M FINANCIAL SECURITIES MARKETING, INC.
(A Wholly Owned Subsidiary of M Financial Holdings Incorporated)

Notes to Financial Statements

December 31, 2015 and 2014

(1) Basis of Presentation and Significant Accounting Policies

(a) Organization and Nature of Business

M Financial Securities Marketing, Inc. (the Company), an Oregon corporation, was incorporated on June 20, 2005. The Company is registered as a securities broker pursuant to the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is a wholly owned subsidiary of M Financial Holdings Incorporated (the Parent). The Company commenced operations in November 2006.

The Company is engaged as a limited purpose broker-dealer, which primarily receives intermediary fees in the form of compensation from selected direct writing life insurance companies and financial service providers (Financial Service Providers) for providing intermediary services that may be based upon the volume of premiums and type of variable insurance and other financial service products sold by Member Firms.

(b) Basis of Presentation

The financial statements and footnotes have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

(c) Intermediary Fee Income

Intermediary fee income is recognized as earned.

(d) Intermediary Fees Receivable

Management believes intermediary fees receivable at December 31, 2015 and 2014 are collectible; accordingly, no provision for uncollectible accounts has been recorded.

(e) Cash and Cash Equivalents

The Company's cash and cash equivalents consist of bank deposits and money market instruments. For purposes of the Statements of Financial Condition and Cash Flows, the Company considers all highly liquid debt instruments with a remaining maturity of three months or less, when purchased, to be cash equivalents. Amounts may exceed federally insured limits, but management does not believe that the Company is exposed to any significant risk.

(f) Income Taxes

The Company is included in the consolidated federal income tax return filed by the Parent. The Company recognizes deferred income taxes for the tax consequences in future years of the differences between the income tax bases of assets and liabilities and their financial reporting amounts at each year-end, based upon statutory income tax rates applicable to the periods in which the differences are expected to affect taxable income. The Company provides a valuation allowance, if necessary, to reduce deferred income tax assets, if any, to their estimated realizable values.

M FINANCIAL SECURITIES MARKETING, INC.
(A Wholly Owned Subsidiary of M Financial Holdings Incorporated)

Notes to Financial Statements

December 31, 2015 and 2014

The Company recognizes and measures its unrecognized income tax benefits in accordance with FASB ASC 740, *Income Taxes*. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized income tax benefits is adjusted when new information is available, or when an event occurs that requires a change. As of December 31, 2015 and 2014, the Company did not have any unrecognized income tax benefits.

(g) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(h) Subsequent Events

The Company has evaluated subsequent events through the date that the financial statements were issued, noting none.

(2) Net Capital and Reserve Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. The Company has elected to use the basic method, permitted by the rule, which requires that the Company maintain minimum net capital as defined, equal to the greater of \$5,000 or 6-2/3% of the aggregate indebtedness balance, as defined. The net capital rule of the “applicable” exchange also provides that equity capital may not be withdrawn or cash dividends paid if resulting regulatory net capital would be less than 5% of aggregate indebtedness. As of December 31, 2015 and 2014, the Company has regulatory net capital of \$4,561,796 and \$4,486,997, which is \$4,380,177 and \$4,296,360 in excess of its required net capital of \$181,619 and \$190,637. As of December 31, 2015 and 2014, the Company has a ratio of aggregate indebtedness to net capital of 0.60 to 1.00 and 0.64 to 1.00, respectively.

The Company is exempt from the provisions of Rule 15c3-3 under paragraph (k)(2)(i) of the Rule because the Company carries no customer accounts and, therefore, does not hold funds or securities for or owe funds or securities to customers.

(3) Related-Party Transactions

The Company’s Parent allocates certain overhead and indirect expenses to the Company. These overhead and indirect expenses include those expenses related to shared occupancy, equipment, utilities, employees, supplies and administrative costs of the Company. Direct expenses are incurred and expensed by the Company. Such direct expenses include registrations, assessments, fees, taxes and outside professional services, which are specific to the Company. All expenses are paid by the Parent and then reimbursed by the Company to the Parent. As of December 31, 2015 and 2014, \$69,597 and \$118,724, respectively, is payable to the Parent for expenses.

M FINANCIAL SECURITIES MARKETING, INC.
(A Wholly Owned Subsidiary of M Financial Holdings Incorporated)

Notes to Financial Statements

December 31, 2015 and 2014

The Company currently earns net income to support its operations, however, the Parent has represented that in the event the Company may no longer have revenues large enough to fund its operations, the Parent will provide financial support to the Company until such time that the revenues earned are sufficient to cover the Company's operating expenses.

