1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Family Investors Company, Inc. (the "Company") was incorporated in the State of New Jersey on April 1, 1960. The Company is an introducing broker registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is exempt from rule 15c3-3 of the SEC under paragraph (K)(2)(ii) of that rule.

Basis of Accounting

Revenue and expenses are recorded on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

The Company considers all highly liquid investments, except for those held or long-term investment, with maturities of three months or less when purchased to be cash equivalents.

<u>Deposit at Clearing Broker</u>

A cash deposit is required to be held by the clearing broker in order to maintain a contractual clearing agreement.

Securities Transactions

The Company accepts customer orders and self clears the orders except for equity securities, which clear through another broker. The clearing broker settles the equity security transaction and pays the Company a commission.

Customer payments for the investment company shares are payable directly to the investment company. The Company receives a commission check periodically from the fund company. In the event a customer check is payable to Family Investors Company, Inc. it is deposited into a trust account and a check for the actual cost of the shares less the Company's commissions is drawn from the trust account and sent to the investment company. The Company transfers commissions accumulated in the trust account periodically to the operating account.

1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Property and Equipment

Property and equipment are recorded at cost. Depreciation for property and equipment is provided using the straight-line method for financial purposes at rates based on the following estimated useful lives:

	<u>Years</u>
Office Equipment	7
Furniture	5

Upon sale or retirement, the cost and related accumulated depreciation are eliminated from the respective accounts, and the resulting gain or loss is reported. Expenditures for major renewals and improvements that extend the useful lives of the property and equipment are capitalized. Expenditures for the maintenance and repairs are charged to expense as incurred.

Revenue and Cost Recognition

Commissions and related expenses are recorded on a trade-date basis as securities transactions clear.

Advertising Costs

The Company expenses advertising costs as they are incurred. Advertising expense for the year ended December 31, 2015 was \$18,934.

Income Taxes

Federal and State taxes are recorded as of the date of the financial statements utilizing currently enacted tax laws and rates. No current and deferred taxes payable or refundable are recognized as of the date of the financial statements. As of December 31, 2015, The Company's tax years 2014, 2013 and 2012 are subject to examination by the taxing authorities.

The Organization has evaluated its current tax positions and has concluded that as of the December 31, 2015, the Organization does not have any significant uncertain tax positions for which a reserve would be necessary.

1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Receivables from Non-Customers

Commission revenue and others fees due from the clearing broker and investment companies but not yet received that are expected to be collected within one year are recorded as receivables from non-customers at a net realized value. If amounts become uncollectible, they will be charged to the operations when that determination is made.

Use of Estimates

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclose contingent assets and liabilities at the date of the financial statements and the reported amounts of the revenues and expenses during the reporting period. Actual results could differ from the estimates.

Date of Management's Review

Management has evaluated subsequent events through February 24, 2016, which is the date the financial statements were available to be issued.

2) FAIR VALUE MEASUREMENTS

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures of investments in equity securities and mutual funds that are classified as available-for-sale on a recurring basis.

The Fair Market Value Measurements Topic of the FASB Accounting Standards Codification defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. The disclosures required under this Topic have been included in this note.

Fair Value Hierarchy

The Fair Market Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair market value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy give the highest priority to unadjusted quoted prices in active

2) FAIR VALUE MEASUREMENTS (CONT'D)

markets for the identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

Determination of Fair Value

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy.

Cash Value and Cash Equivalents, Short Term Financial Instruments, Receivables from Non-Customers and Accounts Payable

The carrying amounts approximate fair value because of the short maturity of instruments.

Investments in Equity Securities and Mutual Funds

Investments in equity securities and mutual funds that are classified as available-for-sale are recorded at fair value on a recurring basis. Investments in equity securities are valued at the closing price reported on the active market on which the individual securities are traded. Investments in mutual funds are valued at the net asset value ("NAV") of shares held by the Company at year-end. Management believes that the valuations used in its financial statements are reasonable and are appropriately classified in the fair value hierarchy. Realized gains and losses, determined using the specific identification method, are included in earnings, as are unrealized ordinary gains and losses.

We have reviewed management's statements, included in the accompanying Rule 15c3-3 Exemption Report in which (1) Family Investors Company, Inc identified the following provisions of 17 C.F.R. section 15c3-3(k) under which Family Investors Company, Inc. claimed an exemption from 17 C.F.R. section 240.15c3-3: 2(ii) (the "exemption provisions) and (2) Family Investors Company, Inc. stated that it has met the identified exemption provisions through the most recent fiscal year without exception. Family Investors Company, Inc's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph k(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
