PART II – OFFERING CIRCULAR

# Alternative Securities Market, LLC

## Best Efforts Offering of 50,000 Secured Investment Certificates

This Offering Circular relates to the offer and sale of up to \$5,000,000 in principal amount (the “Offering”) of Secured Fixed-Rate Investment Certificates (the “Certificates”) of ALTERNATIVE SECURITIES MARKET, LLC, a California Limited Liability Company (the “Company”). The Company’s principal office is located at 4050 Glencoe Avenue, Marina Del Rey, California 90292, and its telephone number is (213) 407-4386.

The Certificates will be issued in the minimum amount of \$100 and in multiples of \$100. The Certificates will be offered in maturities of 6 to 18 months from the date issued, with a fixed interest rate depending on the term. The Company will typically issue Certificates on the same or next day, after deposit by the Company of the Subscriber’s payment check and the check is collected by the Company’s Bank. See “Description of Certificates” on Page 120 of this Registration Statement. The Interest Rate for each Certificate will be based on the formula set forth below and varies according to the term of the Certificate. See “Description of Certificates – Principal, Maturity and Interest” on Page 120 of this Registration Statement. The Minimum and the Maximum Fixed Interest Rates which are offered will change from time to time in response to changes in the current “Wall Street Journal’s Prime Rate” data obtained from the Wall Street Journal, or a similar credible source. The “Prime Rate”, as reported by the Wall Street Journal’s Bank Survey, is among the most widely used benchmark in setting home equity lines of credit and credit card rates. It is in turn based on the Federal Funds Rate, which is set by the Federal Reserve. The Interest Rates for new Certificates are set on the First Monday of each month at the start of business based on the Wall Street Journal’s Prime Rate on that day. Such rates are paid on all Certificates issued between the start of business on that Monday and the close of business on the last day prior to the First Monday of the next month. The following table sets forth the formula for determining the Interest Rates for the Certificates and the Initial Interest Rate based on the most recent Wall Street Journal’s Prime Rate as of March 2nd, 2015.

TERM	WALL STREET JOURNAL'S PRIME RATE	INTEREST RATES AS OF MARCH 2nd, 2015
6 MONTHS	Prime Plus 5%	8.25%
9 MONTHS	Prime Plus 6%	9.25%
12 MONTHS	Prime Plus 7%	10.25%
15 MONTHS	Prime Plus 8%	11.25%
18 MONTHS	Prime Plus 9%	12.25%

The Initial Rates set forth above will be effective only for Certificates issued between March 2nd, 2015 and February 28th, 2015. The Interest Rates fluctuate based on the formula set forth above, and to determine the current rates, prospective investors in the Certificates should call the Company at (213) 407-4386, or consult the web page: <http://www.ASMGCorp.com> and/or <http://www.AlternativeSecuritiesMarket.com>.

The Company may prepay some or all of the Certificates at any time prior to their Maturity without premium or penalty.

The Company will pay Interest on Certificates Quarterly, Semi-annually or at Maturity, at the Holder's option. All Certificates will be issued in fully registered form.

The Certificates will be subject to automatic rollover. Fifteen business days before the maturity date of the Certificate, the Company will notify the Holder that the Certificate is going to mature and request whether the holder wishes to let the Certificate rollover, or to be repaid. The Company will repay holders who notify in ten business days before the Maturity Date that they wish to be repaid. Unless the holder notifies the Company ten business days before the maturity date that it does not wish to let the Certificate rollover and presents the Certificate for payment, or the Company otherwise elects to repay the Certificate, the Certificate rollover will be automatically rolled-over into a new Certificate at the Interest Rate then being offered by the Company based on the same term as the original Certificate. The Holder may elect to rollover all, or a portion of, the Certificates it owns. To determine the Interest Rate applicable to the rolled-over Certificate, Holders should call the Company at (213) 407-4386, or consult the web pages at: <http://www.ASMGCorp.com> and/or <http://www.AlternativeSecuritiesMarket.com>. The rolled-over Certificate will bear interest at the then current interest rate for newly issued Certificates, based on the formula described above, the maturity date will be extended for an additional term of identical length as the original Certificate, and the frequency of Interest Payments will be identical to the frequency of the Original Certificate.

Due to automatic rollover, Investors will not receive payment of principal at Maturity or subsequent payment dates unless the Investor complies with the procedures for notification and delivery of Certificates. See "Payment or Rollover at Maturity" on page 122 of this Registration Statement.

The Company, through Licensed Brokers of Alternative Securities Market, LLC and Registered Investment Advisors of Alternative Securities Markets Group Corporation, are offering the Certificates Investors through its Officers on an ongoing and continuous basis. The Certificates will be issued at their principal face value, without a discount, and are not being sold through commissioned sales agents or underwriters. See "Plan for Distribution" on page 25 of this Registration Statement.

The Certificates are being offered, and will be sold, pursuant to the exemption from registration provided by Section 3(b) of the Securities Act of 1933, as amended (the "Act"), and Regulation A promulgated thereunder. The Offering is not contingent upon sales of a minimum offering amount and there is no minimum aggregate amount of Certificates that must be sold in order for us to have access to the Offering proceeds. We may accept subscriptions as they are received. The Offering will terminate upon the earlier to occur of (i) the date that is not more than one year after the Offering is qualified by the United States Securities and Exchange Commission (The "Commission"), and (ii) the date on which \$5,000,000 of Certificates qualified hereunder have been sold.

The Certificates will not be listed on any exchange or quoted on any automated dealer quotation system. Currently, there is no public market for the Certificates.

This Offering Circular shall not constitute an offer to sell or the solicitation to an offer to buy, nor shall there be any sales of these securities in any state in which such an offer, solicitation or sale would be unlawful prior to registration or qualification under the laws of any such State.

## **PART II — OFFERING CIRCULAR**

### **ITEM 3. SUMMARY INFORMATION, RISK FACTORS AND DILUTION**

#### **GENERAL RISKS ASSOCIATED WITH INVESTMENT IN THE ALTERNATIVE SECURITIES MARKET, LLC**

*Investing in the Company's Secured Investment Certificates is very risky. You should be able to bear a complete loss of your investment. You should carefully consider the following factors, including those listed in this private securities offering.*

##### ***Development Stage Business***

Alternative Securities Market, LLC commenced operations in December of 2014. The Company was formed as a California Limited Liability Company. Accordingly, the Company has only a limited history upon which an evaluation of its prospects and future performance can be made. The Company's proposed operations are subject to all business risks associated with new enterprises. The likelihood of the Company's success must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the expansion of a business, operation in a competitive industry, and the continued development of advertising, promotions and a corresponding customer base. There is a possibility that the Company could sustain losses in the future. There can be no assurances that Alternative Securities Market, LLC will operate profitably.

##### ***Inadequacy of Funds***

Gross offering proceeds of a maximum of \$5,000,000 may be realized. Management believes that such proceeds will capitalize and sustain the Company sufficiently to allow for the implementation of the Company's Business Plans. If only a fraction of this Offering is sold, or if certain assumptions contained in Management's business plans prove to be incorrect, the Company may have inadequate funds to fully develop its business.

##### ***Dependence on Management***

In the early stages of development the Company's business will be significantly dependent on the Company's Managing Member, Mr. Steven Joseph Muehler. Mr. Steven J. Muehler. Along with being the Managing Member of the Company, Mr. Muehler is also the Founder, Chief Executive Officer and Chairman of the Board of Directors for Alternative Securities Markets Group Corporation. Mr. Muehler will be dedicating less than his full time to the Company, and will only be able to dedicate 15-20 hours per week to the Management of the Company.

##### ***Risks of Borrowing***

The Company does not intend to incur any additional debt beyond the debt commitments provided in this offering. Should the Company incur additional debt in the future, additional possible risks could arise. If the Company incurs additional indebtedness, a portion of the Company's cash flow will have to be dedicated to the payment of principal and interest on such new indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements could also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of members of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

##### ***Unanticipated Obstacles to Execution of the Business Plan***

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of the

Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

#### ***Management Discretion as to Use of Proceeds***

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of the Company's Managing Member with respect to application and allocation of the net proceeds of this Offering. Investors for the Secured Investment Certificates offered hereby will be entrusting their funds to the Company's Managing Member, upon whose judgment and discretion the investors must depend.

#### ***Minimum Amount of Capital to be Raised***

There is no minimum amount of Secured Investment Certificates that need to be sold in this offering for the Company to access the investment funds is. All Investor funds will be transferred from the Company's Investment Deposit Account to the Company's General Business Operation Account. The Company cannot assure you that subscriptions for the entire Offering will be obtained. The Company has the right to terminate this offering of Secured Investment Certificates at any time, regardless of the number of Secured Investment Certificates that have sold. The Company's ability to meet financial obligations, cash needs, and to achieve objectives, could be adversely affected if the entire offering of Secured Investment Certificates is not fully subscribed.

#### ***Control by Management***

As of March 1st, 2015 the Alternative Securities Markets Group Corporation owned 100% of the Company's outstanding Equity Membership Units. Mr. Steven J. Muehler, is the Sole Shareholder and Chief Executive Officer of Alternative Securities Markets Group Corporation, and the Managing Member of Alternative Securities Market, LLC. Upon completion of this Offering, the Alternative Securities Markets Group Corporation will own 100% of the issued and outstanding Equity Membership Units. Investors of the Company's Secured Investment Certificates will not have the ability to control either a vote of the Company's Managers or any appointed officers. See "COMPANY MANAGERS" section.

#### ***No Assurances of Protection for Proprietary Rights; Reliance on Trade Secrets***

In certain cases, the Company may rely on trade secrets to protect intellectual property, proprietary technology and processes, which the Company has acquired, developed or may develop in the future. There can be no assurances that secrecy obligations will be honored or that others will not independently develop similar or superior products or technology. The protection of intellectual property and/or proprietary technology through claims of trade secret status has been the subject of increasing claims and litigation by various companies both in order to protect proprietary rights as well as for competitive reasons even where proprietary claims are unsubstantiated. The prosecution of proprietary claims or the defense of such claims is costly and uncertain given the uncertainty and rapid development of the principles of law pertaining to this area. The Company may also be subject to claims by other parties with regard to the use of intellectual property, technology information and data, which may be deemed proprietary to others.

#### ***The Company's Continuing as a Going Concern Depends Upon Financing***

If the Company does not raise sufficient working capital and continues to experience pre-operating losses, there will most likely be substantial doubt as to its ability to continue as a going concern. Because the Company has generated no revenue, all expenditures during the development stage have been recorded as pre-operating losses. Revenue operations have not commenced because the Company has not raised the necessary capital.

#### ***Broker - Dealer Sales of Units***

The Company's Secured Investment Certificates are not included for trading on any exchange, and there can be no assurances that the Company will ultimately be registered on any exchange. The NASDAQ Stock Market, Inc. has recently enacted certain changes to the entry and maintenance criteria for listing eligibility on the NASDAQ SmallCap Market. The entry standards require at least \$4 million in net tangible assets or \$750,000 net income in two of the last three years. The proposed entry standards would also require a public float of at least 1 million shares, \$5 million value of public float, a minimum bid price of \$2.00 per share, at least three market makers, and at least 300 shareholders. The maintenance standards (as opposed to entry

standards) require at least \$2 million in net tangible assets or \$500,000 in net income in two of the last three years, a public float of at least 500,000 shares, a \$1 million market value of public float, a minimum bid price of \$1.00 per share, at least two market makers, and at least 300 shareholders.

No assurance can be given that the Company will ever convert to a Stock Corporation and No assurances can be given that the Company's Stock Units would ever qualify for inclusion on the NASDAQ System or any other trading market until such time as the Managing Member deems it necessary. As a result, the Company's Secured Investment Certificates are covered by a Securities and Exchange Commission rule that opposes additional sales practice requirements on broker-dealers who sell such securities to persons other than established customers and qualified investors. For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Consequently, the rule may affect the ability of broker-dealers to sell the Company's securities and will also affect the ability of members to sell their units in the secondary market.

