NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Taxes

No provision for federal and state income taxes have been made for the Company since, as a limited liability company, the Company is treated as a partnership. The Company's income or loss is reportable by its members on their tax returns. The Company has determined that there are no uncertain tax positions which require adjustment or disclosure on the financial statements. The tax years that remain subject to examination by taxing authorities are 2012, 2013, and 2014. The Company is subject to New York City Unincorporated Business Tax, a provision for which is reported on the statement of operations.

Fair Value Hierarchy

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities the Company can access at the measurement date.
- Level 2. Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3. Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments

categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The investment of the Company at December 31, 2015 consists of publicly traded shares categorized as Level 1.

NOTE 2 - NET CAPITAL REQUIREMENT

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the 'applicable' exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2015, the Company had net capital of \$64,218, which was \$58,159 in excess of its required net capital of \$6,059. The Company's net capital ratio was 1.42 to 1.

NOTE 3 - RELATED PARTY TRANSACTIONS

The Company has an agreement with S. D. Daniels & Co., CPA, P.C. ("SDDCO"), a related entity, whereby SDDCO provides certain administrative services and the use of certain office space in connection with the Company's operations. In exchange for these services and office space, the Company is billed a representative allocation of direct expenses based on square footage, human resources and other related factors. The Rent allocation is a month-to-month expense with the SDDCO lease expiring in December 2022. For the year ended December 31, 2015, expenses allocated to the Company by SDDCO were \$163,923 and are included in various categories of the accompanying statement of operations. SDDCO as the majority owner, also guarantees to provide all necessary capital to the Company, in the event of extraordinary circumstances and the maintenance of adequate net capital.

NOTE 4 - SIGNIFICANT GROUP CONCENTRATION OF RISK

The Company's policy is to continuously monitor its exposure to market and counterparty risk through the use of a variety of financial, position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the credit standing of each broker-dealer, clearing organization, customer and/or other counterparty with which it conducts business.
