PART II — OFFERING CIRCULAR

ITEM 3. SUMMARY INFORMATION, RISK FACTORS AND DILUTION

Investing in the Company's Securities is very risky. You should be able to bear a complete loss of your investment. You should carefully consider the following factors, including those listed in this Securities Offering.

Restaurant Franchise Industry Risks

Restaurant Franchise investments are subject to varying degrees of risk. The yields available from equity investments in Restaurant Franchise Companies depends on the amount of income earned and capital appreciation generated by the Company as well as the expenses incurred in connection therewith. If any of the Company's products or services does not generate income sufficient to meet operating expenses, the Company's Common Stock value could adversely be affected. Income from, and the value of, the Company's Products and/or Assets may be adversely affected by the general economic climate, the Restaurant Franchise Market conditions such as oversupply of related products or a reduction in demand for Restaurant Franchise products in the areas in which the Company's Products and/or Assets are located, competition from other Restaurant Franchises, and the Company's ability to provide adequate Restaurant Franchise Products and Services. Revenues from the Company's Products, Services and/or Assets are also affected by such factors such as the costs of operations and local economic market conditions.

Because Restaurant Franchise Company investments are relatively illiquid, the Company's ability to vary its Products and/or Asset portfolio promptly in response to economic or other conditions is limited. The relative illiquidity of its holdings could impede the Company's ability to respond to adverse changes in the performance of its Products and/or Assets. No assurance can be given that the fair market value of the assets produced or acquired by the Company will not decrease in the future. Investors have no right to withdrawal their equity commitment or require the Company to repurchase their respective Common Stock interests and the transferability of the Common Stock Units is limited. Accordingly, investors should be prepared to hold their investment interest until the Company is dissolved and its assets are liquidated.

Development Stage Business

Digger's BBQ Franchises, Inc. commenced operations in July of 2012 as a South Carolina Stock Corporation. Accordingly, the Company has only a limited history upon which an evaluation of its prospects and future performance can be made. The Company's proposed operations are subject to all business risks associated with new enterprises. The likelihood of the Company's success must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the expansion of a business, operation in a competitive industry, and the continued development of advertising, promotions and a corresponding customer base. There is a possibility that the Company could sustain losses in the future. There can be no assurances that Digger's BBQ Franchises, Inc. will operate profitably.

Inadequacy of Funds

Gross offering proceeds of a maximum of \$1,000,000 may be realized. Management believes that such proceeds will capitalize and sustain the Company sufficiently to allow for the implementation of the Company's Business Plans. If only a fraction of this Offering is sold, or if certain assumptions contained in Management's business plans prove to be incorrect, the Company may have inadequate funds to fully develop its business.

Competition

Competition exists for Franchise Restaurants related products in most markets, including all sectors in which the Company intends to operate. The Company may be competing for sales with entities that have substantial greater economic and personnel resources than the Company or better relationships other Restaurant Franchise Industry related professionals. These entities may also generally be able to accept more risk than the Company can manage. Competition from other Companies in the Restaurant Franchise Marketplace may reduce the number of suitable Franchisee sales opportunities.

Expansion Strategy

The Company's ability to open successful franchise units will also depend upon the recruitment of qualified franchisees, and the hiring and training of skilled restaurant management personnel, and the general ability to successfully manage growth, including helping franchise restaurants control costs, food quality and customer service. The Company's present senior management has little experience developing and operating multi-unit facilities. The Company anticipates that opening additional franchise restaurant units will give rise to additional expenses associated with managing operations located in multiple markets. Furthermore, the Company believes that competition for unit-level management has become increasingly intense as additional restaurant chains expand to new markets. Achieving consumer awareness and market acceptance will require substantial efforts and expenditures by the Company. An extraordinary amount of management's time may be drawn to such matters and negatively impact operating results. There can be no assurance that the Company will be to open new franchise units or that, if opened, those units can be operated profitably.

Concept Evolution

The Company presently intends that most of its future corporate restaurants and future franchise restaurants will feature the "Southern BBQ" theme similar to the Taylors, South Carolina Flagship Unit. However, the Digger's BBQ Concept is evolving and a number of factors could change this theme as applied in different locations. These factors include demographic and regional differences, locations that have more or less traffic than the areas in which those units are located, type of available floor space, and the availability of specialty items such as antiques. Accordingly, future units could be larger or smaller than the flagship unit, could vary in the mix of quick serve / dine-in restaurant operations, and could have differences in the application of the Digger's BBQ theme.

