## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Members of National Alliance Securities, LLC

We have audited the accompanying statement of financial condition of National Alliance Securities, LLC (the "Company") as of December 31, 2015, and the related statements of operations, changes in members' capital, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2015, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## **Other Matters**

The Computation of Net Capital and Aggregate Indebtedness Pursuant to Rule 15c3-1 of the Securities and Exchange Commission as required under Rule 17a-5(e)(4)(i) of the Securities and Exchange Commission (the "Supplemental Schedule") have been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The Supplemental Schedule is the responsibility of the Company's management. Our audit procedures included determining whether the Supplemental Schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in Supplemental Schedule. In forming our opinion on the Supplemental Schedule, we evaluated whether it, including its form and content, is presented in conformity with Rule 15c3-1 of the Securities and Exchange Commission. In our opinion, the Supplemental Schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

National Alliance Securities, LLC (Company), formerly, National Alliance Securities Corporation (NASC) began operations in June 2003, under the laws of the State of Nevada. NASC converted from a corporation to a limited liability company effective December 31, 2012. The conversion was a change in legal form and tax status. The Company is registered with the Securities and Exchange Commission (SEC) as a broker-dealer in securities and is a member of the Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC).

The Company's operations consist primarily in trading of debt securities for its own account and brokering debt securities for institutional customers. The Company also trades debt securities in the secondary wholesale market. The Company's securities trading and brokering consist primarily in U.S. government securities, mortgage backed securities, municipal bonds and corporate bonds. The majority of the Company's customers are institutions and broker-dealers located throughout the United States.

The Company operates under the exemptive provisions of Rule 15c3-3(k)(2) (ii) of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The Company does not hold customer funds or securities, but as an introducing broker-dealer, clears all transactions on behalf of customers on a fully disclosed basis through clearing broker-dealers. The clearing broker-dealers carry all of the accounts of the customers and maintain and preserve all related books and records as are customarily kept by a clearing broker-dealer. The Company's trading for its own account is also executed through its primary clearing broker-dealer.

#### Note 2 - Significant Accounting Policies

#### **Basis of Accounting**

These financial statements are presented on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP". Revenues are recognized in the period earned and expenses when incurred.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### Cash and Cash Equivalents

Cash and cash equivalents consist of cash, money market funds and highly liquid investments with original maturity dates of three months or less, excluding cash segregated under federal regulations, clearing deposits and trading deposit.

#### **Debt Securities**

Debt securities are held for trading purposes, recorded on the trade date and valued at their estimated fair value, as described in Note 3. The increase or decrease in fair value is included in trading profits in the accompanying statement of operations.

Notes to Financial Statements December 31, 2015 (Continued)

### Property and Equipment

Property and equipment is stated at cost less accumulated depreciation and consists of office furniture and equipment. Depreciation is provided using the straight-line method based over estimated useful lives of two to five years.

#### Debt Securities Sold, Not Yet Purchased

Debt securities sold, not yet purchased consist of debt securities the Company has sold that it does not currently own and will therefore be obligated to purchase such securities at a future date. These obligations are recorded on the trade date and valued at their estimated fair value, as described in Note 3. The increase or decrease in fair value is included in trading profits in the accompanying statement of income.

#### **Collateralized Financing Agreements**

Transactions involving debt securities purchased under agreements to resell (reverse repurchase agreements or reverse repos) and debt securities sold under agreements to repurchase (repurchase agreements or repos) are accounted for as collateralized agreements or financings except where the Company does not have an agreement to sell (or purchase) the same or substantially the same securities before maturity at a fixed or determinable price. It is the policy of the Company to obtain possession of collateral with a fair value equal to or in excess of the principal amount loaned under resale agreements. Collateral is valued daily, and the Company may require counterparties to deposit additional collateral or return collateral pledged when appropriate. Reverse repos and repos are initially recorded at their contracted resale or repurchase amounts. Interest on such contract amounts is accrued and is included in repo and reverse repo balances.

#### **Revenue Recognition**

Trading profits, securities commissions and the related expenses are recorded on a trade date basis as the transactions occur. Customer security transactions that are executed through the Company's proprietary trading account are recorded on a trade date basis as principal commission revenues. The related expenses are also recorded on a trade date basis. Net dealer inventory and investment revenue results from securities transactions entered into for the account of the Company. Net dealer inventory and investment revenue includes both realized and unrealized gains and losses, which are recorded on a trade date basis.

#### Soft Dollar Transactions

The Company segregates cash under federal regulations for the benefit of customers related to soft dollar transactions. Qualified research expenses designated by soft dollar customers are paid by the Company from segregated cash.

