### **2. Significant Accounting Policies**

#### ***Basis of Presentation***

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

#### ***Use of Estimates***

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly actual results could differ from those estimates.

#### ***Cash Equivalents***

For purposes of the statement of cash flows, the Company considers all highly liquid investment instruments with a maturity of three months or less at the time of purchase to be cash equivalents.

### **2. Significant Accounting Policies (continued)**

#### ***Fair Value Measurements***

The Company follows Financial Accounting Standards Board (FASB) guidance on Fair Value Measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist. At December 31, 2015, all of the Company's investments were in equity securities, bonds, options and exchange traded funds (ETFs) which are valued using Level 1 inputs.

#### ***Investment Valuation and Income Recognition***

Investments are carried at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Realized and unrealized gains and losses on investments are included in the determination of securities trading income.

#### ***Property and Equipment***

Property and equipment acquisitions are stated at cost and are depreciated using the straight-line method over the useful lives of the assets.

#### ***Foreign Currency Transactions***

Realized and unrealized gains and losses resulting from foreign currency transactions are included in net income.

#### ***Income Taxes***

The Company is a limited liability company. Accordingly, no provision for income taxes is made in the financial statements, and all taxable income and expense flows to the members.

The Company recognizes the effect of income tax positions only when they are more likely than not of being sustained. At December 31, 2015, management has determined that the Company had no uncertain tax positions that would require financial statement recognition. The Company is no longer subject to U.S. federal, state or local income tax audits for periods prior to 2012.

***Subsequent Events Evaluation by Management***

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is February 26, 2016.

**3. Regulatory Requirements**

In addition, the rule provides that equity capital may not be withdrawn if the resulting net capital ratio would exceed 10 to 1.
