NOTES TO THE FINANCIAL STATEMENTS**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations – Allegheny Investments, Ltd. (the “Company”) is an introducing broker-dealer firm, offering access to a wide range of financial products and services, and specializing in consumer-oriented financial planning. The Company is registered with the Securities and Exchange Commission (the “SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation. The Company operates pursuant to SEC Rule 15c3-3(k)(2)(ii) (the “Customer Protection Rule”). It does not hold funds or safe keep customer securities. The Company clears securities transactions through National Financial Services, LLC. on a fully disclosed basis.

Use of Estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments – Investments in equity securities that have readily determinable fair values are classified and accounted for as trading securities. Realized and unrealized gains and losses on trading securities are included in Revenue.

Furniture and Fixtures – Furniture and fixtures are carried at cost. Maintenance and repairs are charged to expense as incurred. Upon sale or retirement, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is recognized.

Depreciation – Depreciation is calculated using straight-line and various accelerated methods over the useful lives of the assets.

Assets and their economic lives or recovery period are as follows:

<u>Assets</u>	<u>Economic Lives/ Recovery Period</u>
Furniture and fixtures	3 - 10 years

Depreciation expense for the year ended December 31, 2015, amounted to \$43,230.

Impairment of internal use software - The Company records impairment losses on long-lived assets, including internal use software, used in operations when events and circumstances indicate that the assets might be impaired. During 2015 events and circumstances relating to programming difficulties and cost overruns indicated that internal use software being developed was impaired. As such, the Company incurred impairment charges of \$128,300 during the year.

Intangible Assets - During the year ended December 31, 2015, the Company purchased a book of business from an existing investment advisor. As part of the acquisition, the Company recognized approximately \$86,000 of intangible assets related primarily to the advisor’s customer list. These assets are being amortized over their estimated useful live of 4 years. The total amortization expense recorded during 2015 was \$10,750 and the remaining unamortized balance of \$75,250 will be amortized straight-line over the remaining estimated useful life of the asset. Certain identifiable intangible assets, such as customer relationships we acquire are evaluated for impairment whenever events or changes in circumstances suggest that the carrying value of an asset or asset group may not be recoverable.

Cash Flows – For purposes of the Statement of Cash Flows, the Company considers highly liquid investments, purchased with original maturities of three months or less that are not held for sale in the ordinary course of business, to be cash equivalents.

Concentrations of Credit Risk – The Company’s principal activities include sales of securities, real estate partnerships, annuities, and insurance contracts with the majority of the clients located in the western Pennsylvania area. The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. As of December 31, 2015, the Company had cash balances in excess of federally insured limits of \$482,143. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Receivables – Receivables primarily consist of revenue due to the Company being a distributor for various investment and insurance products. The Company has reviewed the accounts receivable, and management considers the balance at year-end to be substantially collectible.

Advertising Costs – The Company’s policy is to expense advertising costs in the year in which they occur. Advertising expense for the year ended December 31, 2015, amounted to \$201,927.

Commissions – Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. There is currently no liability for uncertain tax positions and no known unrecognized tax benefits. The Company recognizes, when applicable, interest and penalties related to unrecognized tax benefits in other expenses on the Statement of Income. 7. STOCKHOLDERS' EQUITY

The stockholders of the Company entered into an agreement stipulating, among other things, the terms under which the Company's stock can be sold or transferred. The agreement provides that ownership of the Company will be determined by the cumulative gross revenues produced for the Company by each revenue producer at a price determined in accordance with the agreement. The agreement also requires that the Company redeem the shares owned by a stockholder upon death, disability, or retirement if those shares are not purchased by any of the other stockholders.

8. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rules (Rule 15c3-1), which require the maintenance of minimum net capital and require that the ratio of aggregate indebtedness to net capital shall not exceed 15 to 1. 9. LITIGATION

The Company is subject to legal proceedings and claims which have arisen in the ordinary course of its business and have not been fully adjudicated. These actions, when finally concluded and determined, will not, in the opinion of management, have a material adverse effect upon the financial position of the Company.

10. FAIR VALUES OF FINANCIAL INSTRUMENTS

The following disclosures show the hierarchal disclosure framework associated with the level of pricing observations utilized in measuring assets and liabilities at fair value. The three broad levels are defined as follows:

- Level I: Quoted prices are available in active markets for identical assets or liabilities as of the reported date.
- Level II: Pricing inputs are other than the quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these assets and liabilities includes items for which quoted prices are available but traded less frequently and items that are fair-valued using other financial instruments, the parameters of which can be directly observed.
- Level III: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy requires the use of observable market data when available.

The following table presents the assets reported on the Statement of Financial Condition at their fair value as of December 31, 2015, by level within the fair value hierarchy. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	December 31, 2015			
	Level I	Level II	Level III	Total
Assets:				
Mutual funds- municipals	\$ 1,485,619	\$ -	\$ -	\$ 1,485,619
Other investments	\$ 17,451	\$ -	\$ -	\$ 17,451
Total	\$ 1,503,070	\$ -	\$ -	\$ 1,503,070

Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. If a quoted market price is available for a financial instrument, the estimated fair value would be calculated based upon the market price per trading unit of the instrument. Trading investment securities are valued based upon quoted market prices.

Financial instruments are defined as cash, evidence of ownership interest in an entity, or a contract that creates an obligation or right to receive or deliver cash or another financial instrument from or to a second entity on potentially favorable or unfavorable terms. Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced liquidation or sale. If a quoted market price is available for a financial instrument, the estimated fair value would be calculated based upon the market price per trading unit of the instrument.

As certain assets such as furniture and equipment are not considered financial instruments, the estimated fair value of financial instruments would not represent the full value of the Company. Cash and cash equivalents, broker deposit, trading securities, receivables, payables, and accrued expenses would be considered financial instruments. At December 31, 2015, the carrying amount of all financial instruments approximates fair value.

11. FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Company's customer securities transactions are introduced on a fully disclosed basis with NFS. NFS carries all of the accounts of the customers of the Company and is responsible for execution, collection of and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein NFS may charge any losses it incurs to the Company. The Company seeks to minimize the risk through procedures designed to monitor the credit worthiness of its customers and insure that customer transactions are executed properly by NFS.

12. SUBSEQUENT EVENTS

Management has reviewed events occurring through February 26, 2016, the date the financial statements were issued, and no other subsequent events occurred requiring accrual or disclosure.
