MOSS ADAMS CAPITAL LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 1 – Organization and Nature of Business

Moss Adams Capital LLC (the Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority (FINRA). The Company is a Limited Liability Company formed in Washington State. Moss Adams Capital LLC provides investment banking services to middle-market companies located in the Western United States.

Note 2 – Summary of Significant Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Banking – Investment banking revenue includes fees earned from providing merger-and-acquisition and financial restructuring advisory services. Contingent fees (such as those related to earn-out provisions) are recognized as revenue in the year earned.

Cash – The Company places its cash with a high-credit-quality financial institution. At times, cash balances may be in excess of the FDIC insurance limit.

Credit Risk – Credit risk is represented by unsecured trade accounts receivable. Bad debts are provided for using the allowance method based on historical experience and management's evaluation of outstanding accounts receivable at the end of each year.

Property and Equipment – Property and equipment are carried at cost. Depreciation is provided using a method that approximates the straight-line method over estimated useful lives of the assets.

Income Taxes – The Company is not a taxpaying entity for federal income tax purposes, and thus no federal income tax expense has been recorded in the statements. Income of the Company is taxed to the members in their respective returns. The Company is subject to a limited liability company fee in California.

Management evaluates its income tax positions on a regular basis and believes it has taken no significant uncertain tax positions that could result in additional taxes to the Company. The Company has not recognized any interest or penalties associated with uncertain tax positions. All income tax returns filed after 2011 remain subject to examination by governmental agencies.

Guaranteed Payments to Members – Guaranteed payments to members that are intended as compensation for services rendered are accounted for as expenses of the LLC rather than as allocations of LLC net income.

MOSS ADAMS CAPITAL LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION

Note 3 – Related Party Transactions

Moss Adams LLP (the majority member) owns 64% of the member equity interest in the Company. Three partners of the Company own the remaining 36%.

A payable of \$1,502,519 is included in the statement of financial condition to the majority member at December 31, 2015. Certain Company expenses are paid by the majority member on its behalf, and these items are charged against an intercompany accounts receivable/payable account. Additionally, the Company is charged varying monthly amounts from the majority member for such items as rent, administrative fees and allocated shares of operating expenses. Amounts included in expense for these items total \$945,236 in 2015.

As the Company and majority member are under common control, the Company's financial position and operating results may be significantly different from those that would have been obtained had the entities been autonomous.

Note 4 – Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2015, the Company had net capital of \$2,533,522 which was \$2,405,849 in excess of its required net capital of \$127,673. The Company's net capital ratio was .76 to 1 at December 31, 2015.

Note 5 – Commitments, Contingencies or Guarantees

Management is not aware of any unaccrued commitments, contingencies or guarantees that might result in a loss or future obligation.

Note 6 – Subsequent Events

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through February 25, 2016, the date the financial statements were available for issue.
