Waller Capital Securities LLC

Notes to Financial Statement

December 31, 2015

1. General

Waller Capital Securities, LLC (the "Company") was organized on June 13, 2000, and is a registered broker-dealer subject to regulation by the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority ("FINRA").

The Company was established to raise capital for customers, primarily in the media industry, through the private placement of equity and debt securities in the United States.

The Company is in dispute with a client on whether or not a success fee of \$500,000 is due to the Company as of December 31, 2015. The Company charged the minimum fee upon completion of a transaction in March 2015, and expected to collect the additional fees as subsequent transactions closed. Subsequent transactions closed in 2015, but the client contends the Company is not owed additional fees as the Company did not bring in the subsequent investors.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Capital Contributions

The sole member, Waller Capital Partners (the "Parent"), intends to infuse sufficient working capital to meet any operational shortfalls and to continue compliance with minimum net capital requirements. During the year ended December 31, 2015, the sole member contributed \$488,508 of additional capital, of which \$110,000 was cash and \$378,508 was non-cash contributions.

Revenue Recognition

The Company recognizes transactions fees at the time the transaction is completed and the income is readily determinable.

Income Taxes

As a limited liability company, the Company is not liable for Federal or state income taxes. The member is responsible to report separately the distributive share of member income or loss to tax authorities.

The Company is a disregarded entity and files as part of the consolidated New York City Unincorporated Business tax return through its Parent.

The Company has adopted the authoritative guidance issued by the Financial Accounting Standards Board on accounting for uncertainty in income taxes. This standard prescribes a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken by the Company. As of December 31, 2015, the member determined that the Company had no uncertain tax positions which affected its financial position, its results of operations or its cash flows and will continue to evaluate for uncertain tax positions in the future. The Company is no longer subject to U.S. Federal tax examinations for years before 2012.

3. Related Party

The Company entered into an expense sharing agreement with its sole member, dated June 9, 2003, and amended May 2012. During 2015, services amounting to \$126,600 were provided under the expense sharing agreement. During 2015, the sole member contributed capital to the Company in the amount of \$110,000 in addition to the services provided under the expense sharing agreement.

4. Commitments and Contingencies

On June 6, 2014, a former consultant to the Company and its parent filed a complaint in court that he is due \$572,625 compensation pursuant to his consulting agreement. The case is in phase of discovery and the Company and its Parent intend to vigorously defend this matter and deny any liability for the claims asserted.

5. Net Capital Requirements

The Company is subject to the net capital requirements of Rule 15c3-1 of the SEC, which require a broker-dealer to have at all times sufficient liquid assets to cover current indebtedness. In accordance with the rule, the Company is required to maintain minimum net capital of the greater of \$5,000 or 1/15 of aggregate indebtedness, as defined. At no time may the ratio of aggregate indebtedness to net capital exceed 15 to 1.

At December 31, 2015, the Company had net capital, as defined, of \$55,049 which was \$16,277 above its required net capital of \$38,772. The Company had aggregate indebtedness of \$581,587 and its ratio of aggregate indebtedness to net capital was 10.56 to 1.

6. Subsequent Events

The Company has evaluated subsequent events occurring after the statement of financial condition date through the date of February 19, 2016, the date for which the financial statements were issued. Based upon this evaluation, the Company has determined that no subsequent events have occurred which require disclosure in or adjustment to the financial statements
