaco. In assessing our credit strength, we believe that both Moody's and Standard & Poor's considered, among other things, the impact of the Warnaco acquisition and related financing, our capital structure and financial policies as well as our consolidated balance sheet, our historical acquisition activity and other financial information, as well as industry and other qualitative factors.

Warnaco Acquisition

We completed our acquisition of Warnaco on February 13, 2013. We paid \$2.181 billion in cash and issued approximately 7.7 million shares of our common stock, valued at \$927.0 million, as consideration for the acquisition. In

addition, we issued replacement stock awards related to employee stock-based compensation grants valued at approximately \$40 million, which for accounting purposes are included in the total consideration of approximately \$3.148 billion. The value of the replacement stock awards was determined based on the proportionate amount of the vesting period that had lapsed as of the acquisition date.

We funded the cash portion and related costs of the acquisition and repaid a portion of our and Warnaco's previously outstanding debt with the net proceeds of: (i) an offering of \$700.0 million of 4 1/2% senior notes due 2022, as discussed above; and (ii) \$3.075 billion of term loans borrowed under new senior secured credit facilities, as discussed below.

The new senior secured credit facilities ("the new facilities"), were entered into simultaneously with the closing of the Warnaco acquisition. The new facilities consist of a \$1.700 billion United States dollar-denominated Term Loan A, a \$1.375 billion United States dollar-denominated Term Loan B and senior secured revolving credit facilities in an aggregate principal amount of \$750.0 million (based on the applicable exchange rates on February 13, 2013), consisting of (a) a \$475.0 million United States dollar-denominated revolving credit facility, (b) a \$25.0 million United States dollar-denominated revolving credit facility available in United States dollars or Canadian dollars and (c) a €185.9 million Euro-denominated revolving credit facility available in Euro, Pounds Sterling, Japanese Yen and Swiss Francs.

As discussed above, the full amounts of the term loans were drawn upon the acquisition's closing. The revolving credit facilities include amounts available for letters of credit. As of February 13, 2013, we had drawn no revolving credit borrowings and approximately \$86.9 million of letters of credit. A portion of each of the United States revolving credit facility and Canadian revolving credit facility is also available for the making of swingline loans. The issuance of such letters of credit and the making of any swingline loan reduces the amount available under the applicable revolving credit facility. So long as certain conditions are satisfied, we may add one or more term loan facilities or increase the commitments under the revolving credit facilities by an aggregate amount not to exceed the greater of (a) \$750.0 million and (b) \$1.250 billion as long as the ratio of our senior secured net debt to consolidated adjusted earnings before interest, taxes, depreciation and amortization (in each case calculated as set forth in the documentation relating to the new facilities) would not exceed 3.00:1.00 after giving pro forma effect to the incurrence of such increase, plus, in either case, an amount equal to the aggregate revolving commitments of any defaulting lender (to the extent the commitments with respect thereto have been terminated). The lenders under the new facilities are not required to provide commitments with respect to such additional facilities or increased commitments.

The terms of each of Term Loan A and Term Loan B contain a mandatory repayment schedule on a quarterly basis, such that the total annual repayments are as follows:

	Term Loan	
	A	B
Borrowings on February 13, 2013	\$1,700,000,000	\$1,375,000,000
Percentage required to be repaid for the annual period ending March 31:		
2014	5%	1%
2015	5%	1%
2016	7.5%	1%
2017	10%	1%
2018	72.5%	1%
2019		1%
2020		94%

The outstanding borrowings under the new facilities are prepayable at any time without penalty (other than customary breakage costs). The terms of the new facilities require us to repay certain amounts outstanding thereunder with (a) net cash proceeds of the incurrence of certain indebtedness, (b) net cash proceeds of certain asset sales or other dispositions (including as a result of casualty or condemnation) that exceed certain thresholds, to the extent such proceeds are not reinvested or committed to be reinvested in the business in accordance with customary reinvestment provisions and (c) a percentage of excess cash flow, which percentage is based upon our net leverage ratio during the relevant fiscal period.

The United States dollar-denominated borrowings under the new facilities bear interest at a rate equal to an applicable margin plus, as determined at our option, either (a) a base rate determined by reference to the greater of (i) the prime rate, (ii) the United States federal funds rate plus 1/2 of 1.00% and (iii) a one-month adjusted Eurocurrency rate plus 1.00% (provided

that, in the case of Term Loan B, in no event will the base rate be deemed to be less than 1.75%) or (b) an adjusted Eurocurrency rate, calculated in a manner set forth in the new facilities (provided that, in the case of Term Loan B, in no event will the adjusted Eurocurrency rate be deemed to be less than 0.75%).

Canadian dollar-denominated borrowings under the new revolving credit facility bear interest at a rate equal to an applicable margin plus, as determined at our option, either (a) a Canadian prime rate determined by reference to the greater of (i) the rate of interest per annum that Royal Bank of Canada establishes at its main office in Toronto, Ontario as the reference rate of interest in order to determine interest rates for loans in Canadian Dollars to its Canadian borrowers and (ii) the sum of (x) the average of the rates per annum for Canadian Dollar bankers' acceptances having a term of one month that appears on the display referred to as "CDOR Page" of Reuters Monitor Money Rate Services as of 10:00 a.m. (Toronto time) on the date of determination, as reported by the administrative agent (and if such screen is not available, any successor or similar service as may be selected by the administrative agent), and (y) 0.75%, or (b) an adjusted Eurocurrency rate, calculated in a manner set forth in the new facility.

The borrowings under the new revolving credit facility in currencies other than United States dollars or Canadian dollars bear interest at a rate equal to an applicable margin plus an adjusted Eurocurrency rate, calculated in a manner set forth in the new facility.

The initial applicable margins will be in the case of Term Loan A and the revolving credit facilities, 2.00% for adjusted Eurocurrency rate loans and 1.00% for base rate loans, as applicable. The applicable margins in the case of Term Loan B are fixed at 2.50% for adjusted Eurocurrency rate loans and 1.50% for base rate loans, respectively. After the date of delivery of the compliance certificate and financial statements with respect to our fiscal quarter ending May 5, 2013, the applicable margin for borrowings under Term Loan A and the revolving credit facilities will be adjusted based on our quarter end net leverage ratio.

The new facilities contain covenants that restrict our ability to finance future operations or capital needs, to take advantage of other business opportunities that may be in our interest or to satisfy our obligations under our other outstanding debt. These covenants restrict our ability to, among other things:

- incur or guarantee additional debt or extend credit;
- make restricted payments, including paying dividends or making distributions on, or redeeming or repurchasing, our capital stock or certain debt;
- make acquisitions and investments;
- dispose of assets;
- engage in transactions with affiliates;
- enter into agreements restricting our subsidiaries' ability to pay dividends;
- create liens on our assets or engage in sale/leaseback transactions; and
- effect a consolidation or merger, or sell, transfer, or lease all or substantially all of our assets.

The new facilities require us to comply with certain financial covenants, including minimum interest coverage and maximum net leverage, beginning with our fiscal quarter ending August 4, 2013. A breach of any of these operating or financial covenants would result in a default under the applicable facility. If an event of default occurs and is continuing, the lenders could elect to declare all amounts then outstanding, together with accrued interest, to be immediately due and payable which would result in acceleration of our other debt. If we were unable to repay any such borrowings when due, the lenders could proceed against their collateral, which also secures some of our other indebtedness. We are also subject to similar covenants and restrictions in connection with our other long-term debt agreements.

Contractual Obligations

The following table summarizes, as of February 3, 2013, our contractual cash obligations by future period:

Description	Payments Due by Period ⁽¹⁾				
	Total Obligations	2013	2014-2015	2016-2017	Thereafter

Total contractual cash obligations	\$ 5,889.1	\$ 1,374.8	\$ 1,237.1	\$ 936.7	\$ 2,340.5

- ⁽¹⁾ Our contractual obligations have materially changed subsequent to the end of 2012 as a result of the Warnaco acquisition. Please refer to the discussion above in this “Liquidity and Capital Resources” section for a description of new debt obligations that were incurred in connection with the financing of the acquisition.
- ⁽²⁾ At February 3, 2013, we had outstanding \$560.0 million under a senior secured term loan A facility and \$340.0 million under a senior secured term loan B facility, which require mandatory payments through May 6, 2016 (according to the mandatory repayment schedules and prior to the termination and replacement of these facilities, as discussed above), \$600.0 million of 7 3/8% senior unsecured notes due May 15, 2020, \$700.0 million of 4 1/2% senior unsecured notes due December 15, 2022 and \$100.0 million of 7 3/4% debentures due November 15, 2023. Interest on the senior secured term loans was payable quarterly and interest on the senior unsecured notes and debentures is payable semi-annually.
- ⁽³⁾ Includes retail store, warehouse, showroom, office and equipment operating leases, as well as capital leases. Retail store operating leases generally provide for payment of direct operating costs in addition to rent. The obligation amounts listed include future minimum lease payments and exclude such direct operating costs. Please refer to Note 14, “Leases,” in the Notes to Consolidated Financial Statements included in Item 8 of this report for further information.
- ⁽⁴⁾ Represents contractual commitments for goods on order and not received or paid for as of February 3, 2013. Substantially all of these goods are expected to be received and the related payments are expected to be made within six months of our year end. This amount does not include foreign currency exchange forward contracts that we have entered into to manage our exposure to exchange rate changes with respect to certain of these purchases. Please refer to Note 8, “Derivative Financial Instruments,” in the Notes to Consolidated Financial Statements included in Item 8 of this report for further information.
- ⁽⁵⁾ Our minimum contractual royalty payments arise under numerous license agreements we have with third parties, each of which has different royalty rates and terms. Agreements typically require us to make minimum payments to the licensors of the licensed trademarks based on expected or required minimum levels of sales of licensed products, as well as additional royalty payments when our sales exceed such minimum sales. Certain of our license agreements require that we pay a specified percentage of net sales to the licensor for advertising and promotion of the licensed products, with no minimum amount required to be paid. These amounts, as well as any advertising spending requirements, are excluded from the minimum contractual royalty payments shown in the table. There is no guarantee that we will exceed the minimum payments under any of these license agreements. However, given our projected sales levels for products covered under these agreements, we currently anticipate that future payments required under our license agreements on an aggregate basis will exceed the contractual minimums shown in the table.
- ⁽⁶⁾ We have an unfunded non-qualified supplemental defined benefit plan covering two current and 16 retired executives under which the participants will receive a predetermined amount during the 10 years following the attainment of age

65, provided that prior to the termination of employment with us, the participant has been in such plan for at least 10 years and has attained age 55.

- (7) Represents payment obligations for sponsorships. We have agreements relating to our sponsorship of the Barclay's Center, the 2014 Super Bowl Host Committee and certain professional sports teams and athletes and other similar sponsorships.
- (8) Represents amounts payable in connection with Tommy Hilfiger's acquisition of a licensee's business in Japan prior to our acquisition of Tommy Hilfiger, which obligations we assumed as of the effective date of our acquisition of Tommy Hilfiger.

Not included in the above table are contingent purchase price payments we are obligated to pay Mr. Calvin Klein based on 1.15% of total worldwide net sales, as defined in the agreement governing the Calvin Klein acquisition, of products bearing any of the *Calvin Klein* brands and are required to be made with respect to sales made through February 12, 2018. A significant portion of the sales on which the payments to Mr. Klein are made are wholesale sales by us and our licensees and other partners to retailers. Such contingent purchase price payments totaled \$51.0 million in 2012.

Not included in the above table are contingent purchase price payments we are obligated to pay GVM based on a percentage of annual sales in excess of an agreed upon threshold of *Tommy Hilfiger* products in India for a period of five years (or, under certain circumstances, a period of six years) following the acquisition date of September 7, 2011. Such payments are subject to a \$25.0 million aggregate maximum and are due within 60 days following each one-year period commencing on July 1, 2011. During the third quarter of 2012, we made a contingent purchase price payment of \$0.2 million for the first one-year period.

Not included in the above table are contributions to our defined benefit qualified pension plans, or payments to employees and retirees in connection with our supplemental executive retirement, supplemental pension and postretirement health plans. Contractual cash obligations for these plans cannot be determined due to the number of assumptions required to estimate our future benefit obligations, including return on assets, discount rate and future compensation increases. The liabilities associated with these plans are presented in Note 10, "Retirement and Benefit Plans," in the Notes to Consolidated Financial Statements included in Item 8 of this report. We currently estimate that we will make contributions of approximately \$30 million to our pension plans in 2013. Our estimated pension contributions do not include anticipated contributions for the Warnaco plans that we acquired on February 13, 2013. We will update this figure in future filings to reflect these anticipated contributions. Our actual contributions may differ from our planned contributions due to many factors, including changes in tax and other benefit laws, or significant differences between expected and actual pension asset performance or interest rates.

Not included in the above table are \$189.1 million of net potential cash obligations associated with unrecognized tax benefits due to the uncertainty regarding the future cash outflows associated with such obligations. Please refer to Note 7, "Income Taxes," in the Notes to Consolidated Financial Statements included in Item 8 of this report for further information related to unrecognized tax benefits.

Not included in the above table are \$12.5 million of asset retirement obligations related to leased office and retail store locations due to the uncertainty of timing of future cash outflows associated with such obligations. Please refer to Note 20, "Other Comments," in the Notes to Consolidated Financial Statements included in Item 8 of this report for further information related to asset retirement obligations.

Not included in the above table are obligations related to our non-exclusive buying agency agreement with Li & Fung due to uncertainty of the timing and amounts of future cash flows associated with such obligations. Under the terms of the agreement, we are required to use Li & Fung for at least 54% of our global sourcing needs for *Tommy Hilfiger* products. The buying agency agreement with Li & Fung is terminable by us upon 12 months' prior notice for any reason, and is terminable by either party (i) upon six months' prior notice in the event of a material breach by the other party and (ii) immediately upon the occurrence of certain bankruptcy or insolvency events relating to the other party.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have a material current effect, or that are reasonably likely to have a material future effect, on our financial position, changes in financial position, revenue, expenses, results of operations, liquidity, capital expenditures or capital resources.

MARKET RISK—INTEREST AND EXCHANGE RATE SENSITIVITY

Financial instruments held by us as of February 3, 2013 include cash equivalents, short and long-term debt, foreign currency forward exchange contracts and an interest rate swap agreement. Note 9, “Fair Value Measurements,” in the Notes to Consolidated Financial Statements included in Item 8 of this report outlines the fair value of our financial instruments as of February 3, 2013. Cash and cash equivalents held by us are affected by short-term interest rates. Due to the currently low rates of return we are receiving on our cash equivalents, the potential for a significant decrease in short-term interest rates is low and, therefore, a further decrease would not have a material impact on our interest income. However, there is potential for a more significant increase in short-term interest rates, which could have a more material impact on our interest income. Given our balance of cash and cash equivalents at February 3, 2013, the effect of a 10 basis point increase in short-term interest rates on our interest income would be approximately \$0.9 million annually. We entered into new senior secured credit facilities on February 13, 2013, and simultaneously terminated our previously outstanding amended facility. Please refer to Note 21, “Subsequent Events (Unaudited),” in the Notes to Consolidated Financial Statements included in Item 8 of this report for a further discussion of our new credit facility. Borrowings under our new senior secured credit facilities bear interest at a rate equal to an applicable margin plus a variable rate. As such, our credit facilities expose us to market risk for changes in interest rates. As of February 13, 2013, approximately 45% of our total debt was at a fixed rate, with the remainder at variable rates. Given our debt position at February 13, 2013, the effect of a 10 basis point increase in interest rates on our interest expense would be approximately \$1.2 million annually.

Our Tommy Hilfiger business and the businesses acquired from Warnaco each have a substantial international component, which exposes us to significant foreign exchange risk. Accordingly, the impact of a strengthening United States dollar, particularly against the Euro, the Brazilian Real, the Japanese Yen, the Korean Won, the British Pound, the Canadian dollar, the Mexican Peso, the Indian Rupee and the Chinese Yuan, will have a negative impact on our results of operations. Our Tommy Hilfiger business and the businesses acquired from Warnaco purchase the majority of the products that they sell in United States dollars, which exposes these international businesses to foreign exchange risk as the United States dollar fluctuates. As such, we currently use and plan to continue to use foreign currency forward exchange contracts or other derivative instruments to mitigate the cash flow or market value risks associated with such United States dollar-denominated purchases.