# Income Taxes/Change in Tax Status

The Company converted from a corporation to a limited liability company effective December 31, 2012. The Company will be taxed at the member level rather than at the corporate level for federal income tax purposes. Therefore, there is no provision for federal income taxes.

During 2015, the members of the Company reinstated a distribution policy to assist the members of the Company to pay taxes on the taxable income of the Company. Under the policy, distributions are to be made on a quarterly basis in an amount equal to 50% of profits earned. During 2015 the Company distributed \$91,453 of cash to its members. In January 2016 the Company distributed \$336,482 of cash to its members for profit earned during the fiscal 2015 fourth quarter.

1 3

# NATIONAL ALLIANCE SECURITIES, LLC Notes to Financial Statements December 31, 2015 (Continued)

The Company is subject to various state taxes, primarily the Texas Franchise tax. During 2015, the Company filed amended Texas Franchise tax returns and recorded a \$180,233 benefit in 2015.

The Company is required to determine whether a tax position taken or expected to be taken on a tax return is more likely than not to be sustained upon examination by the applicable taxing authority based on the technical merits of the position. The Company has reviewed all open tax years and concluded that there are no unrecognized tax benefits that would have a material impact on the Company's financial position. As of December 31, 2015, open federal tax years include the tax years ended December 31, 2011 through December 31, 2014.

#### Recent Accounting Pronouncements

L.J

1 J

1 1

1 -

í. J

لي يا

**5**11

Γ' )

ر\_\_\_\_ا

1 f

1.1

i., J

Recent accounting pronouncements issued by the FASB, the American Institute of Certified Public Accountants, and the SEC are not believed, by the Company's management, to have a material impact on the Company's financial position, results of operations or cash flows.

# Note 3 - Fair Value of Financial Instruments

Fair value accounting standards establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. The hierarchy prioritizes inputs and valuation techniques used to develop the measurements of fair value into three levels.

The three broad levels of the fair value hierarchy are as follows:

Level 1 - Fair value is based on quoted unadjusted prices for identical instruments in active markets to which the Company has access at the date of measurements.

Level 2 – Fair value is based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant inputs and significant value drivers are observed in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances prices vary substantially over time or among brokered market makers.

Level 3 – Fair value is model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Company's own assumptions that market participants would use to price the asset or liability based on the best available information.

Following is a description of the valuation techniques applied to the Company's major categories of assets and liabilities measured at fair value on a recurring basis.

Investments in debt securities, reverse repurchase agreements, repurchase agreements and debt securities sold, not yet purchased are carried at estimated fair value and categorized as level 2 of the fair value hierarchy. Fair value has been measured by the Company's primary clearing broker-dealer or by pricing services used by the clearing broker-dealer using the actual trading prices of similar securities. When trading prices are not available for similar securities the pricing services use market observable inputs in determining the valuation for a security based on underlying characteristics of the debt instruments.

# Notes to Financial Statements December 31, 2015

(Continued)

Substantially all of the Company's other financial asset and liability amounts reported in the statement of financial condition are short term in nature and approximate fair value.

The following table summarizes the valuation of the Company's major security types by the fair value hierarchy levels as of December 31, 2015:

		Level 1	Level 2	 Level 3	Total
Assets					
Debt Securities Purchased Under					
Agreements to Resell	\$	-	\$ 22,508,692	\$ -	\$ 22,508,692
Debt Securities Owned	-		45,685,733	 	45,685,733
Totals	\$ _		\$ 68,194,425	\$ -	\$ 68,194,425
Liabilities					
Debt Securities Sold Under Agreements					
to Repurchase Debt Securities Sold, Not Yet	\$	-	\$ 16,426,542	\$ -	\$ 16,426,542
Purchased	-	-	29,283,036		29,283,036
Totals	\$_	-	\$ 45,709,578	\$ -	\$ 45,709,578

Transfers between levels are recognized at the end of the reporting period. During the year ended December 31, 2015, the Company recognized no transfers to and from level 1 and level 2. There were no level 3 investments held by the Company during 2015.

# Note 4 - Transactions with Clearing Broker-Dealers

The Company has a clearing agreement with its primary clearing broker-dealer, First Southwest Company (FSW), to provide execution and custody of debt security transactions for customers and trading for its own account. Clearing charges are incurred at a fixed rate multiplied by the number of tickets traded by the Company. The clearing agreement requires the Company to maintain a minimum clearing deposit of \$250,000.

