REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Director of
Setter Capital Inc.

We have audited the accompanying statement of financial condition of Setter Capital Inc. (Company) as of December 31, 2015. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Setter Capital Inc. as of December 31, 2015, in conformity with accounting principles generally accepted in the United States.

The computation of net capital under rule 15c3-1 of the Securities and Exchange Commission, reconciliation of the computation of net capital as filed in Part IIA of Form X-17A-5, and computation for determination of reserve requirements and possession or control requirements under Rule 15c3-3 of the Securities and Exchange Commission (together "supplemental information") has been subjected to audit procedures performed in conjunction with the audit of Setter Capital Inc. financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Notes to Statement of Financial Condition *(Expressed in U.S. Dollars)*

Year Ended December 31, 2015

1. Organization and Description of Business

Setter Capital Inc. ("Setter" or the "Company") is incorporated under the Ontario Business Corporation Act. The Company is a registered broker and dealer in securities under the Securities Exchange Act of 1934. Setter is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"), and the Securities Investor Protection Corporation. The Company computes its regulatory net capital under the basic method of Securities and Exchange Commission ("SEC") Uniform Net Capital Rule 15c3-1. The Company's primary source of revenue is concession fees earned acting as an intermediary to investment banking transactions. The Company's office is in Toronto, Canada.

2. Summary of Significant Accounting Policies

The Company maintains its financial records in United States dollars. These financial statements have been prepared on a going concern basis in accordance with generally accepted accounting principles in the United States of America. The significant accounting policies are as follows:

Revenue Recognition

Concession fees are earned from successful investment banking intermediary transactions of non-registered customer investments. The fees earned are contingent upon the successful completion of the underlying transaction for which the services are rendered. As such, the Company records this revenue as earned upon successful completion of a transaction.

Cash and Cash Equivalents

Cash and cash equivalents comprise cash on deposit and other highly liquid short term investments maintained with major financial institutions in Canada. Deposits with these institutions may exceed the amount of insurance (\$200,000) provided on such deposits. These deposits bear minimal credit risk as they are generally redeemable on demand.

Accounts Receivable

Accounts receivable consists of trade receivables for concession fees earned as intermediary from successful investment banking transactions. The Company regularly reviews its accounts receivable for potential bad debts. The review for bad debts is based on an analysis of the Company's collection experience, customer credit worthiness, and current economic trends. Based on management's review of accounts receivable, no allowance for doubtful accounts is considered necessary at December 31, 2015.

Depreciation

Furniture and equipment are recorded at cost less depreciation. Depreciation is calculated using the declining balance method at rates sufficient to depreciate these assets over their estimated useful lives of typically three to five years.

2. Summary of Significant Accounting Policies (Continued)

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the year that includes the date of enactment.

Foreign Currency Translation

The Company's functional currency is the U.S. dollar as it is this currency that primarily influences the market price of concession fees earned. Monetary assets and liabilities related to foreign currency balances are translated into U.S. dollars at the exchange rates in effect at the date of the statement of financial condition. Non-monetary assets and liabilities related to foreign currency transactions and revenue and expenses related to foreign currency transactions are translated into U.S. dollars at the exchange rate prevailing at the transaction dates. Realized and unrealized gains or losses resulting from foreign currency translation and transactions are included in net income for the period to which they relate.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United State of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from those estimates.

Fair Value

U.S. Generally Accepted Accounting Principles (GAAP) defines fair value, expands disclosure requirements related fair value and specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1: Quoted prices for identical instruments in active markets.
- Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy required the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

3. Regulatory Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1). Under this rule, the Company is required to maintain minimum net capital and an allowance ratio of aggregate indebtedness to net capital, as defined under this Rule, not exceeding 15 to 1. Under the basic method, the Company is required to maintain minimum net capital equal to the greater of \$5,000 and 6.67% of aggregate indebtedness. At December 31, 2015, the Company had net capital of approximately \$7,928,000, which is in excess of the required minimum net capital of \$846,000. The Company's net capital ratio of aggregate indebtedness to net capital was 1.6 to 1.

