RISK FACTORS

List in the order of importance the factors which the Company considers to be the most substantial risks to an investor in

this offering in view of all facts and circumstances or which otherwise make the offering one of high risk or speculative (i. e., those factors which constitute the greatest threat that the investment will be lost in whole or in part, or not provide an adequate return).

1) We lack experience in creating and running an alternative remedy and dietary supplement business such as ours

We are in the early stages of our business. We have no experience in the developing or running such a business. Neither Mr. Briggs nor any other employee has ever developed or operated a company that manufactures and sells alternative remedy and dietary supplement products.

2) We have not generated any operating income

While we have a small number of customers buying our products, we have not become profitable and there are not yet enough sales to make us a viable operating company. It may be difficult, therefore, to evaluate our current or future prospects, and the Company may not be able to become profitable or to sustain operations.

3) We may need additional funding beyond this offering

We are currently minimally capitalized. The funds to be raised by this offering are to be used to build our business as per the disclosed use of proceeds in number 9(a) below. However, we have no way of knowing whether the amount of money, which may be ultimately raised by this offering, will be sufficient so that it becomes a viable business. We have no present plans to raise additional capital after this offering is completed. However, if we determine after the completion of this offering that we need additional capital, there can be no assurance that we can raise the amount of capital then needed or predict the costs of doing so.

4) We have only a small number of active customers at this time

We have two (2) primary products available at this time, Focamine, and Sombium, both sold on Amazon.com and our website, www.alternaturals.com. Sales of these products are minimal at this time with fewer than 100 active customers making \$20 to \$30 in purchases monthly. The overall sales generated are not adequate to make either of those products profitable. We estimate that we need to increase sales to 1000 or more active customers making \$20 to \$30 in purchases on a monthly basis, in order for us to consider this a viable business. There can be no assurance that we can obtain the necessary number of active customers to become profitable.

5) Our stockholders will be largely dependent on a single business

For the immediately foreseeable future, our stockholders will be largely dependent for a return on their investment upon the performance of our business of selling our supplement products, and investors in our company should look to the development and growth of that business for any return on their investment in our company.

6) We will need to increase our manufacturing capacity from time to time

At the moment all manufacturing is done manually, in-house, using no special equipment to automate the process. Although, we believe that we have sufficient capacity to handle manufacturing in the immediate future, if we grow significantly, we will need to invest in additional equipment and supplies to automate the manufacturing process to fill outstanding customer orders. This could become a considerable drain on our cash flow and adversely affect our financial results.

7) We face competition from many sources

Our business success will be dependent on attracting customers, retailers and distributors. Currently, there are a variety of manufacturers and types of products in which people can expect similar results, Our largest competitor being Chattem, Inc®, A Sanofi Company® Manufacturer's of Unisom®, a direct competitor of our Sombium™ Product, and Hellolife, LLC.® manufacturers of Synaptol®, a direct competitor of our Focamine™ product. Competition also comes from many

sources such as supplement formulation manufacturers, raw supplement manufacturers, prescription drug companies, acupuncture, therapy, physical therapy, and even technological devices that all can produce or claim to produce similar results. The manufacturers of these other products have much larger distribution since they are in most major retailers and have been in existence far longer than we have. In order to be successful, we will need to convince potential customers that using our formulas are more cost effective, and produce better results than the other options available to them. There can be no assurance that our target customers will choose our products over the other options available.

8) We are and will continue to be dependent upon key personnel

We depend on upon our President and Chief Executive Officer, Matthew Briggs, to a significant extent. Furthermore, we will depend upon new and additional senior management, sales and marketing personnel. The competition for such personnel is intense. Our growth and future success will be influenced by our ability to attract and retain highly qualified personnel when the need arises. We do not have an employment agreement with Mr. Briggs and he can terminate his relationship with us at any time. Also, he is not subject to non-competition agreements that would survive his employment, nor do we carry “key person insurance coverage” for the possible loss of his services. The loss of our President or the inability to hire or retain qualified personnel could have a material adverse effect upon our business and operating results.

9) Our President and Chief Executive Officer has no experience in managing a public company

Our President and Chief Executive Officer has no previous experience in managing a public company, and we do not have any employees to delegate responsibilities. We may be unable to afford increasing our staff or engaging outside consultants or professionals to overcome our lack of employees, and this added expense or lack of internal talent could adversely affect the company’s ability to continue.

10) Our products are potentially subject to unknown governmental regulations

The U.S. government reserves the right to regulate any product consumed by individuals, arbitrarily and at their discretion. At this time those regulations are not known since they have not yet been created. However, although no regulations currently exist on the ingredients and/or methods used in our products, we have no way to predict whether any law relating to specific ingredients we use in our products, could be enacted and enforced in the future, and how such a law could affect our business. Such future laws could have an adverse impact on our business.

11) Our website and other means of distribution are subject to operational risks

At the moment, all of our sales are made online via our website and Amazon.com, with 70% of all sales originating from Amazon.com and the balance of sales, originating from our own website at www.alternaturals.com. Equipment failure or other problems, including hacking attacks, internet outages, power outages, or other issues negatively effecting the operation of these websites could adversely affect our ability to sell products online, which is all of our current sales. Failures such as these could adversely affect our financial condition.

12) Our revenues and operating results may fluctuate

Our revenues and operating results may fluctuate from quarter-to-quarter and year-to-year and are likely to continue to vary due to a number of factors, many of which are not within our control. Thus, revenues and operating results for any future period are not predictable with any significant degree of certainty. For these reasons, comparing our operating results on a period-to—period basis may not be meaningful. You should not rely on our past results as an indication of our future performance.

Fluctuations in our operating results and financial condition may occur due to a number of factors, including, but not limited to, those listed below and those identified throughout this “Risk Factors” section:

- The degree of market acceptance of our products;
- The development of new competitive products by others;

- Our response to price competition;
- Delays between our expenditures to develop and market new products and the generation of sales from those products;
- Changes in the amount we spend to promote our products;
- General economic and industry conditions that affect the willingness of consumers to spend money on dietary supplements and natural remedies;
- Changes in accounting rules and tax laws.

Due to the foregoing factors, you should not rely on quarter-to-quarter or year-to-year comparisons of our operating results as an indicator of future performance.

13) If the market does not develop as we expect, we may not be able to generate revenues.

Large vitamin and dietary supplement companies dominate the marketplace for our products. If our approach to formulation and marketing of these products does not gain market acceptance, or if the marketplace adopts an alternative to our approach, we may not be able to increase or sustain the level of sales of our products, and our results of operations would be adversely affected as a result.

14) One of our principal stockholders will be able to exert substantial influence.

Matthew Briggs, our sole Director and President, Treasurer and Secretary, owns a single share of super-voting preferred stock (Series A), which has been designated to have 51% of the existing votes without regard to the number of shares outstanding at any given time. Therefore, after this offering, Mr. Briggs will still have control over the election of our Board of Directors and the direction of our affairs. As a result, he can control the outcome of any corporate matter submitted to our stockholders for approval, including the election of directors and any transaction that might cause a change in control, such as a merger or acquisition. Any stockholders in favor of a matter that is opposed by Mr. Briggs could not obtain sufficient votes to overrule the votes of Mr. Briggs. See “Principal Stockholders.”

15) We do not have adequate insurance for potential liabilities

In the ordinary course of business, we may be subject to various claims, lawsuits and administrative proceedings seeking damages or other remedies arising out of our commercial operations. We do not currently have insurance in place, although we are in the process of looking into obtaining it, and we intend to obtain adequate insurance, there is no guarantee that we will be able to obtain it, or that it will be sufficient to protect us adequately from liability. A claim of significant size against the company, if successful, could materially adversely affect our financial condition. However, even if we successfully defend ourselves against any such claim, we could be forced to spend a substantial amount of money in litigation expenses, our management could be required to spend valuable time in the defense against these claims and our reputation could suffer, any of which could adversely affect the company.

16) We have broad discretion as to the use of the net proceeds from this offering and may not use them effectively

We cannot specify with certainty the exact uses to which we will put the net proceeds from this offering. Our management will have broad discretion in the application of the net proceeds, and we may use these proceeds in ways with which you may disagree or for purposes other than those contemplated at the time of the offering. The failure by our management to apply these funds effectively could have a material adverse effect on our business, financial condition and results of operation. Pending their use, we may invest the net proceeds from this offering in a manner that does not produce income or that loses value.

17) Raising additional capital by issuing securities may cause dilution to our stockholders.