We are also exposed to market risk for changes in exchange rates for the United States dollar in connection with our licensing businesses, particularly our Calvin Klein business. As a substantial portion of our Calvin Klein licensing revenue was generated from Warnaco, this exposure has been substantially reduced. Most of our license agreements require the licensee to report sales to us in the licensee’s local currency but to pay us in United States dollars based on the exchange rate as of the last day of the contractual selling period. Thus, while we are not exposed to exchange rate gains and losses between the end of the selling period and the date we collect payment, we are exposed to exchange rate changes during and up to the last day of the selling period. In addition, certain of our other foreign license agreements expose us to exchange rate changes up to the date we collect payment or convert local currency payments into United States dollars. As a result, during times of a strengthening United States dollar, our foreign royalty revenue will be adversely impacted, and during times of a weakening United States dollar, our foreign royalty revenue will be favorably impacted.

In addition, we have exposure to changes in foreign currency exchange rates on certain intercompany loans. We currently use and plan to continue to use foreign currency forward exchange contracts to mitigate this exposure.

SEASONALITY

Our business generally follows a seasonal pattern. Our wholesale businesses tend to generate higher levels of sales in the first and third quarters, while our retail businesses tend to generate higher levels of sales in the fourth quarter. Royalty, advertising and other revenue tends to be earned somewhat evenly throughout the year, although the third quarter has the highest level of royalty revenue due to higher sales by licensees in advance of the holiday selling season. We expect this seasonal pattern will generally continue.

RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board (“FASB”) issued in May 2011 guidance to clarify and revise the requirements for measuring fair value and for disclosing information about fair value measurements. We adopted this guidance prospectively beginning in 2012 and such adoption did not have a material impact on our consolidated results of operations or financial position.

The FASB issued in September 2011 guidance that is intended to reduce the cost and complexity of the goodwill impairment test by providing an entity with the option to first assess qualitatively whether it is necessary to perform the two-step impairment test that is currently in place. An entity would not be required to quantitatively calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The guidance became effective for us in the first quarter of 2012. We adopted this guidance and performed such tests during the third quarter of 2012. The adoption did not have any impact on our consolidated results of operations or financial position.

The FASB issued in July 2012 guidance that is intended to reduce the cost and complexity of the impairment test for indefinite-lived intangible assets by providing an entity with the option to first assess qualitatively whether it is necessary to perform the impairment test that is currently in place. An entity would not be required to quantitatively calculate the fair value of an indefinite-lived intangible asset unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. We early adopted this guidance and performed such tests during the third quarter of 2012. The adoption did not have any impact on our consolidated results of operations or financial position.

The FASB issued in February 2013 guidance that requires an entity to provide information about significant amounts reclassified out of accumulated other comprehensive income. For amounts that are required to be reclassified in their entirety to net income in the same reporting period, an entity must report the amounts by component and their corresponding effect on the respective line items of net income. Such information is required to be presented either on the face of the financial statements or as a separate disclosure in the footnotes to the financial statements. For other amounts that are not required to be reclassified to net income in their entirety, an entity is required to cross-reference to other disclosures. This guidance becomes effective for us in the first quarter of 2013. The adoption will not have any impact on our consolidated results of operations or financial position.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our consolidated financial statements are based on the selection and application of significant accounting policies, which require management to make significant estimates and assumptions. Our significant accounting policies are outlined in Note 1, "Summary of Significant Accounting Policies," in the Notes to Consolidated Financial Statements included in Item 8 of this report. We believe that the following are the more critical judgmental areas in the application of our accounting policies that currently affect our financial position and results of operations:

Sales allowances and returns—We have arrangements with many of our department and specialty store customers to support their sales of our products. We establish accruals which, based on a review of the individual customer arrangements and the expected performance of our products in their stores, we believe will be required to satisfy our sales allowance obligations. We also establish accruals, which are based on historical data and authorized amounts, that we believe are necessary to provide for inventory returns. It is possible that the accrual estimates could vary from actual results, which would require adjustment to the allowance and returns accruals.

Inventories—Inventories are comprised principally of finished goods and are stated at the lower of cost or market. Cost for certain wholesale apparel inventories in North America is determined using the first-in, first-out method. Cost for all other inventories is determined using the weighted average cost method. We review current business trends, inventory agings and discontinued merchandise categories to determine adjustments which are estimated to be necessary to liquidate existing clearance inventories and reduce inventories to the lower of cost or market. We believe that all inventory writedowns required at February 3, 2013 have been recorded. If market conditions were to change, it is possible that the required level of inventory reserves would need to be adjusted.

Asset impairments—During 2012, 2011 and 2010, we determined that the long-lived assets in certain of our retail stores and other locations were not recoverable, which resulted in us recording impairment charges. In order to calculate the impairment charges, we estimated the undiscounted future cash flows and the related fair value of each asset. The undiscounted future cash flows for each asset were estimated using current sales trends and other factors. If different assumptions had been used for future sales trends, the recorded impairment charges could have been significantly higher or lower. Note 9, "Fair Value Measurements," in the Notes to Consolidated Financial Statements included in Item 8 of this report includes a further discussion of the circumstances surrounding the impairments and the assumptions related to the impairment charges.

Allowance for doubtful accounts—Accounts receivable, as presented on our Consolidated Balance Sheets, is net of an allowance for doubtful accounts. An allowance for doubtful accounts is determined through an analysis of the aging of accounts receivable and assessments of collectibility based on historic trends, the financial condition of our customers and an evaluation of economic conditions. Because we cannot predict future changes in economic conditions and in the financial stability of our

customers, actual future losses from uncollectible accounts may differ from our estimates and could impact our allowance for doubtful accounts.

Income taxes—Deferred income tax balances reflect the effects of temporary differences between the carrying amounts of assets and liabilities and their tax bases and are stated at enacted tax rates expected to be in effect when taxes are actually paid or recovered. FASB guidance on accounting for income taxes requires that deferred tax assets be evaluated for future realization and reduced by a valuation allowance to the extent we believe a portion will not be realized. We consider many factors when assessing the likelihood of future realization of our deferred tax assets, including our recent earnings experience and expectations of future taxable income by taxing jurisdiction, the carryforward periods available to us for tax reporting purposes and other relevant factors. The actual realization of deferred tax assets may differ significantly from the amounts we have recorded.

During the ordinary course of business, there are many transactions and calculations for which the ultimate tax determination is uncertain. Accounting for income taxes requires a two-step approach to recognizing and measuring uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if available evidence indicates it is more likely than not that the tax position will be fully sustained upon review by taxing authorities, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is greater than 50 percent likely of being realized upon ultimate settlement. For tax positions that are 50 percent or less likely of being sustained upon audit, we do not recognize any portion of that benefit in the financial statements. We consider many factors when evaluating and estimating our tax positions and tax benefits, which may require periodic adjustments and which may not accurately anticipate actual outcomes. Our actual results could differ materially from our current estimates.

Goodwill and other intangible assets—Goodwill and other indefinite-lived intangible assets are tested for impairment annually, at the beginning of the third quarter of each fiscal year, and between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. Impairment testing for goodwill is done at a reporting unit level. A reporting unit is defined as an operating segment or one level below an operating segment, called a component. However, two or more components of an operating segment will be aggregated and deemed a single reporting unit if the components have similar economic characteristics.

In 2012, we adopted new authoritative accounting guidance that allows us to first assess qualitative factors to determine whether it is necessary to perform a more detailed quantitative impairment test for goodwill and indefinite-lived intangible assets. We would perform the quantitative test if our qualitative assessment determined it is more likely than not that the fair value of a reporting unit or intangible asset is less than its carrying amount. We may elect to bypass the qualitative assessment and proceed directly to the quantitative test for any reporting unit or asset. Qualitative factors that we consider as part of our assessment include a comparison of the most recent valuation to reporting unit carrying amounts, an increase in our market capitalization and its implied impact on reporting unit fair value, industry and market conditions, macroeconomic conditions, trends in product costs and financial performance of our businesses. If we perform the quantitative test for any reporting units, we use a discounted cash flow method to calculate fair value. The discounted cash flow method is based on the present value of projected cash flows. Assumptions used in these cash flow projections are generally consistent with our internal forecasts. The estimated cash flows are discounted using a rate that represents the weighted average cost of capital. The weighted average cost of capital is based on a number of variables, including the equity-risk premium and risk-free interest rate. Management believes the assumptions used for the impairment tests are consistent with those that would be utilized by a market participant performing similar analyses and valuations. Any projected cash flows and estimates of weighted average cost of capital may be impacted by adverse changes in market and economic conditions and are subject to change based on the facts and circumstances that exist at the time of the valuation. No impairment of goodwill or other intangible assets resulted from our impairment tests in 2012. If different assumptions for our goodwill and other intangible asset impairment tests had been applied, significantly different outcomes could have resulted. Based upon the results of our annual goodwill impairment testing during 2012 and our future cash flow projections, we currently do not believe that any of our reporting units are at significant risk for a future material goodwill impairment.

Pension benefits—Included in the calculations of expense and liabilities for our pension plans are various assumptions, including return on assets, discount rate and future compensation increases. Note 10, “Retirement and Benefit Plans,” in the Notes to Consolidated Financial Statements included in Item 8 of this report sets forth the significant rate assumptions used in performing certain calculations related to our pension plans. Actual results could differ from these assumptions, which would require adjustments to our balance sheet and could result in volatility in our future pension expense. Holding all other assumptions constant, a 1% increase or decrease in the assumed rate of return on assets would decrease or increase, respectively, 2013 net benefit cost by approximately \$4 million. Likewise, a 0.25% increase or decrease in the

assumed discount rate would decrease or increase, respectively, 2013 net periodic pension expense by approximately \$19 million.

During the fourth quarter of 2012, we changed our method of accounting for actuarial gains and losses for our pension and other postretirement plans. Historically, we recognized actuarial gains and losses related to our pension and other postretirement obligations and pension plan assets as a component of other comprehensive income in the periods in which they arose. As set forth in FASB guidance for pension and other postretirement plans, we amortized actuarial gains and losses (to the extent they exceeded a 10% corridor) in future periods over the average remaining service period of active employees or, if substantially all plan participants were inactive, over the average remaining life expectancy of inactive participants, as a component of our net periodic benefit cost. We elected in the fourth quarter of 2012 to begin to immediately recognize actuarial gains and losses in our operating results in the year in which they occur. These gains and losses are measured at least annually as of the end of our fiscal year and, as such, will generally be recognized during the fourth quarter of each year. Additionally, we will no longer calculate expected return on plan assets using a permitted averaging technique for market-related value of plan assets but instead will use the fair value of plan assets. We believe the accounting policy changes improve the transparency of our operational performance by recognizing in current period earnings the financial statement effects of changes in assumptions on our pension and other postretirement obligations and changes in fair value of pension plan assets. The financial data for all prior periods presented has been retrospectively adjusted to reflect the effect of these accounting changes. Please refer to Note 1, "Summary of Significant Accounting Policies," in the Notes to Consolidated Financial Statements included in Item 8 of this report for a presentation of our operating results before and after the application of this accounting change.

Stock-based compensation—Accounting for stock-based compensation requires measurement of compensation cost for all stock-based awards at fair value on the date of grant and recognition of compensation over the service period for awards expected to vest. We use the Black-Scholes-Merton option pricing model to determine the fair value of our stock options. This model uses assumptions that include the risk-free interest rate, expected volatility, expected dividend yield and expected life of the options. The fair value of restricted stock units and restricted stock are determined based on the quoted price of our common stock on the date of grant. The fair value of contingently issuable performance shares is based on the quoted price of our common stock on the date of grant, reduced for the present value of any dividends expected to be paid on our common stock during the performance cycle, as the contingently issuable performance shares do not accrue dividends prior to being earned. We record expense for contingently issuable performance shares based on our current expectations of the probable number of shares that will ultimately be issued. The value of our stock-based awards is recognized as expense over the service period, net of estimated forfeitures. The estimation of stock awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from our current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. We consider many factors when estimating expected forfeitures, including types of awards, employee class and historical experience. Actual results and future estimates may differ substantially from our current estimates.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Information with respect to Quantitative and Qualitative Disclosures About Market Risk appears under the heading "Market Risk—Interest and Exchange Rate Sensitivity" in Item 7.

Item 8. Financial Statements and Supplementary Data

See page F-1 of this report for a listing of the consolidated financial statements and supplementary data included in this report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Operating & Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Operating & Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. Disclosure controls and procedures are controls and procedures that

are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Operating & Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

Management's report on internal control over financial reporting and our independent registered public accounting firm's audit report on our assessment of our internal control over financial reporting can be found on pages F-54 and F-55.

Changes in Internal Control over Financial Reporting

We did not identify any changes in our internal control over financial reporting during the fourth quarter of the fiscal year to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PVH CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Currency and share amounts in thousands, except per share data)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business — PVH Corp. and its subsidiaries (collectively, the “Company”) together constitute a global apparel company whose brand portfolio consists of nationally and internationally recognized brand names, including *Calvin Klein, Tommy Hilfiger, Van Heusen, IZOD, Bass, ARROW* and *Eagle*, which are owned, and *Geoffrey Beene, Kenneth Cole New York, Kenneth Cole Reaction, Sean John, JOE Joseph Abboud, MICHAEL Michael Kors, Michael Kors Collection, Chaps, Donald J. Trump Signature Collection, DKNY, Elie Tahari, Nautica, Ted Baker, J. Garcia, Claiborne, Robert Graham, U.S. POLO ASSN., Ike Behar, Access, Jones New York* and *John Varvatos*, which are licensed, as well as various other licensed and private label brands. The Company designs and markets branded dress shirts, neckwear, sportswear and, to a lesser extent, footwear and other related products and licenses its owned brands over a broad range of products.

Principles of Consolidation — The consolidated financial statements include the accounts of the Company. Intercompany accounts and transactions have been eliminated in consolidation. Investments in entities that the Company does not control but has the ability to exercise significant influence over are accounted for using the equity method of accounting. The Company’s Consolidated Income Statements include its proportionate share of the net income or loss of these entities.

Use of Estimates — The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from the estimates.

Fiscal Year — The Company uses a 52-53 week fiscal year ending on the Sunday closest to February 1. References to a year are to the Company’s fiscal year, unless the context requires otherwise. Results for 2012, 2011 and 2010 represent the 53 weeks ended February 3, 2013, 52 weeks ended January 29, 2012 and 52 weeks ended January 30, 2011, respectively.

Cash and Cash Equivalents — The Company considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents. The Company’s balances of cash and cash equivalents at February 3, 2013 consisted principally of bank deposits and investments in money market funds.

Accounts Receivable — Accounts receivable, as presented on the Company’s Consolidated Balance Sheets, is net of allowances. An allowance for doubtful accounts is determined through an analysis of the aging of accounts receivable and assessments of collectibility based on historic trends, the financial condition of the Company’s customers and an evaluation of economic conditions. The Company writes off uncollectible trade receivables once collection efforts have been exhausted and third parties confirm the balance is not recoverable. Costs associated with allowable customer markdowns and operational chargebacks, net of the expected recoveries, are part of the provision for allowances included in accounts receivable. These provisions result from seasonal negotiations, as well as historic deduction trends net of expected recoveries, and the evaluation of current market conditions.

Goodwill and Other Intangible Assets — The Company assesses the recoverability of goodwill annually, at the beginning of the third quarter of each fiscal year, and between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. Impairment testing for goodwill is done at a reporting unit level. Under Financial Accounting Standards Board (“FASB”) guidance for goodwill and other intangible assets, a reporting unit is defined as an operating segment or one level below the operating segment, called a component. However, two or more components of an operating segment will be aggregated and deemed a single reporting unit if the components have similar economic characteristics. In 2012, the Company adopted new authoritative accounting guidance that allows it to first assess qualitative factors to determine whether it is necessary to perform the more detailed two-step quantitative goodwill impairment test. The Company performs the quantitative test if its qualitative assessment determined it is more likely than not that a reporting unit’s fair value is less than its carrying amount. The Company may elect to bypass the qualitative assessment and proceed directly to the quantitative test for any reporting unit. When performing the quantitative test, an impairment loss is recognized if the carrying amount of the reporting unit’s net assets exceeds the estimated fair value of the reporting unit and the carrying amount of reporting unit goodwill is determined to exceed the implied fair value of that goodwill. The estimated fair value of a reporting unit is calculated using a discounted cash flow model.

Indefinite-lived intangible assets not subject to amortization are tested for impairment annually, at the beginning of the third quarter of each fiscal year, and between annual tests if an event occurs or circumstances change that would indicate that

the carrying amount may be impaired. In 2012, the Company also adopted new authoritative accounting guidance that allows it to first assess qualitative factors to determine whether it is necessary to perform a more detailed quantitative impairment test for its indefinite-lived intangible assets. The Company performs the quantitative test if its qualitative assessment determined it was more likely than not that the assets are impaired. The Company may elect to bypass the qualitative assessment and proceed directly to the quantitative test. When performing the quantitative test, an impairment loss is recognized if the carrying amount of the asset exceeds the fair value of the asset, which is determined using the estimated discounted cash flows associated with the asset's use. Intangible assets with finite lives are amortized over their estimated useful lives and are tested for impairment along with other long-lived assets as described below.

