Note 1 – Organization and summary of significant accounting policies

Organization

Ashton Stewart & Co., Inc. (the Company), formerly MAS Capital Securities, Inc. and Vantage Securities, Inc., was incorporated as MAS Trade.net, Inc., on September 27, 1999, in the State of Indiana. On October 29, 2001, the Company changed its name to MAS Capital Securities, Inc.

During November 2002, the Company's sole shareholder entered into an agreement to sell all of the issued and outstanding shares of the Company to Vantage Advisor Group, LLC (VAG or LLC). The name was then changed to Vantage Securities, Inc.

During 2010, in an effort to rebrand the firm to more adequately reflect its investment banking line of business the name was changed to Ashton Stewart & Co., Inc.

During 2015 the shares of the Company were sold. The Company will continue to operate under the new ownership. The new ownership has injected capital into the Company and will continue to do so to ensure the Company meets regulatory requirements.

The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Regulatory Authority (FINRA).

Revenue recognition

Wholesale fees on the sale of insurance products to other broker-dealers are recognized as earned, normally, when the sales are completed, the amounts can be reasonably estimated and the collection assured. Registered representative commissions and related expenses are recorded when earned and incurred on a monthly basis according to agreements.

Income taxes

The Company follows FASB ASC 740-10 for recording the provision for income taxes. Deferred tax assets and liabilities are computed based upon the difference between the financial statement and income tax basis of assets and liabilities using the enacted marginal tax rate applicable when the related asset or liability is expected to be realized or settled. Deferred income tax expenses or benefits are based on the changes in the asset or liability each period. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized. Future changes in such valuation allowance are included in the provision for deferred income taxes in the period of change.

The Company files income tax returns in the U.S. Federal jurisdiction and state jurisdictions. With a few exceptions, the Company is no longer subject to U.S. Federal or state and local income tax examinations by tax authorities for years before 2012.

Note 1 – Organization and summary of significant accounting policies - continued

Deferred taxes are classified as current or non-current, depending on the classification of assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and cash equivalents

The Company considers all liquid investments with original maturities of three months or less to be cash equivalents. The Company had no cash equivalents as of December 31, 2015.

The Company maintains its cash balances in one financial institution, which at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not subject to significant credit risk related to cash.