In cases where the Company has excess capital from operations it may pay dividends to its Parent. In 2015 and 2014, the Company paid dividends to its Parent of \$9,550,000 and \$8,300,000, respectively, a portion of which was treated as a return of contributed capital. In 2015 and 2014, the return of contributed capital totaled \$2,805,339 and \$2,751,620, respectively, as a result of the Company's income tax sharing agreement with the Parent (Note 4).

(4) Income Taxes

The Company is included in the consolidated federal income tax return filed by its Parent. The Company also files consolidated and separate income tax returns in various states. With few exceptions, the Company is no longer subject to examination by taxing authorities for years prior to 2009. For purposes of the financial statements, federal and state income taxes are calculated as if the Company filed separate federal and state income tax returns. The income tax expense included in the Statements of Income is as follows:

	2015	2014
Current	\$ 5,484,396	\$ 5,614,972
Deferred	5,500	(1,063)
	\$ 5,489,896	\$ 5,613,909

A reconciliation of the differences between the expected income tax expense on income computed at the U.S. statutory income tax rate of 35% for 2015 and 2014, and the Company's income tax expense is shown in the following table:

	2015	2014
Expected income tax expense at U.S. statutory income tax rate	\$ 4,308,673	\$ 4,288,492
Increase in income tax expense resulting from:		
State income tax	1,122,258	1,222,116
Meals and entertainment	56,549	94,055
Other	2,416	9,246
Income tax expense	\$ 5,489,896	\$ 5,613,909

M FINANCIAL SECURITIES MARKETING, INC.
(A Wholly Owned Subsidiary of M Financial Holdings Incorporated)

Notes to Financial Statements

December 31, 2015 and 2014

The Company has an income tax sharing agreement with the Parent. Under the income tax sharing agreement, the Company shall pay the Parent the amount of federal income tax, if any, that the Company would have paid had the Company filed a separate federal income tax return for such year. As of December 31, 2015 and 2014, \$2,654,693 and \$2,740,826, respectively, is payable to the Parent for income taxes. Also under this agreement, the Company's income taxes payable to the Parent shall be calculated by taking into account the Company's allocated share based on a stand-alone calculation of the Parent's Incentive Compensation Plan (ICP) expense that would have been generated by the Company had the Company filed its income tax return separately. The income tax related to the ICP expense is not included in the Company's income tax expense calculation but is treated as a capital contribution from the Parent and as a reduction in the payable for income taxes in accordance with the separate income tax return allocation methodology. This contribution of capital is a noncash transaction in the amounts of \$1,669,273 and \$1,653,020 for the years ended December 31, 2015 and 2014, respectively.

In addition, the Company's income tax expense is calculated on both a stand-alone basis and on a consolidated basis. The Company records the stand-alone basis income tax expense. The difference between the stand-alone basis income tax expense calculation and the consolidated basis income tax expense calculation is treated as a capital contribution from the Parent. This contribution of capital is a noncash transaction in the amounts of \$1,136,066 and \$1,098,600 for the years ended December 31, 2015 and 2014, respectively.

The temporary differences that give rise to deferred income tax assets as of December 31, 2015 and 2014 relate to the following:

	2015	2014
Deferred income tax assets:		
Start-up expenses	\$ 13,306	\$ 15,587
Deferred state income taxes, net of federal income tax effect	3,848	5,190
Deferred rent	960	2,837
Net deferred income tax assets	\$ 18,114	\$ 23,614

The Company believes that the deferred income tax assets listed above are fully recoverable and, accordingly, no valuation allowance has been recorded. The Company bases its assessment as to the realizability of the deferred income tax assets on available evidence including historical and projected operating results, estimated reversals of temporary differences and, where applicable, tax planning strategies. Estimates as to the realizability of deferred income tax assets are subject to change.

(5) Concentrations of Credit Risk

The Company is engaged in various activities in which counterparties primarily include Financial Service Providers. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Notes to Financial Statements

December 31, 2015 and 2014

(6) Disclosures about Fair Value of Financial Instruments

The financial instruments of the Company, which consist of cash and cash equivalents, are reported in the statements of financial condition at market or fair values, or at carrying amounts that approximate fair values, because of the short maturities of the instruments.

(7) Commitments and Contingencies

The Company, its Parent, and its Parent's subsidiaries, in common with the insurance industry in general, are subject to litigation in the normal course of their business. Currently there is no known litigation involving the Company. The Company is also unaware of any pending litigation.

(8) Regulatory Matters

As a regulated entity, the Company is subject to certain audits, examination, reviews, etc., by various regulatory agencies.

During 2014, FINRA conducted a routine examination of the Company which was closed with no material findings.
