Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
The Phoenix Companies, Inc. Savings and Investment Plan

We have audited the accompanying statements of net assets available for benefits of The Phoenix Companies, Inc. Savings and Investment Plan (the "Plan") as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in its net assets available for benefits for the year ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014 have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule is fairly stated in all material respects in relation to the financial statements as a whole.

**The Phoenix Companies, Inc.
Savings and Investment Plan
Notes to Financial Statements**

1. Description of Plan

The following description of The Phoenix Companies, Inc. Savings and Investment Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution profit sharing plan under Section 401(k) of the Internal Revenue Code (“IRC”) and is sponsored by The Phoenix Companies, Inc. (“Phoenix” or the “Plan Sponsor”). The Plan is subject to the provisions of the IRC and Employee Retirement Income Security Act of 1974 (“ERISA”). The Employer is Phoenix Life Insurance Company (the “Company”) and any participating employer.

Eligibility

Any new employees who do not make an election are automatically enrolled immediately, with deductions of 6% of pre-tax compensation starting with the first pay cycle. Such employees may stop deductions at any time after the automatic enrollment. The default investment for these contributions is one of the Fidelity Freedom Fund investment options within the Plan, which determines the mix of investments according to the anticipated retirement date (assumed to be based on age 65) of the employee.

Contributions

Participants may elect to contribute between 1% and 60% of eligible compensation on a pre-tax, after-tax or Roth basis, or any combination thereof, and invest in any of the available investment options.

Participant contributions are recorded in the period during which payroll deductions are made from the participant’s eligible compensation.

The following contributions may be made:

- Basic contributions, as defined by the Plan document, are participant contributions made through payroll deductions of not less than 1% but not exceeding 6% of the participant’s eligible compensation and may be contributed as any combination of pre-tax, after-tax or as Roth contributions.
- Supplemental contributions, as defined by the Plan document, are participant contributions made through payroll deductions in excess of the 6% basic contribution limit but not exceeding 60% of the participant’s eligible compensation and may be contributed as any combination of pre-tax, after-tax or as Roth contributions.
- The pre-tax and Roth contributions combined may not exceed \$17,500 for Plan years 2014 and 2013.
- Participants who are at least 50 years of age, or will attain age 50 by December 31 of the Plan year, are allowed to make additional pre-tax contributions, known as “catch up contributions”, over and above the standard Internal Revenue Service (“IRS”) deferral limits for that Plan year so long as they are limited by certain Plan-based or IRS limits during the Plan year. The catch up contributions cap was \$5,500 for Plan years 2014 and 2013.
- Rollover contributions from another IRS qualified plan are allowed.

The Phoenix Companies, Inc.
Savings and Investment Plan
Notes to Financial Statements

- Effective April 1, 2010, the Employer matching contributions, which are made only to the accounts of those participants who make basic contributions, are made according to the following formula:
 - Employees with less than 5 years of service* will receive a match of 100% on the first 3% of eligible compensation; 50% on the next 3% of eligible compensation.
 - Employees with at least 5 and less than 10 years of service* will receive a match of 100% on the first 6% of eligible compensation.
 - Employees with at least 10 and less than 15 years of service* will receive a match of 100% on the first 3% of eligible compensation; 150% on the next 3% of eligible compensation.
 - Employees with 15 or more years of service* will receive a match of 150% on the first 6% of eligible compensation.

*Completed years of service on January 1 of each calendar year.

The Plan was amended, effective September 15, 2014, to disregard for terminated Participants the pre-break years of service for the purposes of determining the applicable rate of matching contributions upon rehire if the number of consecutive one-year breaks in service equals or exceeds the greater of five or the number of years of service completed before the break.

- The Plan also provides for a discretionary annual Employer contribution. Effective January 1, 2012, the discretionary annual Employer contribution floor of 3.5% of base salary was eliminated. The discretionary annual Employer contribution is dependent upon the achievement of Phoenix performance goals and payouts can range from 0% to 5%. It was determined that the Company did not achieve its performance goals for 2013; but it did make a discretionary contribution of 1% of base salaries to the Plan for 2013. Because the threshold amount for 2014 was met, a discretionary contribution of 1% of base salaries was made to the Plan for 2014.
 - Employees of Saybrus Partners are not eligible for the discretionary contribution.
 - This contribution is payable after the end of the plan year.
 - Employees are not required to make contributions to the Plan to receive this contribution.
 - Employees are required to be employed as of the last day of the plan year.

Participants may direct the investment of their contributions and Employer contributions into various investment options offered by the Plan.