Trademarks

The Company's ability to successfully implement its Digger's BBQ concept will depend in part upon its ability to protect its trademarks. The Company has filed a trademark application with the United States Patent and Trademark Office to register the "Digger's BBQ" mark and design(s). There can be no assurance that the Company will be granted trademark registration for any or all of the proposed uses in the Company's applications. In the event the Company's mark is granted registration, there can be no assurance that the Company can protect such mark and design against prior uses in areas where the Company conducts operations. There is no assurance that the Company will be able to prevent competitors from using the same or similar marks, concepts or appearance.

Dependence on Management

In the early stages of development the Company's business will be significantly dependent on the Company's management team. The Company's success will be particularly dependent upon the services of:

- Mr. Nick Ruiz, Founder and Chief Executive Officer
- Ms. Catherine Callahan, Vice President
- Mr. Ruben Ruiz, Director of Operations

Risks of Borrowing

Although the Company does not intend to incur any additional debt from the investment commitments provided in this offering, should the company obtain secure bank debt in the future, possible risks could arise. If the Company incurs additional indebtedness, a portion of the Company's cash flow will have to be dedicated to the payment of principal and interest on such new indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of members of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

Unanticipated Obstacles to Execution of the Business Plan

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of the Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

Management Discretion as to Use of Proceeds

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management with respect to application and allocation of the net proceeds of this Offering. Investors for the Units offered hereby will be entrusting their funds to the Company's Management, upon whose judgment and discretion the investors must depend.

Minimum Amount of Capital to be Raised

The minimum amount of Securities that need to be sold in this offering for the Company to access the investment funds is \$100,000. After the Minimum Amount of Capital required to be reached, all Investor funds will be transferred from the Company's Investment Holding Account to the Company. The Company cannot assure you that subscriptions for the entire Offering will be obtained. The Company has the right to terminate this offering of Securities at any time, regardless of the number of Securities that have sold. The Company's ability to meet financial obligations, cash needs, and to achieve objectives, could be adversely affected if the entire offering of Securities is not fully subscribed.

Management Discretion as to Use of Proceeds

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management with respect to application and allocation of the net proceeds of this Offering. Investors for the Units offered hereby will be entrusting their funds to the Company's Management, upon whose judgment and discretion the investors must depend.

Unanticipated Obstacles to Execution of the Business Plan

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of the Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

Control by Management

As of June 1st, 2014 the Company's Managers owned approximately 95% of the Company's outstanding Common Stock Units and 0% of the Company's Preferred Stock Units. Upon completion of this Offering, The Company's Management will own approximately 95% of the outstanding Common Stock Units of the Company and 0% of the outstanding Preferred Stock Units of the Company. Investors will not have the ability to control either a vote of the Company's Managers or any appointed officers. See "COMPANY MANAGERS" section.

Return of Profits

The Company has never declared or paid any cash dividends on its Common Stock. The Company currently intends to retain future earnings, if any, to finance the expansion of the Company's Franchise Restaurant Business. As a result, the Company does not anticipate paying any cash dividends to its Common Stock Holders for the foreseeable future.

No Assurances of Protection for Proprietary Rights; Reliance on Trade Secrets

In certain cases, the Company may rely on trade secrets to protect intellectual property, proprietary technology and processes, which the Company has acquired, developed or may develop in the future. There can be no assurances that secrecy obligations will be honored or that others will not independently develop similar or superior products or technology. The protection of intellectual property and/or proprietary technology through claims of trade secret status has been the subject of increasing claims and litigation by various companies both in order to protect proprietary rights as well as for competitive reasons even where proprietary claims are unsubstantiated. The prosecution of proprietary claims or the defense of such claims is costly and uncertain given the uncertainty and rapid development of the principles of law pertaining to this area. The Company, in common with other investment funds, may also be subject to claims by other parties with regard to the use of intellectual property, technology information and data, which may be deemed proprietary to others.

The Company's Continuing as a Going Concern Depends Upon Financing

If the Company does not raise sufficient working capital and continues to experience pre-operating losses, there will most likely be substantial doubt as to its ability to continue as a going concern. Because the Company has generated no revenue, all expenditures during the development stage have been recorded as pre-operating losses. Revenue operations have not commenced because the Company has not raised the necessary capital.