We may need or desire to raise substantial additional capital in the future. If we raise additional funds by issuing equity or convertible debt securities, we will reduce the percentage ownership of our then-existing stockholders, and the holders of those newly-issued equity or convertible debt securities may have rights, preferences, or privileges senior to those possessed by our then-existing stockholders. Additionally, future sales of a substantial number of shares of our common stock or other

equity-related securities in the public market could depress the market price of our common stock and impair our ability to raise capital through the sale of additional equity or equity-linked securities. We cannot predict the effect that future sales of our common stock or other equity-related securities would have on the market price of our common stock.

Note: In addition to the above risks, businesses are often subject to risks not foreseen or fully appreciated by management. In reviewing this Offering Circular potential investors should keep in mind other possible risks that could be important.

BUSINESS AND PROPERTIES

3. With respect to the business of the Company and its properties:

(a) Describe in detail what business the Company does and proposes to do, including what product or goods are or will be produced or services that are or will be rendered.

Alternaturals, Inc. manufactures and sells alternative healthcare and dietary supplements products including an all-natural sleep aids, as well as many natural substitutes for popular prescription drugs. The company also plans to operate as a distribution company to centralize the fragmented alternative health product industries as it begins to grow. The Company's mission is to create and develop various vitamin and supplement formulas that treat many common ailments, which are typically treated with prescription drugs. Substances categorized as supplements with the Food and Drug Administration offer just as much success and almost no regulation, which brings cost of production down. This allows much less expensive products to be sold at a reasonable price with a larger profit margin.

The Products

Alternaturals has several products that are currently being produced and sold in small quantities. They are:

Focamine: Focamine is a potent, all-natural Focus and Concentration Promoter - Focamine is one the most exciting natural products on the market. Designed to promote Focus, attention, and memory for people suffering from ADHD (Attention Deficit Hyperactivity Disorder, which is a problem of not being able to focus, being overactive, not being able control behavior, or a combination of these), this scientific blend of potent all-natural substances is blended from high quality ingredients that are selected by the company from all over the world. Customers have claimed Focamine™ to be even more effective than the prescription medications on the market, which are typically amphetamines and similar drugs like Adderall®, Ritalin®, Focalin XR®, dextroamphetamine sulfate®, Vyvanse®, and methamphetamine (Desoxyn) ®. According to a Food and Drug Administration (FDA) study published in the Journal of the American Medical Association on December 12, 2011, these medications have a host of possible side effects such as headache, stomachache, trouble sleeping, fast heartbeat, nervousness, mood swings, and dizziness. The FDA also warns that these medications can also cause seizures, blurred vision, and even heart attack. Amphetamines are a federally controlled substance (CII) because, according to the FDA, their use can be abused or lead to drug dependencies. All of the ingredients of Focamine™ have been categorized as dietary supplements under the U.S. Health and Education Act of 1994 (DSHEA). The DSHEA places dietary supplements in a special category under the general umbrella of "foods," not drugs since they do not have the dangerous side effects and addictive or habit forming properties that prescription drugs can have. Focamine is a natural blend meant to sharpen the mind, and increase the quality of life. While we do not have scientific evidence to support our customer's claims, we stand behind their reviews. The product comes in capsule form for convenience and is taken with water as needed throughout the day. One bottle of Focamine contains 30 capsules, which contain the following ingredients:

- HOSPHATIDYLSERINE (PS):
- VINPOCETIN:
- ACETYL-L-CARNITINE (ALC)
- GINKGO BILOBA EXTRACT
- L-GLUTAMINE
- DMAE (Dimethylaminoethonal).
- BACOPIN

Sombium: Sombium is an all-natural sleep-aid made from a blend of all-natural sleep inducing ingredients. The product is made up of carefully blended formulations containing various dietary supplements, which our customers have claimed is even more effective than the many prescription medications on the market today, and without the side effects. These prescription drugs are called Sedative-hypnotic drugs, are a class of drugs used to induce and/or maintain sleep, the most popular of which are Ambien, Butisol sodium, Carbtrital, Dalmane, and Doral. FDA Safety Announcement [1-10-2013]

confirms that all Sedative-hypnotic drugs can impair driving and activities that require alertness the morning after use. Drowsiness is already listed as a common side effect in the drug labels of all these insomnia drugs, along with warnings that patients may still feel drowsy the day after taking these products. The FDA also warns that this class of drugs has other side effects such as headache, muscle aches, sleepiness or unusual drowsiness, stuffy or runny nose, delusions, dementia, and difficulty swallowing. By contrast, Sombium's™ natural ingredients have been categorized as dietary supplements under the U.S. Health and Education Act of 1994 (DSHEA). The DSHEA places dietary supplements in a special category under the general umbrella of "foods," not drugs since they do not have the dangerous side effects and addictive or habit forming properties that prescription drugs can have. Customers have claimed that after taking Sombium, they drift into a deep but normal sleep, and do not wake up the next morning. Although, we have no scientific evidence of our customer's claims, we stand by their reviews as evidence that Sombium™ does what it was intended to do. Further evidence can be found in various studies on Sombium's™ different ingredients such as 5HTP and Melatonin. For example, a study published Feb. 28, 1994 by the National Center for Research Resources stated that "tiny oral doses of melatonin can put people to sleep--findings that suggests that melatonin may offer an alternative to hypnotic drugs." Additionally The NYU Langone Medical Center reported that although the primary use of 5-HTP is for depression. Several small short-term studies including the one by Byerley WF, Judd LL, Reimherr FW, et al. done in 1987, found that "5-HTP may be as effective as standard antidepressant drugs. Since standard antidepressants are also used for insomnia and anxiety, 5-HTP has also been suggested as a treatment for those conditions."

A complete list of ingredients is as follows:

- 5-HTP
- GABA
- Chamomile
- Passion Flower
- Valerian Root

5 Hour High: 5 Hour high was a product name the company planned to register for trademark and license to Kush Creams®, a licensed marijuana manufacturer in the state of Washington for the production of a liquid marijuana drink. However, negative press associated with Marijuana manufacturers caused the Company to shelf the arrangement for the immediate future, and to re-examine it at a later time to explore its viability. The company currently protects the trademark with the "™" self trademark label until such time that a decision is made to move forward with registration.

Discontinued, or delayed products. The company has previously announced several new products that were intended for development, including: Cellurite™, Priaprin™, and Relaxapro™. However the company has decided to put these products on hold indefinitely or until such time as management feels they offer significant opportunity to the company.

(b) Describe how these products or services are to be produced or rendered and how and when the Company intends to carry out its activities. If the Company plans to offer a new product(s), state the present stage of development, including whether or not a working prototype(s) is in existence. Indicate if completion of development of the product would require a material amount of the resources of the Company, and the estimated amount. If the Company is or is expected to be dependent upon one or a limited number of suppliers for essential raw materials, energy or other items, describe. Describe any major existing supply contracts.

Currently all of our products are manufactured at our small corporate offices manually, using no automated equipment. Labels are printed locally on a standard printer and affixed, and product is shipped directly from our location to the customer. As revenue and demand ramp up, we will evaluate the need for equipment and outsourcing partners if necessary.

The Company's manufacturing process generally consists of the following operations:

1. Extracting the ingredients contained in a particular product from a bulk source of such ingredient and measuring the ingredient for inclusion in such product;
2. Blending the measured ingredients into a mixture with a homogeneous consistency
3. Encapsulating or tableting the blended mixture into the appropriate dosage form using either automatic or semiautomatic equipment.

The next step, bottling and packaging, involves placing the encapsulated or tableted product in packaging with appropriate tamper-evident features and sending the packaged product to the customer. The Company places special emphasis on quality control and conducts inspections throughout the manufacturing process, including raw material verification, homogeneity tests, weight deviation measurements and package quality sampling.

At the moment, supplies are purchased from a variety of suppliers based on quality and price such as bulksupplements.com, Nutritek.com, and more. Products are manufactured at our office location, consisting of 150 square feet of an existing space that has been provided to us free of charge by our Chief Executive Officer.

(c) Describe the industry in which the Company is selling or expects to sell its products or services and, where applicable, any recognized trends within that industry. Describe that part of the industry and the geographic area in which the business competes or will compete.

Indicate whether competition is or is expected to be by price, service, or other basis. Indicate (by attached table if appropriate) the current or anticipated prices or price ranges for the Company's products or services, or the formula for determining prices, and how these prices compare with those of competitors' products or services, including a description of any variations in product or service features. Name the principal competitors that the Company has or expects to have in its area of competition. Indicate the relative size and financial and market strengths of the Company's competitors in the area of competition in which the Company is or will be operating. State why the Company believes it can effectively compete with these and other companies in its area of competition.

