Statement of Financial Condition

December 31, 2015

(With Report of Independent Registered Public Accounting Firm Thereon)

Report of Independent Registered Public Accounting Firm

The Board of Directors
NH Investment & Securities America, Inc.:

We have audited the accompanying statement of financial condition of NH Investment & Securities America, Inc. as of December 31, 2015, and the related notes to the financial statements. This financial statement is the responsibility of NH Investment & Securities America, Inc.'s management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of NH Investment & Securities America, Inc. as of December 31, 2015 in accordance with accounting principles generally accepted in the United States of America.

1. **Description of Business**

Washington DC
409

NH Investment & Securities America, Inc. (the "Company") was incorporated on June 18, 1992 under the laws of the State of Delaware to conduct a securities business in the United States of America. The Company, a wholly owned subsidiary of NH Investment & Securities Co., Ltd. (the Parent), a Korean corporation, is a registered broker and dealer in securities under the Securities Exchange Act of 1934 and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

The Company acts as an agent for customers in the purchase and sale of Korean and U.S. securities. The Company executes and clears Korean securities trades through the Parent. U.S. securities trades clear through a third party clearing broker. These trades are settled on a delivery versus payment basis.

Accordingly, the Company does not carry customers' accounts and does not receive, deliver, or hold cash or securities in connection with such transactions. The Company claims exemption from SEC Rule 15c3-3 under Paragraph (k)(2)(i).

2. **Summary of Significant Accounting Policies**

(a) Basis of Presentation

The accompanying statement of financial condition has been prepared in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of the statement of financial condition in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

(c) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

NH Investment & Securities America, Inc.
(A Wholly Owned Subsidiary of
NH Investment & Securities Co., Ltd.)

Notes to Statement of Financial Condition

December 31, 2015

(d) Fixed Assets

Fixed assets are stated at cost, net of accumulated depreciation. Depreciation is provided on a straight-line method over the estimated useful lives of the respective asset, ranging from five to seven years. Leasehold improvements are amortized on a straight-line basis over the shorter of their useful lives or terms of their related leases.

3. Net Capital Requirements

The Company, as a registered broker and dealer in securities, is subject to the Uniform Net Capital Rule 15c3-1 of the Securities Exchange Act of 1934. Such rule prohibits the Company from engaging in any securities transactions whenever its "aggregate indebtedness", as defined, exceeds 15 times its "net capital", as defined. Under such rule, and the related rules of FINRA, the Company may be required to reduce its business if its net capital ratio exceeds 12 to 1, and it may be prohibited from expanding its business if its net capital ratio exceeds 10 to 1.

At December 31, 2015, the Company had a minimum net capital requirement of \$250,000. The Company had a service agreement ("Chaperoning arrangement") with the Parent, which was regarded as a foreign broker-dealer under SEC Rule 15a-6(a)(3). SEC requires registered brokers and dealers that enter into a service agreement with a foreign broker-dealer to maintain a minimum net capital of \$250,000. At December 31, 2015, the Company had net capital of \$3,802,316, which exceeded the minimum requirement by \$3,552,316. The Company's percentage of aggregate indebtedness to net capital was 2.46%.

4. Fixed Assets

Fixed assets at December 31, 2015 are summarized as follows:

Equipment	\$ 135,844
Furniture and fixtures	160,931
Leasehold improvements	<u>248,815</u>
	545,590
Less accumulated depreciation and amortization	<u>507,836</u>
	\$ <u>37,754</u>

5. Income Taxes

The tax effects of temporary differences that give rise to the deferred tax assets at December 31, 2015 are as follows:

NH Investment & Securities America, Inc.
(A Wholly Owned Subsidiary of
NH Investment & Securities Co., Ltd.)

Notes to Statement of Financial Condition

December 31, 2015

Deferred tax assets (liabilities):	
Net operating loss carryforwards	\$ 849,985
Fixed assets	42,708
Deferred rent	7,002
Charitable contributions	<u>2,049</u>
Total gross deferred tax assets	901,744
Less valuation allowance	<u>901,744</u>
Net deferred tax assets	\$ <u>-</u>

The net change in the valuation allowance for the year ended December 31, 2015 was an increase of approximately \$87,000. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the period in which those temporary differences become deductible. Based upon the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets are deductible, management believes it is more likely than not that the company will not realize the benefits of these deductible differences. Accordingly, deferred tax assets have been reduced by a valuation allowance.

At December 31, 2015, the Company had net operating loss carryforwards available for federal income tax purpose of approximately \$1,905,000 which expire in various years through December 31, 2035. The Company also has net operating loss carryforwards for states and local tax purposes amounting to approximately \$2,624,000 at December 31, 2015, which expire in various years through December 31, 2035.

FASB ASC 740-10, *Income Taxes*, requires the Company to determine whether it is more likely than not that a tax position will be sustained upon examination by the applicable tax authority based on technical merits of the position. Management has analyzed the tax positions taken by the Company and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. New York State and New York City are where the Company is subject to state and local income taxes. The Company remains subject to examination for the year ended December 31, 2014, and the nine months ended December 31, 2013, and for fiscal year ended March 31, 2013 for the federal, states, and local jurisdictions.

6. Related Party Transaction

The Company executes and clears Korean securities through the Parent. Commissions on Korean securities transactions for customers are collected by the Parent directly from the customers and remitted periodically to the Company. A summary of balance with the Parent as of December 31, 2015 is approximately as follow:

Commissions receivable	\$ 16,000
------------------------	-----------

NH Investment & Securities America, Inc.
(A Wholly Owned Subsidiary of
NH Investment & Securities Co., Ltd.)

Notes to Statement of Financial Condition

December 31, 2015

7. Commitment

As of December 31, 2015, the Company was obligated under noncancelable operating lease contract for its office space, which expires in February 2017. The office lease contains a rent escalation clause for increases in property taxes and wage over base rate, and provisions for payments for maintenance and certain other operating costs.

The future minimum lease payments under the noncancelable operating lease contract as of December 31, 2015 are as follows:

Year ending December 31:	<u>Amount</u>
2016	\$ 228,000
2017	<u>38,000</u>
	<u>\$ 266,000</u>

8. Off-Balance-Sheet Risk

The Company clears securities transactions on behalf of customers through its clearing brokers. In connection with these activities, customers' unsettled trades may expose the Company to off-balance-sheet credit risk in the event customers are unable to fulfill their contracted obligations. There were no customers' unsettled trades at December 31, 2015. The Company seeks to control the risk associated with its customer activities by monitoring the creditworthiness of its customers.

9. Concentrations of Credit Risk

Concentrations of credit risk that arise from financial instruments (whether on or off balance sheet) exist for group of counterparties when they have similar economic characteristics that would cause their ability to meet obligations to be similarly affected by economic, industry or geographic factors. There were no significant concentrations of credit risk at December 31, 2015. The Company seeks to control its credit risk and the potential for risk concentration through a variety of reporting and control procedures.

10. Subsequent Events

The Company has evaluated subsequent events from the date of the statement of financial condition through February 24, 2016, the date at which the statement of financial condition was available to be issued and determined that there were no other items which required accounting for or disclosure in the statement of financial condition.