Broker - Dealer Sales of Units

The Company's Preferred Stock Units and Common Stock Units are not included for trading on any exchange, and there can be no assurances that the Company will ultimately be registered on any exchange. The NASDAQ Stock Market, Inc. has recently enacted certain changes to the entry and maintenance criteria for listing eligibility on the NASDAQ SmallCap Market. The entry standards require at least \$4 million in net tangible assets or \$750,000 net income in two of the last three years. The proposed entry standards would also require a public float of at least 1 million shares, \$5 million value of public float, a minimum bid price of \$2.00 per share, at least three market makers, and at least 300 shareholders. The maintenance standards (as opposed to entry standards) require at least \$2 million in net tangible assets or \$500,000 in net income in two of the last three years, a public float of at least 500,000 shares, a \$1 million market value of public float, a minimum bid price of \$1.00 per share, at least two market makers, and at least 300 shareholders.

No assurance can be given that the Preferred Stock or Common Stock Units of the Company will ever qualify for inclusion on the NASDAQ System or any other trading market until such time as the Managing Members deem it necessary. As a result, the Company's Preferred Stock Units and Common Stock Units are covered by a Securities and Exchange Commission rule that opposes additional sales practice requirements on broker-dealers who sell such securities to persons other than established customers and qualified investors. For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Consequently, the rule may affect the ability of broker-dealers to sell the Company's securities and will also affect the ability of members to sell their units in the secondary market.

Secondary Market

No application is currently being prepared for the Company's Securities to be admitted to the Official Listing and trading on any regulated market. No application is being prepared to include the Securities to trading on an "Over-the-Counter" or "Open Market", though the Company intends to submit an S-1 or Form 10 Filing within TWELVE MONTHS of the close of this securities offering. There can be no assurance that a liquid market for the Securities will develop or, if it does develop, that it will continue. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with yield comparable to similar investments that have a developed secondary market. Illiquidity may have a **severely adverse effect on the market value of the Securities and investors wishing to sell the Securities might therefore suffer losses.**

Certain Factors Related to Our Common Stock

Because the Company's Common Stock may be considered a "penny stock," and a shareholder may have difficulty selling shares in the secondary trading market.

The Company's Common Stock Securities may be subject to certain rules and regulations relating to "penny stock" (generally defined as any equity security that has a price less than \$5.00 per share, subject to certain exemptions). Broker-dealers who sell penny stocks are subject to certain "sales practice requirements" for sales in certain nonexempt transactions (i.e., sales to persons other than established customers and institutional "qualified investors"), including requiring delivery of a risk disclosure document relating to the penny stock market and monthly statements disclosing recent price information for the penny stocks held in the account, and certain other restrictions. For as long as the Company's Common Stock is subject to the rules on penny stocks, the market liquidity for such securities could be significantly limited. This lack of liquidity may also make it more difficult for the Company to raise capital in the future through sales of equity in the public or private markets.

The price of the Company's Common Stock may be volatile, and a shareholder's investment in the Company's Common Stock could suffer a decline in value.

There could be significant volatility in the volume and market price of the Company's Common Stock, and this volatility may continue in the future. The Company's Common Stock may be listed on the OTCQB, OTCQX, OTCBB, The Bermuda BSX Exchange, the London Stock Exchange's AIM Market, the Canadian TSX Venture Exchange or TMX Exchange, the Irish Stock Exchange, the Frankfurt Stock Exchange and / or the Berlin Stock Exchange, where each has a greater chance for market volatility for securities that trade on these markets as opposed to a national exchange or quotation system. This volatility may be caused by a variety of factors, including the lack of readily available quotations, the absence of consistent administrative supervision of "bid" and "ask" quotations and generally lower trading volume. In addition, factors such as quarterly variations in our operating results, changes in financial estimates by securities analysts or our failure to meet our or their projected financial and operating results, litigation involving us, general trends relating to the Restaurant Franchise Industry, actions by governmental agencies, national economic and stock market considerations as well as other events and circumstances beyond our control could have a significant impact on the future market price of our Common Stock and the relative volatility of such market price.

Compliance with Securities Laws

The Company's Securities are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act, applicable Florida Securities Laws, and other applicable state securities laws. If the sale of Securities were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of Securities. If a number of purchasers were to obtain rescission, we would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

Offering Price

The price of the Securities offered has been arbitrarily established by our current Managers, considering such matters as the state of the Company's business development and the general condition of the industry in which it operates. The Offering price bears little relationship to the assets, net worth, or any other objective criteria.

Lack of Firm Underwriter

The Securities are offered on a "best efforts" basis by the Company Managers, without compensation and on a "best efforts" basis through certain FINRA registered broker-dealers, which enter into Participating Broker-Dealer Agreements with the Company. Accordingly, there is no assurance that the Company, or any FINRA broker-dealer, will sell the maximum Securities offered or any lesser amount.