### ***Secondary Market***

No application is currently being prepared for the Company's Secured Investment Certificates to be admitted to the Official Listing and trading on any regulated market. No application is being prepared to include the Secured Investment Certificates to trading on an "Over-the-Counter" or "Open Market", though the Company *may* choose to convert to a Stock Corporation within the next Five Years and submit an S-1 or Form 10 Filing. There can be no assurance that a liquid market for the Secured Investment Certificates will develop or, if it does develop, that it will continue. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Secured Investment Certificates easily or at prices that will provide them with yield comparable to similar investments that have a developed secondary market. Illiquidity may have a **severely adverse effect on the market value of the Secured Investment Certificates and investors wishing to sell the Secured Investment Certificates might therefore suffer losses.**

### ***Unavailability of Rule 144 for Resales***

The Company may be regarded under Rule 12b-2 of the Securities Exchange Act of 1934 as a shell company. Shareholders who hold Secured Investment Certificates which are not subject to a registration statement under the Securities Act often rely upon Rule 144 for their resale. Rule 144 is not available for the resale of securities initially issued by either reporting or non-reporting shell companies (other than a business combination related shell company) or an Issuer that has been, at any time previously, a reporting or non-reporting shell company, unless the issuer meets specified conditions. A Secured Investment Certificate holder may resell securities pursuant to Rule 144's Safe Harbor if the following conditions are met:

- 1) The Issuer of Securities that was formerly a reporting or non-reporting company has ceased to be a shell;
- 2) The Issuer of the Securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- 3) The Issuer of the Securities has filed all reports and material required to be filed under Section 13 or 15(d) of the Exchange Act, as applicable, during the preceding 12 months (or for such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and

### ***Long Term Nature of Investment***

An investment in the Company's Secured Investment Certificates may be long term and illiquid. As discussed above, the offer and sale of the Secured Investment Certificates will not be registered under the Securities Act or any foreign or state securities laws by reason of exemptions from such registration, which depends in part on the investment intent of the investors. Prospective investors will be required to represent in writing that they are purchasing the Units for their own account for long-term investment and not with a view towards resale or distribution. Accordingly, purchasers of Secured Investment Certificates must be willing and able to bear the economic risk of their investment for an indefinite period of time. It is likely that investors will not be able to liquidate their investment in the event of an emergency.

### ***Compliance with Securities Laws***

The Company's Secured Investment Certificates are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act, applicable California Securities Laws, and other applicable state securities laws. If the sale of Secured Investment Certificates were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of Secured Investment Certificates. If a number of purchasers were to obtain rescission, we would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

***All of the Alternative Securities Markets Group Corporation's Businesses are subject to risks related to Litigation, Arbitration Actions and Governmental and Self Regulation Organization Investigations***

All Companies of the Alternative Securities Markets Group Corporation are subject to legal proceedings arising out of their business operations, including lawsuits, arbitration claims, regulatory, governmental and Self Regulating Organization subpoenas, investigations and actions and other claims. We anticipate the majority of any legal claims will be client initiated and involve the purchase or sale of investment securities. We plan in our Investment Advisory Program (Alternative Securities Markets Group Corporation), we will have fiduciary obligations that require the Alternative Securities Markets Group Corporation and its Registered Financial Advisors to act in the best interests of its Advisors Clients. The Alternative Securities Markets Group Corporation's Companies may face liabilities for actual or alleged breaches of legal duties to our Advisors' Clients, in respect of issues related to the suitability of the financial products that the Alternative Securities Markets Group Corporation makes available to its Clients, or the investment advice of our Alternative Securities Markets Group Corporation's Registered Investment Advisors based on the Clients' objectives. In addition, the Alternative Securities Markets Group Corporation's Companies may also become subject to claims, allegations and legal proceedings that the Alternative Securities Markets Group Corporation or a wholly owned subsidiary of the Alternative Securities Markets Group Corporation, has infringed or misappropriated intellectual property or other proprietary rights of others. In addition, the Alternative Securities Markets Group Corporation, or a wholly owned subsidiary of the Alternative Securities Markets Group Corporation, may be subject to legal proceedings related to employment matters, including wage and hour, discrimination or harassment claims. The outcome of any such actions cannot be predicted, and a negative outcome in such a proceeding could result in substantial legal liability, loss of intellectual property rights and injunctive or other equitable relief against the Alternative Securities Markets Group Corporation or a wholly owned subsidiary of the Alternative Securities Markets Group Corporation. Further, such outcome may cause us significant reputational harm and could have a material adverse effect on the Company's business, results of operations, cash flows or financial condition.

***Alternative Securities Markets Group Corporation's Risk Management Policies and Procedures May Not be Fully Effective in Mitigating the Alternative Securities Markets Group Corporation's, or that of a wholly owned Subsidiary of the Alternative Securities Markets Group Corporation's, Risk Exposure in all Market Environments or Against all Types of Risks.***

The Alternative Securities Markets Group Corporation has adopted policies and procedures to identify, monitor and manage the operational risks of the Alternative Securities Markets Group Corporation, and that of its wholly owned subsidiaries. These policies and procedures, however, may not be fully effective. Some of the Alternative Securities Markets Group Corporation's risk evaluation methods depend upon information provided by others and public information regarding markets, clients or other matters that are otherwise accessible by the Alternative Securities Markets Group Corporation, and it's wholly owned subsidiaries. In some cases, however, that information may not be accurate, complete or up-to-date. Also, because the Alternative Securities Markets Group Corporation's Advisors may work in small, decentralized offices, additional risk management challenges may exist. If the Alternative Securities Markets Group Corporation's policies and procedures are not fully effective or the Alternative Securities Markets Group Corporation is not always successful in capturing all risks to which the Alternative Securities Markets Group Corporation, or a wholly owned subsidiary, the Alternative Securities Markets Group Corporation or its wholly owned subsidiary may suffer harm to its reputation or be subject to litigation or regulatory actions that could have a material adverse effect on its business and financial condition.

In attracting and retaining securities brokers, Alternative Securities Market, LLC may compete directly with a variety of financial institutions such as regional broker-dealers, banks, insurance companies and crowdfunding companies, as well as independent broker-dealers. If Alternative Securities Market, LLC is not successful in attracting or retaining highly qualified securities brokers, Alternative Securities Market, LLC may not be able to recover the expense involved in attracting and training these securities brokers. Significant downturns and volatility in equity and other financial markets could have an adverse effect on the Alternative Securities Market, LLC's financial condition and results of operations.

General economic and market factors can affect Alternative Securities Market, LLC's commission and fee revenue. For example, a decrease in market levels can:

- Reduce new investments by both new and existing clients in financial products that are linked to the Alternative Securities Market, or any regulated market or OTC market that the Alternative Securities Market, LLC has operations.
- Reduce trading activity, thereby affecting Alternative Securities Market, LLC's brokerage commissions
- Motivate clients to withdraw funds from Investments, or ceasing to make new investments, which reduces securities brokerage fees and commissions.

Regulatory Developments and the Alternative Securities Market, LLC's Failure to Comply with Regulations could Adversely Affect its Business by Increasing the Costs and Exposure to Litigation, Affecting its Reputation and making its Business Less Profitable

Alternative Securities Market, LLC's Broker-Dealer Business is subject to extensive U.S. Regulation and Supervision. The securities industry in the United States is subject to extensive regulation under both Federal and State Laws. The Alternative Securities Market, LLC is:

- Registered as a Broker-Dealer current in the State of California. The Firm plans to be registered as a Broker-Dealer in all 50 States, and the District of Columbia, Puerto Rico and the U.S. Virgin Islands in the next twelve months.
- A Member of Financial Industry Regulatory Authority, Inc. ("FINRA")
- The Exclusive Broker-Dealer for the Primary Market of the Alternative Securities Market, and a "Preferred" Broker-Dealer for the Alternative Securities Market's Secondary Market ("resale market").

Much of the regulation of Broker-Dealers has been delegated to Self-Regulatory Organizations ("SROs"), namely FINRA and the Municipal Securities Rulemaking Board ("MSRB"). The primary regulator for Alternative Securities Market, LLC is FINRA.

The United States Securities and Exchange Commission ("SEC"), FINRA and other U.S. Governmental or Regulatory Authorities continuously review legislative and regulatory initiatives and may adopt new or revised laws and regulations. There

can also be no assurance that other federal or state agencies will not attempt to further regulate Alternative Securities Market, LLC business. These legislative and regulatory initiatives may affect the way in which Alternative Securities Market, LLC conducts its business and may make its business model less profitable.

Alternative Securities Market, LLC's ability to conduct business in the jurisdictions in which it currently operates, and plans to operate in the future, depends on its compliance with the laws, rules and regulations promulgated by Federal Regulatory Bodies and the Regulatory Authorities in each of these jurisdictions. Alternative Securities Market, LLC's ability to comply with all applicable laws, rules, and regulations is largely dependent on its establishment and maintenance of compliance, audit and reporting systems and procedures, as well as its ability to attract and retain qualified compliance, audit and risk management personnel. While Alternative Securities Market has adopted policies and procedures pre-operations that are reasonably designed to comply with all applicable laws, rules and regulations, these systems and procedures may not be fully effective, and there can be no assurance that Regulators or third parties will not raise material issues with respect to Alternative Securities Market, LLC's, or Alternative Securities Market, LLC's Management's, past or future compliance with applicable regulations.

Alternative Securities Market, LLC's potential profitability could also be affected by rules and regulations that impact the business and financial communities generally and, in particular, our securities brokers' clients, including changes to the laws governing taxation, electronic commerce, privacy and data protection. Failure to comply with new rules and regulations, including, but not limited to, rules and regulations that may arise pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act that continue to be introduced, could subject Alternative Securities Market, LLC to regulatory actions or litigation, and it could have a material adverse effect on Alternative Securities Market, LLC business, results of operations, cash flows or financial condition.

As a Registered Broker-Dealer, Alternative Securities Market, LLC is subject to Rule 15c3-1 ("Uniform Net Capital Rule") under the Securities Act of 1934, as amended (the "Exchange Act"), and related Self Regulatory Organization requirements. The Uniform Net Capital specifies minimum capital requirements that are intended to ensure the general soundness and liquidity of Broker-Dealers. Alternative Securities Market, LLC's ability to withdraw capital may be restricted due to "Net Capital Requirements", which in turn could limit Alternative Securities Market, LLC's ability to repay debt or redeem investment certificates. A large operating loss or charge against Net Capital could adversely affect Alternative Securities Market, LLC's ability to expand or even maintain its present levels of business.

***Alternative Securities Market, LLC Operates in an Intensely Competitive Industry, which could cause it to Lose Securities Brokers and their Assets, thereby Reducing its Revenues and Net Income***

Alternative Securities Market, LLC is subject to competition in all aspects of its business, including competition for securities brokers and their clients, from:

Many of Alternative Securities Market, LLC's competitors have substantially greater resources than that of Alternative Securities Market, LLC, and may offer a broader range of services, including financial products, across more markets. Some operate in a different regulatory environment than that of Alternative Securities Market, LLC, which may give them certain competitive advantages in the services they offer. If Alternative Securities Market, LLC fails to attract highly qualified securities brokers, or securities brokers leave Alternative Securities Market, LLC to pursue other opportunities, Alternative Securities Market, LLC could face significant decline in market share, commission and fee revenues and net income. If Alternative Securities Market, LLC is required to increase its anticipate payout of commissions and fees to its securities brokers in order to remain competitive, Alternative Securities Market, LLC's net income could be significantly reduced.

