SVB SECURITIES
(A Wholly Owned Subsidiary of Silicon Valley Bank)

Notes to Financial Statements

December 31, 2015

(1) Organization and Summary of Significant Accounting Policies

SVB Securities (the "Company") is a wholly owned subsidiary of Silicon Valley Bank (the "Bank"), which is a wholly owned subsidiary of SVB Financial Group (the "Parent"). The Company is incorporated in the state of California. The Company's business includes distribution of investment products and services, which involves introducing mutual funds and fixed income securities on an agency or riskless principal basis. The Company introduced a new Strategic Advisory Services business in 2015, which includes landscaping, deal sourcing, introduction, benchmarking, valuation, and structuring services and general transaction support for clients. There was no material financial impact to the Company resulting from this for the year ended December 31, 2015. The Company is a fully disclosed introducing broker and does not hold customer accounts.

The Company is registered as a U.S. broker-dealer in securities under the Securities Exchange Act of 1934 (the "Act") and is subject to the regulations pertaining to the Act. The Company, a member of the Financial Industry Regulatory Authority, is licensed in 49 states and the District of Columbia. The Company is subject to various governmental rules and regulations including Net Capital Rule set forth in Rule 15c-1 of the Act.

For the year ended December 31, 2015, the Company earned 52% of its revenue from clients in the Western United States, and 17% of its revenue from clients located in the Eastern United States. The remaining 31% of its revenue is from clients located in all other regions in the United States. The Company's custodian (clearing broker) is Apex Clearing Corporation.

(a) Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates may change as new information is obtained. A significant item that is subject to such estimate is the measurement of net deferred taxes.

(b) Basis of Accounting

The Company prepares its financial statements in conformity with GAAP.

(c) Revenue Recognition

Client investment fees include fees earned from Rule 12(b)-1 fees, revenue sharing fees and customer transactional based fees. Rule 12(b)-1 fees and revenue sharing fees are recognized as earned based on client funds that are invested in the period. Transactional based fees are earned and recognized on fixed income securities when the transaction is executed on the client's behalf.

SVB SECURITIES
(A Wholly Owned Subsidiary of Silicon Valley Bank)

Notes to Financial Statements

December 31, 2015

The Company did not enter into any engagement contracts or earn any revenues from the new Strategic Advisory Services business during the year ended December 31, 2015.

The Company also recognizes interest income on its interest-earning cash equivalents as it is earned.

(d) Cash and Cash Equivalents

Cash and cash equivalents consist of cash balances due from banks and money market mutual funds. The Company considers cash equivalents to be investments that are readily convertible to known amounts of cash, so near to their maturity that they present an insignificant risk of change in fair value due to changes in market interest rates, and purchased in conjunction with the Company's cash management activities.

Money market mutual funds are open-ended mutual funds that invest in short-term debt securities whose objective is to provide a return for investors while maintaining a stable net asset value ("NAV") of \$1.00 per share. Because of the stable NAV and the nature of securities that money market funds invest in, they are typically viewed as cash equivalents. The Company currently employs money market mutual funds that invest exclusively in securities that are backed by the full faith and credit of the U.S. Government and repurchase agreements collateralized by such securities.

(e) Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are recorded at the invoiced amount and do not earn interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable. The Company reviews the allowance for doubtful accounts quarterly. Each receivable over 90 days is individually reviewed for collectability. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company has not charged off any receivables in 2015 and there is no balance in the allowance for doubtful accounts as of December 31, 2015.

(A Wholly Owned Subsidiary of Silicon Valley Bank)

Notes to Financial Statements

December 31, 2015

(f) Premises and Equipment

Premises and equipment are reported at cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets or the terms of the related leases, whichever is shorter. The maximum estimated useful lives by asset classification are as follows:

Leasehold improvements	Lesser of lease term or asset life
Furniture and equipment	7 years
Computer software	3 - 7 years
Computer hardware	3 - 5 years

The Company capitalizes the costs of computer software developed or obtained for internal use, including costs related to developed software, purchased software licenses and certain implementation costs. For property and equipment that is retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and the resulting gain or loss is included in other expenses in the statement of operations. As of December 31, 2015, all premises and equipment have been fully depreciated and amortized.

(g) Fair Value of Financial Instruments

The carrying value of the Company's financial instruments approximates fair value due to the short-term nature of the instruments.