Projections: Forward Looking Information

Management has prepared projections regarding anticipated financial performance. The Company's projections are hypothetical and based upon a presumed financial performance of the Company, the addition of a sophisticated and well funded marketing plan, and other factors influencing the business. The projections are based on Management's best estimate of the probable results of operations of the Company and the investments made by management, based on present circumstances, and have not been reviewed by independent accountants and/or auditing counsel. These projections are based on several assumptions, set forth therein, which Management believes are reasonable. Some assumptions, upon which the projections are based, however, invariably will not materialize due the inevitable occurrence of unanticipated events and circumstances beyond Management's

control. Therefore, actual results of operations will vary from the projections, and such variances may be material. Assumptions regarding future changes in sales and revenues are necessarily speculative in nature. In addition, projections do not and cannot take into account such factors as general economic conditions, unforeseen regulatory changes, the entry into a market of additional competitors, the terms and conditions of future capitalization, and other risks inherent to the Company's business. While Management believes that the projections accurately reflect possible future results of operations, those results cannot be guaranteed.

Sales & Marketing Strategy: Digger's BBQ Franchises, Inc. began an internet marketing campaign in 2011. Since that time, the Company has had over 400 pre-qualified leads, and the Company is in the process of negotiation with several potential franchisees to open up several new franchises in the U.S. in 2014 and 2014. The Company's Strategy is to open 200 company owned "Express" and Full Size "QSR" (Quick Serve Restaurants) stores, which focus primarily on Dine-in, catering and takeout in the next three years throughout the southeast and nationwide. This will allow Digger's BBQ Franchises, Inc. to create uniformity throughout the southeast as well as nationwide, and create a "BUZZ" about Digger's BBQ as the most unique new franchise concept. This strategy will appeal to potential franchisees, as they seek new opportunities to invest in, because they will see the number of Digger's BBQ locations popping up adding a sense of credibility to our Corporate Brand Identity.

Our intention is to open 200 company owned stores and sell 400 franchises within three to four years. To achieve this we will require an immediate capital investment of \$1,000,000.

Company History & Overview

Digger's BBQ Franchises, Inc. was founded in July of 2012. Mr. Ruiz is the CEO and retains 100% ownership of the enterprise. No outside capital has been used to fund the operations of the enterprise. The enterprise was founded based on the industry demand for a fast casual restaurant that could deliver high quality food, extreme value, great customer service, and maintain the speed of service of a typical fast food restaurant without sacrificing the atmosphere of a sit down restaurant.

The Company currently operates its first Flagship Location at 3217 Wade Hampton Blvd., Taylors, South Carolina 29687. The website for the Company is <http://www.DiggersBBQ.com>.

Utilizing new systems and techniques, created by Mr. Ruiz, Digger's BBQ Franchises, Inc. has transformed from a mom and pop restaurant to a small reputable franchise in South Carolina. Digger's BBQ has been able to satisfy demand and has quickly gained a reputation of producing high quality food under the Digger's BBQ Brand Name. The enterprise has been profitable since Mr. Ruiz took over and expects to gain a significant share (25%) of the "Fast casual" market within the next 5 years.

Over the past few years, the Company has been working non-stop on the QSR BBQ Franchise prototype, and in late 2010 we finally revealed what we think is going to revolutionize the "QSR" Franchise industry, the "*Digger's BBQ Full Size QSR & Express*" Franchises.

The Full size QSR (Quick serve restaurant) is 2500 sq. ft., and can seat an average of 100 people and has strong dine-in appeal. The "Express" version is a 1500 sq. ft. restaurant with a slightly smaller menu than the full size version and has the option to have a drive up window.

Digger's BBQ is the future of franchising. Not only are we focused to become the nation's first true barbeque franchise chain in this \$4 BILLION Dollar untapped market, but we have eliminated the number ONE issue with Franchising which are high startup cost and high royalties.

Digger's BBQ franchise model will be offered at a low total cost of \$150k average total investment which includes an equipment and furniture package. Our franchise model is several hundred thousand lower in cost than the industry average startup cost of \$400k. Also, our royalty structure will be a flat fee of \$1000 a month for the first two years to get the franchisee off the ground. After the first two years of a flat fee royalty, we will raise the royalty to a traditional royalty of 5% of gross sales.