***Alternative Securities Market Networks May be Vulnerable to Security Risks***

The secure transmission of confidential information over public networks is a critical element for Alternative Securities Market operations. As part of Alternative Securities Market’s normal operations, the Alternative Securities Market maintains and transmits confidential information about clients of our advisors and brokers, as well as proprietary information relating to Alternative Securities Market Operations. The failure of advisors and brokers to comply with such policies and procedures could result in the loss or wrongful use of their clients’ confidential information or other sensitive information. - Require significant capital and operating expenditures to investigate and remediate the breach.

***Failure to Maintain Technological Capabilities, Flaws in Existing Technology, Difficulties in Upgrading the Alternative Securities Market Technology Platform or the Introduction of a Competitive Platform could have a Material Adverse Effect on the Alternative Securities Market's Business***

The Alternative Securities Market depends on highly specialized and, in many cases, proprietary technology to support its business functions, including among others:

- Securities Trading and Custody;
- Investor Account Management;
- Issuer Securities Portfolio Management;
- Customer Service;
- Accounting and Internal Financial Processes and Controls; and
- Regulatory Compliance and Reporting

In addition, the Alternative Securities Market's success depends on its ability to effectively adopt new or adapt existing technologies to meet client, industry and regulatory demands of an operating stock exchange. The Alternative Securities Market might be required to make significant capital expenditures to maintain competitive technology. The emergence of new industry standards and practices could render the then Alternative Securities Market systems obsolete or uncompetitive. Any upgrades or expansions may require significant expenditures of funds and may also cause the Alternative Securities Market to suffer systems degradations, outages and failures. There cannot be any assurance that the Alternative Securities Market will have sufficient funds to adequately update and expand its networks, nor can there be any assurance that any upgrade or expansion attempts will be successful and accepted by new, or current, brokers and advisors. If the Alternative Securities Market's technology systems were to fail and the Alternative Securities Market was unable to recover in a timely way, the Alternative Securities Market would be unable to fulfill critical business functions, which could lead to a loss of advisors and brokers, and could harm the Alternative Securities Market's reputation. A technological breakdown could also interfere with the Alternative Securities Market's ability to comply with financial reporting and other regulatory requirements, exposing the Alternative Securities Market to disciplinary action and to liability to our advisors, brokers, and their clients. There cannot be any assurance that another company will not design a similar platform that affects the Alternative Securities Market's competitive advantage.

**RISKS ASSOCIATED WITH INVESTMENT RELATIONSHIP WITH THE ALTERNATIVE SECURITIES  
MARKETS GROUP – “ALTERNATIVE SECURITIES MARKETS GROUPS  
“MARKET SEGMENT AND MARKET SEGMENT FUNDS”**

***The Alternative Securities Markets Group Corporation’s “Alternative Securities Market’s Market Segment Funds” Business Model Depends upon the Development and Maintenance of Strong Referral Relationships with Investment Banking Firms, Professional Services Firms and Private Equity and Venture Capital Firms***

If the Alternative Securities Markets Group’s Market Segments or Market Segment Funds fail to maintain relationships with key firms, or if the Alternative Securities Markets Group’s Market Segments or Market Segment Funds fail to establish strong referral relationships with other firms or other sources of investment opportunities, the Alternative Securities Markets Group’s Market Segments or Market Segment Funds will not be able to grow their portfolios and achieve their investment objectives, affecting the ability of the Alternative Securities Markets Group’s Market Segment Funds to pay the agreed interest or dividend in the time frame agreed, if at all. In addition, persons with whom the Alternative Securities Markets Group’s Market Segments or Market Segment Funds has informal relationships are not obligated to inform the Alternative Securities Markets Group’s Market Segments or Market Segment Funds of investment opportunities and therefore such relationships may not lead to the origination of Alternative Securities Markets Group’s Market Segments or Market Segment Funds portfolio investments.

***The Alternative Securities Markets Group Corporation’s Market Segment Funds May Not Realize Any Income or Gains from their Equity Investments, and May Not be able to Pay the Investors its Agreed Return or Dividend On-time, if At All***

The Alternative Securities Markets Group Corporation’s Market Segment Funds each intend to invest a substantial portion of each of their portfolio in equity securities, including common stock, convertible preferred securities and debt securities convertible into debt and equity securities of its “Market Segment” portfolio of companies. The Alternative Securities Markets Group Corporation’s Market Segment Funds may each receive warrants as part of any debt or equity investments. These equity interests each of the Alternative Securities Markets Group Corporation’s Market Segment Funds acquire may not appreciate in value and, in fact, may decline in value if the portfolio company fails to perform financially or achieve its growth objectives. Each of the Alternative Securities Markets Group Corporation’s Market Segment Funds will generally have little, if any, control over the timing of any gains it may realize from its equity investments since the securities of each of the Alternative Securities Markets Group Corporation’s Market Segment Funds portfolio companies may have restrictions on their transfer or may not have an active trading market.

Equity Investments also have experienced significantly more volatility in their returns and may underperform relative to fixed-income securities during certain periods. An adverse event, such as an unfavorable earnings report, may depress the value. Also, prices of equity investments are sensitive to general movements in the stock market and a drop in the stock market may depress the price of common stock investments to which each of the Alternative Securities Markets Group Corporation’s Market Segment Funds have exposure. Equity prices fluctuate for several reasons including changes in the investors’ perceptions of the financial condition of an issuer or the general condition of the relevant stock market, or when political or economic events affecting the issuers occur. In addition, common stock prices may be particularly sensitive to rising interest rates, as the cost of capital rises and borrowing costs increase.

Since each of the Alternative Securities Markets Group Corporation’s Market Segment Funds each intend to invest principally in equity securities, including common stock, convertible preferred securities and debt securities convertible into equity securities, of primarily micro-cap companies, each of the Alternative Securities Markets Group Corporation’s Market Segment Funds primary emphasis will be to generate capital gains through each of their equity investments in portfolio companies. Accordingly, ***although each of the Alternative Securities Markets Group Corporation’s Market Segment Funds expect to receive current income in the form of interest payments on its convertible debt investments and dividend payments on its convertible preferred equity investments, a substantial portion of each of the Alternative Securities Markets Group Corporation’s Market Segment Funds income will likely be from the capital gains generated from the sale of its equity investments, the timing of which the Alternative Securities Markets Group Corporation’s Market Segment Funds Managers cannot predict.*** Each of the Alternative Securities Markets Group Corporation’s Market Segment Funds do not expect to generate capital gains from the sale of its portfolio investments on a level or uniform basis from quarter to quarter.

While each of the Alternative Securities Markets Group Corporation’s Market Segment Funds investments will typically be made in private companies, each of the Alternative Securities Markets Group Corporation’s Market Segment Funds expects that these companies will become public reporting companies with their common stock being typically initially quoted on the OTC Market (“Over-the-Counter” Market). Each of the Alternative Securities Markets Group Corporation’s Market Segment Funds do not expect the preferred equity of its portfolio companies to be listed or quoted on an exchange or quotation system. Each of the Alternative Securities Markets Group Corporation’s Market Segment Funds also do not expect the common stock in its publicly traded portfolio companies to initially have a large number of freely tradable shares available for sale or an active secondary trading market and, as such, the common stock will be illiquid until an active market develops. Each of the Alternative Securities

Markets Group Corporation's Market Segment Funds believes that typically this liquidity will develop in conjunction with a NASDAQ Capital Market listing which may not occur until twelve to eighteen months after follow-on investments are made, if at all. Each of the Alternative Securities Markets Group Corporation's Market Segment Funds convertible preferred stock instruments will generally provide for conversion upon the portfolio companies' achievement of certain milestone events, including a NASDAQ Capital Market listing for their common stock. However, there can be no assurance that any of the Alternative Securities Markets Group Corporation's Market Segment Funds portfolio companies will obtain either an OTC Market or NASDAQ Capital Market listing or, even if a listing is obtained, that an active trading market will ever develop in the common stock of the Alternative Securities Markets Group Corporation's Market Segment Fund's publicly traded portfolio companies.

Accordingly, each of the Alternative Securities Markets Group Corporation's Market Segment Funds may not be able to realize gains from its equity interests, and any gains that a Alternative Securities Markets Group Corporation's Market Segment Fund does realize on the disposition of any equity interests may not be sufficient to offset any other losses that any Alternative Securities Markets Group Corporation's Market Segment Fund experiences. Furthermore, due to the expected growth of each of the Alternative Securities Markets Group Corporation's Market Segment Funds portfolio companies, each of the Alternative Securities Markets Group Corporation's Market Segment Funds do not generally expect to receive dividend income from its common stock investments. In the case of cumulative preferred stock, there is no assurance that any dividends will ever be paid by a portfolio company.

***Each of the Alternative Securities Markets Group Corporation's Market Segment Funds expects to Concentrate its holdings in Micro-Cap Companies, which are Subject to Many Risks, including Periodic Downturns***

Each of the Alternative Securities Markets Group Corporation's Market Segment Funds expects to concentrate its holdings in what the Alternative Securities Markets Group Corporation's Market Segment Fund believes are "public ready" micro-cap companies. Under negative economic conditions, this could cause an Alternative Securities Markets Group Corporation's Market Segment Fund's investment performance to be worse than business development companies with no such concentration. Each of the Alternative Securities Markets Group Corporation's Market Segment Funds may avoid acquiring certain securities in certain micro-cap companies when it is otherwise advantageous to purchase those securities or may sell certain securities of micro-cap companies when it is otherwise advantageous to hold those securities. In general, each of the Alternative Securities Markets Group Corporation's Market Segment Funds focus on micro-cap companies may affect its exposure to certain market segments, which may affect the Alternative Securities Markets Group Corporation's Market Segment Fund financial performance — positively or negatively — and further affecting the Alternative Securities Markets Group Corporation's Market Segment Fund's ability to make dividend or promised returns to Investors, on-time, or if at all - depending on whether these segments are in or out of favor.

The revenues, income (or losses) and valuations of micro-cap companies, can and often do fluctuate suddenly and dramatically. There is no assurance that decreases in market capitalizations will not occur, or that any decreases in valuations will be insubstantial or temporary in nature. Also, each of the Alternative Securities Markets Group Corporation's Market Segment Funds portfolio companies may face considerably more risk of loss and may not have the same returns as companies in other industry sectors due to their growth nature.

Even if Alternative Securities Markets Group Corporation's Market Segment Funds portfolio companies are successful in becoming publicly-traded companies, there is no assurance that they will be able to achieve their projected revenue and earnings targets or effectively maintain their status as public reporting companies. In such case, there may be little or no demand for the securities of an Alternative Securities Markets Group Corporation's Market Segment Funds portfolio company(s) in the public markets, the Alternative Securities Markets Group Corporation's Market Segment Fund may have difficulty disposing of its investments, and the value of the Alternative Securities Markets Group Corporation's Market Segment Fund investments may decline substantially, each of which could affect the Alternative Securities Markets Group Corporation's Market Segment Fund's ability to pay agreed upon returns or dividends to Investors, on-time, if at all.

***The Value of the Alternative Securities Markets Group Corporation's Market Segment Funds Portfolios of Securities May Not have a Readily Available Market Price and, in such case, each of the Alternative Securities Markets Group Corporation's Market Segment Funds will Value these Securities at Fair Value as Determined in Good Faith by each of the Alternative Securities Markets Group Corporation's Market Segment Funds Managing Member, which Valuation is Inherently Subjective and May Not Reflect what the Company may Actually Realize for the Sale of the Investment***

The value of each of the Alternative Securities Markets Group Corporation's Market Segment Fund portfolio of securities may not have readily available market prices. In such case, the Alternative Securities Markets Group Corporation's Market Segment Fund will value these securities at fair value as determined in good faith by the Alternative Securities Markets Group Corporation's Market Segment Fund's Managing Member, based upon the recommendation of the Alternative Securities Markets

Group Corporation's Market Segment Fund's Valuation Committee. In connection with that determination, investment professionals from the Alternative Securities Markets Group Corporation and Alternative Securities Market, LLC will prepare portfolio company valuations using the most recent portfolio company financial statements and forecasts. The Alternative Securities Markets Group Corporation's Market Segment Fund's Managing Member will also utilize the services of a third-party valuation firm, which will prepare valuations for each of the Alternative Securities Markets Group Corporation's Market Segment Fund's portfolio investments for which no market quotations are readily available.