The Company performed its required annual impairment tests for goodwill and other indefinite-lived intangible assets at the beginning of the third quarters of 2012, 2011 and 2010. No impairment of goodwill or other intangible assets resulted from any of these tests.

Asset Impairments — The Company reviews for and records impairment losses on long-lived assets (excluding goodwill and other indefinite-lived intangible assets) in accordance with FASB guidance for the impairment or disposal of long-lived assets. The Company records impairment losses when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by the related assets are less than the carrying amounts of those assets. Please see Note 9, "Fair Value Measurements" for a further discussion.

Inventories — Inventories are comprised principally of finished goods and are stated at the lower of cost or market. Cost for certain wholesale apparel inventories in North America is determined using the first-in, first-out method. Cost for all other inventories is determined using the weighted average cost method.

Inventory held on consignment by third parties totaled \$9,417 at February 3, 2013 and \$9,959 at January 29, 2012.

Property, Plant and Equipment — Property, plant and equipment is stated at cost less accumulated depreciation. Depreciation is generally provided over the estimated useful lives of the related assets on a straight-line basis. The range of useful lives is principally as follows: Buildings and building improvements: 15-40 years; machinery, software and equipment: 2-10 years; furniture and fixtures: 3-10 years; and fixtures located in third party customer locations ("shop-in-shops") and their related costs: 3-5 years. Leasehold improvements are depreciated using the straight-line method over the lesser of the term of the related lease or the estimated useful life of the asset. In certain circumstances, contractual renewal options are considered when determining the term of the related lease. Major additions and betterments are capitalized, and repairs and maintenance are charged to operations in the period incurred. Depreciation expense totaled \$122,424, \$112,495 and \$98,617 in 2012, 2011 and 2010, respectively.

Leases — The Company leases retail locations, warehouses, showrooms, office space and equipment. Assets held under capital leases are included in property, plant and equipment and are amortized over the lesser of the term of the related lease or the estimated useful life of the asset. The Company accounts for rent expense under non-cancelable operating leases with scheduled rent increases and rent holidays on a straight-line basis over the lease term. The Company determines the lease term at the inception of a lease by assuming the exercise of those renewal options that are reasonably assured because of the significant economic penalty that exists for not exercising those options. The excess of straight-line rent expense over scheduled payments is recorded as a deferred liability. In addition, the Company receives build out contributions from landlords primarily as an incentive for the Company to lease retail store space from the landlords. Such amounts are amortized as a reduction of rent expense over the life of the related lease.

Revenue Recognition — Revenue from the Company's wholesale operations is recognized at the time title to the goods passes and the risk of loss is transferred to customers. For sales by the Company's retail stores, revenue is recognized when goods are sold to consumers. Allowances for estimated returns and discounts are provided when sales are recorded. Royalty revenue for licensees whose sales exceed contractual sales minimums, including licensee contributions toward advertising, is recognized when licensed products are sold as reported by the Company's licensees. For licensees whose sales do not exceed contractual sales minimums, royalty revenue is recognized ratably based on contractual requirements for the timing of minimum payments.

The Company sells gift cards to customers in its retail stores. The Company does not charge administrative fees on gift cards, nor do they expire. Upon the purchase of a gift card by a customer, a liability is established for the cash value of the gift

PVH CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
(Currency and share amounts in thousands, except per share data)

card. The liability is relieved and revenue is recognized when the gift card is redeemed by the customer or if the Company determines that the likelihood of the gift card being redeemed is remote (also known as “gift card breakage”) and that it does not have a legal obligation to remit the value of such unredeemed gift card to any jurisdiction. Gift card breakage was immaterial in each of the last three years.

Sales Incentives — The Company uses certain sales incentive programs related to certain of the Company’s retail operations, such as a customer loyalty program and the issuance of coupons. The Company’s loyalty program is structured such that customers receive gift cards for future use after specified levels of spending are achieved within a specified time period. Costs associated with the Company’s loyalty program are recorded ratably as a cost of goods sold based on enrolled customers’ spending. Costs associated with coupons are recorded as a reduction of revenue at the time of coupon redemption.

Cost of Goods Sold and Selling, General and Administrative Expenses — Costs associated with the production and procurement of product are included in cost of goods sold, including shipping and handling costs such as inbound freight costs, purchasing and receiving costs, inspection costs and other product procurement related charges. All other expenses, excluding interest and income taxes, are included in selling, general and administrative expenses, including warehousing and distribution expenses, as the predominant expenses associated therewith are general and administrative in nature, including rent, utilities and payroll.

Shipping and Handling Fees — Shipping and handling fees billed to customers are included in net sales.

Advertising — Advertising costs are expensed as incurred and are included in selling, general and administrative expenses. Costs associated with cooperative advertising programs, under which the Company shares the cost of a customer’s advertising expenditures, are treated as a reduction of revenue. Advertising expenses totaled \$350,615, \$370,153 and \$302,829 in 2012, 2011 and 2010, respectively. Prepaid advertising expenses recorded in prepaid expenses and other assets totaled \$3,126 and \$7,286 at February 3, 2013 and January 29, 2012, respectively.

Sales Taxes — The Company accounts for sales taxes and other related taxes on a net basis, excluding such taxes from revenue and cost of goods sold.

Income Taxes — Deferred tax assets and liabilities are recognized for temporary differences between the tax bases of assets and liabilities and their reported amounts in the consolidated financial statements. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply in the periods in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in results of operations in the period that includes the enactment date. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts more likely than not to be realized.

Significant judgment is required in assessing the timing and amount of deductible and taxable items, evaluating tax positions and in determining the income tax provision. The Company recognizes income tax benefits only when it is more likely than not that the tax position will be fully sustained upon review by taxing authorities, including resolution of related appeals or litigation processes, if any. If the recognition threshold is met, the Company measures the tax benefit at the largest amount that is greater than 50 percent likely to be realized upon ultimate settlement. For tax positions that are 50 percent or less likely of being sustained upon audit, the Company does not recognize any portion of that benefit in the financial statements. When the outcome of these tax matters changes, the change in estimate impacts the provision for income taxes in the period that such a determination is made. The Company recognizes interest and penalties related to unrecognized tax benefits in the Company’s income tax provision.

Foreign Currency Translation and Transactions — The consolidated financial statements of the Company are prepared in United States dollars. If the functional currency of a foreign subsidiary is not the United States dollar, assets and liabilities are translated to United States dollars at the exchange rates in effect at the applicable balance sheet date and revenue and expenses are translated to United States dollars at the average exchange rate for the applicable period. Any adjustments resulting from such translation are recorded in stockholders’ equity as a component of accumulated other comprehensive income (“AOCI”). Transaction gains and losses arising from transactions denominated in a currency other than the functional currency of a particular entity are included in selling, general and administrative expenses and totaled a loss of \$1,911, \$5,729 and \$4,786 in 2012, 2011 and 2010, respectively.

PVH CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
(Currency and share amounts in thousands, except per share data)

Financial Instruments — The Company has exposure to changes in foreign currency exchange rates related to certain anticipated cash flows associated with certain international inventory purchases. In addition, the Company has exposure to changes in foreign currency exchange rates on certain intercompany loans. To help manage these exposures, the Company uses foreign currency forward exchange contracts. The Company also has exposure to interest rate volatility related to its senior secured term loan facilities. The Company entered into an interest rate swap agreement and an interest rate cap agreement to hedge against this exposure. The interest rate cap agreement expired on September 6, 2012. The Company does not use derivative financial instruments for speculative or trading purposes. The Company records the foreign currency forward exchange contracts and interest rate contracts (collectively referred to as “cash flow hedges”) at fair value in its Consolidated Balance Sheets. The fair value of the foreign currency forward exchange contracts is measured as the total amount of currency to be purchased, multiplied by the difference between (i) the forward rate as of the period end date and (ii) the settlement rate specified in each contract. The fair values of the interest rate contracts are based on observable interest rate yield curves and represent the expected discounted cash flows underlying the financial instruments. Changes in fair value of cash flow hedges that are designated as effective hedging instruments are deferred in equity as a component of AOCI. Any ineffectiveness in such cash flow hedges is immediately recognized in earnings. Changes in the fair value of hedges that are not designated as effective hedging instruments are immediately recognized in earnings. The Company had exposure to changes in foreign currency exchange rates in connection with the Company’s acquisition of Tommy Hilfiger B.V. and certain affiliated companies (collectively, “Tommy Hilfiger”), for which the Company entered into foreign currency forward exchange contracts that resulted in a loss during 2010. Cash flows from the Company’s derivative instruments are classified in the Consolidated Statements of Cash Flows in the same category as the items being hedged.

Balance Sheet Classification of Early Settlements of Long-Term Obligations — The Company classifies obligations settled after the balance sheet date but prior to the issuance of the financial statements based on the contractual payment terms of the underlying agreements.

Change in Accounting for Pension and Other Postretirement Plans — During the fourth quarter of 2012, the Company changed its method of accounting for actuarial gains and losses for its pension and other postretirement plans. Historically, the Company recognized actuarial gains and losses for its pension and other postretirement obligations and pension plan assets as a component of other comprehensive income in the periods in which they arose. As set forth in FASB guidance for pension and other postretirement plans, the Company amortized actuarial gains and losses (to the extent they exceeded a 10% corridor) in future periods over the average remaining service period of active employees or, if substantially all plan participants were inactive, over the average remaining life expectancy of inactive participants, as a component of its net periodic benefit cost. The Company elected in the fourth quarter of 2012 to begin to immediately recognize actuarial gains and losses in its operating results in the year in which they occur. These gains and losses are measured at least annually as of the end of the Company’s fiscal year and, as such, will generally be recognized during the fourth quarter of each year. Additionally, the Company will no longer calculate expected return on plan assets using a permitted averaging technique for market-related value of plan assets but instead will use the fair value of plan assets. The Company believes the accounting policy changes improve the transparency of the Company’s operational performance by recognizing in current period earnings the financial statement effects of changes in assumptions on the Company’s pension and other postretirement obligations and changes in fair value of pension plan assets. The financial data for all prior periods presented has been retrospectively adjusted to reflect the effect of these accounting changes. The cumulative effect of the changes on retained earnings as of February 1, 2010, was a reduction of \$82,649, with an offset to AOCI. Please see Note 10, “Retirement and Benefit Plans” for a further discussion of the Company’s pension and other postretirement plans.

Stock-Based Compensation — The Company recognizes all share-based payments to employees, including grants of employee stock options, as compensation expense in the financial statements based on their grant date fair values. Please see Note 12, "Stock-Based Compensation" for a further discussion.

Recently Issued Accounting Standards — The FASB issued in May 2011 guidance to clarify and revise the requirements for measuring fair value and for disclosing information about fair value measurements. The Company adopted this guidance prospectively beginning in 2012 and such adoption did not have a material impact on the Company's consolidated results of operations or financial position.

The FASB issued in September 2011 guidance that is intended to reduce the cost and complexity of the goodwill impairment test by providing an entity with the option to first assess qualitatively whether it is necessary to perform the two-step impairment test that is currently in place. An entity would not be required to quantitatively calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The guidance became effective for the Company in the first quarter of 2012. The Company adopted this guidance and performed such tests during the third quarter of 2012. The adoption did not have any impact on the Company's consolidated results of operations or financial position.

The FASB issued in July 2012 guidance that is intended to reduce the cost and complexity of the impairment test for indefinite-lived intangible assets by providing an entity with the option to first assess qualitatively whether it is necessary to perform the impairment test that is currently in place. An entity would not be required to quantitatively calculate the fair value of an indefinite-lived intangible asset unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The Company early adopted this guidance and performed such tests during the third quarter of 2012. The adoption did not have any impact on the Company's consolidated results of operations or financial position.

The FASB issued in February 2013 guidance that requires an entity to provide information about significant amounts reclassified out of accumulated other comprehensive income. For amounts that are required to be reclassified in their entirety to net income in the same reporting period, an entity must report the amounts by component and their corresponding effect on the respective line items of net income. Such information is required to be presented either on the face of the financial statements or as a separate disclosure in the footnotes to the financial statements. For other amounts that are not required to be reclassified to

net income in their entirety, an entity is required to cross-reference to other disclosures. This guidance becomes effective for the Company in the first quarter of 2013. The adoption will not have any impact on the Company's consolidated results of operations or financial position.

Reclassifications — Certain reclassifications have been made to the consolidated financial statements and the notes thereto for the prior year periods to present that information on a basis consistent with the current year. Additionally, see "Change in Accounting for Pension and Other Postretirement Plans" above for a discussion of changes in accounting for the Company's pension and other postretirement plans and resulting changes in the Company's previously reported amounts.

2. ACQUISITIONS

Acquisition of Warnaco

The Company acquired all of the outstanding equity interests of The Warnaco Group, Inc. ("Warnaco") subsequent to the close of the fiscal year ended February 3, 2013. Please refer to Note 21, "Subsequent Events (Unaudited)," for a further discussion.

Acquisition of Netherlands Franchisee

On August 1, 2012, the Company acquired from a former *Tommy Hilfiger* franchisee in the Netherlands 100% of the share capital of ten affiliated companies, which operate 13 *Tommy Hilfiger* stores in the Netherlands. The Company paid \$13,104 as consideration for this transaction, which was accounted for as a business combination.

Reacquisition of Tommy Hilfiger Tailored Apparel License

In 2011, the Company entered into agreements to reacquire from a licensee, prior to the expiration of the license, the rights to distribute *Tommy Hilfiger* brand tailored apparel in Europe and acquire an outlet store from the licensee. The transfer of the rights and store ownership was effective December 31, 2012. Under these agreements, the Company made a payment of \$9,641, based on the applicable exchange rate in effect on the payment date, to the licensee during the fourth quarter of 2011 and an additional payment of \$24,752, based on the applicable exchange rate in effect on the payment date, to the licensee during the fourth quarter of 2012. This reacquisition was accounted for as a business combination.

Reacquisition of Perpetually Licensed Rights for *Tommy Hilfiger* in India

During the third quarter of 2011, the Company reacquired the rights in India to the *Tommy Hilfiger* trademarks that had been subject to a perpetual license previously granted to GVM International Limited ("GVM"). The transaction was accounted for as a business combination. The Company paid \$25,000 during the third quarter of 2011 as consideration for this transaction. In addition, the Company is required to make annual contingent purchase price payments based on a percentage of annual sales in excess of an agreed upon threshold of *Tommy Hilfiger* products in India for a period of five years (or, under certain circumstances, a period of six years) following the acquisition date. Such payments are subject to a \$25,000 aggregate maximum and are due within 60 days following each one-year period. The first one-year period commenced on July 1, 2011. During the third quarter of 2012, the Company made a contingent purchase price payment of \$185 for the first one-year period.

In connection with the transaction, the Company recorded an expense of \$20,709 during the third quarter of 2011 due to the settlement of an unfavorable contract as a result of a pre-existing relationship with the licensee, as the license provided favorable terms to the licensee. Such expense was included within selling, general and administrative expenses.

Acquisition of Tommy Hilfiger

The Company acquired on May 6, 2010 all of the outstanding equity interests of Tommy Hilfiger. The results of Tommy Hilfiger's operations have been included in the Company's consolidated financial statements since that date. Tommy Hilfiger designs, sources and markets men's, women's and children's sportswear and activewear, jeanswear and other products worldwide and licenses its brands worldwide over a broad range of products. This transaction was accounted for as a business combination.

Fair Value of the Acquisition Consideration

The acquisition date fair value of the consideration paid, based on applicable exchange rates in effect on the closing date, consisted of the following:

Cash	\$ 2,485,776
Common stock (7,873 shares, par value \$1.00 per share)	475,607
Total fair value of the acquisition consideration	<u><u>\$ 2,961,383</u></u>

The fair value of the 7,873 common shares issued was equal to the aggregate value of the shares at the closing market price of the Company's common stock on May 5, 2010, the day prior to the closing. The value is not the same as the value of the shares as determined pursuant to the acquisition agreement, due to the fluctuation in the market price of the Company's common stock between the date of the acquisition agreement and the date of the acquisition closing.

The Company funded the cash portion and related costs of the Tommy Hilfiger acquisition with cash on hand and the net proceeds of the following activities: (i) the sale on April 28, 2010 of 5,750 shares of the Company's common stock; (ii) the issuances of an aggregate of 8 shares of Series A convertible preferred stock, which were convertible into 4,189 shares of the Company's common stock, for an aggregate gross purchase price of \$200,000; (iii) the issuance of \$600,000 of 7 3/8% senior notes due 2020; and (iv) the borrowing of approximately \$1,900,000 of term loans under new credit facilities.