The Company also has a trading deposit with FSW in the amount of \$7,400,000 at December 31, 2015. The trading deposit is required to satisfy margin requirements associated with the Company's trading inventory. The amount of margin required fluctuates on a daily basis depending on the amount and type of securities held in the Company's inventory trading accounts.

The Company had a payable to FSW of \$22,819,561 at December 31, 2015. The payable balance fluctuates on a daily basis as the Company purchases and sells securities through FSW for its own account. Interest is calculated daily (1.625% at December 31, 2015), based on a fixed spread over the federal funds rate and paid monthly. The Company's debt securities owned are held by FSW as collateral.

# NATIONAL ALLIANCE SECURITIES, LLC Notes to Financial Statements December 31, 2015 (Continued)

During 2013, the Company entered into a clearing agreement with ConvergEx Execution Solutions LLC (ConvergEx) to provide execution and custody of customer equity based transactions. Clearing charges are incurred at a fixed rate multiplied by the number of tickets traded by the Company. The clearing agreement requires the Company to maintain a minimum clearing deposit of \$100,000.

During 2013, the Company entered into a clearing agreement with G-Trade Services LLC (G-Trade) to provide execution and custody of customer international equity based transactions. The Company did not execute any international equity based transactions during 2015.

### Note 5 - Debt Securities Purchased Under Agreements to Resell

Debt securities purchased under agreements to resell are collateralized financing agreements for debt securities the Company financed. Reverse repurchase activities were transacted under a master repurchase agreement with a national broker-dealer (borrower). The Company receives collateral in the form of debt securities in connection with debt securities financed. The agreement gives the Company a right, in the event of default, to liquidate the collateral held and to offset any receivable from the borrower. There were five reverse repurchase transactions outstanding at December 31, 2015 with a total contracted repurchase amount of \$22,508,692. The fair value of debt securities received as collateral under agreements to resell totaled \$22,040,445. The collateral deficit of \$468,247 is recorded as an other deduction in the computation of net capital. The Company is permitted to and sold the securities held as collateral; therefore, is obligated to purchase similar securities at the future date to close the reverse repurchase transactions. In the event the collateral value decreases, additional collateral would be required. Interest varies on each repurchase transaction, is calculated daily, (0.05% to 0.35% at December 31, 2015), based on a fixed spread over the federal funds rate and received when the obligations are settled.

#### Note 6 - Debt Securities Sold Under Agreements to Repurchase

Debt securities sold under agreements to repurchase are collateralized financing agreements for debt securities the Company owns. Repurchase activities were transacted under a master repurchase agreement with a national broker-dealer (lender). The Company pledges debt securities to collateralize repurchase agreements. The agreements give the lender a right, in the event of default, to liquidate the collateral held and to offset any receivables from the Company. There were twenty-two repurchase transactions outstanding at December 31, 2015 with a total contracted repurchase liability of \$16,426,542. The fair value of debt securities provided by the Company as collateral under these agreements to repurchase totaled \$17,953,937. The Company has recorded a repo deficit deduction of \$365,400 in the computation of net capital. In the event the collateral value decreases, additional collateral would be required.

Interest varies on each repurchase transaction, is calculated daily (0.70% at December 31, 2015), based on a fixed spread over the federal funds rate and paid when the obligations are settled.

1.2

Notes to Financial Statements December 31, 2015 (Continued)

#### Note 7 - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2015, the Company had net capital of \$3,654,062 which was \$3,387,041 in excess of its required net capital of \$267,021. The Company's ratio of aggregate indebtedness to net capital was 1.10 to 1 at December 31, 2015.

### Note 8 - Retirement Plan

The Company has a 401(k) profit sharing plan covering substantially all employees. Under this plan, employees may make elective contributions as allowed under federal law and the Company may make matching and discretionary contributions. Employee contributions and Company contributions are vested immediately. For the year ended December 31, 2015, the Company made no matching or profit sharing contribution. The Company incurred \$8,031 in expenses related to the plan. Plan expenses are recorded as compensation and related costs in the accompanying statement of operations.

## Note 9 - Commitments and Contingencies

#### **Operating Leases**

The Company leases branch office facilities in New York, NY, Austin, TX, Chicago, IL, Houston, TX and Sugarland, TX, under non-cancellable operating lease agreements expiring at various times from 2015 through 2017. Rent expense for the year totaled \$297,819 and is reflected in the accompanying statement of operations as occupancy and equipment costs.