(h) Income Taxes

The Company's results are included in the consolidated federal income tax return and the combined California franchise tax return of the Parent and subsidiaries. The Company records income taxes as if the Company were to file a separate stand-alone tax return for federal and state income tax purposes. The Company is subject to a tax-sharing agreement that requires the Company to pay its federal and state tax liability periodically. The tax-sharing agreement provides for settlement of the tax liability accounts through the use of intercompany accounts. Amounts for the current year are based upon estimates and assumptions as of December 31, 2015 and could vary from amounts shown on the tax returns, when filed.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Federal and state income tax provisions are based upon taxes payable for the current year as well as current year changes in deferred taxes related to temporary differences between the tax basis and financial statement balances of assets and

liabilities. Deferred tax assets and liabilities are included in the financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

The Company has adopted the recognition requirements for uncertain income tax positions as required by FASB ASC 740, *Income Taxes*. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed the tax positions taken in its filings with the Internal Revenue Service and state jurisdictions where it operates. The Company believes that its income tax filing positions taken in the returns represent highly certain positions and are supported by clear and unambiguous tax laws for which the benefit will be sustained upon audit. Accordingly, the Company has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions at December 31, 2015.

(i) Share-Based Compensation

For all stock-based awards granted, stock-based compensation expense is amortized on a straight-line basis over the requisite service period, including consideration of vesting conditions and anticipated forfeitures. The fair value of stock options are measured using the Black-Scholes option-pricing model and the fair value for restricted stock awards and restricted stock units are based on the quoted price of the Parent's common stock on the date of grant.

(2) Other Short-Term Investment Securities

As of December 31, 2015, other short-term investment securities included \$5,123,590 of money market mutual funds. Average balance of money market mutual funds in 2015 was \$5,122,502.

(3) Income Taxes

There were no unrecognized tax benefits at December 31, 2015. The Company recognizes interest and penalties related to unrecognized tax benefits as a component of operating expenses. There were no interest and penalties related to unrecognized tax benefits at December 31, 2015.

SVB SECURITIES
(A Wholly Owned Subsidiary of Silicon Valley Bank)

Notes to Financial Statements

December 31, 2015

Total income tax benefit for the year ended December 31, 2015 consists of the following:

Current:	
Federal	\$ (424,182)
State	<u>(108,200)</u>
	<u>(532,382)</u>
Deferred:	
Federal	10,663
State	<u>(6,831)</u>
	3,832
Total income tax benefit	<u>\$ (528,550)</u>

The reconciliation between the Company's effective tax rate on loss from continuing operations and the statutory rate is as follows:

Income tax benefit at federal statutory rate	\$ (436,783)
State tax benefit, net of federal income tax expense	(74,770)
Other	<u>(16,997)</u>
Total income tax benefit	<u>\$ (528,550)</u>

The deferred tax liabilities, net, as of December 31, 2015 consist of the following:

Deferred tax assets:	
Premises and equipment depreciation	\$ 14,828
Accrued compensation	7,240
Deferred tax liabilities:	
State income taxes	<u>(41,490)</u>
Deferred tax liabilities, net	<u>\$ (19,422)</u>

The Company believes a valuation allowance is not needed to reduce the deferred tax assets as it is more likely than not that the deferred tax assets will be realized through recovery of taxes previously paid and/or future taxable income of the Company's affiliated group. Accordingly, no valuation allowance has been established as of December 31, 2015.

Notes to Financial Statements

(4) Related-Party Transactions

The Company is a party to an expense sharing agreement with affiliates in the Parent's consolidated group. The agreement requires that certain direct and indirect expenses be allocated to and from the Company and net settled on a monthly basis. Direct expenses consist of salary costs based on a percentage of Bank employee time dedicated to Company activities and rent expenses based on square footage of space used, which is derived from number of employees. Indirect expenses include an overhead burden, which mainly includes compensation and benefits, professional services, premises and equipment and other operating expenses, based on an overhead rate and the direct expense allocation of salary costs.

The Company reimbursed the Bank and its affiliates \$1,299,509 for expenses paid by the Bank on the Company's behalf for the year ended December 31, 2015. These expenses are included in the statement of operations and were a combination of direct and indirect costs. At December 31, 2015, the Company had a payable of \$1,215 to Bank and its affiliates related to these expenses.

The Bank and its affiliates reimbursed the Company \$148,956 for expenses paid by the Company on the Bank's behalf for the year ended December 31, 2015. These were a combination of direct and indirect costs.

At December 31, 2015, the Company also had receivables from the Parent of \$530,288 related to taxes receivable (see note 1(h)) and other expenses and reimbursements.

The Company maintains noninterest-earning cash accounts with the Bank, which totaled \$2,625,199 as of December 31, 2015.

