INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

The Member Equitec Proprietary Markets, LLC Chicago, Illinois

We have audited the accompanying statement of financial condition of Equitec Proprietary Markets, LLC (the Company) as of December 31, 2012, and the related statements of operations and changes in members' capital, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Equitec Proprietary Markets, LLC as of December 31, 2012, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

230 West Monroe Street + Suite 330 + Chicago, IL 60606 + Tel. 312/782 4710 + Fax 312/782 4711

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information in Schedule I has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information in Schedule I is fairly stated in all material respects in relation to the financial statements as a whole.

....

NOTES TO FINANCIAL STATEMENTS

1. Organization:

Equitec Proprietary Markets, LLC (the Company) is a limited liability company organized under the laws of the state of Illinois, and is registered as a broker-dealer with the Securities and Exchange Commission (SEC). The Company conducts market-making and proprietary trading activities in exchange-traded securities and derivative financial instruments. All trades are cleared through another broker-dealer. The Company also provides access to its trading software for affiliated and nonaffiliated entities. The Company is a wholly owned subsidiary of Equitec Group, LLC (Group). The Company is a member of the Chicago Board Options Exchange, CBOE Stock Exchange, CBOE Futures Exchange, NYSE Arca, C2 Exchange, International Securities Exchange and the NASDAQ OMX PHLX.

2. Significant Accounting Policies:

The Company follows the accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets generally accepted accounting principles (GAAP) that the Company follows to ensure consistent reporting of financial condition, results of operations, and cash flows.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Company maintains cash in certain bank accounts insured by the Federal Deposit Insurance Corporation (FDIC). The insurance is currently limited to \$250,000. During 2012, there was unlimited insurance coverage provided by the FDIC for these bank accounts.

Securities and derivative transactions and the related revenue and expenses are recorded on a trade-date basis. All positions in securities and derivatives are stated at fair value. The related changes in unrealized appreciation or depreciation are reflected in trading gains and losses. See Notes 4 and 5.

Dividend income and expense are recognized on the ex-dividend date. Interest income and expense are recognized on an accrual basis.

Other receivables and assets include the Company's Class C limited partnership interest which represents an ownership interest in the Company's clearing organization. As such, the interest is not readily marketable, and is carried at cost.

Order routing, which includes providing access and usage to the Company's trading software, is recognized as earned on a trade-date basis.

The Company is not liable for federal income taxes as the member recognizes its respective share of income or loss in its tax returns. For 2012, the Company is exempt

NOTES TO FINANCIAL STATEMENTS

2. Significant Accounting Policies - continued:

from Illinois Replacement Tax as it qualifies as an Investment Partnership. Accordingly, no provision for income taxes has been made in these financial statements. FASB provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to met the more-likely-than-not threshold would be recorded as a tax benefit or expense and asset or liability, respectively, in the current year. For the year ended December 31, 2012, management has determined that there are no material uncertain income tax positions. The Company is not subject to examination by United States federal and state tax authorities for tax years before 2009.

Management has evaluated subsequent events through February 27, 2013, the date on which the financial statements were available to be issued.

3. Due from/to Clearing Broker:

The balance due from/to the clearing broker includes net receivables and payables for settled trades, cash and margin balances held at the clearing broker, and open trade equity on futures contracts. The Company earns or pays interest from/to its clearing broker based upon the federal funds rate computed on a daily basis on credit/debit balances. Amounts due from the clearing broker at December 31, 2012 consist of the following:

Cash/margin accounts at clearing broker	\$19,074,792
Futures open trade equity	15,321,505
Total	<u>\$34,396,297</u>

4. Derivative Financial Instruments:

Derivative contracts are financial instruments whose value is based upon an underlying asset, index, or reference rate. The Company's derivative activities are limited to those involving equity and index options, futures contracts, and options on futures contracts. The Company uses derivative financial instruments as part of its market-making and trading activities and its overall risk management process. These derivative contracts are recorded in the statement of financial condition as assets and liabilities measured at fair value and the related realized and unrealized gain (loss) associated with these derivatives is recorded in the statement of operations as net trading gains and losses. The Company does not consider any derivative instruments to be hedging instruments, as defined in FASB ASC 815, Derivatives and Hedging. Therefore, certain of the disclosures required under FASB ASC 815 are generally not applicable with respect to these financial instruments. At December 31, 2012 and for the year then ended, the Company's derivative activities had the following impact on the statement of financial condition and the statement of operations:

NOTES TO FINANCIAL STATEMENTS

4. Derivative Financial Instruments - continued:

Statement of Financial Condition:

Options on futures contracts	110,302,332
Equity and index options	<u>15,010,969</u>
	<u>\$32,137,737</u>

For the year ended December 31, 2012, the monthly average of derivative contracts bought and sold was approximately 5,796,000.