The Company incurred certain pre-tax costs directly associated with the acquisition during 2010, totaling approximately \$72,000, which are included within selling, general and administrative expenses in its financial statements. The Company also recorded a loss of \$140,490 during 2010 associated with hedges against Euro to United States dollar exchange rates relating to the purchase price. During 2010 the Company incurred costs totaling \$29,251 associated with the issuance of the common and preferred shares related to the acquisition, which were deducted from the recognized proceeds of issuance within stockholders' equity. During the same period the Company incurred costs totaling \$71,533 associated with the issuance of debt related to the acquisition.

Pro Forma Impact of the Transaction

The following table presents the Company's pro forma consolidated results of operations for the year ended January 30, 2011 as if the acquisition and the related financing transactions had occurred on February 1, 2010 (the first day of its fiscal year ended January 30, 2011) instead of on May 6, 2010. The pro forma results were calculated applying the Company's accounting policies and reflect: (i) the impact on depreciation and amortization based on what would have been charged related to the fair value adjustments to Tommy Hilfiger's property, plant and equipment and the intangible assets recorded in connection with the acquisition; (ii) the impact on interest expense and interest income resulting from changes to the Company's capital structure in connection with the acquisition; (iii) the impact on cost of goods sold resulting from acquisition date adjustments to the fair value of inventory; and (iv) the tax effects of the above adjustments. The pro forma results do not include any cost synergies or other effects of the integration of Tommy Hilfiger. Accordingly, such pro forma amounts are not indicative of the results that actually would have occurred had the acquisition been completed on February 1, 2010, nor are they indicative of the future operating results of the combined company.

Other intangibles	172,069
Other assets	110,705
Accounts payable	91,436
Accrued expenses	209,873
Other liabilities	679,720

Reacquisition of Tommy Hilfiger Handbag License

On June 14, 2010, the Company entered into an agreement to reacquire from a licensee, prior to the expiration of the license, the rights to distribute *Tommy Hilfiger* handbags outside of the United States. The effective date of the transfer of the rights was December 31, 2010. In connection with this transaction, the Company made a payment of \$7,349, based on the applicable exchange rate in effect on the payment date, to the former licensee during the second quarter of 2010. This transaction was accounted for as a business combination.

3. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, at cost, was as follows:

	2012	2011
Land	\$ 1,057	\$ 1,028
Buildings and building improvements	73,003	70,692

Less: Accumulated depreciation	(623,363)	(536,855)
Property, plant and equipment, net	<u>\$ 561,335</u>	<u>\$ 458,891</u>

Construction in progress at February 3, 2013 and January 29, 2012 represents costs incurred for machinery, software and equipment, furniture and fixtures and leasehold improvements not yet placed in use, principally related to the construction of warehouse and distribution centers and retail stores. Interest costs capitalized in construction in progress were immaterial during 2012, 2011 and 2010.

The Company is required to make contingent purchase price payments to Mr. Calvin Klein in connection with the Company's acquisition in 2003 of all of the issued and outstanding stock of Calvin Klein, Inc. and certain affiliated companies (collectively, "Calvin Klein"). Such payments are based on 1.15% of total worldwide net sales, as defined in the acquisition agreement (as amended), of products bearing any of the *Calvin Klein* brands and are required to be made with respect to sales made through February 12, 2018. A significant portion of the sales on which the payments to Mr. Klein are made are wholesale sales by the Company and its licensees and other partners to retailers.

5. INVESTMENTS IN UNCONSOLIDATED AFFILIATES

Brazil

In 2012, the Company formed a joint venture, Tommy Hilfiger do Brasil S.A., in Brazil, in which the Company owns a 40% economic interest. The joint venture holds an exclusive license for the *Tommy Hilfiger* brand in Brazil that became effective on January 4, 2013. The Company made funding payments with respect to its 40% interest totaling \$6,464 during 2012. This investment is being accounted for under the equity method of accounting.

China

In 2011, the Company formed a joint venture, TH Asia Ltd., in China, in which the Company owns a 45% economic interest. The joint venture assumed direct control of the Tommy Hilfiger wholesale and retail distribution business in China from the prior licensee on August 1, 2011. The Company made funding payments with respect to its 45% interest totaling \$17,100 during 2011. This investment is being accounted for under the equity method of accounting.

India

In 2011, the Company completed a \$30,000 acquisition from Ganesha Limited and Ganesha Brands Limited, both of which are affiliates of GVM, of a 50% economic interest in a company that has since been renamed Tommy Hilfiger Arvind Fashion Private Limited ("TH India"). TH India was GVM's sublicensee of the *Tommy Hilfiger* trademarks for apparel, footwear and handbags in India. As a result of the transaction, TH India is now the direct licensee of the trademarks for all categories (other than fragrance), operates a wholesale apparel, footwear and handbags business in connection with its license, and sublicenses the trademarks for certain other product categories. The Company made additional payments totaling \$1,900 and \$1,600 to TH India during 2012 and 2011, respectively, to contribute the Company's 50% share of funding. This investment is being accounted for under the equity method of accounting.

Included in other noncurrent assets in the Company's Consolidated Balance Sheets as of February 3, 2013 and January 29, 2012 is \$62,021 and \$46,966, respectively, related to these investments in unconsolidated affiliates.

6. DEBT

Short-Term Borrowings

One of the Company's subsidiaries has a Yen-denominated overdraft facility with a Japanese bank, which provides for borrowings of ¥1,000,000 (approximately \$10,800 based on exchange rates in effect on February 3, 2013) and is utilized to fund working capital. Borrowings under the facility are unsecured and bear interest at the one-month Japanese inter-bank borrowing rate ("TIBOR") plus 0.15%. Such facility renews automatically unless the Company gives notice of termination. The full amount of this facility was borrowed as of February 3, 2013. The weighted average interest rate on the funds borrowed at February 3, 2013 was 0.33%.

Please refer to Note 9, "Fair Value Measurements," for the fair value of the Company's long-term debt as of February 3, 2013 and January 29, 2012.

As of February 3, 2013, the Company's mandatory long-term debt repayments for the next five years were as follows:

Fiscal Year	Amount
2013	\$ 88,000
2014	144,000
2015	328,000
2016	340,000
2017	—

As of February 3, 2013, after taking into account the interest rate swap agreement discussed below, approximately 85% of the Company's total debt was at a fixed rate, with the remainder at variable rates.

Senior Secured Credit Facilities

On May 6, 2010, the Company entered into a senior secured credit facility, which it amended and restated on March 2, 2011 ("the amended facility"). The amended facility consisted of a Euro-denominated term loan A facility, a United States dollar-denominated term loan A facility, a Euro-denominated term loan B facility, a United States dollar-denominated term loan B facility, a United States dollar-denominated revolving credit facility and two multi-currency (one United States dollar and Canadian dollar, and the other Euro, Japanese Yen and British Pound) revolving credit facilities. On February 13, 2013, in connection with the Warnaco acquisition, the Company entered into a new senior secured credit facility, which replaced the credit facility in place on February 3, 2013. Please refer to Note 21, "Subsequent Events (Unaudited)," for a further discussion. The following discussion is of the credit facility in place as of February 3, 2013.

The Company made payments on its term loans of \$450,725 during 2011, including a voluntary prepayment of \$149,275 in connection with the closing of the amended facility in the first quarter of 2011. The Company made payments on its term loans totaling \$299,598 during 2012.

The amended facility provided for initial borrowings of up to an aggregate of approximately \$1,970,000 (based on applicable exchange rates on March 2, 2011), consisting of (i) an aggregate of approximately \$1,520,000 of term loan facilities; and (ii) approximately \$450,000 under revolving credit facilities. As of February 3, 2013, based on applicable exchange rates on such date, the amended facility provided for approximately \$450,000 of revolving credit, under which the Company had no

revolving credit borrowings and \$42,436 of letters of credit outstanding. The maximum amount of revolving credit borrowings outstanding during the year ended February 3, 2013 was \$130,000. The Company had \$900,000 outstanding under its United States dollar-denominated term loan A and B facilities as of February 3, 2013. The Company had no borrowings outstanding under its Euro-denominated term loan A and B facilities as of February 3, 2013. Borrowed amounts repaid under the term loan facilities are not subject to reborrowing.

The maturity of the term loan A facilities and the revolving loan facilities was in January 2016. The maturity of the term loan B facilities was in May 2016. The Company's ability to pay cash dividends and make other restricted payments is limited, in each case, over specified amounts as defined in the agreement governing the amended facility. The terms of each of the term loan A and B facilities contain a mandatory repayment schedule on a quarterly basis. The outstanding borrowings under the amended facility are prepayable without penalty (other than customary breakage costs). The terms of the amended facility require the Company to repay certain amounts outstanding thereunder with (a) net cash proceeds of the incurrence of certain indebtedness, (b) net cash proceeds of certain asset sales or other dispositions (including as a result of casualty or condemnation) that exceed certain thresholds, to the extent such proceeds are not reinvested in the business in accordance with customary reinvestment provisions and (c) a percentage of excess cash flow, which percentage is based upon the Company's leverage ratio during the relevant fiscal period.

The United States dollar-denominated borrowings under the amended facility bear interest at a rate equal to an applicable margin plus, as determined at the Company's option, either (a) a base rate determined as the highest of (i) the prime rate, (ii) the United States federal funds rate plus 1/2 of 1% and (iii) a one-month adjusted Eurocurrency rate plus 1% (provided that, in the case of the term loan B facility, in no event will the base rate be less than 1.75%) or (b) an adjusted Eurocurrency rate, calculated in a manner set forth in the amended facility (provided that, in the case of the term loan B facility, in no event will the adjusted Eurocurrency rate be less than 0.75%).

Canadian dollar-denominated borrowings under the amended facility bear interest at a rate equal to an applicable margin plus, as determined at the Company's option, either (a) a Canadian prime rate determined by reference to the greater of (i) the average of the rates of interest per annum equal to the per annum rate of interest quoted, published and commonly known in Canada as the "prime rate" or which Royal Bank of Canada establishes at its main office in Toronto, Ontario as the reference rate of interest in order to determine interest rates for loans in Canadian dollars to its Canadian borrowers and (ii) the sum of (x) the average of the rates per annum for Canadian dollar bankers' acceptances having a term of one month that appears on the Reuters Screen CDOR Page as of 10:00 a.m. (Toronto time) on the date of determination, as reported by the administrative agent (and if such screen is not available, any successor or similar service as may be selected by the administrative agent), and (y) 1%, or (b) an adjusted Eurocurrency rate, calculated in a manner set forth in the amended facility.

The borrowings under the amended facility in currencies other than United States dollars or Canadian dollars bear interest at a rate equal to an applicable margin plus an adjusted Eurocurrency rate, calculated in a manner set forth in the amended facility (provided that, in the case of the term loan B facility, in no event will the adjusted Eurocurrency rate be deemed to be less than 0.75%).

The applicable margins at February 3, 2013 were (a) in the case of the United States dollar-denominated term loan A facility, 2.25% for adjusted Eurocurrency rate loans and 1.25% for base rate loans, as applicable, (b) in the case of the United States dollar-denominated term loan B facility, 2.75% for adjusted Eurocurrency rate loans and 1.75% for base rate loans, as applicable, (c) in the case of the Euro-denominated term loan A facility, 2.50%, (d) in the case of the Euro-denominated term loan B facility, 3.00% and (e) in the case of the revolving credit facilities, (x) for borrowings denominated in United States dollars, 2.25% for adjusted Eurocurrency rate loans and 1.25% for base rate loans, as applicable, (y) for borrowings denominated in Canadian dollars, 2.25% for adjusted Eurocurrency rate loans and 1.25% for Canadian prime rate loans, as applicable, and (z) for borrowings denominated in other currencies, 2.50%.

During the second quarter of 2011, the Company entered into an interest rate swap agreement for a three-year term commencing on June 6, 2011. The agreement has been designed with the intended effect of converting an initial notional amount of \$632,000 of the Company's variable rate debt obligation under its United States dollar-denominated senior secured term loan A facility to fixed rate debt. According to a pre-set schedule during the term of the swap agreement, the initial notional amount was reduced to \$540,908 as of February 3, 2013 and will continue to be reduced such that based on the Company's projections for future debt repayments, the Company's outstanding debt under the facility is expected to always equal or exceed the then-outstanding notional amount of the swap. Under the terms of the agreement for the then-outstanding

notional amount, the Company's exposure to fluctuations in the three-month London inter-bank borrowing rate ("LIBOR") is eliminated, and it will pay a fixed rate of 1.197%, plus the current applicable margin.

In addition, during the second quarter of 2011, the Company entered into an interest rate cap agreement for a 15-month term commencing on June 6, 2011. The agreement was designed with the intended effect of capping the interest rate on an initial notional amount of €165,895 of the Company's variable rate debt obligation under its Euro-denominated senior secured term loan A and B facilities. Such cap agreement expired September 6, 2012.

4 1/2% Senior Notes Due 2022

On December 20, 2012, the Company issued \$700,000 principal amount of 4 1/2% senior notes due December 15, 2022 in connection with the Warnaco acquisition. Interest on the 4 1/2% notes is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on June 15, 2013.

The Company may redeem some or all of these notes at any time prior to December 15, 2017 by paying a "make whole" premium plus any accrued and unpaid interest. Subject to certain conditions, the Company may also redeem up to 35% of these notes prior to December 15, 2015 with the net cash proceeds of certain equity offerings without having to pay a penalty or "make whole" premium. In addition, the Company may redeem some or all of these notes on or after December 15, 2017 at specified redemption prices plus any accrued and unpaid interest. The Company's ability to pay cash dividends and make other restricted payments is limited, in each case, over specified amounts as defined in the indenture governing the notes.

7 3/8% Senior Notes Due 2020

On May 6, 2010, the Company issued \$600,000 principal amount of 7 3/8% senior notes due May 15, 2020. Interest on the 7 3/8% notes is payable semi-annually in arrears on May 15 and November 15 of each year.

The Company may redeem some or all of these notes on or after May 15, 2015 at specified redemption prices plus any accrued and unpaid interest. The Company may redeem some or all of these notes at any time prior to May 15, 2015 by paying a "make whole" premium plus any accrued and unpaid interest. In addition, subject to certain conditions, the Company may also redeem up to 35% of these notes prior to May 15, 2013, by paying a set premium, with the net proceeds of certain equity offerings. The Company's ability to pay cash dividends and make other restricted payments is limited, in each case, over specified amounts as defined in the indenture governing the notes.

During the fourth quarter of 2012, the Company received the requisite consents from holders of these notes to amend the indenture governing the notes. The amendment increases the amount of secured indebtedness that the Company is permitted to incur without equally and ratably securing the notes. Under the terms of the consent solicitation, the Company paid \$5,749 during the fourth quarter to the holders of the notes.

7 3/4% Debentures Due 2023

The Company has outstanding \$100,000 of debentures due on November 15, 2023 with a yield to maturity of 7.80%. The debentures accrue interest at the rate of 7 3/4%, which is payable semi-annually. Pursuant to the indenture governing the debentures, the Company must maintain a certain level of stockholders' equity in order to pay cash dividends and make other restricted payments, as defined in the indenture governing the debentures.

Tender for and Redemption of 2011 Notes and 2013 Notes

The Company commenced tender offers on April 7, 2010 for (i) all of the \$150,000 outstanding principal amount of its notes due 2011; and (ii) all of the \$150,000 outstanding principal amount of its notes due 2013. The tender offers expired on May 4, 2010. On May 6, 2010, the Company accepted for purchase all of the notes tendered, made payment to tendering holders and called for redemption all of the balance of its outstanding 7 1/4% senior notes due 2011 and all of the balance of its outstanding 8 1/8% senior notes due 2013. The redemption prices of the notes due 2011 and 2013 were 100.000% and 101.354%, respectively, of the outstanding aggregate principal amount of each applicable note, plus accrued and unpaid interest thereon to the redemption date. On May 6, 2010, the Company made an irrevocable payment, including accrued and unpaid

interest, to the trustee for the notes due 2011 and 2013. As a result, such notes were satisfied and effectively discharged as of May 6, 2010.

Substantially all of the Company's assets have been pledged as collateral to secure the Company's obligations under its senior secured credit facilities, the 7 3/4% debentures due 2023 and contingent purchase price payments to Mr. Calvin Klein as discussed in Note 4, "Goodwill and Other Intangible Assets."

Interest paid was \$96,687, \$111,433 and \$110,018 in 2012, 2011 and 2010, respectively.

