Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholder
of Compass Securities Corporation

We have audited the accompanying statement of financial condition of Compass Securities Corporation as of June 30, 2017, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended. These financial statements are the responsibility of Compass Securities Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Compass Securities Corporation as of June 30, 2017, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The computation of aggregate indebtedness and net capital pursuant to Rule 15c3-1, and the computation for determination of reserve and information relating to possession or control requirements for broker/dealers under rule 15c3-3 have been subjected to audit procedures performed in conjunction with the audit of Compass Securities Corporation's financial statements. The supplemental information is the responsibility of Compass Securities Corporation's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion of the supplemental information, we evaluated whether the supplemental information, including its form and content, are presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the computation of aggregate indebtedness and net capital pursuant to Rule 15c3-1, and the computation for determination of reserve and information relating to possession or control requirements for broker/dealers under rule 15c3-3 are fairly stated, in all material respects, in relation to the financial statements as a whole.

	<u>\$ 2,250</u>

The Company is engaged in various trading and brokerage activities whose counterparties include other financial institutions. In the event counterparties do not fulfill their obligations the Company may be exposed to risk. The risk of default depends on the credit worthiness of the counterparty or issuer of the instrument. NOTE 5 - CONCENTRATIONS OF CREDIT RISK (continued)

The Company maintains cash in bank accounts in excess of the established limit insured by the Federal Deposit Insurance Corporation (FDIC).

NOTE 6 - FAIR VALUE

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.

Level 3 are unobservable inputs for the asset or liability and rely on management's own assumption about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

A qualifying asset or liability's level within the framework is based upon the lowest level of any input that is significant to the fair value measurement. The Company's qualifying assets or liabilities are recorded at fair value using Level 1 inputs.

NOTE 7 – UNCERTAINTY IN INCOME TAXES

Effective July 1, 2009, the Company adopted ASC Topic 740-10 Accounting for Uncertainty in Income Taxes, which required the Company to report any uncertain tax positions and to adjust its financial statements for the impact thereof. As of June 30, 2017, the Company determined that it had no tax positions that did not meet the “more likely than not” threshold of being sustained by the applicable tax authority. The Company files taxes and information returns in the United States Federal and Massachusetts state jurisdictions. These returns are generally subject to examination by the authorities for the last three years.

NOTE 8 – EMPLOYEE BENEFIT PLAN

The Company has adopted a defined contribution retirement plan covering substantially all employees meeting minimum age and service requirements. The Company at its discretion may contribute to the plan an amount designated by management. For the year ended June 30, 2017, the Company has contributed \$42,363 to the plan.

NOTE 9 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 3, 2017, the date on which the financial statements were available to be issued. There were no subsequent events that require adjustment or disclosure in the financial statements.

Review Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholder
of Compass Securities Corporation

We have reviewed management's statements, included in the accompanying Exemption Report, in which Compass Securities Corporation asserts...

The Company need not file an Exemption Report because the Company had no obligations under 17 C.F.R. §240.15c3-3 throughout the most recent fiscal year without exception, and

The Company business is limited to effecting transactions via subscription and does not hold customer funds or securities, nor carry customer accounts, and

The Company met the exemption throughout the most recent fiscal year without exception.

Compass Securities Corporation's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Compass Securities Corporation's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in Rule 15c3-3 under the Securities Exchange Act of 1934.
