REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholder
of RenCap Securities, Inc.

We have audited the accompanying statement of financial condition of RenCap Securities, Inc. (the "Company") as of December 31, 2016, and the related notes to the financial statement. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the Company's internal control over financial reporting. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of RenCap Securities, Inc. as of December 31, 2016 in accordance with accounting principles generally accepted in the United States of America.

In connection with the Company's loan to its affiliate, the Company had communicated verbally to FINRA and did not submit written notifications to FINRA and SEC in accordance with SEC Rule 15c3-1(e)(1). As this loan is treated as non-allowable asset in the FOCUS report and reported as a reduction of stockholder's equity in the accompanying statement of financial condition, this loan has no impact in the computation of the Company's required net capital.

8. Commitments, Contingent Liabilities, and Concentration of Credit Risk

In the normal course of business, the Company enters into various equity transactions as the agent. The execution and settlement of these transactions can result in off-balance-sheet risk or concentrations of credit risk.

All trades outstanding at December 31, 2016, settled in a timely manner, resulting in no exposure to unsettled transactions as of December 31, 2016. Litigation

From time to time, the Company may be involved in ordinary routine litigation incidental to its business. Currently, there are no litigations against the Company.

Certain conditions may exist as of the date the financial statement is issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company, or un-asserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or unasserted claims, as well as the perceived merits of the amount of relief sought or expected to be sought therein.

During the normal course of business, the Company is subject to routine examinations by regulatory authorities. As of December 31, 2016, there are no outstanding issues as a result of these examinations that could have a material impact to the financial statement.

Indemnifications

The Company functions as an introducing broker that places and executes customer orders. The orders are then settled by an unrelated clearing organization that maintains custody of customers' securities. Through indemnification provisions in agreements with clearing organization, customer activities may expose the Company to off-balance sheet credit risk. Financial instruments may have to be purchased or sold at prevailing market prices in the event a customer fails to settle a
