NOTE A – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business:

Midland Securities, Ltd., formerly Weller, Anderson & Co., Ltd. (the "Partnership"), is a Texas limited partnership established in June 1985. The managing general partner of the Partnership is ARS Windchase, Inc., a Nevada corporation (the "General Partner"). Unless dissolved sooner by the General Partner, the term of the Partnership shall continue until December 31, 2031.

The Partnership is registered as a broker-dealer with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC). The Partnership operates under the exemptive provisions of SEC Rule 15c3-3(k)(2)(ii) of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The Partnership does not hold customer funds or securities and clears all transactions on behalf of customers on a fully disclosed basis through a clearing broker-dealer. The clearing broker-dealer carries the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer. The Company's trading for its own account is also executed through its clearing broker-dealer. Under these exemptive provisions, the Computation for Determination of Reserve Requirements and Information Relating to the Possession and Control Requirements are not required.

The Partnership's operations consist primarily of trading of debt securities for its own account and brokering debt securities for institutional customers. The Partnership also trades debt securities in the secondary wholesale market. The Partnership's trading and brokering consist primarily in U.S. government securities, mortgage backed securities, municipal bonds and certificates of deposit issued by banking institutions. The majority of the Partnership's customers are institutions and broker-dealers located throughout the United States.

Significant Accounting Policies:

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Debt Securities

Debt securities are held for trading purposes, recorded on the trade date and valued at their estimated fair value, as described in Note B. The increase or decrease in fair value is included in trading profits in the accompanying statement of operations.

NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property and Equipment

. -

Property and equipment is stated at the cost less accumulated depreciation and consists of office furniture and equipment. Depreciation is provided using the straight-line method over estimated useful lives of two to five years.

Revenue Recognition

Trading profits, securities commissions and the related expenses are recorded on a trade date basis as the transactions occur. Customer security transactions that are executed through the Partnership's proprietary trading account are recorded on a trade date basis as principal commission revenues. The related expenses are also recorded on a trade date basis.

Income Taxes

Taxable income or loss of the Partnership is included in the income tax returns of the partners; therefore, no provision for federal income taxes has been made in the accompanying financial statements.

As of December 31, 2015, open Federal tax years subject to examination include the tax years ended December 31, 2012 through December 31, 2014.

The Partnership is subject to state income taxes.

NOTE B - FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair Value Hierarchy

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Partnership can access at the measurement date.
- Level 2. Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- Level 3. Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Processes and Structure

Management is responsible for the Partnership's fair value valuation policies, processes, and procedures. Management implements valuation control processes to validate the fair value of the Partnership's financial instruments measured at fair value, including those derived from pricing models. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and that the assumptions are reasonable.

NOTE B – FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Fair Value Measurements

The following is a description of the valuation techniques applied to the Partnership's major categories of assets and liabilities measured at fair value on a recurring basis.

Investments in debt securities are carried at estimated fair values and categorized as level 2 of the fair value hierarchy. Fair value has been measured by the Partnership's clearing broker-dealer or by pricing services used by the clearing broker-dealer using the actual trading prices of similar securities. When trading prices are not available for similar securities the pricing services use market observable inputs in determining the valuation for a security based on underlying characteristics of the debt instruments.

Substantially all of the Partnership's other financial asset and liability amounts reported in the statement of financial condition are short term in nature and approximate fair value.

The following table summarizes the valuation of the Partnership's major security types by the fair value hierarchy levels as of December 31, 2015.

| ASSETS | Le | <u>vel 1</u> | Level 2 | Le | <u>vel 3</u> | Total |
|-----------------|----|--------------|-----------------|----|--------------|-----------------|
| Debt Securities | \$ | - | \$ 6,994,850 | \$ | - | \$ 6,994,850 |
| Total | \$ | _ | \$ 6,994,850 | \$ | ** | \$ 6,994,850 |

Transfers between levels are recognized at the end of the reporting period. During the year ended December 31, 2015, the Partnership recognized no transfers to/from level 1 and level 2. There were no level 3 investments held by the Partnership during 2015.

