Report of Independent Registered Public Accounting Firm

To Participants and Administrator of the
Beneficial Bank Employee Savings and Stock Ownership Plan:

We have audited the accompanying statements of net assets available for benefits of the Beneficial Bank Employee Savings and Stock Ownership Plan (the Plan) as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

The supplemental information in the accompanying schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) has been subjected to audit procedures performed in conjunction with the audit of the Plan's 2014 financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedules of Assets (Held at End of Year) as of December 31, 2014 is fairly stated in all material respects in relation to the 2014 financial statements as a whole.

BENEFICIAL BANK EMPLOYEE SAVINGS AND STOCK OWNERSHIP PLAN

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 and 2013**

1. DESCRIPTION OF PLAN

The following description of the Beneficial Bank Employee Savings and Stock Ownership Plan (with 401(k) provisions), formerly the Beneficial Mutual Savings Bank 401(k) Plan, provides general information only. For a more complete description of the Plan's provisions, participants should refer to the Plan document.

General

The Beneficial Bank 401(k) Plan (the "401(k) Plan") was established on August 8, 1985 and amended and restated as of May 11, 2007 for the benefit of Beneficial Bank (the "Company") employees. Effective January 1, 2007, the Company established an employee stock ownership plan ("ESOP") under Sections 409 and 4975(e)(7) of the Internal Revenue Code (the "Code"). On July 1, 2008, the Plan was amended and restated as the Employee Savings and Stock Ownership Plan (the "Plan") to integrate the ESOP with the 401(k) Plan. The integration of the two plans was a tax exempt transaction under the applicable provisions of the Code.

In addition to providing retirement benefits for employees of the Company (including any related company that adopts the Plan) and their beneficiaries, a primary purpose of the Plan is to enable employees to share in the growth and prosperity of the Company and to accumulate capital for their future economic security by acquiring a proprietary interest in the Company. In furtherance of that goal, the employee stock ownership portion of the Plan is designed to invest its assets primarily in common stock issued by Beneficial Bancorp, Inc. (the "Bancorp"), the Company's parent holding company ("Bancorp Stock").

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Retirement Plan Committee (the "Committee"). The Company appoints the members of the Committee who are responsible to and serve at the discretion of the Company. The Committee has the exclusive right to interpret the Plan, establish rules for administration of the Plan and to decide any and all matters arising in connection with interpretation and administration of the Plan. Certain administrative costs of the Plan are absorbed by the Company.

On January 12, 2015, Beneficial Bancorp, Inc. sold 50,383,817 shares of common stock at \$10.00 per share, including 2,015,352 shares purchased by the Plan to be used to fund future contributions into the Plan. In connection with the purchase of the shares during the second-step stock offering on January 12, 2015, the Plan borrowed \$20,153,520 from the Bancorp at a fixed interest rate of 3.25% with a thirty-year term to fund the purchase of 2,015,352 shares. As of December 31, 2014, the Plan's investments include \$1.6 million of cash from participant accounts that was held in suspense to purchase stock issued in the offering.

Eligibility

All full time employees become eligible on their respective date of hire. Part time employees may become eligible following the completion of 1,000 hours of service within the 12 month period following their respective hire date.

The Plan includes an automatic enrollment feature that involves the use of a "qualified automatic contribution arrangement" under the applicable sections of ERISA and the Code.

Contributions

The Plan features a number of employer and employee contributions as described below and also permits rollover contributions.

Salary Reduction Contribution

Participants may contribute from 1% up to 50% of their compensation (total salary, overtime and bonuses), up to the Code limit on compensation, to the Plan.

Basic and Profit Sharing Contribution

The Company may contribute a basic and a profit sharing contribution. The amount of the basic contribution is 2% of a participant's compensation as directed by the participant. The amount of the profit sharing contribution shall be determined by the Board of Trustees of the Company. Participants must be employed on the last day of the plan year and complete 1,000 hours of service to receive a basic and or profit sharing contribution, if any. For 2014 and 2013, the Company contributed 2% of eligible participants' compensation for the basic contribution. There was no profit sharing contribution made for 2014 or 2013.

Matching Contribution

The Company may contribute to each participant eligible for an allocation of such contributions an amount related to the participant's Salary Reduction Contribution. For 2014 and 2013, the Company contributed 100% of the first 2% and 50% of the next 4% of each eligible participant's compensation contributed to the Plan as a Salary Reduction Contribution.

Transition Contribution

For long-term employees that were impacted by freezing the Company's defined benefit plan in 2008, a transition contribution structure was adopted by the Company to run through and including the 2017 Plan year, unless modified by the Company. The Company shall annually contribute an amount as a percentage of the compensation of each active participant who is a full time employee. The percentages range from 8% to 16% based on the ages of qualified participants. Highly Compensated Employees, as defined in the Code, are not eligible to receive Transition Contributions.

