REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholder of Epic Capital Securities Corp

We have audited the accompanying statement of financial condition of Epic Capital Securities Corp (the "Company"), (A Wholly-Owned Subsidiary of Technology at Work Holdings Inc.), as of December 31, 2015, and the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended. These financial statements are the responsibility of Epic Capital Securities Corp's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Epic Capital Securities Corp as of December 31, 2015, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the financial statements, the Company has not generated significant revenues to maintain its operations and thus is dependent upon Technology at Work Holdings, Inc. (the "Parent") to make capital contributions from time to time to provide support for its operations. The Company's ability to continue operations is dependent upon the stockholder's willingness and ability to continue providing the necessary capital for the Company to maintain compliance with the Securities and Exchange Commission Net Capital Rule (Rule 15c3-1).

The information contained in schedules I and II has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

1. NATURE OF BUSINESS

Epic Capital Securities Corp. (the "Company") is a Florida corporation registered as a broker-dealer with the Securities and Exchange Commission ("SEC"), and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company was approved for membership on August 19, 2014. The Company is wholly owned by Technology at Work Holdings Inc. (the "Parent"). The Company's operations consist primarily of introducing customer accounts on a fully disclosed basis to its clearing brokers. The Company does not maintain customer accounts.

The Company has not generated significant revenues to maintain its operations, and thus has been dependent on the Parent to make capital contributions from time to time to support its operations and to maintain compliance with SEC Rule 15c3-1. The Company will likely continue to depend on the Parent for these capital contributions. The Parent has committed to continue providing the necessary capital to maintain compliance with SEC Rule 15c3-1.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statement Presentation

The accounting policies and reporting practices of the Company conform to the predominant practices in the broker-dealer industry and are in accordance with accounting principles generally accepted in the United States of America.

Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Statement of Cash Flows

For purposes of the statements of cash flows and cash equivalents, the Company considers highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

Clearing Agreements

The Company has a clearing agreement with Pershing, LLC to provide execution and clearing services on behalf of its customers on a fully disclosed basis. The agreement between the Company and the clearing broker require that the Company maintain a collateral deposit of \$250,000. The collateral deposit at December 31, 2015 is \$250,000. Receivable from clearing organization includes cash balances held at clearing broker as well as receivables due from clearing brokers on a trades pending settlement. At December 31, 2015, the amount due from clearing broker totaled \$135,355.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at December 31, 2015 and revenues and expenses during the year then ended. The actual outcome of the estimates could differ from the estimates made in the preparation of the financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

The Company primarily acts in a principal capacity, buying and selling securities on a riskless basis with customers and other dealers. Such securities transactions and the related riskless principal trading, commissions, brokerage fees revenues, and expenses are recorded on a trade date basis.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred tax assets are reduced by a valuation allowance if it is more likely than not the benefits will not be realized.

The Company recognizes positions taken or expected to be taken in a tax return in accordance with existing accounting guidance on income taxes which prescribes a recognition threshold and measurement process. Interest and penalties on tax liabilities, if any, would be recorded in interest expense and other expense, respectively.

Recent Accounting Pronouncements

Revenue From Contracts With Customers

In May 2014, the Financial Accounting Standards Board issued an accounting standard update which affects the revenue recognition of entities that enter into either (1) certain contracts to transfer goods or services to customers or (2) certain contracts for the transfer of nonfinancial assets. The update indicates an entity should recognize revenue in an amount that reflects the consideration the entity expects to be entitled to in exchange for the goods or services transferred by the entity. The update is to be applied to the beginning of the year of implementation or retrospectively and is effective for annual periods beginning after December 15, 2017 and in interim periods in annual periods beginning after December 15, 2016. Early application is not permitted. The Company is currently evaluating the effect the update will have on its financial statements.

Subsequent Events

The Company has evaluated subsequent events through February 26, 2016, which is the date the financial statements were issued.

3. COMMITMENTS AND CONTINGENCIES

Leases

Effective December 2015, the Company renewed its existing lease agreement for new office space in Boca Raton, Florida, thru December 2020. The Company has a security deposit of \$5,795 with the landlord. The deposit is reflected within other assets in the accompanying statement of financial condition. For the year ended December 31, 2015, occupancy expenses amounted to \$35,179.

Future minimum rental payments required under the lease are as follows:

Year ending December 31,

2016 2017	\$ 31,000 32,000
2018	33,000
2019	34,000
2020	 35,000
	\$ 165,000

Litigation

The Company is exposed to various asserted and unasserted potential claims encountered in the normal course of business. In the opinion of management, the resolution of these matters will not have a material effect on the Company's financial position or results of operations.

4. INCOME TAXES

The Company recorded no income tax benefit or expense for the year ended December 31, 2015.