7. INCOME TAXES

The domestic and foreign components of income before provision for income taxes were as follows:

	2012	2011	2010
Domestic	\$ 229,080	\$ 127,393	\$ 27,803
Foreign	314,032	235,692	48,405
Total	<u>\$ 543,112</u>	<u>\$ 363,085</u>	<u>\$ 76,208</u>

Taxes paid were \$55,502, \$71,873 and \$40,169 in 2012, 2011 and 2010.

The provision (benefit) for income taxes attributable to income consisted of the following:

	2012	2011	2010
Federal:			
Current	\$ 33,277	\$ 36,552	\$ 19,790
Deferred	35,766	17,880	(11,295)

The Company's provision for income taxes for the years 2012, 2011 and 2010 was different from the amount computed by applying the statutory United States federal income tax rates to the underlying income as follows:

	2012	2011	2010
Statutory federal tax rate	35.0 %	35.0 %	35.0 %
State and local income taxes, net of federal income tax benefit	1.2 %	0.8 %	6.5 %
Effects of international jurisdictions, including foreign tax credits	(14.3)%	(10.9)%	(27.4)%
Nondeductible short-lived intangible asset and inventory valuation amortization	— %	— %	24.6 %
Nondeductible professional fees in connection with acquisitions	1.0 %	— %	3.4 %
Unrecognized tax benefits	0.7 %	(0.3)%	(4.2)%
Previously unrecognized tax credits	(1.0)%	— %	— %
Decreases in international income tax rates	— %	(1.4)%	(6.9)%
Change in valuation allowance	(1.6)%	(1.6)%	3.4 %
Other, net	(0.9)%	2.5 %	(5.8)%
Effective tax rate	<u>20.1 %</u>	<u>24.1 %</u>	<u>28.6 %</u>

Effects of international jurisdictions, including foreign tax credits, reflected in the above table for 2012, 2011 and 2010 include not only those taxes at statutory income tax rates but also taxes at special rates levied on income from certain jurisdictional activities. The Company expects to benefit from these special rates until 2022.

The components of deferred income tax assets and liabilities were as follows:

	2012	2011
Gross deferred tax assets		
Tax loss and credit carryforwards	\$ 95,665	\$ 93,311
Employee compensation and benefits	102,105	116,448
Inventories	13,765	19,606
Accounts receivable	12,751	14,820
Accrued expenses	22,844	18,239
Other, net	8,022	19,836
Subtotal	<u>255,152</u>	<u>282,260</u>
Valuation allowances	<u>(9,945)</u>	<u>(18,932)</u>
Total gross deferred tax assets, net of valuation allowances	\$ 245,207	\$ 263,328
Gross deferred tax liabilities		
Intangibles	\$ (712,496)	\$ (701,391)
Property, plant and equipment	<u>(22,732)</u>	<u>(3,326)</u>
Total gross deferred tax liabilities	<u>\$ (735,228)</u>	<u>\$ (704,717)</u>
Net deferred tax liability	<u>\$ (490,021)</u>	<u>\$ (441,389)</u>

At the end of 2012, the Company had domestic net operating loss carryforwards of approximately \$2,123, tax effected state tax loss carryforwards of approximately \$12,461, which at current apportionment percentages would equate to approximately \$366,299 of income (which is subject to change based upon future apportionment percentages), foreign net operating loss carryforwards of \$237,985 and federal, state and local credit carryforwards of \$31,187. The carryforwards expire principally between 2013 and 2032. The valuation allowance decrease relates primarily to tax attributes (e.g., state, local and foreign net operating loss carryforwards) for which the Company currently believes it is more likely than not that a portion of these losses will be realized.

The Company does not provide for deferred taxes on the excess of financial reporting over tax basis on its investments in all of its foreign subsidiaries that are essentially permanent in duration. The earnings that are permanently reinvested were \$376,757 as of February 3, 2013. It is not practicable to estimate the amount of tax that might be payable if these earnings were repatriated due to the complexities associated with the hypothetical calculation.

Unrecognized tax benefit activity for each of the last two years was as follows:

	2012	2011
Balance at beginning of year	\$ 184,004	\$ 178,634
Increases related to prior year tax positions	3,775	1,502
Decreases related to prior year tax positions	(2,747)	(758)
Increases related to current year tax positions	22,114	18,164
Lapses in statute of limitations	(10,939)	(11,896)
Effects of foreign currency translation	1,757	(1,642)
Balance at end of year	<u>\$ 197,964</u>	<u>\$ 184,004</u>

The entire amount of unrecognized tax benefits as of February 3, 2013, if recognized, would reduce the future effective tax rate under current accounting provisions.

Interest and penalties related to unrecognized tax benefits are recorded in the Company's income tax provision. Interest and penalties recognized in the Company's Consolidated Income Statements totaled an expense of \$3,420 and \$2,969 for 2012 and 2011, respectively. Interest and penalties accrued in the Company's Consolidated Balance Sheets as of February 3, 2013 and January 29, 2012 totaled \$13,997 and \$10,577, respectively. The Company records its liabilities for unrecognized tax benefits principally in accrued expenses and other liabilities on the Company's Consolidated Balance Sheets based on the anticipated timing of relieving such liabilities.

The Company files income tax returns in the United States and in various foreign, state and local jurisdictions. With few exceptions, examinations have been completed by tax authorities or the statute of limitations has expired for United States federal, foreign, state and local income tax returns filed by the Company for years through 2007. It is reasonably possible that a reduction of uncertain tax positions in a range of \$11,000 to \$30,000 may occur within 12 months of February 3, 2013.

8. DERIVATIVE FINANCIAL INSTRUMENTS

The Company has exposure to changes in foreign currency exchange rates related to certain anticipated cash flows associated with certain international inventory purchases. In addition, the Company has exposure to changes in foreign currency exchange rates on certain intercompany loans. To help manage these exposures, the Company periodically uses foreign currency forward exchange contracts.

The Company also has exposure to interest rate volatility related to its senior secured term loan facilities. The Company has entered into an interest rate swap agreement to hedge against this exposure. The Company had also entered into an interest rate cap agreement, which expired on September 6, 2012. Please see Note 6, "Debt," for a further discussion of the Company's senior secured term loan facilities and these agreements.

The Company entered into foreign currency forward exchange contracts with respect to €1,550,000 during 2010 in connection with the acquisition of Tommy Hilfiger to hedge against its exposure to changes in the exchange rate for the Euro, as a portion of the acquisition purchase price was payable in cash and denominated in Euros. Such foreign currency forward exchange contracts were not designated as hedging instruments. The Company settled the foreign currency forward exchange contracts at a loss of \$140,490 on May 6, 2010 in connection with the Company's completion of the Tommy Hilfiger acquisition. Such loss is reflected in other loss in the Company's Consolidated Income Statements.

The Company records the foreign currency forward exchange contracts and interest rate contracts at fair value in its Consolidated Balance Sheets. Changes in fair value of the foreign currency forward exchange contracts associated with certain international inventory purchases and the interest rate contracts (collectively referred to as "cash flow hedges") that are

PVH CORP.

designed as effective hedging instruments are deferred in equity as a component of AOCI. The cash flows from such hedges are presented in the same category on the Consolidated Statements of Cash Flows as the items being hedged. Any ineffectiveness in such cash flow hedges is immediately recognized in earnings and no contracts were excluded from effectiveness testing. In addition, changes in the fair value of foreign currency forward exchange contracts that are not designated as effective hedging instruments are immediately recognized in earnings, including the changes in fair value of all of the foreign exchange contracts related to intercompany loans, which are not of a long-term investment nature. Any gains and losses that are immediately recognized in earnings on such contracts related to intercompany loans are largely offset by the remeasurement of the underlying intercompany loan balances. The Company does not use derivative financial instruments for trading or speculative purposes.

The following table summarizes the fair value and presentation in the Consolidated Balance Sheets for the Company's derivative financial instruments:

	Asset Derivatives (Classified in Other Current Assets and Other Assets)		Liability Derivatives (Classified in Accrued Expenses and Other Liabilities)	
	2012	2011	2012	2011
Contracts designated as cash flow hedges:				
Foreign currency forward exchange contracts (inventory purchases)	\$ 4,693	\$ 13,581	\$ 13,460	\$ 1,590
Interest rate contracts	—	211	5,058	7,907
Total contracts designated as cash flow hedges	4,693	13,792	18,518	9,497
Undesignated contracts:				
Foreign currency forward exchange contracts (inventory purchases)	—	—	—	1,265
Total undesignated contracts	—	—	—	1,265
Total	\$ 4,693	\$ 13,792	\$ 18,518	\$ 10,762

At February 3, 2013, the notional amount outstanding of foreign currency forward exchange contracts for inventory purchases was approximately \$340,000. Such contracts expire principally between February 2013 and January 2014. At February 3, 2013, there were no foreign currency forward exchange contracts outstanding related to intercompany loans.

The following table summarizes the effect of the Company's hedges designated as cash flow hedging instruments:

	Loss Recognized in Other Comprehensive Income (Effective Portion)		Location	Gain (Loss) Reclassified from AOCI into Income (Expense) (Effective Portion)	
	2012	2011		2012	2011
	Foreign currency forward exchange contracts (inventory purchases)	\$ (7,535)	\$ (6,033)	Cost of goods sold	\$ 12,536
Interest rate contracts	(1,683)	(11,333)	Interest expense	(4,532)	(3,426)
Total	\$ (9,218)	\$ (17,366)		\$ 8,004	\$ (33,155)

There was no ineffective portion of hedges designated as cash flow hedging instruments during 2012 or 2011.

A net loss in AOCI on foreign currency forward exchange contracts at February 3, 2013 of \$11,818 is estimated to be reclassified in the next 12 months in the Consolidated Income Statements to costs of goods sold as the underlying inventory is purchased and sold. In addition, a net loss in AOCI for interest rate contracts at February 3, 2013 of \$3,576 is estimated to be reclassified to interest expense within the next 12 months.

The following table summarizes the effect of the Company's foreign currency forward exchange contracts that were not designated as cash flow hedges:

Foreign currency forward exchange contracts (inventory purchases)	Selling, general and administrative expenses	\$ 1,211	\$ 1,223

The Company had no derivative financial instruments with credit risk related contingent features underlying the related contracts as of February 3, 2013.

9. FAIR VALUE MEASUREMENTS

FASB guidance for fair value measurements defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It also establishes a three level hierarchy that prioritizes the inputs used to measure fair value. The three levels of the hierarchy are defined as follows:

Level 1 – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 – Observable inputs other than quoted prices included in Level 1, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs derived principally from or corroborated by observable market data.

Level 3 – Unobservable inputs reflecting the Company's own assumptions about the inputs that market participants would use in pricing the asset or liability based on the best information available.

In accordance with the fair value hierarchy described above, the following table shows the fair value of the Company's financial assets and liabilities that are required to be remeasured at fair value on a recurring basis:

	2012				2011			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

PVH CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
(Currency and share amounts in thousands, except per share data)

The fair value of the foreign currency forward exchange contracts is measured as the total amount of currency to be purchased, multiplied by the difference between (i) the forward rate as of the period end and (ii) the settlement rate specified in each contract. The fair values of the interest rate contracts are based on observable interest rate yield curves and represent the expected discounted cash flows underlying the financial instruments.

Pursuant to the agreement governing the reacquisition of the rights in India to the *Tommy Hilfiger* trademarks, the Company is required to make annual contingent purchase price payments based on a percentage of annual sales in excess of an agreed upon threshold of Tommy Hilfiger products in India for a period of five years (or, under certain circumstances, a period of six years) following the acquisition date. Such payments are subject to a \$25,000 aggregate maximum and are due within 60 days following each one-year period. The first one-year period commenced on July 1, 2011. During 2012, the Company made a contingent purchase price payment of \$185 for the first one-year period. The Company is required to remeasure this liability at fair value on a recurring basis and classifies this as a Level 3 measurement. The fair value of such contingent purchase price payments was determined using the discounted cash flow method, based on net sales projections for the Tommy Hilfiger apparel and accessories businesses in India, and was discounted using rates of return that account for the relative risks of the estimated future cash flows. Excluding the initial recognition of the liability for the contingent purchase price payments and payments made to reduce the liability, changes in the fair value are included within selling, general and administrative expenses.

The following table presents the change in the Level 3 contingent purchase price payment liability during 2012:

Balance as of January 29, 2012	\$ 9,559
Payments	(185)
Adjustments included in earnings	<u>(2,371)</u>
Balance as of February 3, 2013	<u>\$ 7,003</u>

Additional information with respect to assumptions used to value the contingent purchase price payment liability is as follows:

Unobservable Inputs	Amount
Approximate compounded annual net sales growth rate	45.0%
Approximate discount rate	20.0%

A five percentage point increase or decrease in the discount rate would change the liability by approximately \$1,000.

A five percentage point increase or decrease in the compounded annual net sales growth rate would change the liability by approximately \$1,000.

There were no transfers between any levels of the fair value hierarchy for any of the Company's fair value measurements.

The following table shows the fair value of the Company's non-financial assets and liabilities that were required to be remeasured at fair value on a nonrecurring basis (consisting of property, plant and equipment and other long-lived assets) during 2012 and 2011, and the total impairments recorded as a result of the remeasurement process:

	Fair Value Measurement Using			Fair Value As Of Impairment Date	Total Impairments

Long-lived assets with a carrying amount of \$259 were written down to a fair value of zero during 2012 in connection with the exit of a facility as part of the Company's integration of Tommy Hilfiger. Such assets were deemed to have no future use or economic benefit based on the Company's analysis using market participant assumptions, and therefore no expected future cash flows. The impairment charge was included in selling, general and administrative expenses in corporate expenses not allocated to any reportable segment.

Long-lived assets with a carrying amount of \$9,445 were written down to a fair value of \$2,229 during 2012 in connection with the financial performance in certain of the Company's retail stores. Fair value was determined based on the estimated discounted future cash flows associated with the assets using current sales trends and market participant assumptions. The impairment charge of \$7,216 was included in selling, general and administrative expenses, of which \$671 was recorded in the Heritage Brand Retail segment, \$281 was recorded in the Tommy Hilfiger North America segment and \$6,264 was recorded in the Tommy Hilfiger International segment.

Long-lived assets with a carrying amount of \$1,151 were written down to a fair value of zero during 2011 as a result of management's decision to permanently discontinue the use of one of its software systems. The Company ceased use of the software during the third quarter of 2011. Such assets were deemed to have no future use or economic benefit based on the Company's analysis using market participant assumptions, and therefore no expected future cash flows. The impairment charge was included in selling, general and administrative expenses in corporate expenses not allocated to any reportable segment.

Long-lived assets with a carrying amount of \$1,062 were written down to a fair value of zero during 2011 in connection with the Company's negotiated early termination of its license to market sportswear under the *Timberland* brand. Such assets were deemed to have no future use or economic benefit based on the Company's analysis using market participant assumptions, and therefore no expected future cash flows. The impairment charge was included in selling, general and administrative expenses in the Heritage Brand Wholesale Sportswear segment.

Long-lived assets with a carrying amount of \$5,552 were written down to a fair value of \$79 during 2011 in connection with the financial performance in certain of the Company's retail stores. Fair value was determined based on the estimated discounted future cash flows associated with the assets using current sales trends and market participant assumptions. The impairment charge was included in selling, general and administrative expenses, of which \$430 was recorded in the Heritage Brand Retail segment, \$568 was recorded in the Calvin Klein Licensing segment, \$313 was recorded in the Other (Calvin Klein Apparel) segment, \$2,175 was recorded in the Tommy Hilfiger North America segment and \$1,987 was recorded in the Tommy Hilfiger International segment.

The carrying amounts and the fair values of the Company's cash and cash equivalents, short-term borrowings and long-term debt were as follows:

	2012		2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 892,209	\$ 892,209	\$ 233,197	\$ 233,197
Short-term borrowings	10,847	10,847	13,040	13,040
Long-term debt (including portion classified as current)	2,299,642	2,398,200	1,902,876	1,978,419

The fair values of cash and cash equivalents and short-term borrowings approximate their carrying values due to the short-term nature of these instruments. The Company estimates the fair value of its long-term debt using quoted market prices as of the last business day of the applicable year. The Company classifies the measurement of its long-term debt as a Level 1 measurement.

10. RETIREMENT AND BENEFIT PLANS

The Company has five noncontributory defined benefit pension plans covering substantially all employees resident in the United States who meet certain age and service requirements. For those vested (after five years of service), the plans provide

monthly benefits upon retirement based on career compensation and years of credited service. The Company refers to these five plans as its “pension plans.”

