NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of various exchanges and the Financial Industry Regulatory Authority (FINRA). The Company is a Delaware limited liability company organized April, 1999 and owned by McDermott Holdings I Limited Partnership. The Company provides brokerage and investment related services for companies and individuals throughout the United States.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term debt securities purchased with an original maturity of three months or less to be cash equivalents.

Accounts and Notes Receivable

Receivables from broker-dealers represent amounts due for commissions and fees earned on investment transactions performed on behalf of customers. The receivables are reported at their outstanding balance reduced by the allowance for doubtful accounts, if any.

Notes receivable are comprised of uncollateralized advances made to unrelated parties which have various interest rates and maturity dates. The receivables are reported at their outstanding balance reduced by the allowance for doubtful accounts, if any.

The allowance for doubtful accounts is increased by charges to income and decreased by chargeoffs (net of recoveries). Management's periodic evaluation of the adequacy of the allowance is based on the Company's past collection experience, known and inherent risks of the customers and entities comprising the Company's accounts and notes receivable balances, adverse situations that may affect the customers' and entities' ability to pay, and current economic conditions. Accounts and notes receivable are charged off when management deems the receivable balance to be uncollectible.

The allowance for doubtful accounts at December 31, 2016 was \$30,000.

NOTE 11. FAIR VALUE MEASUREMENTS

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are based on unadjusted quoted market prices within active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs that are observable for the asset or liability, either directly or indirectly
- Level 3 inputs are observable inputs for the asset or liability and rely on management's own assumptions about assumptions that market participants would use in pricing the asset or liability.

Securities owned are classified as trading securities. Changes in the fair market value are reported in the statement of earnings.

Fair values of assets measured on a recurring basis as of December 31, 2016, are as follows:

	Fair Value Measures at Reporting Date Using:			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
ASSETS				
Securities Owned:				
Equities	\$ 618	\$ 618	\$ -	\$ -
Money Market	4,152,637	4,152,637	-	-
Total	<u>\$ 4,153,255</u>	<u>\$ 4,153,255</u>	<u>\$ -</u>	<u>\$ -</u>
LIABILITIES				
Securities Sold - not Yet Purchased				
Equities	<u>\$ 978</u>	<u>\$ 978</u>	<u>\$ -</u>	<u>\$ -</u>

All assets have been valued using a market approach. There have been no changes in valuation techniques and related inputs.