The actual income tax expense for 2015 differs from the statutory tax expense for the year (computed by applying the U.S. federal corporate tax rate of 34% to net loss) as follows:

		Effective
	2015	Tax Rate
Current:		
Federal taxes at statutory rate	\$ (86,913)	34.0%
State income taxes, net of federal tax benefit	(9,279)	3.6%
Change in valuation allowance	<u>96,192</u>	(37.6%)
Total	<u>\$0</u>	0.0%

4. INCOME TAXES (CONTINUED)

The Company's gross deferred tax assets are mainly comprised of Federal and State net operating loss carryforwards of approximately \$328,000 expiring in various amounts starting in 2033. Their utilization is limited to future taxable earnings of the Company.

Due to the uncertain nature of the ultimate realization of the net deferred tax asset, the Company has established a full valuation allowance against the benefits of the net deferred tax asset and will recognize these benefits only as reassessment demonstrates they are realizable. Ultimate realization is dependent upon several factors, among which is future earnings. While the need for this valuation allowance is subject to periodic review, if the allowance is reduced, the tax benefits of the net deferred tax assets will be recorded in future operations as a reduction of the Company's income tax expense.

The U.S. Federal jurisdiction and Florida are the major tax jurisdictions where the Company files income tax returns. The Company is subject to U.S. Federal or Florida examinations by tax authorities for all years since inception.

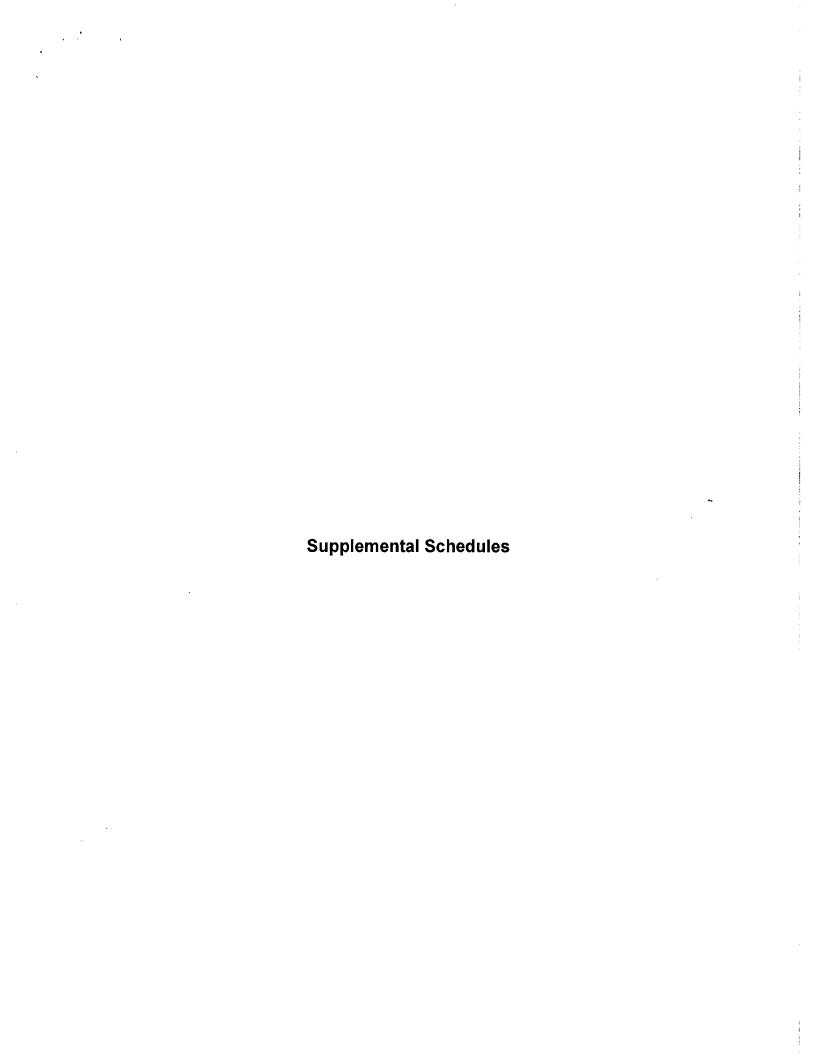

For the year ended December 31, 2015, the Company did not have any unrecognized tax benefits as a result of tax positions taken during a prior period or during the current period. No interest or penalties have been recorded as a result of tax uncertainties.

5. NET CAPITAL REQUIREMENTS

The Company, as a registered broker dealer in securities, is subject to the Securities and Exchange Commission's uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimal net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. As of December 31, 2015, the Company had net capital of \$326,913 which was \$226,913 in excess of its required net capital of \$100,000. The Company's ratio of aggregate indebtedness to net capital was 0.25 to 1 as of December 31, 2015.

6. FURNITURE AND FIXTURES

Furniture and fixtures are stated at cost less accumulated depreciation and amortization. Depreciation of assets is provided for by the straight-line method over the estimated useful lives of 5 years. As of December 31, 2015, furniture and fixtures amounted to \$17,000 and the related accumulated depreciation was \$2,648. Repairs and maintenance are expensed as incurred.
