REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Member
of LifeSci Capital, LLC

We have audited the accompanying statement of financial condition of LifeSci Capital, LLC as of December 31, 2015, and the related notes to the financial statements. This financial statement is the responsibility of LifeSci Capital, LLC's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of LifeSci Capital, LLC as of December 31, 2015 in accordance with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of these financial statements.

1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Lifesci Capital, LLC (the "Company") is a broker-dealer registered with the Securities and Exchange Commission (SEC) and became a member of the Financial Industry Regulatory Authority (FINRA) on June 18, 2014. The Company was organized on March 14, 2013 in the State of New York and engages in the investment banking, mergers & acquisitions advisory services, sale of hedge funds and other private funds, and research. The Company is exempt from rule 15c3-3 of the SEC under paragraph (k)(2)(i) of that rule.

Basis of Accounting

Revenues and expenses are recorded on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Cash and Cash Equivalents

The Company considers all highly liquid investments, except for those held for long-term investment, with maturities of three months or less when purchased to be cash equivalents.

Accounts Receivable

Investment banking income due but not yet received that is expected to be collected within one year is recorded as accounts receivable at net realizable value. If amounts become uncollectible, they will be charged to operations when that determination is made.

Revenue Recognition

Investment banking revenues, which include fees earned from placement services and corporate finance consulting, are recognized when the transaction closes and realization is reasonably assured.

Income Taxes

The Company is a multiple member LLC and is treated as a disregarded entity for income tax purposes. The operating results of the Company are passed through to its partners. Therefore, no provision or liability for federal or state income taxes has been included in the financial statements. As of December 31, 2015, the member's tax year for 2013 and 2014 are subject to examination by the tax authorities. The Company has evaluated its current tax positions and has concluded that as of December 31, 2015, the Company does not have any significant uncertain tax positions for which a reserve would be necessary.

1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclose contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Date of Management's Review

Management has evaluated subsequent events through February 24, 2016, which is the date the financial statements were available to be issued.

2) FAIR VALUE MEASUREMENTS

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures of investments in equity securities that are classified as available-for-sale on a recurring basis.

The Fair Value Measurements Topic of the FASB Accounting Standards Codification defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. The disclosures required under this Topic have been included in this note.

Fair Value Hierarchy

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

2) FAIR VALUE MEASUREMENTS (CONT'D)

Determination of Fair Value

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy.

Cash and Cash Equivalents, Short-Term Financial Instruments, and Accounts Payable

The carrying amounts approximate fair value because of the short maturity of these instruments.

Investments in Equity Securities

Investments in equity securities that are classified as available-for-sale are recorded at fair value on a recurring basis. When quoted market prices are unobservable, management uses a market index closely related to the industry of the securities held to estimate the fair value of its investment. Management believes that the valuations used in its financial statements are reasonable and are appropriately classified in the fair value hierarchy. Realized gains and losses, determined using the specific identification method, are included in earnings; unrealized holding gains and losses are reported in other comprehensive income.

Assets Measured and Recognized at Fair Value on a Recurring Basis

The table below presents the amounts of assets measured at fair value on a recurring basis as of December 31, 2015:

	Total	Level 1	Level 2	Level 3
Investments in equity securities classified as available-for-sale	\$ -	\$	\$	\$ -

3) ACCOUNTS RECEIVABLE

The Company uses the allowance method to recognize accounts receivable that may not be collectible. Management regularly reviews all accounts and determines which are past due and may not be collectible. Any amounts that are written off are charged against the allowance. As of December 31, 2015 the allowance for doubtful accounts was \$0

4) RELATED PARTY TRANSACTIONS

Pursuant to an expense sharing agreement (the "ESA") dated March 11, 2014, an affiliate of the Company provides certain support services for the Company including, among others, employee compensation, office space, office supplies, and communications in the normal course of business. The Company pays a monthly fee in relation to the ESA. For the year ended December 31, 2015, fees charged by the affiliate totaled \$376,382.

Pursuant to a research services agreement (the "Agreement") dated July 10, 2014, the Company provides an affiliate certain research services to clients of the affiliate. These research services provided by the Company include initiation reports, earnings notes and general corporate update notes on a per client basis. The Company receives a monthly fee in relation to the Agreement. For the year ended December 31, 2015, fees received by the Company totaled \$297,900.

5) CONCENTRATIONS OF RISK

The Company maintains its cash balances at a major financial institution. The balances are fully insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$100,000. As of December 31, 2015, the Company maintained \$3,783,954 in excess of the insured balances.

The Company engages in various investment banking services. In the event customers do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the customers. It is the Company's policy to review, as necessary, the credit standing of each customer.

6) NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2015, the Company had net capital of \$3,456,477 which is \$3,356,477 in excess of required net capital of \$100,000. The Company's net capital ratio at December 31, 2015 is 0.12 to 1.

7) ANNUAL REPORT ON FORM X-17A-5

The annual report to the Securities and Exchange Commission on Form 17A-5 is available for examination and copying at the Company's office and at the regional office of the Securities and Exchange Commission.

8) COMPENSATED BALANCES

Employees of the Company are entitled to paid vacation, paid sick days and personal days off, depending on job classification, length of service and other factors. It is impracticable to estimate the amount of compensation for future absences, and, accordingly, no liability has been recorded in the accompanying financial statements. The Company's policy is to recognize the costs of compensated absences when actually paid to employees.