The nutritional supplements segment of the natural health food products industry is highly competitive. The Company's principal competitors in the Healthy Foods Channel include a limited number of large nationally known manufacturers (such as Twinlab Corporation, Solgar Vitamin and Herb Company, Inc. and Nature's Way Products, Inc.) and many smaller manufacturers and distributors of nutritional supplements. Certain of the Company's principal competitors are larger than the Company, have greater access to capital and may be better able to withstand volatile market conditions within the VMS Industry. Moreover, because this industry generally has low barriers to entry, additional competitors could enter the market at any time. In that regard, although the VMS Industry to date has been characterized by many relatively small participants, there can be no assurance that national or international companies (which may include pharmaceutical companies or other suppliers to mass merchandisers) will not seek in the future to enter or to increase their presence in this industry. Increased competition in the industry could have a material adverse effect on the Company.

Note: Because this Offering Circular focuses primarily on details concerning the Company rather than the industry in which the Company operates or will operate, potential investors may wish to conduct their own separate investigation of the Company's industry to obtain broader insight in assessing the Company's prospects.

(d) Describe specifically the marketing strategies the Company is employing or will employ in penetrating its market or in developing a new market. Set forth in response to Question 4 below the timing and size of the results of this effort, which will be necessary in order for the Company to be profitable. Indicate how and by whom its products or services are or will be marketed (such as by advertising, personal contact by sales representatives, etc.), how its marketing structure operates or will operate and the basis of its marketing approach, including any market studies. Name any customers that account for, or based upon existing orders will account for a major portion (20% or more) of the Company's sales. Describe any major existing sales contracts. □

Since the company depends on our website and on sales from Amazon.com our marketing efforts will be mainly pay-per-click advertising, a type of internet advertising where you pay for each person that clicks an ad and visits the website. Since we have had minimal sales at this point, we do not yet have a full picture of exactly what conversions we will need to become profitable. Our Chief Marketing Officer, who has experience in this field, will manage marketing. We have no one client or customer who accounts for a major portion of our sales, however about 70% of our sales are made through Amazon.com.

(e) State the back log of written firm orders for products and/or services as of a recent date (within the last 90days) and compare it with the backlog of a year ago from that date.

As of 01/01/2015 \$ 0 There is no current backlog of written firm orders
(a recent date)
As of 01/01/2014 \$ 0 - There was no backlog of written firm orders
(one year earlier)

Explain the reason for significant variations between the two figures, if any. Indicate what types and amounts of orders are included in the backlog figures. State the size of typical orders. If the Company's sales are seasonal or cyclical, explain.

Not applicable – there has been no backlog of written firm orders.

(f) State the number of the Company's present employees and the number of employees it anticipates it will have within the next 12 months. Also, indicate the number by type of employee (i.e., clerical, operations, administrative, etc.) the Company will use, whether or not any of them are subject to collective bargaining agreements, and the expiration date(s) of any collective bargaining agreement(s). If the Company's employees are on strike, or have been in the past three years, or are threatening to strike, describe the dispute. Indicate any supplemental benefits or incentive arrangements the Company has or will have with its employees.

Currently Alternatural has only two employees, one of which handles technical and marketing aspects of the company, and one who handles management and basic operations such as filling orders that are not fulfilled by the company's main fulfillment processor, Amazon.com. Both are mainly administrative. The company anticipates hiring from one to three additional employees in the next 12 months if need and funds exist, although the Company foresees no collective bargaining agreements.

(g) Describe generally the principal properties (such as real estate, plant and equipment, patents, etc.) that the Company owns, indicating also what properties it leases and a summary of the terms under those leases, including the amount of payments, expiration dates and the terms of any renewal options. Indicate what properties the Company intends to acquire in the immediate future, the cost of such acquisitions and the sources of financing it expects to use in obtaining these properties, whether by purchase, lease or otherwise.

Currently the company does not have any registered trademarks or patents filed. However, Sombium™, Focamine™, Alternatural™, and 5 hour high™ are all currently protected using self trademarking by adding a ™ to the name. The company has plans to hire an attorney to register these marks upon the completion of the offering. These brands are currently growing and we believe they do have value. The company currently has no office lease in place. Products are manufactured at our office location consisting of 150 square feet of an existing space that has been provided to us free of charge by our Chief Executive Officer, Matthew Briggs.

(h) Indicate the extent to which the Company's operations depend or are expected to depend upon patents, copyrights, trade secrets, know-how or other proprietary information and the steps undertaken to secure and protect this intellectual property, including any use of confidentiality agreements, covenants-not-to-compete and the like. Summarize the principal terms and expiration dates of any significant license agreements. Indicate the amounts expended by the Company for research and development during the last fiscal year, the amount expected to be spent this year and what percentage of revenues research and development expenditures were for the last fiscal year.

The company's operations do not depend heavily on trade secrets or other intellectual information that needs to be protected aside from its product brand names. The names will be registered with the U.S. Patent and Trademark Office upon the completion of this offering. No non-compete agreements exist, and since the products generated have been put together using publically available knowledge, there have not been any significant research and development expenses. However the company plans to spend some funds on research and development to refine the products and to develop any additional products that our research shows us there is a market need for.

(i) If the Company's business, products, or properties are subject to material regulation (including environmental regulation) by federal, state, or local governmental agencies, indicate the nature and extent of regulation and its effects or potential

effects upon the Company.

The Food and Drug Administration (FDA) has regulations that the company may be subject to under the Dietary Supplement Health and Education Act of 1994 (the "Act"), which was enacted by the FDA in October 1994, amending the Food, Drug and Cosmetic Act. The Act establishes a new statutory class of "dietary supplements," which includes vitamins, minerals, herbs, amino acids and other nutritional supplements for human use to supplement the diet and includes in such class all dietary ingredients on the market as of October 15, 1994. Alternatural's products, Sombium™ and Focamine™ contain solely ingredients that fall into this category. As a result we are subject to its regulations, which simply outline labeling procedures for ingredients on each package, and a sanitary work environment since the supplements are to be consumed. There are no reporting or approval processes, and the company can sell the products as long as we disclose the ingredients on the product as outlined by the act. As a result these regulations effect the company very little and as long as we comply, we need to do nothing at all. In the event we do not comply, a complaint could be levied against us and civil penalties could result. However, the company takes great care to follow the labeling guidelines and we anticipate no problems.

(j) State the names of any subsidiaries of the Company, their business purposes and ownership, and indicate which are included in the Financial Statements attached hereto. If not included, or if included but not consolidated, please explain.

There are no subsidiaries owned by the company.

(k) Summarize the material events in the development of the Company (including any material mergers or acquisitions) during the past five years, or for whatever lesser period the Company has been in existence. Discuss any pending or anticipated mergers, acquisitions, spin-offs or recapitalizations. If the Company has recently undergone a stock split, stock dividend or recapitalization in anticipation of this offering, describe (and adjust historical per share figures elsewhere in this Offering Circular accordingly).

Not Applicable – There have been no material changes or events.

4. (a) If the Company was not profitable during its last fiscal year, list below in chronological order the events which in management's opinion must or should occur or the milestones which in management's opinion the Company must or should reach in order for the Company to become profitable, and indicate the expected manner of occurrence or the expected method by which the Company will achieve the milestones.

	Event or Milestone	Expected manner of Occurrence or method of achievement	Date or number of months after receipt of proceeds when should be accomplished
1)	Increase to 300 sales per week	Leveraging social media and pay-per-click advertising	3 to 4 months
2)	Redesigned packaging for better retail placement	Outsource to a graphic designer	1 month
3)	Create sales literature, brochure and counter display	Outsource to a graphic designer	2 months
4)	First Retail distribution deal	Making sales calls, emails, paper mailings	3 months
5)	Get picked up by small Retail chains or mom and pop - 100 stores	Making sales calls, emails, paper mailings	6 months
6)	Get picked by a big box retail chain 1000 stores	Making sales calls, emails, paper mailings	12 months

(b) State the probable consequences to the Company of delays in achieving each of the events or milestones within the above time schedule, and particularly the effect of any delays upon the Company's liquidity in view of the Company's then anticipated level of operating costs. (See Question Nos. 11 and 12)

If the company does not reach the above milestones or equivalent milestones regarding revenue and profitability it is likely that the company will run out of operating expenses.