***Even if the Equity Securities of any of the Alternative Securities Markets Group Corporation's Market Segment Funds Public Portfolio Companies may be Sold in the Public Markets, each of the Alternative Securities Markets Group Corporation's Market Segment Funds expects these Securities will Initially be Thinly Traded and, as a Result, the Lack of Liquidity in the Alternative Securities Markets Group Corporation's Market Segment Fund's Holdings may Adversely Affect the Alternative Securities Markets Group Corporation's Market Segment Fund's Business, and will Delay Distributions of Gains, if any***

While each of the Alternative Securities Markets Group Corporation's Market Segment Funds holdings will typically be in private companies, each of the Alternative Securities Markets Group Corporation's Market Segment Funds expect that, as part of each of the Alternative Securities Markets Group Corporation's Market Segment Fund's investment process, these companies will become public reporting companies with their common stock typically being initially quoted on the OTC Market (OTCQB or OTCQX). Each of the Alternative Securities Markets Group Corporation's Market Segment Funds do not expect the preferred equity of its portfolio companies to be listed or quoted on an exchange or quotation system. Each of the Alternative Securities Markets Group Corporation's Market Segment Funds do not expect the common stock in its public portfolio companies to initially have an active secondary trading market and, as such, these securities will be illiquid until an active market develops. Each of the Alternative Securities Markets Group Corporation's Market Segment Funds believe that typically this liquidity will develop in conjunction with a NASDAQ Capital Market listing, which each of the Alternative Securities Markets Group Corporation's Market Segment Funds do not expect to occur until eighteen to twenty-four months after the initial investment and listing on the Alternative Securities Market ([www.AlternativeSecuritiesMarket.com](http://www.AlternativeSecuritiesMarket.com)) is completed, if at all. Each of the Alternative Securities Markets Group Corporation's Market Segment Funds convertible preferred stock instruments will generally provide for conversion upon the portfolio companies' achievement of certain milestone events, including a NASDAQ Capital Market listing for their common stock. However, there can be no assurance that any of the Alternative Securities Markets Group Corporation's Market Segment Funds portfolio companies will obtain either an OTC Market or NASDAQ Capital Market listing or, even if a listing is obtained, that an active trading market will ever develop in the securities of any of the Alternative Securities Markets Group Corporation's Market Segment Funds publicly traded portfolio companies.

Each of the Alternative Securities Markets Group Corporation's Market Segment Funds expects substantially all of the common stock the Company acquires in a portfolio company will be "restricted securities" within the meaning of Rule 144 under the Securities Act ("Rule 144"). As restricted securities, these shares may be resold only pursuant to an effective registration statement under the Securities Act or pursuant to the requirements of Rule 144 or other applicable exemption from registration under the Securities Act, and in accordance with any applicable state securities laws. Typically, an Alternative Securities Markets Group Corporation's Market Segment Fund will seek to obtain registration rights in connection with its acquisition of equity securities in a portfolio company. As such, the portfolio company will generally be required to file a resale registration statement under the Securities Act to register for resale the shares of common stock the Alternative Securities Markets Group Corporation's Market Segment Fund has acquired. Notwithstanding such registration rights, the Alternative Securities Markets Group Corporation's Market Segment Fund will be largely unable to control the timing of completion of any such registration process given external factors beyond the Alternative Securities Markets Group Corporation's Market Segment Fund's control. Even if a resale registration statement is declared effective, there can be no assurances that the occurrence of subsequent events may not preclude a portfolio company's ability to maintain the effectiveness of such registration statement. Any of the foregoing items could have adverse effects on the liquidity of an Alternative Securities Markets Group Corporation's Market Segment Fund's shares of common stock.

In addition, the SEC has developed guidelines concerning the use of a resale registration statement to register the securities issued to certain investors in PIPE transactions, where the issuer has a market capitalization of less than \$75 million and, in general, does not qualify to file a registration statement on Form S-3 to register its securities. The SEC has indicated its position that these smaller issuers may not be able to rely on Rule 415 under the Securities Act ("Rule 415"), which generally permits the offer and sale of securities by selling shareholders on a continued or delayed basis over a period of time, but instead would require that the issuer offer and sell such securities in a direct or "primary" public offering, at a fixed price, if the facts and circumstances are such that the SEC believes the investors seeking to have their shares registered are underwriters and/or affiliates of the issuer. Each of the Alternative Securities Markets Group Corporation's Market Segment Funds believe that the SEC in most cases would permit a registration for resale of up to one third of the total number of shares of common stock then currently owned by persons who are not affiliates of such issuer and, in some cases, a larger percentage depending on the facts and circumstances.

SEC staff members also have indicated that an issuer in most cases will have to wait until the later of six months after effectiveness of the first registration or such time as substantially all securities registered in the first registration are sold before filing a subsequent registration on behalf of the same investors. Since each of the Alternative Securities Markets Group Corporation's Market Segment Funds portfolio companies will have little or no tradable shares of common stock, it is unclear as to how many, if any shares of common stock the SEC will permit the Alternative Securities Markets Group Corporation's Market Segment Fund's portfolio companies to register for resale. The SEC may require as a condition to the declaration of effectiveness of a resale registration statement that the Alternative Securities Markets Group Corporation's Market Segment Fund reduce or "cut back" the number of shares of common stock to be registered in such registration statement. The result of the foregoing is that the liquidity in the common stock of the Alternative Securities Markets Group Corporation's Market Segment Fund's portfolio companies may be adversely affected in the event the SEC requires a cut back of the securities as a condition to allow the Alternative Securities Markets Group Corporation's Market Segment Fund's portfolio company to rely on Rule 415 with respect to a resale registration statement, or, if the SEC requires the Alternative Securities Markets Group Corporation's Market Segment Fund's portfolio company to file a primary registration statement.

In the event that an Alternative Securities Markets Group Corporation's Market Segment Fund's portfolio companies are unable to register their common stock for resale under the Securities Act, the Alternative Securities Markets Group Corporation's Market Segment Fund may be able to resell its common stock investments pursuant to an exemption from the registration requirements under the Securities Act if the Alternative Securities Markets Group Corporation's Market Segment Fund meets the conditions of Rule 144. Rule 144 currently provides that a non-affiliated person (and who has not been an affiliate during the prior three months) may sell all of his/her/its restricted securities in a reporting company beginning six months after purchase, provided the issuer remains current in its reporting obligations during the next six months. However, an affiliated person may sell his/her/its restricted securities beginning six months after purchase, provided the following conditions are met: (i) the issuer is current in its reporting obligations, (ii) all sales are in brokerage transactions, (iii) a Form 144 is filed, and (iv) during every three months the number of shares sold that does not exceed 1.0% of a company's outstanding common stock.

In some cases, the Alternative Securities Markets Group Corporation's Market Segment Fund may be deemed an affiliate of its portfolio companies based on the Alternative Securities Markets Group Corporation's Market Segment Fund's level of stock ownership or the Alternative Securities Markets Group Corporation's Market Segment Fund's ability to influence control over its portfolio company. As such, in the absence of an effective registration statement for the Alternative Securities Markets Group Corporation's Market Segment Fund's shares, the Alternative Securities Markets Group Corporation's Market Segment Fund may be limited in the number of shares it may be able to sell in any three months period under Rule 144. This illiquidity may make it difficult for the Alternative Securities Markets Group Corporation's Market Segment Funds to sell such investments if the need arises. Also, if the Alternative Securities Markets Group Corporation's Market Segment Fund is required to liquidate all or a portion of its portfolio quickly, the Alternative Securities Markets Group Corporation's Market Segment Fund may realize significantly less than the value at which it has previously recorded its investments and/or holdings, which may cause the Alternative Securities Markets Group Corporation's Market Segment Funds to be unable to make interest or dividend payments to the Investor(s) in the agreed to timeline, if even at all.

Compliance with the criteria for securing exemptions under federal securities laws and the securities laws of the various states is extremely complex, especially in respect of those exemptions affording flexibility and the elimination of trading restrictions in respect of securities received by the Alternative Securities Markets Group Corporation's Market Segment Funds in exempt transactions and subsequently disposed of without registration under the Securities Act or state securities laws.

A sale under Rule 144 or under any other exemption from the Securities Act, if available, or pursuant to a registration statement, may have a depressive effect upon the price of the common stock of the Alternative Securities Markets Group Corporation's Market Segment Funds portfolio companies in any market that may develop.

***Because each of the Alternative Securities Markets Group Corporation's Market Segment Funds likely will Not Hold Controlling Equity Interests in its Portfolio Companies, the Alternative Securities Markets Group Corporation's Market Segment Funds may not be in a Position to Exercise Control Over Such Portfolio Companies or to Prevent Decisions by Management of such Portfolio Companies that Could Decrease the Value of the Alternative Securities Markets Group Corporation's Market Segment Fund's Holdings in the Portfolio Company***

Each of the Alternative Securities Markets Group Corporation's Market Segment Fund's equity holdings will typically be non-controlling, meaning the Alternative Securities Markets Group Corporation's Market Segment Fund will not be in a position to control the management, operation and strategic decision-making of the companies the Alternative Securities Markets Group Corporation's Market Segment Fund has holdings in. As a result, each of the Alternative Securities Markets Group Corporation's Market Segment Funds will be subject to the risk that a portfolio company it does not control, or in which the Alternative Securities Markets Group Corporation's Market Segment Fund does not have a majority ownership position, may make business decisions with which the Alternative Securities Markets Group Corporation's Market Segment Fund disagrees, and the

stockholders and management of such a portfolio company may take risks or otherwise act in ways that are adverse to the Alternative Securities Markets Group Corporation's Market Segment Fund's interests. Due to the lack of liquidity for the debt and equity holdings that each of the Alternative Securities Markets Group Corporation's Market Segment Funds will typically hold in its portfolio companies, the Alternative Securities Markets Group Corporation's Market Segment Fund may not be able to dispose of its holdings in the event that the Alternative Securities Markets Group Corporation's Market Segment Fund disagrees with the actions of a portfolio company, and may therefore suffer a decrease in the value of the Alternative Securities Markets Group Corporation's Market Segment Fund's holdings.

In addition to the risk profile, clients may also be provided an investment policy statement which further confirms the agreed upon allocation and

outlines the roles each party will play. The Firm at this time will not be establishing any types of discretionary or non-discretionary accounts for any clients, though the Company is currently in the process of establishing an operating procedure for the inclusion of both non-discretionary and discretionary Investor Accounts. **Business Strategy:**

*Increase the Number of Registered Financial Advisors:* The Alternative Securities Markets Group Corporation intends to expand its distribution network by recruiting high quality candidates to be Financial Advisors. The Alternative Securities Markets Group Corporation's current objectives is to have an initial 20-30 "Core" Registered Investment Advisors in place by the end of 2015, and steadily increase this number by a minimum 100% per year, with previous Registered Investment Advisors from previous hiring rounds becoming Trainers, Team Leaders, Managers, Sales Managers, Portfolio Managers, Vice Presidents and Presidents.

