INDEPENDENT AUDITOR'S REPORT

To the Members of
CAVU Securities, LLC
New York, NY

We have audited the accompanying statement of financial condition of CAVU Securities, LLC as of December 31, 2015, that you are filing pursuant to rule 17a-5 under the Securities Exchange Act 1934. This financial statement is the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of CAVU Securities, LLC at December 31, 2015 in conformity with principles generally accepted in the United States.

CAVU Securities, LLC
Notes to Statement of Financial Condition
December 31, 2015

1. Organization

CAVU Securities, LLC (the “Company”) is a Delaware limited liability company registered as a broker-dealer with the Securities and Exchange Commission (“SEC”) and the Financial Industry Regulatory Authority, Inc. (“FINRA”). The liability of the Company’s members for the losses, debts and obligations of the Company is generally limited to their capital contributions. The Company has endeavored to contribute a portion of its revenues to military and veteran charities.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Company have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

Cash and cash equivalents include highly liquid investments with maturities of three months or less. The Company’s cash balances are insured up to \$250,000 by the Federal Deposit Insurance Corporation resulting in periodic instances in which balances have been in excess of such insurance coverage.

Income Taxes

As the Company has elected to be treated as a partnership for income tax purposes, no provision for income taxes has been made in the accompanying financial statements. The Company’s members are required to report their respective shares of the Company’s income or loss on their individual income tax returns.

Evaluation of Subsequent Events

The Company has evaluated subsequent events through February 24, 2016, the date the financial statements were available for issuance.

3. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Fair value is a market-based measurement that should be determined based on the assumptions market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, a fair value hierarchy is established that distinguishes between (1) market participant assumptions developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). Valuation techniques used to measure fair value shall maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels, as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

The following table summarizes the valuation of the Company's investments by fair value hierarchy as described above as of December 31, 2015:

Level 3 Warrants to purchase up to 7,500 shares of Mobiquity Technologies, Inc.	<u>\$517</u>
---	--------------

4. Clearing Broker

The Company introduces its customers on a fully-disclosed basis to Pershing, LLC ("Pershing" who it also uses to clear its proprietary securities transactions. In accordance with its clearing agreement with Pershing, the Company must maintain a clearing deposit of \$100,000.

5. Professional Employer Organization ("PEO")

The Company leases its employees through a PEO and, accordingly, is not the employer of record for tax and insurance purposes.

6. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1, the "Rule"), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, as both defined, shall not exceed 15 to 1. In

CAVU Securities, LLC
Notes to Statement of Financial Condition
December 31, 2015

accordance with the Rule, the Company is required to maintain defined minimum net capital equal to the greater of \$100,000 or 1/15 of aggregate indebtedness.

At December 31, 2015, the Company had net capital, as defined, of \$930,279, which exceeded the required minimum net capital of \$100,000 by \$830,279. Aggregate indebtedness at December 31, 2015 totaled \$175,843. The ratio of aggregate indebtedness to net capital was .19 to 1.

7. Subordinated Liabilities

On June 8, 2015, the Company borrowed monies from one of its members under two subordinated loan agreements. The loans are for \$150,000 (the "Equity Loan") and \$350,000 (the "Debt Loan"), bear interest at 10% per annum and mature after three and one years, respectively. The loans conform to the requirements of the Rule in that they are available for net capital. Interest on the Equity Loan is capitalized into the principal amount of the Equity Loan while interest on the Debt Loan is payable in a balloon payment at maturity. The Equity Loan is considered as equity for purposes of the debt to equity limitations within the Rule as long as its remaining term is not less than twelve months. Further, the Company, with FINRA's approval, may prepay the Equity Loan after one year.
