Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Income tax expense is the taxes payable for the period and the change during the period in deferred tax assets and liabilities. Valuation allowances are used to reduce deferred tax assets to the amount considered likely to be realized.

Accounting Standards Codification (ASC) 740-10 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by applicable tax authority based upon technical merits of the position. Tax benefits from tax positions not deemed to meet the more-likely-than-not threshold should not be recognized in the year of determination. Management has reviewed the Company's tax positions for all open years and concluded that the Company has no material uncertain tax positions at December 31, 2015. Further, as of December 31, 2015, the Company has recorded no liability for net unrecognized tax benefits relating to uncertain tax positions they have taken or expect to take in future tax returns.

(7) Risks and Uncertainties

(a) Credit Risks

The Company maintains certain of its cash balances with financial institutions in excess of insured limits. The Company does not anticipate nonperformance by the financial institutions.

The Company is engaged in various types of brokerage activities servicing institutional investors. Customers' securities transactions are cleared through a financial institution on a fully disclosed basis. These activities may expose the Company to off balance sheet risk in the event the customers are unable to fulfill their contractual obligations. As a result, the Company's exposure to credit risk can be directly impacted by volatile markets which may impair the customers' ability to satisfy their obligations.

CICC US SECURITIES, INC. AND SUBSIDIARY

Notes to Consolidated Statement of Financial Condition

December 31, 2015

The agreement between the Company and the financial institution provides that the Company is obligated to assume any exposure related to nonperformance by its customers. Management monitors information it receives from the financial institution on a daily basis and continually evaluates the financial condition and credit standing of its customers to reduce the risk of loss.

(b) Other

The Company maintains certain cash and cash equivalent balances, denominated in a foreign currency, with a clearing organization to cover its securities transactions. Changes in the relationship of this foreign currency to the U.S. dollar may affect the balances held by the Company with this financial institution.

(8) Employee Benefit Plan

The Company has a 401(k) Plan under ADP, whereby employees voluntarily participate in the Plan. Employees may contribute up to 100% of their compensation subject to certain limits based on federal tax laws. The Company makes matching contributions equal to 100% of the first 4% of the employees' contribution, and then management has the ability to make discretionary contributions above the matching contribution. However, matching contributions cannot exceed defined limits of 6% set by the Agreement.

(9) Lease Commitment

The Company leases office premises under a noncancelable operating lease which expires in July 2026.

Future minimum base rental payments on the noncancelable lease are as follows:

Year ending December 31:		
2016	\$	627,641
2017		939,136
2018		939,136
2019		939,136
2020		939,136
Thereafter		5,648,309
	\$	<u>10,032,494</u>

(10) Regulatory Requirements

Under the alternative method permitted by SEC Rule 15c-3-1, the required net capital may not be less than \$250,000 or 2% of aggregate debit balances arising from customer transactions, whichever is greater. Under CFTC Regulation 1.17(a)(1)(iii), the required minimum net capital

requirement is \$45,000 or the amount of net capital required by Rule 15c3-1, whichever is greater. FINRA may prohibit a firm from expanding its business if net capital is less than 5% of such aggregate debit items or \$300,000, whichever is greater. As of December 31, 2015, the Company had net capital of \$3,531,061, which was \$3,281,061 in excess of the SEC's minimum requirement.

The Company does not carry any customer accounts and is exempt from SEC rule 15c3-3 because all customer transactions are cleared through its clearing organizations.

(11) Going Concern

CICC HK has confirmed to the Company that it will provide financial support sufficient for the Company to satisfy, on a timely basis, all liabilities and obligations arising from operations incurred in the ordinary course, that the Company is unable to satisfy when due. This confirmation is effective from the date of this report, through and including March 1, 2017.

(12) Subsequent Events

The Company has performed a review of subsequent events through February 26, 2016, the date the financial statements were available to be issued and concluded that there were no events or transactions that occurred during this period that required recognition or disclosure.
