NEAR EARTH, LLC
NOTES
DECEMBER 31, 2015

1. Nature of business and summary of significant accounting policies

Nature of Operations

Near Earth, LLC (the "Company"), a Limited Liability Company, is a broker-dealer registered with the Securities and Exchange Commission ("SEC") pursuant to section 15(b) of the Securities Exchange Act of 1934. The Company is also a member of the Financial Industry Regulatory Authority ("FINRA").

The Company earns consulting and advisory fees, including compensation in the form of stock or stock options, from providing investment banking services through its participation in private placement offerings and providing merger and acquisition, financial advisory and general corporate consulting services to companies.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Revenue Recognition

The Company recognizes revenue from placement fees upon completion of private placement offerings, merger and acquisition advisory success fees upon the successful consummation of such transactions, strategic and financial advisory retainers in the month of receipt, and consulting fees over the life of the underlying agreements at the time work is performed and services are rendered.

Cash Equivalents

The Company considers money market mutual funds and other highly-liquid investments with original maturities of three months or less to be cash equivalents.

Income Taxes

The Company is a limited liability company for federal and state income tax purposes. As such, it does not pay any taxes. The Company's income or loss is taken into consideration in the tax returns of its members for federal and state income tax purposes.

Fair Value Measurements

The Company follows Financial Accounting Standard Board (FASB) guidance on Fair Value Measurements which defines fair value and establishes fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist. As of and for the year ended December 31, 2015 all of the Company's investments held and income on principal transactions were valued using Level 3 inputs.

The Company's investments include an equity interest in a private portfolio company (the "Portfolio Company") that is carried at fair value as determined by Management. Management utilizes the Company's pro-rata interest in the net assets of the Portfolio Company as reported by the Portfolio Company's management. Management considers all relevant information available at the time the Portfolio Company values its investments. Management has assessed factors including, but not limited to, the Portfolio Company's price transparency and valuation procedures in place, capital subscription and redemption activity, and existence of certain redemption restrictions. The Portfolio Company generally records its investments at fair value in accordance with U.S. GAAP. The fair value at which the Portfolio Company is presented in the statement of financial condition may be different from the amount the Company would receive in a sale or liquidation of its investment and the differences may be material.

The following table summarizes the valuation of the Company's investments by the above fair value hierarchy levels at December 31, 2015:

	Level 1	Level 2	Level 3	Total
<i>Assets</i>				
Equity Securities			\$ 21,062	\$ 21,062

The following table provides information on the valuation techniques and nature of significant unobservable inputs used to determine the value of level three assets:

Asset	Fair Value December 31, 2015	Valuation Techniques	Unobservable Inputs	Range of Inputs (Weighted Average)
Equities	\$ 21,062	Derived price	Value of underlying assets discounted for lack of marketability	25%-35% (30%)