The Company currently operate an "Express" franchise in the small Taylors, SC Market as a prototype franchise. Sales have been good each year with gross sales in the six figures. This current store was chosen to prove our franchise model. It is situated in a residential market as appose to a highly prime commercial market that the majority of our restaurants will be in. We did this to prove our franchise model because we knew that if we can succeed in this small market we can succeed in any market.

Products:

Digger's BBQ offers three lines of high quality food products which include; Hickory smoked BBQ, grilled marinated chicken, and fork tender fall off the bone ribs. Diggers' also has a variety home-style side items including homemade macaroni and cheese, fresh Cole slaw, and barbeque baked beans.

Digger's BBQ uses a variety of distinct sauces which are classified regionally into three categories; ketchup base, mustard base, and vinegar base. These sauces are the three main sauces used in barbeque throughout the US, but what makes Digger's BBQ unique is that we are the only company that uses all three. Most restaurants use one sauce or the other, but Digger's BBQ uses all three to meet our customer's needs as we encompass all regional taste. This is a major component to our point difference because with BBQ being extremely regional we make ourselves truly franchisable by incorporating each region's taste into our business model and products.

Our product is not just our food, but it is also the "Express" 1500 sq. ft. restaurant franchise model & the Full Size "QSR" 2500 Sq. Ft restaurant model as a whole. Digger's BBQ uses everything from the speed of service, the quality of our food, consistency, customer service, colors, uniforms, and even our designs to create a product that creates a unique experience for each and every customer we serve. We sell directly to these customers using direct mail, word of mouth, and coupons.

We expect the market for Digger's Barbeque Franchises to be quite diverse, as it is beneficial to any person or enterprise looking to invest in a great business opportunity with systems to sustain growth. Whether you are a "stay at home" mom, single dad, or a former VP of a down sized company, Digger's BBQ has a franchise model that meets every point of need. That is the main

reason we created these two unique concepts. With our unique system we can cater to any unique need the potential individual franchisee might have.

Our franchise model is priced well below the industry average franchise at a modest investment of \$150k total cost which includes all the equipment. This will open the opportunity to the average Joe looking to get out of the rat race and own their own business without a huge initial investment.

Market Analysis Summary

The BBQ market is a **\$4 Billion dollar a year** market and it does not have one nationwide "Brand Name" recognized BBQ Franchise chain, and that is because it is all about regional taste. Carolina style, Memphis style, and Texas style are the main markets of BBQ.

The sauce in each region is also quite diverse. One place serves vinegar base, the other mustard and some tomato base sauces. Digger's BBQ has eliminated this issue because we cater to everyone's regional taste by having each region's style as well as the type of BBQ that each region is used to.

The Barbeque market is made up of mostly mom and pop's restaurants or large steak houses. This leaves a huge hole in this untapped market for a quick serve style BBQ concept. Our intention is to create smaller and more cost effective restaurants and to become the Subway of BBQ.

Throughout the US, when researching BBQ restaurants, you will typically find a local mom and pop BBQ restaurant or large Steak house style BBQ restaurant. You will never find a true National Brand name recognized Quick Serve Style (QSR) BBQ restaurant, Why? Because it does not exist!!

Digger's Barbeque has now created a concept that will do for BBQ what Starbucks did for coffee or what Subway did for sandwiches. For example coffee has been around for some time now, but when Starbucks came along they took over and made it a monopoly. We want to monopolize the barbeque market.

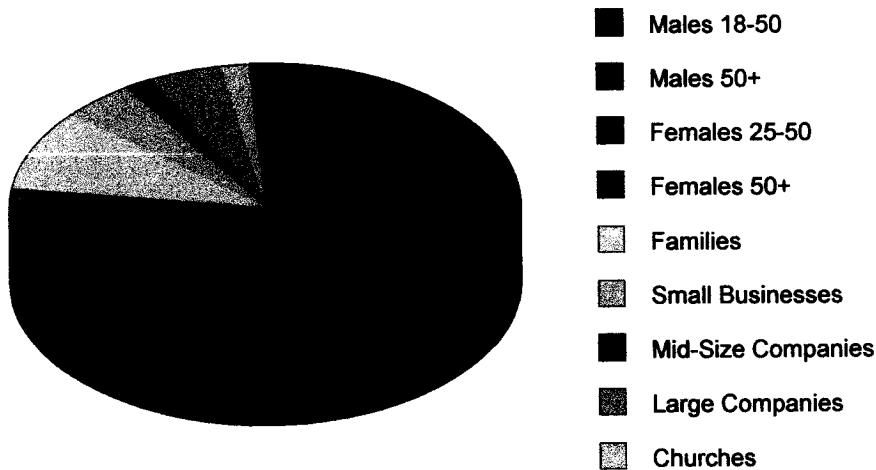

We have recently updated our concept with two revolutionary concepts that will take the franchising industry by storm and they are: Diggers BBQ "EXPRESS" which is a small 1500 Square ft. restaurant preferably with a drive-up or Drive through window and seats 40-60 people for dine-in and catering also like a Chinese restaurant but with BBQ instead and we already have one of these sold as a franchise also, and second, we have Diggers Barbeque Full size QSR which is a 2500 sq. ft. building which will be mainly focused on the Dine in aspect as well as catering, and compete in the QSR Market.

Market Segmentation

The prospects for our products are usually Individuals (blue and white collar workers) ages 20-50, however, families and married couples are beginning to visit our store more often. Their objectives are mainly to receive a high quality meal with great service at a great price. The proven ability to meet the many diverse needs of the true Barbeque lover, in regards to variety, is the reason the prospect wants to purchase from us.

The potential franchise market for BBQ is such a large market that we feel strongly that just an honest approach to what we offer as a franchise in a well-organized professional manner will be the selling point for most potential franchisees.

Chart: Market Analysis (Pie)
Market Analysis (Pie)

The major market segment for our BBQ products are males ages 20-50 years old. The secondary market segment is females ages 18-40 which include mothers, college students, and wives. Our Market Segment Strategy will be to sell directly to these customers using direct mail, word of mouth, and coupons.

Also, in this tech age, we will be using a heavy strategy of marketing on Social Networks such as Facebook and Twitter. Digger's BBQ will also invest a portion of the initial investment on local and regional advertising mediums such as print, radio, and television advertising of our \$5 BBQ plate special. We feel that this \$5 tax included BBQ sandwich plate special will revolutionize the way people see value in the restaurant industry the way McDonald's dollar menu change the value system of the fast food market.

As for the marketing of our franchises, we have limited the marketing to the southeast U.S. with plans to expand throughout the southeast and U.S. in the coming two years. We will also use Trade shows, Craigslist, and Internet Franchising portals as our primary source for marketing potential leads for franchise expansion.

Industry Analysis

BBQ is the next **HOT** Trend in Franchising. With Barbeque franchises still being a relatively new idea to the franchise market, there is still a huge potential for Digger's Barbeque to become the Nation's only true brand name recognized QSR BBQ restaurant.

Digger's is poised to take over the BBQ world and do what Starbuck's did for Coffee, what Subway did for sandwiches and have the hot streak that Five Guys Burgers and Fries is having in Franchising.

We will be the **ONLY** Brand of barbeque because we have recognized the huge gap in the industry and we have hands on analysis of what is missing for both the customer of the restaurant and the potential franchisee. The gap is an all-inclusive approach for the customer in that they no longer have to travel back to the Carolina's to get great BBQ or any other region because we carry **ALL** their favorite regional products!

For the potential franchisee we have eliminated the main problem with any franchise in this industry and that is the high initial startup cost, high royalties, and the high ongoing overhead of a restaurant. The fact that we offer the complete opposite to the struggles of a start-up franchise in itself would be more than enough to penetrate the market, but we go a step further and offer Flat fee royalties for all new franchisees for the first two to three years which as most know are the most significant years for franchise survival!

Competition and Buying Patterns

There are three enterprises who are Digger's BBQ most likely near term competitors, the strongest being Brand named fast-food franchises such as Subway. A list of these competitors is shown below.

<u>Competing Enterprise Name</u>	<u>Competing Product Name</u>
1. Mom and Pop BBQ Restaurants	Home-style BBQ
2. Sonny's Barbeque	Barbeque pork and Beef
3. Brand name food franchises	Brand named products like a sub-sandwich or Big Mac

In general the competition has average profit margins, but their market strength is greater than Digger's BBQ Franchises, Inc's. They have established excellent credibility in the marketplace. Past history would indicate the group has considerable experience. They appear to have a very strong commitment to the marketplace; however, current conditions place them in a position that, if necessary, abandoning the market is an acceptable alternative. They have the basic skills to successfully compete in the market and if history is any indicator, they will respond to our market entry efforts in a non-aggressive manner. This group of competitors will present a slight challenge to Digger's BBQ Franchises, Inc's growth.

