Note 2 – Summary of Significant Accounting Policies

Basis of Presentation. These financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”), which require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Cash. Cash includes cash and all highly liquid debt investments with a remaining maturity of three months or less when purchased. At times, cash may exceed the insurance limits of the Federal Deposit Insurance Corporation. Management believes its risk of loss is mitigated by investing through major financial institutions.

Money Market Securities. The Company classifies its money market securities as trading securities and records these securities at fair value. The change in fair value related to trading securities is included in other revenue in the Statement of Operations. These securities include investments in money market registered investment companies.

JOHN HANCOCK FUNDS, LLC
NOTES TO FINANCIAL STATEMENTS

Deferred Selling Commissions. On July 1, 2013, the Company discontinued selling Class B-shares. The Company formerly paid a selling commission to the selling broker/dealer for sales of the Funds that do not have a front-end sales charge, for Class B-shares, which also carry Contingent Deferred Sales Charges (“CDSC”). B-shares selling commissions are capitalized as deferred selling commissions, and are amortized on a straight-line basis over periods not to exceed six years. The Company also pays a selling commission to the selling broker/dealer for Class C-Shares. C-Share selling commissions are also capitalized as deferred selling commissions, and are amortized on a straight-line basis over a period not to exceed one year.

The amortization periods are intended to approximate the period of time expected to be benefited, that is the period during which fees earned pursuant to Rule 12b-1 distribution plans are received from the Funds and CDSC payments are received from shareholders of the Funds upon redemption of Class B and C-shares. Upon receipt of CDSC payments, the Company records additional amortization to arrive at an estimate of the remaining unamortized deferred selling commission applicable to the shares redeemed. On an annual basis, the Company tests for impairment and none was noted for the year ended December 31, 2016.

Intangible Assets. Intangible assets include the distribution network of sales agents and producers responsible for procuring business. As a result of the acquisition of John Hancock by MFC in 2004, \$16,936,000 was initially recognized as the fair value of the distribution networks. Distribution networks are amortized over their respective estimated lives in other selling, general, and administrative expenses. Management determined at inception that these other intangible assets have an estimated definite life of 28 years.

Amortizing intangible assets are reviewed for impairment only upon the occurrence of certain triggering events. Impairments are recorded whenever the other intangible asset’s fair value is deemed to be less than its carrying value.

Software. Software consists of customer relationship management software and other software development costs for internal-use which are amortized on a straight-line basis up to a 5-year useful life. The amortization period commences when the software is ready for use, and is intended to approximate the period of time over which the Company will benefit from the functionality of the software. The Company assesses the expected future benefit of the software at least annually to determine whether the value of the asset should be impaired.

Fair Value Measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (not a forced liquidation or distressed sale) between market participants at the measurement date; that is, an exit value.

The Company categorizes its fair value measurements according to a three-level hierarchy. The hierarchy prioritizes the inputs used by the Company’s valuation techniques. A level is assigned to each fair value measurement based on the lowest level input significant to the fair value measurement in its entirety. The three levels of the fair value hierarchy are defined as follows:

JOHN HANCOCK FUNDS, LLC

NOTES TO FINANCIAL STATEMENTS

- Level 1 – Fair value measurements that reflect unadjusted, quoted prices in active markets for identical assets that the Company has the ability to access at the measurement date.
- Level 2 – Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 – Fair value measurements using significant nonmarket observable inputs. These include valuations for assets that are derived using data, some or all of which is not market observable data, including assumptions about risk.

Cash and money market securities are classified within Level 1 of the fair value hierarchy and based on quoted market prices. Additionally, there were no transfers into or out of Level 1, Level 2, or Level 3 during the year ended December 31, 2016. The Company's policy is to record such transfers at their fair values as of the end of each reporting period, consistent with the date of the determination of fair value.

Revenue Recognition. Selling commissions are recorded on the trade date. CDSC commissions are recognized as income when received. Fees earned pursuant to Rule 12b-1 distribution plans are recorded in the period in which the service is rendered. Other revenue includes interest income which is recognized on an accrual basis.

Income Taxes. The provision for federal income taxes includes amounts currently payable or recoverable and deferred income taxes, computed under the liability method, resulting from temporary differences between the tax and financial statement bases of assets and liabilities. A valuation allowance is established for deferred tax assets when it is more likely than not that an amount will not be realized. In accordance with the income tax sharing agreement in effect for the applicable tax year, the income tax provision (or benefit) is computed as if each entity filed a separate federal income tax return with tax benefits provided for operating losses and tax credits when utilized and settled by the consolidated group. Intercompany settlements of income taxes are made through an increase or reduction to due from affiliated companies. Such settlements occur on a periodic basis in accordance with the tax sharing agreements.

Foreign Currency Translation. Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). Transactions in a foreign currency are initially recorded at the functional currency rate prevailing at the date of the transaction. Revenues and expenses are translated using the average exchange rates during the year. Gains or losses on foreign currency transactions are reflected in earnings.