*Bridge Income Program:* The "Alternative Securities Markets Group Corporation Bridge Income Program", is a program that will provide newly recruited Alternative Securities Markets Group Corporation's Registered Investment Advisors with a source of earnings until they can develop the skills and client base necessary to earn a stable income from asset management fees. The Company believes this program, which is currently estimated to provide between \$2,500 and \$4,000 per month for up to six month to twelve months, will be critical in increasing the number of new "quality" Registered Financial Advisors, improving retention, and increasing average first-year sales production.

*Expand Geographic Scope:* The Alternative Securities Markets Group Corporation intends to pursue geographic expansion of its sales force. In larger communities, the Alternative Securities Markets Group Corporation intends to begin establishing new division offices within 18-24 months, that will accommodate up to 20 financial advisors, and in smaller communities or suburban areas the Alternative Securities Markets Group Corporation intends to open offices with facilities to accommodate a smaller group of Registered Financial Advisors.

*Enhanced Marketing and Financial Planning Tools:* The Alternative Securities Markets Group Corporation has plans to implement a "continually improving financial planning package", that will consist of Registered Investment Advisors who "specialize" in a certain financial services product, and educates the Company as a whole about those products and services, as well as continually adding to the Alternative Securities Markets Group Corporations financial products and services. Currently, plans to include new savings programs, retirement income programs, estate planning services, life insurance products and other personal financial planning products and services are in the works and plan to be implemented and made available to Alternative Securities Markets Group Corporation's Registered Investment Advisors within the next calendar year.

*Pursue Strategic Acquisitions and Alliances to Expand Product Offerings and Distribution:* The Alternative Securities Markets Group Corporation intends to selectively pursue acquisition and alliances that will add new products or alternative distribution systems. The Alternative Securities Markets Group Corporation believes that it will be better positioned to pursue acquisitions as the only Registered Investment Advisory, Broker Dealer with an SEC Registered Stock Exchange (either as a Nationally Registered Stock Exchange or as a Stock Exchange exempt from registration due to a trade volume exemption). Currently the Alternative Securities Markets Group Corporation intends to distribute its investment products only through its virtually exclusive Registered Financial Advisor sales force. In the future, the Alternative Securities Markets Group Corporation may choose to acquire another Registered Investment Advisory firm to increase its assets, customer base and product distribution possibilities.

**Marketing:**

The Alternative Securities Markets Group Corporation is the exclusive distributor of the Alternative Securities Markets Group Corporation's Market Segment Funds (*discussed later in this prospectus*) and the "Alternative Securities Markets Group Fixed Income Mortgage Funds", which are all wholly owned subsidiaries of the Alternative Securities Markets Group Corporation.

***About the Alternative Securities Markets Group Fixed Income Mortgage Funds:***

The Alternative Securities Markets Group Fixed Income Funds focus on acquiring, renovating, leasing and operating residential single-family homes, residential multi-family homes, multi-family apartment homes and small commercial properties. The Alternative Securities Markets Group Corporation intends to become a leader in the small residential and small commercial rental industry by aggregating a geographically diversified portfolio of high quality small residential and small commercial properties, and developing "ASMG Real Estate Management" into a nationally recognized brand that is well-known for quality, value and tenant satisfaction, and is well respected in each community the Company occupies. The objective is to generate attractive, risk-generated returns for each of the Alternative Securities Market Fixed Income Mortgage Funds through long-term lease income and asset appreciation.

Alternative Securities Markets Group Fixed Income Funds intend to use the majority of the net proceeds of each offering, and concurrent private placements, to acquire and renovate small residential and small commercial properties, and to repay any indebtedness that the Alternative Securities Markets Group Fixed Income Fund expects to incur in the future. In addition to single-family and multi-family properties, the Alternative Securities Markets Group Fixed Income Funds also may seek to invest in condominium units, townhouses and real estate-related debt investments, including the acquisition of "performing" and "non-performing" real estate debt notes. Alternative Securities Markets Group Fixed Income Fund investments may be made directly or through investment vehicles with third-party investors. In addition to individual property purchases, the Alternative Securities Markets Group Fixed Income Funds may pursue bulk acquisitions from financial institutions, government agencies and competitors.

**Residential Real Estate Operations:**

Residential housing is the largest real estate asset class in the United States with a size of approximately \$25 Trillion U.S. Dollars, according to Zillow (<http://www.zillow.com/blog/value-us-homes-to-top-25-trillion-141142/>). Historically, according to the U.S. Census Bureau, approximately one-third of this asset class has been rented and single-family homes currently comprise roughly one-third of all residential rental housing. While a large and growing asset class, single-family rental properties have historically been managed by relatively small-scale, "mom and pop" owner-operators or by a limited number of local and regional property management organizations. More recently, the ownership profile of single-family rental properties has shifted to larger investors and national owner-operators, seeking to efficiently acquire larger numbers of homes at distressed values, generate attractive rental cash flow streams and benefit from any potential home price appreciation.

While many investment firms chose to enter the Real Estate Investment Market during the recession, the Alternative Securities Markets Group Corporation chose to wait until a market recovery was upon us. The Overall cumulative value of all homes in the United States at the end of 2013 was approximately \$25.7 Trillion, which is up almost \$1.9 Trillion, or 7.9 percent from the end of 2012. Gains were calculated by measuring the difference between cumulative home values as of the end of 2012 and anticipated home values at the end of 2013.

This gain in cumulative home value was the second annual gain in a row, after home values fell every year from 2007 through 2011. Between 2007 and 2011, the total value of the U.S. housing stock fell by \$6.3 Trillion. Over the years of 2012 and 2013, U.S. Homes gained back approximately \$2.8 Trillion, or about 44 percent of the total value lost during the recession.

In 2013, the housing market continued to build on the positive momentum that began in 2012. Low mortgage rates and an "improving economy" have helped bring both buyers in to the market, but lenders with extremely tight credit guidelines, are not lending mortgage loans to "qualified buyers" like they have in the past, leaving a "saturated qualified renter market" not seen in years in the United States ready to rent homes from investors.

### Residential Real Estate Growth Strategies:

Our primary objective is to generate attractive risk-adjusted returns for the Company and we believe this objective can be achieved by following the below strategies:

- **Secure early-mover advantage and position as a dominant owner / operator of residential properties:** Until recently, the residential acquisition and rental market has been extremely fragmented, comprised primarily of private and individual property developers and investors in local markets. Until recently, there have been no large-scale, national market owners / operators in the “acquisition, renovation and rental market” due primarily to the challenge of efficiently scaling acquisition, renovation management and lease management of many individual homes, let alone homes that require remodel or renovation. With an unprecedented opportunity to acquire single-family homes at attractive prices, with a over saturated marketplace of qualified renters that do not qualify to purchase a home due to strict mortgage loan restrictions, we intend to leverage our expertise and experience in rapidly building an institutional-quality, professionally managed business.
- **Employ a robust and disciplined property acquisition process.** The Alternative Securities Markets Group Corporation has established the “ASMG Acquisition and Renovation Platform” to acquire high quality residential properties. The ASMG Acquisition and Renovation Platform is designed for in-house full-time personnel to be dedicated to identifying, evaluating, inspecting and acquiring homes throughout the United States. The Alternative Securities Markets Group Fixed Income Funds will primarily acquire properties at foreclosure auctions, through broker sales (primarily multiple listing service, or MLS, and short sales) and through estate sales. The Company may source property acquisition opportunities through portfolio (or bulk) sales from government agencies, financial institutions and competitors.
- **Assemble a geographically diversified portfolio:** The Alternative Securities Markets Group Fixed Income Funds will be focusing on acquiring residential properties in selected submarkets, with an emphasis of acquisition of an undervalued property in need of repairs, with an emphasis on achieving critical mass within each target market selected. The Alternative Securities Markets Group Corporation will continually evaluate potential new markets where the Alternative Securities Markets Group Fixed Income Funds may make investments and establish operations as opportunities emerge. The Alternative Securities Markets Group Corporation will select markets based on steady population growth, strong rental demand and a high level of distressed sales of homes that can be acquired below replacement cost, providing for attractive potential yields and capital appreciation.
- **Efficiently manage and operate properties:** Building on the experience of the executive team, The Alternative Securities Markets Group Corporation will utilize a management style that is based off case study of the “self-storage industry”. The Alternative Securities Markets Group Corporation believes the key to efficiently managing a large number of relatively low-cost properties is to strike the appropriate balance between “centralization” and “decentralization”. The Alternative Securities Markets Group Corporation will utilize in-house property management as much as possible for Alternative Securities Markets Group Fixed Income Mortgage Fund properties in as many markets as the Alternative Securities Markets Group Corporation believes it is economical to do so.
- **Establish a nationally recognized brand of quality residential rental properties:** The Alternative Securities Markets Group Corporation will strive to establish “ASMG Real Estate Management” as a nationally recognized brand because the Alternative Securities Markets Group Corporation believes that establishing a brand well-known for quality, value and tenant satisfaction will help attract and retain tenants and qualified personnel, as well as support higher rental rates.

### Small Commercial Real Estate Operations:

Alternative Securities Markets Group Fixed Income Funds intend to acquire Class C small commercial real estate assets in key emerging submarkets throughout the United States, primarily in locations the Alternative Securities Markets Group Corporation believes that the target real estate asset has strategic advantages compared to neighboring submarkets. The Alternative Securities Markets Group Fixed Income Mortgage Fund(s) will then renovate or develop each class C real estate asset to a Class A or Class B small commercial real estate asset, and stabilize each asset with long-term leases and provide management for each asset.

The Alternative Securities Markets Group Corporation’s primary goal for its Commercial Real Estate operation is to deliver a steady stream of high quality, adaptable and productive small commercial work environments for the wide range of industries attracted to the vibrant economic centers throughout the United States.

The Alternative Securities Markets Group Corporation's plan to increase our asset base annually via acquisition, purchasing a variety of Class C small commercial properties that meet our "post redevelopment" standards for quality, location, amenities and the potential for increased long-term lease and appreciation, all near what we consider to be "cyclically low prices".

When market conditions support it, the Alternative Securities Markets Group Fixed Income Mortgage Funds will look toward new development, where the Alternative Securities Markets Group Corporation will control the location, design and amenities of the properties the Alternative Securities Markets Group Fixed Income Fund adds to the portfolio. Such control can often produce a more appealing and functional property for tenants and a better outcome for our revenues and growth.

The Alternative Securities Markets Group Corporation will maintain an active, multi-year development program, focusing on economically dynamic locations where anticipated long-term demand is strong, supply is habitually limited and barriers to entry are formidable. Typically this will mean the top coastal submarkets that offer both a vibrant economic backdrop for businesses and a unique quality of life for their employees.

#### **Commercial Real Estate Operations Growth Strategy:**

The Alternative Securities Markets Group Fixed Income Mortgage Funds objectives are to maximize cash flow through long-term leases and achieve value added growth through opportunistic acquisitions, development and appreciation. The Alternative Securities Markets Group Corporation believes that opportunities exist to increase cash flow and overall value by: (i) acquiring Class C small commercial properties with the potential for re-development to a Class A or Class B small commercial property, where attractive income and value returns are achievable, all in strategic suburban submarkets where such properties complement the Alternative Securities Markets Group Fixed Income Mortgage Fund portfolio; (ii) from contractual increases in base rents from acquired properties; and (iii) by developing properties for the benefit of the Alternative Securities Markets Group Fixed Income Mortgage Fund(s) where such development will result in a favorable risk-adjusted return on investment.

The Alternative Securities Markets Group Corporation believes that a number of factors will enable it to achieve its commercial real estate business objectives, including (i) the opportunity to lease small commercial real estate at attractive rates due to an increased demand and the present lack of new construction for small commercial real estate in most submarkets throughout the United States; (ii) the presence of distressed sellers and inadvertent owners (through foreclosure or otherwise) of small commercial properties; (iii) quality and location of the properties; and (iv) the limited availability to competitors of capital for financing development, acquisitions or capital improvements. Management believes that the Alternative Securities Markets Group Fixed Income Mortgage Funds will be well positioned to exploit existing opportunities because of its extensive experience, and the Alternative Securities Markets Group Corporation's seasoned management team.

