DERMOTT W. CLANCY CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Note 1 - Nature of Business

Dermott W. Clancy Corp. (The "Company") is a New York corporation formed in September 2003, for the purpose of conducting business on the floor of the New York Stock Exchange ("NYSE"). The Company is registered as a broker-dealer with the Securities and Exchange Commission ("SEC").

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clears all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer, and promptly transmits all customer funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

Note 2 - Summary of Significant Accounting Policies

a) Revenue Recognition

Securities transactions (and the recognition of related income and expenses) are recorded on a trade date basis. Commission income and related income and expense are recorded on a settlement date basis. There is no material difference between settlement date and trade date.

b) Income Taxes

The Company has elected to be treated as an "S" Corporation under the provisions of the Internal Revenue Code and New York State tax regulations. Under the provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholder is liable for individual income taxes on his respective share of the Company's taxable income. The Company continues to pay New York City general corporation taxes.

c) Cash and Cash Equivalents

The Company considers demand deposited money market funds to be cash equivalents. The Company maintains cash in bank account which, at times may exceed federally insured limits or where no insurance is provided. The Company has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on cash and cash equivalents.

d) Fixed Assets

Equipment is carried at cost and is depreciated over a useful life of 5-7 years using the straight line method.

DERMOTT W. CLANCY CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

e) Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, and the reported amounts of revenues and expenses.

f) Subsequent Events

The Company has evaluated events and transactions that occurred between January 1, 2016 and February 23, 2016, which is the date the financial statements were available to be issued for possible disclosure and recognition in the financial statements.

Note 3 - Fair Value Measurement

The Company carries its investments at fair value. ASC 820, Fair Value Measurements and Disclosure, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Fair values derived from unadjusted quoted prices of identical assets in active markets.

Level 2 - Fair values derived from quoted prices of similar assets in active markets, quoted prices for identical or similar assets in markets that are not active and model driven valuations in which all significant participant inputs are observable in active markets

Level 3 - Fair values derived from inputs which are not observable in markets.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgement. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

DERMOTT W. CLANCY CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Note 3 - Fair Value Measurement (continued)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Cash and cash equivalents -

The carrying amounts reported on the Statement of Financial Condition for cash approximate those assets fair values. Cash and cash equivalents are generally categorized in level 1 of the fair value hierarchy.

Due from broker -

Due from broker consists of deposits of cash held by other clearing organizations.

Note 4 - Profit Sharing Plan

The Company maintains a defined contribution plan covering substantially all employees. The Company contributes at the discretion of management, up to 15% of the eligible compensation.

The Company has no liability to the plan as of December 31, 2015.

Note 5 - Related Party Transactions

The Company receives commissions from an entity whose 100% stockholder is the spouse of the Company's 100% stockholder. In 2015, commissions of \$11,700 were received from this entity. The Company shares its premises with this entity and another entity, whose spouse is also the spouse of the Company's 100% stockholder.

Note 6 - Financial Statements with Off-Balance Sheet Credit Risk

As a securities broker, the Company is engaged in buying and selling securities for a diverse group of institutional and individual investors. The Company introduces these transactions for clearance to another broker-dealer on a fully disclosed basis. The Company's exposure to credit risk associated with non-performance of customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair customers' ability to pay their obligations to the Company and the Company's ability to liquidate the collateral at an amount equal to the original contracted amount.

DERMOTT W. CLANCY CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

Note 6 - Financial Statements with Off-Balance Sheet Credit Risk (continued)

The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to such non-performance by its customers. The Company seeks to control the aforementioned risks by requiring customers to maintain margin collateral in compliance with various regulatory requirements and the clearing broker's internal guidelines. The Company monitors its customer activity by reviewing information it receives from its clearing broker on a daily basis, and requiring customers to deposit additional collateral, or reduce positions, when necessary.

Note 7 - Net Capital Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500%. At December 31, 2015, the Company had Net Capital of \$8,777 which was \$1,936 in excess of its required net capital of \$6,841. The Company's net capital ratio was 1169.02%.
