1. Organization and Business

Feldman, Ingardona & Co. (the "Company"), an Illinois corporation, is a broker-dealer and an investment advisor registered with the Securities and Exchange Commission, and is a member of the Financial Industry Regulatory Authority. The Company conducts business primarily with retail customers that are located throughout the United States, and introduces that business on a fully-disclosed basis to a clearing broker.

2. Summary of Significant Accounting Policies

Revenue Recognition
Transactions in securities are recorded on the trade date.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Income Taxes
The Company has elected to be an "S corporation" under provisions of the Internal Revenue Code. Under those provisions, the Company does not pay federal corporate income taxes on its taxable income. The stockholders are liable for individual income taxes on the Company's taxable income.

In accordance with U.S. GAAP, the Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for the years before 2013. Based on its analysis, there were no tax positions identified by management which did not meet the "more likely than not" standard as of and for the year ended June 30, 2017.

3. Off-Balance Sheet Credit and Market Risk

Securities transactions of customers are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations (see Note 7 regarding guarantees). In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral, or reduce positions where necessary.

Amounts due from the clearing broker represent a concentration of credit risk and includes commissions received on securities transactions. The Company does not anticipate nonperformance by customers or its clearing broker. In addition, the Company has a policy of reviewing, as considered necessary, the clearing broker with which it conducts business.

4. Fair Value Disclosure

In accordance with U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. A fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 Inputs – Valuation is based on quoted prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs – Valuation is based on other than quoted prices included in Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly.

Level 3 Inputs – Valuation is based on unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

The availability of valuation techniques and observable inputs can vary from investment to investment and is affected by a wide variety of factors, including, the type of investment, whether the investment is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the investments existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for investments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement.

At June 30, 2017, the Company held no Level 1, Level 2 or Level 3 investments.

5. Commitments

The Company leases office space under a non-cancelable operating lease agreement that expires on February 28, 2018. Rent expense for the year ended June 30, 2017 totaled approximately $77,000.

The approximate minimum annual rental commitments under non-cancelable operating leases as of June 30, 2017 are as follows:

Year Ending June 30,	Amount
2018	$ 34,000
Total	$ 34,000

6. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) and has elected the "alternative method." Under this rule and method, the Company is required to maintain "net capital" equivalent to the greater of $250,000 or 2 percent of "aggregate debit items," whichever is greater, as these terms are defined.

At June 30, 2017, the Company had net capital and net capital requirements of $453,707 and $250,000, respectively.

7. Guarantees

Accounting Standards Codification Topic 460 ("ASC 460"), Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others. (See Note 3 regarding clearing guarantees).

8. Subsequent Events

The Company has evaluated the events and transactions that have occurred through August 22, 2017, the date the financial statements were issued, and noted no items requiring disclosure in the Company's financial statements.

In July 2017 the Company recorded net income of $276,570 and paid dividends to shareholders totaling $220,000.

We have reviewed management's statements, included in the accompanying Exemption Report (the "Exemption Report"), in which (1) Feldman, Ingardona & Co. (the Company) identified the following provisions of 17 C.F.R. §15c3-3 under which the Company claimed an exemption from 17 C.F.R. §240.15c3-3(k) (the "exemption provisions"); and (2) the Company stated that it met the identified exemption provisions throughout the year ended June 30, 2017 without exception. Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