(5) Employee Compensation and Benefit Plans

Employees of the Company are eligible to participate in the following plans sponsored by the Parent: (i) Incentive Compensation Plan; (ii) 401(k) and Employee Stock Ownership Plan; (iii) Employee Home Ownership Plan; (vi) Equity Incentive Plan; and (vii) Employee Stock Purchase Plan. The Equity Incentive Plans and the Employee Stock Purchase Plan are described in Note 6—"Share-Based Compensation."

(a) Incentive Compensation Plan

The Incentive Compensation Plan ("ICP") is an annual cash incentive plan that rewards performance based on the Parent's consolidated financial results and other performance criteria. Awards are made based on the Parent's performance, the employee's target bonus level, and management's assessment of individual employee performance. The Company recognized ICP expense of \$20,720 in the statement of operations as part of compensation and benefits expense for the year ended December 31, 2015, and the related accrual is expected to be paid to the employees in the first quarter of 2016.

Notes to Financial Statements

December 31, 2015

(b) 401(k) and Employee Stock Ownership Plan

The 401(k) and Employee Stock Ownership Plan ("ESOP"), collectively referred to as the "Plan", is a combined 401(k) tax-deferred savings plan and employee stock ownership plan in which all regular United States employees of the Parent and its affiliates are eligible to participate.

Employees participating in the 401(k) are allowed to contribute up to 75% of their pre-tax pay as defined in the Plan, up to the maximum amount allowable under federal income tax regulations of \$18,000 for 2015. The Company matches the employee's contribution dollar-for-dollar, up to 5% of the employee's pre-tax pay as defined in the Plan. The Company's matching contributions vest immediately. The amount of salary deferred, up to the allowed maximum, is not subject to federal or state income taxes at the time of deferral. The Company's expense related to the 401(k) was \$2,467 for the year ended December 31, 2015.

Discretionary ESOP contributions, based on the Parent's performance, are made by the Parent to all eligible individuals employed by the Parent or its subsidiaries on the last day of the fiscal year. The Parent may elect to contribute cash, or the Parent's common stock (or a combination of cash and common stock), in an amount not exceeding 10% of the employee's eligible pay earned in the fiscal year. The ESOP contributions vest in equal annual increments over five years during a participant's first five years of service (thereafter all subsequent ESOP contributions are fully vested). The Company's expense related to ESOP was \$3,730 for the year ended December 31, 2015.

(c) Employee Home Ownership Plan

The Employee Home Ownership Plan ("EHOP") is a benefit plan that provides for the issuance of mortgage loans at favorable interest rates to eligible employees. Eligible employees may apply for a fixed-rate mortgage for their primary residence, which is due and payable in either five or seven years and is based on amortization over a 30-year period. Applicants must qualify for a loan through the normal mortgage review and approval process, which is typical of industry standards. The maximum loan amount generally cannot be greater than 80 percent of the lesser of the purchase price or the appraised value. The interest rate on the loan is written at the then market rate for five year (5/1) or seven year (7/1) mortgage loans as determined by the Bank. However, provided that the applicant continues to meet all of the eligibility requirements, including employment, the actual rate charged to the borrower shall be up to 2 percent below the market rate. The loan rate shall not be less than the greater of either the jumbo conforming market rate (corresponding to the maturity of the loan) or the monthly Applicable Federal Rate for medium-term loans as published by the Internal Revenue Service. The loan rate will be fixed at the time of approval and locked in for 30 days.

(6) Share-Based Compensation

Share-based compensation expense was recorded net of estimated forfeitures for the year ended December 31, 2015, such that expense was recorded only for those share-based awards that are expected to vest.

SVB SECURITIES
(A Wholly Owned Subsidiary of Silicon Valley Bank)

Notes to Financial Statements

December 31, 2015

For the year ended December 31, 2015, the Company did not record any share-based compensation expense nor amount recorded in related tax benefit.

(a) Equity Incentive Plans

On May 11, 2006, stockholders of the Parent approved the 2006 Equity Incentive Plan (the "2006 Incentive Plan"). The previous 1997 Equity Incentive Plan expired in December 2006. The 2006 Incentive Plan provides for the grant of various types of incentive awards, of which the following have been granted: (i) stock options; (ii) restricted stock awards; (iii) restricted stock units; and (iv) other cash or stock settled equity awards.

Subject to the provisions of Section 16 of the 2006 Incentive Plan, the maximum aggregate number of shares that may be awarded and sold thereunder is 9,528,505.

Restricted stock awards and restricted stock units will be counted against the available-for-issuance limits of the 2006 Incentive Plan as two shares for every one share awarded. Further, if shares acquired under any such award are forfeited or otherwise cancelled by the Parent and would otherwise return to the 2006 Incentive Plan, two times the number of such forfeited or repurchased shares will return to the 2006 Incentive Plan and will again become available for issuance.

