REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member of
Bostonia Global Securities LLC

We have audited the accompanying statement of financial condition of Bostonia Global Securities LLC (the "Company") as of December 31, 2015, and the related statements of income, changes in member's equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bostonia Global Securities LLC as of December 31, 2015, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States.

The computation of net capital ("supplemental information") has been subjected to audit procedures performed in conjunction with the audit of Bostonia Global Securities LLC's financial statements. The supplemental information is the responsibility of Bostonia Global Securities LLC's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

BOSTONIA GLOBAL SECURITIES LLC

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015

NOTE 1 NATURE OF BUSINESS

Bostonia Global Securities LLC (the “Company”) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of various exchanges and the Financial Industry Regulatory Authority (FINRA). The Company is a Massachusetts limited liability company that is a wholly-owned subsidiary of Bostonia Group, LLC (the “Holding Company”). The Company specializes in the private placement of debt securities among its insurance company, pension fund, bank and other money management clients.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Method

The financial statements are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all demand deposits with original maturities of three months or less to be cash equivalents.

Restricted Cash

Restricted cash consists of a bank certificate of deposit held as collateral for a standby letter of credit. The standby letter of credit secures the operating lease for the office discussed in Note 6. As of December 31, 2015, the restricted cash amount is \$111,679.

Property and Equipment, Net

Property and equipment is stated at cost, net of accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets.

Income Taxes

The Company is organized as a single-member Limited Liability Company (“LLC”). Under the provisions of the Internal Revenue Code, a single member LLC is considered a disregarded entity for income tax reporting purposes and, accordingly, is not subject to income taxes. Income of the Company is includable in the Member’s income tax returns. The Company follows *Accounting for Uncertainty in Income Taxes*, which prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. For the year ended December 31, 2015, the Company has no material uncertain tax positions to be accounted for in the financial statements. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits in interest expense.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Income Taxes (cont'd)

As of December 31, 2015, the Holding Company's federal and state tax returns generally remain open for possible examination for a period of three years after the date which the returns were filed.

Revenue Recognition

Commission income, recorded on the trade date, is earned by providing trade facilitation and administration to its customers.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Advertising

The Company records expenses for advertising when the liability is incurred. The amount expensed for the year ended December 31, 2015 is \$12,436.

Fair Value Measurements

The Company follows accounting standards relative to fair value measurements which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs to determine the fair value. Also in accordance with these standards, the Company categorizes its financial instruments, based on the priority of inputs to the valuation technique, into a three-level hierarchy, as discussed below.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I – are quoted prices in active markets for identical investments that the Company has the ability to access at the measurement or reporting date.

Level II – are inputs (other than quoted prices in active markets included within Level I), which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies.

Level III – are unobservable inputs for the investment and includes situations where there is little, if any, market activity for the investment. Unobservable inputs are those that reflect the Company's own assumptions about the determination of fair value and require significant management judgment or estimation.

BOSTONIA GLOBAL SECURITIES LLC

NOTES TO FINANCIAL STATEMENTS (CONT'D)

DECEMBER 31, 2015

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Fair Value Measurements Cont'd)

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

NOTE 3 PROPERTY AND EQUIPMENT, NET
