INDEPENDENT AUDITORS' REPORT

To the Members of

Greenwich Prime Trading Group, LLC

We have audited the accompanying statement of financial condition of Greenwich Prime Trading Group, LLC (the "Company"), and the related notes as of December 31, 2015.

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of the Company as of December 31, 2015, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

See Notes to Financial Statements.

Notes to Financial Statements

Note 1. Organization

Greenwich Prime Trading Group, LLC (the "Company") is a Connecticut limited liability company. The Company is registered as a broker-dealer in securities with the Securities and Exchange Commission (the "SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA").

The Company operates under the exemptive provisions of paragraph (k)(2)(ii) of SEC Rule 15c3-3. All customer transactions are cleared through another broker-dealer on a fully disclosed basis.

Note 2. Significant Accounting Policies

The Company follows accounting standards established by the Financial Accounting Standards Board (the "FASB") to ensure consistent reporting of financial condition, results of operations and cash flows. References to generally accepted accounting principles ("GAAP") in these notes are to the FASB Accounting Standards Codification™, sometimes referred to as the "Codification" or "ASC."

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions in determining the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Fixed assets consisting of furniture, equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are computed on the straight-line basis over the estimated useful lives of the assets.

The Company records its commission revenues and related expenses on a trade-date basis as securities transactions occur.

Under certain customer arrangements, a portion of commissions generated are segregated for "Soft Dollar" use. The Company sets aside a pre-set amount collected on each trade in a Special Reserve Account. Money is utilized for paying bills associated with client research activity under Section 28(e) of the Securities Exchange Act of 1934. Soft Dollars are accounted as deferred revenue and reduced when Soft Dollar expenses are paid.

The Company follows the provisions of FASB ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"). ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and sets out a fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of financial instruments in Level 1 include listed equities and listed derivatives.
- Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value that is determined through the use of models or other valuation methodologies. Financial instruments in this category generally include corporate bonds and loans, less liquid and restricted equity securities, certain over-the-counter derivatives and redeemable investments in alternative investment funds. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Notes to Financial Statements

Level 3: Inputs that are unobservable for the asset or liability and that include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation. Financial instruments in this category generally include equity and debt positions in private companies, and nonredeemable investments in alternate investment funds.

The Company assesses the levels of investments held at each measurement date, and transfers between levels are recognized on the measurement date in accordance with the Company's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. There were no transfers among Levels 1, 2, and 3 during the year. The Company does not invest or trade securities for its own account.

Note 3. Receivables From Brokers and Dealers

The clearing and depository operations for the Company's security transactions are provided by its clearing broker, Goldman Sachs Execution & Clearing, L.P., pursuant to a clearing agreement until September 25, 2014. Effective September 26, 2014, Merrill Lynch began acting as clearing broker to carry and clear on a fully disclosed basis cash and margin accounts. At December 31, 2015, receivable from brokers and dealers represents cash maintained at the clearing broker and amounts receivable for commissions earned as an introducing broker and consisted of the following:

| | <u>Amount</u> |
|---|---------------------------------------|
| Deposits with clearing broker Fees and commissions receivable Unsettled securities transactions | \$250,000 160,428 <u>30,363</u> |
| | <u>\$440,791</u> |

Note 4. Income Taxes

The Company is not subject to federal income tax, but may be subject to certain state taxes. Each Member is individually liable for taxes on its share of the Company's income or loss. FASB guidance requires the evaluation of tax positions taken or expected to be taken in the course of preparing the companies tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. The Managing Member has reviewed the Company's tax positions for the open tax years (current and prior three tax years) to determine if additional taxes would be due if such positions were examined, and has concluded that there are no material uncertain income tax positions for which an expense and liability should be recorded. The Company is not subject to examination by U.S. federal and state tax authorities for tax years before 2012.

Note 5. Regulatory Requirements

Pursuant to the Uniform Net Capital Rule 15c3-1 of the SEC, the Company is required to maintain minimum net capital, of the greater of \$250,000 or 6-2/3% of aggregate indebtedness which requires the ratio of aggregate indebtedness to net capital, both as defined, not to exceed 15 to 1. Rule 15c3-1 also provides that equity may not be withdrawn if the ratio would exceed 10 to 1. Net capital and aggregate indebtedness fluctuate on a daily basis; however, at December 31, 2015, the Company had net capital, as defined, of

Notes to Financial Statements

. . .

\$1,443,729 which exceeded the required amount by \$1,193,729. At December 31, 2015, the Company's net capital ratio was 0.11 to 1.

Note 6. Profit-Sharing Plan

The Company maintains a qualified profit-sharing plan under Section 401(a) of the Internal Revenue Code (the "Plan"). For the year ended December 31, 2015, the Company contributed \$19,588, in addition to the Members' contributions of \$106,000.

Note 7. Commitments and Contingencies

The Company is obligated under a non-cancelable operating lease for office space expiring April 2018. The aggregate minimum future payments under this lease, exclusive of required payments for increases in real estate taxes and operating costs, are payable as follows:

| Year ending December 31, | |
|--------------------------|----------------|
| 2016 | \$ 195, 500 |
| 2017 | 198,050 |
| 2018 | 66,300 |
| | \$ 459,850 |

The cash security deposit is related to the office lease agreement.

Note 8. Fixed Assets

Details of fixed assets at December 31, 2015 are as follows:

| Computer equipment | \$ 135,568 |
|--|---------------|
| Fumiture | 69,541 |
| Leasehold improvements | 50,673 |
| | |
| | 255,782 |
| Less accumulated depreciation and amortization | (232,774) |
| Fixed assets, net | \$ 23,008 |

ŧ

Notes to Financial Statements

Note 9. Off-Balance-Sheet Risk and Concentration of Risk

The Company maintains cash and cash equivalents with financial institutions. Funds deposited with a single bank are insured up to \$250,000 in the aggregate by the Federal Deposit Insurance Corporation ("FDIC"). Deposits with a single brokerage institution are insured up to \$500,000 per customer, including up to \$250,000 for cash deposits, by the Securities Investor Protection Corp. ("SIPC"). The Company considers all highly liquid instruments purchased with a maturity date of three months or less when purchased to be cash equivalents.

Since the Company does not clear its own securities and futures transactions, it has established accounts with clearing brokers for this purpose. This can and often does result in a concentration of credit risk with these firms. Such risk, however, is mitigated by each clearing broker's obligation to comply with rules and regulations of the SEC.

The Company's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker-dealers. The clearing broker-dealers carry all of the accounts of the customers of the Company and are responsible for execution, collection and payment of funds and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these wherein the clearing broker-dealers may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the creditworthiness of its customers and that customer transactions are executed properly by the clearing broker-dealers.

The company had two clients which provided 12% and 23% respectively, of the commission revenue generated in 2015.

Note 10. Indemnifications

The Company has agreed to indemnify its clearing brokers for losses that the clearing brokers may sustain from the customer accounts introduced by the Company. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these agreements and has not recorded a contingent liability in the financial statements for these indemnifications.

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company expects risk of loss to be remote.

Note 11. Related Party Transactions

Compensation and benefits are paid to Members employed by the Company in accordance with the Amended and Restated Operating Agreement effective January 1, 2006. At December 31, 2015, the Company has a payable to Members for \$71,778 in the statement of financial condition for compensation and benefits.

Note 12. Subsequent Events

The Company has evaluated subsequent events for potential recognition and/or disclosure through the date these financial statements were issued and no further information is required to be disclosed.