NOTE C – TRANSACTIONS WITH CLEARING BROKER-DEALER

The Partnership has a clearing agreement with Hilltop Securities, Inc. (Hilltop), to provide execution and custody of debt security transactions for customers and trading for its own account. Clearing charges are incurred at a fixed rate multiplied by the number of tickets traded by the Partnership. The clearing agreement requires the Partnership to maintain a minimum clearing deposit of \$500,000.

The Partnership also has a trading deposit with Hilltop in the amount of \$3,998,963 at December 31, 2015. The trading deposit is required to satisfy margin requirements associated with the Partnership's trading inventory. The amount of margin required fluctuates on a daily basis depending on the amount and type of securities held in the Partnership's inventory trading accounts.

NOTE C – TRANSACTIONS WITH CLEARING BROKER-DEALER (continued)

The Partnership had a payable to Hilltop of \$6,931,242 at December 31, 2015. The payable balance fluctuates on a daily basis as the Partnership purchases and sells securities through Hilltop for its own account. Interest is calculated daily (1.33% at December 31, 2015), based on a fixed spread over the federal funds rate and is paid monthly. The Partnership's debt securities are held by Hilltop as collateral for the payable balance.

NOTE D – NET CAPITAL REQUIREMENTS

The Partnership is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2015, the Partnership had net capital of \$4,829,880, which was \$4,729,880 in excess of its required net capital of \$100,000. The Partnership's ratio of aggregate indebtedness to net capital was .03 to 1 at December 31, 2015.

NOTE E – RELATED PARTY TRANSACTIONS

Liberty Bankers Life Insurance Company (Liberty), a related party, acts as a common paymaster for the Partnership and regularly advances payroll and other costs on behalf of the Partnership, which the Partnership settles on a regular basis. There is \$78,109 due to Liberty at December 31, 2015 related to payroll advances. The Partnership incurred and paid administrative and management fees to Liberty in the amount of \$150,000 during the year.

The Partnership's corporate office space, located in Dallas, TX, is provided by Liberty at no cost.

The Partnership is a participating employer in a 401(k) plan offered by Liberty. The plan covers substantially all employees. Under this plan, employees may make elective contributions as allowed under federal law and the Partnership may make matching and discretionary contributions. Employee contributions are vested immediately. For the year ended December 31, 2015 the Partnership made no matching or profit sharing contribution and did not incur any expenses related to the plan.

NOTE F – OFFICE LEASE

The Partnership leases branch office facilities in Montclair, NJ under a noncancelable operating lease through March 2016. The Partnership's corporate office space located in Dallas, TX is provided by a related party at no cost. Office rent expense for the year totaled \$20,876 and is reflected in the accompanying statement of operations as occupancy and equipment costs.

NOTE G - CONTINGENCIES

There are currently no asserted claims or legal proceedings against the Partnership, however, the nature of the Partnership's business subjects it to various claims, regulatory examinations, and other proceedings in the ordinary course of business. The ultimate outcome of any such future action against the Partnership could have an adverse impact on the financial condition, results of operations, or cash flows of the Partnership.

NOTE H – OFF-BALANCE-SHEET RISK

As discussed in Note A, the Partnership's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers of the Partnership and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Partnership. The Partnership seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

NOTE I – CONCENTRATION OF CREDIT RISK

The Partnership is subject to concentration risk by holding large positions in debt securities.

The Partnership has a receivable, debt securities, trading deposit, and a clearing deposit, held by and due from Hilltop totaling \$11,993,813 or approximately 98% of total assets at December 31, 2015.

At various times during the year, the Partnership maintains cash balances at a national bank in excess of federally insured amounts. At December 31, 2015, the partnership's uninsured cash balance totaled \$9,402. Cash balances fluctuate on a daily basis.

NOTE J – SUBSEQUENT EVENTS

Management has evaluated all events for recognition and disclosure subsequent to December 31, 2015 through March 11, 2016, which is the date financial statements were available to be issued.