As a result of the Company’s acquisition of Tommy Hilfiger, the Company also has for certain members of Tommy Hilfiger’s domestic senior management a supplemental executive retirement plan, which is an unfunded non-qualified supplemental defined benefit pension plan. Such plan is frozen and, as a result, participants do not accrue additional benefits. In addition, the Company has a capital accumulation program, which is an unfunded non-qualified supplemental defined benefit plan covering two current and 16 retired executives. Under the individual participants’ agreements, the participants in this plan will receive a predetermined amount during the 10 years following the attainment of age 65, provided that prior to the termination of employment with the Company, the participant has been in the plan for at least 10 years and has attained age 55. The Company also has for certain employees resident in the United States who meet certain age and service requirements an unfunded non-qualified supplemental defined benefit pension plan, which provides benefits for compensation in excess of Internal Revenue Service earnings limits and requires payments to vested employees upon, or shortly after, employment termination or retirement. The Company refers to these three plans as its “SERP Plans.”

The Company also provides certain postretirement health care and life insurance benefits to certain retirees resident in the United States. Retirees contribute to the cost of this plan, which is unfunded. During 2002, the postretirement plan was amended to eliminate benefits for active participants who, as of January 1, 2003, had not attained age 55 and 10 years of service.

During the fourth quarter of 2012, the Company changed its method of accounting for actuarial gains and losses for its pension and other postretirement plans. Historically, the Company recognized actuarial gains and losses for its pension and other postretirement obligations and pension plan assets as a component of other comprehensive income in the periods in which they arose. As set forth in FASB guidance for pension and other postretirement plans, the Company amortized actuarial gains and losses (to the extent they exceeded a 10% corridor) in future periods over the average remaining service period of active employees or, if substantially all plan participants were inactive, over the average remaining life expectancy of inactive participants, as a component of its net periodic benefit cost. The Company elected in the fourth quarter of 2012 to begin to immediately recognize actuarial gains and losses in its operating results in the year in which they occur. These gains and losses are measured at least annually as of the end of the Company’s fiscal year and, as such, will generally be recognized during the fourth quarter of each year. Additionally, the Company will no longer calculate expected return on plan assets using a permitted averaging technique for market-related value of plan assets but instead will use the fair value of plan assets. The Company believes the accounting policy changes improve the transparency of the Company’s operational performance by recognizing in current period earnings the financial statement effects of changes in assumptions on the Company’s pension and other postretirement obligations and changes in fair value of pension plan assets. The financial data for all prior periods presented has been retrospectively adjusted to reflect the effect of these accounting changes.

Reconciliations of the changes in the projected benefit obligation (pension plans and SERP Plans) and the accumulated benefit obligation (postretirement plan) for each of the last two years were as follows:

	Pension Plans	SERP Plans	Postretirement Plan
Prior service (cost) credit	\$ (6)	\$ 68	\$ 817

The pension plan assets are invested with the objective of being able to meet current and future benefit payment needs, while controlling pension expense volatility and future contributions. Plan assets are diversified among United States equities, international equities, fixed income investments and cash. The strategic target allocation for the majority of the plans as of February 3, 2013 was approximately 45% United States equities, 15% international equities and 40% fixed income investments. Equity securities primarily include investments in large-cap and mid-cap companies located in the United States and abroad. Fixed income securities include corporate bonds of companies from diversified industries, municipal bonds, collective funds and United States Treasury bonds. Actual investment allocations may vary from the Company's target investment allocations due to prevailing market conditions.

- (2) Valued at the net asset value of the fund, as determined by the closing price in the active market in which the individual fund is traded. This fund invests in a portfolio of U.S. and international equities seeking long-term growth of principal and income.
- (3) Valued at the closing price in the active market in which this fund is traded. This fund invests in U.S. large cap equities that track the Russell 1000 Index.
- (4) Valued at the net asset value of the fund, as determined by a pricing vendor or the fund family. The Company has the ability to redeem these investments at net asset value within the near term and therefore classifies these investments within Level 2. This fund invests primarily in equities outside the U.S. seeking long-term capital appreciation.
- (5) Valued with bid evaluation pricing that uses a discounted cash flow method. Inputs include actual and comparable trade data, market benchmarks, broker quotes, trading spreads and/or other applicable data.
- (6) Valued at the net asset value of the fund, as determined by a pricing vendor or the fund family. The Company has the ability to redeem these investments at net asset value within the near term and therefore classifies these investments within Level 2. This fund invests in high-grade, short-term, money market instruments.
- (7) Valued at the net asset value of the fund, as determined by the closing price in the active market in which the individual fund is traded. This fund invests in both equity securities and fixed income securities seeking a high total return.
- (8) This category includes other pension assets and liabilities such as pending trades and accrued income.
- (9) The Company uses third-party pricing services to determine the fair values of the financial instruments held by the pension plans. The Company obtains an understanding of the pricing services' valuation methodologies and related inputs and validates a sample of prices provided by the pricing services by reviewing prices from other pricing sources and analyzing pricing data in certain instances. The Company has not adjusted any prices received from the third-party pricing services.

The Company believes that there are no significant concentrations of risk within its plan assets at February 3, 2013.

In 2012, all of the Company's pension plans had projected benefit obligations in excess of plan assets and certain of the Company's pension plans had accumulated benefit obligations in excess of plan assets. In 2011, all of the Company's pension plans had projected and accumulated benefit obligations in excess of plan assets. The balances were as follows:

Currently, the Company expects to make contributions of approximately \$30,000 to its pension plans in 2013. The estimated pension contributions do not include anticipated contributions for the pension plans that the Company acquired in connection with the Warnaco acquisition. The Company's actual contributions may differ from planned contributions due to many factors, including changes in tax and other benefit laws, or significant differences between expected and actual pension asset performance or interest rates. The expected benefit payments associated with the Company's pension plans and SERP Plans, and expected benefit payments, net of retiree contributions, associated with the Company's postretirement plan are as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
(Currency and share amounts in thousands, except per share data)

The medical health care cost trend rate assumed for 2013 is 6.31% and is assumed to decrease by approximately 0.15% per year through 2022. Thereafter, the rate assumed is 5.0%. If the assumed health care cost trend rate increased or decreased by 1%, the aggregate effect on the service and interest cost components of the net postretirement benefit cost for 2012 and on the accumulated postretirement benefit obligation at February 3, 2013 would be as follows:

	1% Increase	1% Decrease
Impact on service and interest cost	\$ 52	\$ (46)
Impact on year end accumulated postretirement benefit obligation	\$ 1,110	\$ (990)

Significant weighted average rate assumptions used in determining the projected and accumulated benefit obligations at the end of each year and benefit cost in the following year were as follows:

	2012	2011	2010
Discount rate	4.67%	5.06%	6.09%
Rate of increase in compensation levels (applies to pension plans only)	4.34%	4.31%	4.30%
Long-term rate of return on assets (applies to pension plans only)	7.25%	7.75%	8.25%

To develop the expected weighted average long-term rate of return on assets assumption, the Company considered the historical level of the risk premium associated with the asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected return for each asset class was then weighted based on the target asset allocation to develop the expected long-term rate of return on assets assumption for the portfolio.

The Company has savings and retirement plans and a supplemental savings plan for the benefit of its eligible employees who elect to participate. The Company matches a portion of employee contributions to the plans. The Company also has a defined contribution plan for certain employees associated with certain businesses acquired in the Tommy Hilfiger acquisition, whereby the Company pays a percentage of the contribution for the employee. The Company's contributions to these plans were \$15,114, \$12,664 and \$9,898 in 2012, 2011 and 2010, respectively.

11. STOCKHOLDERS' EQUITY

Series A Convertible Preferred Stock Issuance

On May 6, 2010, the Company completed the sale of an aggregate of 8 shares of Series A convertible preferred stock, par value \$100.00 per share, for an aggregate gross purchase price of \$200,000 and for net proceeds of \$188,595 after related fees and expenses. The Series A convertible preferred stock had a liquidation preference of \$25,000 per share and was convertible at a price of \$47.74. During 2012, the holders of the Series A convertible preferred stock converted such convertible preferred stock into 4,189 shares of the Company's common stock. Holders of the Series A convertible preferred stock were entitled to vote and participate in dividends with the holders of the Company's common stock on an as-converted basis. Due to the conversion of such stock, there were no holders of the Company's Series A convertible preferred stock as of February 3, 2013.

Common Stock Offering

The Company sold 5,750 shares of its common stock on April 28, 2010 for net proceeds after commissions, discounts and related fees and expenses totaling \$364,529, which were used to fund a portion of the purchase price and fees relating to the acquisition of Tommy Hilfiger. Of the 5,750 shares, a total of 5,250 shares were released from treasury and 500 shares were newly issued.

Common Stock Issuance

On May 6, 2010, the Company issued 7,873 shares of its common stock, par value \$1.00 per share, as part of the consideration paid to the former shareholders of Tommy Hilfiger in connection with the acquisition.

Common Stock Dividends

During each of 2012, 2011 and 2010, the Company paid four \$0.0375 per share cash dividends on its common stock.

Warrant

The Company issued to Mr. Calvin Klein a nine-year warrant to purchase 320 shares of the Company's common stock at \$28.00 per share in connection with the Company's acquisition of Calvin Klein in 2003. Such warrant was exercised and the underlying shares were issued during 2010.

12. STOCK-BASED COMPENSATION

The Company grants stock-based awards under its 2006 Stock Incentive Plan (the "2006 Plan"). The 2006 Plan replaced the Company's 1997, 2000 and 2003 Stock Option Plans. The 1997, 2000 and 2003 Stock Option Plans terminated upon the 2006 Plan's initial stockholder approval in June 2006, other than with respect to outstanding options under the terminated plans, which continue to be governed by the respective plan under which they were granted. Shares issued as a result of stock-based compensation transactions generally have been funded with the issuance of new shares of the Company's common stock.

The Company may grant the following types of incentive awards under the 2006 Plan: (i) non-qualified stock options ("NQs"); (ii) incentive stock options ("ISOs"); (iii) stock appreciation rights; (iv) restricted stock; (v) restricted stock units ("RSUs"); (vi) performance shares; and (vii) other stock-based awards. Each award granted under the 2006 Plan is subject to an award agreement that incorporates, as applicable, the exercise price, the term of the award, the periods of restriction, the number of shares to which the award pertains, applicable performance period(s) and performance measure(s), and such other terms and conditions as the plan committee determines.

Through February 3, 2013, the Company has granted under the 2006 Plan: (i) service-based NQs and RSUs; (ii) contingently issuable performance shares; and (iii) RSUs that are intended to satisfy the performance-based condition for deductibility under Section 162(m) of the Internal Revenue Code. According to the terms of the 2006 Plan, for purposes of determining the number of shares available for grant, each share underlying a stock option award reduces the number available by one share and each share underlying an RSU or performance share award reduces the number available by three shares for awards made before April 29, 2009 and by two shares for awards made on or after April 29, 2009. The per share exercise price of options granted under the 2006 Plan cannot be less than the closing price of the common stock on the date of grant (the business day prior to the date of grant for awards granted prior to September 21, 2006).

The Company currently has service-based NQs and ISOs outstanding under its 1997, 2000 and 2003 Stock Option Plans. Such options were granted with an exercise price equal to the closing price of the Company's common stock on the business day immediately preceding the date of grant.

Net income for 2012, 2011 and 2010 included \$33,599, \$40,938 and \$33,281, respectively, of pre-tax expense related to stock-based compensation.

Options currently outstanding are generally cumulatively exercisable in four equal annual installments commencing one year after the date of grant. The vesting of options outstanding is also generally accelerated upon retirement (as defined in the applicable plan). Options are generally granted with a 10-year term.

The Company estimates the fair value of stock options granted at the date of grant using the Black-Scholes-Merton model. The estimated fair value of the options, net of estimated forfeitures, is expensed on a straight-line basis over the options' vesting periods. At February 3, 2013, there was \$10,377 of unrecognized pre-tax compensation expense, net of estimated forfeitures, related to non-vested stock options, which is expected to be recognized over a weighted average period of 1.7 years.

PVH CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
(Currency and share amounts in thousands, except per share data)

The following summarizes the assumptions used to estimate the fair value of service-based stock options granted in each year:

	2012	2011	2010
Weighted average risk-free interest rate	1.20%	2.62%	2.63%
Weighted average expected option term (in years)	6.25	6.25	6.25
Weighted average expected volatility	45.16%	44.35%	42.60%
Expected annual dividends per share	\$ 0.15	\$ 0.15	\$ 0.15
Weighted average estimated fair value per option	\$ 40.59	\$ 29.81	\$ 26.67

The risk-free interest rate is based on United States Treasury yields in effect at the date of grant for periods corresponding to the expected option term. The expected option term represents the weighted average period of time that options granted are expected to be outstanding, based on vesting schedules and the contractual term of the options. Expected volatility is based on the historical volatility of the Company's common stock over a period of time corresponding to the expected option term. Expected dividends are based on the Company's common stock cash dividend rate at the date of grant.

The Company has continued to utilize the simplified method to estimate the expected term for its "plain vanilla" stock options granted due to a lack of relevant historical data resulting, in part, from changes in the pool of employees receiving option grants. The Company will continue to evaluate the appropriateness of utilizing such method.

Service-based stock option activity for the year was as follows:

	Options	Weighted Average Price Per Option	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value

The aggregate grant date fair value of service-based options granted during 2012, 2011 and 2010 was \$7,607, \$5,819 and \$4,528, respectively.

The aggregate grant date fair value of service-based options that vested during 2012, 2011 and 2010 was \$5,517, \$4,707 and \$4,259, respectively.

The aggregate intrinsic value of service-based options exercised was \$27,760, \$34,364 and \$32,389 in 2012, 2011 and 2010, respectively.

RSUs granted to employees generally vest in three annual installments of 25%, 25% and 50% commencing two years after the date of grant. Service-based RSUs granted to non-employee directors vest in four equal annual installments commencing one year after the date of grant for awards granted prior to 2010 and vest in full one year after the date of grant for awards granted during or after 2010. The underlying RSU award agreements (excluding agreements for non-employee director awards made during or after 2010) generally provide for accelerated vesting upon the award recipient's retirement (as defined in the 2006 Plan). The fair value of service-based RSUs is equal to the closing price of the Company's common stock on the date of grant and is expensed, net of estimated forfeitures, on a straight-line basis over the RSUs' vesting periods.

Non-vested at February 3, 2013	<u>660</u>	<u>\$ 62.24</u>

The aggregate grant date fair value of RSUs granted during 2012, 2011 and 2010 was \$17,128, \$17,325 and \$11,210, respectively. The aggregate grant date fair value of RSUs vested during 2012, 2011 and 2010 was \$14,318, \$8,874 and \$4,021, respectively.

At February 3, 2013, there was \$19,437 of unrecognized pre-tax compensation expense, net of estimated forfeitures, related to non-vested RSUs, which is expected to be recognized over a weighted average period of 1.7 years.

The Company granted restricted stock to certain of Tommy Hilfiger's management employees in connection with the Tommy Hilfiger acquisition. The restricted stock was not subject to the 2006 Plan but its grant was approved by the Company's Board of Directors. The shares of restricted stock were registered in the names of each such employee and were held in a third-party escrow account until they vested, at which time the stock was delivered to the applicable employee. All such restricted stock was vested as of February 3, 2013.

The fair value of restricted stock was equal to the closing price of the Company's common stock on May 6, 2010 and was expensed, net of forfeitures, on a straight-line basis over the restricted stock's vesting period.

Restricted stock activity for the year was as follows:

	Restricted Stock	Weighted Average Grant Date Fair Value
Non-vested at January 29, 2012	333	\$ 60.41
Granted	—	—
Vested	333	60.41
Cancelled	—	—
Non-vested at February 3, 2013	<u>—</u>	<u>\$ —</u>

No restricted stock was granted during 2012 or 2011. The aggregate grant date fair value of restricted stock granted on May 6, 2010 was \$21,196. The aggregate grant date fair value of restricted stock vested during 2012, 2011 and 2010 was \$20,116, \$1,020 and \$60, respectively.

At February 3, 2013, there was no unrecognized pre-tax compensation expense related to non-vested restricted stock.