**Acquisition Strategies:** The Alternative Securities Markets Group Fixed Income Mortgage Funds will seek to increase each of their cash flows and shareholder value by acquiring Class C small commercial real estate properties for development or redevelopment, that: (i) have the potential to provide attractive yields with significant potential for growth in cash flow from property operations and value growth through appreciation, (ii) are strategically located, in high quality and have the ability to be competitive in their respective submarkets; (iii) are located in submarkets where the demand for Class A and Class B small commercial real estate space exceeds available supply; or (iv) are existing Class A or Class B small commercial real estate properties that have been under-managed or are otherwise capable of improved performance through intensive management and leasing that will result in increased occupancy and rental revenues.

#### **Commercial Real Estate Classes:**

Class A: The highest-quality on the market is considered Class A. These spaces are generally newly constructed or renovated, and have been outfitted with "top-of-the-line" fixtures, amenities and systems. Class A buildings are usually aesthetically pleasing, as they reside in high-visibility locations, such as a metropolitan's central business district. These spaces are normally maintained by reputable property management companies that keep them looking impeccable.

Height is another common characteristic of Class A buildings. Many high-rises are considered Class A buildings, and the offices inside these structures tend to have higher ceilings as well. A large central lobby is also typical in such superior spaces.

Class A rates are typically higher than the city's average rent, and tenants' concessions are rare. This is because premier Class A space is competitively sought-after by some of the most well-known and largest firms in the country. These spaces are popular among banking, real estate and law firms.

Class B: The "average office space". These buildings don't usually contain the same high-quality fixtures, architecture and lobbies as Class A space, but they are generally nice buildings with fully functional facilities.

Their locations, building systems and property managers are described as average to above average. Therefore, Class B space tends to command average market rent. The majority of Class B buildings are less than four stories tall, and are often found in the suburbs of on the outskirts of large financial districts.

Another consideration that separates Class A and B buildings is age. Many Class B buildings are a little older, and may be experiencing minimal deterioration or breakdown. Some buildings start out with a Class A grade, but are downgraded after ten years or so once signs of wear and tear become apparent.

*Class C:* These are the poorest quality structures on the market. They tend to be located in the least desirable areas of town, and are usually in need of major repairs and renovations. This likely to be due to the building's age, as Class C properties are generally more than twenty years old.

Some Class C properties remain occupied, commanding lower rental rates and attracting tenants with smaller operations who cannot afford nicer spaces or who do not need to reside in the central business areas of town. Other Class C buildings are sold as rehabilitation or redevelopment opportunities.

With some improvements and repairs a Class C can be upgraded to a Class B, and in some circumstances, a Class A building status.

**CHAPTER IX**  
***LISTINGS & LISTED ISSUERS***

The Alternative Securities Market is entrusted with the authority to preserve and strengthen the quality and public confidence in Alternative Securities and Alternative Investments. The Alternative Securities Market stands for Integrity and Ethical practices in order to enhance investor confidence in Alternative Securities and Alternative Investments, thereby contributing to the financial health of the overall economy, and supporting the capital formation process. From the he Alternative Securities Market's Early and Development Stage Companies, to Operating Companies of International Stature, each are recognized as sharing these important traits that we hold true.

The Alternative Securities Market, therefore has broad discretionary authority over the initial and continued listing and trade of securities on the Alternative Securities Market in order to maintain the quality, the public confidence in the Alternative Securities Market, to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and to protect investors and the public interest.

The Alternative Securities Market may use such discretion to deny any the application of any Issuer apply for listing for trade, apply additional or more stringent criteria for the initial or continued listing of any securities, or suspend or delist particular securities based on any event, condition, or circumstance that exists or occurs that makes initial or continued listing of the securities on the Alternative Securities Market inadvisable or unwarranted in the opinion of the Alternative Securities Market, even though the securities meet all enumerated criteria for initial or continued listing on the Alternative Securities Market.

**Rule 9.1.0 – Use of Discretionary Authority**

To further the understanding of this Rule, the Alternative Securities Market has adopted this Rule (Rule 9.1.0) as a non-exclusive description of the circumstances in which the Rule is generally invoked.

The Alternative Securities Market may use its Authority to deny initial or continued listings to a Company when an individual with a history of regulatory misconduct is associated with the Company. Such individuals are typically an officer, director, substantial shareholder, or consultant to the company. In making this determination, the Alternative Securities Market will consider a variety of factors, including (*but not limited to*):

- The nature and severity of the conduct, taken in conjunction with the length of time since the conduct occurred;
- Whether the conduct involved fraud or dishonesty;
- Whether the conduct was securities related;
- Whether the investing public was involved;
- How the individual has been employed since the violative conduct;
- Whether there are continuing sanctions (*either criminal or civil*) against the individual

- Whether the individual made restitution;
- Whether the Company has taken effective remedial action; and
- The totality of the individual's relationship to the Company, giving consideration to:
  - The individual's current or proposed position;
  - The individual's current or proposed scope of authority;
  - The extent to which the individual has responsibility for financial accounting or reporting; and
  - The individual's equity interest.

Based on this review, the Alternative Securities Market may determine that the regulatory history rises to the level of a public interest concern, but may also consider whether remedial measures proposed by the Company, if taken, would allay that concern. Examples of such remedial measures could include any or all of the following, as appropriate:

- The individual's resignation from officer or directors position, and/or other employment with the company;
- Divestiture of stock holdings;
- Termination of contractual arrangements between the company and the individual; or
- The establishment of a voting trust surrounding the individual's shares.

The Alternative Securities Market is willing to discuss with companies, on a "case-by-case" basis, what remedial measures may be appropriate to address public interest concerns, and for how long such remedial measures would be required. Alternatively, the Alternative Securities Market may conclude that a public interest concern is so serious that no remedial measure would be sufficient to alleviate it. In the event that the Alternative Securities Market staff denies initial or continued listing based on such public interest considerations, the company may seek review of that determination through the filing of an appeal to the Board of Directors of the Alternative Securities Market. On consideration of such appeal, the Board of Directors of the Alternative Securities Market may accept, reject or modify the Staff's recommendations by imposing conditions.

Requests for Appeals are required to be in writing, and submitted to the Alternative Securities Market Board of Directors by:

By Mail:

Attn: Appeals  
4050 Glencoe Avenue  
Marina Del Rey, California 90292

Appeals submitted to the Board of Directors will be reviewed by all members of the Board of Directors, and a decision will be issued within 30 days of receipt of the request for consideration.

The Alternative Securities Market may also use its discretionary authority, for example, when a company files for protection under any provision of the Federal Bankruptcy Laws or comparable foreign laws, or when financial statements do not contain a required certification.

Although the Alternative Securities Market has broad discretion under this Rule to impose additional or more stringent criteria, this Rule does not provide a basis for the Alternative Securities Market to grant exemptions or exceptions from the enumerated criteria for initial or continued listing, which may be granted solely pursuant to rules explicitly providing such authority.

#### Rule 9.4.0 – Listing Issuers of Companies whose Business Plan is to Complete One or More Acquisitions

Generally, the Alternative Securities Market will not permit the initial or continued listing of a company that has no specific business plan or that has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

However, in the case of a company whose business plan is to complete an initial public offering and engage in a merger or acquisition with one or more unidentified companies within a specific period of time, the Alternative Securities Market will permit the listing if the company meets all applicable initial listing requirements, as well as the conditions described below.

1. At least 90% of the gross proceeds from the initial public offering be deposited in a trust account maintained by an independent trustee, an escrow account maintained by an *"insured depository institution"*, as that term is defined in Section 3(c)(2) of the Federal Deposit Insurance Act or in a separate bank account established by a registered broker or dealer (*collectively, a "deposit account"*).
2. Within 36 months of the effectiveness of its initial public offering registration statement, or such shorter period that the company specifies in its registration statement or offering memorandum, the company must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the deposit account (*excluding any deferred underwriters fees and taxes payable on the income earned on the deposit account*) at the time of the agreement to enter into the initial combination.
3. Until the company has satisfied the condition in paragraph 2 above, each business combination must be approved by a majority of the company's directors.

4. Until the company has satisfied the condition in paragraph 2 above, each business combination must be approved by a majority of the shares of common stock voting at the meeting at which the combination is being considered.
5. Until the company has satisfied the condition in paragraph 2 above, shareholders voting against a business combination must have the right to convert their shares of common stock into a pro rata share of the aggregate amount then in the deposit account (*net of taxes and amounts distributed to management for working capital purposes*) if the business combination is approved and consummated. A company may establish (*set no lower than 10% of the shares sold in the initial offering*) as to the maximum number of shares with respect to which shareholder, together with any affiliate of such shareholder or any person with whom such shareholder is acting as a “group” (*as such term is used in Sections 13(d) and 14(d) of the Act*), may exercise such conversion rights. For purposes of this paragraph (5), shareholders excludes officers and directors of the company, the founding shareholders of the company, and family members or affiliates of any of the foregoing persons.

Until the company completes a business combination where all conditions in paragraph 2 above are met, the company must notify the Alternative Securities Market about each proposed business combination. Following each business combination, the combined company must meet the requirements for initial listing. If the company does not meet the requirements for initial listing following a business combination or does not comply with one of the requirements set forth above, the Alternative Securities Market will issue a Delisting Determination and delist the company’s securities.

#### 9.5.0 – Business Combination with Non-Alternative Securities Market Entities Resulting in a Change of Control

A company must apply for initial listing in connection with a transaction whereby the company combines with a non-Alternative Securities Market listed company, resulting in a change of control of the company and potentially allowing the non-Alternative Securities Market company to obtain an Alternative Securities Market Listing. In determining whether a change of control has occurred, the Alternative Securities Market shall consider all relevant factors including, but not limited to:

- Changes in the Management;
- Changes to the Board of Directors;
- Changes in voting power;
- Changes in ownership; and
- The financial structure of the company

The Alternative Securities Market shall also consider the nature of the business and the relative size of the Alternative Securities Market listed company and the non-Alternative Securities Market company. The company must submit an application for the post-transaction entity with sufficient time to allow the Alternative Securities Market to complete its review before the transaction is completed. If the company’s application for initial listing has not been approved prior to consummation of the transaction, the Alternative Securities Market will issue a Delisting Determination and Delist the company’s securities.

## 9.6.0 – Bankruptcy and Liquidation

The Alternative Securities Market may use its discretionary authority to suspend or terminate the listing of a company that has filed for protection under any provision of the Federal Bankruptcy Laws or comparable foreign laws, or has announced that liquidation has been authorized by its board of directors and that it is committed to proceed, even though the company's securities otherwise meet all enumerated criteria for continued listing on the Alternative Securities Market. In the event that the Alternative Securities Market determines to continue the listing of such a company during a bankruptcy reorganization, the company shall nevertheless be required to satisfy all requirements for initial listing, upon emerging from bankruptcy proceedings.

## 9.7.0 – Code of Conduct

Each company shall adopt a code of conduct applicable to all directors, officers and employees, which shall be publicly available on the company's page on the Alternative Securities Market (<http://www.AlternativeSecuritiesMarket.com>). A code of conduct satisfying this Rule must comply with the definition of a "Code of Ethics" set out in Section 406(c) of the Sarbanes-Oxley Act of 2002 ("*the Sarbanes-Oxley Act*") and any regulations promulgated thereunder. In addition, the code must provide for an enforcement mechanism. Any waivers of the code for directors or executive officers must be approved by the company's board of directors. Companies shall disclose such waivers within four business days by filing and distributing a Press Release through the ASMG DISCLOSURE & NEWS SERVICE.