FINRA, the Company's designated self-regulatory organization, has certain additional capital requirements which provide that equity capital may neither be withdrawn nor may cash dividends be paid if the resulting net capital would be less than the greater of 5% of the calculated aggregate debits and 120% of required minimum net capital.

4. Cash and Cash Equivalents

The Company's cash and cash equivalents comprise of cash on deposit of \$10,555,654 and highly liquid short term investments of \$378,745, both with a major financial institution in Canada.

5. Common Stock

		2015
Authorized:	Unlimited number of Common Shares and non-voting Special Shares	
Issued:	1,000 common shares	\$ 81,450

6. Lease Commitment

Setter leases its premises under an operating lease that expires in 2017. Future minimum lease payments, by year and the aggregate, are as follows:

Year	
2016	\$ 25,914
2017	11,923
	\$ 37,837

Under the terms of the lease, Setter is also required to pay its proportionate share of common area maintenance costs and property taxes.

Year Ended December 31, 2015

7. Due to Shareholder

The amount due to shareholder is an unsecured, non-interest bearing advance that is due and payable on demand.

8. Financial Instruments

Fair Values

The carrying amount of cash and cash equivalents, accounts receivable, due to shareholder and accounts payable and accrued liabilities approximates their fair value due to their short-term, demand nature or imminent maturity.

Credit Risk Management

The Company is exposed to credit risk on its accounts receivable. The credit risk on accounts receivable is minimized as all transactions involve large well established financial institutions.

Currency Risk

Approximately 21% of Setter's revenues are denominated in Euros. Consequently, this portion of concession revenues and related accounts receivables are exposed to foreign currency exchange fluctuations. As at December 31, 2015, the Company had €Nil and Cdn \$7,112,884 on deposit at major Canadian financial institutions.

The Company pays its income, payroll and sales in Canadian dollars, which are exposed to foreign currency exchange fluctuations.

9. Income Taxes

Setter's only permanent establishment is in Canada, as such it is only subject Canadian income taxes. In Canada, the general combined statutory federal and provincial income tax rate is 26.50%. As a Canadian controlled private corporation, the Company is eligible for the Canadian small business rate reduction, which reduces its tax rate to 15.5% on the first Cdn\$500,000 of taxable income.

The Company remains open to federal and provincial examinations for fiscal years December 31, 2012 and forward. The Company had no deferred tax asset or valuation allowance at December 31, 2015.

10. Subsequent Events

There are no subsequent events through the date the financial statements are issued that are required to be disclosed.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Director
Setter Capital Inc.

We have reviewed management's statements, included in the accompanying Management Statement Regarding Compliance with Certain Provisions of SEC Rule 17A-5, in which (1) Setter Capital Inc. (Company) identified the following provisions of 17 C.F.R. § 15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3: (k)(2)(i) (the "exemption provisions") and (2) the Company stated that Setter Capital Inc. met the identified exemption provisions throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(i) of Rule 15c3-3 under the Securities Exchange Act of 1934.

Exemption Report

Year Ended December 31, 2015

Setter Capital Inc. (the "Company") is a registered broker-dealer subject to Rule 17a-5 promulgated by the Securities and Exchange Commission (the "SEC") (17 C.F.R. 240.17a-5), "Reports to be made by certain Brokers and Dealers". This Exemption Report was prepared as required by 17 C.F.R.240.17a-5(d)(1) and (4). To the best of its knowledge and belief, the Company states the following:

- a) The Company claimed an exemption from SEC Rule C.F.R. 240.15c3-3 under the provisions of 17 C.F.R. 16c3-3(k)(2)(i).
- b) The Company does not handle cash or securities on behalf of customers and therefore, met the identified exemption provisions in 17 C.F.R. 240.15c3-3(k) throughout the year ended December 31, 2015, without exception.
