INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Griffin Securities, Inc.
New York, NY

We have audited the accompanying statement of financial condition of Griffin Securities, Inc. as of September 30, 2017, that you are filing pursuant to rule 17a-5 under the Securities Exchange Act 1934. This financial statement is the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles use and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Griffin Securities, Inc. as of September 30, 2017, in conformity with accounting principles generally accepted in the United States.

NOTES TO STATEMENT OF FINANCIAL CONDITION
SEPTEMBER 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Griffin Securities, Inc., (the "Company"), is a securities broker-dealer servicing primarily institutional clients.

Revenue Recognition

The Company generates its revenues principally by providing investment banking and corporate finance services to domestic and international companies. Securities transactions and related expenses are recorded on a trade date basis. All securities transactions are cleared through ConvergEx on a fully disclosed basis. ConvergEx was purchased by Cowen Execution Services LLC on June 1, 2017.

Use of Estimates

The preparation of the Statement of Financial Condition in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingencies in the Statement of Financial Condition. Actual results could differ from the estimates included in the Statement of Financial Condition.

Cash and Cash Equivalents

Cash and cash equivalents include investments in money market funds.

Marketable Securities

Marketable securities are valued at market value with the resulting difference between cost and market included in income. At September 30, 2017, the Company's total unrealized loss with respect to these securities was \$43,742.

Concentration of Cash

The Company maintains cash accounts with Citibank, N.A. Deposits held in noninterest-bearing transaction accounts are aggregated with any interest-bearing deposits the owner may hold in the same ownership category, and the combined total is insured up to at least \$250,000.

Accounts Receivable

Accounts receivable are reported at the amount management expects to collect from outstanding balances. Differences between the amount due and the amount management expects to collect are reported in the results of operations of the year in which those differences are determined, with an offsetting entry to a valuation allowance for trade accounts receivable. Balances still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable.

Bad Debts

It is the policy of management to review outstanding receivables at year end, as well as the bad debt write offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements

The Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurement and Disclosure, defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In accordance with ASC Topic 820-10-35, the Company groups investments at fair value into three levels based on the markets in which the investments are traded and the reliability of the assumptions used to determine fair value. These levels are:

Basis of Fair Value Measurement

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 – Prices or valuation that require inputs that are significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

At September 30, 2017, the Company has classified all of its securities owned at fair market value and at Level 1 for ASC Topic 820-10-35 purposes.

Property and Equipment

Property and equipment are carried at cost, less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets ranging from 3 to 5 years.

Income Taxes

The Company is treated as a Subchapter C corporation for tax purposes. The provision for income taxes includes federal income and various state income and franchise taxes currently payable, and those deferred because of temporary differences between the financial statement and tax bases of assets and liabilities. Deferred income taxes result primarily from deductions and income recorded on the financial statements but not yet allowable or reportable for income tax purposes.

The Company uses the asset and liability method to account for deferred income taxes. The asset and liability method requires the recognition of deferred income tax liabilities and assets for the expected future tax consequences of temporary differences between tax bases and financial reporting bases of assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is not reasonably assured that some portion or all of the deferred tax assets will be realized.

The Company recognizes and measures tax positions taken or expected to be taken in its tax return based on their technical merit and assesses the likelihood that the positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Retirement Plan

The Company maintains a 401(k) retirement plan covering substantially all employees. The Company matches 100% of the first 4% of the active participant's compensation contributed to the plan.

2. OTHER CURRENT ASSETS

Other current assets consisted of the prepaid FINRA fee and prepaid insurance at September 30, 2017.

3. RELATED PARTY TRANSACTIONS

The Company subleases office space from a shareholder. The Company has assumed all of the obligations of the shareholder under the lease.

4. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At September 30, 2017, the Company had net capital of \$179,726, which was \$79,726 in excess of its required net capital of \$100,000. The Company's net capital ratio was 0.60 to 1.

5. INCOME TAXES

In assessing the realizability of any resulting deferred tax asset, management considers whether it is more likely than not that some portion of the deferred tax asset will not be materialized. The ultimate realization of the deferred tax asset is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management has determined that a valuation allowance against the deferred tax asset is appropriate in light of the companies operating loss. The Company has established approximately \$801,000 in federal and \$1,149,000 in state net operating loss carry forwards available to offset future taxable income. These carry forwards begin expiring in 2035.

The Company complies with the provisions of Accounting for Uncertainty in Income Taxes (FASB ASC 740-10). Under FASB ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. The Company has evaluated each of its tax positions and has determined that no additional provision or liability for uncertain income tax positions is necessary.

The Company files income tax returns in the U.S. federal jurisdiction and New York State. The Company is no longer subject to U.S. federal income tax examination by tax authorities for years before 2013.

6. LIABILITIES SUBORDINATED TO THE CLAIMS OF GENERAL CREDITORS

The Company has entered into Subordinated Debt Arrangements totaling \$550,000 with three different shareholders. Such arrangements all carry a 5% per annum interest rate and mature at various dates in 2019.

7. COMMITMENTS AND CONTINGENCIES

The Company has entered into an agreement with its clearing firm to clear its securities transactions and to provide custodial and other services for which it pays a fee on a per transaction basis and interest on amounts borrowed. In connection with its clearing agreement, the Company must maintain a minimum deposit of \$100,000.

The Company sub-leases office space from a shareholder under an operating lease that expires in 2020.

The following is a schedule by year of future minimum lease payments required under the lease as of September 30, 2017:

Year ending September 30,	
2018	\$ 308,994
2019	308,994
Thereafter	<u>51,499</u>
	<u>\$ 669,487</u>

8. SUBSEQUENT EVENTS

Subsequent events were evaluated through the date the Statement of Financial Condition was available to be issued.
