Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America. The Company uses accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with an original maturity of three months or less when purchased to be cash equivalents. As of December 31, 2015, the Company had the cash balance of \$109,551.

Revenue Recognition

The Company generates income from commission and related brokerage fees as transaction fees. Securities transactions are recorded on a trade date basis and the Company recognizes revenue when the transactions are completed.

Note 2: Summary of Significant Accounting Policies (continued)

Commission expense

At present the Company has a total of 77 registered representatives working as independent contractors and paid on a commission basis. As of December 31, 2015, the Company recorded \$1,901,220 as commission expense. The Company paid a total of \$1,865,989 and accrued the remaining balance of \$35,231 as a liability.

Comprehensive Income

The Company adopted SFAS No. 130, "Reporting Comprehensive Income," which requires that an enterprise report, by major components and as a single total, the changes in equity. There were no comprehensive income items for the year ended December 31, 2015. The firm did not have any adjustments that would have made comprehensive income different from net income.

Other Current Assets

The pre paid expenses is classified as a non-allowable asset in the computation of the Net Capital as reported in the Company's FOCUS report.

Prepaid expenses	\$ 21,660
Accounts Receivable	\$ 33,211
Due To & From Triumph Insurance	\$ 94,776
Total	\$ 154,633

Note 3: Securities owned

As of the balance sheet date the Company does not own any corporate stocks or debt instruments.

Note 4: Income taxes

The Company complies with Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes" which requires an asset and liability approach to financial accounting and reporting for Income taxes. The liability method is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities and are measured using anticipated tax rates and laws that will be in effect when

TCM Securities, Inc.
Notes To Financial Statements

the difference are expected to be reverse. The realizability of deferred tax assets are evaluated annually and a valuation allowance is provided if it is more likely than not that the

Note 4: Income taxes (continued)

deferred tax assets will not give rise to future benefits in the Company's tax return. Under section 6501(a) of the Internal Revenue Code (Tax Code) and section 301.6501(a)-1(a) of the Income Tax Regulations (Tax Regulations), for the tax years 2012, 2013 and 2014, the IRS is required to assess tax within 3 years after the tax return was filed with the IRS.

Note 5: Fair Value

The Company adopted Financial Accounting Standards ("SFAS") ASC820 Measurements and Disclosures," for assets and measured at fair value on a recurring basis. The ASC 820 had no effect on the Company's financial ASC 820 accomplishes the following key objectives:

- Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date;
- Establishes a three-level hierarchy (the "Valuation Hierarchy") for fair value measurements;
- Requires consideration of the Company's creditworthiness when valuing liabilities; and expands disclosures about instruments measured at fair value.

The Valuation Hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the Valuation Hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the Valuation Hierarchy and the distribution of the Company's financial assets within it are as follows:

Level 1 - inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - inputs to the valuation methodology included quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Certain financial instruments are carried at cost on the balance sheet, which approximates fair value due to their short-term, highly liquid nature. These instruments include cash and cash equivalents, accounts receivable, accrued expenses and other liabilities and deferred revenue.

TCM Securities, Inc.
Notes To Financial Statements
December 31, 2015

Note 6: Recently issued accounting standards (continued)

The Financial Accounting Standards Board (the "FASB") issued a new professional standard in June of 2009 which resulted in a major restructuring of U.S. accounting and reporting standards. The new professional standard, issued as ASC 105 ("ASC I 05"), establishes the Accounting Standards Codification ("Codification or ASC") as the source of authoritative accounting principles ("GAAP") recognized by the FASB. The principles embodied in the Codification are to be applied by nongovernmental entities in the preparation of financial statements in accordance with generally accepted accounting principles in the United States. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") issued under authority of federal securities laws are also sources of GAAP for SEC registrants. Existing GAAP was not intended to be changed as a result of the Codification, and accordingly the change did not impact the financial statements of the Company.

For the year ending December 31, 2015 various Accounting Standard Updates ("ASU") issued by the FASB were either newly issued or had effective implementation dates that would require their provisions to be reflected in the financial statements for the year then ended. The Company has reviewed the following ASU releases to determine relevance to the Company's operations:

<u>ASU No.</u>	<u>Title</u>	<u>Effective Date</u>
2014-01	Investments—Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Qualified Affordable Housing Projects (a consensus of the Emerging Issues Task Force)	For all entities other than public business entities, the amendments are effective for annual periods beginning after December 15, 2014, and interim periods within annual reporting periods beginning after December 15, 2015. 2011-10 Property, Plant, and Equipment (Topic 360): Derecognition of in Substance Real Estate—a Scope Clarification (a consensus of the FASB Emerging Issues Task Force) After December 15, 2014

Note 6: Recently issued accounting standards (continued)

The Company has either evaluated or is currently evaluating the implications, if any; of each of these pronouncements and the possible impact they may have on the Company's financial statements. In most cases, management has determined that the pronouncement has either limited or no application to the Company and, in all cases, implementation would not have a material impact on the financial statements taken as a whole.

Note 7: Net capital requirements

Pursuant to the Basic Uniform Net Capital provisions of the Securities and Exchange Commission, the Company is required to maintain a minimum net capital, as defined, in such provision. Further, the provisions require that the ratio of aggregate indebtedness, as defined, to net capital shall not exceed 15 to 1. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2015 the Company had net capital and net capital requirements of approximately \$87,645 and \$5,000 respectively. The Company's net capital ratio was 57.18% which is less than 15:1.

Note 8: Financial instrument with off-balance sheet risk

In the normal course of business, the Company executes, as agent, transactions on behalf of customers. If the agency transactions do not settle because of failure to perform by either customer or the counterparty, the Company may be obligated to discharge the obligation of the nonperforming party and as a result, may incur a loss if the market value of the security is different from the contract amount of the transactions.

The company does not anticipate nonperformance by customers or counterparties in the above situation. The Company's policy is to monitor its market exposure and counterparty risk. In addition, the Company has a policy of reviewing, as considered necessary, the credit standing of each counterparty and customer with which it conducts business.

Note 9: Office lease

The Company TCM Securities, Inc. signed an agreement for office space sub-lease with Triumph Advisors Ltd. "Landlord" wherein the landlord, in consideration of lease payment, leases to tenant a 48 square foot office area [the "premises"]. Both the Company and the landlord are located and conduct business from an office building located at 2230 Towne Lake Parkway, Building 800 Suite 130, Woodstock, GA 30189. The term of the lease starts on December 16, 2015 and will be on a month to month basis and terminates upon the agreement of both parties. The lease payment is \$1,125 per month.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