The Company granted contingently issuable performance share awards to certain of the Company's senior executives during 2012 subject to a performance period of two years and a service period of one year beyond the performance period. The Company granted contingently issuable performance share awards to certain of the Company's senior executives during 2011 subject to a performance period of two years. The Company granted contingently issuable performance share awards to all of the Company's senior executives (other than senior executives of Tommy Hilfiger) on May 6, 2010 subject to a performance period of three years. The Company granted contingently issuable performance share awards to all then-executive officers of the Company during the first quarter of 2010 subject to a performance period of two years. The holders of the awards granted

during the first quarter of 2011 that were subject to a performance period of two years earned an aggregate of 82 shares as a result of the Company's performance during such two-year period. For the awards granted in 2012, the remaining awards granted in 2011 and the awards granted in 2010, the final number of shares that will be earned, if any, is contingent upon the Company's achievement of goals for each of the performance periods based on both earnings per share growth and return on equity for the awards granted in the first quarter of 2012 and earnings per share growth for the awards granted in 2010 and the third quarter of 2011 during the applicable performance cycle. The Company records expense for the contingently issuable performance shares ratably over each applicable vesting period based on fair value and the Company's current expectations of the probable number of shares that will ultimately be issued. The fair value of the contingently issuable performance shares is equal to the closing price of the Company's common stock on the date of grant, reduced for the present value of any dividends expected to be paid on the Company's common stock during the performance cycle, as these contingently issuable performance shares do not accrue dividends prior to the completion of the performance cycle.

Performance share activity for the year was as follows:

	Performance Shares	Weighted Average Grant Date Fair Value
Non-vested at January 29, 2012	590	\$ 53.96
Granted	96	88.52
Vested	82	71.26
Cancelled	10	55.67
Non-vested at February 3, 2013	594	\$ 57.08

The aggregate grant date fair value of performance shares granted during 2012, 2011 and 2010 was \$8,440, \$6,644 and \$32,203, respectively. The aggregate grant date fair value of performance shares vested during 2012, 2011 and 2010 was \$5,877, \$6,043 and \$1,202, respectively.

At February 3, 2013, based on the Company's current estimate of the most likely number of shares that will ultimately be issued, there was \$6,308 of unrecognized pre-tax compensation expense related to non-vested performance shares, which is expected to be recognized over a weighted average period of 1.5 years.

The Company receives a tax deduction for certain transactions associated with its stock plan awards. The actual income tax benefits realized from these transactions were \$24,078, \$19,415 and \$14,077 in 2012, 2011 and 2010, respectively. Of those amounts, \$14,889, \$11,593 and \$9,333, respectively, were reported as excess tax benefits. Excess tax benefits arise when the actual tax benefit resulting from a stock plan award transaction exceeds the tax benefit associated with the grant date fair value of the related stock award.

Total stock awards available for grant at February 3, 2013 amounted to 6,381 shares.

Less: Amount representing interest		(3,937)	
Present value of net minimum capital lease payments	<u>\$ 31,060</u>		

The Company's retail location leases represent \$1,350,870 of the total minimum lease payments. The Company's administrative offices and showrooms located in New York, New York represent \$94,227 of the total minimum lease payments. The Company's corporate, finance and retail administrative offices located in Bridgewater, New Jersey represent \$46,164 of the total minimum lease payments. The Company's Calvin Klein administrative offices and showrooms represent \$33,025 of the total minimum lease payments. The Company's Tommy Hilfiger administrative offices and showrooms, most of which are located in Amsterdam, The Netherlands and New York, New York represent \$85,781 and \$73,477, respectively, of the total minimum lease payments.

At February 3, 2013, aggregate future minimum rentals to be received under non-cancelable capital and operating subleases were \$0 and \$24,314, respectively.

Rent expense was as follows:

	2012	2011	2010
Minimum	\$ 318,659	\$ 290,936	\$ 239,425
Percentage and other	127,581	95,352	49,069
Less: Sublease rental income	(3,366)	(3,441)	(2,925)
Total	<u>\$ 442,874</u>	<u>\$ 382,847</u>	<u>\$ 285,569</u>

The gross book value of assets under capital leases, which are classified within property, plant and equipment in the Company's Consolidated Balance Sheets, amounted to \$45,813 and \$40,270 as of February 3, 2013 and January 29, 2012, respectively. Accumulated amortization related to assets under capital leases amounted to \$14,604 and \$10,570 as of February 3, 2013 and January 29, 2012, respectively. The Company includes amortization of assets under capital leases in depreciation and amortization expense. The Company incurred \$0 during each of the years ended February 3, 2013 and January 29, 2012 in percentage rentals under capital leases.

The Company announced in the fourth quarter of 2011 that it would be exiting the Izod women's wholesale sportswear business during 2012. The exit was completed in the third quarter of 2012. In connection with this exit, the Company incurred certain costs related to severance and termination benefits. All expected costs related to this exit were incurred during 2011.

The costs associated with both of these activities were as follows:

	Incurred During 2011
Severance, termination benefits and other costs	\$ 2,027
Long-lived asset impairments	1,062
Contract termination and related costs	5,029
Total	<u>\$ 8,118</u>

The charges incurred in 2011 relate to selling, general and administrative expenses of the Heritage Brand Wholesale Sportswear segment (see Note 18, "Segment Data").

Please see Note 9, "Fair Value Measurements," for a further discussion of the long-lived asset impairments reflected in the above table.

Liabilities for severance and termination benefits and contract termination costs recorded in connection with the Company's early termination of the license to market sportswear under the *Timberland* brand and exit from the Izod women's wholesale sportswear business were principally recorded in accrued expenses in the Company's Consolidated Balance Sheets and were as follows:

	Liability at 1/29/12	Costs Paid During 2012	Liability at 2/3/13

The charges for severance, termination benefits and other costs, the loss on the liquidation of a foreign operation, lease termination costs and the disposal of goodwill for 2010 were included in selling, general and administrative expenses of the Heritage Brand Wholesale Dress Furnishings segment (see Note 18, "Segment Data").

All of these costs had been paid by the end of 2011.

16. NET INCOME PER COMMON SHARE

The Company utilizes the two-class method of calculating basic net income per common share, as holders of the Company's Series A convertible preferred stock participated in dividends with holders of the Company's common stock prior to the conversion in 2012 of such convertible preferred stock into common stock. Net losses are not allocated to holders of the Series A convertible preferred stock.

The Company computed its basic and diluted net income per common share as follows:

	2012	2011	2010
Net income	\$ 433,840	\$ 275,697	\$ 54,377
Less:			
Common stock dividends paid to holders of Series A convertible preferred stock	(366)	(628)	(471)
Allocation of income to Series A convertible preferred stock	(12,179)	(15,557)	(2,098)
Net income available to common stockholders for basic net income per common share	<u>421,295</u>	<u>259,512</u>	<u>51,808</u>
Add back:			
Common stock dividends paid to holders of Series A convertible preferred stock	366	628	471
Allocation of income to Series A convertible preferred stock	12,179	15,557	2,098
Net income available to common stockholders for diluted net income per common share	<u>\$ 433,840</u>	<u>\$ 275,697</u>	<u>\$ 54,377</u>
Weighted average common shares outstanding for basic net income per common share	70,392	67,158	62,744
Weighted average impact of dilutive securities	1,397	1,576	1,455
Weighted average impact of dilutive warrant	—	—	72
Weighted average impact of assumed convertible preferred stock conversion	2,087	4,189	3,107
Total shares for diluted net income per common share	<u>73,876</u>	<u>72,923</u>	<u>67,378</u>
Basic net income per common share	<u>\$ 5.98</u>	<u>\$ 3.86</u>	<u>\$ 0.83</u>
Diluted net income per common share	<u>\$ 5.87</u>	<u>\$ 3.78</u>	<u>\$ 0.81</u>

Potentially dilutive securities excluded from the calculation of diluted net income per common share were as follows:

	2012	2011	2010
Weighted average potentially dilutive securities	<u>305</u>	<u>345</u>	<u>287</u>

Contingently issuable shares that have not met the necessary conditions as of the end of a reporting period are not included in the calculation of diluted net income per common share for that period. The Company had contingently issuable awards outstanding that did not meet the performance conditions as of February 3, 2013, January 29, 2012 and January 30, 2011 and, therefore, were excluded from the calculation of diluted net income per common share for each applicable year. The maximum number of potentially dilutive shares that could be issued upon vesting for such awards was 100, 590 and 611 as of

February 3, 2013, January 29, 2012 and January 30, 2011, respectively. These amounts were also excluded from the computation of weighted average antidilutive securities.

17. NONCASH INVESTING AND FINANCING TRANSACTIONS

Omitted from the Consolidated Statement of Cash Flows for 2012 were capital expenditures related to property, plant and equipment of \$4,184, which will not be paid until 2013. The Company paid \$5,786 in cash during 2012 related to property, plant and equipment that was acquired in 2011. This amount is omitted from the Consolidated Statement of Cash Flows for 2011. The Company paid \$3,720 in cash during 2011 related to property, plant and equipment that was acquired in 2010. This amount is omitted from the Consolidated Statement of Cash Flows for 2010.

Omitted from purchases of property, plant and equipment in the Consolidated Statement of Cash Flows for 2012, 2011 and 2010 are \$18,203, \$11,562 and \$4,212, respectively, of assets acquired through capital leases.

The Company recorded increases to goodwill of \$51,715, \$51,309 and \$45,335 during 2012, 2011 and 2010, respectively, related to liabilities incurred for contingent purchase price payments to Mr. Calvin Klein. Such amounts are not due or paid in cash until 45 days subsequent to the Company's applicable quarter end. As such, during 2012, 2011 and 2010, the Company paid \$50,974, \$50,679 and \$43,655, respectively, in cash related to contingent purchase price payments to Mr. Calvin Klein that were recorded as additions to goodwill during the periods the liabilities were incurred.

During 2012, the holders of the Company's Series A convertible preferred stock converted an aggregate of 8 shares of such convertible preferred stock into 4,189 shares of the Company's common stock, resulting in a decrease in Series A convertible preferred stock of \$188,595, an increase in common stock of \$4,189, and an increase in additional paid in capital of \$184,406. Please see Note 11, "Stockholders' Equity."

During the first quarter of 2011, the Company recorded a loss of \$12,876 to write off previously capitalized debt issuance costs in connection with the amendment and restatement of its senior secured credit facility.

During the third quarter of 2011, the Company reacquired the rights in India to the *Tommy Hilfiger* trademarks that had been subject to a perpetual license. The Company is required to make annual contingent purchase price payments based on a percentage of annual sales over a certain threshold of *Tommy Hilfiger* products in India for a period of five years (or, under certain circumstances, a period of six years) following the acquisition date. Such payments are subject to a \$25,000 aggregate maximum and are due within 60 days following each one-year period. The first one-year period commenced on July 1, 2011. The fair value of such contingent purchase price payments, which was recorded as a liability as of the acquisition date, was estimated to be \$9,559 as of the acquisition date and remeasured at \$7,003 as of February 3, 2013.

During the second quarter of 2010, the Company issued 7,873 shares of its common stock valued at \$475,607 in connection with the acquisition of Tommy Hilfiger.

During the second quarter of 2010, the Company recorded a loss of \$3,005 to write-off previously capitalized debt issuance costs in connection with the extinguishment of its 7 1/4% senior notes due 2011 and its 8 1/8% senior notes due 2013.

The Company issued to Mr. Calvin Klein a nine-year warrant to purchase 320 shares of the Company's common stock at \$28.00 per share in connection with the Company's acquisition of Calvin Klein in 2003. Such warrant was exercised and the underlying shares were issued during 2010. The exercise price for these shares was satisfied through the Company's withholding of 140 shares, which had a total fair market value that approximated the exercise price, from the shares that would have otherwise been issuable.

18. SEGMENT DATA

The Company manages its operations through its operating divisions, which are aggregated into seven reportable segments: (i) Heritage Brand Wholesale Dress Furnishings; (ii) Heritage Brand Wholesale Sportswear; (iii) Heritage Brand Retail; (iv) Calvin Klein Licensing; (v) Tommy Hilfiger North America; (vi) Tommy Hilfiger International; and (vii) Other (Calvin Klein Apparel).

Heritage Brand Wholesale Dress Furnishings segment - This segment consists of the Company's heritage brand wholesale dress furnishings division. This segment derives revenue primarily from marketing both dress shirts and neckwear in North America under the brand names *Van Heusen*, *ARROW*, *IZOD*, *Kenneth Cole New York*, *Kenneth Cole Reaction*, *Sean John*, *Donald J. Trump Signature Collection*, *JOE Joseph Abboud*, *DKNY* and *MICHAEL Michael Kors*, as well as dress shirts under the brand names *Geoffrey Beene* and *Chaps*. The Company markets these dress shirt and neckwear brands, as well as certain other owned and licensed brands and various private label brands, primarily to department, mid-tier department and specialty stores.

Heritage Brand Wholesale Sportswear segment - The Company aggregates the results of its heritage brand wholesale sportswear divisions into the Heritage Brand Wholesale Sportswear segment. This segment derives revenue primarily from marketing in North America men's sportswear under the brand names *Van Heusen*, *IZOD* and *ARROW* to department, mid-tier department and specialty stores. This segment also derived revenue through the second quarter of 2012 from marketing men's sportswear under the brand name *Timberland* and through the third quarter of 2012 from marketing women's sportswear under the brand name *IZOD*.

Heritage Brand Retail segment - The Company aggregates the results of its three heritage brand retail divisions into the Heritage Brand Retail segment. This segment derives revenue principally from operating retail stores, primarily in outlet centers in North America, which sell apparel, footwear, accessories and related products under the brand names *Van Heusen*, *IZOD*, *Bass* and *G.H. Bass & Co.*

Calvin Klein Licensing segment - The Company aggregates the results of its Calvin Klein licensing and advertising division into the Calvin Klein Licensing segment. This segment derives revenue principally from licensing and similar arrangements worldwide relating to the use by third parties of the brand names *Calvin Klein Collection*, *ck Calvin Klein* and *Calvin Klein* for a broad array of products and retail services. This segment also derives revenue from the Company's Calvin Klein Collection wholesale business and from selling *Calvin Klein Collection* branded high-end collection apparel and accessories through the Company's own full price *Calvin Klein Collection* retail store located in New York City, both of which the Company operates directly in support of the global licensing business.

Tommy Hilfiger North America segment - The Company aggregates the results of its Tommy Hilfiger wholesale and retail divisions in North America into the Tommy Hilfiger North America segment. This segment derives revenue principally from (i) marketing *Tommy Hilfiger* branded apparel and related products at wholesale in North America, primarily to department stores; and (ii) operating retail stores and an e-commerce website in and for North America, which sell *Tommy Hilfiger* branded apparel, accessories and related products.

Tommy Hilfiger International segment - The Company aggregates the results of its Tommy Hilfiger wholesale and retail divisions that operate outside of North America and its proportionate share of the net income or loss of its investments in unconsolidated affiliates into the Tommy Hilfiger International segment. This segment derives revenue principally from (i) marketing *Tommy Hilfiger* branded apparel and related products at wholesale principally in Europe, primarily to department and specialty stores and franchise operators of *Tommy Hilfiger* stores, and through distributors and licensees; and (ii) operating retail stores in Europe and Japan, as well as operating an international e-commerce site, which sell *Tommy Hilfiger* branded apparel, accessories and related products.

Other (Calvin Klein Apparel) segment - The Company aggregates the results of its Calvin Klein apparel divisions into the Other (Calvin Klein Apparel) segment. This segment derives revenue principally in North America from the Company's marketing at wholesale of apparel and related products under the brand name *Calvin Klein*, primarily to department, mid-tier department and specialty stores, and at retail through the Company's e-commerce website and *Calvin Klein* retail stores, which are primarily located in outlet centers.

- (8) Loss before interest and taxes for 2011 includes costs of \$16,233 associated with the Company's modification of its senior secured credit facility. Please refer to Note 6, "Debt," for a further discussion.
- (9) Income before interest and taxes for 2010 includes costs of \$6,552 associated with the Company's exit from its United Kingdom and Ireland Van Heusen dresswear and accessories business.
- (10) Income (loss) before interest and taxes for 2010 includes costs of \$338,317 associated with the Company's acquisition and integration of Tommy Hilfiger, including transaction, restructuring, exit and debt extinguishment costs, short-lived non-cash valuation amortization charges and the effects of hedges against Euro to United States dollar exchange rates related to the purchase price. Such costs were included in the Company's segments as follows: \$51,946 in Tommy Hilfiger North America; \$62,844 in Tommy Hilfiger International; and \$223,527 in corporate expenses not allocated to any reportable segments.
- (11) In the fourth quarter of 2012, the Company changed its method of accounting for its pension and other postretirement plans to (i) calculate expected return on plan assets using the fair value of plan assets; and (ii) immediately recognize actuarial gains and losses in its operating results in the year in which they occur, as detailed in Note 1, "Summary of Significant Accounting Policies." All periods presented have been retrospectively adjusted to reflect the effect of these accounting changes.

Intersegment transactions consist of transfers of inventory principally between the Heritage Brand Wholesale Dress Furnishings segment and the Heritage Brand Retail segment and Other (Calvin Klein Apparel) segment. These transfers are recorded at cost plus a standard markup percentage. Such markup percentage is eliminated principally in the Heritage Brand Retail segment and Other (Calvin Klein Apparel) segment.

