REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member Navian Capital Securities, LLC

We have audited the accompanying financial statements of Navian Capital Securities, LLC (the "Company"), which comprise the statement of financial condition as of December 31, 2015, and the related statements of operations, changes in member's equity, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements and supplemental information. The Company's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of the Company as of December 31, 2015, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The supplementary information has been subjected to audit procedures performed in conjunction with the audit of The Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Company and Operations

Navian Capital Securities, LLC (the "Company") is a broker/dealer registered under the Securities Exchange Act of 1934. The Company was formed on June 15, 2006 as a Delaware limited liability company; as such, its member possesses limited liability for obligations of the Company. The Company is a wholly-owned subsidiary of Navian Capital, LLC (the "Member"). The Company will continue to exist perpetually unless terminated earlier in accordance with the operating agreement.

As a member of Financial Industry Regulatory Authority, Inc. (FINRA), the Company is exempt from the requirements of Rule 15c3-3 of the Securities and Exchange Commission (SEC) because it operates under Section (k)(2)(ii) of that Rule.

Basis of Presentation

The accounting and reporting policies of the Company conform with accounting principles generally accepted in the United States of America ("GAAP") as contained in the Accounting Standards Codification ("ASC") issued by the Financial Accounting Standards Board ("FASB"). The financial statements of the Company have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. A summary of significant accounting polices follow and are described below to enhance the usefulness of the financial statements to the reader.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For statement of financial condition and cash flow purposes, the Company considers all highly liquid debt instruments, with a maturity of 3 months or less at date of purchase to be cash equivalents.

Accounts Receivable

Accounts receivable are stated at net realizable value. The Company provides an allowance for doubtful accounts based on management's periodic review of accounts. Accounts are considered delinquent when payments have not been received within the agreed upon terms, and are written off when management determines that collection is not probable. As of December 31, 2015, management had determined that no allowance for doubtful accounts is required.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fixed Assets

Fixed assets are stated at cost. Depreciation of fixed assets is recorded using the straight-line method over the estimated useful lives of the assets. Maintenance and repair costs are expensed as incurred.

The estimated useful lives of fixed assets are as follows:

Leasehold improvements	5 years
Office equipment	7 years
Furniture and fixtures	7 years
Computer equipment	3 years

The Company capitalizes leasehold improvements, office equipment, furniture and fixtures, and computer equipment with amounts over \$1,000.

Investments

The Company accounts for investments in accordance with the provisions of Accounting for Certain Investments in Debt and Equity Securities per the ASC standards which require that investments be categorized as held-to-maturity, trading, or available-for-sale. Securities classified as held to maturity are carried at cost only if the Company has the positive intent and ability to hold these securities to maturity. Unrealized gains on trading securities are included in earnings currently. Securities available-for-sale are carried at fair value with resulting unrealized gains or losses charged to equity. Cost of securities sold is determined by using the specific-identification method.

Net Capital Requirements

The Company is required to maintain a minimum net capital balance (as defined) of \$100,000 pursuant to the SEC's Uniform Net Capital Rule 15c3-1. The Company's net capital balance was \$143,257 at December 31, 2015. The Company must also maintain a ratio of aggregate indebtedness (as defined) to net capital of not more than 15 to 1. The Company's ratio was 2.2161 to 1 at December 31, 2015.

Concentrations of Credit Risk

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents. The Company places its cash and temporary cash investments with high credit quality financial institutions. At times such investments may be in excess of FDIC insurance limits.

Income Taxes

The Company, with the consent of its Member, has elected to be formed as a limited liability company. The operating agreement of the Company, construed under Delaware laws, states that the Company will be treated as a partnership for federal and state income tax purposes. In lieu of paying taxes at the company level, the members of a limited liability company are taxed on their proportionate share of a company's taxable income.

Therefore, no provision or liability for federal or state income taxes has been included in the accompanying financial statements.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes (Continued)

The Company follows the provisions of Accounting for Uncertainty in Income Taxes as required by the ASC standards. The Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would be more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company does not believe the financial statements include any uncertain tax positions. The Company's tax returns for 2013 through 2015 are subject to examination by the Internal Revenue Service (IRS); however, the Company has not been informed that the IRS intends to conduct such examinations.

Subsequent Events

In conformity with the ASC standards, the Company has evaluated for disclosure all subsequent events and transactions through February 19, 2016, which was the date the financial statements were available to be issued for the year ended December 31, 2015.

NOTE B - RESTRICTED CASH

The Company has an agreement with a Clearing Broker to collect for the Company and hold payment on all commissions. fees, and other charges established by the Company. The Company is required to maintain a minimum balance of \$25,000 or the Clearing Broker is not obligated to perform these services. As of December 31, 2015, the Company was above the minimum amount set forth in the agreement.

NOTE C – INVESTMENTS

The cost and estimated fair value of securities available for sale at December 31, 2015, were as follows:

		Gross	Gross	
	Amortized	Unrealized	Unrealized	Estimated
	Cost	Gains	Losses	Fair Value
Equity linked CDs	\$ 158,922	<u>s</u> -	\$ (742)	\$ 158,180

NOTE D - FAIR VALUE MEASUREMENTS

The Company follows the provisions of Fair Value Measurements and Disclosures as require by the ASC standards. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The topic provides guidance on various methods used to measure fair value including market, income and cost approaches. These approaches require the Company to utilize certain assumptions about risk. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Company attempts to utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the inputs used in the valuation techniques, the Company is required to classify the inputs under a fair value hierarchy that ranks the inputs based on their quality and reliability. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (which are considered "level 1" measurements) and

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

the lowest priority to unobservable inputs (which are considered "level 3" measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities in active markets that the Company has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than the Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Assets Measured at Fair Value on a Recurring Basis

The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2015, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

	December 31, 2015						
	Activ	oted Prices in e Markets for	Significant O Observabl		Significani Unobservab		
		ntical Assets (Level I)	Inputs (Level 2)	<u> </u>	Inputs (Level 3)		 Total
Equity linked CDs		158,180	_\$	-	\$	_	\$ 158,180

The fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. Current GAAP excludes certain financial instruments and all nonfinancial instruments from its fair value disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company. Changes in assumptions or estimation methodologies may have a material effect on these estimated fair values.

The Company's remaining asset and liabilities, which are not considered financial instruments, have not been valued differently than has been customary with historical cost accounting.

NOTE E - FIXED ASSETS

Fixed assets consisted of the following at December 31, 2015:

Furniture and fixtures	\$	4,674
Leashold improvements		7,907

Computer equipment		38,914

Less accumulated depreciation		(39,784)

NOTE F - LEASE AGREEMENT

The lease has primary terms of 41 months with an option to extend the terms of the lease an additional three years. On March 6, 2015, the option to extend the lease an additional three years was exercised. Total future minimum lease payments due for the next three years are as follows:

Total future minimum lease expense	\$ 212,432
Year Ending December 31, 2018	8,504

Year Ending December 31, 2016	\$ 101,876

Review Report of Independent Registered Public Accounting Firm

To the Member Navian Capital Securities, LLC Cincinnati, Ohio

We have reviewed management's statements, included in the accompanying Exemption from Reserve Requirements Under Rule 15c3-3 Report, in which (1) Navian Capital Securities, LLC ("the Company") identified the following provisions of 17 C.F.R. § 15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3: (k)(2)(ii), (the "exemption provisions") and (2) the Company stated that the Company met the identified exemption provisions throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the conditions set forth in paragraph (k)(2)(ii), of Rule 15c3-3 under the Securities Exchange Act of 1934.