Recently Adopted Accounting Pronouncements

Going Concern. In August 2014, the Financial Accounting Standards Board ("FASB") issued guidance regarding management's assessment of an entity's ability to continue as a going concern. The pronouncement requires management to assess the entity's ability to continue as a going concern, and provide footnote disclosures when conditions give rise to substantial doubt about an entity's ability to continue as a going concern within one year from the financial

JOHN HANCOCK FUNDS, LLC
NOTES TO FINANCIAL STATEMENTS

statement issuance date. The new guidance was effective in the first annual period ending after December 15, 2016. The adoption of this guidance had no impact on the Company's financial condition, results of operations, and financial statement disclosures.

Future Adoption of Recent Accounting Pronouncements

Revenue Recognition

In May 2014, the FASB issued a new revenue recognition standard that will supersede virtually all revenue recognition guidance in U.S. GAAP. The new standard clarifies revenue recognition principles, provides a robust framework for recognizing revenue and cash flows arising from contracts with customers and enhances qualitative and quantitative disclosure requirements. Accordingly, the adoption of this standard may impact the Company's revenue recognition and could result in additional financial statement disclosure. The new standard is effective for fiscal years beginning after December 15, 2017, with early adoption permitted for fiscal years beginning after December 15, 2016. The Company will be required to apply the standard retrospectively, either using a full retrospective or a modified retrospective approach. The Company is assessing the impact of this standard.

Lease Accounting

In February 2016, the FASB issued updated guidance that requires the rights and obligations associated with leasing arrangements be reflected on the balance sheet in order to increase transparency and comparability among organizations. Under the updated guidance, lessees will be required to recognize a right-of-us asset and liability to make lease payments and disclose key information about leasing arrangements. The updated guidance is effective for fiscal years periods beginning after December 15, 2019. The Company is assessing the impact of the guidance.

Note 3 – Related Party Transactions

Management believes the allocation methods used are reasonable and appropriate in the circumstances; however, the Company's Statement of Financial Condition and Statement of Operations may not necessarily be indicative of the financial condition and results that would have existed if the Company operated as an unaffiliated entity.

Distribution Agreements. As the wholesale distributor and/or underwriter for the Funds managed by Advisers, the Company has distribution agreements with the Funds pursuant to which the Company earns selling commissions by making the Funds available to broker/dealers unrelated to JHUSA and to registered representatives of Signator Investors, Inc. ("Signator"), an indirect wholly-owned subsidiary of JHUSA. The Company reimburses Signator for certain marketing expenses. These expenses totaled \$246,711 for the year ended December 31, 2016 and are included in marketing support expenses on the Statement of Operations.

JOHN HANCOCK FUNDS, LLC
NOTES TO FINANCIAL STATEMENTS

Rule 12b-1 Distribution Plans. The Company receives payments from Rule 12b-1 distribution plans adopted by certain Funds pursuant to Rule 12b-1 of the Investment Company Act of 1940, as amended. These plans are subject to annual review and approval by the independent trustees of each of the Funds. Under the terms of the distribution plans, each Fund makes monthly payments (fees earned pursuant to Rule 12b-1 distribution plans) which will not exceed the lesser of a set percentage of each Fund's average daily net assets on an annual basis or the pro rata share of the Company's costs of distribution incurred on behalf of each Fund. The Company incurred and paid John Hancock Distributors LLC ("Distributors") Rule 12b-1 distribution fees for distributing certain funds on behalf of the Company of \$24,899,234 for the year ended December 31, 2016 and are included in Rule 12b-1 service fees paid in the Statement of Operations.

Due from/to Affiliated Companies. Due from affiliated companies at December 31, 2016 included certain operating expenses paid by the Company on behalf of Advisers. Generally, these are settled monthly.

Due to affiliated companies at December 31, 2016 includes 12b-1 fee expenses, broker support expenses, payroll related expenses and other administrative expenses paid on behalf of the Company by Distributors, Signator, John Hancock Signature Services, Inc. ("Signature Services"), JHUSA, Manufacturers Life Insurance Company ("MLI") and MFC. Generally, these are settled monthly.

John Hancock Funds, LLC

We have reviewed management's statements, included in the accompanying exemption report pursuant to SEC Rule 15c3-3, in which (1) John Hancock Funds, LLC (the Company) identified the following provisions of 17 C.F.R. § 15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3: ((2)(i)) (the "exemption provision") and (2) the Company stated that it met the identified exemption provision throughout the most recent fiscal year ended December 31, 2016 without exception. Management is responsible for compliance with the exemption provision and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)((2)(i)) of Rule 15c3-3 under the Securities Exchange Act of 1934.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5 under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and other recipients specified by Rule 17a-5(d)(6) and is not intended to be and should not be used by anyone other than these specified parties.
