AK CAPITAL, LLC
NOTES TO FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2015

Nature of Operations and Capitalization of the Company

AK Capital, LLC ("AKC" or the "Company"), a wholly-owned subsidiary of KME Holdings, LLC (the "Member" or "Parent"), was organized on November 4, 1998 in the State of New York as a limited liability company whose operating agreement expires December 31, 2028. AKC is registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority, Inc. ("FINRA") as a broker-dealer and is exempt from Rule 15c3-3 of the Securities Exchange Act of 1934.

The Company trades securities with the intention to aggregate pools of securities to trade to customer accounts and third parties.

Note A - Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities Transactions

Proprietary securities transactions are recorded on a trade date basis, as if they had settled. Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net and included in due to clearing broker on the statement of financial condition.

Securities are recorded at fair value in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 ("FASB ASC 820"), Fair Value Measurements and Disclosures.

Financial Instruments

The Company's financial instruments, which consist of securities owned, interest receivable from clearing broker, deposit with clearing broker, other assets, due to clearing broker, accounts payable and accrued expenses and other liabilities, are reported in the statement of financial condition at fair values or at carrying amounts that approximate their fair values based on their short-term nature.

AK CAPITAL, LLC
NOTES TO FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2015

Note A - Summary of Significant Accounting Policies (Continued)

Derivative Instruments

The Company uses derivative instruments to manage its risk associated with the changes in interest rates. The Company accounts for these instruments at fair value using level one inputs as defined in Financial Accounting Standards Codification ("FASB ASC") Topic 820 on Fair Value Measurements. Total derivative instruments amounted to \$92,111 as at December 31, 2015 and are included in other assets on the statement of financial condition. These derivative instruments do not qualify for hedge accounting, therefore, unrealized gains and losses are recognized in current earnings.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method at rates based upon the estimated useful lives of the respective assets.

Concentrations of Credit Risk

Uninsured Cash Balances

The Company maintains cash balances at financial institutions, which are insured, in the aggregate, by the Federal Deposit Insurance Corporation ("FDIC") for up to \$250,000. There were no cash balances in excess of insured amounts as at December 31, 2015.

Credit Risk

In the normal course of business, the Company is exposed to risk of loss from the inability of brokers and dealers and financial institutions to pay for purchases or to deliver the financial instruments sold, in which case the Company would have to sell or purchase the financial instruments at prevailing market prices. However, the Company mitigates risk by dealing primarily with large U.S. financial institutions and through reporting and control procedures.

Subsequent Events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through February 29, 2016, the date on which the financial statements were available to be issued.

AK CAPITAL, LLC
NOTES TO FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2015

Note B - Fair Value Measurements

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2 - Inputs are other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - These are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

The following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis, which were all classified as Level 2, as of December 31, 2015:

	<u>Level 2</u>
Obligations of U.S. government agencies	\$ 48,702,650
Collateralized Mortgage Obligations	<u>6,630,704</u>
Total	<u>\$ 55,333,354</u>

AK CAPITAL, LLC
NOTES TO FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2015

Note B - Fair Value Measurements (Continued)

Obligations of U.S. government securities are callable agency-issued debt securities valued by benchmarking model-derived prices to quoted market prices and trade data for identical or comparable securities. Obligations of U.S. government securities are categorized in level 2 of the fair value hierarchy.

Collateralized mortgage obligations are valued using quoted market prices and trade data adjusted by subsequent changes in related indices for identical or comparable securities. Collateralized mortgage obligations are categorized in level 2 of the fair value hierarchy.

Note C - Property and Equipment

Property and equipment are summarized as follows as at December 31, 2015:

	<u>Cost</u>	<u>Accumulated Depreciation</u>	<u>Net Book Value</u>
Computer and office equipment	\$ 26,710	\$ 26,710	\$ -
Furnishings	135,040	135,040	-
Total	<u>\$ 161,750</u>	<u>\$ 161,750</u>	<u>\$ -</u>

Note D - Due to Clearing Broker

The Company has margin borrowings from its clearing broker which are collateralized by all securities held in its proprietary trading accounts. Interest on such margin borrowings was charged at the clearing broker's internal cost of funds interest rate which was 1.51% as at December 31, 2015. As at December 31, 2015, such borrowings amounted to \$51,966,602 and were fully collateralized by securities owned at a fair value of \$55,333,354 plus accrued interest due from the clearing broker of \$283,451.

Note E - Retirement Plan

The Company sponsors a qualified defined contribution 401(k) profit sharing plan (the "Plan"). Subject to certain limitations, the Company may make matching contributions on the participants' behalf of an amount not to exceed 100% of the first 4% of the participants' elective deferrals. The Plan provides generally for normal retirement at age 65.

AK CAPITAL, LLC
NOTES TO FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2015

Note F - Income Taxes

The Company, as a wholly-owned subsidiary of the Parent, is a single member limited liability company and, as such, under the provisions of the Internal Revenue Code and comparable state and local regulations, is not recognized as a taxable entity and does not pay federal, state or local income taxes on its income. Instead, the Parent reports the Company's transactions of income on the Parent's income tax returns. Accordingly, no federal, state or local income taxes have been provided.

Note G - Off Balance Sheet Risk

Pursuant to a clearing agreement, the Company introduces all of its proprietary securities transactions to its clearing broker on a fully disclosed basis. In accordance with the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company and in connection therewith, the Company must maintain a deposit with the clearing broker which amounted to \$112,925 at December 31, 2015.

The Company enters into various off-balance sheet transactions involving mortgage-backed securities to be announced ("TBAs"). These financial instruments are used to manage market risks and are therefore subject to varying degrees of market and credit risks. TBAs provide for the delayed delivery of the underlying instrument. The credit risk for TBAs is limited to the unrealized fair valuation gains or losses recorded in the statement of financial condition. As at December 31, 2015, there were no open TBA positions.

Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest rates.

The Company seeks control of off-balance-sheet risk by monitoring the market value of securities held in compliance with regulatory and internal guidelines and in dealing primarily with large U.S. financial institutions and through reporting and control procedures.

Note H - Commitments and Contingencies

Operating Leases

The Company is obligated under operating leases with an affiliate of the Parent for office space in Deerfield Beach, Florida at an annual rental of \$24,200 through January 31, 2017 and in Miami Beach, Florida at an annual rental of \$39,000 through October 31, 2017. The Company also has an operating lease for its office space in New York City at an annual rental ranging from \$63,000 to \$66,000 through March 31, 2017.

AK CAPITAL, LLC
NOTES TO FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2015

Note H - Commitments and Contingencies (Continued)

Operating Leases (Continued)

Future annual minimum lease payments under these operating leases are approximately as follows:

<u>Years Ending December 31,</u>	<u>Amount</u>
2016	\$ 129,000
2017	51,000
Total	<u>\$ 180,000</u>

Note I - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1.

As at December 31, 2015, the Company had net capital, as defined, of \$450,007, which was \$350,007 in excess of its required net capital of \$100,000. The Company's ratio of aggregate indebtedness to net capital was 1.01 to 1.
