REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

MARTINSON & COMPANY, LTD.

We have audited the accompanying statement of financial condition of Martinson & Company, Ltd. (the Company) as of June 30, 2017, and the related statements of operations, changes in stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Martinson & Company, Ltd. as of June 30, 2017, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States.

The information contained in Schedules I, II, III, and IV (together "supplemental information") has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

(1) Nature of business and significant accounting policies

Nature of business - Martinson & Company, Ltd. (the Company) provides investment banking and advisory services to corporate clients regarding strategic financial and general business matters. The Company is registered as a broker-dealer with the United States Securities and Exchange Commission and the Financial Industry Regulatory Authority, Inc. From time to time, the Company performs services for clients with revenues sufficient to define this client as a major client. While such relationships are considered significant relationships, the clients change annually. The Company's 2017 investment banking activities and advisory services generated \$5,000 in revenues.

Significant accounting policies:

Accounts receivable - Accounts receivable are customer obligations due under normal trade terms requiring payment within 30 days of the invoice date. Unpaid accounts receivable which are past due are not charged a monthly service fee.

Accounts receivable are stated at the amount billed to the customer. Customer account balances with invoices dated over 90 days old are considered delinquent.

Payments of accounts receivable are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the oldest invoices on the customer's account.

1. 1. p

The carrying amount of accounts receivable is reduced by a bad debt allowance that reflects management's best estimate of the accounts that will not be collected. Management reviews all accounts receivable balances and determines an appropriate course of action on a delinquent account.

Revenue recognition - Investment banking fee income is recognized when earned, typically upon closing of the transaction. Income from consulting is recognized monthly upon completion of the services provided.

Income taxes - Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. The Company's temporary differences relate primarily to operating loss carryforwards. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The Company recognizes a liability for uncertain tax matters using a "more likely than not" threshold. Uncertain tax positions are identified and evaluated based on the likelihood that the position will be sustained after scrutiny by the applicable taxing authority.

When tax positions do not meet the "more likely than not" threshold a cumulative probability assessment is performed in the aggregate to determine the estimated tax liability for all uncertain tax positions. Interest and penalties assessed, if any, are accrued as

income tax expense. The Company's assessment has not identified any significant positions that it believes would not be sustained under examination.

Concentration of credit risk - As a broker and dealer, the Company is engaged in various securities trading and brokerage activities servicing a diverse group of corporate and individual investors. The Company's exposure to credit risk associated with the nonperformance of these customers in fulfilling their contractual obligations pursuant to securities, options and commodities transactions can be directly impacted by volatile securities markets, credit markets and regulatory changes which may impair the customer's ability to satisfy their obligations to the Company.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent events policy - Subsequent events have been evaluated through August 23, 2017 which is the date the financial statements were issued.

(the Company) identified the following provisions of 17 C.F. R. § 15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3(k): (2)(i) (the "exemption provisions") and (2) the Company stated that it met the identified exemption provisions throughout the year ended June 30, 2017 without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statement referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(i) of Rule 15c3-3 under the Securities Exchange Act of 1934.