Effective November 8, 2012, purchases to the Phoenix Common Stock Fund (the "Common Stock Fund") were frozen to new investments until further notice due to the pending restatement of the Plan Sponsor's financial statements. This freeze affected new contributions from payroll deductions, loan repayments and exchanges in, but does not affect sales, plan withdrawals or new loans. Purchases in the Common Stock Fund remained frozen until November 24, 2014. Restricted employees, members of the Benefit Plans Committee and Benefit Plans Investments Committee, and anyone who possessed material, non-public information were not included in the reinstatement.

See Note 9 to these financial statements for additional information on the ability to make purchases into the Common Stock Fund.

According to the IRC, the limit for contributions and forfeitures that may be allocated to participant accounts was \$52,000 and \$51,000 for Plan years 2014 and 2013, respectively.

Participant accounts

Each participant's account is credited with the participant's contributions, the allocation of the Employer's contributions and Plan earnings, if any. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. Earnings are reinvested in the same investment vehicle and are credited to the respective participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

The Phoenix Companies, Inc.
Savings and Investment Plan
Notes to Financial Statements

Vesting

Plan participants are immediately vested in their own contributions and Employer contributions plus actual earnings thereon.

Benefit payments

The following options are available upon termination of service, retirement or disability:

- If the value of an account balance is greater than \$5,000, a participant may elect to receive a lump-sum distribution, roll over the account balance to an IRA or other qualified plan or retain amounts in the Plan until normal retirement age.
- If the value of an account balance is between \$1,000 and \$5,000 and the participant does not elect to receive a lump-sum distribution or roll over the account balance to an IRA or other qualified plan, it will be automatically transferred to an IRA with Fidelity from which they can obtain cash or roll it over to another IRA or another employer's qualified retirement plan.
- If the value of an account balance does not exceed \$1,000 and the participant does not elect to receive a lump-sum or roll over the account balance to an IRA or other qualified plan, it will be automatically distributed to the participant.

Terminated participants are allowed to take partial withdrawals until normal retirement age, when any account balance will be paid in a lump sum.

Upon death, the value of a participant's account becomes payable to his or her beneficiary. If the participant (i) is not married or does not have a domestic partner, (ii) does not have children, and (iii) has not designated a beneficiary, his or her account balance will be paid to their estate. Spousal beneficiaries have the same payment options available to retirees. Non-spousal beneficiaries may elect to receive a lump sum distribution or roll over the account balance to an IRA.

Distributions are subject to the applicable provisions of the Plan document. Benefit payments are recorded when they have been approved for payment and paid by the Plan.

Notes receivable from participants

A participant may borrow up to a maximum of \$50,000 (reduced by the highest outstanding balance of loans during the one-year period immediately prior to the loan application) or one half of the participant's vested account balance, whichever is less. Loans are treated as a transfer from/to the investment fund to/from the participant loan account. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans. Loan terms generally range from 1 to 4½ years, however, when proceeds are used for the purchase of a primary residence, terms may be up to 30 years. Principal and interest are paid ratably through semi-monthly payroll deductions beginning in the month following receipt of the loan. Participants are limited to 2 outstanding loans.

The Phoenix Companies, Inc.
Savings and Investment Plan
Notes to Financial Statements

2. Summary of Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

In accordance with Accounting Standards Codification 946 ("ASC 946"), *Financial Services – Investment Companies* and ASC 962, *Plan Accounting – Defined Contribution Benefit Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As required by the ASC 946, the Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Fair value and contract value of investments in the Common/Collective Trust are determined based on the fair value and contract value of the underlying investments in the respective trusts. The investment in the Common/Collective Trust is reflected at fair value with an adjustment from this fair value to contract value in a separate line item in the Statements of Net Assets Available for Benefits. The Common Stock Fund consists of Phoenix common stock, which is valued at the quoted market price, and Fidelity Management Trust Company ("FMTC") Institutional Cash Portfolio Money Market Fund, which is valued at the net asset value per unit as determined by the collective trust as of the valuation date, which approximates fair value.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation or net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Administrative expenses

Costs and expenses related to the Plan are paid from the Trust Fund from 12b-1 fees to the extent not paid by the Company. The Company currently pays direct fees and expenses related to the Plan that exceed the amount it receives from Fidelity Investment Institutional Operations Company, Inc. Participants pay fees for loan initiation, withdrawals and short-term trading. Other expenses of the mutual funds are reflected in the investment results.

Risks and uncertainties

The Plan provides for various investment options in mutual funds, common/collective trusts and a unitized common stock fund. All investment options are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in value in the near term could materially affect the Plan's financial statements and participant account balances.