Note: After reviewing the nature and timing of each event or milestone, potential investors should reflect upon whether achievement of each within the estimated time frame is realistic and should assess the consequences of delays or failure of achievement in making an investment decision.

OFFERING PRICE FACTORS

If the securities offered are common stock, or are exercisable for or convertible into common stock, the following factors may be relevant to the price at which the securities are being offered.

5. What were net, after-tax earnings for the last fiscal year? (If losses show in parenthesis.)

Total \$ (1,397,207) (\$0.00045 per share)

6. If the Company had profits, show offering price as a multiple of earnings. Adjust to reflect for any stock splits or recapitalizations, and use conversion or exercise price in lieu of offering price, if applicable.

Not Applicable – the Company showed no profits

7. (a) What is the net tangible book value of the Company? (If deficit, show in parenthesis.) For this purpose, net tangible book value means total assets (exclusive of copyrights, patents, goodwill, research and development costs and similar intangible items) minus total liabilities.

(\$63,358) , which is (\$0.00002) per share

If the net tangible book value per share is substantially less than this offering (or exercise or conversion) price per share, explain the reasons for the variation.

The reason that the offering price is more than the Net tangible Book value is that the company's common shares have consistently traded at a much higher price range (from \$0.0001 to \$0.0005) over the past several quarters, so management felt that an offering price of \$0.0001 more closely represents a fair price for the offering.

(b) State the dates on which the Company sold or otherwise issued securities during the last 12 months, the amount of such securities sold, the number of persons to whom they were sold, and relationship of such persons to the Company at the time of sale, the price at which they were sold and, if not sold for cash, a concise description of the consideration. (Exclude bank debt.)

8. (a) What percentage of the outstanding shares of the Company will the investors in this offering have? Assume exercise of outstanding options, warrants or rights and conversion of convertible securities, if the respective exercise or conversion prices are at or less than the offering price. Also assume exercise of any options, warrants or rights and conversions of any

convertible securities offered in this offering.)

If the maximum is sold: 32.5%

If the minimum is sold: Not Applicable %

(b) What post-offering value is management implicitly attributing to the entire Company by establishing the price per security set forth on the cover page (or exercise or conversion price if common stock is not offered)? (Total outstanding shares after offering times offering price, or exercise or conversion price if common stock is not offered.)

If the maximum is sold: \$460,999.15 * If the minimum is sold: Not Applicable *

* These values assume that the Company's capital structure would be changed to reflect any conversions of outstanding convertible securities and any use of outstanding securities as payment in the exercise of outstanding options, warrants or rights included in the calculation. The type and amount of convertible or other securities thus eliminated would be: 0. These values also assume an increase in cash in the Company by the amount of any cash payments that would be made upon cash exercise of options, warrants or rights included in the calculations. The amount of such cash would be: \$0.

(For above purposes, assume outstanding options are exercised in determining "shares" if the exercise prices are at or less than the offering price. All convertible securities, including outstanding convertible securities, shall be assumed converted and any options, warrants or rights in this offering shall be assumed exercised.)

Note: After reviewing the above, potential investors should consider whether or not the offering price (or exercise or conversion price, if applicable) for the securities is appropriate at the present stage of the Company's development.

USE OF PROCEEDS

9. (a) The following Table sets forth the use of the proceeds from this offering:

<u>Use</u>	<u>If Maximum Proceeds Raised (No minimum Exists)</u>
Marketing	35,000.00
R&D	20,000.00

Offering Expenses	15,000.00

(b) If there is no minimum amount of proceeds that must be raised before the Company may use the proceeds of the offering, describe the order of priority in which the proceeds set forth above in the column "If Maximum Sold" will be used.

In the event that Maximum proceeds are not raised, we will apply them in lesser amounts to the categories described above. Although the percentage of funds is optimal, it is not critical that the proceeds be used in this exact way. The list below shows the percentages in which we currently plan to apply funds raised. Although it may change as need arises.

Use	Percent Raised		Percent Raised		Percent Raised		Percent Raised	
	25% %	Amount(\$)	50% %	Amount(\$)	75% %	Amount(\$)	100% %	Amount(\$)

Total Funds Raised		\$20,156.25		\$61,125.00		\$112,500.00		\$150,000.00

Note: After reviewing the portion of the offering allocated to the payment of offering expenses, and to the immediate payment to management and promoters of any fees, reimbursements, past salaries or similar payments, a potential investor should consider whether the remaining portion of his investment, which would be that part available for future development of the Company's business and operations, would be adequate.

10. (a) If material amounts of funds from sources other than this offering are to be used in conjunction with the proceeds from this offering, state the amounts and sources of such other funds, and whether funds are firm or contingent. If contingent, explain.

Not Applicable – No material amounts of funds from sources other than this offering are to be used in conjunction with the proceeds from this offering

(b) If any material part of the proceeds is to be used to discharge indebtedness, describe the terms of such indebtedness, including interest rates. If the indebtedness to be discharged was incurred within the current or previous fiscal year, describe the use of proceeds of such indebtedness.

Not Applicable – No material part of the proceeds is to be used to discharge indebtedness

(c) If any material amount of proceeds is to be used to acquire assets, other than in the ordinary course of business, briefly describe and state the cost of the assets and other material terms of the acquisitions. If the assets are to be acquired from officers, directors, employees or principal stockholders of the Company or their associates, give the names of the persons from whom the assets are to be acquired and set forth the cost to the Company, the method followed in determining the cost, and any profit to such persons.

None of the proceeds from this offering have been earmarked for use in acquiring any specific assets other than in the ordinary course of business.

(d) If any amount of the proceeds is to be used to reimburse any officer, director, employee or stockholder for services already rendered, assets previously transferred, or monies loaned or advanced, or otherwise, explain:

None of the proceeds from this offering will be used to reimburse any officer, director, employee or stockholder for any services, loans or any other reason originating prior to this offering.

11. Indicate whether the Company is having or anticipates having within the next 12 months any cash flow or liquidity problems and whether or not it is in default or in breach of any note, loan, lease or other indebtedness or financing arrangement requiring the Company to make payments. Indicate if a significant amount of the Company's trade payables have not been paid within the stated trade term. State whether the Company is subject to any unsatisfied judgments, liens or settlement obligations and the amounts thereof. Indicate the Company's plans to resolve any such problems.

The company is currently operating on minimal funds, and generating minimal return. It is the opinion of the company that without the proceeds from this offering sales alone will not satisfy the company's cash needs for the next twelve months.

On October 31, 2009 the Company issued a Convertible promissory note for loans totaling \$150,000.00. The note was to be paid in full on by October 31, 2010 and due to the short-term nature of the note it carries a zero interest rate. The holders may at its election convert all or part of this note into shares of the Company's common stock at a fixed predetermined discounted conversion rate determined at the commitment date. The notes have matured during the year and are considered in default by the Lender. Two parties have purchased this \$150,000.00 Note as follows: Eastlight Enterprises, Inc. has purchased \$75,000 of this note and Globe Idol Capital, Inc. has purchased \$75,000 of the note. Additionally, Eastlight Enterprises, and Globe Idol Capital were issued convertible promissory notes dated January 15, 2014 for \$10,000.00 each, for additional funds loaned to the company in this first quarter, which combined totaled \$20,000.00 and Peachtree Capital, LLC loaned the Company \$40,000 on August 12, 2014 through the issuance of convertible note.

12. Indicate whether proceeds from this offering will satisfy the Company's cash requirements for the next 12 months, and whether it will be necessary to raise additional funds. State the source of additional funds, if known.

It is the opinion of the company that the proceeds from this offering will satisfy the company's cash needs for the next twelve months. Currently, the Company has no plans to raise additional funds in any other offering.

CAPITALIZATION

13. Indicate the capitalization of the Company as of the most recent balance sheet date (adjusted to reflect any subsequent stock splits, stock dividends, recapitalizations or refinancing) and as adjusted to reflect the sale of the minimum and maximum amount of securities in this offering and the use of the net proceeds therefrom:

"Fixed charges" means interest (including capitalized interest), amortization of debt discount, premium and expense, preferred stock dividend requirements of majority owned subsidiary, and such portion of rental expense as can be demonstrated to be representative of the interest factor in the particular case. The pro forma ratio of earnings to fixed charges should include incremental interest expense as a result of the offering of the notes or other debt securities.

Not Applicable

Note: Care should be exercised in interpreting the significance of the ratio of earnings to fixed charges as a measure of the "coverage" of debt service, as the existence of earnings does not necessarily mean that the Company's liquidity at any given time will permit payment of debt service requirements to be timely made. See Question Nos. 11 and 12. See also the Financial Statements and especially the Statement of Cash Flows.

