Notes to Statement of Financial Condition

December 31, 2015

#### (1) Organization and Nature of Operations

Wells Fargo Funds Distributor, LLC (WFFD) is a wholly owned subsidiary of Wells Fargo Investment Group, Inc. (WFIGI) whose ultimate parent is Wells Fargo & Company (WFC). WFFD is registered with the Securities and Exchange Commission (the SEC) as a broker-dealer in securities and is a member of the Financial Industry Regulatory Authority (FINRA). As of December 31, 2015, WFFD's primary activity is the distribution of Wells Fargo Funds (the Funds), pursuant to a service agreement with Wells Fargo Funds Management, LLC (WFFM). WFFD was chartered and seeded with \$23,501,000 by WFIGI on October 19, 2004, and commenced broker-dealer operations on April 11, 2005. WFIGI made an additional capital contribution of \$30,000,000 to WFFD on October 23, 2013.

WFFD does not receive or hold customer funds or securities.

#### (2) Summary of Significant Accounting Policies

#### (a) Basis of Presentation

The Company's financial statements are prepared in accordance with U.S. generally accepted accounting principles, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates, including the fair value of financial instruments, and matters that affect the reported amounts and disclosures of contingencies in the financial statements, may vary from actual results. Current market conditions may increase the risk and complexity of judgment in these estimates.

#### (b) Fair Value of Financial Instruments

In accordance with FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements* and *Disclosures*, WFFD categorizes its assets and liabilities that are accounted for at fair value in the statement of financial condition in the fair value hierarchy as defined by ASC 820. The fair value hierarchy is directly related to the amount of subjectivity associated with the inputs utilized to determine the fair value of these assets and liabilities. See note 6 for further information about the fair value hierarchy and WFFD's assets and liabilities that are accounted for at fair value.

#### (c) Cash and Cash Equivalents

Cash and cash equivalents include cash in banks and money market fund investments, all with affiliated parties.

#### (d) Underwriting and CDSC Fee

Payments of dealer reallowances, also known as deferred sales commissions, from the sales of the Funds' Class C shares are recorded as a deferred asset at the point of sale and are amortized on a straight-line basis over a 12-month period. This corresponds with the period the deferred sales commissions are expected to be recovered from 12b-1 distribution fees and contingent deferred sales charges (CDSCs).

#### (e) Federal and State Income Taxes

The Company is a single-member limited liability company ("SMLLC") and is treated as a disregarded entity pursuant to Treasury Regulation 301.7701-3 for Federal income tax purposes. Generally, disregarded entities are not subject to entity-level Federal or state income taxation and as such, the Company does not provide for income taxes under FASB ASC 740, *Income Taxes*. The Company's taxable income is primarily reported in the tax return of its Parent. The related income tax expense recognized by the Parent on the Company's net income for 2015 is approximately \$24,789.

#### (3) Related-party Transactions

In the ordinary course of business, WFFD enters into material transactions with other affiliates of WFC. These transactions could be charges or reimbursements to WFFD and include costs incurred for employee benefit programs sponsored by WFC (note 5) and other operating expenses allocated by affiliates.

As of December 31, 2015, WFFD had a receivable of \$6,970,163 for 12b-1 distribution fees due from the Funds.

Pursuant to the terms of an administrative services agreement with WFFM, WFFD earned revenues of \$96,196,814 in 2015 for administrative, marketing, and related services performed on behalf of WFFM. This amount is compensation for additional services that are not paid for under the Funds' Rule 12b-1 plan, and is based on attributable net WFFD expenses in excess of revenues plus an incremental cost of 0.25% of WFFD employees' base salaries. As of December 31, 2015, WFFD had a receivable of \$9,001,496 due from WFFM related to this agreement.

### (4) Net Capital Requirements

WFFD is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), and was required to maintain minimum net capital of \$1,330,397 as of December 31, 2015. At December 31, 2015, WFFD had net capital of \$32,581,719, which was \$31,251,322 in excess of the minimum required. WFFD's net capital ratio (ratio of aggregate indebtedness to net capital) was 61% at December 31, 2015.

WFFD is exempt from Rule 15c3-3 under subsection (k)(1). Under this exemption, the "Computation for Determination of Reserve Requirements" and "Information Relating to the Possession or Control Requirements" are not required.

### (5) Employee Benefits

WFFD participates in certain employee benefit plans sponsored by WFC. The benefits costs associated with WFFD employees are allocated to WFFD.

WFFD's employees are eligible for benefits under WFC's defined contribution plan, the Wells Fargo & Company 401(k) Plan ("401(k) Plan"), after one month of service. Under the 401(k) Plan, each eligible employee may contribute up to 50% of their certified compensation in before tax or Roth contributions, or a combination of both, up to the IRS limit, although there may be a lower limit for certain highly compensated employees in order to maintain the qualified status of the 401(k) Plan. Eligible employees

Notes to Statement of Financial Condition

December 31, 2015

who completed one year of service are eligible for matching company contributions, which are generally a dollar for dollar match up to 6% of an employee's certified compensation. The matching contributions are immediately 100% vested. Depending on Wells Fargo's annual financial performance, Wells Fargo may decide to make an employer discretionary profit sharing contribution of up to 4% of eligible certified compensation for a plan year. The profit sharing contribution is discretionary, and Wells Fargo is not required to make a contribution for any plan year. Employees vest in their Profit Sharing Account within the 401(k) Plan after three years of service.

Certain WFFD employees participate in various WFC stock-based employee compensation plans, which provide for awards of incentive and nonqualified stock options, stock appreciation rights, restricted shares, restricted share rights, performance awards and stock awards without restrictions. Options must have an exercise price at or above fair market value (as defined in the plans) of the stock at the date of grant and a term of no more than 10 years.

#### (6) Fair Value of Assets and Liabilities

ι.;

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value in accordance with U.S. generally accepted accounting principles, and requires disclosures about fair value measurements.

Money market fund investments are recorded at fair value on a recurring basis.

In accordance with ASC 820, WFFD groups its financial assets and financial liabilities measured at fair value in three levels, based on markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect WFFD's own estimates of assumptions market participants would use in pricing the asset or liability. Valuation techniques include use of discounted cash flow models, option pricing models, and similar techniques.

The balances of assets and liabilities measured at fair value on a recurring basis as of December 31, 2015 are as follows:

Description	 Total	Level 1	Level 2	Level 3
Cash and cash equivalents	\$ 57,062,317	57,062,317