3. Investments

Fair value of financial instruments

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Phoenix Companies, Inc.
Savings and Investment Plan
Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2014 and 2013:

Fair values of assets by type and level:

	As of December 31, 2014			Total
	Level 1	Level 2	Level 3	
Mutual Funds				
Fixed income	\$ 12,818,942	\$ -	\$ -	\$ 12,818,942
International	12,321,852	-	-	12,321,852

[1] Carrying value represents contract value (see Note 2).

[2] The Common Stock Fund includes \$4,432,335 and \$4,421,967 of Phoenix common stock as of December 31, 2014 and 2013, respectively and \$185,358 and \$173,626 of FMTC Institutional Cash Portfolio Money Market Fund as of December 31, 2014 and 2013, respectively. The money market portion of the Common Stock Fund is valued using NAV and can be redeemed daily. The fund does not have any unfunded commitments nor include circumstances in which an otherwise redeemable investment might not be redeemable (for instance, investment that is subject to a lockup period).

Investment performance

During the year ended December 31, 2014, the Plan's investments (including realized gains and losses on investments bought and sold and unrealized gains and losses on investments held during the year) depreciated in fair value as follows:

	Year Ended December 31, 2014
Mutual Funds	\$ (678,021)
Common Stock Fund	438,445
Net depreciation in fair value of investments	\$ (239,576)

Investments that represent 5% or more of the Plan's net assets are separately identified below:

	As of December 31,	
	2014	2013
Fidelity Growth Company K	\$ 20,491,522	\$ 19,313,095
Artisan Mid Cap Investment Fund	15,209,753	16,081,261
Fidelity Freedom K 2020 Fund	12,738,482	12,182,476
Fidelity Contrafund K	10,760,755	11,096,018
Fidelity Freedom K 2030 Fund	9,725,913	9,185,076

4. Related Party Transactions

Investments in funds managed by the trustee of the Plan, or an affiliate of the trustee, qualify as party in interest transactions. Plan assets include investments in funds managed by FMTC and Fidelity Management Research Corporation ("FMRC"). FMTC is the Plan trustee and also a wholly owned subsidiary of FMRC.

In addition, the Common Stock Fund is offered as an investment option in the Plan.

The Phoenix Companies, Inc.
Savings and Investment Plan
Notes to Financial Statements

Information about the net assets and the significant components of the changes in net assets relating to the Common Stock Fund is as follows:

	<u>December 31,</u> <u>2014</u>
Net Assets:	
Phoenix Common Stock	\$ 4,432,335
Money Market Fund Class I	185,358
Total Common Stock Fund	<u>\$ 4,617,693</u>
	<u>Year Ended</u> <u>December 31,</u> <u>2014</u>

Loans paid to participants	(4,830)
Transfers to other investments	-
Plan-to-plan transfer out	(378,261)
Administrative fees	(165)
Net increase in net assets	<u>\$ 22,100</u>

Participants of the Plan are allowed to take loans collateralized against their account balances. (See “Notes receivable from participants” under Note 1.)

Personnel and facilities of Phoenix and the Employer have been used to perform administrative functions for the Plan at no charge to the Plan. These transactions are exempt from detailed reporting under Title I of ERISA.

5. Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

6. Income Tax Status

The IRS has determined, and informed Phoenix by an opinion letter dated March 7, 2012, that the Plan document and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has since been amended, the Plan Administrator and the Plan’s counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan continues to be qualified, and the related trust continues to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

7. Forfeitures

At December 31, 2014 and 2013, the forfeiture balances were \$1 and \$3,779, respectively. These balances will be used to reduce future employer contributions. In 2014, employer contributions were reduced by \$9,286 from the forfeiture balances. In addition, checks were reissued for \$2,690 for participants from the forfeiture balances who were transferring funds from the Plan.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Net assets available for benefits per the financial statements	\$ 167,334,721	\$ 161,979,117
Adjustment from contract value to fair value for fully benefit responsive investment contracts	86,011	96,927
Net assets available for benefits per the Form 5500	<u>\$ 167,420,732</u>	<u>\$ 162,076,044</u>

The following is a reconciliation of the net increase in net assets per the financial statements to net income per the Form 5500:

	<u>December 31,</u>
	<u>2014</u>
Net increase in net assets per the financial statements	\$ 5,355,604
Add: Adjustment to report common trust at fair value on December 31, 2014	86,011
Less: Adjustment to report common trust at fair value on December 31, 2013	96,927
Net income per the Form 5500	<u>\$ 5,344,688</u>

9. Subsequent Events

Effective February 6, 2015, purchases to the Common Stock Fund were frozen to new investments until further notice due to another pending restatement of the Plan Sponsor's financial statements. On April 1, 2015, the Fund freeze on new purchases was lifted, except for restricted employees and employees who possessed material, non-public information, who would need to wait until a trading window opened.