PLAN OF DISTRIBUTION

21. The selling agents (that is, the persons selling the securities as agent for the Company for a commission or other compensation) in this offering are:

Not Applicable. The Shares to be offered in connection with this Offering shall be offered by the President of the Company through his contacts, and word of mouth, and will receive no commission. The Company is not using a selling agent or finder in connection with this offering.

22. Describe any compensation to selling agents or finders, including cash, securities, contracts or other consideration, in addition to the cash commission set forth as a percent of the offering price on the cover page of this Offering Circular. Also indicate whether the Company will indemnify the selling agents or finders against liabilities under the securities laws. 23. Describe any material relationships between any of the selling agents or finders and the Company or its management. Note: After reviewing the amount of compensation to the selling agents or finders for selling the securities, and the

nature of any relationship between the selling agents or finders and the Company, a potential investor should assess the extent to which it may be inappropriate to rely upon any recommendation by the selling agents or finders to buy the securities.

Not Applicable. The Company is not using a selling agent or finder in connection with this offering.

24. If this offering is not being made through selling agents, the names of persons at the Company through which this offering is being made:

There are currently 1,309,466,911 shares of stock owned by 47 different shareholders in varying quantities that currently bear a restrictive legend. However, these shares were originally issued many years ago ranging from 2008 to 2010, and so the restrictive legend could be removed at any time upon request of the shareholders. None of these shareholders own an amount more than 5% of the outstanding shares, and it is unknown if the contact information on file is correct.

Notes to Financial Statements As of September 30, 2014

NOTE 1 - ORGANIZATION AND OPERATIONS

Organization

Alternaturals, Inc. (the "Company") was incorporated in the State of Nevada on August 17, 1995 under the name "Mortgage Resources, Inc." The name of the Company was changed on August 20, 1997 to its current name. The Company began to commence operations in the mortgage banking industry in 1998. The Company held a license to operate as a mortgage banking entity until 2003. Since the date of incorporation and through August 1998, the company had steady operations. For the period August 1998 to June 30, 2011, the company has performed loan processing and telemarketing services. From of July 1, 2011 to present the company has operated as a consulting corporation making referrals in the mortgage industry. In March of 2007, an amendment was filed with the State of Nevada to increase the number of authorized shares to 5,000,000,000 shares, which is the current structure to date. During the fiscal year ended December 31, 2013, the company acquired DBA Alternaturals.com in order to move forward with it's plan to sell alternative healthcare products including Hemp and cannabis related products as well as several substitutes for popular prescription drugs. On April 30, 2014, a name and symbol change was approved by FINRA and took effect changing the company name to Alternaturals, Inc. and the symbol to ANAS. The new business operates out of a small office but has plans to expand rapidly over the next year using organic growth from the sale of the products online and in retail stores and dispensaries.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation:

The consolidated financial statements include the accounts of the Company. All significant inter-company accounts and transactions have been eliminated in consolidation.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents:

For financial statement presentation purposes, short-term, highly liquid investments with original maturities of three months or less are considered to be cash equivalents. The Company maintains its cash accounts at several financial institutions, which at times may exceed the insurable FDIC limit, but management believes that there is little risk of loss.

Fair Value of Financial Instruments:

In September 2006, the Financial Accounting Standards Board (FASB) introduced a framework for measuring fair value and expanded required disclosure about fair value measurements of assets and liabilities. The Company adopted the standard for those financial assets and liabilities as of the beginning of the 2008 fiscal year and the impact of adoption was not significant. FASB Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" (ASC 820) defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three

developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1—Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2—Inputs other than quoted prices included within Level 1 that are observable for the asset or liability; either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g. interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3—Inputs that are both significant to the fair value measurement and unobservable.

The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include investments in available-for-sale securities and accounts payable and accrued expenses. The Company has also applied ASC 820 for all non-financial assets and liabilities measured at fair value on a non-recurring basis. The adoption of ASC 820 for non-financial assets and liabilities did not have a significant impact on the Company's financial statements.

Comprehensive Income:

ASC Topic 220 (SFAS No. 130) establishes standards for reporting comprehensive income and its components. Comprehensive income is defined as the change in equity during a period from transactions and other events from non-owner sources. Per the consolidated financial statements, the Company has purchased available-for-sale securities that are subject to this reporting.

Other-Than-Temporary Impairment:

All of our non-marketable and other investments are subject to a periodic impairment review. Investments are considered to be impaired when a decline in fair value is judged to be other-than-temporary. When events or changes in circumstances indicate that long-lived assets other than goodwill may be impaired, an evaluation is performed to determine if a write-down to fair value is required. When an asset is classified as held for sale, the asset's book value is evaluated and adjusted to the lower of its carrying amount or fair value less cost to sell. In addition, depreciation and amortization ceases while it is classified as held for sale.

The indicators that we use to identify those events and circumstances include:

- The investee's revenue and earnings trends relative to predefined milestones and overall business prospects;
- The general market conditions in the investee's industry or geographic area, including regulatory or economic changes;
- Factors related to the investee's ability to remain in business, such as the investee's liquidity, debt ratios, and the rate at which the investee is using its cash; and
- The investee's receipt of additional funding at a lower valuation. If an investee obtains additional funding at a valuation lower than our carrying amount or a new round of equity funding is required for the investee to remain in business, and the new round of equity does not appear imminent, it is presumed that the investment is other than temporarily impaired, unless specific facts and circumstances indicate otherwise.

Revenue and Cost Recognition:

Revenue is derived from sales of products to distributors and consumers. Revenue is recognized in accordance with Staff Accounting Bulletin (“SAB”) No. 101, “Revenue Recognition in Financial Statements,” as revised by SAB No. 104. As such, the Company recognizes revenue when persuasive evidence of an arrangement exists, title transfer has occurred, the price is fixed or readily determinable, and collectability is probable. Sales are recorded net of sales discounts.

Investments:

Marketable securities are classified as available-for-sale. Accordingly, they are carried at fair value with unrealized gains and losses reported, net of deferred income taxes, in accumulated other comprehensive income, a separate component of stockholder’s equity.

Allowance for Doubtful Accounts:

The Company establishes an allowance for doubtful accounts through a review of several factors, including historical collection experience, current aging status of the customer accounts and the financial condition of the customers.

Fixed Assets:

Fixed assets are reported at cost less accumulated depreciation, which is generally provided on the straight-line method over the estimated useful lives of the assets. Upon sale or retirement of an asset, the related costs and accumulated depreciation are removed from the accounts and any gain or loss is recognized.

Reclassifications:

Certain reclassifications have been made to prior year balances to conform to the current year’s presentation only in such cases where the impact in the prior year’s financials would have been immaterial to that period.

Financing Fees:

Financing fees are being amortized over the life of the related liability on the straight-line method which is not materially different than using the effective interest method.

Goodwill and Intangible Assets Arising from Acquisitions:

The reported amounts of goodwill for each business-reporting unit are reviewed for impairment on an annual basis and more frequently when negative conditions such as significant current or projected operating losses exist. The annual impairment test for goodwill is a two-step process and involves comparing the estimated fair value of each business-reporting unit to the business-reporting unit’s carrying value, including goodwill. If the fair value of a business-reporting unit exceeds its carrying amount, goodwill of the business reporting unit is not considered impaired, and the second step of the impairment test is unnecessary. If the carrying amount of a reporting unit exceeds its fair value, the second step of the goodwill impairment test would be performed to measure the amount of impairment loss to be recorded, if any.

Evaluating Impairment of Long-lived Assets:

When events or changes in circumstances indicate that long-lived assets other than goodwill may be impaired, an evaluation is performed. For an asset classified as held for use, the estimated future undiscounted cash flows associated with the asset are compared to the asset’s carrying amount to determine if a write-down to fair value is required. When an asset is classified as held for sale, the asset’s book value is evaluated and adjusted to the lower of its carrying amount or fair value less cost to sell. In addition, depreciation and amortization ceases while it is classified as held for sale.

Net Loss Per Share:

Net loss per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (EPS) includes additional dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants. Common stock equivalents are not included in the computation of diluted earnings per share when the Company reports a loss because to do so would be anti-dilutive. The following is a reconciliation of the computation for basic and diluted EPS for the nine months ended September 30, 2014 and 2013:

	<u>9/30/2014</u>	<u>9/30/2013</u>

Warrants	-	-
Convertible Notes	-	-
Weighted-average common shares outstanding- Diluted	<u>2,660,538,938</u>	<u>2,359,983,160</u>

Income Taxes:

The Company recognizes the amount of taxes payable or refundable for the year. In addition, deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been recognized in the financial statements or tax returns. A valuation allowance is provided for deferred tax assets if it is more likely than not that these items will not be realized.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. The Company is in the process of bringing its tax filings current.

Recently Issued Accounting Pronouncements:

On June 10, 2014, the FASB issued Accounting Standards Update (ASU) No. 2014-10, Development Stage Entities (Topic 915) – Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation, which eliminates the concept of a development stage entity (DSE) in its entirety from current accounting guidance.

The Financial Accounting Standards Board (FASB) has updated U.S. Generally Accepted Accounting Principles (GAAP) to eliminate a critical gap in existing standards. The new guidance, found in Accounting Standards Update (ASU) 2014-15, *Presentation of Financial Statements — Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern*, clarifies the disclosures management must make in the organization’s financial statement footnotes when management has substantial doubt about its ability to continue as a “going concern.” The guidance applies to all companies.

NOTE 5- CONVERTIBLE PROMISSORY NOTES

On October 31, 2009 the Company issued a Convertible promissory note for loans totaling \$150,000.00. The note was to be paid in full on by October 31, 2010 and due to the short-term nature of the note it carries a zero interest rate. The holders may at its election convert all or part of this note into shares of the Company's common stock at a fixed predetermined discounted conversion rate determined at the commitment date. The notes have matured during the year and are considered in default by the Lender. Two parties have purchased this \$150,000.00 Note as follows: Eastlight Enterprises, Inc. has purchased \$75,000 of this note and Globe Idol Capital, Inc. has purchased \$75,000 of the note. Additionally, Eastlight Enterprises, and Globe Idol Capital were issued convertible promissory notes dated January 15, 2014 for \$10,000.00 each, for additional funds loaned to the company in this first quarter, which combined totaled \$20,000.00 and Peachtree Capital, LLC loaned the Company \$40,000 on August 12, 2014 through the issuance of convertible note.

NOTE 6 - LOAN PAYABLE TO SHAREHOLDERS

As of June 30, 2014 there were no loans payable to shareholders outstanding.

NOTE 7 - DERIVATIVE LIABILITY

The Company accounts for derivative financial instruments in accordance with ASC 815, which requires that all derivative financial instruments be recorded in the balance sheets either as assets or liabilities at fair value.

The Company's derivative liability is an embedded derivative associated with one of the Company's convertible promissory notes. The convertible promissory notes were issued on January 15 and August 12, 2014, (the "Notes"), are hybrid instruments which contain an embedded derivative feature which would individually warrant separate accounting as a derivative instrument under Paragraph 815-10-05-4. The embedded derivative feature includes the conversion feature to the Note. Pursuant to Paragraph 815-10-05-4, the value of the embedded derivative liability have been bifurcated from the debt host contract and recorded as a derivative liability resulting in a reduction of the initial carrying amount (as unamortized discount) of the notes, which are amortized as debt discount to be presented in other (income) expenses in the statements of operations using the effective interest method over the life of the notes.

The embedded derivative within the note have been valued using the Black Scholes approach, recorded at fair value at the date of issuance; and marked-to-market at each reporting period end date with changes in fair value recorded in the Company's statements of operations as "change in the fair value of derivative instrument".

As of January 15, 2014, August 12 and September 30, 2014, the estimated fair value of derivative liability was determined to be \$33,580, \$46,154 and \$63,112, respectively. On January 15, 2014, the derivative liability was recognized with a debt discount of \$20,000 and a loss on derivative liabilities of \$33,580. On August 12, 2014, the derivative liability was recognized with a debt discount of \$40,000 and a loss on derivative liabilities of \$46,154. During the nine months ended September 30, 2014, amortization of \$13,369 was recorded against the discount. The change in the fair value of derivative liabilities for the nine months ended September 30, 2014 was \$16,622 resulting in an aggregate gain on derivative liabilities of \$16,622.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below and disclosed on the balance sheets:

	<u>Carrying Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

The table below provides a summary of the changes in fair value, including net transfers in and/or out, of all financial assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the nine months ended September 30, 2014:

NOTE 8 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Currently, the Company has limited operating history and has incurred operating losses, insufficient working capital on hand and an accumulated deficits to date. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management believes that the Company's capital requirements will depend on many factors including the success of the Company's development efforts and its efforts to raise capital. Management also believes the Company needs to raise additional capital for working capital purposes. There is no assurance that such financing will be available in the future. The conditions described above raise substantial doubt about our ability to continue as a going concern. The financial statements of the Company do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

The Company currently has no commitments or contingencies.

NOTE 10 - DISCONTINUED OPERATIONS

In 2011, the company was divested of its major operations, but continued operating as a licensing company maintaining its intellectual property and attempting to license it. As of 09/30/14 the company still operated as a licensing company.

NOTE 10 - INCOME TAXES

Deferred income tax assets and liabilities are computed annually for differences between financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount

expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The effective tax rate on the net loss before income taxes differs from the U.S. statutory rate as follows:

9/30/2014

U.S statutory rate	34.00%
Less valuation allowance	<u>(34.00)%</u>
Effective tax rate	<u><u>0.00%</u></u>

The significant components of deferred tax assets and liabilities are as follows:

9/30/2014

Deferred tax assets	
Net operating losses	<u>\$ (3,914,572)</u>
Deferred tax liability	
Net deferred tax assets	(1,330,954)
Less valuation allowance	<u>1,330,954</u>
Deferred tax asset - net valuation allowance	<u><u>\$ 0</u></u>

On an interim basis, the Company has a net operating loss carryover of approximately \$3,914,572 available to offset future income for income tax reporting purposes, which will expire in various years through 2032, if not previously utilized. However, the Company’s ability to use the carryover net operating loss may be substantially limited or eliminated pursuant to Internal Revenue Code Section 382. The Company adopted the provisions of ASC 740-10-50, formerly FIN 48, and “Accounting for Uncertainty in Income Taxes”. The Company had no material unrecognized income tax assets or liabilities as of September 30, 2014.

The Company’s policy regarding income tax interest and penalties is to expense those items as general and administrative expense but to identify them for tax purposes. During the six months ended September 30, 2014, there were no income tax, or related interest and penalty items in the income statement, or liabilities on the balance sheet. The Company files income tax returns in the U.S. federal jurisdiction and Nevada state jurisdiction. We are not currently involved in any income tax examinations.

**END OF NOTES TO FINANCIAL STATEMENTS FOR
THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014**

MANAGEMENT'S DISCUSSION AND ANALYSIS OF CERTAIN RELEVANT FACTORS

□

47. If the Company's financial statements show losses from operations, explain the causes underlying these losses and what steps the Company has taken or is taking to address these causes. □

The company has shown losses over the course of the last fiscal year due mainly to taking on additional debt, for the purchase of inventory and a small amount of equipment. The company's strategy is to keep inventory low and manufacture product as it sells to avoid having a cash shortfall in the future as sales ramp up to support the business.

48. Describe any trends in the Company's historical operating results. Indicate any changes now occurring in the underlying economics of the industry or the Company's business, which, in the opinion of Management, will have a significant impact (either favorable or adverse) upon the Company's results of operations within the next 12 months, and give a rough estimate of the probable extent of the impact, if possible. □

The company has not had significant operations or sales to accurately determine if any trends exist, or what they may be.

49. If the Company sells a product or products and has had significant sales during its last fiscal year, state the existing gross margin (net sales less cost of such sales as presented in accordance with generally accepted accounting principles) as a percentage of sales for the last fiscal year: 88%. What is the anticipated gross margin for next year of operations? Approximately Unknown%. If this is expected to change, explain. Also, if reasonably current gross margin figures are available for the industry, indicate these figures and the source or sources from which they are obtained. □

The Company has not had significant enough sales to accurately calculate the gross margin to any degree of certainty. For the last fiscal year the company has sold approximately \$2,710.00 worth of product, with a gross margin of \$2,411.00, which is too small at this point to supply a gross margin that would not potentially be subject to large fluctuations and variations.

50. Foreign sales as a percent of total sales for last fiscal year: 0%. Domestic government sales as a percent of total domestic sales for last fiscal year: 0%. Explain the nature of these sales, including any anticipated changes: □

Not Applicable – the company has had neither foreign nor Governmental Sales.