Overall, though there is competition, in the case of Digger's BBQ Franchises, Inc. will be in a position in which competition will actually drive sales. By actually having locations near competitors we are actually driving food traffic to our business thus it is safe to say that competitors are not a direct hindrance to the Growth of Digger's BBQ Franchises, Inc.

Operations, Strategy, and Implementation Summary

Digger's BBQ strategy is to leverage its existing local Brand awareness and take advantages of new prime locations in the local market. By using established clientele, and reputation; and couple this with its new brand image we have created, we will not only refresh the Digger's BBQ brand but also continue to wow the customer.

Digger's BBQ has created a system to create a value added product/service experience to its existing customers and to enhance appeal to attract new customers to Digger's BBQ. In short, the company seeks to create a value-added approach to its eating establishments and bring in new customers to achieve both a higher margin than previously experienced and increase overall profitability through new customers. We will do this by creating the first ever "TAX FREE MENU"-in other words the menu includes taxes in the price.

This Tax free menu will be headlined by our \$5 BBQ sandwich plate special. This is a BBQ sandwich, baked beans, fresh cole slaw, and a sweet tea all for \$5 Tax included. The closest to this is Subway's \$5 foot long, but the main difference is that Subway's version is not tax included and only includes the sandwich. We believe that by offering this over-the-top value we will establish ourselves as the best price for product restaurant in any market. In this economy this is the perfect strategy for increasing brand awareness and in-store sales.

We will use unique and creative advertising to draw attention to our unique value of our menu as well as leaving a lasting impression of our Digger's BBQ Brand. Radio, T.V., Print, and Internet advertising will be our main channels of getting new customers and inform existing customers of our extreme value.

From a franchising perspective we want to use a \$1 million dollar equity investment by the second quarter of 2014 to open a number of company owned stores at an average cost of \$100,000 to \$150,000 per store and to begin our selling of franchises nationwide.

Digger's BBQ's initial expansion focus will be in the upstate of South Carolina primarily in Greenville, SC market. The Upstate of SC is an upcoming market that has attracted such companies as Michelin, BMW, Hitachi, Lockheed, and Amazon. The

market in Greenville, SC has also been named in many national media as a "Top Ten" place to live and build a business as noted on The Today Show.

Digger's BBQ has already chosen the first 10 locations for its next corporate owned stores. These stores will be in strip mall areas with strong traffic and strong anchors. The first three corporate stores will be located specifically in the Haywood road, Pelham road, and Woodruff road markets which are the highest traffic markets in Greenville, SC. These are strong markets that have many established food franchises that bring in tons of food traffic already and will allow us to tap into the flow of customers that already exist in these areas.

Typical build-out of a Digger's BBQ franchise will only take 60 to 90 days from lease signing. Factors include licensing (DHEC, Fire Marshall, City approval etc.), corporate formation, light construction, painting, hiring staff, corporate formation per location, and training. We have simplified our franchise system to make it as easy as possible to open a restaurant in the fastest time possible to maximize the time it takes to start making money for investors and franchisees.

From June 2014 to June 2016 our intention is to open the first 50 corporate owned stores and within this same year sell 100 franchises at an average price of \$150k or \$15 million total gross franchise sales.

From June 2016 to December 2017 we would like to equal our first year's two years intention by opening an additional 50 corporate owned stores and sell 200 franchises for a total of 200 corporate owned stores and 300 franchises sold at \$150k average per store or a \$30 million total gross franchise sales by the end of 2017.

Competitive Edge

Digger's BBQ's Competitive edge is its ability to understand the totality of the market needs. Digger's BBQ is the only BBQ franchise focused on meeting each customer's regional taste.

As an individual restaurant, Digger's BBQ is the leader in BBQ value by having the first **TAX INCLUSIVE** menu.

As a Franchising company, Digger's BBQ is the most cost effective franchise with all inclusive packages that include equipment, flat fee introductory royalties, and the lowest initial start-up cost of any franchise in the QSR industry at \$150k average total investment.

Marketing Strategy

Digger's BBQ marketing strategy will include the use of targeted print media advertising, direct selling, and Social network media to drive in customers looking for a unique BBQ experience. We will capitalize on existing relationships with vendors who have stated their willingness to do whatever it takes to help us grow the Digger's BBQ Brand Nationwide.

We have positioned ourselves as a differentiated provider of the highest quality BBQ products around as well as the best franchise opportunity in the QSR industry. The primary goal of all marketing efforts will be to communicate this to existing and potential customers as well as future franchisees.