Ethical behavior is required and expected of every corporate officer, director and employee of a listed company, whether or not a formal code of conduct exists. The requirement of a publicly available code of conduct applicable to all directors, officers and employees of a company is intended to demonstrate to investors that the Board of Directors and Management of the Alternative Securities Market has carefully considered the requirements of ethical dealing of a company, and to ensure that each company has put in place a system to ensure that they become aware of and take prompt action against any questionable behavior. For company personnel, a code of conduct with enforcement provisions provides assurance that reporting of questionable behavior is protected and encouraged, and fosters an atmosphere of self-awareness and prudent conduct.

Rule 9.7.0 requires companies to adopt a code of conduct complying with the definition of a "code of ethics" under Section 406(c) of the Sarbanes-Oxley Act of 2002 ("*the Sarbanes-Oxley Act*") and any regulations promulgated thereunder by the Commission. Thus, the code must include such standards as are reasonably necessary to promote the ethical handling of conflicts of interest, full and fair disclosure, and compliance with laws, rules and regulations, as specified by the Sarbanes-Oxley Act. However, the code of conduct required by Rule 9.7.0 must apply to all directors, officers and employees. Companies can satisfy this obligation by adopting one or more codes of conduct, such that all directors, officers and employees are subject to a code that satisfies the definition of a "code of ethics".

As the Sarbanes-Oxley Act recognizes, investors are harmed when real or perceived private interest of a director, officer or employee is in conflict with the interests of the company, as when the individual receives improper personal benefits as a result of his or her position with the company, or when the individual has other duties, responsibilities or obligations that run counter to his or her duty to the company. Also, the disclosures a company makes to the Alternative Securities Market are the essential source of information about the company for regulators and investors – there can be no question about the duty to make them fairly, accurately and timely.

Finally, illegal action must be dealt with swiftly and the violators reported to the appropriate authorities. Each code of conduct must require that any waiver of the code for executive officers or directors may be made only by the board of directors, and must be disclosed to shareholders, along with the reasons for the waiver. Any waivers of the code for directors or executive officers must be approved by the company's board of directors. Companies shall disclose such waivers within four business days by filing and distributing a Press Release through the ASMG DISCLOSURE & NEWS SERVICE. This disclosure requirement provides investors the comfort that waivers are not granted except where they are necessary and warranted, and that they are limited and qualified so as to protect the company and its shareholders to the greatest extent possible.

Each code of conduct must also contain an enforcement mechanism that ensures prompt and consistent enforcement of the code, protection for persons reporting questionable behavior, clear and objective standards for compliance, and a fair process by which to determine violations.

The following description is a summary of the material provisions of the Secured Investment Certificates. It does not restate the terms and material provisions of the Secured Investment Certificates in their entirety. The Company urges you to read the Secured Investment Certificates because they, and not this description, will define your rights as a Holder of these Secured Investment Certificates. A copy of the proposed form of the Secured Investment Certificates is available to you upon request.

***Brief Description of the Secured Investment Certificates:***

The Secured Investment Certificates will be our secured obligations and will:

- Rank equally with all of the Company's existing and future secured debt indebtedness, if any, and;
- Rank senior to all of the Company's future subordinated indebtedness, if any.

***Principal, Maturity and Interest:***

The Secured Investment Certificates will be issued in the minimum amount of \$100, and in multiples of \$100. The Secured Investment Certificates will be offered at maturities of 6 to 18 months from the date issued, with a Fixed Interest Rate. The Company will typically issue Secured Investment Certificates on the same day or next day, after deposit by the Company of the subscriber's payment check and the check is collected by the Company's Bank.

The Interest Rate for each Secured Investment Certificate will be based on the formula set forth below and varies according to the term of the Secured Investment Certificate. The minimum and the maximum Fixed Interest Rates which are offered will change from time to time in response to changes in the current Wall Street Journal's Prime Rate data obtained from the Wall Street Journal, or a similar credible source. The Interest Rates for new Certificates are set on the First Monday of each month at the start of business based on the Wall Street Journal's Prime Rate that day. Such rates are paid on all Secured Investment Certificates issued between the start of business on that Monday and the close of business on the last day prior to the First Monday of the next month. Interest is calculated and accrues daily based upon a 30-day month and a 360-day year. To determine the current rates, prospective investors in the Certificates should call the Company at (213) 407-4386, or consult the web pages: <http://www.AlternativeSecuritiesMarket.com> or <http://www.ASMGCorp.com>.

The Interest Rates for each Certificate is based on the following formula and varies according to the term of the Certificates as follows:

<b>TERM</b>	<b>WALL STREET JOURNAL'S PRIME RATE</b>	<b>INTEREST RATES AS OF MARCH 2nd, 2015</b>
6 MONTHS	Prime Plus 5%	8.25%
9 MONTHS	Prime Plus 6%	9.25%
12 MONTHS	Prime Plus 7%	10.25%
15 MONTHS	Prime Plus 8%	11.25%
18 MONTHS	Prime Plus 9%	12.25%

The "Prime Rate", as reported by the Wall Street Journal's Bank Survey, is among the most widely used benchmark in setting home equity lines of credit and credit card rates. It is in turn based on the Federal Funds Rate, which is set by the Federal Reserve.

**The Company will pay interest on Secured Investment Certificates quarterly, semi-annually or at maturity, at the Holder's option.**

*For Example, if you invested \$1,000 on January 8<sup>th</sup>, 2015:*

1. The Wall Street Journal's Prime Rate that would be used would be the rate posted by the Wall Street Journal on Monday, January 5<sup>th</sup>, 2015.
2. The total Interest Rate that you would receive would be based on the term that you selected as set forth below; and
3. Your Interest Payments would be paid at maturity, for loans of TWELVE MONTHS OR LESS, or annually for loans of 15 months or 18 months as set forth below.

TERM	WALL STREET JOURNAL'S PRIME RATE	INTEREST RATES AS OF January 5 <sup>th</sup> , 2015	INTEREST PAYMENTS AND PAYMENT DATES
6 MONTHS	Prime Plus 5%	8.25%	\$41.25 on July 8 <sup>th</sup> , 2015
9 MONTHS	Prime Plus 6%	9.25%	\$69.38 on October 8 <sup>th</sup> , 2015
12 MONTHS	Prime Plus 7%	10.25%	\$102.50 on January 8 <sup>th</sup> , 2015
15 MONTHS	Prime Plus 8%	11.25%	\$112.50 on January 8 <sup>th</sup> , 2015 \$28.13 on April 8 <sup>th</sup> , 2015
18 MONTHS	Prime Plus 9%	12.25%	\$122.50 on January 8 <sup>th</sup> , 2015 \$61.25 on July 8 <sup>th</sup> , 2015

If you invested \$1,000, then interest would be payable, calculated on the higher principal amount, on the dates set forth above, at your option, quarterly on each of March 8<sup>th</sup>, June 8<sup>th</sup>, September 8<sup>th</sup> and January 8<sup>th</sup> until Maturity.

***Optional Prepayment:***

The Secured Investment Certificates maybe prepaid in whole or in part at any time prior to their respective Maturity dates without premium or penalty.

***Events of Default:***

The Secured Investment Certificates provide that each of the following constitutes an "Event of Default" with respect to the Secured Investment Certificates:

1. The failure to make a payment when due under the Certificates (i) of any interest payment within five (5) business days of when the interest payment is due, or (ii) of the entire outstanding balance of principal and interest on the maturity date; or
2. If the Company voluntarily files a petition under the Federal Bankruptcy Code, or under any similar or successor Federal Statute relating to Bankruptcy, Insolvency Arrangements, or Reorganizations; or if the Company fails to obtain a vacation or stay of Involuntary Proceedings brought for the Reorganization, Dissolution or Liquidation of the Company; or if the Company is adjudged a Bankrupt, or upon the Company's Dissolution, Business Failure or Discontinuance as a going concern business; or if a trustee or receiver shall be appointed for the Company's property; or if there is an attachment, execution or other judicial seizure of any portion of the Company's assets, and such seizure is not discharged within ten (10) days.

In any Event of Default occurs and is continuing, at the option of the Holders, the entire outstanding principal balance due under the Secured Investment Certificates and all accrued and unpaid Interest on the Secured Investment Certificates will become immediately due and payable by the Company without further action or notice at the option of the Holders.

***Form of Certificates:***

All Secured Investment Certificates will be issued in fully registered form. The Company is entitled to treat the Registered Holder shown on its records as the owner of the Secured Investment Certificate for all purposes. Ownership of a Secured Investment Certificate may be registered in the name of any two or more named persons as joint tenants with right of survivorship, as tenants in common or as tenants by the entireties, and payment of principal and interest on any Secured Investment Certificates so registered will be made to the person or persons entitled to receive such payment as their interests may appear.

***Payment or Rollover at Maturity:***

The Secured Investment Certificates will be subject to automatic rollover. Fifteen business days before the Maturity Date of the Secured Investment Certificate, the Company will send a notice to the Holder by First Class Mail at the Holder's address that the Secured Investment Certificate is going to mature and request whether the Holder wishes to let the Certificate rollover, or to be repaid. The Company will repay Holders who notify in TEN BUSINESS DAYS BEFORE THE MATURITY DATE that they wish to be repaid. Unless the Holder notifies the Company TEN BUSINESS DAYS BEFORE THE MATURITY date that it does not wish to let the Secured Investment Certificate rollover and presents the Secured Investment Certificate for payment, or the Company otherwise elects to repay the Secured Investment Certificate, the Secured Investment Certificate will be automatically rolled-over into a new Secured Investment Certificate at the Interest Rate then being offered by the Company based on the same term as the original Secured Investment Certificate. The Holder may elect to rollover all, or a portion of, the Secured Investment Certificates it owns. To determine the Interest Rate applicable to the rolled-over Secured Investment Certificates, Holders should call the Company at (213) 407-4386, or consult the web pages: <http://www.ASMGCorp.com> or <http://www.AlternativeSecuritiesMarket.com>. The rolled-over Certificate will bear interest at the then current Interest Rate for newly issued Secured Investment Certificates, based on the formula described above, the maturity date will be extended for an additional term of identical length as the original Secured Investment Certificate, and the frequency and Interest Payments will be identical to the frequency of the original Secured Investment Certificate.

Due to automatic rollover, Investors will not receive payment of principal at Maturity or subsequent payment dates unless the Investor complies with the procedures for notification and delivery of Secured Investment Certificates. In order to receive payment of principal upon maturity, the Holder must notify the Company TEN BUSINESS DAYS before the Secured Investment Certificate's Maturity Date that it elects not to let the Secured Investment Certificate rollover and it must present the Secured Investment Certificate to the Company for payment. Notification and delivery of the Secured Investment Certificate must be made to the Company's office located at 4050 Glencoe Avenue, Marina Del Rey, California 90292, Attention: Investor Services, or by Email to: [LEGAL@ALTERNATIVESECURITIESMARKET.COM](mailto:LEGAL@ALTERNATIVESECURITIESMARKET.COM), by the Secured Investment Certificate's Maturity Date. In order to be effective, such notification must be received at the Company's office, or by Email, by the Maturity Date. If the Company does not receive the notification by such time, the Secured Investment Certificate(s) will be rolled-over.

For example, if your original Secured Investment Certificate had a term of 15 months, and you elected to be paid interest quarterly, the rolled-over Secured Investment Certificate would also have a term of 15 months, interest would be paid quarterly and the Interest Rate would be based on the above formula for new Secured Investment Certificates with a term of 15 months. If you have any questions regarding the rollover of Secured Investment Certificates, please call the Company at (213) 407-4386.

