Report of Independent Registered Public Accounting Firm

To the Board of Directors
Investors Heritage Capital Corporation

We have audited the accompanying statements of net assets available for benefits of the IHCC Retirement Savings Plan and Trust (the "Plan") as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

IHCC Retirement Savings Plan and Trust

Notes to Financial Statements

December 31, 2014 and 2013

1. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the IHCC Retirement Savings Plan and Trust (the Plan) are prepared on the accrual basis of accounting.

Valuation of Investments and Income Recognition

Investments are stated at fair value based upon quoted market prices on the last business day of the Plan year. Quoted market prices are based on the last reported sales price on the last business day of the year, and securities traded in the over-the-counter market for which no sale was reported on that date are valued at bid quotations.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. The change in fair value of investments from one period to the next and realized gains and losses are recorded as net appreciation (depreciation) in fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Plan as determined by Investors Heritage Capital Corporation (Investors Heritage Capital or the Sponsor).

Subsequent Events

Management has evaluated all events subsequent to December 31, 2014 through the date that these financial statements have been issued.

IHCC Retirement Savings Plan and Trust

Notes to Financial Statements (continued)

2. Description of the Plan

The Plan is a defined contribution plan, sponsored by Investors Heritage Capital that was established as an incentive to eligible employees of Investors Heritage Capital, Investors Heritage Life Insurance Company (Investors Heritage Life), and Investors Heritage Printing, Inc. (collectively, the Participating Companies).

On June 21, 2012, the Board of Directors of Investors Heritage Capital authorized an amendment to the Plan, under which, effective June 30, 2012, participants in the Plan shall not be eligible to elect to defer and contribute compensation earned to the Plan; the Participating Companies will not make any matching contributions to the Plan; and the Plan will not accept rollover contributions. Mutual fund investments within the Plan were transferred to a new Plan for those employees subsequent to June 30, 2012.

The Plan includes an employee stock ownership plan (ESOP) fund. All participant and employer matching contributions credited to a participant's account that are invested in qualifying employer securities are invested in the ESOP fund. Dividends paid on qualified employer securities held in the ESOP fund are either reinvested in the ESOP fund or paid directly to the participant, at their election.

The Plan is administered by a committee appointed by the Board of Directors of Investors Heritage Capital. Investors Heritage Capital has a Service and Expense Agreement with The Principal Financial Group (The Principal) whereby The Principal provides various administrative services to the Plan and its participants. In conjunction with this Agreement with The Principal, Investors Heritage Capital has a Trust Agreement with respect to the ESOP fund assets with Wilmington Trust Retirement and Institutional Services Company (WTRISC). The trustee with respect to the remainder of the Plan assets is Delaware Charter Guarantee and Trust Company, D/B/A Principal Trust Company. Purchases of investments in Investors Heritage Capital common stock by WTRISC for the Plan may be made in open market transactions with unrelated parties or may be purchased directly from Investors Heritage Capital or Investors Heritage Life.

Each participant's account is credited with an allocation of (a) Plan earnings and (b) prior to June 30, 2012, participant's contributions and an allocation of Employer contributions. In addition, each participant's account may be charged with an allocation of administrative expenses. Allocations are based on participant elective contributions or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts shall first be applied to the restoration of forfeitures and then shall be used to pay administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

IHCC Retirement Savings Plan and Trust

Notes to Financial Statements (continued)

2. Description of the Plan (continued)

Participants are fully vested as to employee contributions. Participants are partially vested as to their share of employer contributions after two years of service and fully vested after six years. Participants who reach the normal retirement age while employed by the Participating Companies also will be fully vested. On termination of service for death, disability, or retirement, a participant may elect to receive either a lump-sum amount or monthly, quarterly, or annual installments equal to the vested value of his or her account in the form of cash or in the form of employer securities allocated to their account. During 2014 and 2013, the number of shares distributed to participants were 32,489 and 1,283, respectively. Prior to selling or otherwise disposing of any Investors Heritage Capital common stock held within the Plan, a former participant must first offer to sell it to the Participating Companies at fair market value as determined by an independent appraiser. During 2014 and 2013, the Participating Companies repurchased from the Plan 4,603 and 12,303 shares of Investors Heritage Capital common stock, respectively, at prices determined by an independent appraiser.

When an employee withdraws from the Plan, the non-vested portion of the participating employer's contributions is forfeited. If a terminated employee returns to employment within five years, the Plan would be required to reinstate the participant's account upon repayment of amounts previously distributed to the employee.

The Board of Directors of Investors Heritage Capital is authorized to amend or terminate the Plan at any time. Further, the Board of Directors of any of the Participating Companies may, at any time, terminate their participation in the Plan with respect to the employees of that company. Should the Plan be terminated, each participant's account would become 100% vested.

More detailed information concerning the Plan may be found by consulting the *Summary Plan Description*.

IHCC Retirement Savings Plan and Trust

Notes to Financial Statements (continued)

3. Investments

As of December 31, 2014 and 2013, assets of the Plan were held in Investors Heritage Capital common stock.

The Plan's investments (including investments bought, sold, and held during the year) changed in value as follows:

	<u>Year Ended December 31</u>	
	<u>2014</u>	<u>2013</u>
Net realized and unrealized appreciation in aggregate fair value of investments:		
Common stock	\$ 207,922	\$ 1,078,943

The Plan's investments in common stock of Investors Heritage Capital represented more than 5% of the Plan's net assets at December 31, 2014 and 2013.

4. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated November 19, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Retirement Committee believes the Plan is being operated in compliance with the applicable provisions of the Code and, therefore, believes the Plan is qualified and the related trust is tax exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

IHCC Retirement Savings Plan and Trust

Notes to Financial Statements (continued)

5. Transactions with Related Parties

At December 31, 2014 and 2013, the Plan held 294,467 and 331,559 shares, respectively, of common stock of Investors Heritage Capital, with a cost basis of \$5,474,933 and \$6,164,579, respectively. During 2014 and 2013, the Plan recorded dividend income on the common stock of \$66,312 and \$86,286, respectively. In addition, during 2014 and 2013, the Plan had sales of the common stock of \$103,577 and \$286,541, respectively.

Certain administrative expenses for the Plan have been paid by the Participating Companies. The Plan was charged \$8,000 for administrative services in connection with the independent valuation of Investors Heritage Capital common stock during 2014 and 2013.

6. Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

7. Concentration of Credit Risk

Included in investments at December 31, 2014 and 2013 are shares of the Sponsor's common stock with a fair value of \$6,316,313 and \$6,863,275, respectively. This investment represents 100% of total investments at December 31, 2014 and 2013. A significant decline in the market value of the Sponsor's stock would significantly affect the net assets available for benefits.

8. Fair Values of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. We also consider the impact on fair value of a significant decrease in volume and level of activity for an asset or liability when compared with normal activity.

IHCC Retirement Savings Plan and Trust

Notes to Financial Statements (continued)

8. Fair Values of Financial Instruments (continued)

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common stocks: Valued at the closing price reported in an inactive market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

IHCC Retirement Savings Plan and Trust

Notes to Financial Statements (continued)

8. Fair Values of Financial Instruments (continued)

The following table presents the Plan's fair value hierarchy for those financial instruments measured at fair value on a recurring basis as of December 31, 2014 and 2013.

	December 31, 2014			
	Level 1	Level 2	Level 3	Total
Common stock	\$ -	\$ 6,316,313	\$ -	\$ 6,316,313

	December 31, 2013			
	Level 1	Level 2	Level 3	Total
Common stock	\$ -	\$ 6,863,275	\$ -	\$ 6,863,275

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