ESOP Contribution

Under the ESOP feature of the Plan, the Company may make certain required and discretionary contributions. See Note 3 for further description of ESOP contributions.

The participants' and the Company's contributions are subject to annual maximum limits under the Code.

Vesting

Participants' contributions (including salary reduction, rollover, and transition contributions) and the related earnings are 100% vested at all times. The Company's matching contributions are 100% vested after two years of service. Basic and Profit Sharing Contributions, as well as ESOP contributions, vest as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2 to 3	20%
3 to 4	40%
4 to 5	60%
5 to 6	80%
6 or more	100%

Participant Accounts

Each participant's account is credited with an allocation of the participant's and the Company's contributions, related interest, and an allocation of Plan earnings (losses). Allocations are based on participant account balances, as defined in the Plan document. The Plan's ESOP component is designed to invest in Bancorp Stock in order to comply with Section 4975(e)(7) of the Code and Income Tax Regulation 54.4975-11. Upon enrollment in the Plan, participants may direct their contributions in one of the applicable investment options or allocate between the investment options. Participants may change the allocation of contributions or make transfers between the investment options at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits

A participant, upon termination of service for any reason, is eligible to receive the vested interest in his or her account in a lump sum. If such vested interest is greater than \$1,000, then the participant may elect to defer distribution. If the vested account balance exceeds \$1,000, the assets will generally be held in the Plan until the later of the participant's normal or early retirement date or the tenth anniversary of the year in which participation began in the Plan.

A financial hardship withdrawal can be made for an immediate and heavy financial need that, among other things, cannot be satisfied through certain other sources available to the participant.

Notes Receivable from Participants

The Plan permits a participant to borrow from their account a minimum of \$500 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less.

Borrowings generally must be repaid within five years and are secured by a pledge of the participant's account balance and bear interest at rates that range from 3.0% to 8.5% at December 31, 2014. Borrowings are generally repaid through payroll deductions. Notes receivable from participants are stated at their unpaid principal balances plus accrued unpaid interest.

Forfeitures

The non-vested portion of a terminated participant's account is placed in a separate account and becomes forfeited upon date of termination of employment. Forfeitures of participant's accounts are available to the Company to reduce the Company's contribution. Forfeitures must be allocated to participants' accounts in the following order: (i) matching contribution forfeitures being used to reduce the matching and basic contributions, (ii) profit sharing forfeitures being used to reduce basic and profit sharing contributions, and (iii) ESOP contribution forfeitures allocated to eligible participants' accounts. At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$113,860 and \$95,961 respectively. During the year ended December 31, 2014, forfeitures applied against the basic and transition contributions amounted to \$95,961.

Voting Rights

Each participant or beneficiary shall be entitled to direct the Trustee how to vote the shares allocated to their account. The Trustee shall vote all unallocated shares held by the Plan in the manner that reflects the voting instructions received from participants regarding allocated shares, provided that such votes do not conflict with ERISA or the Trustee's fiduciary duties.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust fund. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts held in the collective trust fund as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investments Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion of fair value measurements. Purchases and sales of

securities are recorded on a trade date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Company pays the administrative costs of the Plan to the extent they are not paid by the Plan.

Loan Payable - The balance of funds borrowed from the Bancorp under the Loan Agreement is recorded as a loan payable. The Loan Agreement is more fully described in Note 3.

Subsequent Events - The Plan evaluated subsequent events for recognition or disclosure through June 24, 2015, the date the financial statements were available to be issued.

3. ESOP FEATURE

On July 13, 2007, the Plan purchased shares of Bancorp Stock using the proceeds of a borrowing from the Bancorp and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of twenty years funded by Company contributions to the trust fund.

Under the ESOP feature of the Plan, the Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payment of principal and interest due on its term indebtedness to the Bancorp. As the Plan makes each payment of principal and interest, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with the applicable regulations of the Code and the provisions of the Plan.

The unallocated shares of Bancorp Stock collateralize the loan. The lender, Bancorp, has no rights against the shares once they are allocated under the Plan. Accordingly, the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits include the assets and liabilities and changes therein pertaining to accounts of employees with rights in allocated stock and stock not yet allocated to employees.

There are two types of ESOP contributions that can be made to the Plan: a Company discretionary contribution amount as determined by the Board of Trustees of the Company and a Company loan repayment contribution.

Each plan year, the Company shall, subject to any regulatory prohibitions, contribute an amount of cash sufficient to enable Pentegra Trust Company (the "Trustee") to make principal and interest payments that become due on the loan. When the Company makes a loan repayment contribution to the Plan, the Trustee repays a portion of the loan and releases a portion of the stock held in a loan suspense account to the accounts of active participants to fund basic, profit sharing, matching and transition contributions. Also, the Company, at its discretion, may make an additional contribution to the Plan not related to the acquisition loan each plan year. No discretionary contributions were made for 2014 or 2013.