Sales Strategy & Promotions

Digger's BBQ's sales strategy is simple and that is we offer the best product for the best price to create value that each and every customer appreciates. We have created two concepts that will revolutionize the franchising industry in the area of marketing and advertising to new customers.

We created a tax free menu at <http://www.diggersbbq.com/Menu.php> The menu is structured to have each item on the menu have the actual price you pay. That way we take the guess work out ordering for our customers. No more figuring out tax in your head to make sure you have enough for your meal. Now what you "SEE" is what you "PAY".

The Second sales strategy is our **\$5 Full Meal Deal**. In this case we did not invent the wheel but we made it better. Just like Subway's \$5 Sub sandwich, we have a \$5 Sandwich but we made it better.

For **ONLY \$5** you get a Regular BBQ sandwich plate, beans, slaw, and a tea for **ONLY \$5 tax included**. Digger's BBQ will also implement frequent buyer cards to encourage the consumer to visit our stores multiple times a week. Digger's BBQ will also offer special "VIP" cards to our preferred clients such as investors, lenders, and select customers that have brought value and connections to our brand.

This strategy will be our entry point into every new market as being the best food value deal in the business and we plan on using this in our future Grand opening advertising campaigns.

Digger's BBQ's Sales Strategy for our Franchisees is also to Offer the best deal in the business. A true win/win situation in which Startup costs are a fraction of what typical franchises cost starting at \$150k. We also offer a Flat fee Royalty for the first 1 to 2 years in which the royalty would be between \$750 to \$1000 a month for the entire year. This will help the franchisee with getting the business off the ground.

For both the individual franchise store sales and actually selling franchises, we will use the most cost effective advertising channels available such as Trade shows, internet franchise portals, standard print media, and the huge potential of social network advertising.

Sales Forecast

Our sales forecast is based on the following assumptions. We expect our production will be sold as soon as it is ready, as the forecasted production is less than the anticipated demand and we typically only keep a week's worth of inventory. Our product is not seasonal and will be continually produced throughout the year. We will operate in three main categories: Lunch, Dinner, and Catering sales.

Regarding the "direct cost of goods sold" (COGS), we assume the costs of materials will remain relatively the same for us as we always seek to be within certain percentages of sales and maintain great relationships with our suppliers. Our Goal is always to be around 25% food cost for meats and side item products, 5% paper good cost, and 3% cost for Drink sales or Coke products.

The five year forecast of profits is based moderately on our company's history and is what is typical in the QSR industry. Each Table's figures is per location and will be multiplied by 100+ restaurants dependent on how many locations we are able to develop.

TOTAL COST TO MANUFACTURE

\$1.86 to \$2 per 1/4 BBQ sandwich plate and we sell it for \$5 which is a margin of \$3+ per plate!

As our purchase volume increases, purchase price for all our products will decrease. As we continue to systemize our cooking procedures, labor costs will begin to decrease.

Therefore, during the next three to five years of operations at Digger's Barbeque, the cost benefits of volume purchasing and improved systemized cooking processes should decrease the cost of goods sold, and labor significantly.

The table below shows the average sales forecast per store over the next five years.

The Company is incorporated under the laws of South Carolina. South Carolina General Corporation Law provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses including attorneys' fees, judgments, fines and amounts paid in settlement in connection with various actions, suits or proceedings, whether civil, criminal, administrative or investigative other than an action by or in the right of the corporation, a derivative action, if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, if they had no reasonable cause to believe their conduct was unlawful. A similar standard is applicable in the case of derivative actions, except that indemnification only extends to expenses including attorneys' fees incurred in connection with the defense or settlement of such actions and the statute requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. The statute provides that it is not exclusive of other indemnification that may be granted by a corporation's certificate of incorporation, bylaws, agreement, and a vote of stockholders or disinterested directors or otherwise.

The Company's Certificate of Incorporation provides that it will indemnify and hold harmless, to the fullest extent permitted by South Carolina's General Corporation Law, as amended from time to time, each person that such section grants us the power to indemnify.

South Carolina's General Corporation Law permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for:

- any breach of the director's duty of loyalty to the corporation or its stockholders;
- acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- payments of unlawful dividends or unlawful stock repurchases or redemptions; or
- any transaction from which the director derived an improper personal benefit.

The Company's Certificate of Incorporation provides that, to the fullest extent permitted by applicable law, none of our directors will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director. Any repeal or modification of this provision will be prospective only and will not adversely affect any limitation, right or protection of a director of our company existing at the time of such repeal or modification.