Eligible participants in the 2006 Incentive Plan include directors, employees, and consultants. Options granted under the 2006 Incentive Plan expire seven years after the grant date. Options generally vest annually over four years, from grant date based on continued employment. Restricted stock awards and units generally vest over four years and require continued employment or other service through the vesting period. Performance-based restricted stock units generally vest upon meeting certain performance-based objectives and, typically the passage of time and require continued employment or other service through the vesting period. The vesting period for restricted stock units cannot be less than three years unless they are subject to certain performance-based objectives, in which case the vesting period can be 12 months or longer.

(b) Employee Stock Purchase Plan ("ESPP")

The Parent maintains the 1999 ESPP under which participating employees may annually contribute up to 10% of their gross compensation (not to exceed \$25,000) to purchase shares of the Parent's common stock at 85% of its fair market value at either the beginning or end of each six-month offering period, whichever price is less. To be eligible to participate in the ESPP, an employee must, among other requirements, be employed by the Company on both the date of offering and date of purchase, and be employed customarily for at least 20 hours per week and for at least five months per calendar year. There were 11 shares of the Parent's common stock issued to a Company employee and the Parent received \$1,458 in cash from the Company employee under the ESPP in 2015. At December 31, 2015, a total of 425,728 shares of the Parent's common stock were still available for future issuance under the ESPP.

(c) Unrecognized Compensation Expense

As of December 31, 2015 there was no unrecognized share-based compensation expense for the Company.

(d) Valuation Assumptions

The fair values of share-based awards for employee stock options and employee stock purchases made under the ESPP were estimated using the Black-Scholes option pricing model. The fair values of restricted stock units were based on the Parent's closing stock price on the date of grant. There were no stock options or restricted stock units were granted during the year ended December 31, 2015. The following weighted average assumptions and fair values were used for the ESPP:

ESPP	2015
Expected term in years	0.5
Weighted average expected volatility of the Parent's underlying common stock	25.9%
Risk-free interest rate	0.12
Expected dividend yield	—
Weighted average fair value	\$ 29.27

The expected term is based on the implied term of the stock options using factors based on historical exercise behavior. The expected volatilities are based on a blended rate consisting of the Parent's historical volatility and the Parent's expected volatility over a five-year term which is an indicator of expected volatility and future stock price trends. For 2015, expected volatility for the ESPP was equal to the historical volatility for the previous six-month period. The expected risk-free interest rate was based on the yields of Treasury Securities, as reported by the Federal Reserve Bank of New York, with maturities equal to the expected terms of the employee stock options.

(e) Share-Based Payment Award Activity

The table below provides stock option information related to the 2006 Incentive Plan for the year ended December 31, 2015:

	<u>Shares</u>	<u>Weighted average exercise price</u>
Outstanding at December 31, 2014	100	\$ 48.76
Employee transferred out	(100)	48.76
Outstanding at December 31, 2015	-	

There were no stock options granted or vested during the year ended December 31, 2015.

(7) Commitments and Contingencies

(a) Legal Matters

The Company may be subject to various pending and threatened legal actions, which arise in the normal course of business. The Company's management is not aware of any such pending or threatened litigation as of December 31, 2015.

(b) Regulatory Requirements

The Company is subject to the U.S. Securities and Exchange Commission ("SEC") Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital, as defined, and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. As of December 31, 2015, the Company had net capital for regulatory purposes, as defined by SEC Uniform Net Capital Rule 15c3-1 of \$5,170,067 which was \$5,148,727 in excess of its required net capital of \$21,340. The Company is exempt from Rule 15c3-3 under paragraph (k)(2)(ii) of the Act relating to the determination of reserve requirements because it does not maintain customer accounts or take possession of customer securities.

The Company did not receive any capital contributions in cash from the Bank or the Parent in 2015.

(8) Clearing Agreement

The Company is an introducing broker and clears transactions with and for customers on a fully disclosed basis with Apex Clearing Corporation (the "Clearing Broker"). Notes to Financial Statements

December 31, 2015

Cash held by the Clearing Broker is insured by the Securities Investor Protection Corporation and by supplemental insurance provided by the brokers. Such insurance protects against loss due to failure of the Clearing Broker, but not loss due to unfavorable changes in the fair value of securities. Management does not believe the Company is exposed to undue risk of loss thereon.

The Company functions as an introducing broker that places and executes customer orders, either as agent or on a riskless principal basis. The orders are then settled by the Clearing Broker which maintains custody of customers' securities.

The Company is also exposed to credit risk as it relates to the collection of receivables from third parties.

(10) Subsequent Events

The Company has evaluated all material subsequent events through February 23, 2016 and determined there are no events that require disclosure.

The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