5. Fair Value of Financial Instruments:

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the input to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market.

Assets and liabilities recorded at fair value are categorized within the fair value hierarchy based upon the level of judgment associated with the inputs used to measure their value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Company utilizes valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs. Fair value measurement techniques used by the Company are consistent with the market, income and cost approach, as specified by FASB ASC 820. Inputs are broadly defined as assumptions

NOTES TO FINANCIAL STATEMENTS

5. Fair Value of Financial Instruments - continued:

market participants would use in pricing an asset or liability. The fair value hierarchy prioritizes the input to valuation techniques used to measure fair value into three broad levels:

- <u>Level 1</u>. Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives.
- Level 2. Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. The Level 2 inputs taken into consideration by the Company are quotes received from outside brokers, maturity of securities, values of underlying securities, etc. Investments which are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.
- Level 3. Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2012.

NOTES TO FINANCIAL STATEMENTS

5. Fair Value of Financial Instruments - continued:

	Level 1	Level 2	Level 3	Total
Due from clearing broker: Futures open trade equity	\$15,321,506	\$ -	\$ -	\$15,321,506
Equity securities owned	136,760,674		-	136,760,674
Equity options owned	582,361,239		-	582,361,239
Options on futures contracts owned	44,979,063	-	-	44,979,063
Equity securities sold, not yet purchased	123,872,380	-	-	123,872,380
Equity options sold, not yet purchased	524,857,414	_	-	524,857,414
Options on futures contracts sold, not yet purchased	104,888,605	-	_	104,888,605

As of December 31, 2012, all securities and derivatives owned and securities and derivatives sold, not yet purchased, trade in active markets and are valued using quoted active market prices or broker or dealer quotations with reasonable levels of price transparency, and are classified within Level 1 of the fair value hierarchy.

Recorded amounts of cash, receivables and payables approximate fair value, based on their short-term nature.

6. Guarantees:

Indemnifications: In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these agreements is unknown, as this would involve future claims that may be made against the Company regarding circumstances that have not yet occurred. However, management considers the likelihood of a material loss related to these agreements to be remote.

Other Guarantees: The Company guarantees certain service providers, such as clearing and custody agents, mainly Goldman Sachs Execution & Clearing L.P. (GSEC), against specified potential losses in connection with their acting as agent for the Company and its affiliates. The Company is currently obligated under a guarantee agreement with GSEC regarding any losses incurred in the event of a severe impairment of the assets held at GSEC owned by the Company. The Company also has entered into various limited guarantee contracts with GSEC guaranteeing up to \$5,000,000 in specified potential losses of Cat in the Hat Trading III, L.L.C., an affiliate. Management cannot estimate the amount of any potential liability under these guarantees, but feels that the likelihood of any requirement to make payments pursuant to these agreements is remote.

NOTES TO FINANCIAL STATEMENTS

7. Financial Instruments with Off-Balance-Sheet Risk:

In connection with its market-making and proprietary trading activities, the Company enters into various transactions involving derivative financial instruments, primarily exchange-traded equity options and futures contracts. Options held provide the Company with the opportunity to deliver or take delivery of specified financial instruments at a contracted price. Options written obligate the Company to deliver or take delivery of specified financial instruments at a contracted price in the event the option is exercised by the holder. Futures contracts provide for the delayed delivery or purchase of financial instruments at a specified future date at a specified price or yield. These derivative financial instruments may have market risk and/or credit risk in excess of the amounts recorded in the statement of financial condition.

Market risk: Market risk is the potential change in an instrument's value caused by fluctuations in equity prices, interest and currency exchange rates, credit spreads, and other risks. Derivative financial instruments involve varying degrees of off-balance-sheet market risk. Changes in the market values of the underlying financial instruments may result in changes in the value of the derivative financial instruments in excess of the amounts reflected in the statement of financial condition. Exposure to market risk is influenced by a number of factors, including the relationships between financial instruments and the volatility and liquidity in the markets in which the financial instruments are traded. In many cases, the use of derivative and other financial instruments serves to modify or offset market risk associated with other transactions and, accordingly, serves to decrease the Company's overall exposure to market risk. The Company attempts to manage its exposure to market risk arising from the use of these financial instruments through various analytical monitoring techniques.

In addition, the Company sells securities it does not currently own and will, therefore, be obligated to purchase such securities at a future date. The Company has recorded these obligations in the statement of financial condition at December 31, 2012, at the fair value of the related securities and would incur a loss if the fair value of the securities were to increase subsequent to December 31, 2012.

Credit risk: Credit risk arises from the potential inability of counterparties to perform in accordance with the terms of the contracts. The Company's exposure to credit risk associated with counterparty nonperformance is limited to the current cost to replace all contracts in which the Company has a gain. Exchange-traded financial instruments generally do not give rise to significant counterparty exposure due to the cash settlement procedures for daily market movements or the margin requirements of the individual exchanges and clearing brokers.

Concentration of credit risk: The majority of the Company's trades are cleared through Goldman Sachs Execution & Clearing, L.P., the Company's clearing broker. In the event this counterparty does not fulfill its obligation, the Company may be exposed to risk. The risk of default also depends on the creditworthiness of the counterparties to these transactions. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

NOTES TO FINANCIAL STATEMENTS

7. Financial Instruments with Off-Balance-Sheet Risk - continued:

Amounts payable, if any, to the clearing broker and securities sold, not yet purchased are collateralized by cash and securities owned and on deposit with the clearing broker.

8. Net Capital Requirements:

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. (The rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash distributions paid if the resulting ratio would exceed 10 to 1.) Under this rule, the Company is required to maintain "minimum net capital" equivalent to \$100,000 or 6 2/3% of "aggregate indebtedness," whichever is greater, as these terms are defined. At December 31, 2012, the Company had net capital of \$26,213,604, which was \$26,113,604 in excess of its required capital.

9. Principal Transaction Revenues:

During 2012, the Company's principal transaction revenues consisted primarily of equity activities (including equity shares, equity options and options on stock indexes) totaling \$64,288,033 and order routing income totaling \$2,267,171.

10. Operating Lease:

The Company rents two office copiers and related equipment under a three-year non-cancelable operating lease expiring in November, 2014. The lease provides for a monthly rental of \$1,695, plus applicable taxes and fees.

The following is a schedule of future minimum rentals under the above lease:

2013	\$23,222
2014	19,352

Lease expense totaled \$23,222 for the year ended December 31, 2012.

11. Related Party Transactions:

The Company's payroll function is handled exclusively by the member, Equitec Group, LLC. Reimbursement payments are made to Group based on the Company's share of payroll-related expenses. During 2012, total compensation paid by Group on the Company's behalf was \$14,565,087. Also, the Company paid rent for the use of Group's office facilities by the Company and its affiliates under a lease that has been entered into between Group and a third-party lessor. The Company is reimbursed from its affiliates for their share of rent expense, as described below.

NOTES TO FINANCIAL STATEMENTS

11. Related Party Transactions - continued:

The Company is reimbursed for certain expenses, including office space and administrative services, that are shared with various affiliates. During 2012, the Company was reimbursed \$164,000 for such expenses.

During 2012, the Company received technology fee income from various affiliates totaling \$172,600 for certain equipment and services made available to its affiliates.

Order routing income included \$310,879 received from various affiliates for access and usage of the Company's trading software. At December 31, 2012, other receivables and assets included \$37,328 due from these affiliates for such services.

12. Commitments and Contingencies:

In the normal course of business, the Company is subject to various claims, litigation, regulatory and arbitration matters. Although the effect of these claims and matters cannot be determined, management of the Company believes, after consultation with legal counsel, that the resolution of these claims and matters will not result in any material adverse effect upon the Company's financial position or results of operations.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17A-5

The Member Equitec Proprietary Markets, LLC Chicago, Illinois

In planning and performing our audit of the financial statements of Equitec Proprietary Markets, LLC (the Company), as of and for the year ended December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13, or
- 2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

230 West Monroe Street + Suite 330 + Chicago, IL 60606 + Tel. 312/782 4710 + Fax 312/782 4711

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2012, to meet the SEC's objectives.

This report is intended solely for the information and use of the Member, management, the SEC, various exchanges, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES RELATED TO AN ENTITY'S SIPC ASSESSMENT RECONCILIATION

The Member Equitec Proprietary Markets, LLC Chicago, Illinois

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments [General Assessment Reconciliation (Form SIPC-7)] to the Securities Investor Protection Corporation (SIPC) for the year ended December 31, 2012, which were agreed to by Equitec Proprietary Markets, LLC (the Company) and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., SIPC, and other examining authorities, solely to assist you and the other specified parties in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7). The Company's management is responsible for the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

- 1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records (copies of check written, bank statement in which check cleared, and cash disbursements journal in which check was recorded), noting no differences;
- Compared the amounts reported on the audited Form X-17A-5 for the year ended December 31, 2012, as applicable, with the amounts reported in Form SIPC-7 for the year ended December 31, 2012, noting no differences;
- 3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers, noting no differences;
- 4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments, noting no differences; and
- 5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed, noting no differences (if applicable).

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