ARTICLE XI INDEMNIFICATION

The Corporation may:

(A) Indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative (other than an action by or in the right of the Corporation), by reason of the fact that he is or was a director, officer, employee, fiduciary or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee, fiduciary or agent of another Corporation, partnership, joint venture, trust, or other enterprise, against expenses (including attorney fees), judgments, fines, and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit, or proceeding, if he acted in good faith and in a manner he reasonably believed to be in the best interests of the Corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe this conduct was unlawful. The termination of any action, suit, or proceeding by judgment, orders, settlement, or conviction or equivalent shall not of itself create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in the best interests of the Corporation and, with respect to any criminal action or proceeding, had reasonable cause to believe his conduct was unlawful.

(B) Indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee, or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee, fiduciary or agent of another Corporation, partnership, joint venture, trust or other enterprise against expenses (including attorney fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in the best interests of the Corporation; but no indemnification shall be made in respect of any claim, issue, or matter as to which such person had been adjudged to be liable for negligence or misconduct in the performance of his duty to the Corporation unless and only to the extent that the court in which such action or suit was brought determines upon application that, despite the adjudication of liability, but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnification for such expenses which such court deems proper.

(C) Indemnify a director, officer, employee, fiduciary or agent of a corporation to the extent he has been successful on the merits in defense of any action, suit, or proceeding referred to in (A) or (B) of this Article XII or in defense of any claim, issue, or matter therein, against expenses (including attorney fees) actually and reasonably incurred by him in connection therewith.

Any indemnification under (A) or (B) of this Article XI (unless ordered by a court) and as distinguished from (C) of this Article shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee, fiduciary or agent is proper in the circumstances because he has met the applicable standard of conduct set forth in (A) or (B) above. Such determination shall be made by the board of directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit, or proceeding, or, if such a quorum is not obtainable or, even if

obtainable, if a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or by the shareholders. Expenses (including attorney fees) incurred in defending a civil or criminal action, suit, or proceeding may be paid by the Corporation in advance of the final disposition of such action, suit, or proceeding upon receipt of an undertaking by or on behalf of the director, officer, employee, fiduciary or agent to repay such amount unless it is ultimately determined that he is entitled to be indemnified by the Corporation as authorized in this Article XI.

The indemnification provided by this Article XI shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any by—law, agreement, vote of shareholders or disinterested directors, or otherwise, and any procedure provided for by any of the foregoing, both as to action in his official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee, fiduciary or agent and shall inure to the benefit of heirs, executors, and administrators of such a person.

The Corporation may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee, fiduciary or agent of the Corporation or who is or was serving at the request of the Corporation as a director, officer, employee, fiduciary or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability under provisions of this Article XI.

ARTICLE XII TRANSACTIONS WITH INTERESTED PARTIES

No contract or other transaction between the Corporation and one (1) or more of its directors or any other Corporation, firm, association, or entity in which one (1) or more of its directors are directors or officers or are financially interested shall be either void or voided solely because of such relationship or interest, or solely because such directors are present at the meeting of the board of directors or a committee thereof which authorizes, approves, or ratifies such contract or transaction, or solely because their votes are counted for such purpose if:

(A) The fact of such relationship or interest is disclosed or known to the Board of Directors or committee that authorizes, approves, or ratifies the contract or transaction by a vote or consent sufficient for the purpose without counting the votes or consents of such interested directors;

(B) The fact of such relationship or interest is disclosed or known to the shareholders entitled to vote and they authorize, approve, or ratify such contract or transaction by vote or written consent; or

(C) The contract or transaction is fair and reasonable to the Corporation. Common or interested directors may be counted in determining the presence of a quorum, as herein previously defined, at a meeting of the Board of Directors or a committee thereof that authorizes, approves, or ratifies such contract or transaction.

ARTICLE XIII VOTING OF SHAREHOLDERS

Except as may be otherwise required by law, if a quorum is present, the affirmative vote of a majority of the outstanding shares represented at the meeting and entitled to vote thereon, or of any class or series, shall be the act of the shareholders on all matters except the election of directors. Directors shall be elected by plurality vote.

Exhibit 2.1

SUBSCRIPTION AGREEMENT

SUBSCRIPTION AGREEMENT (the "**Subscription Agreement**") made as of this ___ day of, 201___, by and between Alternaturals, Inc., a Nevada corporation (the "Issuer"), with offices at 2885 Sanford Ave SW #28452 Grandville, MI 49418, and the undersigned (the "Subscriber").

WHEREAS, pursuant to an Offering Circular dated March 1, 2014 (the "Offering Circular"), the Issuer is offering in a Regulation A offering (the "Offering") to accredited investors up to 1,500,000,000 shares (the "Shares") of the Issuer's common stock, par value \$0.00001 per share ("Common Stock") at a purchase price of \$0.0001 per share (the "Purchase Price") for a maximum aggregate purchase price of \$150,000.00 USD (the "Maximum Offering").

WHEREAS, the Subscriber desires to subscribe for the number of Shares set forth on the signature page hereof, on the terms and conditions hereinafter set forth.

NOW, THEREFORE, for and in consideration of the premises and the mutual covenants hereinafter set forth, the parties hereto do hereby agree as follows:

I. SUBSCRIPTION FOR AND REPRESENTATIONS AND COVENANTS OF SUBSCRIBER

1.1 Subject to the terms and conditions hereinafter set forth, the Subscriber hereby subscribes for and agrees to purchase from the Issuer the number of Shares set forth on the signature page hereof, at a price equal to that listed on the signature page and based on the Purchase Price and the Issuer agrees to sell such Shares to the Subscriber for said purchase price, subject to the Issuer's right to sell to the Subscriber such lesser number of (or no) Shares as the Issuer may, in its sole discretion, deem necessary or desirable. The purchase price is payable by wire or by check payable to the Issuer.

1.2 The Subscriber has full power and authority to enter into and deliver this Subscription Agreement and to perform the obligations hereunder, and the execution, delivery and performance of this Subscription Agreement has been duly authorized, if applicable, and this Subscription Agreement constitutes a valid and legally binding obligation of the Subscriber.

1.3 The Subscriber acknowledges receipt of, and represents and warrants that the Subscriber and his, her or its attorney, accountant, purchaser representative and/or tax advisor, if any (collectively, "Advisors") prior to the execution of this Subscription Agreement has carefully reviewed and understands, the Offering Circular, all supplements to the Offering Circular, and all other documents furnished in connection with this transaction by the Issuer (collectively, the "Offering Documents").

1.4 The Subscriber recognizes that the purchase of Shares involves a high degree of risk in that (i) an investment in the Issuer is highly speculative and only investors who can afford the loss of their entire investment should consider investing in the Issuer and the Shares; (ii) the Shares are not registered under the Securities Act of 1933, as amended (the "Act"), or any state securities law; (iii) there is only a limited trading market for the Shares, and there is no assurance that a more active one will ever develop, and thus, the Subscriber may not be able to liquidate his, her or its investment; (iv) transferability of the Shares is limited because of the federal and state securities laws and regulations; and (v) an investor could suffer the loss of his, her or its entire investment. The Subscriber has carefully read and considered the matters set forth in the Offering Circular and in particular the matters under the caption "Risk Factors" therein, and, in particular, acknowledges that the Issuer has a limited operating history.

1.5 The Subscriber is an "accredited investor," as such term is defined in Rule 501 of Regulation D promulgated under the Act, and the Subscriber is able to bear the economic risk of an investment in the Shares.

1.6 The Subscriber is not relying on the Issuer or its affiliates or agents with respect to economic considerations involved in this investment. The Subscriber has relied on the advice of, or has consulted with, only his, her or its Advisors, if any. Each Advisor, if any, is capable of evaluating the merits and risks of an investment in the Shares as such are described in the Offering Circular, and each Advisor, if any, has disclosed to the Subscriber in writing (a copy of which is annexed to this Subscription Agreement) the specific details of any and all past, present or future relationships, actual or contemplated, between the Advisor and the Issuer.

1.7 The Subscriber has prior investment experience (including investment in non-listed and non-registered securities), has (together with his, her or its Advisors, if any) such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of the prospective investment in the Shares and has read and evaluated, or has employed the services of an investment advisor, attorney or accountant to read and evaluate, all of the documents furnished or made available by the Issuer to the Subscriber, including the Offering Circular, as well as the merits and risks of such an investment by the Subscriber. The Subscriber's overall commitment to investments, which are not readily marketable, is not disproportionate to the Subscriber's net worth, and the Subscriber's investment in the Shares will not cause such overall commitment to become excessive. The Subscriber, if an individual, has adequate means of providing for his or her current needs and personal and family contingencies and has no need for liquidity in his or her investment in the Shares. The Subscriber is financially able to bear the economic risk of this investment, including the ability to afford holding the Shares for an indefinite period or a complete loss of this investment. If other than an individual, the Subscriber also represents it has not been organized solely for the purpose of acquiring the Shares.