***Lost, Stolen or Destroyed Secured Investment Certificates: Issuance of New Secured Investment Certificates:***

#### **MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS**

The following summary describes the material U.S. Federal Income Tax considerations relating to the acquisition, ownership and disposition of the Secured Investment Certificates. The summary is based on the Internal Revenue Code (the "Code"), and Treasury regulations, rulings and judicial decisions as of the date hereof, all of which may be repealed, revoked or modified with possible retroactive effect. This summary applies to you only if you acquire the Secured Investment Certificates for cash in this Offering at the initial Offering price and hold the Secured Investment Certificates as capital assets within the meaning of Section 1221 of the Code. This summary is for general information only and does not address all aspects of the U.S. Federal Income Taxation that may be important to you in light of your particular circumstances, and it does not address state, local, foreign, alternative minimum or non-income tax considerations that may be applicable to you. Further, this summary does not deal with Holders that may be subject to special tax rules, including, but not limited to, insurance companies, tax-exempt organizations, financial institutions, dealers in securities or currencies, U.S. Holders (as described below) whose functional currency is not the U.S. Dollar, certain U.S. expatriates or Holders who hold the Secured Investment Certificates as a hedge against currency risks or as part of a straddle, synthetic security, conversion transaction or other integrated transaction for U.S. Federal Tax purposes. You should consult your own tax advisor as to the particular tax consequences to your of acquiring, holding or disposing of the Secured Investment Certificates.

For purposes of this summary, a "U.S. Holder" is a beneficial owner of a Secured Investment Certificate that, for U.S. Federal Income Tax purposes, is: (a) an individual citizen or resident of the United States; (b) a corporation (or other business entity treated as a corporation) created or organized in or under the Laws of the United States or any State thereof (including the District of Columbia); (c) an estate the income of which is subject to U.S. Federal Income Taxation regardless of its source; or (d) a trust if (i) such trust has a valid election in effect under applicable Treasury regulations to be treated as a United States person, or (ii) a court within the United States is able to exercise primary supervision over the trust's administration and one or more United States persons have the authority to control all substantial decisions of the trust.

For purposes of this summary, a "Non-U.S. Holder" is a beneficial owner of a Secured Investment Certificate that is neither a U.S. Holder nor a partnership or any entity or arrangement treated as a partnership for U.S. Federal Income Tax purposes. If a partnership (or other entity or arrangement treated as a partnership for U.S. Federal Income Tax purposes) holds Secured Investment Certificates, then the U.S. Federal Income Tax treatment of a partner in such partnership will generally depend on the status of the partner and the activities of the partnership. If you are a partnership that holds Secured Investment Certificates of a partner in such a partnership, you should consult your own tax advisor as to the particular U.S. Federal Income Tax consequences applicable to you.

#### **U.S. Holders**

##### ***Interest***

We anticipate that the Secured Investment Certificates will not be issued with original discount for U.S. Federal Income Tax purposes. In such case, if you are a U.S. Holder, interest on a Secured Investment Certificate will generally be taxable to you as ordinary interest income as it accrues or is received by you in accordance with your usual method of accounting for U.S. Federal Income Tax purposes.

##### ***Sale, Exchange or Other Taxable Dispositions of Secured Investment Certificates***

If you are a U.S. Holder, upon the sale, exchange, redemption, retirement or other taxable disposition of a Secured Investment Certificate, you will generally recognize gain or loss for U.S. Federal Income Tax purposes in an amount equal to the difference, if any, between (i) the amount of the cash and the fair market value of any property you receive on the sale or other taxable disposition (less an amount attributable to any accrued but unpaid interest, which will be taxable as ordinary interest income to the extent not previously taken into income), and (ii) your adjusted tax basis in the Secured Investment Certificate. Your adjusted tax basis in a Secured Investment Certificate will generally be equal to your cost of the Secured Investment Certificate, reduced by the principal payments you have previously received in respect of the Secured Investment Certificate. Such gain or loss will generally be treated as capital gain or loss and will be treated as long-term capital gain or loss if your holding period in the Secured Investment Certificate exceeds one year at the time of the disposition. Long-term capital gains of non-corporate taxpayers are subject to reduced rates of taxation. The deductibility of capital losses is subject to limitation.

##### ***Backup Withholding and Information Reporting***

U.S. Federal Backup Withholding may apply to payments on the Secured Investment Certificates and proceeds from the sale or other disposition of the Secured Investment Certificates if you are a non-corporate U.S. Holder and fail to provide a correct taxpayer identification number or otherwise comply with applicable requirements of the backup withholding rules. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a credit against a U.S. Holder's U.S. Federal Income Tax liability and may entitle such Holder to a refund, provided the required information is timely furnished to the Internal Revenue Service (the "IRS").

A U.S. Holder will also be subject to information reporting with respect to payments on the Secured Investment Certificates and proceeds from the sale or other disposition of the Secured Investment Certificates, unless such U.S. Holder is an exempt recipient and appropriately establishes that exemption.

## **Non-U.S. Holders**

### ***Interest***

Subject to the discussion of Backup Withholding and information reporting below, if you are a Non-U.S. Holder, payments of interest on the Secured Investment Certificates to you will not be subject to U.S. Federal Income Tax (including branch profits or withholding tax), provided that:

- You do not, directly or indirectly, actually or constructively, own 10% or more of the voting power of the stock of ALTERNATIVE SECURITIES MARKET, LLC;
- You are not a bank receiving interest on an extension of credit pursuant to a loan agreement entered into in the ordinary course of your trade or business;
- You are not a controlled foreign corporation for U.S. Federal Income Tax purposes that is, actually or constructively, related to the Company (as provided in the Code);
- The interest payments are not effectively connected with your conduct of a trade or business within the United States; and
- You meet certification requirements.

You will satisfy these certification requirements if you certify on IRS Form W-8BEN, or a substantially similar substitute form, under penalties of perjury, that you are not a United States person with the meaning of the Code, provide your name and address and file such form with the withholding agent. If you hold the Secured Investment Certificate through a foreign partnership or intermediary must satisfy certification requirements of applicable Treasury regulations.

Even if the requirements listed above are not satisfied, you will be entitled to an exemption from or reduction in U.S. Withholding Tax provided that:

- You are entitled to an exemption from or reduction in Withholding Tax or interest under a tax treaty between the United States and your country of residence. To claim this exemption or reduction, you must generally complete IRS Form W-8BEN and claim this exemption or reduction on the form. In some cases, you must instead be permitted to provide documentary evidence of your claim to the intermediary, or a qualified intermediary may already have some or all of the necessary evidence in its files; or
- The interest income on the Secured Investment Certificates is effectively connected with the conduct of your trade or business in the United States. To claim this exemption, you must complete IRS Form W-8ECI.

You may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

### ***Sale, Exchange or Other Taxable Dispositions of Secured Investment Certificates***

Subject to the discussion below regarding Backup Withholding and information reporting, if you are a Non-U.S. Holder, you will not be subject to U.S. Federal Income Tax (including branch profits tax) on the gain you realize on any sale, exchange, redemption, retirement or other taxable disposition of a Secured Investment Certificate.

- The gain is effectively connected with your conduct of a trade or business within the United States and, if required by an applicable treaty (and you comply with a applicable certification and other requirements to claim treaty benefits), is generally attributable to a U.S. "permanent establishment";

- You are an individual and have been present in the United States for 183 days or more in the taxable year of disposition and certain other requirements are met; or
- A portion of the gain represents accrued but unpaid interest, in which case the U.S. Federal Income Tax rules for interest would apply to such portion.

***U.S. Trade or Business***

If interest on a Secured Investment Certificate or gain from a disposition of the Secured Investment Certificate is effectively connected with your conduct of a U.S. trade or business, and, if required by an applicable treaty, you maintain a U.S. “permanent establishment” to which the interest or gain is attributable, you will generally be subject to U.S. Federal Income Tax on the interest or gain on a net basis in the same manner as if you were a U.S. Holder. If you are a foreign corporation, you may also be subject to a branch profits tax of 30% of your effectively connected earnings and profits for the taxable year, subject to certain adjustments, unless you qualify for a lower rate under an applicable income tax treaty.

***Backup Withholding and Information Reporting***

Under current U.S. Federal Income Tax, Backup Withholding and information reporting may apply to payments made by the Company (including the Company’s paying agents) to you in respect of the Secured Investment Certificates, unless you provide an IRS Form W-8BEN or otherwise meet documentary evidence requirements for establishing that you are a Non-U.S. Holder or otherwise establish an exemption. The Company (or its paying agents) may, however, report payments of interest on the Secured Investment Certificates.

The gross proceeds from the disposition of your Secured Investment Certificates may be subject to information reporting and Backup Withholding Tax at the applicable rate. If you sell your Secured Investment Certificates outside the United States through a foreign office of a foreign broker and the sales proceeds are paid to you outside the United States, then the Backup Withholding and information reporting requirements will generally not apply to that payment. However, information reporting, but not Backup Withholding, will apply to a payment of sales proceeds, even if that payment is made outside the United States, if you sell your Secured Investment Certificates through the foreign office of a foreign broker that is, for U.S. Federal Income Tax purposes:

- A United States person (within the meaning of the Code);
- A controlled foreign corporation;
- A foreign person 50% or more of whose gross income is effectively connected with a U.S. trade or business for a specified three-year period; or
- A foreign partnership with certain connections to the United States

Unless such broker has in its records documentary evidence that you are not a United States person and certain other conditions are met, or you otherwise establish an exemption. In addition, Backup Withholding may apply to any payment that the broker is required to report if the broker has actual knowledge that you are a United States person.

You should consult your own tax advisor regarding the application of information reporting and Backup Withholding in your particular situation, the availability of an exemption from Backup Withholding and the procedure for obtaining such an exemption, if available. Backup Withholding is not an additional tax. Any amounts withheld under the Backup Withholding rules may be allowed as a credit against your U.S. Federal Income Tax liability and may entitle you to a refund, provided the required information is timely furnished to the IRS.

The U.S. Federal Tax discussion set forth above is included for general information only and may not be applicable depending on the Holder’s particular situation. Holders should consult their tax advisors with respect to the tax consequences to them of the beneficial ownership and disposition of the Secured Investment Certificates, including the tax consequences under State, Local, Foreign, and other tax laws and the possible effects of changes in U.S. Federal and other Tax Laws.

### **Indemnification of Directors and Officers:**

The Company is formed under the laws of California. California General Corporation Law provides that a company may indemnify directors and officers as well as other employees and individuals against expenses including attorneys' fees, judgments, fines and amounts paid in settlement in connection with various actions, suits or proceedings, whether civil, criminal, administrative or investigative other than an action by or in the right of the company, a derivative action, if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the company, and, with respect to any criminal action or proceeding, if they had no reasonable cause to believe their conduct was unlawful. A similar standard is applicable in the case of derivative actions, except that indemnification only extends to expenses including attorneys' fees incurred in connection with the defense or settlement of such actions and the statute requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. The statute provides that it is not exclusive of other indemnification that may be granted by a company's certificate of formation, bylaws, agreement, and a vote of shareholders or disinterested directors or otherwise.

The Company's Certificate of formation provides that it will indemnify and hold harmless, to the fullest extent permitted by California's General Corporation Law, as amended from time to time, each person that such section grants us the power to indemnify.

California's General Corporation Law permits a company to provide in its certificate of formation that a director of the company shall not be personally liable to the company or its shareholders for monetary damages for breach of fiduciary duty as a director, except for liability for:

- any breach of the director's duty of loyalty to the company or its shareholders;
- acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- payments of unlawful dividends or unlawful stock repurchases or redemptions; or
- any transaction from which the director derived an improper personal benefit.

The Company's Certificate of Formation provides that, to the fullest extent permitted by applicable law, none of our directors will be personally liable to us or our shareholders for monetary damages for breach of fiduciary duty as a director. Any repeal or modification of this provision will be prospective only and will not adversely affect any limitation, right or protection of a director of our company existing at the time of such repeal or modification.
