PUMA CAPITAL, LLC
NOTES TO FINANCIAL STATEMENTS

December 31, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business and Organization

Puma Capital, LLC (the "Company"), was organized in February 2007 and began operations on January 7, 2008. The Company was formed under the Securities Exchange Act of 1934 and is registered with the Securities Exchange Commission ("SEC"). On July 24, 2008, the Company received authorization from the Financial Industry Regulation Authority (FINRA), to operate as a registered broker-dealer. The Company acts as a market maker and holds shares of a particular equity security in order to facilitate trading in that security.

Basis of Presentation

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Concentrations of Credit Risk

The Company may, during the ordinary course of business, maintain account balances in excess of federally insured limits.

Valuation of Investments in Securities at Fair Value - Definition and Hierarchy

Generally accepted accounting principles require the Company to report its investments in securities at estimated fair value on a recurring basis. Fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent counter-party in the principal market or in the absence of a principal market, the most advantageous market for the investment or liability. A three-tier hierarchy was established to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs); and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Company's investments. The hierarchy is summarized in the three broad levels listed below.

- Level 1** - quoted prices in active markets for identical investments
- Level 2** - other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)

Filed in accordance with rule 17a-5(e)(3) as a PUBLIC DOCUMENT.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 3 - significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

Valuation Techniques-Exchange Traded Securities

Securities and other investments traded on a national exchange or on the national market system of NASDAQ are valued at their last reported sale price or, if there has been no sale on that date, at the closing "bid" price if long, or closing "ask" price if short. Other securities or investments for which over-the-counter market quotations are available are valued at their last reported sale price or, if there had been no sale on that date, at closing "bid" price if long, or closing "ask" price if short as reported by a reputable source selected by the Company. Exchange traded securities are generally categorized in Level 1 of the fair value hierarchy, with those exchange traded securities trading less than actively, categorized in Level 2.

Securities Transactions and Revenue Recognition

Securities transactions, along with related commission income and clearing costs, are reported on a trade date basis. Gains and losses on securities trading were earned by the Company by making markets in equities. Realized and unrealized gains and losses are reflected in net gain on principal transactions in the statement of operations.

Interest income is recognized on an accrual basis.

Property and Equipment

Property and equipment is recorded at cost. Expenditures for major betterments and additions are charged to the asset accounts, while replacements, maintenance and repairs which do not improve or extend the lives of the respective assets are charged to expense as incurred.

Depreciation and Amortization

Depreciation and amortization of property and equipment is computed using the straight-line method at various rates based upon the estimated useful lives of the assets. The range of estimated useful lives is summarized as follows:

Computer equipment	5 years
Furniture and fixtures	7 years
Leasehold improvements	5 years
Computer software	3 years

Income Taxes

The Company is treated as a partnership for federal and state income tax purposes. Consequently, these jurisdictional income taxes are not payable by the Company. Members are taxed individually on their share of the Company's earnings. The Company's net income or loss is allocated among the members in accordance with the operating agreement of the Company. The Company is subject to a New York City tax. No provision for New York City income taxes is reflected in the accompanying financial statements.

Filed in accordance with rule 17a-5(e)(3) as a PUBLIC DOCUMENT.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes (continued)

The Company assesses its tax positions in accordance with "Accounting for Uncertainties in Income Taxes" as prescribed by the Accounting Standards Codification, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years (generally a period of three years from the later of each return's due date or the date filed) that remain subject to examination by the Company's major tax jurisdictions.

The Company assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Company records these liabilities to the extent it deems them more likely than not to be incurred. Interest and penalties related to uncertain tax positions, if any, would be classified as a component of income tax expense.

The Company believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statements. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analysis of and changes to tax laws, regulations and interpretations thereof.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the balance sheet date and the reported amounts of revenues and expenses for the year presented. Actual results could differ from those estimates.

NOTE 2. PROPERTY AND EQUIPMENT

Property and equipment at December 31, 2015 consisted of the following:

Computer equipment	\$ 90,944

Leasehold improvements	35,490
Computer software	<u>35,360</u>

Less: accumulated depreciation and amortization	<u>170,310</u>
	\$ 43,311

NOTE 3. FAIR VALUE MEASUREMENT

The Company's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with fair value measurements and the Company's accounting policies as disclosed in Note 1. The following table presents information about the Company's assets and liabilities measured at fair value as of December 31, 2015:

At December 31, 2015, securities sold, but not yet purchased, consisted primarily of United States and Foreign corporate equities. Subsequent market fluctuation may require the Company to purchase these securities at prices which exceed the carrying value in the accompanying financial statements. Additionally, the securities owned and the cash held by the clearing broker serves as collateral for the short-sale liability.

NOTE 6. PREFERRED MEMBERSHIP UNITS

On September 18, 2014 the Board of Managers of the Company agreed to issue Preferred Membership Units to two of its Members in exchange for an additional Capital Contribution to the Company. Each member contributed \$500,000 and in return the Company issued 500 Preferred Units to each Member. The preferred Members will receive a 9% Preferred return on their Capital Contribution paid quarterly.