1.8 The Subscriber acknowledges that any estimates or forward-looking statements or projections included in the Offering Circular were prepared by the management of the Issuer in good faith, but that the attainment of any such projections, estimates or forward-looking statements cannot be guaranteed by the Issuer, its management or its affiliates and should not be relied upon.

1.9 The Subscriber acknowledges that the purchase of the Shares may involve tax consequences to the Subscriber and that the contents of the Offering Documents do not contain tax advice. The Subscriber acknowledges that the Subscriber must retain his, her or its own professional Advisors to evaluate the tax and other consequences to the Subscriber of an investment in the Shares. The Subscriber acknowledges that it is the responsibility of the Subscriber to determine the appropriateness and the merits of a corporate entity to own the Subscriber's Shares and the corporate structure of such entity.

1.10 The Subscriber acknowledges that the Offering Circular and this Offering have not been reviewed by the Securities and Exchange Commission (the "SEC") or any state securities commission, and that no federal or state agency has made any finding or determination regarding the fairness or merits of the Offering or confirmed the accuracy or determined the adequacy of the Offering Circular. Any representation to the contrary is a crime.

1.11 The Subscriber represents, warrants and agrees that the Shares are being purchased for his, her or its own beneficial account, for investment only, and not with a View toward distribution or resale to others. The Subscriber represents, warrants and agrees that he, she or it will not sell or otherwise transfer the Shares except in accordance with the Securities Act, and fully understands and agrees that the Subscriber must bear the economic risk of his, her or its purchase because, among other reasons, the Shares have not been registered under the Securities Act or under the securities laws of any state and, therefore, cannot be resold, pledged, assigned or otherwise disposed of unless they are subsequently registered under the Securities Act and under the applicable securities laws of such states, or an exemption from such registration is available. The Subscriber understands that the Issuer is under no obligation to register the Shares on his, her or its behalf or to assist them in complying with any exemption from registration under the Securities Act or applicable state securities laws.

1.12 The Subscriber understands that the Shares have not been registered under the Act by reason of a claimed exemption under the provisions of the Act which depends, in part, upon his, her or its investment

intention. In this connection, the Subscriber understands that it is the position of the SEC that the statutory basis for such exemption would not be present if his, her or its representation merely meant that his, her or its present intention was to hold such securities for a short period, such as the capital gains period of tax statutes, for a deferred sale, for a market rise, assuming that an active market develops, or for any other fixed period. The Subscriber realizes that, in the view of the SEC, a purchase now with an intent to resell would represent a purchase with an intent inconsistent with his, her or its representation to the Issuer, and the SEC might regard such a sale or disposition as a deferred sale, for which such exemption is not available. The Subscriber does not have any such intentions.

1.13 The Subscriber agrees to indemnify and hold the Issuer, its directors, officers and controlling persons and their respective heirs, representatives, successors and assigns harmless against all liabilities, costs and expenses incurred by them as a result of any misrepresentation made by the Subscriber herein or as a result of any sale or distribution by the Subscriber in violation of the Act (including, without limitation, the rules promulgated thereunder), any state securities laws, or the Issuer's Restated Certificate of Incorporation and/or Bylaws, as amended from time to time.

1.14 The Subscriber understands that the Issuer will review and rely on this Subscription Agreement without making any independent investigation; and it is agreed that the Issuer reserves the unrestricted right to reject or limit any subscription and to withdraw the Offering at any time.

1.15 The Subscriber hereby represents that the address of the Subscriber furnished at the end of this Subscription Agreement is the Subscriber's principal residence, if the Subscriber is an individual, or its principal business address, if it is a corporation or other entity.

1.16 The Subscriber acknowledges that if the Subscriber is a Registered Representative of a Financial Industry Regulatory Authority ("FINRA") member firm, the Subscriber must give such firm the notice required by FINRA's Conduct Rules, receipt of which must be acknowledged by such firm on the signature page hereof.

1.17 The Subscriber hereby acknowledges that neither the Issuer nor any persons associated with the Issuer who may provide assistance or advice in connection with the Offering are or are expected to be members or associated persons of members of FINRA or registered broker-dealers under any federal or state securities laws.

1.18 The Subscriber hereby represents that, except as expressly set forth in the Offering Documents, no representations or warranties have been made to the Subscriber by the Issuer or any agent, sub-agent, officer, employee or affiliate of the Issuer and, in entering into this transaction, the Subscriber is not relying on any information other than that contained in the Offering Documents and the results of independent investigation by the Subscriber.

1.19 No oral or written representations have been made, or oral or written information furnished, to the Subscriber or his, her or its Advisors, if any, in connection with the offering of the Shares which are in any way inconsistent with the information contained in the Offering Documents.

1.20 All information provided by the Subscriber in the Investor Questionnaire attached to this Subscription Agreement is true and accurate in all respects, and the Subscriber acknowledges that the Issuer will be relying on such information to its possible detriment in deciding whether the Issuer can sell these securities to the Subscriber without giving rise to the loss of the exemption from registration under applicable securities laws.

1.21 The Subscriber is unaware of, is in no way relying on, and did not become aware of the offering of the Shares through or as a result of, any form of general solicitation or general advertising including, without limitation, any article, notice, advertisement or other communication published in any newspaper, magazine or similar media or broadcast over television or radio, or electronic mail over the Internet, in connection with the offering and sale of the Shares and is not subscribing for Shares and did not become aware of the offering of the Shares through or as a result of any seminar or meeting to which the Subscriber was invited by, or any solicitation

of a subscription by, a person not previously known to the Subscriber in connection with investments in securities generally.

1.22 The Subscriber has taken no action which would give rise to any claim by any person for brokerage commissions, finders, fees or the like relating to this Subscription Agreement or the transactions contemplated hereby.

1.23 The Subscriber is not relying on the Issuer, or any of its employees, agents or sub-agents with respect to the legal, tax, economic and related considerations of an investment in the Shares, and the Subscriber has relied on the advice of, or has consulted with, only his, her or its own Advisors, if any.

1.24 (For ERISA plans only) The fiduciary of the ERISA plan (the "Plan") represents that such fiduciary has been informed of and understands the Issuer's business objectives, policies and strategies, and that the decision to invest "plan assets" (as such term is defined in ERISA) in the Issuer is consistent with the provisions of ERISA that require diversification of plan assets and impose other fiduciary responsibilities. The subscriber or Plan fiduciary (a) is responsible for the decision to invest in the Issuer; (b) is independent of the Issuer and any of its affiliates; (c) is qualified to make such investment decision; and (d) in making such decision, the subscriber or Plan fiduciary has not relied primarily on any advice or recommendation of the Issuer or any of its affiliates or its agents.

1.25 The foregoing representations, warranties and agreements shall survive the Closing.

II. REPRESENTATIONS BY THE ISSUER

The Issuer represents and warrants to the Subscriber that as of the date of the closing of this Offering (the "Closing Date"):

2.1 The Issuer is a corporation duly organized, validly existing and in good standing under the laws of the State of Nevada, authorized to do business in the States of Nevada and California and has the corporate power to conduct the business which it conducts and proposes to conduct.

2.2 The execution, delivery and performance of this Subscription Agreement by the Issuer have been duly authorized by the Issuer and all other corporate action required to authorize and consummate the offer and sale of the Shares has been duly taken and approved. This Subscription Agreement is valid, binding and enforceable against the Issuer in accordance with its terms; except as enforcement may be limited by bankruptcy, insolvency, moratorium or similar laws or by legal or equitable principles relating to or limiting creditors' rights generally, the availability of equity remedies, or public policy as to the enforcement of certain provisions, such as indemnification provisions.

2.3 The Shares and the underlying Shares have been duly and validly authorized and issued.

2.4 The Issuer knows of no pending or threatened legal or governmental proceedings to which the Issuer is a party, which would materially adversely affect the business, financial condition or operations of the Issuer.

3.2 The Subscriber has affected a wire transfer in the full amount of the purchase price for the Shares to the Issuer or has delivered a check in payment of the purchase price for the Shares or affirmation of forgiveness of debt in the amount of the purchase price.