Future minimum lease commitments for each of the years ending December 31 are as follows:

2016	\$ 192,673
2017	 44,619
Total	\$ 237,292

# Contingencies

The nature of the Company's business subjects it to various claims, regulatory examinations, other proceedings, and legal actions in the ordinary course of business. In January 2015, a FINRA arbitration was filed by another broker-dealer against the Company, two of its current officers/members and one former officer/member seeking material damages. All three previously worked at the other broker-dealer who alleged they caused others to follow and used confidential information. Damages of \$3,315,713 have been claimed. No evaluation of the likely outcome or reasonable estimate of range of potential loss can be made by the Company after consultation with legal counsel. The Company intends to vigorously defend itself and all parties against this arbitration; however, the ultimate outcome of this arbitration could have an adverse impact on the financial condition, results of operations, or cash flows of the Company.

Notes to Financial Statements December 31, 2015 (Continued)

The Company is involved in several other pending FINRA and SEC matters that have arisen in the ordinary course of business. No provision has been accrued in the financial statements at December 31, 2015, as management is unable to estimate the amount or range of possible loss that might result from adverse settlement of these matters.

# Note 10 - Off-Balance-Shect Risk

As discussed in Note 1, the Company's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker-dealers. The clearing broker-dealers carry all of the accounts of the customers of the Company and are responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker-dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that Customer transactions are executed properly by the clearing broker-dealer.

The Company has sold securities that it does not own and will therefore be obligated to purchase such securities at a future date. The Company records these obligations in the financial statements at fair values of the related securities and will incur a loss if the fair value of the securities subsequently increases.

# Note 11 - Concentration of Credit Risk

The Company is subject to concentration risk by holding large positions in debt securities.

The Company has a receivable, debt securities, trading deposit and a clearing deposit, due from and held by its primary clearing broker-dealer, FSW, totaling \$53,903,722 or approximately 69% of total assets at December 31, 2015.

The Company also has securities sold, not yet purchased and a payable to its primary clearing broker-dealer, FSW, totaling \$52,102,297 or approximately 75% of total liabilities.

### Note 12 - Subsequent Events

Management has evaluated the Company's events and transactions that occurred subsequent to December 31, 2015, through the issuance date, February 26, 2016.

# INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES RELATED TO AN ENTITY'S SIPC ASSESSMENT RECONCILIATION

To the Members of National Alliance Securities, LLC:

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments [General Assessment Reconciliation (Form SIPC-7)] to the Securities Investor Protection Corporation ("SIPC") for the year ended December 31, 2015, which were agreed to by National Alliance Securities, LLC (the "Company") and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and SIPC solely to assist you and the other specified parties in evaluating the Company's compliance with the applicable instructions of Form SIPC-7. The Company's management is responsible for the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the purpose for which this report has been requested or for any other purpose. The procedures we performed and our finding are as follows:

- 1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries (cash disbursements journal), noting no differences;
- 2. Compared the amounts reported on the audited Form X-17A-5 for the year ended December 31, 2015, as applicable, with the amounts reported in Form SIPC-7 for the year ended December 31, 2015, noting variances between total revenues reported of \$1,321 and total interest expense reported of \$1,227;
- 3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers, noting variances between total revenues reported of \$1,321 and total interest expense reported of \$1,227; and
- 4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments, noting no differences.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.

# INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM'S REVIEW REPORT REGARDING THE EXEMPTIVE PROVISIONS OF RULE 15c3-3

To the Members of National Alliance Securities, LLC:

We have reviewed management's statements, included in the accompanying National Alliance Securities, LLC Exemption Report, in which (1) National Alliance Securities, LLC (the "Company") identified the following provisions of 17 C.F.R. § 15c 3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3(k)(2)(ii) (the "exemption provisions") and (2) management stated that the Company met the identified exemption provisions throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

ന പ National Alliance Securities, LLC (the "Company") is a registered broker-dealer subject to Rule 17a-5 promulgated by the Securities and Exchange Commissions (17 C.F.R. §240.17a-5, "Reports to be made by certain brokers and dealers"). This Exemption Report was prepared as required by 17 C.F.R. §240.17a-5(d)(1) and (4). To the best of its knowledge and belief, the Company states the followings:

- 1) The Company may file an Exemption Report because the Company had no obligations under 17 C.F.R. §240.15c3-3.
- 2) The Company met the identified exemption provisions in 17 C.F.R §240.15c3-3(k)(2)(ii) throughout the most recent fiscal year without exception.

I, <u>Fred Bush</u>, affirm that, to my best knowledge and belief, this Exemption Report is true and correct.

Signed: FINOP