19. GUARANTEES

The Company guaranteed to a landlord the payment of rent and related costs by the tenant currently occupying space previously leased by the Company. The maximum amount guaranteed as of February 3, 2013 is approximately \$3,800, which is subject to exchange rate fluctuation. The Company has the right to seek recourse of approximately \$2,400 as of February 3, 2013, which is subject to exchange rate fluctuation. The guarantee expires on May 19, 2016.

The Company has certain other guarantees whereby it guaranteed the payment of amounts on behalf of certain other parties, none of which are material individually or in the aggregate.

20. OTHER COMMENTS

Included in accrued expenses on the Company's Consolidated Balance Sheets are certain incentive compensation accruals of \$57,006 and \$60,070 as of February 3, 2013 and January 29, 2012, respectively, and certain wholesale sales allowance accruals of \$50,981 and \$51,976 as of February 3, 2013 and January 29, 2012, respectively.

The Company's asset retirement obligations are included in other liabilities on the Company's Consolidated Balance Sheets and relate to the Company's obligation to dismantle or remove leasehold improvements from leased office or retail store locations at the end of a lease term in order to restore a facility to a condition specified in the lease agreement. The Company records the fair value of the liability for asset retirement obligations in the period in which it is legally or contractually incurred. Upon initial recognition of the asset retirement liability, an asset retirement cost is capitalized by increasing the carrying amount of the asset by the same amount as the liability. In periods subsequent to initial measurement, the asset retirement cost is recognized as expense through depreciation over the asset's useful life. Changes in the liability for the asset retirement obligations are recognized for the passage of time and revisions to either the timing or the amount of estimated cash flows. Accretion expense is recognized for the impacts of increasing the discounted fair value to its estimated settlement value.

The following table presents the activity related to the Company's asset retirement obligations for each of the last two years:

	2012	2011
Balance at beginning of year	\$ 11,709	\$ 9,385
Liabilities incurred	2,585	3,252
Liabilities settled (payments)	(1,160)	(879)
Accretion expense	294	133
Revisions in estimated cash flows	273	(474)
Currency translation adjustment	(1,198)	292
Balance at end of year	<u>\$ 12,503</u>	<u>\$ 11,709</u>

The Company is a party to certain litigation which, in management's judgment, based in part on the opinions of legal counsel, will not have a material adverse effect on the Company's financial position.

21. SUBSEQUENT EVENTS (UNAUDITED)

Warnaco Acquisition

The Company completed its acquisition of Warnaco on February 13, 2013. Warnaco designs, sources, markets, licenses and distributes a broad line of intimate apparel, sportswear and swimwear products worldwide. Warnaco's products are sold under the *Calvin Klein*, *Speedo*, *Chaps*, *Warner's* and *Olga* brand names. Ralph Lauren Corporation reacquired the *Chaps* license effective contemporaneously with the Warnaco acquisition.

The acquisition consolidated the Company's direct global control of the *Calvin Klein* brand image and commercial decisions for the two largest *Calvin Klein* apparel categories—jeanswear and underwear. In addition, the Company believes the acquisition takes advantage of its and Warnaco's complementary geographic platforms. Warnaco's operations in Asia and Latin America will enhance the Company's opportunities in these high-growth regions, and the Company will have the ability to leverage its expertise and infrastructure in North America and Europe to enhance the growth and profitability of Warnaco's Calvin Klein jeanswear and underwear businesses in these regions. With a diversified brand portfolio and strong operations in every major consumer market around the world, the Company believes its business will be better balanced across geographies, channels of distribution, product categories and price points, and it will have the opportunity to realize revenue growth and enhanced profitability.

The Company acquired Warnaco for total consideration of approximately \$3,147,850 as of the acquisition date. \$2,181,127 was paid in cash and 7,679 shares of the Company's common stock, par value \$1.00 per share, were issued. In addition, the Company issued replacement stock awards related to employee stock-based compensation grants valued at approximately \$40,000, which for accounting purposes are included in the total consideration. The value of the replacement stock awards, which remains subject to finalization, was determined based on the proportionate amount of the vesting period that had lapsed as of the acquisition date. The Company incurred during 2012 certain pre-tax costs associated with the acquisition, totaling \$42,579, which are included within selling, general and administrative expenses in its Consolidated Income Statement. The Company expects to incur approximately \$175,000 to \$200,000 of additional pre-tax charges over the next four years, approximately \$125,000 of which is expected to be incurred in 2013.

The Company funded the cash portion and related costs of the Warnaco acquisition and repaid a portion of its and Warnaco's previously outstanding debt with the net proceeds of (i) the issuance of \$700,000 of 4 1/2% senior notes due 2022; and (ii) the borrowing of \$3,075,000 of term loans under a new senior secured credit facility, as more fully described below.

Pro Forma Impact of the Transaction

The following table presents the Company's pro forma consolidated results of operations for the years ended February 3, 2013 and January 29, 2012 as if the acquisition and the related financing transactions had occurred on January 31, 2011 (the first day of its fiscal year ended January 29, 2012) instead of on February 13, 2013. The pro forma results were calculated applying the Company's accounting policies and reflect (i) the impact on revenue, cost of goods sold and selling, general and administrative expenses resulting from the elimination of intercompany transactions; (ii) the impact on amortization expense based on what would have been charged related to the fair value adjustments to Warnaco's intangible assets recorded in connection with the acquisition; (iii) the impact on interest expense resulting from changes to the Company's capital structure in connection with the acquisition; (iv) the impact on cost of goods sold resulting from acquisition date adjustments to the fair value of inventory; (v) the impact on selling, general and administrative expenses resulting from the elimination of transaction costs related to the acquisition that were included in the Company's results of operations for the year ended February 3, 2013; and (vi) the tax effects of the above adjustments. The pro forma results do not include any anticipated cost synergies or other effects of the planned integration of Warnaco. Accordingly, such pro forma amounts are not indicative of the results that actually would have occurred had the acquisition been completed on January 31, 2011, nor are they indicative of the future operating results of the combined company.

	Pro Forma Year Ended	
	2/3/13	1/29/12
Total revenue	\$ 8,291,972	\$ 8,194,842
Net income	498,342	307,245

Allocation of Consideration Transferred

Due to the limited time since the date of the acquisition, the initial disclosure for this business combination is incomplete as of the date of this filing. As such, it is impracticable for the Company to make certain business combination disclosures at this time. The Company is unable to present the acquisition date fair value of and information related to assets acquired and liabilities assumed. The Company will provide this information in its Quarterly Report on Form 10-Q for the quarter ending May 5, 2013.

New Senior Secured Credit Facility

Simultaneously with and related to the closing of the Warnaco acquisition, the Company entered into new senior secured credit facilities (“the new facilities”), the proceeds of which were used to fund a portion of the acquisition of Warnaco and to repay a portion of the Company’s and Warnaco’s previously outstanding debt. The new facilities consist of a \$1,700,000 United States dollar-denominated Term Loan A, a \$1,375,000 United States dollar-denominated Term Loan B and senior secured revolving credit facilities in an aggregate principal amount of \$750,000 (based on the applicable exchange rates on February 13, 2013), consisting of (a) a \$475,000 United States dollar-denominated revolving credit facility, (b) a \$25,000 United States dollar-denominated revolving credit facility available in United States dollars or Canadian dollars and (c) a €185,850 Euro-denominated revolving credit facility available in Euro, Pounds Sterling, Japanese Yen and Swiss Francs.

As of February 13, 2013, the full amounts of the term loans were drawn. The revolving credit facilities include amounts available for letters of credit. As of February 13, 2013, the Company had drawn no revolving credit borrowings and approximately \$86,900 of letters of credit. A portion of each of the United States revolving credit facility and Canadian revolving credit facility is also available for the making of swingline loans. The issuance of such letters of credit and the making of any swingline loan reduces the amount available under the applicable revolving credit facility. So long as certain conditions are satisfied, the Company may add one or more term loan facilities or increase the commitments under the revolving credit facilities by an aggregate amount not to exceed the greater of (a) \$750,000 and (b) \$1,250,000 as long as the ratio of the Company’s senior secured net debt to consolidated adjusted earnings before interest, taxes, depreciation and amortization (in each case calculated as set forth in the documentation relating to the new facilities) would not exceed 3.00:1.00 after giving pro forma effect to the incurrence of such increase, plus, in either case, an amount equal to the aggregate revolving commitments of any defaulting lender (to the extent the commitments with respect thereto have been terminated). The lenders under the new facilities are not required to provide commitments with respect to such additional facilities or increased commitments.

The terms of each of Term Loan A and Term Loan B contain a mandatory repayment schedule on a quarterly basis, such that the total annual repayments are as follows:

	Term Loan	
	A	B
Borrowings on February 13, 2013	\$ 1,700,000	\$ 1,375,000
Percentage required to be repaid for the annual period ending March 31:		
2014	5%	1%
2015	5%	1%
2016	7.5%	1%
2017	10%	1%
2018	72.5%	1%
2019		1%
2020		94%

The outstanding borrowings under the new facilities are prepayable at any time without penalty (other than customary breakage costs). The terms of the new facilities require the Company to repay certain amounts outstanding thereunder with (a) net cash proceeds of the incurrence of certain indebtedness, (b) net cash proceeds of certain asset sales or other dispositions (including as a result of casualty or condemnation) that exceed certain thresholds, to the extent such proceeds are not reinvested or committed to be reinvested in the business in accordance with customary reinvestment provisions and (c) a percentage of excess cash flow, which percentage is based upon the Company’s net leverage ratio during the relevant fiscal period.

The United States dollar-denominated borrowings under the new facilities bear interest at a rate equal to an applicable margin plus, as determined at the Company's option, either (a) a base rate determined by reference to the greater of (i) the prime rate, (ii) the United States federal funds rate plus 1/2 of 1.00% and (iii) a one-month adjusted Eurocurrency rate plus 1.00% (provided that, in the case of Term Loan B, in no event will the base rate be deemed to be less than 1.75%) or (b) an adjusted Eurocurrency rate, calculated in a manner set forth in the new facilities (provided that, in the case of Term Loan B, in no event will the adjusted Eurocurrency rate be deemed to be less than 0.75%).

Canadian dollar-denominated borrowings under the new revolving credit facility bear interest at a rate equal to an applicable margin plus, as determined at the Company's option, either (a) a Canadian prime rate determined by reference to the greater of (i) the rate of interest per annum that Royal Bank of Canada establishes at its main office in Toronto, Ontario as the reference rate of interest in order to determine interest rates for loans in Canadian Dollars to its Canadian borrowers and (ii) the sum of (x) the average of the rates per annum for Canadian Dollar bankers' acceptances having a term of one month that appears on the display referred to as "CDOR Page" of Reuters Monitor Money Rate Services as of 10:00 a.m. (Toronto time) on the date of determination, as reported by the administrative agent (and if such screen is not available, any successor or similar service as may be selected by the administrative agent), and (y) 0.75%, or (b) an adjusted Eurocurrency rate, calculated in a manner set forth in the new facility.

The borrowings under the new revolving credit facility in currencies other than United States dollars or Canadian dollars bear interest at a rate equal to an applicable margin plus an adjusted Eurocurrency rate, calculated in a manner set forth in the new facility.

The initial applicable margins will be in the case of Term Loan A and the revolving credit facilities, 2.00% for adjusted Eurocurrency rate loans and 1.00% for base rate loans, as applicable. The applicable margins in the case of Term Loan B are fixed at 2.50% for adjusted Eurocurrency rate loans and 1.50% for base rate loans, respectively. After the date of delivery of the compliance certificate and financial statements with respect to the Company's fiscal quarter ending May 5, 2013, the applicable margin for borrowings under Term Loan A and the revolving credit facilities will be adjusted based on the Company's quarter end net leverage ratio.

The new facilities contain covenants that restrict the Company's ability to finance future operations or capital needs, to take advantage of other business opportunities that may be in its interest or to satisfy its obligations under its other outstanding debt. These covenants restrict the Company's ability to, among other things:

- incur or guarantee additional debt or extend credit;
- make restricted payments, including paying dividends or making distributions on, or redeeming or repurchasing, the Company's capital stock or certain debt;
- make acquisitions and investments;
- dispose of assets;
- engage in transactions with affiliates;
- enter into agreements restricting the Company's subsidiaries' ability to pay dividends;
- create liens on the Company's assets or engage in sale/leaseback transactions; and
- effect a consolidation or merger, or sell, transfer, or lease all or substantially all of the Company's assets.

The new facilities require the Company to comply with certain financial covenants, including minimum interest coverage and maximum net leverage, beginning with its fiscal quarter ending August 4, 2013. A breach of any of these operating or financial covenants would result in a default under the applicable facility. If an event of default occurs and is continuing, the lenders could elect to declare all amounts then outstanding, together with accrued interest, to be immediately due and payable which would result in acceleration of the Company's other debt. If the Company was unable to repay any such borrowings when due, the lenders could proceed against their collateral, which also secures some of the Company's other indebtedness.

Prior Senior Secured Credit Facility

On February 13, 2013, the Company terminated its previously outstanding amended facility and repaid all outstanding borrowings thereunder.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of the Company is responsible for the preparation and integrity of the consolidated financial statements appearing in this Annual Report on Form 10-K. The consolidated financial statements were prepared in conformity with accounting principles generally accepted in the United States and, accordingly, include certain amounts based on management's best judgments and estimates.

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the underlying transactions, including the acquisition and disposition of assets; (ii) provide reasonable assurance that the Company's assets are safeguarded and transactions are executed in accordance with management's authorization and are recorded as necessary to permit preparation of the Company's consolidated financial statements in accordance with accounting principles generally accepted in the United States; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements and even when determined to be effective, can only provide reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Audit Committee of the Company's Board of Directors, composed solely of directors who are independent in accordance with New York Stock Exchange listing standards, the Securities Exchange Act of 1934, the Company's Corporate Governance Guidelines and its charter, meets periodically with the Company's independent auditors, the Company's internal auditors and management to discuss internal control over financial reporting, auditing and financial reporting matters. Both the independent auditors and the Company's internal auditors periodically meet alone with the Audit Committee and have free access to the Committee.

Management assessed the effectiveness of the Company's internal control over financial reporting as of February 3, 2013. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control – Integrated Framework. Based on management's assessment and those criteria, management believes that the Company maintained effective internal control over financial reporting as of February 3, 2013.

The Company's independent auditors, Ernst & Young LLP, a registered public accounting firm, are appointed by the Audit Committee, subject to ratification by the Company's stockholders. Ernst & Young LLP have audited and reported on the consolidated financial statements of the Company and the effectiveness of the Company's internal control over financial reporting. The reports of the independent auditors are contained in this Annual Report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of PVH Corp.

We have audited PVH Corp.'s internal control over financial reporting as of February 3, 2013, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). PVH Corp.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, PVH Corp. maintained, in all material respects, effective internal control over financial reporting as of February 3, 2013, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of PVH Corp. and subsidiaries as of February 3, 2013 and January 29, 2012, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity and cash flows for each of the three years in the period ended February 3, 2013 and our report dated April 3, 2013 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of PVH Corp.

We have audited the accompanying consolidated balance sheets of PVH Corp. and subsidiaries as of February 3, 2013 and January 29, 2012, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity and cash flows for each of the three years in the period ended February 3, 2013. Our audits also included the financial statement schedule included in Item 15(a) (2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of PVH Corp. and subsidiaries at February 3, 2013 and January 29, 2012, and the consolidated results of their operations and their cash flows for each of the three years in the period ended February 3, 2013 in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects, the information set forth therein.

As discussed in Note 1 to the consolidated financial statements, the Company has elected to change its method of accounting for actuarial gains and losses and the calculation of the market-related value of plan assets related to its pension and other postretirement plans in fiscal 2012.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), PVH Corp.'s internal control over financial reporting as of February 3, 2013, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 3, 2013, expressed an unqualified opinion thereon.

- (6) 2011, 2010, 2009 and 2008 include amounts that have been adjusted from the amounts that were previously reported in the Company's 2011, 2010, 2009 and 2008 Annual Reports on Form 10-K. In the fourth quarter of 2012, the Company changed its method of accounting for its pension and other postretirement plans to (i) calculate expected return on plan assets using the fair value of plan assets; and (ii) immediately recognize actuarial gains and losses in its operating results in the year in which they occur. The periods presented have been retrospectively adjusted to reflect the effect of these accounting changes. Please refer to Note 1, "Summary of Significant Accounting Policies," for a further discussion, as well as a summary of the adjustments to the 2011 and 2010 amounts. The following presents amounts previously reported in the Company's 2009 and 2008 Annual Reports on Form 10-K and the amounts as retrospectively adjusted:

	2009			2008