The Plan's allocated and unallocated assets and liabilities for the years presented are as follows as presented on the Statement of Net Assets Available for Benefits:

December 31, 2014

	<u>Allocated</u>	<u>Unallocated</u>	<u>Total</u>

Net assets(deficit), end of year	<u>\$ 54,325,967</u>	<u>\$ (1,061,603)</u>	<u>\$ 53,264,364</u>

The Plan borrowed \$32,247,720 from the Bancorp at a fixed interest rate of 8.25%, in order to purchase 3,224,772 shares of Bancorp Stock on July 13, 2007. The loan balance at December 31, 2014 was \$18,614,967. The loan can be prepaid at any time (in whole or in part) prior to the end of the twenty-year term, subject to certain IRS limits. As of December 31, 2014, 1,430,592 shares of Bancorp Stock were unallocated.

Scheduled principal payments on the loan consisted of the following at December 31, 2014:

2015	\$ 1,728,559
2016	1,875,638
2017	2,035,231

2019	2,396,311
Thereafter	<u>8,370,824</u>
	<u>\$18,614,967</u>

4. INVESTMENTS

The Plan's investments that represented five percent or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Beneficial Bancorp, Inc. Common Stock	\$32,943,429	\$30,657,168
Wells Fargo Stable Value Fund C	6,735,446	6,710,258
T. Rowe Price Blue Chip Growth Fund	6,447,957	6,082,917

American Funds Europacific Growth Fund R6	3,103,778	3,710,072
US Small Cap Portfolio	N/A	2,627,561

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$1,337,598
Common stock	3,865,447
Collective trust fund	<u>81,927</u>
Net Appreciation in Fair Value of Investments	<u>\$5,284,972</u>

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend, modify, suspend, or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, partial or complete, affected participants will become 100% vested in their accounts.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 19, 2013 that the Plan, subject to certain amendments as required by the Internal Revenue Service, complies with applicable sections of the Code. Although the Plan has been amended since that date, the Committee believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. RELATED PARTY TRANSACTIONS

Certain Plan investments consist of shares of Bancorp Stock, shares of mutual funds and balances in money market funds that are managed by the Trustee and the Company. In addition, the Plan issues loans to participants, which are secured by the balances in the participants' accounts. Therefore, related transactions qualify as party-in-interest transactions. The Plan maintains a loan with the Bancorp with a balance of \$18,614,967 at December 31, 2014. Please refer to Note 3 for further information.

At December 31, 2014 and 2013, the Plan held 2,684,876 shares and 2,807,433 shares, respectively, of Bancorp Stock, with a fair value of \$32,943,429 and \$30,657,168, respectively.

8. ADMINISTRATION OF PLAN ASSETS

The Plan's assets are held by Reliance Trust Company (the "Custodian").

Company contributions are managed by the Trustee, which invests cash received, interest, and dividend income and processes distributions to participants. The Trustee also administers the payment of interest and principal on the loan payable, which is reimbursed to the Trustee through contributions as determined by the Company. Administrative expenses for the Trustee's fees are paid directly by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, concentration and credit risks. As of December 31, 2014, 46.7% of the Plan's investment securities consisted of shares of Bancorp Stock. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10. FAIR VALUE MEASUREMENTS

The Plan measures on a recurring basis its investments at fair value in accordance with FASB codification "Fair Value Measurement," which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuations techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs. The three levels of fair value hierarchy are as follows:

Level 1 - Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable, and market-corroborated inputs which are derived principally from or corroborated by observable market data.

Level 3 - Inputs are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable. Examples of valuation methodologies that result in Level 3 classification include option pricing models, discounted cash flows, and other similar techniques.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Level 1 Fair Value Measurements

The fair values of money market and mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks are valued at the closing price reported in the active market on which the individual securities are traded.

Level 2 Fair Value Measurements

The collective trust fund is valued based upon the units of the collective trust fund held by the Plan at year end multiplied by the respective unit value. The unit value of the collective trust fund is based upon significant observable inputs, although is not based upon quoted market prices in an active market. The collective trust fund invests in investment contracts and security-backed contracts. A security backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. The underlying investments of the collective trust fund consist primarily of Level 2 inputs, consisting of inputs either directly or indirectly observable for substantially the full term of the asset through corroboration with observable market data. The Plan's investment in the collective trust fund is not subject to any withdrawal restrictions and distributions may be taken at any time. The Plan has no unfunded commitments relating to the collective trust fund at December 31, 2014.

Level 3 Fair Value Measurements

The Plan does not hold any Level 3 investments.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no changes between Levels 2 and 3 during 2014. The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:
