NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES

Business Activity and Regulation

Fennebresque & Co., LLC ("the Company") began operations on January 3, 2008 and is a Delaware limited liability company that provides investment banking advisory services to private equity groups and middle market companies, with a general focus on companies with at least \$10 million of revenue and \$3 million of earnings before interest, taxes, depreciation and amortization ("EBITDA"). The Company is a licensed broker-dealer with the Financial Industry Regulatory Authority ("FINRA") and is a wholly-owned subsidiary of Fennebresque & Co. Holdings, LLC, ("Holding Company") whose only assets are its ownership interests in the Company.

The Company is registered with FINRA as a limited broker dealer participating in mergers and acquisitions, private placements of securities and other investment banking services. The Company operates pursuant to the (k)(2)(i) exemptive provision of the Securities and Exchange Commission ("SEC") Rule 15c3-3 and will not hold clients' funds or securities, nor directly offer any securities products to related customers. The Company is registered according to the \$5,000 net capital provisions of SEC Rule 15c3-1 because of its limited nature. The Company will only conduct institutional business and will not have a retail client base.

Cash

The Company considers all short-term non-equity investments with an original maturity of three months or less to be cash equivalents. The Company maintains cash deposits with financial institutions that are federally insured.

Accounts Receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. Accounts receivable from customers include out-of-pocket expenses that are incurred by and reimbursable to the Company. The allowance for doubtful accounts is based on the Company's prior experience of collections and existing economic conditions. At December 31, 2015, management has deemed that no allowance is considered necessary.

Equipment

Equipment is carried at cost. Depreciation is computed using the straight-line method over the assets' estimated useful lives from 5 to 10 years.

Income Taxes

As a limited liability company, the Company's taxable income or loss is allocated to the member in accordance with the operating agreement and is reflected in the member's income taxes; accordingly, the accompanying financial statements do not reflect a provision or liability for federal and state income taxes. The Company has determined that it does not have any material unrecognized tax benefits or obligations as of December 31, 2015. Fiscal years ending on or after December 31, 2012 remain subject to examination by federal and state tax authorities.

Use of Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, as defined, shall not exceed 15 to 1.

As of December 31, 2015, the Company had net capital of \$43,305 which was \$29,774 in excess of its required net capital of \$5,000.

NOTE 3 - SUBSEQUENT EVENTS

The Company evaluated the effect subsequent events would have on the financial statement through February 29, 2016, which is the date the financial statements were issued.

NOTE 4 - INVESTMENT

The Company accepted preferred stock in szl.it, a private company, valued at \$107,000, in lieu of cash for professional services rendered. This was based on the value of the shares issued to an investor for cash at the same time. As of December 31, 2015, the Company's investment represented 2.5% ownership in szl.it. As a result, the investment is reported on the cost method and is included in other assets on the statement of financial condition.
