Mariva Capital Markets, LLC (the "Company"), a wholly owned subsidiary of Mariva Holding Group (the "Parent"), was incorporated on April 5, 2010, is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and a member of the Financial Industry Regulatory Authority ("FINRA"). The Company's registration with FINRA was effective as of May 31, 2013. The Company started operations on June 26, 2013, upon receiving approval from the State of Florida.

The Company provides introductory brokerage and investment services. Custody of securities owned by customers of the Company and all security transactions are settled through a third party clearing broker on a fully disclosed basis.

Following is a description of the significant accounting policies and practices followed by the Company in the preparation of the accompanying financial statements. These policies conform to accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash

Cash consists of cash in banks which is held primarily at one major U.S. financial institution and firm accounts at the clearing institution. As of December 31, 2015 cash held in foreign currencies amounted to \$95,676 denominated in Euros.

Income Taxes

The Company is generally not taxable for federal, state, and local income tax purposes. As a limited liability company, the Company's taxable income or loss is allocated to members in accordance with their respective percentage ownership. Therefore, no provision or liability for income taxes has been included in the financial statements.

Management has evaluated the Company's tax positions and concluded that the Company has taken no uncertain tax positions that require adjustment to or disclosures in this financial statement.

Property, Equipment, and Leasehold Improvements

Property, equipment, and leasehold improvements are recorded at cost net of accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives, ranging from 3-7 years. Leasehold improvements are amortized over the lesser of the economic useful life of the improvement or the term of the lease.
