We have audited the accompanying statement of financial condition of Nestlerode & Loy, Inc. as of September 30, 2017, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of Nestlerode and Loy, Inc.'s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nestlerode and Loy, Inc. as of September 30, 2017, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report of Independent Registered Public Accounting Firm

Nestlerode & Loy, Inc. 110 Regent Court, Suite 202 State College, Pennsylvania

We have reviewed management's statements, included in the accompanying Exemption Report, in which 1) Nestlerode and Loy, Inc. identified the following provisions of 17 C.F.R. § 15c3-3(k) under which Nestlerode and Loy, Inc. claimed an exemption from 17 C.F.R. § 240.15c3-3: (2)(ii) (the "exemption provisions") and 2) Nestlerode and Loy, Inc. stated that Nestlerode and Loy, Inc. met the identified exemption provisions throughout the most recent fiscal year except as described in its exemption report. Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Nestlerode and Loy, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

NOTE 1 – Nature of Operations

Nestlerode & Loy, Inc. (formerly Nestlerode & Company, Inc.), (the "Company"), was incorporated on September 17, 1965, for the purpose of providing brokerage and investment advisory services and is registered with the Securities and Exchange Commission. The Company maintains an office in State College, PA.

NOTE 2 – Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term instruments purchased with a maturity of three months or less to be cash equivalents. There were no cash equivalents at September 30, 2017.

Allowance for Bad Debts

The Company considers accounts receivable to be fully collectible; accordingly, no allowance for bad debts is required.

Depreciation and Amortization

Fixed assets are recorded at cost. Furniture and equipment are depreciated using straight-line methods over 5 and 7 years. Leasehold improvements are generally depreciated using the straight line method over 20 years. Computer software costs are amortized using the straight line method over 3 years. Maintenance and repairs are expensed as incurred and the costs of additions and improvements are capitalized. Depreciation and amortization expenses totaled \$21,218 for the year ended September 30, 2017.

Income Taxes

The Company uses an asset and liability approach to financial accounting and reporting of income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax basis of assets and liabilities that will result in taxable income or which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Principal timing differences are due primarily to depreciation on property and equipment and charitable contributions expense.

As of September 30, 2017, the Company had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. Additionally, the Company had no interest and penalties related to income taxes.

The Company is no longer subject to U.S. federal and state income tax examinations by tax authorities for years before 2013.

Securities Owned

The Company classifies its marketable debt and equity securities as available for sale. Securities classified as available for sale are carried in the financial statements at fair value. Realized gains and losses are included in earnings; unrealized holding gains and losses are included in other comprehensive income.

Concentrations of Credit Risks

The Company's cash balances in financial institutions, at times, may exceed the Federal Deposit Insurance Corporation (FDIC) insured limits. The Company has not experienced any losses and believes it is not exposed to any significant credit risk.

NOTE 3 – Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule which requires the maintenance of minimum net capital. A computation of net capital under Rule 15c3-1 is included as Schedule I of this report.

NOTE 4 - Customer Accounts Fully Disclosed

The Company does not hold any customer securities. All such accounts are carried at RBC Correspondent Services, Minneapolis, Minnesota. Therefore, the Company claims exemption from the reporting requirements of Rule 15c3-3(k)(2)(ii).

NOTE 5 - Securities Owned

The Company held \$37,215 at September 30, 2017 in mutual funds. Fair values and unrealized holding gains and losses are summarized as follows:

	Cost	Fair Value	Unrealized Holding Gain (Loss)

				Tota	<u>al</u>

Fair Value:

The Company measures its financial instruments in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Section for Fair Value Measurements. This codification section clarifies the definition of fair value financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. Fair Value Measurements establishes a fair value hierarchy and specifies that a valuation technique used to measure fair value shall maximize the use of observable inputs and minimize the use of unobservable inputs. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Fair Value Measurements are described below:

NOTE 5 – Securities Owned (Continued)

Level 1 -- Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Entity has the ability to access at the measurement date;

Level 2 -- Inputs that are observable for substantially the full term of the asset or liability (other than quoted prices for the specific asset or liability in an active market), including quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in a nonactive market, inputs other than quoted prices, and inputs derived principally from or corroborated by observable market data by correlation or otherwise; and

Level 3 -- Prices, inputs or exotic modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

As required by the Codification Section for Fair Value Measurements, financial instruments are classified within the level of the lowest significant input considered in determining fair value. Financial instruments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

The tables that follow set forth information about the level within the fair value hierarchy at which the Company's financial instruments are measured at September 30, 2017.

	Fair Value Measurements
